COUNTY OF NASSAU

LOBBYIST REGISTRATION AND DISCLOSURE FORM

1. Name, address and telephone number of lobbyist(s)/lobbying organization. The term "lobbyist" means any and every person or organization retained, employed or designated by any client to influence - or promote a matter before - Nassau County, its agencies, boards, commissions, department heads, legislators or committees, including but not limited to the Open Space and Parks Advisory Committee and Planning Commission. Such matters include, but are not limited to, requests for proposals, development or improvement of real property subject to County regulation, procurements. The term "lobbyist" does not include any officer, director, trustee, employee, counsel or agent of the County of Nassau, or State of New York, when discharging his or her official duties.

We do not utilize lobbyists or a lobbying organization.

2. List whether and where the person/organization is registered as a lobbyist (e.g., Nassau County, New York State):

We do not utilize lobbyists or a lobbying organization.

3. Name, address and telephone number of client(s) by whom, or on whose behalf, the lobbyist is retained, employed or designated:

We do not utilize lobbyists or a lobbying organization.

4. Describe lobbying activity conducted, or to be conducted, in Nassau County, and identify client(s) for each activity listed. See the last page for a complete description of lobbying activities.

We do not utilize lobbyists or a lobbying organization.

5. The name of persons, organizations or governmental entities before whom the lobbyist expects to lobby:

We do not utilize lobbyists or a lobbying organization.

6. If such lobbyist is retained or employed pursuant to a written agreement of retainer or employment, you must attach a copy of such document; and if agreement of retainer or employment is oral, attach a written statement of the substance thereof. If the written agreement of retainer or employment does not contain a signed authorization from the client by whom you have been authorized to lobby, separately attach such a written authorization from the client.

7. Has the lobbyist/lobbying organization or any of its corporate officers provided campaign contributions pursuant to the New York State Election Law in (a) the period beginning April 1, 2016 and ending on the date of this disclosure, or (b), beginning April 1, 2018, the period beginning two years prior to the date of this disclosure and ending on the date of this disclosure, to the campaign committees of any of the following Nassau County elected officials or to the campaign committees of any candidates for any of the following Nassau County elected offices: the County Executive, the County Clerk, the Comptroller, the District Attorney, or any County Legislator?

YES NO If yes, to what campaign committee? If none, you must so state:

I understand that copies of this form will be sent to the Nassau County Department of Information Technology ("IT") to be posted on the County's website.

I also understand that upon termination of retainer, employment or designation I must give written notice to the County Attorney within thirty (30) days of termination.

VERIFICATION: The undersigned affirms and so swears that he/she has read and understood the foregoing statements and they are, to his/her knowledge, true and accurate.

The undersigned further certifies and affirms that the contribution(s) to the campaign committees listed above were made freely and without duress, threat or any promise of a governmental benefit or in exchange for any benefit or remuneration.

Electronically signed and certified at the date and time indicated by:

Attachment to Question 13:

1. On 4/23/2021, ACV was charged with, 8(a)(5) Refusal to Bargain/Bad Faith Bargaining (incl'g surface bargaining/direct dealing) by the National Labor Relations Board. Communications between ACV and the Charging Party resulted in the charge to be withdrawn on 7/8/2021.
2. ACV Environmental Services, Inc. is a sister company to Cycle Chem, Inc. Both companies were purchased in 2016 to create a larger environmental services firm. Before 2016, they were completely separate entities. Regarding the Perk Chemical spill reported occurring sometime between 1981-1985: The NJDEP v. Handy Harman, et. al., matter concerns an electronic component manufacturing facility operated by Handy Harman between 1966 and 1985. NJDEP alleges that these operations resulted in TCE contamination and is seeking damages and injunctive relief under New Jersey's Spill Compensation and Control Act and its Water Pollution Control Act. Cycle Chem, f/k/a Perk Chemical Co., Inc.'s connection to the site is as a former supplier of chemical solvents, including TCE, to defendant Handy Harman's facility. NJDEP alleges that a large amount of TCE was spilled from a Perk Chemical truck sometime between 1981 and 1985. Cycle Chem has no records of this spill. The only known witness has said that he saw the spill occur, and that it was a Perk Chemical truck. This same witness subsequently signed an affidavit stating he remembered a spill but could not specifically recall whether a supplier of TCE had any role in the spill and that his memory of the event was extremely vague. The case is in the discovery stage.

If the spill from a Perk Chemical truck did in fact occur, it is unknown what corrective may have been taken due to the passage of time and loss of records (many Cycle Chem documents were destroyed in Superstorm Sandy). Neither Cycle Chem nor ACV is a current supplier of chemical solvents and thus a similar occurrence is not possible. With respect to modern, ongoing operations, ACV's truck fleet is equipped with all required spill control equipment and meets applicable U.S. Department of Transportation requirements for handling and transporting hazardous waste. Additionally, ACV employees are trained in D.O.T., RCRA and OSHA procedures for handling and transporting hazardous wastes.

3. A recent sexual lawsuit was settled – the terms of which are confidential. ACV Environmental Services, Inc. (ACV Enviro) retained an independent law firm to conduct a prompt and thorough investigation and took corrective actions that were appropriate based on the conclusions of the investigator. ACV Enviro has policies and trainings in place to ensure that our employees conduct themselves professionally and appropriately, including an anti-harassment policy and training, both of which encourage employees to report any concerns of alleged inappropriate conduct as soon as possible. If a concern is raised, the company conducts a prompt and thorough investigation and takes any necessary corrective action as a result of the investigation's findings. Please note that the no governmental agencies were never involved.

UNITED STATES SECURITIES AND EXCHANGE COMMISSION

Form 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2021

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number: 1-14267

REPUBLIC SERVICES, INC.

(Exact Name of Registrant as Specified in its Charter)

Delaware

(State or Other Jurisdiction of Incorporation or Organization)

**18500 North Allied Way
Phoenix, Arizona**

(Address of Principal Executive Offices)

65-0716904

(IRS Employer Identification No.)

85054

(Zip Code)

Registrant's telephone number, including area code: (480) 627-2700

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class	Trading Symbol(s)	Name of Each Exchange On Which Registered
Common Stock, par value \$0.01 per share	RSG	The New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Note – Checking the box above will not relieve any registrant required to file reports pursuant to Section 13 or 15(d) of the Exchange Act from their obligations under those Sections.

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Smaller reporting company

Emerging growth company

Non-accelerated filer

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

As of June 30, 2021, the aggregate market value of the shares of the Common Stock held by non-affiliates of the registrant was \$35.0 billion.

As of February 3, 2022, the registrant had outstanding 316,431,349 shares of Common Stock (excluding treasury shares of 3,146,953).

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the Registrant's Proxy Statement relative to the 2022 Annual Meeting of Shareholders are incorporated by reference in Part III hereof.

PART I

ITEM 1. BUSINESS

Overview

Republic is one of the largest providers of environmental services in the United States, as measured by revenue. As of December 31, 2021, we operated facilities in 41 states through 356 collection operations, 239 transfer stations, 198 active landfills, 71 recycling processing centers, 3 treatment, recovery and disposal facilities, 3 treatment, storage and disposal facilities (TSDF), 6 salt water disposal wells, and 7 deep injection wells. We are engaged in 77 landfill gas-to-energy and other renewable energy projects and had post-closure responsibility for 124 closed landfills. We were incorporated in Delaware in 1996.

We believe the total addressable environmental services market in which we operate generates approximately \$91 billion of annual revenue, which includes the \$67 billion U.S. recycling and solid waste industry and \$24 billion of the broader environmental services industry. Within our recycling and solid waste business, we prioritize investments in market verticals with above average growth rates and higher return profiles. Environmental services remains fragmented which provides consolidation opportunities to drive scale. We believe we will be able to further expand our addressable market into other segments of the environmental services industry over time by leveraging our differentiated capabilities.

Our operations are national in scope, but the physical collection and recycling or disposal of material is very much a local business and the dynamics and opportunities differ in each of our markets. By combining local operating management with standardized business practices, we drive greater overall operating efficiency across the Company while maintaining day-to-day operating decisions at the local level, closest to the customer.

Our purpose-driven vision is to partner with customers to create a more sustainable world. We believe that our products and services are valuable to our customers and essential for long-term sustainability. We further believe our focus and commitment to sustainability allows us to attract and retain the best talent, win more customers, increase customer loyalty, and ultimately drive higher revenue and profits.

In March 2020, the World Health Organization declared the outbreak of a new strain of coronavirus (COVID-19) a pandemic. The COVID-19 pandemic has impacted the global economy as well as certain aspects of our operations and performance. During this time, we continued to provide essential services to our customers while prioritizing the health and safety of our employees. In April 2020, we launched our Committed to Serve initiative to help our employees, customers and communities across the United States. The impact of COVID-19 on our business and associated costs are discussed in Part II, Item 7, *Management's Discussion and Analysis of Financial Condition and Results of Operations* in this Annual Report on Form 10-K.

Foundational Elements

Our strategy is designed to generate profitable growth by sustainably managing our customers' needs, and it is underpinned by three foundational elements – (1) our market position, (2) our operating model, and (3) our people and talent agenda.

Market Position

Our goal is to develop the best vertically integrated market position to enable us to build density and improve returns. We strive to have a number one or number two market position in each of the markets we serve, or have a clear path on how we will achieve a leading market position over time. In situations where we cannot establish a leading market position, or where operations are not generating acceptable returns, we may decide to divest certain assets and reallocate resources to other markets.

We have a robust market planning process to identify opportunities to grow internally through capital investments and infrastructure development, and externally through acquisitions and public-private partnerships. Additionally, our market planning process allows us to analyze market conditions and proactively adjust to trends as they emerge, including the effects of demographic shifts, and changes in the market and the competitive landscape.

Internal Growth

- **Volume Growth** - We believe volumes are driven by population growth, household formation and new business formation. Volume growth through increases in our customer base and service offerings is the most capital efficient method to grow our business. We seek to obtain long-term contracts for collecting recyclable and solid waste material under residential collection contracts with municipalities, exclusive franchise agreements, and small-container and

large-container contracts. We also look to enter into long-term disposal and recycling processing contracts with municipalities and other third parties. By obtaining such long-term agreements, we can grow our contracted revenue base at a rate consistent with the underlying economic growth in these markets. In addition, by securing long-term agreements, we are better able to help ensure we earn an appropriate return on the capital deployed.

- **Price Increases** - We seek to secure price increases necessary to offset increased costs, improve our operating margins and earn an appropriate return on our substantial investments in vehicles, equipment, landfills, transfer stations and recycling processing centers.
- **Expansion of Recycling Capabilities** - Based on the most recent U.S. Environmental Protection Agency (EPA) data, we believe approximately 32% of municipal solid waste is recycled and/or composted. We expect that percentage to increase over the long-term as communities enhance and expand their recycling programs for their residents. As a key player in the circular economy, we are strategically focused on expanding recycling volume through innovative material handling processes and programs to help our customers achieve their goals related to sustainability and environmentally sound waste practices while also generating an appropriate return. We will continue to look for opportunities to expand or enhance our recycling capabilities in markets where customers are demanding these services and demonstrating a willingness to pay, and we can earn an appropriate return on our investment.
- **Infrastructure Development** - We seek to identify opportunities to further our position as a vertically integrated service provider in markets where we are not fully integrated. Our goal is to create market-specific, vertically integrated operations typically consisting of one or more collection operations, transfer stations, landfills and recycling processing centers. Where appropriate, we seek to obtain permits to build transfer stations, recycling processing centers and landfills that would vertically integrate our waste services or expand the service areas for our existing disposal sites. Additionally, we seek opportunities to expand and permit new airspace at our existing landfills in order to replace airspace consumed. Development projects, while generally less capital intensive than acquisitions, typically require extensive permitting efforts that can take years to complete with no assurance of success. We undertake development projects when we believe there is a reasonable probability of success and where reasonably priced acquisition opportunities are not available. Through landfill and fleet innovation, recycling and circularity of key materials, and renewable energy production, we're committed to environmentally responsible operations that increase our efficiency as well as our ability to partner with customers to create a more sustainable world.

External Growth

- **Acquisitions and Public-Private Partnerships** - Our acquisition growth strategy focuses primarily on acquiring privately held recycling and solid waste companies and environmental solutions businesses that complement our existing business platform. We believe our ability to successfully complete these acquisitions is enhanced by the challenges facing many privately-held companies, including increasing competition in the environmental services industry, increasing capital requirements due to changes in regulatory requirements and technology and the limited number of exit strategies for privately-held companies. We also evaluate opportunities to acquire operations and facilities that are being divested by other publicly-owned companies.

We continue to invest in value-enhancing acquisitions in existing markets. Given our free cash flow, availability under our credit facilities and our ability to access the public capital markets, we have the financial flexibility to make additional acquisitions that will complement our existing business platform, including larger acquisitions if the right opportunities present themselves.

We also focus on growth through public-private partnerships, which include the recycling and waste operations and facilities of municipal and other local governments. We believe over time we have an opportunity to acquire operations and facilities from municipalities and other local governments, as they seek to raise capital and/or reduce risk.

We realize synergies from consolidating businesses into our existing operations, whether through acquisitions or public-private partnerships, which allows us to reduce capital expenditures and expenses associated with truck routing, personnel, fleet maintenance, inventories and back-office administration.

Operating Model

Our operating model allows us to deliver a consistent, high-quality service to all our customers through the Republic Way: *One Way. Everywhere. Every Day.* This approach of developing standardized processes with rigorous controls and tracking allows us to leverage our scale and deliver durable operational excellence. The Republic Way is the key to harnessing the best of what we do as operators and translating that across all facets of our business. Key elements of our operating model are our organizational structure, safety, fleet automation, compressed natural gas vehicles, fleet electrification and standardized maintenance.

Organizational Structure

A key enabler of the Republic Way operating model is our organizational structure that fosters a high performance culture by maintaining 360-degree accountability and full profit and loss responsibility with local management, supported by a functional structure to provide subject matter expertise. This structure allows us to take advantage of our scale by coordinating functionally across all of our markets, while empowering local management to respond to unique market dynamics.

Through this operating model, we have rolled out several productivity and cost control initiatives designed to deliver the best service possible to our customers in an efficient and environmentally sound way.

Safety

Republic is dedicated to the safety of our employees, customers and the communities we serve. We have a dedicated team of safety professionals at our corporate headquarters and in our field operations, the leader of which reports directly to our Chief Operating Officer. Due to the nature of our industry, we make safety a top priority and we recognize and reward employees for outstanding safety records. Over the past 10 years, our safety performance (based on OSHA recordable rates) has been 38% better than the industry average. Our *Think, Choose, Live* slogan encapsulates our everyday safety messaging to our employees to: *Think* about what you are doing, *Choose* the safe answer, and *Live* to go home to your family. With the phrase printed on numerous items, including hard hats and the equipment our employees touch, there are constant reminders for employees to go home in the same condition in which they came to work. Our goal is to ensure every one of our employees returns home safely each night.

Through our Safety Amplified program, we are providing even more tools and driving even greater awareness to help our teams better execute our safety standards. Regular training, multifaceted programs and strategic partnerships are key components to this program. It is simple by design and comprised of actions and activities that ensure safety is embedded in all we do. The program includes six initiatives to help us achieve our goal to have zero employee fatalities and reduce our OSHA Total Recordable Incident Rate.

- **Focus Together:** This effort is the very core of our safety program and is designed to help frontline employees eliminate the six most common types of serious incidents.
- **Lead Together:** We provide best-in-class communication channels and advanced training techniques for all frontline supervisors and managers to help them guide their teams.
- **Partner Together:** Staying safe requires involvement by employees at all levels. We've increased leadership visits with frontline employees and supervisors to support each divisions' safety goals.
- **Celebrate Together:** We take pride in recognizing employees who demonstrate a relentless commitment to safety. Employees with the best driving records are eligible for the industry's most prestigious award, the National Waste & Recycling Association's Driver of the Year. Republic drivers have won 72% of the Driver of the Year awards issued for the large truck category since 2009. In addition, our best drivers are recognized and rewarded with competing in our National Road-EO competition.
- **Analyze Together:** We analyze real-time data to make short- and long-term decisions and identify opportunities for improvement. Examples include analysis of roadway awareness training, data mapping and other employee protection and preparedness insights.
- **Innovate Together:** We employ the latest technologies in our fleet, including automation, rear cameras, in-cab backup alarms, and event recording systems and take a data-driven approach to support our employees. We're also working with equipment manufacturers to incorporate safety elements such as seat belt alarms, blind spot awareness, lane departure alarms and other potentially lifesaving equipment in our fleet.

We believe our Safety Amplified program will provide additional benefits for our Company and stakeholders including:

- further strengthening relationships within the communities we service;
- enhancing customer trust;
- streamlining operational processes and increasing productivity;
- delivering a reputational advantage, including positioning our Company as an employer-of-choice;
- building and sustaining a safety culture in all areas of our business; and
- contributing to employee engagement.

For more information regarding our safety performance, refer to our Sustainability Accounting Standards Board (SASB) report, which can be found at republicservices.com/sustainability. The information contained on our website shall not be deemed

incorporated by reference in this Annual Report on Form 10-K or in any other filing we make under the Securities Exchange Act of 1934, as amended (Exchange Act).

Fleet Automation

Approximately 77% of our residential routes have been converted to automated single-driver trucks. By converting our residential routes to automated service, we reduce labor costs, improve driver productivity, decrease emissions and create a safer work environment for our employees. Additionally, communities using automated vehicles have higher participation rates in recycling programs, thereby complementing our initiative to expand our recycling capabilities.

Compressed Natural Gas (CNG) Vehicles

Approximately 21% of our fleet operates on CNG. Approximately 13% of our replacement vehicle purchases during 2021 were CNG vehicles. We believe using CNG vehicles provides us a competitive advantage in communities with strict clean emission initiatives that focus on protecting the environment. Although upfront capital costs are higher, using CNG vehicles reduces our overall fleet operating costs through lower fuel expenses. As of December 31, 2021, we operated over 40 CNG fueling stations.

Fleet Electrification

We are taking a leadership position in electric technology innovation for our fleet. This is a critical step toward reducing our environmental impact through lower fleet emissions, and we believe it will also improve our total cost of ownership while providing a competitive advantage in certain communities. We are partnering with multiple manufacturers to pilot electric-powered recycling and solid waste trucks. As electric vehicle technology continues to develop, we will further deploy electrification to our fleet.

Standardized Maintenance

Based on an industry trade publication, we operate the fifth largest vocational fleet in the United States. As of December 31, 2021, our average fleet age in years, by line of business, was as follows:

	Approximate Number of Vehicles	Approximate Average Age
Residential	7,000	7.3
Small-container	4,900	6.7
Large-container	4,500	8.8
Total	16,400	7.6

OneFleet, our standardized vehicle maintenance program, enables us to use best practices for fleet management, truck care and maintenance. Through standardization of core functions, we believe we can minimize variability in our maintenance processes, resulting in higher vehicle quality and a lower environmental footprint, while extending the average service life of our fleet. Additionally, our focus on preventative maintenance is improving the reliability of our fleet and enabling us to provide superior service to our customers, differentiating us from our competition.

People and Talent Agenda

Being human-centered is at the core of our robust people and talent agenda. We strive to maintain an environment that attracts and retains the best talent. Our over 35,000 full-time employees are a critical component in successfully executing our strategy and running our operations. We aspire to always be a company where the best people, with exceptional talents and diverse backgrounds, can thrive, and we foster a culture of caring where people feel respected, supported, and encouraged to bring their best selves to work.

We are dedicated to driving our people and talent agenda, which includes (1) representing the diversity of the communities we serve and sustaining a safe and inclusive culture, (2) maintaining a highly engaged workforce, (3) developing our talent through learning and development experiences, and (4) offering rewards that attract and retain the best workforce. We review key progress metrics such as representation, engagement and turnover and regularly report on these metrics to our Board of Directors. This level of reporting holds all of our leaders accountable for the continued growth and development of our people.

Inclusion and Diversity

We believe the composite strength of our employees' ideas – built on their unique experiences and backgrounds – is essential to our ability to meet and anticipate our customers' needs. We are proud of the diversity of our front-line workforce, as it closely represents the demographics of the communities we serve. We are relentless in our focus to improve representation of diverse groups across all levels of the Company. Our commitment to inclusion and diversity starts at the top of our organization, as outlined in our Mission of Supporting an Inclusive Culture (MOSAIC), established in 2013, and supported by the MOSAIC Council. The MOSAIC Council consists of leaders from across the Company who serve as ambassadors and thought partners

for inclusion and diversity. This enables us to continue to develop new strategies and activities that are tied to the needs of our employees, customers and business with the goal of creating an even more inclusive work environment and diverse workforce.

We support inclusion and connectivity for our diverse populations through our business resource groups, including Women of Republic, VALOR (Veterans, Advocacy, Learning, Outreach and Recruiting), and the Black Employee Network (BEN). Given the representation of LatinX employees in our workforce and the desire to create community amongst this valued population, we launched Unidos in the summer of 2021. While business resource groups help to drive a more inclusive environment for our diverse populations, we remain committed to driving inclusion for all of our employees.

As the nation continues to experience inflection points in race relations, we are well-positioned to address the call for social justice because it aligns with our human centered values and is reinforced by our existing commitment to advancing and supporting Black employees and Black communities.

In 2021, we continued our focus on providing programs and virtual events to advance awareness, education and connectivity across our workforce. Our "Let's Talk" series, which has had over 10,000 virtual attendees, is aimed at furthering our employees' understanding and empathy related to the topic of inclusion and diversity. In conjunction with this series, we launched "Let's Connect" – an opportunity for employees and diverse groups to share their unique experiences and perspectives directly with our CEO. We will continue to offer opportunities to help our employees conduct courageous and authentic conversations with one another, and we are committed to maintaining a work environment where people of all backgrounds feel valued and safe to share their perspectives.

Employee Engagement

We believe an engaged workforce is a key element of our success as engaged employees deliver better customer service and are more productive. We measure employee engagement through a third-party survey, assessing employee sentiment on a variety of topics such as pride for the Company, job satisfaction and intention to stay. Our data reinforces that business units with a highly engaged workforce experience less turnover. We also found that employees whose leaders are highly inclusive are more likely to speak up and share their perspective. Regularly hearing from our employees allows us to understand how to support and strengthen an exceptional employee experience. Our goal is to achieve and maintain employee engagement scores at or above 88% by 2030. Our employee engagement score was approximately 84% in 2021, which is above national benchmarks by almost eight points. Approximately 98% of our employees participated in the engagement survey process in October 2021 which represented an all-time high participation rate, compared to approximately 92% in April 2021. Employee engagement is a core part of our business strategy, which is why we compensate our General Managers on their employee engagement scores. This reinforces our commitment for leaders to listen and take action on employee feedback and helps to ensure that our leaders are held accountable and rewarded for their efforts to drive a more engaged workforce.

Talent Development

We are committed to providing our employees with opportunities to develop throughout their careers. Our programs, including new hire onboarding and new leader assimilation, reinforce our Company values, expectations, and business approach. Targeted development experiences support the growth of people in key roles, including Driver Training, Technician Training, Supervisor Training, Sales Acceleration, General Manager Onboarding, and more. We believe these programs provide the fundamental skills necessary to be successful across roles. In order to meet the specific needs of the business, in July 2021, we opened a comprehensive Technical Training Institute where we are able to train and develop technicians. In 2021, 20 technicians participated in the program.

Our leadership programs are a critical part of growing our people. We remain focused on attracting, hiring and developing early career leaders. Our rotational training and development programs, including our General Manager Acceleration Program and Leadership Trainee Program, help us attract, develop and advance a diverse and talented pool of individuals from across our organization. Our Executive Leadership team sponsors these programs, providing visibility and support for the career advancement of our high-potential talent across the organization. Since the beginning of these programs in 2017, approximately 60 leaders have graduated into leadership positions. We have found that these programs and experiences help ensure that the next generation of leaders build the necessary skills and experiences to be successful in their roles today, and in the future.

We continue to leverage innovative training methods using mixed mediums to deliver trainings and instruction to our employees across the country. We remain committed to expanding employee participation in learning programs that are relevant to our business strategy and contribute to career advancement for our employees.

As we continue to grow as a Company, we are investing in new technology and tools so employees can do their jobs safely and effectively, while providing day-to-day stability and professional development.

Rewards

We offer compensation and benefits that help improve our employees' overall financial, physical, and emotional wellbeing, as well as recognize hard work with opportunities to grow. Our commitment to paying market competitive wages enables us to

attract and hire talent all across the country, including an expansion of many opportunities to work remotely. Our approach to paying for performance supports our focus on pay equity. Our compensation packages are designed to provide employees with a stable and livable wage and growth potential. Our focus on wellness also provides our employees with access to preventative care, advice on financial planning and support for mental health, contributing to our efforts to provide a total rewards package that improves and enhances the lives of our employees.

Differentiating Capabilities

To effectively execute our strategic plan, we prioritize the development and investment in capabilities that will differentiate us in the marketplace. These capabilities include – (1) customer zeal, (2) digital, and (3) sustainability.

Customer Zeal

The goal of customer zeal is to drive customer loyalty by offering differentiated products and services specifically designed to meet our customers' needs. We believe this increases customer satisfaction and willingness to pay for a higher value service. Customer Zeal is a cultural commitment to enable and empower our employees to own their role in the customer experience.

To help our sales team identify specific customer needs and configure the right offering, we use a Priority Based Selling (PBS) technique and our Capture pricing tool nationwide.

- PBS enables us to identify and segment customers' buying priorities, and attract customers that are willing to pay for enhanced offerings.
- Capture is a cloud-based pricing tool that creates a more professional sales experience, helps realize better pricing levels at the point of sale and provides enhanced controls over the price quoting process.

In response to our customers' requests, we expanded our suite of products to include electronics recycling and universal recycling. For those services that we don't provide, we fulfill demand through our alliance partnerships while maintaining the customer facing relationship.

To help ensure a consistent customer experience, we invested in our customer service capabilities and our centralized Customer Resource Center. This state-of-the-art center and the technology it employs provide our customer service employees with the tools and capabilities they need to provide better levels of service through a variety of communication channels. These centers enhance the customer experience and provide us a platform to reduce the cost to service our customers.

To help ensure our efforts are making an impact and building customer loyalty, we solicit feedback from our customers, including Net Promoter ScoreSM, so that every General Manager receives recent, relevant feedback that allows him or her the ability to reach out to customers directly and address issues immediately.

Digital

The goal of our digital priority is to allow us to provide a consistent experience across our business while enabling our customers to do business with us through more channels and with better access to information.

By increasing the ease of use and functionality of our web-based market presence, we believe we enhance customer satisfaction, interaction, and connectivity while lowering our costs. These tools reinforce to our customers that they can rely on us to handle their recycling and waste service needs in a way that is easy and convenient for them.

- Our website and mobile app are online account management tools, allowing customers access to their accounts and our services.
- Our e-commerce sales channel allows customers to secure services on a real-time basis, provides capabilities to meet our customers' evolving buying preferences, and provides a lower cost sales channel.

We are also leveraging technology to digitally connect our customers, drivers, dispatchers, supervisors and trucks via our "RISE" dispatch platform and in-cab technology. We are utilizing an agile iterative approach to the development and multi-year roll-out of this technology to ensure durable adoption and an appropriate return on our investment. With the roll-out of this technology we will improve productivity through more real-time routing information and data visualization tools, increase customer connectivity and enable automated service verification communications, and enhance the employee experience by providing better tools and technology designed around employee interaction. The implementation of the "RISE" dispatch platform was substantially completed in 2020. The rollout of the "RISE" in-cab technology enhancements across our collection fleet will continue through 2023.

Sustainability

The goal of our sustainability strategic pillar is to provide our customers with sustainable solutions that support a cleaner, safer, and healthier world. We have long been a leader in environmental services and sustainability. We introduced our Elements of

Sustainability, the foundation of our sustainability platform, in 2014. Our elements - Safety, Talent, Climate Leadership, and Communities - are deeply integrated into our business and anchor our ambitious 2030 sustainability goals.

Our Board of Directors' Sustainability & Corporate Responsibility Committee has oversight responsibility with respect to our sustainability performance, our corporate responsibilities, our role as a socially responsible organization and our enterprise risks, including cyber security, environmental, climate related risks and opportunities, and reputational risks. The Committee meets at least quarterly to be updated on progress and conducts a formal comprehensive review of the Company's performance in these areas on an annual basis.

Our 2030 Sustainability Goals

As we grow, so does our opportunity to make a meaningful, positive impact on the environment and society. Our ambitious 2030 goals are aligned with the UN Sustainable Development Goals⁽¹⁾ and have guided our strategy since 2019. Each goal is aligned with one of the Company's elements of sustainability, and together they are designed to significantly benefit the environment and society, while enhancing the foundation and profitability of our business for the long-term.

- *Safety Amplified:* Achieve zero annual employee fatalities and reduce OSHA Total Recordable Incident Rate (TRIR) to 2.0 or less by 2030
- *Engaged Workforce:* Achieve and maintain employee engagement scores at or above 88% by 2030
- *Science Based Target:* Reduce absolute Scope 1 and 2 greenhouse gas emissions 35% by 2030⁽²⁾, approved by SBTi⁽³⁾, with an interim goal of achieving a 10% reduction by 2025
- *Circular Economy:* Increase recovery of key materials by 40% on a combined basis by 2030⁽²⁾
- *Renewable Energy:* Increase beneficial reuse of biogas by 50% by 2030⁽²⁾
- *Charitable Giving:* Positively impact 20 million people by 2030⁽²⁾

We believe that reducing our impact on the planet and improving the quality of life for its inhabitants are the right things to do, and they are also necessary actions to ensure a vibrant future for our organization.

Refer to our Sustainability, Task Force on Climate-Related Financial Disclosures (TCFD), SASB, and Global Reporting Initiative (GRI) Reports and CDP Climate Change Questionnaire for updates regarding our progress towards these goals, which can be found at republicservices.com/sustainability. The information contained on our website shall not be deemed incorporated by reference in this Annual Report on Form 10-K or in any other filing we make under the Exchange Act.

(1) We have aligned our 2030 goals with the following UN Sustainable Development Goals: (8) Decent Work and Economic Growth, (11) Sustainable Cities and Communities, (12) Responsible Consumption and Production and (13) Climate Action.

(2) Data points used 2017 as the baseline year.

(3) SBTi, or Science Based Targets initiative, is a collaboration between CDP, the United Nations Global Compact (UNGC), World Resources Institute (WRI), and the World Wide Fund for Nature (WWF).

Cash Utilization Strategy

We take a consistent and balanced approach to capital allocation to drive long-term, sustainable value for our shareholders. The predictability of our free cash flows allows us to efficiently execute our capital allocation strategy, which includes investing in acquisitions and returning free cash flow to our shareholders through dividends and share repurchases. We are committed to an efficient capital structure and maintaining our investment grade credit ratings on our senior debt, which was rated BBB+ by Standard & Poor's Ratings Services, BBB by Fitch Ratings, Inc. and Baa2 by Moody's Investors Service, Inc. as of December 31, 2021. Such ratings have allowed us, and should continue to allow us, to readily access capital markets at competitive rates.

We manage our free cash flow by ensuring that capital expenditures and operating asset levels are appropriate in light of our existing business and growth opportunities, and by closely managing our working capital.

Dividends

In July 2021, our Board of Directors approved an increase in the quarterly dividend to \$0.46 per share, which represents an increase of approximately 8% over the prior year. Over the last five years, our dividends have increased at a compounded annual growth rate of 5.9%. We expect to continue paying quarterly cash dividends and may consider additional dividend increases if we believe they will enhance shareholder value.

Share Repurchases

In October 2020, our Board of Directors approved a \$2.0 billion share repurchase authorization effective starting January 1, 2021 and extending through December 31, 2023. Share repurchases under the current program may be made through open market purchases or privately negotiated transactions in accordance with applicable federal securities laws. While the Board of Directors has approved the program, the timing of any purchases, the prices and the number of shares of common stock to be purchased will be determined by our management, at its discretion, and will depend upon market conditions and other factors. The share repurchase program may be extended, suspended or discontinued at any time. On a quarterly basis, our Board of Directors reviews the intrinsic value of our stock and the parameters around which we repurchase our shares. Refer to *Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities* for repurchase authority remaining as of December 31, 2021.

Shareholder Value

We are committed to creating long-term shareholder value by generating consistent earnings and cash flow growth, while continually improving returns on invested capital. Our incentive compensation programs are aligned with these objectives at all levels of management. We have an active shareholder outreach program and routinely interact with shareholders on a number of matters, including environmental, social, governance, and executive compensation.

Management Team

We believe that building and blending a diverse team of strong industry veterans, along with talented people from other industries who bring unique skill sets, will contribute to what we call our Composite Strength. Composite Strength combines the vast, varied experience and capability of both strong environmental services industry veterans and talented people from other industries. Additionally, Composite Strength helps ensure the continuity of leadership and preservation of institutional knowledge, while also bringing in skills and new ideas from other companies outside of our industry - many of them from leading companies.

Jon Vander Ark was named Chief Executive Officer in 2021. Since joining Republic in 2013, Mr. Vander Ark has held management roles of increasing responsibility, including Executive Vice President, Chief Marketing Officer, Executive Vice President, Operations, Executive Vice President, Chief Operating Officer, President and his current role as President and Chief Executive Officer. Prior to joining the Company, he served as a partner at McKinsey & Company's Detroit office, managing clients across a variety of industries, including transportation, logistics, manufacturing and consumer products.

Brian Bates was named Executive Vice President, Chief Development Officer in February 2015. Mr. Bates has been with Republic for over 20 years, serving as Executive Vice President, Business Development from December 2008 to February 2015, and Vice President, Corporate Development from 1998 to December 2008. Prior to his time at Republic, Mr. Bates held roles of increasing responsibility in finance and business development for Ryder System, Inc. from 1993 to 1998, and served as chief financial officer for EDIFEX & VTA Communications from 1988 through 1993. Prior to that, Mr. Bates was an accountant for PwC (formerly Price Waterhouse) from 1986 to 1988. Mr. Bates serves on the Board of Directors of Insurance Auto Auctions, Inc.

Sumona De Graaf was named Executive Vice President, Chief Human Resources Officer effective January 2022. Ms. De Graaf joined the Company in January 2020 as Senior Vice President and Chief Human Resources Officer where she was responsible for overseeing and executing our talent strategy. Prior to joining the Company, Ms. De Graaf worked for ghSMART advising

boards and coaching executive leaders. Before ghSMART, Ms. De Graaf was the Global Head of Career Development at Bloomberg LP and held roles in learning and diversity for both American Express and Goldman Sachs.

Brian DelGhiaccio was named Executive Vice President, Chief Financial Officer in June 2020. Mr. DelGhiaccio has over 20 years of experience in a variety of roles of increasing responsibility. He was named Executive Vice President and Chief Transformation Officer in June 2019. Before that, Mr. DelGhiaccio served as Vice President, Investor Relations from 2012 to 2014, progressed to Senior Vice President, Finance from 2014 to 2017 and then to Senior Vice President, Business Transformation in 2017. Prior to his time at Republic, Mr. DelGhiaccio was a senior consultant with Arthur Andersen.

Catharine D. Ellingsen was named Executive Vice President, Chief Legal Officer, Chief Ethics & Compliance Officer, and Corporate Secretary in June 2016. Ms. Ellingsen joined the Company as Corporate Counsel in August 2001 and has experience in a variety of roles of increasing responsibility. She was named Managing Corporate Counsel in January 2003, Director, Legal and Associate General Counsel in January 2005, and Vice President and Deputy General Counsel in June 2007. Ms. Ellingsen was named Senior Vice President, Human Resources in August 2011 and served in that position until June 2016. Before joining the Company, Ms. Ellingsen was an attorney at Steptoe & Johnson LLP from 1996 to 2001 and at Bryan Cave LLP from 1993 to 1996. Ms. Ellingsen serves on the Boards of Directors of Bunker Hill Group, Nebraska Distributing Company and Daseke, Inc.

Amanda Hodges was named Executive Vice President, Chief Marketing Officer in November 2020. In this role, Ms. Hodges oversees marketing, communications, product development, customer engagement, and revenue management for the Company. Prior to joining Republic, Ms. Hodges spent 15 years in leadership roles for Dell Technologies, most recently serving as Senior Vice President of North America Marketing and the Global Executive Briefing Program. Before joining Dell, Ms. Hodges worked as a consultant for McKinsey & Company.

Jeffrey A. Hughes was named Executive Vice President, Chief Administrative Officer in December 2008. Before that, Mr. Hughes served as Senior Vice President, Eastern Region Operations for Allied Waste Industries, Inc. (Allied) from 2004 until the Allied acquisition in December 2008. Mr. Hughes served as Assistant Vice President of Operations Support for Allied from 1999 to 2004 and as a District Manager for Allied from 1988 to 1999. Mr. Hughes has over 29 years of experience in the solid waste industry.

Katrina Liddell was named Executive Vice President, Chief Commercial Officer in June 2021. In this role, she is responsible for leading the Company's Sales organization, which includes Field Sales, National Accounts, Manufacturing and Environmental Services, and Municipal Services. She also oversees the Customer Resource Centers. Prior to joining the Company, Ms. Liddell held the role of President, Global Forwarding and Expedite for XPO Logistics Inc., a global transportation and contract logistics company. Before joining XPO, Ms. Liddell spent 14 years with Johnson Controls International, where she held senior leadership roles in enterprise account management, vertical market development, operations, product development and customer relations.

Tim Stuart was named Executive Vice President, Chief Operating Officer in May 2019. Prior to his current role, Mr. Stuart served as Executive Vice President, Operations from January 2016 to May 2019, where he was responsible for maximizing field performance, executing the operating plan, and achieving financial and operational results across the Company. Mr. Stuart has over 20 years of experience in the waste industry. He previously served as the Company's East Region President from September 2013 to January 2016. He joined Republic in April 2006 as Director of Operations, and has held a variety of roles with the Company, including Area President, Vice President of Customer Experience, and Region Vice President. Mr. Stuart serves on the Board of Directors of Romeo Power, Inc.

Our local and area management teams have extensive industry experience in growing, operating and managing environmental services companies and have substantial experience in their local geographic markets. This allows us to quickly respond to and meet our customers' needs and stay in touch with local businesses and municipalities. We believe our strong area management teams allow us to effectively and efficiently drive our initiatives and help ensure consistency throughout the organization. Our area management teams and area presidents have extensive authority and responsibility over operations within their respective geographic markets. As a result of retaining experienced managers with extensive knowledge of and involvement in their local communities, we are proactive in anticipating customers' needs and adjusting to changes in our markets. We also seek to implement the best practices of our various business units throughout our operations to continue improving our operations and our operating margins.

Integrated Operations

We have a strong, national, vertically-integrated operating platform that allows us to compete more effectively and efficiently in the local markets in which we operate. Where appropriate, we seek to achieve a high rate of internalization by controlling material streams from the point of collection through recycling processing or disposal. During the year ended December 31, 2021, approximately 68% of the total solid waste volume we collected was disposed at landfills we own or operate (internalization). Our fully integrated markets generally have a lower cost of operations and more favorable cash flows than our

markets that are not fully integrated. Through acquisitions, landfill operating agreements and other market development activities, we create market-specific, vertically-integrated operations typically consisting of one or more collection operations, transfer stations and landfills. We also operate recycling processing centers in markets where diversion of waste is a priority, customers are willing to pay for the service, and we can earn an appropriate return on our investment.

Our operations primarily consist of providing environmental services, including the collection and processing of recyclable materials, collection, transfer and disposal of non-hazardous solid waste, and other environmental solutions.

Collection Services

We provide residential, small-container, and large-container collection services through 356 collection operations. In 2021, approximately 74% of our total revenue was derived from our collection business, of which approximately 22% of our total revenue related to residential services, approximately 30% related to small-container services, and approximately 21% related to large-container services.

Our residential collection business involves the curbside collection of material for transport to transfer stations, or directly to landfills, recycling processing centers, or organics processing facilities. We typically perform residential collection services under contracts with municipalities, which we generally secure through competitive bids, which give us exclusive rights to service all or a portion of the homes in the municipalities. These contracts usually range in duration from one to five years, although some of our exclusive franchises are for significantly longer periods. We also perform residential services on a subscription basis, in which individual households contract directly with us. The fees received for subscription residential collection are based primarily on the market, collection frequency, type of service, the distance to the disposal facility and the cost of disposal. In general, subscription residential collection fees are paid quarterly in advance by the customers receiving the service.

In our small-container business, we supply our customers with recycling and waste containers of varying sizes. We typically perform small-container collection services under one- to three-year service agreements, and fees are determined based on a number of factors including the market, collection frequency, type of equipment furnished, type and volume of the material collected, transportation costs and the cost of processing or disposal. Our small-container services are typically offered to small business complexes, multi-family housing and strip malls, and include industries such as restaurants, retail, real-estate, and professional and other services.

Our large-container collection business includes both recurring and temporary customer relationships. For the recurring portion, we supply our customers with recycling and waste containers of varying sizes and rent compactors to large generators of material. We typically perform the collection services under one- to three-year service agreements, and fees are determined based on a number of factors including the market, collection frequency, type of equipment furnished, type and volume or weight of the material collected, transportation costs and the cost of disposal. Our recurring large-container services are typically offered to larger facilities, hotels and office buildings, and include industries such as manufacturing, retail, hospitality, professional and other services.

For the temporary portion of our large-container collection business, the majority of the material relates to construction and demolition activities and is typically event-driven. We provide temporary collection services on a contractual basis with terms ranging from a single pickup to one-year or longer.

Transfer Services

We own or operate 239 transfer stations. Revenue at our transfer stations is primarily generated by charging tipping or disposal fees, which accounted for approximately 6% of our revenue during 2021. Our collection operations deposit material at these transfer stations, as do other private and municipal haulers, for compaction and transfer to disposal sites or recycling processing centers. Transfer stations provide collection operations with a cost effective means to consolidate material and reduce transportation costs while providing our landfills with an additional mechanism to extend their geographic reach.

When our own collection operations use our transfer stations, this improves internalization by allowing us to retain fees we would otherwise pay to third-party disposal sites. It also allows us to manage costs associated with material disposal because: (1) transfer trucks have larger capacities than collection trucks, allowing us to deliver more material to the landfill or processing center in each trip; (2) material is accumulated and compacted at strategically located transfer stations to increase efficiency; and (3) we can retain volume by managing the material to one of our own landfills or processing centers rather than to a competitor's.

Landfill Services

We own or operate 198 active landfills. Our landfill tipping fees charged to third parties accounted for approximately 13% of our revenue during 2021. As of December 31, 2021, we had 39,618 permitted acres and total available permitted and probable expansion disposal capacity of 5.0 billion in-place cubic yards. The in-place capacity of our landfills is subject to change based

on engineering factors, requirements of regulatory authorities, our ability to continue to operate our landfills in compliance with applicable regulations, and our ability to successfully renew operating permits and obtain expansion permits at our sites. Some of our landfills accept non-hazardous special waste, including utility ash, asbestos and contaminated soils.

Most of our active landfill sites have the potential for expanded disposal capacity beyond the currently permitted acreage. We monitor the availability of permitted disposal capacity at each of our landfills and evaluate whether to pursue an expansion at a given landfill based on estimated future waste volumes and prices, market needs, remaining capacity and the likelihood of obtaining an expansion. To satisfy future disposal demand, we are seeking to expand permitted capacity at certain landfills; however, all proposed or future expansions may not be permitted.

Republic is committed to harnessing landfill gas, the natural byproduct of decomposing waste, and converting it to energy. The use of landfill gas provides economic and environmental benefits, including reducing greenhouse gas emissions through the capture and use of methane. As of December 31, 2021, we operated 77 landfill gas and renewable energy projects. The majority of these projects were developed and are owned by a third party.

We also have responsibility for 124 closed landfills, for which we have associated closure and post-closure obligations.

Recycling Processing Services

We own or operate 71 recycling processing centers. These centers generate revenue through the processing and sale of old corrugated containers (OCC), old newsprint (ONP), aluminum, glass and other materials, which accounted for approximately 4% of our total revenue during 2021. Approximately 80% of our total recycling processing center volume is fiber based and includes OCC, ONP and other mixed paper. During 2021, we processed and sold 2.2 million tons, excluding glass and organics, from our recycling processing centers. An additional 2.1 million tons were collected by us and delivered to third parties. We are investing in advanced recycling technology and have expanded our organics operations to help customers meet their diversion goals, processing and selling 1.0 million tons of organic material from our recycling processing centers in 2021.

Changing market demand for recycled commodities causes volatility in commodity prices. At current volumes and mix of materials, we believe a \$10 per ton change in the price of recycled commodities would change annual revenue and operating income by approximately \$22 million and \$10 million, respectively.

In certain instances, we issue recycling rebates to our municipal or large-container customers, which can be based on the price we receive upon the final sale of recycled commodities, a fixed contractual rate or other measures. We also receive rebates when we dispose of recycled commodities at third-party processing facilities.

As consumer demand for recycling services has increased, we have met that demand by integrating recycling components into each of our collection service offerings. Our goal is to provide a complete material stream management solution to our customers in a vertically integrated, environmentally sustainable way.

We continue to invest in proven technologies to control costs and to simplify and streamline recycling for our customers. For example, robotics and advanced sorting equipment, such as disk screens, magnets and optical sorters, identifies and separates different kinds of paper, metals, plastics and other materials to increase efficiency and maximize our recycling efforts.

Environmental Solutions

In addition to certain of our landfill disposal sites, we own or operate 3 treatment, recovery and disposal facilities, 3 treatment, storage and disposal facilities, 6 salt water disposal wells and 7 deep injection wells. Environmental solutions volume is generated by the daily operations of industrial, petrochemical and refining facilities, including maintenance, plant turnarounds and capital projects. Additionally, it is generated from the by-products of oil and natural gas exploration and production activity. We provide these customers with environmentally responsible solutions to manage their waste needs including treatment, consolidation and disposal of solid and liquid material, field and industrial services, rental, and in-plant services, such as transportation and logistics. In 2021, approximately 2% of our revenue was derived from environmental solutions.

Other Services

Other revenue consists primarily of National Accounts revenue generated from nationwide or regional contracts in markets outside our operating areas where the associated material handling services are subcontracted to local operators. Consequently, substantially all of this revenue is offset with related subcontract costs, which are recorded in cost of operations.

Competition

We operate in a competitive industry. Competition in the environmental services industry comes from a few other large, national publicly-owned companies, several regional publicly- and privately-owned companies, and thousands of small privately-owned companies. In any given market, competitors may have larger operations and greater resources. In addition, we

compete with municipalities that maintain material collection or disposal operations. These municipalities may have financial advantages due to the availability of tax revenue and greater opportunities for tax-exempt financing.

We compete for collection accounts primarily based on our product offering, quality of service and price. From time-to-time, our competitors reduce the price of their services in an effort to expand market share or to win a competitively bid municipal contract. Our ability to maintain and increase prices in certain markets may be impacted by our competitors' pricing policies. This may have an effect on our future revenue and profitability.

Seasonality and Severe Weather

Our operating revenues tend to be somewhat higher in the summer months, primarily due to higher volumes of construction and demolition waste. The volumes of large-container and residential recycling and waste in certain regions of the country also tend to increase during the summer months. Our second and third quarter revenues and results of operations typically reflect this seasonality.

We provide essential recycling and solid waste collection and disposal services in the communities we serve and our operations can be adversely affected by periods of inclement or severe weather and natural disasters, which could increase the volume of material collected under our existing contracts (without corresponding compensation), delay the collection and disposal of material, reduce the volume of material delivered to our disposal sites or delay the construction or expansion of our landfill sites and other facilities and may increase with the physical impacts of climate change. The impacts from adverse weather and natural disasters have the potential to last several months and to affect several facilities. We have business continuity plans in place for severe weather, natural disasters and other emergencies—hurricanes, tornadoes, flooding, winter storms, earthquakes and wildfires, among others—to help limit disruptions in our operations and help ensure the continuity of our services. Our operations can also be favorably affected by severe weather and natural disasters, which could increase the volume of material in situations where we are able to charge for our additional services.

Regulation

Our facilities and operations are subject to a variety of federal, state and local requirements that regulate, among other things, the environment, public health, safety, zoning and land use. Operating and other permits, licenses and other approvals generally are required for landfills and transfer stations, recycling processing centers, certain solid waste collection vehicles, fuel storage tanks and other equipment and facilities that we own or operate. These permits are subject to denial, revocation, modification and renewal in certain circumstances. Any revocation, modification or denial of permits could have a material adverse effect on us. Federal, state and local laws and regulations vary, but generally govern wastewater or storm water discharges, air emissions, the handling, transportation, treatment, storage and disposal of hazardous and non-hazardous waste, and the remediation of contamination associated with the release or threatened release of hazardous substances. These laws and regulations provide governmental authorities with strict powers of enforcement, which include the ability to revoke or decline to renew any of our operating permits, obtain injunctions, or impose fines or penalties in the event of violations, including criminal penalties. The U.S. EPA and various other federal, state and local authorities administer these regulations.

In order to comply with these regulations, we must incur substantial capital expenditures relating to our vehicles, landfills, transfer stations, and recycling processing centers, and in connection with our capping, closure, post-closure and environmental remediation activities. Compliance with existing and future legal and regulatory requirements, including changes relating to per- and polyfluoroalkyl substances (commonly referred to as PFAS) and other chemicals of emerging concern, and limitations or bans on disposal of certain types of wastes or on the transportation of waste, could increase our costs to operate or require additional capital expenditures.

A decrease in regulation may lower barriers to entry for our competitors. Further, we compete with counties and municipalities that operate their own collection and disposal facilities, have the benefits of tax revenue, and greater opportunities for tax-exempt financing.

We strive to conduct our operations in compliance with applicable laws, regulations and permits. However, from time to time we have been issued citations or notices from governmental authorities that have resulted in the need to expend funds for remedial work and related activities at various landfills and other facilities or in the need to expend funds for fines, penalties or settlements. Citations and notices may be issued in the future, notwithstanding our strong regulatory compliance efforts. We have established final capping, closure, post-closure and remediation reserves that we believe, based on currently available information, will be adequate to cover our current estimates of regulatory costs; however, actual costs may exceed our reserves.

Federal Regulation

The following summarizes the primary federal, environmental, and occupational health and safety-related statutes that affect our facilities and operations:

- *The Solid Waste Disposal Act, including the Resource Conservation and Recovery Act (RCRA).* RCRA establishes a framework for regulating the handling, transportation, treatment, storage and disposal of hazardous and non-hazardous solid waste, and requires states to develop programs to ensure the safe disposal of solid waste in sanitary landfills.

Subtitle C of RCRA establishes a framework for regulating the disposal of hazardous waste, and Subtitle D of RCRA establishes a framework for regulating the disposal of municipal solid waste. Regulations under Subtitle C set requirements for hazardous waste generators, transporters, and treatment, storage and disposal facilities. Regulations under Subtitle D currently include minimum comprehensive solid waste management criteria and guidelines, including location restrictions, facility design and operating criteria, final capping, closure and post-closure requirements, financial assurance standards, groundwater monitoring requirements and corrective action standards. The EPA may authorize states to implement certain hazardous waste requirements of Subtitle C, and if a state program does not exist, the EPA directly implements the hazardous waste requirements. Nearly all of the states in which we operate have implemented permit programs pursuant to RCRA and Subtitles C and D. These state permit programs may include landfill requirements that are more stringent than those of Subtitles C and D. Our failure to comply with any of these environmental requirements at any of our locations may lead to temporary or permanent loss of an operating permit, which would result in costs in connection with securing new permits, reduced revenue from lost operational time, and increased third party disposal costs.

All of our planned landfill expansions and new landfill development projects have been engineered to meet or exceed Subtitles C and D requirements, as applicable. Operating and design criteria for existing operations have been modified to comply with these regulations. Compliance with Subtitles C and D regulations has resulted in increased costs and may in the future require substantial additional expenditures in addition to other costs normally associated with our waste management activities.

- *The Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA).* CERCLA, among other things, provides for the cleanup of sites from which there is a release or threatened release of a hazardous substance into the environment. CERCLA may impose strict joint and several liability for the costs of cleanup and for damages to natural resources upon current owners and operators of a site, parties who were owners or operators of a site at the time the hazardous substances were disposed of, parties who transported the hazardous substances to a site, and parties who arranged for the disposal of the hazardous substances at a site. Under the authority of CERCLA and its implementing regulations, detailed requirements apply to the manner and degree of investigation and remediation of facilities and sites where hazardous substances have been or are threatened to be released into the environment. Liability under CERCLA is not dependent on the existence or disposal of only hazardous wastes, but also can be based upon the existence of small quantities of more than 700 substances currently characterized by the EPA as hazardous, many of which are found in common household waste. The EPA may also designate additional substances as hazardous. Among other things, CERCLA authorizes the federal government to investigate and remediate sites at which hazardous substances have been or are threatened to be released into the environment, or to order persons potentially liable for the cleanup of the hazardous substances to do so themselves. In addition, the EPA has established a National Priorities List of sites at which hazardous substances have been, or are threatened to be, released and which require investigation or cleanup.

CERCLA liability is strict liability. It can be founded upon the release or threatened release, even as a result of unintentional, non-negligent or lawful action, of hazardous substances, including very small quantities of such substances. Thus, even if we have never knowingly transported or received hazardous substances, it is possible that hazardous substances have been deposited or released at landfills or other facilities that we presently or historically have owned or operated, or at properties owned by third parties to which we have transported waste. Therefore, we could be liable under CERCLA for the cost of cleaning up, or protecting against the release of, such hazardous substances at such sites and for damages to natural resources, even if those substances were deposited at our facilities before we acquired or operated them. The costs of a CERCLA cleanup can be very expensive and can include the costs of disposing of hazardous substances at appropriately-licensed facilities. Given the difficulty of obtaining insurance for environmental impairment liability, any such liability could have a material effect on our business, financial condition, results of operations and cash flows.

- *The Federal Water Pollution Control Act of 1972 (the Clean Water Act).* This act regulates the discharge of pollutants from a variety of sources, including solid waste disposal sites, into streams, rivers and other waters of the United States. Runoff from our landfills and transfer stations that is discharged into surface waters through discrete conveyances must be covered by discharge permits that generally require us to conduct sampling and monitoring, and, under certain circumstances, to reduce the quantity of pollutants in those discharges. Storm water discharge regulations under the Clean Water Act require a permit for certain construction activities and for runoff from industrial operations and facilities, which may affect our operations. If a landfill or transfer station discharges wastewater through a sewage system to a publicly-owned treatment works, the facility must comply with discharge limits imposed by that treatment

works. In addition, states may adopt groundwater protection programs under the Clean Water Act or the Safe Drinking Water Act that could affect the manner in which our landfills monitor and control their waste management activities. Furthermore, if development at any of our facilities alters or affects wetlands, we may be required to secure permits before such development starts. In these situations, permitting agencies may require mitigation of wetland impacts.

- *The Clean Air Act.* The Clean Air Act imposes limitations on emissions from various sources, including landfills. In March 1996, the EPA promulgated regulations that require large municipal solid waste landfills to install landfill gas monitoring systems along with landfill gas control systems unless emissions are below established thresholds. These regulations apply to landfills that commenced construction, reconstruction or modification on or after May 30, 1991, and, principally, to landfills that can accommodate 2.5 million cubic meters or more of municipal solid waste. The regulations apply whether the landfills are active or closed. The date by which each affected landfill must have a gas collection and control system installed and made operational varies depending on calculated emission rates at the landfill. On July 14, 2016, the EPA issued final amendments to its regulations that require large landfills that commenced construction, reconstruction, or modification on or after July 17, 2014 to capture additional landfill gas to reduce emissions of methane and certain non-methane gases, which are recognized as greenhouse gases. In a separate rule finalized that same day, the EPA issued updates to its 1996 Emission Guidelines to reduce emissions of landfill gas from existing active landfills. Both actions were part of the Obama Administration's Climate Action Plan - Strategy to Reduce Methane Emissions. As part of the Biden Administration's focus on climate change, the EPA has taken further steps to implement these regulations. These and other efforts to curtail the emission of greenhouse gases and to ameliorate the effect of climate change may require our landfills to deploy more stringent emission controls and monitoring systems, with resulting capital or operating costs. Many state regulatory agencies also currently require monitoring systems for the collection and control of certain landfill gas. Certain of these state agencies are also implementing greenhouse gas control regulations that would also apply to landfill gas emissions. See Item 1A, *Risk Factors – Regulation of greenhouse gas emissions and other governmental regulations could impose costs on our operations, the magnitude of which is difficult to estimate*, in this Annual Report on Form 10-K.

In addition, our vehicle fleet also may become subject to higher efficiency standards or other carbon-emission restrictions. Over the past decade, the EPA and the National Highway Traffic Safety Administration (NHTSA) have adopted regulations mandating the reduction of vehicle tail pipe emissions as a means of reducing greenhouse gas emissions. The regulations take the form of fuel economy standards. The EPA and the NHTSA have developed fuel economy standards in two vehicle categories: (1) passenger automobiles and light-duty trucks (collectively, light-duty vehicles); and (2) heavy-duty trucks, including solid waste collection vehicles and tractor trailers. We own and operate vehicles in both categories. For light-duty vehicles, in May 2010 the EPA and the NHTSA finalized fuel economy standards for model years 2012 through 2016. In October 2011, the EPA and the NHTSA initiated a second round of rulemaking for light-duty vehicles for model years 2017 through 2025. In 2018, the EPA and the NHTSA proposed to revise the light-duty vehicle standards for model years 2021 through 2024 to make them less stringent; final action on the proposal occurred in 2020 but has been challenged in court. In 2021, the EPA issued a rule further setting the standards for model years 2023 to 2026, making them more stringent. In August 2011, the EPA and the NHTSA finalized standards for heavy-duty trucks, including solid waste collection vehicles and tractor trailers, for model years 2014 through 2018. On August 16, 2016, the EPA and the NHTSA jointly issued additional regulations that would impose more stringent standards for heavy-duty vehicles through model-year 2027. In issuing the proposed fuel economy standards for heavy-duty trucks (including tractor trailers), the government estimated that the increased equipment cost would be recouped over a period of two years for a tractor/trailer combo, and over a period of 6 years for a garbage truck, and each vehicle would continue to save fuel costs over its operating life. On August 5, 2021, the EPA announced its intent to move forward with a Clean Trucks Plan, which would involve setting emissions standards for model years 2027 and beyond.

- *The Occupational Safety and Health Act of 1970 (OSHA).* This act authorizes the Occupational Safety and Health Administration of the U.S. Department of Labor to promulgate occupational safety and health standards. A number of these standards, including standards for notices of hazardous chemicals and the handling of asbestos, apply to our facilities and operations.

State and Local Regulation

Each state in which we operate has its own laws and regulations governing solid waste disposal, water and air pollution, and, in most cases, releases and cleanup of hazardous substances and liabilities for such matters. States also have adopted regulations governing the design, operation, maintenance and closure of landfills and transfer stations. Some counties, municipalities and other local governments have adopted similar laws and regulations. In addition, our operations may be affected by the trend in many states toward requiring solid waste reduction and recycling programs. For example, several states have enacted laws that require counties or municipalities to adopt comprehensive plans to reduce, through solid waste planning, composting, recycling

or other programs, the volume of solid waste deposited in landfills. Additionally, laws and regulations restricting the disposal of certain waste in solid waste landfills, including yard waste, food waste, newspapers, beverage containers, unshredded tires, lead-acid batteries, electronic wastes and household appliances, have been adopted in several states and are being considered in others. Some jurisdictions have enacted or are considering enacting "extended producer responsibility" regulations, which are designed to obligate producers to fund the post-use life cycle of their products by providing recycling programs for their products. State and municipal governments may also enact "organic diversion" regulations that require food waste to be managed separately from the other waste streams, similar to the rules recently enacted in California. Several states have also enacted or are considering "minimum recycled content" regulations mandating certain minimum post-consumer recycled content in certain types of packaging, including California. Legislative and regulatory measures to mandate or encourage waste reduction and recycling also have been considered, or are under consideration by, the U.S. Congress and the EPA. These regulations may present new opportunities to offer sustainable environmental services to our customers but may require investment of time, effort and money to be able to offer these new solutions and expose us to additional regulatory requirements and competition from others offering these services.

To construct, operate and expand a landfill, we must obtain one or more construction or operating permits, as well as zoning and land use approvals. These permits and approvals may be burdensome to obtain and to comply with, are often opposed by neighboring landowners and citizens' groups, may be subject to periodic renewal, and are subject to denial, modification, non-renewal and revocation by the issuing agency. Significant compliance disclosure obligations often accompany these processes. In connection with our acquisition of existing landfills, we may be required to spend considerable time, effort and money to bring the acquired facilities into compliance with applicable requirements and to obtain the permits and approvals necessary to increase their capacity.

Other Regulations

Many of our facilities own and operate underground storage tanks that are generally used to store petroleum-based products. These tanks can be subject to federal, state and local laws and regulations that mandate their periodic testing, upgrading, closure and removal. In the event of leaks or releases from these tanks, these regulations require that polluted groundwater and soils be remediated. If underground storage tanks we own or operate leak, we could be liable for response costs and, if the leakage migrates onto the property of others, we could be liable for damages to third parties. We are unaware of facts indicating that issues of compliance with regulations related to underground storage tanks will have a material adverse effect on our consolidated financial condition, results of operations or cash flows.

With regard to our solid waste transportation operations, we are subject to the jurisdiction of the Surface Transportation Board and are regulated by the Federal Highway Administration, Office of Motor Carriers, and by regulatory agencies in states that regulate such matters. Various state and local government authorities have adopted, or are considering adopting, laws and regulations that would restrict the transportation of solid waste across state, county, or other jurisdictional lines. In 1978, the U.S. Supreme Court ruled that a law that restricts the importation of out-of-state solid waste is unconstitutional; however, states have attempted to distinguish proposed laws from those involved in and implicated by that ruling. In 1994, the U.S. Supreme Court ruled that a flow control law, which attempted to restrict solid waste from leaving its place of generation, imposes an impermissible burden upon interstate commerce and is unconstitutional. In 2007, however, the U.S. Supreme Court upheld the right of a local government to direct the flow of solid waste to a publicly-owned and publicly-operated waste facility. A number of county and other local jurisdictions have enacted ordinances or other regulations restricting the free movement of solid waste across jurisdictional boundaries. Other governments may enact similar regulations in the future. These regulations may cause a decline in volumes of waste delivered to our landfills or transfer stations and may increase our costs of disposal, thereby adversely affecting our operations and our financial results.

Liabilities Established for Landfill and Environmental Costs

We have established reserves for landfill and environmental costs, which include landfill site final capping, closure and post-closure costs. We periodically reassess such costs based on various methods and assumptions regarding landfill airspace and the technical requirements of Subtitles C and D of RCRA, and we adjust our amortization rates used to expense final capping, closure and post-closure costs accordingly. Based on current information and regulatory requirements, we believe that our recorded reserves for such landfill and environmental expenditures are adequate; however, environmental laws may change, and our recorded reserves may not be adequate to cover requirements under existing or new environmental laws and regulations, future changes or interpretations of existing laws and regulations, or adverse environmental conditions previously unknown to us. Refer to the *Material Cash Requirements and Intended Uses of Cash* section of our Management's Discussion and Analysis of Financial Condition and Results of Operations contained in Part II, Item 7 of this Annual Report on Form 10-K and to Note 2, *Summary of Significant Accounting Policies*, to our consolidated financial statements in Part II, Item 8 of this Annual Report on Form 10-K for further information.

Liability Insurance and Bonding

The nature of our business exposes us to the possible risk of liabilities arising out of our operations, including damages to the environment, property, employees or the general public. We focus on operating safely and prudently, but occasionally we receive claims, alleging damages, negligence or other wrongdoing in the planning or performance of work, which resulted in harm to the environment, property, employees or the general public. These liabilities can be significant. We also could be subject to fines and civil and criminal penalties in connection with alleged violations of regulatory requirements. We maintain various policies of insurance that, subject to limitations, exclusions, or deductibles, provide coverage for these types of claims. While we believe the amount of insurance is appropriate for our type of business, such insurance may not be adequate, in scope or amount, in the event of a major loss, and we may be exposed to uninsured liabilities that could have a material adverse effect on our consolidated financial condition, results of operations or cash flows. We may choose not to continue to maintain the insurance should market conditions in the insurance industry make such coverage cost prohibitive.

Accruals for deductibles are based on claims filed and actuarial estimates of claims development and claims incurred but not reported. Due to the variable condition of the insurance market, we have experienced, and may experience in the future, increased deductible retention levels and increased premiums or unavailability of insurance. As we assume more risk through higher retention levels, we may experience more variability in our insurance reserves and expense.

In the normal course of business, we also purchase surety bonds, insurance policies, letters of credit or marketable securities deposits in connection with, among other things, municipal residential collection contracts, financial assurance for closure and post-closure of landfills, environmental remediation, environmental permits, and business licenses and permits as a financial guarantee of our performance.

Availability of Reports and Other Information

Our corporate website is republicservices.com. We make available on that website, free of charge, access to our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, Proxy Statements on Schedule 14A, and amendments to those materials filed or furnished with the Securities and Exchange Commission (SEC) pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934. We make such materials available as soon as reasonably practicable after we electronically submit them to the SEC. Our corporate website also contains our Certificate of Incorporation, Bylaws, Corporate Governance Guidelines, Code of Ethics and Conduct, Political Contributions Policy, Human Rights Policy, and Charters of the Audit Committee, Management Development and Compensation Committee, Nominating and Corporate Governance Committee, and Sustainability and Corporate Responsibility Committee of the Board of Directors. In addition, the SEC makes available at its website (sec.gov), free of charge, reports, proxy statements, and other information regarding issuers, such as us, that file electronically with the SEC. Information on our website or the SEC website is not part of this Annual Report on Form 10-K. We intend to satisfy the disclosure requirements under Item 5.05 of Form 8-K and applicable New York Stock Exchange (NYSE) rules regarding amendments to or waivers of our Code of Ethics by posting this information on our website at republicservices.com.

ITEM 1A. RISK FACTORS

Disclosure Regarding Forward-Looking Statements

This Annual Report on Form 10-K contains certain forward-looking information about us that is intended to be covered by the safe harbor for “forward-looking statements” provided by the Private Securities Litigation Reform Act of 1995. Forward-looking statements are statements that are not historical facts. Words such as “guidance,” “expect,” “will,” “may,” “anticipate,” “plan,” “estimate,” “project,” “intend,” “should,” “can,” “likely,” “could,” “outlook” and similar expressions are intended to identify forward-looking statements. Among other sections of this Form 10-K, the Risk Factors and Management’s Discussion and Analysis of Financial Condition and Results of Operations include forward-looking statements. These statements include statements about our plans, strategies and prospects. Forward-looking statements are not guarantees of performance. These statements are based upon the current beliefs and expectations of our management and are subject to risk and uncertainties that could cause actual results to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements. Although we believe that the expectations reflected in the forward-looking statements are reasonable, such expectations may not prove to be correct. Among the factors that could cause actual results to differ materially from the expectations expressed in the forward-looking statements are:

- general economic and market conditions, including inflation and changes in fuel, interest rates, labor, risk, health insurance and other variable costs that generally are not within our control, and our exposure to credit and counterparty risk;
 - fluctuations in prices for recycled commodities that we sell to customers;
 - the effects of the evolving COVID-19 pandemic and actions taken in response thereto;
-

-
- whether our estimates and assumptions concerning our selected balance sheet accounts, income tax accounts, final capping, closure, post-closure and remediation costs, available airspace, projected costs and expenses related to our landfills and property and equipment, fair values of acquired assets and liabilities assumed in our acquisitions, and labor, fuel rates and economic and inflationary trends, turn out to be correct or appropriate;
 - competition and demand for services in the environmental services industry;
 - price increases to our customers, which may not be adequate to offset the impact of increased costs, including labor, third-party disposal and fuel, and may cause us to lose volume;
 - our ability to manage growth and execute our growth strategy;
 - our compliance with, and future changes in, environmental and flow control regulations and our ability to obtain approvals from regulatory agencies in connection with operating and expanding our landfills;
 - the impact on us of our substantial indebtedness, including on our ability to obtain financing on acceptable terms to finance our operations and growth strategy and to operate within the limitations imposed by financing arrangements;
 - our ability to retain our investment grade ratings for our debt;
 - our dependence on key personnel;
 - our dependence on large, long-term collection, transfer and disposal contracts;
 - the capital intensive nature of our business, which may consume cash in excess of cash flow from operations;
 - exposure to liabilities or losses, to the extent not adequately covered by insurance, which could result in substantial expenses;
 - risks associated with undisclosed liabilities of acquired businesses;
 - risks associated with pending and future legal proceedings, including litigation, audits or investigations brought by or before any governmental body;
 - severe weather conditions, including those brought about by climate change, which could impair our financial results by causing increased costs, loss of revenue, reduced operational efficiency or disruptions to our operations;
 - compliance with existing and future legal and regulatory requirements, including changes relating to PFAS and other chemicals of emerging concern, and limitations or bans on disposal of certain types of wastes or on the transportation of waste, which could limit our ability to conduct or grow our business, increase our costs to operate or require additional capital expenditures;
 - our ability to achieve reduction in our greenhouse gas emissions and our other sustainability goals;
 - safety and operational risks, including the risk of personal injury to our employees or third parties;
 - potential increases in our costs if we are required to provide additional funding to any multiemployer pension plan to which we contribute or if a withdrawal event (including our voluntary withdrawal, which we consider from time to time, or the mass withdrawal of all contributing employers from any underfunded multiemployer pension plan) occurs with respect to any such plan;
 - the negative impact on our operations of union organizing campaigns, work stoppages or labor shortages;
 - the negative effect that trends toward requiring recycling, waste reduction at the source and prohibiting the disposal of certain types of wastes could have on volumes of waste going to landfills;
 - changes by the Financial Accounting Standards Board or other accounting regulatory bodies to generally accepted accounting principles or policies;
 - the impact of U.S. and international tax laws and regulations on our business;
 - risks related to interruptions and breaches of our information technology systems that could adversely affect, or temporarily disable, all or a portion of our operations or have a negative effect on our infrastructure;
 - the negative impact that a cyber-security incident could have on our business and our relationships with customers and employees; and
 - acts of war, riots or terrorism, including the continuing war on terrorism, as well as actions taken or to be taken by the United States or other governments as a result of further acts or threats of terrorism, and the impact of these acts on economic, financial and social conditions in the United States.

The risks included here are not exhaustive. Refer to the Risk Factors in this Item 1A for further discussion regarding our exposure to risks. You should be aware that any forward-looking statement in this Annual Report on Form 10-K and the documents incorporated herein by reference or elsewhere, speaks only as of the date on which we make it. Additionally, new risk factors emerge from time to time and it is not possible for us to predict all such risk factors, or to assess the impact such risk factors might have on our business or the extent to which any factor or combination of factors may cause actual results to differ materially from those contained in any forward-looking statements. You should not place undue reliance on any forward-looking statement. Except to the extent required by applicable law or regulation, we undertake no obligation to update or publish revised forward-looking statements to reflect events or circumstances after the date of this Annual Report on Form 10-K and the documents incorporated by reference, as the case may be, or to reflect the occurrence of unanticipated events.

Risks Related to Our Business and Operations

The environmental services industry is highly competitive and includes competitors that may have greater financial and operational resources, flexibility to reduce prices or other competitive advantages that could make it difficult for us to compete effectively.

We principally compete with large national waste management companies, numerous municipalities, and numerous regional and local companies. Competition for collection accounts is typically based on the quality of services, ease of doing business and/or price. Competition for disposal business is primarily based on geographic location, quality of operations, and price. One of our competitors may have greater financial and operational resources than we do. Further, many counties and municipalities that operate their own collection and disposal facilities have the benefits of tax revenue and greater opportunities for tax-exempt financing. Our ability to obtain solid waste volume for our landfills also may be limited by the fact that some major collection operations also own or operate landfills to which they send their waste. In certain markets in which we do not own or operate a landfill, our collection operations may have difficulty competing effectively. If we were to lose market share or if we were to lower prices to address competitive issues, it could negatively impact our consolidated financial condition, results of operations and cash flows.

Increases in the cost of fuel or petrochemicals increase our operating expenses, and we cannot assure you that we will be able to recover such cost increases from our customers.

We depend on fuel purchased in the open market to operate our collection and transfer trucks and other equipment used for collection, transfer and disposal. Fuel prices are unpredictable and fluctuate significantly based on events beyond our control, including geopolitical developments, actions by the Organization of the Petroleum Exporting Countries and other oil and gas producers, changes in refinery operations, supply and demand for oil and gas, war, terrorism and unrest in oil-producing countries, adverse weather and regional production patterns. Due to contractual or market factors, we may not be able to offset increased fuel costs resulting from such volatility through fuel recovery fees. Our fuel costs were \$383.0 million in 2021, or 3.4% of revenue, compared to \$271.7 million in 2020, or 2.7% of revenue.

At current consumption levels, a twenty-cent per gallon change in the price of diesel fuel changes our fuel costs by approximately \$26 million on an annual basis. Offsetting these changes in fuel expense would be changes in our fuel recovery fee charged to our customers. At current participation rates, we believe a twenty-cent per gallon change in the price of diesel fuel changes our fuel recovery fee by approximately \$26 million. A substantial rise or drop in fuel costs could materially affect our revenue and cost of operations.

Over the last decade, regulations have been adopted mandating changes in the composition of fuels for motor vehicles. The renewable fuel standards that the EPA sets annually affect the type of fuel our motor vehicle fleet uses. Pursuant to the Energy Independence and Security Act of 2007, the EPA establishes annual renewable fuel volume requirements for four different categories of renewable fuels (renewable fuel, advanced biofuel, cellulosic biofuel, and biomass-based diesel). These volume requirements set standards for the proportion of refiners' or importers' total fuel volume that must contain renewable fuels (as designated by regulation). The total volume metrics for each year vary based upon a number of factors (e.g., the availability of such fuels), and it is difficult to predict the ultimate quantity that the EPA will eventually mandate for future years. These regulations are one of many factors that may affect the cost of the fuel we use.

Part of our fleet of vehicles is powered by CNG and we also operate CNG fueling stations. We have invested higher upfront capital costs in order to purchase and support our CNG vehicles and fueling stations in order to reduce our overall fleet operating costs through lower fuel expenses and to create a competitive advantage in communities that focus on protecting the environment. CNG is not yet widely adopted in North America. As the CNG industry develops, new regulations, the availability of alternative fuel technologies, fluctuations in the price or availability of CNG or reductions in tax incentives for the use of CNG vehicles could substantially affect our revenue and costs of operations and reduce the benefits sought by investing in CNG vehicles and fueling stations.

Our operations also require the use of products (such as liners at our landfills) whose costs may vary with the price of petrochemicals. An increase in the price of petrochemicals could increase the cost of those products, which would increase our operating and capital costs. Petrochemical prices, and hence our operating and capital costs, may be further affected by regulatory efforts to reduce greenhouse gases from the industries that produce such petrochemicals. We are also susceptible to increases in fuel recovery fees from our vendors.

Fluctuations in prices for recycled commodities that we sell to customers may adversely affect our consolidated financial condition, results of operations and cash flows.

We purchase or collect and process recyclable materials such as paper, cardboard, plastics, aluminum and other metals for sale to third parties. Our results of operations may be affected by changing prices or market requirements for recyclable materials. The resale and purchase prices of, and market demand for, recyclable materials are volatile due to changes in economic conditions and numerous other factors beyond our control. For instance, in 2017 the Chinese government imposed strict limits on the import of recyclable materials, including by restricting the amount of contaminants allowed in imported recycled paper. These limitations significantly decreased the global demand for recyclable materials and resulted in lower commodity prices. Significant price fluctuations or increased operating costs may affect our consolidated financial condition, results of operations and cash flows. In 2021, approximately 80% of our recycling processing center volume was fiber based and included OCC, ONP and other mixed paper.

At current volumes and mix of materials, we believe a \$10 per ton change in the price of recycled commodities would change annual revenue and operating income by approximately \$22 million and \$10 million on an annual basis, respectively. Accordingly, a substantial rise or drop in recycled commodity prices could materially affect our revenue and operating income. Although we have entered into hedging agreements to help offset volatility in recycled commodity prices in the past, we may not enter into these agreements in the future.

Acute and chronic weather events, including those brought about by climate change, may limit our operations and increase the costs of collection, transfer, disposal, and other environmental services we provide.

Our operations could be adversely impacted by extreme weather events, changing weather patterns, and rising mean temperature and sea levels, some of which we are already experiencing. For example, we have operations in multiple states that are affected by hurricanes and we have seen the impact of storms and associated flooding in our day-to-day operations and our infrastructure. The Intergovernmental Panel on Climate Change (IPCC), which includes more than 1,300 scientists from the United States and other countries, forecasts a temperature rise of 2.5° to 10° Fahrenheit over the next century. Changing weather patterns and rising temperatures are expected to result in more severe heat waves, fires, storms, and other extreme weather events. Any of these factors could increase the volume of material collected or processed under our existing contracts (without corresponding compensation), impede our employees' and equipment's ability to operate, disrupt our supply chain, delay the development of landfill capacity, or reduce the volume of material generated by our customers. In addition, adverse weather conditions may result in the temporary suspension of our operations, which can significantly affect our operating results in the affected regions during those periods.

The environmental services industry is a capital-intensive industry and our capital expenditures may exceed current expectations, which could require us to obtain additional funding for our operations or impair our ability to grow our business.

Our ability to remain competitive and to grow our business largely depends on our cash flow from operations and access to capital. If our capital efficiency programs cannot offset the effect of inflation and business growth, it may be necessary to increase the amount we spend. Additionally, if we make acquisitions or further expand our operations, the amount we spend on capital, capping, closure, post-closure, environmental remediation and other items will increase. Our cash needs also will increase if the expenditures for capping, closure, post-closure and remediation activities increase above our current estimates, which may occur over a long period due to changes in federal, state or local government requirements and other factors beyond our control. Increases in expenditures would negatively impact our cash flows.

We may be unable to obtain or maintain required permits or to expand existing permitted capacity of our landfills, which could decrease our revenue and increase our costs.

We cannot assure you that we will be able to obtain or maintain the permits required for our operations because permits to operate new landfills and transfer stations, or to expand the permitted capacity of existing landfills or increase acceptable volume at transfer stations, have become more difficult and expensive to obtain and maintain. Permits often take years to obtain as a result of numerous hearings and compliance requirements with regard to zoning, environmental and other regulations. These permits are also often subject to resistance from citizen or other groups and other political pressures. Local communities and citizen groups, adjacent landowners, governmental agencies and others may oppose the issuance of a permit or approval we may need, allege violations of the permits under which we currently operate or laws or regulations to which we are subject, or

seek to impose liability on us for environmental damage. Such actions could also create risks related to our reputation, which may limit our ability to do business. Responding to these challenges has at times increased our costs and extended the time associated with establishing new landfills and transfer stations and expanding existing landfills. In addition, failure to receive regulatory and zoning approval may prohibit us from establishing new landfills or transfer stations or expanding existing landfills. Our failure to obtain the required permits to operate our landfills and transfer stations could have a material adverse effect on our consolidated financial condition, results of operations and cash flows. In addition, we may have to dispose collected waste at landfills operated by our competitors or haul the waste long distances at a higher cost to one of our other landfills, either of which could significantly increase our waste disposal costs.

If we do not appropriately estimate landfill capping, closure, post-closure and remediation costs, our financial condition and results of operations may be adversely affected.

A landfill must be closed and capped, and post-closure maintenance commenced, once the landfill's permitted capacity is reached and additional capacity is not authorized. Further, we undertake remediation activities at some of our solid waste facilities. We have significant financial obligations relating to capping, closure, post-closure and remediation costs at our existing owned or operated landfills, and will have material financial obligations with respect to any future owned or operated landfills. We establish accruals for the estimated costs associated with capping, closure, post-closure and remediation obligations. We could underestimate such costs, and our financial obligations for capping, closure, post-closure or remediation costs could exceed the amounts accrued or amounts otherwise receivable pursuant to trust funds established for this purpose. Additionally, if a landfill must be closed earlier than expected or its remaining airspace is reduced for any other reason, the accruals for capping, closure, post-closure and remediation could be required to be accelerated. If our capping, closure, post-closure or remediation costs exceed the amounts accrued, or if such accruals are required to be accelerated, this could have a material adverse effect on our consolidated financial condition, results of operations and cash flows.

Alternatives to landfill disposal could reduce our disposal volumes and cause our revenues and operating results to decline.

Most of the states in which we operate landfills require counties and municipalities to formulate comprehensive plans to reduce the volume of solid waste deposited in landfills through waste planning, composting, recycling or other programs. Some state and local governments mandate waste reduction at the source and prohibit the disposal of certain types of wastes, such as yard waste, at landfills. Further, many of our customers voluntarily are diverting waste to alternatives to landfill disposal, such as recycling and composting, while also working to reduce the amount of waste they generate. Many of the largest companies in the U.S. are setting zero-waste goals in which they strive to send no waste to landfills and some jurisdictions have enacted or are considering waste reduction regulations such as extended producer responsibility, organic diversion and minimum recycled content regulations. Although such actions help to protect our environment and reduce the impact of waste on climate change, they have reduced, and will in the future reduce, the volume of waste going to landfills and may affect the prices that we can charge for landfill disposal. Accordingly, we cannot assure you that we will be able to operate our landfills at their current volumes or charge current prices for landfill disposal services due to possible decreases in demand for such services. If we cannot expand our service offerings and grow lines of business to service waste streams that do not go to landfills and to provide services for customers that wish to reduce waste entirely, this could have a negative effect on our consolidated financial condition, results of operations and cash flows. Further, even if we can develop such service offerings and lines of business, disposal alternatives nonetheless could have a negative effect on our consolidated financial condition, results of operations and cash flows.

The possibility of landfill and transfer station site development projects, or expansion projects not being completed or certain other events could result in material charges to income.

In accordance with U.S. GAAP, we capitalize certain expenditures relating to development, expansion and other projects. If a facility or operation is permanently shut down or determined to be impaired, or a development, expansion or other project is not completed or is determined to be impaired, we will charge against earnings any unamortized capitalized expenditures relating to such facility or project that we are unable to recover through sale, transfer or otherwise. We also carry a significant amount of goodwill on our consolidated balance sheets, which we must assess for impairment annually, and more frequently in the case of certain triggering events. We may incur charges against earnings in accordance with this policy, or other events may cause impairments. Such charges could have a material adverse effect on our results of operations.

The business and assets we operate expose us to safety, operational and other risks, including the risk of personal injury to our employees or third parties.

The provision of environmental services, including the operation of our facilities, a substantial fleet of trucks and other waste-related assets, involves risks. These risks include, among others, the risk of truck accidents, equipment defects, malfunctions and failures, improper use of dangerous equipment, the release of hazardous substances, fire and explosion, any of which could result in environmental liability, personal injury, loss of life, business interruption or property damage or destruction. While we

carry insurance to cover many contingencies, and seek to minimize our exposure to these risks through maintenance, training and compliance programs, any substantial losses could have a material adverse effect on our business, results of operations and financial condition.

We may be subject to work stoppages and other workforce effects, which could increase our operating costs and disrupt our operations.

As of December 31, 2021, approximately 24% of our workforce was covered by collective bargaining agreements. If our union-represented employees engage in strikes, work stoppages or other slowdowns, we could experience a significant disruption of our operations and an increase in our operating costs, which could have an adverse effect on our consolidated financial condition, results of operations and cash flows. We have experienced interrupted service when our union-represented employees have engaged in strikes and work stoppages in the past, and we would expect the same to occur as a result of any future strikes or work stoppages. Additional groups of employees may seek union representation in the future which could result in increased operating costs. If a greater percentage of our workforce becomes union-represented, our consolidated financial condition, results of operations and cash flows could be adversely impacted due to the potential for increased operating costs.

We may not be able to achieve reduction of our greenhouse gas emissions and our other sustainability goals.

Climate change and other sustainability matters are embedded in our core value and vision. As part of our strategic long-term plans to address sustainability, we are committed to reducing our absolute Scope 1 and Scope 2 greenhouse gas emissions 35% by 2030 among other sustainability goals. The execution of our plans and achievement of our goals are subject to risks and uncertainties, including our ability to develop, obtain, license or scale the innovations, technologies and modeling and measurement tools that may be necessary to achieve our plans and the availability, cost and benefits of materials and infrastructure associated with our sustainability projects, such as our CNG vehicles, fleet electrification, recycling, circularity of key materials, landfill gas-to-energy and other renewable energy projects.

In addition, increasing governmental and societal attention to sustainability matters, including expanding mandatory and voluntary reporting, diligence, and disclosure on topics such as climate change, waste production, water usage, human capital, labor, and risk oversight, could expand the nature, scope, and complexity of matters that we are required to control, assess, and report. These and other rapidly changing laws, regulations, policies and related interpretations, as well as increased enforcement actions by various governmental and regulatory agencies, create challenges for us. If we are unable to continue to meet these challenges and comply with all laws, regulations, policies and related interpretations, and meet the sustainability values, standards and metrics that we set for ourselves, it could negatively impact our reputation and our business results.

Risks Related to our Legal and Regulatory Environment

We are subject to costly environmental regulations and flow-control regulations that may affect our operating margins, restrict our operations and subject us to additional liability.

Complying with laws and regulations governing the collection, treatment, storage, transfer and disposal of material, air quality and emissions of greenhouse gases, water quality and the remediation of contamination associated with the release of hazardous substances is costly. Laws and regulations often require us to, among other things, enhance or replace our equipment and to modify landfill operations or initiate final closure of a landfill. We may not be able to implement price increases sufficient to offset the costs of complying with these laws and regulations. In addition, environmental regulatory changes, including those relating to per- and polyfluoroalkyl substances (commonly referred to as PFAS) and other chemicals of emerging concern, could accelerate or increase expenditures for capping, closure, post-closure and environmental and remediation activities at solid waste facilities and obligate us to spend sums in addition to those presently accrued for such purposes, which could have a negative effect on our consolidated financial position, results of operations and cash flows. For example, the EPA has indicated it is considering listing certain PFAS as hazardous substances under CERCLA, which if finalized could trigger additional obligations or liabilities under CERCLA or other laws and regulations.

Our business is and will continue to be affected by state or local laws or regulations that restrict the transportation of solid waste across state, county or other jurisdictional lines or that direct the flow of waste to a specified facility or facilities. Such laws and regulations could negatively affect our operations, resulting in declines in landfill volumes and increased costs of alternate disposal.

Regulation of greenhouse gas emissions and other governmental regulations could impose costs on our operations, the magnitude of which is difficult to estimate.

Efforts to curtail the emission of greenhouse gases and to ameliorate the effects of climate change continue to progress. Our landfill operations emit anthropogenic methane, identified as a greenhouse gas, and our vehicle fleet emits, among other things,

carbon dioxide, which also is a greenhouse gas. While passage of comprehensive, federal climate change legislation appears unlikely in the near term, we expect any such legislation, if enacted, to impose costs on our operations, which could be material.

Absent comprehensive federal legislation to control greenhouse gas emissions, the EPA has taken certain actions administratively under its existing Clean Air Act authority. The EPA is compelled to issue rules by the U.S. Supreme Court's April 2007 *Massachusetts v. EPA* ruling that greenhouse gases are pollutants for purposes of the Clean Air Act and the EPA's December 2009 finding that continued emissions of greenhouse gases endanger human health and welfare. With respect to our light- and heavy-duty vehicle fleet, the EPA has finalized regulations limiting greenhouse gas emissions and increasing fuel economy standards. The EPA and the NHTSA have finalized such regulations applicable to light-duty vehicles through model year 2025. In 2018, the EPA and the NHTSA proposed to revise the light-duty vehicle standards for model years 2021 through 2024 to make them less stringent; final action on the proposal took place in 2020 but has been challenged in court. On August 16, 2016, the EPA and the NHTSA issued additional regulations that would impose more stringent standards for heavy-duty vehicles through model-year 2027. These standards and further federal efforts to curtail greenhouse gas emissions and to increase the fuel efficiency of light-duty and heavy-duty vehicles could have a material adverse effect on our consolidated financial condition, results of operations and cash flows.

With regard to greenhouse gas emissions from our landfills, on July 14, 2016, the EPA issued amendments to its regulations that require large landfills that commenced construction, reconstruction or modification on or after July 17, 2014 to capture additional landfill gas to reduce emissions of methane and certain non-methane gases, which are recognized as greenhouse gases. In a separate action finalized that same day, the EPA issued updates to its 1996 Emission Guidelines to reduce emissions of landfill gas from existing active landfills. As part of the Biden Administration focus on climate change, the EPA has taken further steps to implement these regulations. These regulations, or an amended version of them that eventually goes into effect, may require our landfills to deploy more stringent emission controls and monitoring systems, with resulting capital or operating costs. The application of these or other greenhouse gas regulations to our landfills could have a material adverse effect on our landfill operations and on our consolidated financial condition, results of operations and cash flows. We cannot predict what other actions or regulations the current administration may undertake that would affect our industry.

We may incur losses from liabilities that are not covered by our insurance. Changes in insurance markets also may impact our financial results.

We may incur liabilities or suffer losses arising from our operations or properties that resulted in harm to the environment, property, employees or the general public. We maintain insurance for these liabilities and losses, including high deductibles for our environmental liability insurance coverage. If we were to incur substantial liability or loss in connection with these contingencies, our insurance coverage may be inadequate to cover such liability or loss. This could have a material adverse effect on our consolidated financial condition, results of operations and cash flows.

Also, due to the variable condition of the insurance market, we have experienced, and may experience in the future, increased insurance retention levels and increased premiums or unavailability of insurance. As we assume more risk for insurance through higher retention levels, we may experience more variability in our insurance reserves and expense.

Despite our efforts, we may incur additional liability under environmental laws in excess of amounts presently known and accrued.

We are a potentially responsible party at many sites under CERCLA, which provides for the remediation of contaminated facilities and imposes strict, joint and several liability for the cost of remediation on current owners and operators of a facility at which there has been a release or a threatened release of a hazardous substance. CERCLA liability also extends to parties who were site owners and operators at the time hazardous substances were disposed, and on persons who arrange for the disposal of such substances at the facility (e.g., generators of the waste and transporters who selected the disposal site). Hundreds of substances are defined as hazardous under CERCLA and their presence, even in minute amounts, can result in substantial liability.

Notwithstanding our efforts to comply with applicable environmental laws, we may have additional liability under environmental laws in excess of our current reserves because, among other things, hazardous substances may be present in waste collected by us or disposed of in our landfills (or in waste collected, transported or disposed of in the past by businesses we have acquired), environmental laws or regulations may change, or there may be adverse environmental conditions that develop or were otherwise previously unknown to us. Environmental liabilities in excess of our current reserves could have a material adverse effect on our consolidated financial position, results of operations and cash flows.

Currently pending or future litigation or governmental proceedings could result in material adverse consequences, including judgments or settlements.

We are and will continue to be involved in lawsuits, regulatory inquiries, and governmental and other legal proceedings. Many of these matters raise complicated factual and legal issues and are subject to uncertainties. The timing of the final resolutions to

lawsuits, regulatory inquiries, and governmental and other legal proceedings is uncertain. Further, the possible outcomes or resolutions to these matters could include adverse judgments or settlements, either of which could require substantial payments and adversely affect our consolidated financial condition, results of operations and cash flows.

For example, we incur costs to defend against litigation brought by government agencies and private parties who allege we are in violation of our permits and applicable environmental laws and regulations, or who assert claims alleging nuisance, environmental damage, personal injury or property damage. As a result, we may be required to pay fines or judgments or implement corrective measures, or we may have our permits and licenses modified or revoked. A significant judgment against us, the loss of a significant permit or license, or the imposition of a significant fine could have a material adverse effect on our consolidated financial condition, results of operations and cash flows. We establish accruals for our estimates of the costs associated with lawsuits, regulatory, governmental and other legal proceedings. We could underestimate such accruals. Such shortfalls could result in significant unanticipated charges to income.

Risks Related to Financial Strategy and Indebtedness

We have substantial indebtedness, which may limit our financial flexibility.

As of December 31, 2021, we had approximately \$10 billion in principal value of debt and finance leases outstanding. This amount of indebtedness and our debt service requirements may limit our financial flexibility to access additional capital and make capital expenditures and other investments in our business, to withstand economic downturns and interest rate increases, to plan for or react to changes in our business and our industry, and to comply with the financial and other covenants of our debt instruments. Further, our ability to comply with these financial and other covenants may be affected by changes in economic or business conditions or other events that are beyond our control. If we do not comply with these covenants, we may be required to take actions such as reducing or delaying capital expenditures, reducing or eliminating dividends or stock repurchases, selling assets, restructuring or refinancing all or part of our existing debt, or seeking additional equity capital.

We may be unable to maintain our credit ratings or execute our financial strategy.

Our ability to execute our financial strategy depends in part on our ability to maintain investment grade ratings on our debt. The credit rating process is contingent upon a number of factors, many of which are beyond our control. We cannot assure you that we will be able to maintain our investment grade ratings in the future. If we were unable to do so, our interest expense would increase and our ability to obtain financing on favorable terms may be adversely affected.

Our financial strategy also depends on our ability to generate sufficient cash flow to reinvest in our existing business, fund internal growth, acquire other environmental services businesses, pay dividends, repurchase stock, and take other actions to enhance shareholder value. We may not succeed in executing our broad-based pricing initiatives, and we may not generate sufficient cash flow to execute our financial strategy, pay cash dividends at our present rate, or increase them, or be able to continue our share repurchase program.

Weakness in the U.S. economy may expose us to credit risk for amounts due from governmental entities, large national accounts, industrial customers and others.

Weakness in the U.S. economy, including contractions caused by the COVID-19 pandemic, reduces the amount of taxes collected by various governmental entities. We provide services to a number of these entities, including numerous municipalities. These governmental entities may suffer financial difficulties resulting from a decrease in tax revenue and may ultimately be unable or unwilling to pay amounts owed to us. In addition, weakness in the economy may cause other customers, including our large national accounts, or industrial or environmental services clients, to suffer financial difficulties and ultimately to be unable or unwilling to pay amounts owed to us. This could negatively impact our consolidated financial condition, results of operations and cash flows.

Our consolidated financial statements are based on estimates and assumptions that may differ from actual results. The liabilities we record based on such estimates and assumptions may not be adequate to cover the costs we ultimately will face.

Our consolidated financial statements have been prepared in accordance with U.S. GAAP and necessarily include amounts based on management's estimates. Actual results may differ from these amounts. Significant items requiring management to make subjective or complex judgments that are inherently uncertain include the recoverability of long-lived assets, the depletion and amortization of landfill development costs, accruals for final capping, closure and post-closure costs, valuation allowances for accounts receivable and deferred tax assets, liabilities for potential litigation, claims and assessments, and liabilities for environmental remediation, multiemployer pension plans, employee benefit plans, deferred taxes, uncertain tax positions, insurance and our estimates of the fair values of assets acquired and liabilities assumed in any acquisition. We cannot assure you that the liabilities recorded for items such as these will be adequate to cover the costs we ultimately will face.

Our obligation to fund multiemployer pension plans to which we contribute, or our withdrawal from such plans, may have an adverse effect on us.

We participate in multiemployer pension plans that generally provide retirement benefits to participants of contributing employers. We do not administer these plans and generally are not represented on the boards of trustees of these plans. The Pension Protection Act enacted in 2006 (the PPA) requires underfunded pension plans to improve their funding ratios. Based on the information available to us, we believe that some of the multiemployer plans to which we contribute are either critical or endangered as those terms are defined in the PPA. We cannot presently determine the amount of additional funding, if any, we may be required to make to these plans. However, plan assessments could have a material adverse effect on our results of operations or cash flows for a given period.

Further, under current law, upon the termination of a multiemployer pension plan, or in the event of a withdrawal by us (which we consider from time to time) or a mass withdrawal of contributing employers (each, a Withdrawal Event), we would be required to make payments to the plan for our proportionate share of the plan's unfunded vested liabilities. We cannot assure you that there will not be a Withdrawal Event with respect to any of the multiemployer pension plans to which we contribute or that, in the event of such a Withdrawal Event, the amounts we would be required to contribute would not have a material adverse effect on our consolidated financial condition, results of operations and cash flows.

For additional discussion and detail regarding multiemployer pension plans see Note 12, *Employee Benefit Plans*, of the notes to our consolidated financial statements in Part II, Item 8 of this Annual Report on Form 10-K.

The costs of providing for pension benefits and related funding requirements are subject to changes in pension fund values and fluctuating actuarial assumptions, and may have a material adverse effect on our financial condition, results of operations and cash flows.

We sponsor a defined benefit pension plan that is funded with trustee assets invested in a diversified portfolio of debt and equity securities. Our costs for providing such benefits and related funding requirements are subject to changes in the market value of plan assets. Our pension expenses and related funding requirements are also subject to various actuarial calculations and assumptions, which may differ materially from actual results due to changing market and economic conditions, interest rates and other factors. A significant increase in our pension obligations and funding requirements could have a material adverse effect on our consolidated financial condition, results of operations and cash flows.

Risks Related to Our Growth Strategy

We may be unable to manage our growth effectively.

Our growth strategy places significant demands on our financial, operational and management resources. To continue our growth, we may need to add administrative, managerial and other personnel, and may need to make additional investments in operations and systems. We cannot assure you that we will be able to find and train qualified personnel, or do so on a timely basis, or to expand or otherwise modify our operations and systems to the extent, and in the time, required.

We may be unable to execute our acquisition growth strategy.

Our ability to execute our growth strategy depends in part on our ability to identify and acquire desirable acquisition candidates and on our ability to successfully integrate acquired operations into our business. The integration of our operations with those of acquired companies may present significant challenges to our management. In addition, competition for acquisition candidates may prevent us from acquiring certain acquisition candidates. Thus, we cannot assure you that:

- desirable acquisition candidates exist or will be identified;
- we will be able to acquire any of the candidates identified;
- we will effectively integrate and manage companies we acquire; or
- any acquisitions will be profitable or accretive to our earnings.

If any of these factors force us to alter our growth strategy, our growth prospects could be adversely affected.

Businesses we acquire may have undisclosed liabilities.

Our due diligence investigations of acquisition candidates may fail to discover certain undisclosed liabilities. If we acquire a company with undisclosed liabilities such as environmental, remediation or contractual liabilities, as a successor owner we may be responsible for such undisclosed liabilities. We try to minimize our exposure to such liabilities by conducting due diligence, by obtaining indemnification from each seller of the acquired companies, by deferring payment of a portion of the purchase price as security for the indemnification, by obtaining representations and warranties insurance and by acquiring only specified

assets. However, we cannot assure you that we will be able to obtain indemnification or insurance coverage or that any indemnification or insurance coverage obtained will be enforceable, collectible or sufficient in amount, scope or duration to fully offset any undisclosed liabilities arising from our acquisitions.

Risks Related to Technology and Intellectual Property

Our strategy includes an increasing dependence on technology in our operations. If any of our key technology fails, our business could be adversely affected.

Our operations are increasingly dependent on technology. Our information technology systems are critical to our ability to drive profitable growth through differentiation, continue the implementation of standardized processes and deliver a consistent customer experience. One of our three differentiating capabilities is to enable our customers to do business with us through more channels and with better access to information and, accordingly, we have made substantial investment in our e-commerce platform. Problems with the operation of the information or communication technology systems we use could adversely affect, or temporarily disable, all or a portion of our operations. Inabilities and delays in implementing new systems can also affect our ability to realize projected or expected revenue or cost savings. Further, any systems failures could impede our ability to timely collect and report financial results in accordance with applicable laws.

Emerging technologies, including those that are used to recycle and process waste as an alternative to disposal of waste in landfills, represent risks, as well as opportunities, to our current business model. The costs associated with developing or investing in emerging technologies could require substantial capital and adversely affect our results of operations and cash flows. Delays in the development or implementation of such emerging technologies and difficulties in marketing new products or services based on emerging technologies could have similar negative impacts. Our financial results may suffer if we are not able to develop or license emerging technologies, or if a competitor obtains exclusive rights to an emerging technology that disrupts the current methods used in the environmental services industry.

A cyber security incident could negatively impact our business and our relationships with customers.

We use information technology, including computer and information networks, in substantially all aspects of our business operations. We also use mobile devices, social networking and other online activities to connect with our employees and our customers. Such uses give rise to cyber security risks, including security breach, espionage, system disruption, theft and inadvertent release of information. Our business involves the storage and transmission of numerous classes of sensitive and/or confidential information and intellectual property, including customers' personal information, private information about employees, and financial and strategic information about us and our business partners. We also rely on a Payment Card Industry compliant third party to protect our customers' credit card information. In connection with our strategy to grow through acquisitions and to pursue new initiatives that improve our operations and cost structure, we are also expanding and improving our information technologies, resulting in a larger technological presence and corresponding exposure to cyber security risk. If we fail to assess and identify cyber security risks associated with acquisitions and new initiatives, we may become increasingly vulnerable to such risks. Additionally, while we have implemented measures to prevent security breaches and cyber incidents, our preventive measures and incident response efforts may not be entirely effective. Also, the regulatory environment surrounding information security and privacy is increasingly demanding, with the frequent imposition of new and constantly changing requirements. This changing regulatory landscape may cause increasingly complex compliance challenges, which may increase our compliance costs. Any failure to comply with these changing security and privacy laws and regulations could result in significant penalties, fines, legal challenges and reputational harm. The theft, destruction, loss, misappropriation, or release of sensitive and/or confidential information or intellectual property, or interference with our information technology systems or the technology systems of third parties on which we rely, could result in business disruption, negative publicity, brand damage, violation of privacy laws, loss of customers, potential liability and competitive disadvantage.

Other Risks Relevant to Our Business

The COVID-19 pandemic has negatively impacted, and is likely to continue to negatively impact, our business, results of operations and financial performance.

The COVID-19 pandemic has created significant uncertainties. These uncertainties include, but are not limited to, the potential adverse effect of the pandemic on the economy, our supply chain partners, our employees and our customers. As a result of the COVID-19 pandemic, our costs of doing business have increased, including for the purchase of additional safety equipment and hygiene products, increased facility and equipment cleaning, and the expansion of certain aspects of our existing healthcare programs. Additionally, if the pandemic continues and conditions worsen or if there is a large outbreak or resurgence of COVID-19 in various regions, we expect to experience additional adverse impacts on our operational and commercial activities and our collections of accounts receivable, which adverse impacts may be material. The degree to which COVID-19 impacts our results going forward will depend on future developments, which are uncertain and cannot be predicted, including, but not

limited to, the duration, variants and spread of COVID-19, its severity, the actions to contain the virus or treat its impact, and how quickly and to what extent normal economic and operating conditions can resume. Any of the foregoing factors, or other cascading effects of the COVID-19 pandemic that are not currently foreseeable, could materially increase our costs, negatively impact our business and damage our results of operations and our liquidity position, possibly to a significant degree.

Price increases may not be adequate to offset the effect of increased costs and may cause us to lose volume.

We seek to secure price increases necessary to offset increased costs, improve our operating margins and earn an appropriate return on our substantial investments in assets such as our landfills. From time to time, our competitors reduce their prices in an effort to expand their market share. Contractual, general economic or market-specific conditions also may limit our ability to raise prices. For example, many of our contracts have price adjustment provisions that are tied to an index such as the consumer price index. Particularly in a weak U.S. economy, our costs may increase in excess of the increase, if any, in the consumer price index. This may continue to be the case even when the U.S. economy recovers because a recovery in the environmental services industry historically has lagged behind a recovery in the general economy. As a result, we may be unable to offset increases in costs, improve our operating margins and obtain adequate investment returns through price increases. Price increases also might cause us to lose volume to lower-cost competitors.

The loss of key personnel could have a material adverse effect on our consolidated financial condition, results of operations, cash flows and growth prospects.

Our future success depends on the continued contributions of several key employees and officers. The loss of the services of key employees and officers, whether through resignation or other causes, or the inability to attract additional qualified personnel, could have a material adverse effect on our consolidated financial condition, results of operations, cash flows and growth prospects. In some of our markets, we compete with other similar businesses which may drive labor costs or reduce the amount of available qualified personnel.

The introduction of new accounting rules, laws or regulations could adversely impact our reported results of operations.

Complying with new accounting rules, laws or regulations, such as, for example, those related to our asset retirement obligations and environmental liabilities, could adversely impact our results of operations or cause unanticipated fluctuations in our results of operations or financial conditions in future periods.

Weakened global economic conditions, including those resulting from the recent COVID-19 pandemic, may harm our industry, business and results of operations.

Our business is directly affected by changes in national and general economic factors and overall economic activity that are outside of our control, including consumer confidence and interest rates. For example, the COVID-19 pandemic has negatively impacted the global economy, disrupted global supply chains and created significant volatility and disruption of financial markets. A weak economy generally results in decreases in volumes, which adversely affects our revenues. In addition, we have certain fixed costs (e.g., facility expense associated with long-term leases, depreciation expense and accretion expense), which may be difficult to adjust quickly to match declining volume levels. Consumer uncertainty and the loss of consumer confidence may decrease overall economic activity and thereby limit the amount of services we provide. Additionally, a decline in volumes may result in increased competitive pricing pressure and increased customer turnover, resulting in lower revenue and increased operating costs. Operating in an environment of worsening economic conditions could have a material adverse effect on our consolidated financial condition, results of operations and cash flows. Further, recovery in the environmental services industry historically has lagged behind recovery in the general economy. Accordingly, we cannot assure you that an improvement in general economic conditions will result in an immediate, or any, improvement in our consolidated financial condition, results of operations or cash flows.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

Our corporate office is located at 18500 North Allied Way, Phoenix, Arizona 85054, where we currently lease approximately 145,000 square feet of office space.

Our principal property and equipment consists of land, landfills, buildings, vehicles and equipment. We own or lease real property in the states in which we conduct operations. As of December 31, 2021, we operated facilities in 41 states through 356 collection operations, 239 transfer stations, 198 active landfills, 71 recycling processing centers, 3 treatment, recovery and disposal facilities, 3 treatment, storage and disposal facilities (TSDF), 6 salt water disposal wells and 7 deep injection wells. In the aggregate, our active solid waste landfills total 111,539 acres, including 39,618 permitted acres. We are engaged in 77

landfill gas-to-energy and other renewable energy projects and had post-closure responsibility for 124 closed landfills. We believe that our property and equipment are adequate for our current needs.

ITEM 3. LEGAL PROCEEDINGS

General Legal Proceedings

We are subject to extensive and evolving laws and regulations and have implemented safeguards to respond to regulatory requirements. In the normal course of our business, we become involved in legal proceedings. Some may result in fines, penalties or judgments against us, or settlements, which may impact earnings and cash flows for a particular period. Although we cannot predict the ultimate outcome of any legal matter with certainty, we do not believe the outcome of any of our pending legal proceedings will have a material adverse effect on our consolidated financial position, results of operations or cash flows.

As used in the immediately following paragraph, the term *legal proceedings* refers to litigation and similar claims against us and our subsidiaries, excluding: (1) ordinary course accidents, general commercial liability and workers' compensation claims, which are covered by insurance programs, subject to customary deductibles, and which, together with self-insured employee health care costs, are discussed in Note 7, *Other Liabilities*, to our consolidated financial statements in Part II, Item 8 of this Annual report on Form 10-K; and (2) environmental remediation liabilities, which totaled \$454.9 million at December 31, 2021 and which are discussed in Note 8, *Landfill and Environmental Costs*, to our consolidated financial statements in Part II, Item 8 of this Annual Report on Form 10-K.

We accrue for legal proceedings when losses become probable and reasonably estimable. We have recorded an aggregate accrual of approximately \$11 million relating to our outstanding legal proceedings as of December 31, 2021. As of the end of each applicable reporting period, we review each of our legal proceedings and, where it is probable that a liability has been incurred, we accrue for all probable and reasonably estimable losses. Where we are able to reasonably estimate a range of losses we may incur with respect to a matter, we record an accrual for the amount within the range that constitutes our best estimate. If we are able to reasonably estimate a range but no amount within the range appears to be a better estimate than any other, we use the amount that is the low end of such range. If we had used the high ends of such ranges, our aggregate potential liability would be approximately \$3 million higher than the amount recorded as of December 31, 2021.

Legal Proceedings over Certain Environmental Matters Involving Governmental Authorities with Possible Sanctions of \$1,000,000 or More

Item 103 of the SEC's Regulation S-K requires disclosure of certain environmental matters when a governmental authority is a party to the proceedings and the proceedings involve potential monetary sanctions unless we reasonably believe the monetary sanctions will not equal or exceed a threshold which we determine is reasonably designed to result in disclosure of any such proceeding that is material to our business or financial condition. We have determined such disclosure threshold to be \$1,000,000. We have no matters to disclose in accordance with that requirement.

ITEM 4. MINE SAFETY DISCLOSURES

None.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Market Information, Holders and Dividends

The principal market for our common stock is the New York Stock Exchange, and it is traded under the symbol RSG.

There were 529 holders of record of our common stock at February 3, 2022, which does not include beneficial owners for whom Cede & Co. or others act as nominees.

In October 2021, our Board of Directors declared a regular quarterly dividend of \$0.46 per share for shareholders of record on January 3, 2022. We expect to continue to pay quarterly cash dividends, and we may consider increasing our dividends if we believe it will enhance shareholder value.

We have the ability under our credit facilities to pay dividends and repurchase our common stock if we are in compliance with the financial covenants in our credit facilities. As of December 31, 2021, we were in compliance with those financial covenants.

Issuer Purchases of Equity Securities

The following table provides information relating to our purchases of shares of our common stock during the three months ended December 31, 2021:

	Total Number of Shares Purchased (a)	Average Price Paid per Share (a)	Total Number of Shares Purchased as Part of Publicly Announced Program (b)	Dollar Value of Shares that May Yet Be Purchased Under the Program (c)
October 1 – 31	599,017	\$ 122.13	599,017	\$ 1,747,826,634
November 1 – 30	—	\$ —	—	\$ 1,747,826,634
December 1 – 31	—	\$ —	—	\$ 1,747,826,634
	<u>599,017</u>		<u>599,017</u>	

- (a) In October 2020, our Board of Directors approved a \$2.0 billion share repurchase authorization effective starting January 1, 2021 and extending through December 31, 2023. Share repurchases under the program may be made through open market purchases or privately negotiated transactions in accordance with applicable federal securities laws. While the Board of Directors has approved the program, the timing of any purchases, the prices and the number of shares of common stock to be purchased will be determined by our management, at its discretion, and will depend upon market conditions and other factors. The share repurchase program may be extended, suspended or discontinued at any time. As of December 31, 2021, there were no repurchased shares pending settlement.
- (b) The total number of shares purchased as part of the publicly announced program were all purchased pursuant to the October 2020 authorization.
- (c) Shares that may be purchased under the program exclude shares of common stock that may be surrendered to satisfy statutory minimum tax withholding obligations in connection with the vesting of restricted stock units and performance stock units issued to employees.

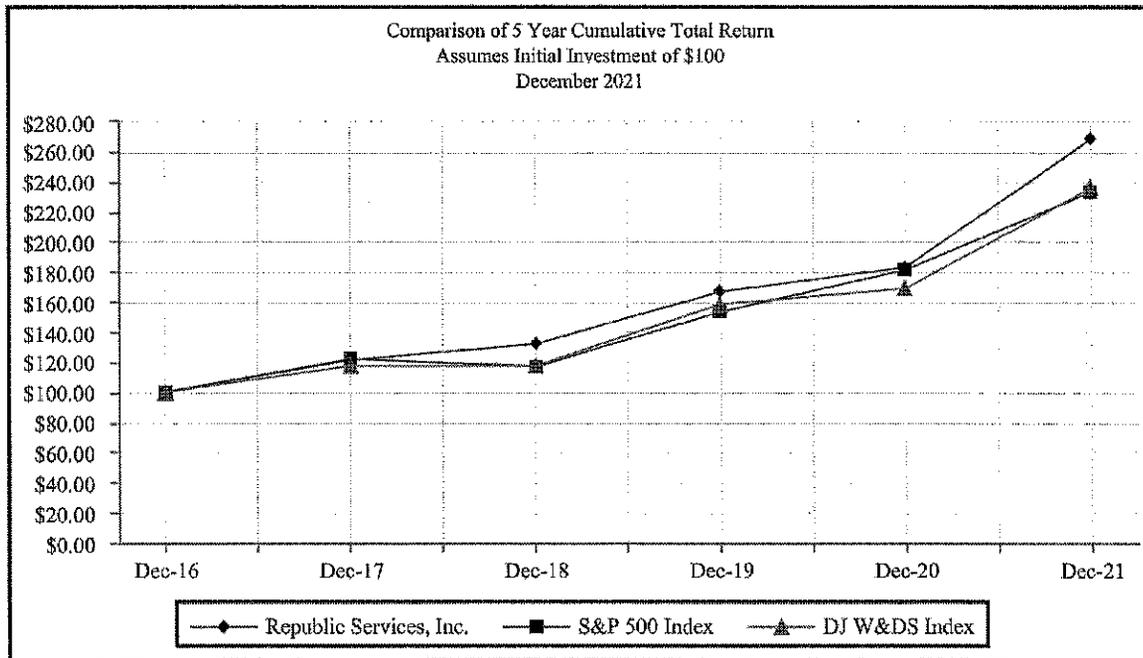

Recent Sales of Unregistered Securities

There were no sales of unregistered securities during the three months ended December 31, 2021.

Performance Graph

The following graph compares the performance of our common stock to the Standard & Poor's 500 Stock Index (S&P 500 Index) and the Dow Jones Waste & Disposal Services Index (DJ W&DS Index). The graph covers the period from December 31, 2016 to December 31, 2021 and assumes that the value of the investment in our common stock and in each index was \$100 as of December 31, 2016 and that all dividends were reinvested.

The following performance graph and related information shall not be deemed "soliciting material" or to be "filed" with the SEC, nor shall such information be incorporated by reference into any future filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, each as amended, except to the extent that we specifically incorporate it by reference into such filing.

	Indexed Returns for the Years Ended December 31,					
	2016	2017	2018	2019	2020	2021
Republic Services, Inc.	\$ 100.00	\$ 120.97	\$ 131.67	\$ 166.70	\$ 182.59	\$ 268.47
S&P 500 Index	\$ 100.00	\$ 121.83	\$ 116.49	\$ 153.17	\$ 181.35	\$ 233.40
DJ W&DS Index	\$ 100.00	\$ 117.08	\$ 117.21	\$ 158.35	\$ 168.74	\$ 235.89

ITEM 6. [RESERVED]

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion in conjunction with our audited consolidated financial statements and the notes thereto included in Part II, Item 8 of this Annual Report on Form 10-K. This discussion may contain forward-looking statements that anticipate results that are subject to uncertainty. We discuss in more detail various factors that could cause actual results to differ from expectations in Part I, Item 1A, Risk Factors in this Annual Report on Form 10-K.

For further discussion regarding our results of operations for the year ended December 31, 2020 as compared to the year ended December 31, 2019, refer to Part II, Item 7. *Management's Discussion and Analysis of Financial Condition and Results of Operations*, in our Annual Report on Form 10-K for the fiscal year ended December 31, 2020.

Impact of the COVID-19 Pandemic

In March 2020, the World Health Organization declared the outbreak of a new strain of coronavirus (COVID-19) a pandemic. The COVID-19 pandemic has negatively impacted the global economy, disrupted global supply chains and created significant volatility and disruption of financial markets. The full extent of the impact of the COVID-19 pandemic on our operations and financial performance will depend on future developments, including the duration and spread of the pandemic, all of which are uncertain and cannot be predicted at this time.

In mid-March 2020, certain customers in our small- and large-container businesses began adjusting their service levels, which included a decrease in the frequency of pickups or a temporary pause in service. In addition, we experienced a decline in volumes disposed at certain of our landfills and transfer stations. As service levels decreased, we also experienced a decrease in certain costs of our operations which are variable in nature. This decline in service activity peaked in the first half of April 2020 and improved sequentially through December 31, 2021.

In April 2020, we launched our Committed to Serve initiative and committed \$20 million to support frontline employees and their families, as well as small business customers in the local communities where we serve. In addition to this initiative, we have experienced an increase in certain costs of doing business as a direct result of the COVID-19 pandemic, including costs for additional safety equipment and hygiene products and increased facility and equipment cleaning. These costs are intended to assist in protecting the safety of our frontline employees as we continue to provide an essential service to our customers. In 2020 and 2021, we recognized our frontline employees for their commitment and contributions to their communities during the pandemic with awards that were paid in January 2021 and November 2021, respectively. In addition, we incurred incremental costs associated with expanding certain aspects of our existing healthcare programs. We may continue to incur similar costs in future years, although we expect the annual amount of such costs to be less than those incurred in 2020.

The effects of the COVID-19 pandemic on our business are described in more detail in the *Results of Operations* discussion in this *Management's Discussion and Analysis of Financial Condition and Results of Operations*.

Recent Developments

Acquisition of US Ecology

On February 8, 2022, we entered into a definitive agreement to acquire all outstanding shares of US Ecology, Inc. (US Ecology) in a transaction valued at approximately \$2.2 billion, including debt. US Ecology is a leading provider of environmental solutions offering treatment, recycling and disposal of hazardous, non-hazardous and specialty waste. We intend to finance the transaction using existing and new sources of debt.

The guidance included herein does not contemplate the impact from the pending acquisition of US Ecology, which is subject to regulatory and other approvals.

2022 Financial Guidance

In 2022, we will focus on driving profitable growth, making disciplined acquisition investments, maintaining an inclusive and engaging culture for our people, delivering a superior customer experience, and advancing technology to drive operational excellence. Our team remains focused on executing our strategy to deliver consistent earnings and free cash flow growth, and improving return on invested capital, while partnering with customers to create a more sustainable world. We are committed to maintaining an efficient capital structure, preserving our investment grade credit ratings and increasing cash returned to our shareholders.

Our guidance is based on current economic conditions and does not assume any significant changes in the overall economy in 2022. Specific guidance follows:

Revenue

We expect an increase in average yield of approximately 3.4% and volume growth to be in a range of 1.5% to 2.0%.

Adjusted Diluted Earnings per Share

The following is a summary of anticipated adjusted diluted earnings per share for the year ending December 31, 2022 compared to the actual adjusted diluted earnings per share for the year ended December 31, 2021. Adjusted diluted earnings per share is not a measure determined in accordance with U.S. GAAP:

	(Anticipated) Year Ending December 31, 2022	(Actual) Year Ended December 31, 2021
Diluted earnings per share	\$ 4.53 to 4.60	\$ 4.04
Restructuring charges	0.05	0.04
Loss on business divestitures and impairments, net	—	0.02
Accelerated vesting of compensation expense for CEO transition	—	0.07
Adjusted diluted earnings per share	\$ 4.58 to 4.65	\$ 4.17

We believe that the presentation of adjusted diluted earnings per share provides an understanding of operational activities before the financial effect of certain items. We use this measure, and believe investors will find it helpful, in understanding the ongoing performance of our operations separate from items that have a disproportionate effect on our results for a particular period. We have incurred comparable charges and costs in prior periods, and similar types of adjustments can reasonably be expected to be recorded in future periods. Our definition of adjusted diluted earnings per share may not be comparable to similarly titled measures presented by other companies.

The guidance set forth above constitutes forward-looking information and is not a guarantee of future performance. The guidance is based upon the current beliefs and expectations of our management and is subject to significant risk and uncertainties that could cause actual results to differ materially from those shown above. See Item 1A. *Risk Factors - Disclosure Regarding Forward-Looking Statements*.

Overview

Republic is one of the largest providers of environmental services in the United States, as measured by revenue. As of December 31, 2021, we operated facilities in 41 states through 356 collection operations, 239 transfer stations, 198 active landfills, 71 recycling processing centers, 3 treatment, recovery and disposal facilities, 3 treatment, storage and disposal facilities (TSDF), 6 salt water disposal wells, and 7 deep injection wells. We are engaged in 77 landfill gas-to-energy and other renewable energy projects and had post-closure responsibility for 124 closed landfills.

Revenue for the year ended December 31, 2021 increased by 11.2% to \$11,295.0 million compared to \$10,153.6 million in 2020. This change in revenue is due to increased volume of 3.8%, average yield of 2.9%, acquisitions, net of divestitures of 2.8%, recycling processing and commodity sales of 1.1%, and fuel recovery fees of 0.8%, partially offset by decreased environmental solutions revenue of 0.1%. Additionally, revenue decreased 0.1% due to one less workday in 2021 as compared to 2020.

The following table summarizes our revenue, costs and expenses for the years ended December 31, 2021 and 2020 (in millions of dollars and as a percentage of revenue):

	2021		2020	
Revenue	\$ 11,295.0	100.0 %	\$ 10,153.6	100.0 %
Expenses:				
Cost of operations	6,737.7	59.7	6,100.5	60.1
Depreciation, amortization and depletion of property and equipment	1,111.7	9.8	1,015.9	10.0
Amortization of other intangible assets	33.3	0.3	21.2	0.2
Amortization of other assets	40.5	0.4	38.8	0.4
Accretion	82.7	0.7	82.9	0.8
Selling, general and administrative	1,195.8	10.6	1,053.0	10.4
Withdrawal costs - multiemployer pension funds	—	—	34.5	0.3
Loss on business divestitures and impairments, net	0.5	—	77.7	0.8
Restructuring charges	16.6	0.1	20.0	0.2
Operating income	\$ 2,076.2	18.4 %	\$ 1,709.1	16.8 %

Our pre-tax income was \$1,575.1 million for the year ended December 31, 2021, compared to \$1,142.7 million in 2020. Our net income attributable to Republic Services, Inc. was \$1,290.4 million, or \$4.04 per diluted share for 2021, compared to \$967.2 million, or \$3.02 per diluted share, for 2020.

During 2021 and 2020, we recorded a number of charges, other expenses and benefits that impacted our pre-tax income, net income attributable to Republic Services, Inc. (net income – Republic) and diluted earnings per share as noted in the following table (in millions, except per share data). Additionally, see our *Results of Operations* section of this *Management's Discussion and Analysis of Financial Condition and Results of Operations* for a discussion of other items that impacted our earnings during the years ended December 31, 2021 and 2020. For comparative purposes, prior year amounts have been reclassified to conform to current year presentation.

	Year Ended December 31, 2021			Year Ended December 31, 2020		
	Pre-tax Income	Net Income - Republic	Diluted Earnings per Share	Pre-tax Income	Net Income - Republic	Diluted Earnings per Share
As reported	\$ 1,575.1	\$ 1,290.4	\$ 4.04	\$ 1,142.7	\$ 967.2	\$ 3.02
Loss on extinguishment of debt and other related costs	—	—	—	99.1	73.0	0.23
Restructuring charges	16.6	12.2	0.04	20.0	14.8	0.05
Loss on business divestitures and impairments, net	0.5	6.0	0.02	77.7	65.5	0.21
Withdrawal costs - multiemployer pension funds	—	—	—	34.5	25.5	0.08
Bridgeton insurance recovery	—	—	—	(10.8)	(8.2)	(0.03)

Total adjustments	39.1	40.2	0.13	220.5	170.6	0.54
As adjusted	\$ 1,614.2	\$ 1,330.6	\$ 4.17	\$ 1,363.2	\$ 1,137.8	\$ 3.56

We believe that presenting adjusted pre-tax income, adjusted net income – Republic, and adjusted diluted earnings per share, which are not measures determined in accordance with U.S. GAAP, provide an understanding of operational activities before the financial impact of certain items. We use these measures, and believe investors will find them helpful, in understanding the ongoing performance of our operations separate from items that have a disproportionate impact on our results for a particular period. We have incurred comparable charges and costs in prior periods, and similar types of adjustments can reasonably be expected to be recorded in future periods. Our definitions of adjusted pre-tax income, adjusted net income – Republic, and adjusted diluted earnings per share may not be comparable to similarly titled measures presented by other companies. Further information on each of these adjustments is included below.

Loss on extinguishment of debt and other related costs. During 2020, we incurred a loss on the early extinguishment of debt and other related costs related to the early extinguishment of our \$600.0 million 5.250% senior notes due November 2021 (the 2021 Notes) and our \$850.0 million 3.550% senior notes due June 2022 (the 2022 Notes), and to redeem \$250.0 million of the \$550.0 million outstanding 4.750% senior notes due May 2023 (the 2023 Notes). We paid total cash premiums of \$99.1 million and

incurred non-cash charges related to the proportional share of unamortized discounts and deferred issuance costs of \$2.8 million. The unamortized proportional share of certain cash flow hedges reclassified to earnings as non-cash interest expense was \$1.8 million, and the proportional share of our fair value hedges (related to the 2023 Notes) that were dedesignated and recognized in earnings as a reduction to non-cash interest expense was \$4.7 million. During 2021, we did not incur a loss on the early extinguishment of debt.

Restructuring charges. In 2020, we incurred costs related to the redesign of certain back-office software systems, which continued into 2021. In addition, in July 2020, we eliminated certain back-office support positions in response to a decline in the underlying demand for services resulting from the COVID-19 pandemic. In 2021 and 2020, we incurred restructuring charges of \$16.6 million and \$20.0 million, respectively. We paid \$17.2 million and \$15.5 million during 2021 and 2020, respectively, related to these restructuring efforts.

In 2022, we expect to incur additional restructuring charges of approximately \$20 million primarily related to the redesign of certain of our back-office software systems. Substantially all of these restructuring charges will be recorded in our corporate entities and other segment.

Loss on business divestitures and impairments, net. During 2021, we recorded a loss of \$0.5 million related to business divestitures and asset impairments in certain markets. Additionally, we recognized an increase in our deferred tax provision of \$5.5 million due to a change in our U.S. operational footprint as a result of certain acquisitions that closed during the period.

During 2020, we recorded a net loss on business divestitures and impairments of \$77.7 million, including \$42.6 million resulting from management's decision to exit certain product offerings and geographic basins in our upstream environmental solutions business.

Withdrawal costs - multiemployer pension funds. During 2020, we recorded charges to earnings of \$34.5 million for withdrawal events at multiemployer pension funds to which we contribute. As we obtain updated information regarding multiemployer pension funds, the factors used in deriving our estimated withdrawal liabilities will be subject to change, which may adversely impact our reserves for withdrawal costs.

Bridgeton insurance recovery. During 2020, we recognized an insurance recovery of \$10.8 million, related to our closed Bridgeton Landfill in Missouri, which we recognized as a reduction of remediation expenses in our cost of operations.

Accelerated vesting of compensation expense for CEO transition. In June 2021, Donald W. Slager retired as Chief Executive Officer (CEO) of Republic Services, Inc. During 2021, we recognized a charge of \$22.0 million primarily related to the accelerated vesting of his compensation awards that were previously scheduled to vest in 2022 and beyond.

Results of Operations

Revenue

We generate revenue by providing environmental services to our customers, including the collection and processing of recyclable materials, collection, transfer and disposal of non-hazardous solid waste, and other environmental solutions. Our residential, small-container and large-container collection operations in some markets are based on long-term contracts with municipalities. Certain of our municipal contracts have annual price escalation clauses that are tied to changes in an underlying base index such as a consumer price index. We generally provide small-container and large-container collection services to customers under contracts with terms up to three years. Our transfer stations and landfills generate revenue from disposal or tipping fees charged to third parties. Our recycling processing centers generate revenue from tipping fees charged to third parties and the sale of recycled commodities. Our revenue from environmental solutions consists mainly of fees we charge for disposal of hazardous and non-hazardous solid and liquid material and in-plant services, such as transportation and logistics, including at our TSDFs. Other non-core revenue consists primarily of revenue from National Accounts, which represents the portion of revenue generated from nationwide or regional contracts in markets outside our operating areas where the associated material handling is subcontracted to local operators. Consequently, substantially all of this revenue is offset with related subcontract costs, which are recorded in cost of operations.

The following table reflects our revenue by service line for the years ended December 31, 2021 and 2020 (in millions of dollars and as a percentage of revenue):

	2021		2020	
Collection:				
Residential	\$ 2,452.8	21.7 %	\$ 2,309.0	22.7 %
Small-container	3,417.7	30.3	3,106.8	30.6
Large-container	2,378.4	21.1	2,148.9	21.2
Other	59.6	0.5	51.5	0.5
Total collection	8,308.5	73.6	7,616.2	75.0
Transfer	1,490.0		1,349.4	
Less: intercompany	(814.4)		(745.9)	
Transfer, net	675.6	6.0	603.5	5.9
Landfill	2,506.7		2,298.1	
Less: intercompany	(1,092.8)		(1,018.5)	
Landfill, net	1,413.9	12.5	1,279.6	12.6
Environmental solutions	202.5	1.8	127.7	1.3
Other:				
Recycling processing and commodity sales	420.5	3.7	297.1	2.9
Other non-core	274.0	2.4	229.5	2.3
Total other	694.5	6.1	526.6	5.2
Total revenue	\$ 11,295.0	100.0 %	\$ 10,153.6	100.0 %

The following table reflects changes in components of our revenue, as a percentage of total revenue, for the years ended December 31, 2021 and 2020:

	2021	2020
Average yield	2.9 %	2.6 %
Fuel recovery fees	0.8	(0.7)
Total price	3.7	1.9
Volume	3.8	(3.1)
Change in workdays	(0.1)	—
Recycling processing and commodity sales	1.1	0.3
Environmental solutions	(0.1)	(0.9)
Total internal growth	8.4	(1.8)
Acquisitions / divestitures, net	2.8	0.4
Total	11.2 %	(1.4) %
Core price	5.0 %	4.8 %

Average yield is defined as revenue growth from the change in average price per unit of service, expressed as a percentage. Core price is defined as price increases to our customers and fees, excluding fuel recovery, net of price decreases to retain customers. We also measure changes in average yield and core price as a percentage of related-business revenue, defined as total revenue excluding recycled commodities, fuel recovery fees and environmental solutions revenue to determine the effectiveness of our pricing strategies. Average yield as a percentage of related-business revenue was 3.1% and 2.8% for 2021 and 2020, respectively. Core price as a percentage of related-business revenue was 5.3% and 5.1% for 2021 and 2020, respectively.

During 2021, we experienced the following changes in our revenue as compared to 2020:

- Average yield increased revenue by 2.9% due to positive pricing changes in all lines of business.
- The fuel recovery fee program, which mitigates our exposure to increases in fuel prices, increased revenue by 0.8%, primarily due to an increase in fuel prices compared to the same period in 2020 and an increase in the total revenue subject to the fuel recovery fees.

- Volume increased revenue by 3.8% during 2021 as compared to 2020 primarily due to volume growth in our landfill, transfer, and small- and large-container collection lines of business, partially offset by a decline in residential collection volumes. The volume increase in our landfill line of business is primarily attributable to increased solid and special waste event driven volumes. In mid-March 2020, certain customers in these lines of business began adjusting their services levels as a result of the COVID-19 pandemic. This decline in service activity peaked in the first half of April 2020 and sequentially improved thereafter. These increases were partially offset by one less workday as compared to 2020.
- Recycling processing and commodity sales increased revenue by 1.1% primarily due to an increase in overall commodity prices as compared to 2020. The average price for recycled commodities, excluding glass and organics for 2021 was \$187 per ton compared to \$96 per ton for 2020. Changing market demand for recycled commodities causes volatility in commodity prices. At current volumes and mix of materials, we believe a \$10 per ton change in the price of recycled commodities will change annual revenue and operating income by approximately \$22 million and \$10 million, respectively.
- During 2021, environmental solutions decreased revenue by 0.1% primarily due to a decrease in rig counts, drilling activity, and the delay of in-plant project work as a result of lower demand for crude oil which began in 2020.
- Acquisitions, net of divestitures, increased revenue by 2.8% due to our continued growth strategy of acquiring privately held environmental services companies that complement our existing business platform.

Cost of Operations

Cost of operations includes labor and related benefits, which consists of salaries and wages, health and welfare benefits, incentive compensation and payroll taxes. It also includes transfer and disposal costs representing tipping fees paid to third party disposal facilities and transfer stations; maintenance and repairs relating to our vehicles, equipment and containers, including related labor and benefit costs; transportation and subcontractor costs, which include costs for independent haulers that transport our material to disposal facilities and costs for local operators who provide environmental services associated with our National Accounts in markets outside our standard operating areas; fuel, which includes the direct cost of fuel used by our vehicles, net of fuel tax credits; disposal fees and taxes, consisting of landfill taxes, host community fees and royalties; landfill operating costs, which includes financial assurance, leachate disposal, remediation charges and other landfill maintenance costs; risk management costs, which include insurance premiums and claims; cost of goods sold, which includes material costs paid to suppliers; and other, which includes expenses such as facility operating costs, equipment rent and gains or losses on sale of assets used in our operations.

The following table summarizes the major components of our cost of operations for the years ended December 31, 2021 and 2020 (in millions of dollars and as a percentage of revenue):

	2021		2020	
Labor and related benefits	\$ 2,324.4	20.6 %	\$ 2,153.4	21.2 %
Transfer and disposal costs	865.8	7.7	796.9	7.9
Maintenance and repairs	1,048.8	9.3	969.6	9.6
Transportation and subcontract costs	779.5	6.9	674.1	6.6
Fuel	383.0	3.4	271.7	2.7
Disposal fees and taxes	336.6	3.0	313.5	3.1
Landfill operating costs	258.9	2.3	258.2	2.5
Risk management	261.6	2.3	213.9	2.1
Other	479.1	4.2	460.0	4.5
Subtotal	6,737.7	59.7	6,111.3	60.2
Bridgeton insurance recovery	—	—	(10.8)	(0.1)
Total cost of operations	\$ 6,737.7	59.7 %	\$ 6,100.5	60.1 %

These cost categories may change from time to time and may not be comparable to similarly titled categories presented by other companies. As such, you should take care when comparing our cost of operations by component to that of other companies and of ours for prior periods.

Our cost of operations increased for the year ended December 31, 2021 compared to the same period in 2020 as a result of the following:

- Labor and related benefits increased in aggregate dollars due to higher hourly and salaried wages as a result of annual merit increases and an increase in service levels attributable to the economic recovery from the COVID-19 pandemic. This increase was partially offset by one less workday during 2021 as compared to 2020.
- Transfer and disposal costs increased in aggregate dollars as a result of higher collection volumes and an increase in third party disposal rates. During both 2021 and 2020, approximately 68% of the total solid waste volume we collected was disposed at landfill sites that we own or operate (internalization).
- Maintenance and repairs expense increased in aggregate dollars due to an increase in service levels attributable to the economic recovery from the COVID-19 pandemic.
- Transportation and subcontract costs increased primarily due to higher collection and transfer station volumes, acquisition-related activity, and increased subcontract work attributable to an increase in non-core revenues, partially offset by one less workday during 2021 as compared to 2020.
- Fuel costs increased due to an increase in the average diesel fuel cost per gallon. The national average cost per gallon for diesel fuel in 2021 was \$3.29 compared to \$2.55 for 2020.

At current consumption levels, we believe a twenty-cent per gallon change in the price of diesel fuel would change our fuel costs by approximately \$26 million per year. Offsetting these changes in fuel expense would be changes in our fuel recovery fee charged to our customers. At current participation rates, we believe a twenty-cent per gallon change in the price of diesel fuel would change our fuel recovery fee by approximately \$26 million per year.

- Disposal fees and taxes increased in aggregate dollars due to an increase in service levels attributable to the economic recovery from the COVID-19 pandemic.
- Risk management expenses increased primarily due to unfavorable actuarial development in our auto liability claims as well as higher premium costs, partially offset by favorable workers' compensation development in prior year programs.
- During 2020, we recognized an insurance recovery of \$10.8 million, related to our closed Bridgeton Landfill in Missouri, which we recognized as a reduction of remediation expenses included in our cost of operations in our consolidated statement of income.

Depreciation, Amortization and Depletion of Property and Equipment

The following table summarizes depreciation, amortization and depletion of property and equipment for the years ended December 31, 2021 and 2020 (in millions of dollars and as a percentage of revenue):

	2021		2020	
Depreciation and amortization of property and equipment	\$ 734.2	6.5 %	\$ 692.9	6.8 %
Landfill depletion and amortization	377.5	3.3	323.0	3.2
Depreciation, amortization and depletion expense	\$ 1,111.7	9.8 %	\$ 1,015.9	10.0 %

Depreciation and amortization of property and equipment increased primarily due to additional assets acquired with our acquisitions, an increase in the cost of replacement vehicles and container assets, as well as increased capital expenditures on vehicles to support volume growth.

Landfill depletion and amortization increased due to higher landfill disposal volumes, primarily driven by increased solid and special waste volumes, coupled with increased depletion rates. Additionally, we recognized favorable amortization adjustments related to our asset retirement obligations in 2020 that did not recur in 2021.

Amortization of Other Intangible Assets

Expenses for amortization of other intangible assets were \$33.3 million, or 0.3% of revenue, for the year ended December 31, 2021, compared to \$21.2 million, or 0.2% of revenue for 2020. Our other intangible assets primarily relate to customer relationships and, to a lesser extent, non-compete agreements. Amortization expense increased due to additional assets acquired as a result of our business acquisitions.

Amortization of Other Assets

Expenses for amortization of other assets were \$40.5 million, or 0.4% of revenue, for the year ended December 31, 2021, compared to \$38.8 million, or 0.4% of revenue, for 2020. Our other assets primarily relate to the prepayment of fees and capitalized implementation costs associated with cloud-based hosting arrangements.

Accretion Expense

Accretion expense was \$82.7 million, or 0.7% of revenue, and \$82.9 million, or 0.8% of revenue, for the years ended December 31, 2021 and 2020, respectively. Accretion expense has remained relatively unchanged as our asset retirement obligations remained relatively consistent period over period.

Selling, General and Administrative Expenses

Selling, general and administrative expenses include salaries, health and welfare benefits, and incentive compensation for corporate and field general management, field support functions, sales force, accounting and finance, legal, management information systems, and clerical and administrative departments. Other expenses include rent and office costs, fees for professional services provided by third parties, legal settlements, marketing, investor and community relations services, directors' and officers' insurance, general employee relocation, travel, entertainment and bank charges. Restructuring charges are excluded from selling, general and administrative expenses and are discussed separately.

The following table summarizes our selling, general and administrative expenses for the years ended December 31, 2021 and 2020 (in millions of dollars and as a percentage of revenue):

	2021		2020	
Salaries and related benefits	\$ 844.4	7.5 %	\$ 740.5	7.3 %
Provision for doubtful accounts	19.9	0.2	27.8	0.3
Other	309.5	2.7	284.7	2.8
Subtotal	1,173.8	10.4	1,053.0	10.4
Accelerated vesting of compensation expense for CEO transition	22.0	0.2	—	—
Total selling, general and administrative expenses	\$ 1,195.8	10.6 %	\$ 1,053.0	10.4 %

These cost categories may change from time to time and may not be comparable to similarly titled categories used by other companies. As such, you should take care when comparing our selling, general and administrative expenses by cost component to those of other companies and of ours for prior periods.

The most significant items affecting our selling, general and administrative expenses during 2021 as compared to 2020 are summarized below:

- Salaries and related benefits increased primarily due to higher management incentive expenses as a result of outperforming our annual incentive metrics.
- In 2021, the provision for doubtful accounts decreased as a result of an improved trend in historical collections. Our days sales outstanding changed from 39.2, or 27.5 days net of deferred revenue, as of December 31, 2021 compared to 38.6, or 26.4 days net of deferred revenue, as of December 31, 2020.
- Other selling, general and administrative expenses increased during 2021, primarily due to an increase in recruiting, advertising, and bank fees. Meetings and events expenses also increased during 2021 following a decrease in 2020 as a result of the COVID-19 pandemic. These increases were partially offset by a decrease in professional fees, acquisition deal costs and unfavorable changes in certain legal reserves during 2020, which did not recur in 2021.
- During 2021, we recognized a charge of \$22.0 million primarily related to the accelerated vesting of Donald W. Slager's compensation awards that were previously scheduled to vest in 2022 and beyond as a result of his retirement as Chief Executive Officer (CEO) of Republic Services, Inc. in June 2021.

Withdrawal Costs - Multiemployer Pension Funds

During 2020, we recorded charges to earnings of \$34.5 million for withdrawal events at multiemployer pension funds to which we contribute. We paid \$34.4 million during 2020 relative to these withdrawal events. As we obtain updated information regarding multiemployer pension funds, the factors used in deriving our estimated withdrawal liabilities will be subject to change, which may adversely impact our reserves for withdrawal costs.

Loss (Gain) on Business Divestitures and Impairments, Net

We strive to have a number one or number two market position in each of the markets we serve, or have a clear path on how we will achieve a leading market position over time. Where we cannot establish a leading market position, or where operations are not generating acceptable returns, we may decide to divest certain assets and reallocate resources to other markets. Business divestitures could result in gains, losses or impairment charges that may be material to our results of operations in a given period.

During 2021, we recorded a net loss on business divestitures and impairments of \$0.5 million, which was due to business divestitures in certain markets. During 2020, we recorded a net loss on business divestitures and impairments of \$77.7 million, including \$42.6 million resulting from management's decision to exit certain product offerings and geographic basins in our upstream environmental solutions business.

Restructuring Charges

In 2020, we incurred costs related to the redesign of certain back-office software systems, which continued into 2021. In addition, in July 2020, we eliminated certain back-office support positions in response to a decline in the underlying demand for services resulting from the COVID-19 pandemic. During 2021 and 2020, we incurred restructuring charges of \$16.6 million and \$20.0 million, respectively. We paid \$17.2 million and \$15.5 million during 2021 and 2020, respectively, related to these restructuring efforts.

In 2022, we expect to incur additional restructuring charges of approximately \$20 million primarily related to the redesign of certain of our back-office software systems. Substantially all of these restructuring charges will be recorded in our corporate entities and other segment.

Interest Expense

The following table provides the components of interest expense, including accretion of debt discounts and accretion of discounts primarily associated with environmental and risk insurance liabilities assumed in acquisitions (in millions of dollars):

	2021	2020
Interest expense on debt	\$ 249.1	\$ 300.1
Non-cash interest	70.5	61.7
Less: capitalized interest	(5.0)	(6.2)
Total interest expense	<u>\$ 314.6</u>	<u>\$ 355.6</u>

Total interest expense for 2021 decreased compared to 2020 primarily due to lower interest rates on our floating and fixed rate debt. The decrease attributable to our fixed rate debt is primarily due to the issuance of senior notes in 2020 with coupons ranging from 0.875% to 3.050%, the proceeds of which were used to repay outstanding senior notes with coupons ranging from 3.550% to 5.500%.

During 2021 and 2020, cash paid for interest, excluding net swap settlements for our fixed to floating interest rate swaps, was \$249.4 million and \$325.1 million, respectively.

Loss on Extinguishment of Debt

During 2020, we incurred a \$101.9 million loss on the early extinguishment of debt. We paid total cash premiums during the year totaling \$99.1 million and incurred non-cash charges related to the proportional share of unamortized discounts and deferred issuance costs of \$2.8 million.

Income Taxes

Our provision for income taxes was \$282.8 million and \$173.1 million for 2021 and 2020, respectively. Our effective income tax rate was 18.0% and 15.2% for 2021 and 2020, respectively. We made income tax payments (net of refunds) of approximately \$300 million and \$124 million for 2021 and 2020, respectively. Income taxes paid in 2021 and 2020 reflect benefits from tax credits from our continuing investments in solar energy. For 2020, cash taxes paid reflect benefits from 100% bonus depreciation on qualified assets.

During 2021, we acquired non-controlling interests in limited liability companies established to own solar energy assets that qualified for investment tax credits under Section 48 of the Internal Revenue Code. We account for these investments using the equity method of accounting and recognize our share of income or loss and other reductions in the value of our investment in loss from unconsolidated equity method investments within our consolidated statements of income. For further discussion regarding our equity method accounting, see Note 3, *Business Acquisitions, Investments and Restructuring Charges*. Our 2021 tax provision reflects a benefit of approximately \$126 million due to the tax credits related to these investments.

Our 2020 tax provision was reduced by \$11.6 million from excess tax benefits related to stock compensation, approximately \$100 million related to the tax credits from our non-controlling interest in limited liability companies established to own solar energy assets, \$17.2 million for adjustments to our valuation allowance due to the realizability of certain state loss carryforwards, and \$8.2 million due to the realization of additional federal and state benefits as well as adjustments to deferred taxes due to the completion of our 2019 tax returns.

We have deferred tax assets related to state net operating loss carryforwards with an estimated tax effect of approximately \$87 million available as of December 31, 2021. These state net operating loss carryforwards expire at various times between 2022 and 2041. We believe that it is more likely than not that the benefit from some of our state net operating loss carryforwards will not be realized due to limitations on these loss carryforwards in certain states. In recognition of this risk, as of December 31, 2021, we have provided a valuation allowance of approximately \$43 million.

Reportable Segments

Our senior management evaluates the financial performance of our operations through three operating segments. Group 1 primarily consists of geographic areas located in the western United States, and Group 2 primarily consists of geographic areas located in the southeastern and mid-western United States, and the eastern seaboard of the United States. Our Environmental Solutions operating segment, which provides environmental solutions for daily operations of industrial, petrochemical and refining facilities, is aggregated with Corporate entities and other as it only represents approximately 2% of our consolidated revenue. Each operating segment provides integrated environmental services, including collection, transfer, recycling, and disposal.

Summarized financial information concerning our reportable segments for the years ended December 31, 2021 and 2020 is shown in the following table (in millions of dollars and as a percentage of revenue in the case of operating margin):

	Net Revenue	Depreciation, Amortization, Depletion and Accretion Before Adjustments for Asset Retirement Obligations	Adjustments to Amortization Expense for Asset Retirement Obligations	Depreciation, Amortization, Depletion and Accretion	Loss on Business Divestitures and Impairments, Net	Operating Income (Loss)	Operating Margin
2021:							
Group 1	\$ 5,558.9	\$ 555.1	\$ (7.0)	\$ 548.1	\$ —	\$ 1,495.7	26.9 %
Group 2	5,333.6	543.8	(2.5)	541.3	—	1,135.7	21.3 %
Corporate entities and other	402.5	162.4	16.4	178.8	0.5	(555.2)	—
Total	\$ 11,295.0	\$ 1,261.3	\$ 6.9	\$ 1,268.2	\$ 0.5	\$ 2,076.2	18.4 %
2020:							
Group 1	\$ 5,057.5	\$ 522.1	\$ (20.0)	\$ 502.1	\$ —	\$ 1,343.3	26.6 %
Group 2	4,791.9	506.5	(17.6)	488.9	—	966.8	20.2 %
Corporate entities and other	304.2	142.7	25.1	167.8	77.7	(601.0)	—
Total	\$ 10,153.6	\$ 1,171.3	\$ (12.5)	\$ 1,158.8	\$ 77.7	\$ 1,709.1	16.8 %

Financial information for the year ended December 31, 2020 reflects the transfer of our Environmental Solutions operating segment from Group 2 to Corporate entities and other, to align with how our chief operating decision maker began evaluating our operations in December 2020.

Corporate entities and other include legal, tax, treasury, information technology, risk management, human resources, closed landfills, other administrative functions and environmental solutions. National Accounts revenue included in corporate entities represents the portion of revenue generated from nationwide and regional contracts in markets outside our operating areas where the associated material handling is subcontracted to local operators. Consequently, substantially all of this revenue is offset with related subcontract costs, which are recorded in cost of operations.

Significant changes in the revenue and operating margins of our reportable segments for 2021 compared to 2020 are discussed below.

Group 1

Revenue for 2021 increased 9.9% from 2020 due to an increase in both average yield and volume in all lines of business.

Operating income in Group 1 increased from \$1,343.3 million for 2020, or a 26.6% operating margin, to \$1,495.7 million for 2021, or a 26.9% operating margin. Operating income margin during 2021 was favorably impacted by the increase in revenue

attributable to economic recovery coupled with the effective management of certain operating costs. This benefit was partially offset by an increase in fuel costs.

Group 2

Revenue for 2021 increased 11.3% from 2020 due to an increase in average yield in all lines of business. Additionally, volume increased in our landfill, transfer station, and small- and large-container collection lines of business, partially offset by volume declines in our residential line of business.

Operating income in Group 2 increased from \$966.8 million for 2020, or a 20.2% operating margin, to \$1,135.7 million for 2021, or a 21.3% operating margin. Operating income margin for 2021 was favorably impacted by the increase in revenue attributable to economic recovery coupled with the effective management of certain operating costs. This benefit was partially offset by an increase in fuel costs.

Corporate Entities and Other

The Corporate entities and other operating loss decreased from \$601.0 million for 2020 to \$555.2 million for 2021. During 2021, we recorded a net loss on business divestitures and impairments of \$0.5 million. During 2020, we recorded a net loss on business divestitures and impairments of \$77.7 million, including \$42.6 million resulting from management's decision to exit certain product offerings and geographic basins in our upstream environmental solutions business.

Landfill and Environmental Matters

Our landfill costs include daily operating expenses, costs of capital for cell development, costs for final capping, closure and post-closure, and the legal and administrative costs of ongoing environmental compliance. Daily operating expenses include leachate treatment, transportation and disposal costs, methane gas and groundwater monitoring and system maintenance costs, interim cap maintenance costs, and costs associated with applying daily cover materials. We expense all indirect landfill development costs as they are incurred. We use life cycle accounting and the units-of-consumption method to recognize certain direct landfill costs related to landfill development. In life cycle accounting, certain direct costs are capitalized and charged to depletion expense based on the consumption of cubic yards of available airspace. These costs include all costs to acquire and construct a site, including excavation, natural and synthetic liners, construction of leachate collection systems, installation of methane gas collection and monitoring systems, installation of groundwater monitoring wells, and other costs associated with acquiring and developing the site. Obligations associated with final capping, closure and post-closure are capitalized and amortized on a units-of-consumption basis as airspace is consumed.

Cost and airspace estimates are developed at least annually by engineers. Our operating and accounting personnel use these estimates to adjust the rates we use to expense capitalized costs. Changes in these estimates primarily relate to changes in cost estimates, available airspace, inflation and applicable regulations. Changes in available airspace include changes in engineering estimates, changes in design and changes due to the addition of airspace lying in expansion areas that we believe have a probable likelihood of being permitted. Changes in engineering estimates typically include modifications to the available disposal capacity of a landfill based on a refinement of the capacity calculations resulting from updated information.

Available Airspace

As of December 31, 2021 and 2020, we owned or operated 198 and 186 active solid waste landfills, respectively, with total available disposal capacity estimated to be 5.0 billion in-place cubic yards in both years. For these landfills, the following table reflects changes in capacity and remaining capacity, as measured in cubic yards of airspace:

	Balance as of December 31, 2020	New Expansions Undertaken	Landfills Acquired, Net of Divestitures	Permits Granted / New Sites, Net of Closures	Airspace Consumed	Changes in Engineering Estimates	Balance as of December 31, 2021
Cubic yards (in millions):							
Permitted airspace	4,792.5	—	61.4	37.8	(79.3)	14.3	4,826.7
Probable expansion airspace	196.4	20.5	—	(30.9)	—	—	186.0
Total cubic yards (in millions)	4,988.9	20.5	61.4	6.9	(79.3)	14.3	5,012.7
Number of sites:							
Permitted airspace	186	—	13	(1)	—	—	198
Probable expansion airspace	11	2	—	(2)	—	—	11

	Balance as of December 31, 2019	New Expansions Undertaken	Landfills Acquired, Net of Divestitures	Permits Granted / New Sites, Net of Closures	Airspace Consumed	Changes in Engineering Estimates	Balance as of December 31, 2020
Cubic yards (in millions):							
Permitted airspace	4,673.0	—	(5.1)	205.8	(76.1)	(5.1)	4,792.5
Probable expansion airspace	321.7	32.9	—	(158.2)	—	—	196.4
Total cubic yards (in millions)	4,994.7	32.9	(5.1)	47.6	(76.1)	(5.1)	4,988.9
Number of sites:							
Permitted airspace	189	—	(2)	(1)	—	—	186
Probable expansion airspace	12	2	—	(3)	—	—	11

Total available disposal capacity represents the sum of estimated permitted airspace plus an estimate of probable expansion airspace. Engineers develop these estimates at least annually using information provided by annual aerial surveys. Before airspace included in an expansion area is determined to be probable expansion airspace and, therefore, included in our calculation of total available disposal capacity, it must meet all of our expansion criteria. See Note 2, *Summary of Significant Accounting Policies*, and Note 8, *Landfill and Environmental Costs*, of the notes to our consolidated financial statements in Item 8 of this Annual Report on Form 10-K for further information. Also see our *Critical Accounting Judgments and Estimates* section of this Management's Discussion and Analysis of Financial Condition and Results of Operations.

As of December 31, 2021, 11 of our landfills met all of our criteria for including their probable expansion airspace in their total available disposal capacity. At projected annual volumes, these 11 landfills have an estimated remaining average site life of 33 years, including probable expansion airspace. The average estimated remaining life of all of our landfills is 59 years. We have other expansion opportunities that are not included in our total available airspace because they do not meet all of our criteria for treatment as probable expansion airspace.

The following table reflects the estimated operating lives of our active landfill sites based on available and probable disposal capacity using current annual volumes as of December 31, 2021:

	Number of Sites without Probable Expansion Airspace	Number of Sites with Probable Expansion Airspace	Total Sites	Percent of Total
0 to 5 years	21	—	21	10.6 %
6 to 10 years	19	—	19	9.6
11 to 20 years	25	3	28	14.1
21 to 40 years	55	3	58	29.3
41+ years	67	5	72	36.4
Total	187	11	198	100.0 %

Final Capping, Closure and Post-Closure Costs

As of December 31, 2021, accrued final capping, closure and post-closure costs were \$1,507.3 million, of which \$68.4 million were current and \$1,438.9 million were long-term as reflected in our consolidated balance sheets in accrued landfill and environmental costs included in Part II, Item 8 of this Annual Report on Form 10-K.

Remediation and Other Charges for Landfill Matters

It is reasonably possible that we will need to adjust our accrued landfill and environmental liabilities to reflect the effects of new or additional information, to the extent that such information impacts the costs, timing or duration of the required actions. Future changes in our estimates of the costs, timing or duration of the required actions could have a material adverse effect on our consolidated financial position, results of operations and cash flows.

In 2020, we recognized an insurance recovery of \$10.8 million related to our closed Bridgeton Landfill in Missouri as a reduction of remediation expenses included in our cost of operations.

For a description of our significant remediation matters, see Note 8, *Landfill and Environmental Costs*, of the notes to our consolidated financial statements in Part II, Item 8 of this Annual Report on Form 10-K.

Investment in Landfills

As of December 31, 2021, we expect to spend an estimated additional \$9.6 billion on existing landfills, primarily related to cell construction and environmental structures, over their remaining lives. Our total expected investment, excluding non-depletable land, estimated to be \$13.8 billion, or \$2.75 per cubic yard, is used in determining our depletion and amortization expense based on airspace consumed using the units-of-consumption method.

The following table reflects our future expected investment as of December 31, 2021 (in millions):

	Balance as of December 31, 2021	Expected Future Investment	Total Expected Investment
Non-depletable landfill land	\$ 197.7	\$ —	\$ 197.7
Landfill development costs	8,539.6	9,631.5	18,171.1
Construction-in-progress - landfill	279.3	—	279.3
Accumulated depletion and amortization	(4,625.6)	—	(4,625.6)
Net investment in landfill land and development costs	\$ 4,391.0	\$ 9,631.5	\$ 14,022.5

The following table reflects our net investment in our landfills, excluding non-depletable land, and our depletion, amortization and accretion expense for the years ended December 31, 2021 and 2020:

	2021	2020
Number of landfills owned or operated	198	186
Net investment, excluding non-depletable land (in millions)	\$ 4,193.3	\$ 4,046.0
Total estimated available disposal capacity (in millions of cubic yards)	5,012.7	4,988.9
Net investment per cubic yard	\$ 0.84	\$ 0.81
Landfill depletion and amortization expense (in millions)	\$ 377.5	\$ 323.0
Accretion expense (in millions)	82.7	82.9
Airspace consumed (in millions of cubic yards)	460.2	405.9
Depletion, amortization and accretion expense per cubic yard of airspace consumed	\$ 5.80	\$ 5.33

During 2021 and 2020, our average compaction rate was approximately 2,000 pounds per cubic yard based primarily on a three-year historical moving average.

Property and Equipment

The following tables reflect the activity in our property and equipment accounts for the years ended December 31, 2021 and 2020 (in millions of dollars):

	Gross Property and Equipment							Balance as of December 31, 2021
	Balance as of December 31, 2020	Capital Additions	Retirements	Acquisitions, Net of Divestitures	Non-Cash Additions for Asset Retirement Obligations	Adjustments for Asset Retirement Obligations	Impairments, Transfers and Other Adjustments	
Land	\$ 633.4	\$ 32.7	\$ (3.9)	\$ 16.6	\$ —	\$ —	\$ 16.1	\$ 694.9
Landfill development costs	7,991.7	6.5	—	65.5	46.7	58.9	370.3	8,539.6
Vehicles and equipment	8,119.0	651.0	(385.2)	109.3	—	—	82.8	8,576.9
Buildings and improvements	1,402.5	24.8	(6.9)	20.9	0.5	—	56.6	1,508.4
Construction-in-progress - landfill	303.8	358.5	—	—	—	—	(383.0)	279.3
Construction-in-progress - other	107.4	240.2	—	5.3	—	—	(170.0)	182.9
Total	\$ 18,557.8	\$ 1,313.7	\$ (396.0)	\$ 217.6	\$ 47.2	\$ 58.9	\$ (17.2)	\$ 19,782.0

Accumulated Depreciation, Amortization and Depletion							
	Balance as of December 31, 2020	Additions Charged to Expense	Retirements	Acquisitions, Net of Divestitures	Adjustments for Asset Retirement Obligations	Impairments, Transfers and Other Adjustments	Balance as of December 31, 2021
Landfill development costs	\$ (4,249.5)	\$ (369.4)	\$ —	\$ 0.5	\$ (7.2)	\$ —	\$ (4,625.6)
Vehicles and equipment	(4,953.4)	(665.4)	376.3	—	—	10.9	(5,231.6)
Buildings and improvements	(628.7)	(68.9)	5.0	0.3	—	(0.4)	(692.7)
Total	\$ (9,831.6)	\$ (1,103.7)	\$ 381.3	\$ 0.8	\$ (7.2)	\$ 10.5	\$ (10,549.9)

Gross Property and Equipment								
	Balance as of December 31, 2019	Capital Additions	Retirements	Acquisitions, Net of Divestitures	Non-Cash Additions for Asset Retirement Obligations	Adjustments for Asset Retirement Obligations	Impairments, Transfers and Other Adjustments	Balance as of December 31, 2020
Land	\$ 618.8	\$ 9.9	\$ (8.1)	\$ 10.4	\$ —	\$ —	\$ 2.4	\$ 633.4
Landfill development costs	7,474.7	2.6	(15.5)	62.3	40.6	(45.5)	472.5	7,991.7
Vehicles and equipment	7,766.0	654.4	(336.3)	3.9	—	—	31.0	8,119.0

Liquidity and Capital Resources

Cash and Cash Equivalents

The following is a summary of our cash and cash equivalents and restricted cash and marketable securities balances as of December 31:

	2021	2020
Cash and cash equivalents	\$ 29.0	\$ 38.2
Restricted cash and marketable securities	139.0	149.1
Less: restricted marketable securities	(62.4)	(73.1)
Cash, cash equivalents, restricted cash and restricted cash equivalents	\$ 105.6	\$ 114.2

Our restricted cash and marketable securities include, among other things, restricted cash related to proceeds from the issuance of tax-exempt bonds that will be used to fund qualifying landfill-related expenditures in the Commonwealth of Pennsylvania, restricted cash and marketable securities pledged to regulatory agencies and governmental entities as financial guarantees of our performance under certain collection, landfill and transfer station contracts and permits, and relating to our final capping, closure and post-closure obligations at our landfills, and restricted cash and marketable securities related to our insurance obligations.

The following table summarizes our restricted cash and marketable securities as of December 31:

	2021	2020
Financing proceeds	\$ 12.4	\$ 31.5
Capping, closure and post-closure obligations	42.4	117.6
Insurance	84.2	149.1
Total restricted cash and marketable securities	<u>\$ 139.0</u>	<u>\$ 149.1</u>

Material Cash Requirements and Intended Uses of Cash

We expect existing cash, cash equivalents, restricted cash and marketable securities, cash flows from operations and financing activities to continue to be sufficient to fund our operating activities and cash commitments for investing and financing activities for at least the next 12 months and thereafter for the foreseeable future. Our known current- and long-term uses of cash include, among other possible demands: (1) capital expenditures and leases, (2) acquisitions, (3) dividend payments, (4) share repurchases, (5) repayments to service debt and other long-term obligations, and (6) payments for asset retirement obligations and environmental liabilities.

Capital Expenditures and Leases

We make investments in property and equipment primarily to allow for growth of our service offerings. These investments are largely concentrated in vehicles and equipment and costs to construct our landfills. We expect to spend approximately \$1.3 billion on capital expenditures in 2022.

We lease property and equipment in the ordinary course of business under various lease agreements. The most significant lease obligations are for real property and equipment specific to our industry, including property operated as a landfill or transfer station and operating equipment. As of December 31, 2021, the amount of total future lease payments under operating and finance leases was \$315.4 million and \$433.6 million, respectively. For additional detail regarding our lease obligations, see Note 10, *Leases*, of the notes to our audited consolidated financial statements in Part II, Item 8 of this Annual Report on Form 10-K.

Acquisitions

Our acquisition growth strategy focuses primarily on acquiring privately held recycling and solid waste companies and environmental solutions businesses that complement our existing business platform. We continue to invest in value-enhancing acquisitions in existing markets. In 2022, we expect to invest at least \$500 million in acquisitions.

Dividend Payments

In October 2021, our Board of Directors approved a quarterly dividend of \$0.46 per share. Aggregate cash dividends declared were \$563.0 million for the year ended December 31, 2021. As of December 31, 2021, we recorded a quarterly dividend payable of \$145.9 million to shareholders of record at the close of business on January 3, 2022, which was paid on January 14, 2022.

Share Repurchases

In October 2020, our Board of Directors approved a \$2.0 billion share repurchase authorization effective starting January 1, 2021 and extending through December 31, 2023. Share repurchases under the current program may be made through open market purchases or privately negotiated transactions in accordance with applicable federal securities laws. While the Board of Directors has approved the program, the timing of any purchases, the prices and the number of shares of common stock to be purchased will be determined by our management, at its discretion, and will depend upon market conditions and other factors. The share repurchase program may be extended, suspended or discontinued at any time. As of December 31, 2021, the remaining authorized purchase capacity under our October 2020 repurchase program was \$1.7 billion.

Debt and other long-term obligations

Debt repayments may include purchases of our outstanding indebtedness in the secondary market or otherwise. We believe that our excess cash, cash from operating activities and our availability to draw on our credit facilities provide us with sufficient financial resources to meet our anticipated capital requirements and maturing obligations as they come due.

We may choose to voluntarily retire certain portions of our outstanding debt before their maturity dates using cash from operations or additional borrowings. We may also explore opportunities in the capital markets to fund redemptions should market conditions be favorable. Early extinguishment of debt will result in an impairment charge in the period in which the debt is repaid. The loss on early extinguishment of debt relates to premiums paid to effectuate the repurchase and the relative portion of unamortized note discounts and debt issue costs.

As of December 31, 2021, the total principal value of our debt was \$9.7 billion of which \$8.2 million is due in 2022.

We have several agreements that require us to dispose of a minimum number of tons at third-party disposal facilities. Under these put-or-pay agreements, we must pay for agreed-upon minimum volumes regardless of the actual number of tons placed at the facilities.

Our unconditional purchase commitments have varying expiration dates, with some extending through the remaining life of the respective landfill. Future minimum payments under unconditional purchase commitments, consisting primarily of (1) disposal related agreements, which include fixed or minimum royalty payments, host agreements, and take-or-pay and put-or-pay agreements, and (2) other obligations including committed capital expenditures and consulting service agreements. As of December 31, 2021 such purchase commitments, which do not qualify for recognition on our Consolidated Balance Sheets, amount to \$772.3 million, of which \$142.6 million is short-term.

For additional detail regarding our debt and known contractual and other obligation, see Note 9, *Debt*, and Note 19, *Commitments and Contingencies*, of the notes to our audited consolidated financial statements in Part II, Item 8 of this Annual Report on Form 10-K.

Asset Retirement Obligations and Environmental Liabilities

We have future obligations for final capping, closure and post-closure costs with respect to the landfills we own or operate as set forth in applicable landfill permits. As of December 31, 2021, our future obligations for final capping, closure and post-closure costs totaled \$1.5 billion of which \$68.4 million was short-term.

Additionally, we are subject to an array of laws and regulations relating to the protection of the environment, and we remediate sites in the ordinary course of our business. Our environmental remediation liabilities primarily include costs associated with remediating groundwater, surface water and soil contamination, as well as controlling and containing methane gas migration and the related legal costs. As of December 31, 2021, our environmental liabilities totaled \$454.9 million of which \$56.1 million was short-term.

For additional detail regarding our asset retirement obligations and environmental liabilities, see Note 8, *Landfill and Environmental Costs*, of the notes to our audited consolidated financial statements in Part II, Item 8 of this Annual Report on Form 10-K.

Summary of Cash Flow Activity

The major components of changes in cash flows for 2021 and 2020 are discussed in the following paragraphs. The following table summarizes our cash flow from operating activities, investing activities and financing activities for the years ended December 31, 2021 and 2020 (in millions of dollars):

	2021	2020
Net cash provided by operating activities	\$ 2,786.7	\$ 2,471.6
Net cash used in investing activities	\$ (2,466.1)	\$ (1,922.8)
Net cash used in financing activities	\$ (329.2)	\$ (612.0)

Cash Flows Provided by Operating Activities

The most significant items affecting the comparison of our operating cash flows for 2021 and 2020 are summarized below.

Changes in assets and liabilities, net of effects from business acquisitions and divestitures, decreased our cash flow from operations by \$94.0 million in 2021, compared to a decrease of \$129.9 million in 2020, primarily as a result of the following:

- Our accounts receivable, exclusive of the change in allowance for doubtful accounts and customer credits, increased \$135.4 million during 2021, compared to a \$13.8 million decrease in 2020. As of December 31, 2021, our days sales outstanding were 39.2, or 27.5 days net of deferred revenue, as of December 31, 2021 compared to 38.6, or 26.4 days net of deferred revenue, as of December 31, 2020.
- Our prepaid expenses and other assets increased \$57.0 million in 2021 compared to a decrease of \$6.5 million in 2020, primarily due to additional SaaS implementation costs incurred related to the redesign of certain back-office software systems in 2021. The decrease in 2020 was primarily attributable to the receipt of the Bridgeton landfill settlement in the first quarter of 2020, and an increase in alternative fuel tax credit receipts during 2020 compared to 2019, partially offset by an increase of prepaid taxes due to the timing of our estimated tax payments. We made income tax payments (net of refunds) of approximately \$300 million and \$124 million for 2021 and 2020, respectively. Income taxes paid in 2021 and 2020 reflected benefits from tax credits from our continuing investments in solar energy. In 2020, cash taxes paid also reflected a benefit from 100% bonus depreciation on qualified assets.
- Our accounts payable increased \$113.8 million during 2021 compared to a decrease of \$46.7 million during 2020, due to the timing of payments.

- Cash paid for capping, closure and post-closure obligations was \$1.0 million higher during 2021 compared to 2020. The increase in cash paid for capping, closure and post-closure obligations is primarily due to the timing of capping and post-closure payments at certain of our landfill sites.
- Cash paid for remediation obligations was \$6.4 million lower during 2021 compared to 2020, primarily due to \$18.9 million in payments related to management and monitoring of the remediation area of our closed Bridgeton Landfill in Missouri during 2021 as compared to \$25.6 million of payments during 2020.

In addition, cash paid for interest was \$249.4 million and \$325.1 million, excluding net swap settlements for our fixed to floating interest rate swaps, for 2021 and 2020, respectively.

We use cash flows from operations to fund capital expenditures, acquisitions, dividend payments, share repurchases and debt repayments.

Cash Flows Used in Investing Activities

The most significant items affecting the comparison of our cash flows used in investing activities for 2021 and 2020 are summarized below:

- Capital expenditures during 2021 were \$1,316.3 million as compared to \$1,194.6 million for 2020.
- Proceeds from sales of property and equipment during 2021 were \$19.5 million as compared to \$30.1 million for 2020.
- During 2021 and 2020, we used \$1,221.7 million and \$769.5 million, respectively, for acquisitions and investments, net of cash acquired. During 2021 and 2020, we received \$46.3 million and \$32.9 million from business divestitures, respectively.

We intend to finance capital expenditures and acquisitions through cash on hand, restricted cash held for capital expenditures, cash flows from operations, our revolving credit facilities, and tax-exempt bonds and other financings.

On February 8, 2022, we entered into a definitive agreement to acquire all outstanding shares of US Ecology, Inc. (US Ecology) in a transaction valued at approximately \$2.2 billion, including debt. US Ecology is a leading provider of environmental solutions offering treatment, recycling and disposal of hazardous, non-hazardous and specialty waste. We intend to finance the transaction using existing and new sources of debt.

Cash Flows Used in Financing Activities

The most significant items affecting the comparison of our cash flows used in financing activities for 2021 and 2020 are summarized below:

- During 2021, we issued \$700.0 million of senior notes for cash proceeds, net of discounts and fees, of \$692.3 million. During 2020, we issued \$2,750.0 million of senior notes for cash proceeds, net of discounts and fees, of \$2,716.1 million. Net payments of notes payable and long-term debt were \$150.2 million during 2021, compared to net payments of \$2,595.9 in 2020. For a more detailed discussion, see the *Financial Condition* section of this Management's Discussion and Analysis of Financial Condition and Results of Operations.
- During 2020, we paid \$99.1 million in cash premiums on the redemption of senior notes.
- During 2021, we repurchased 2.2 million shares of our stock for \$252.2 million. During 2020, we repurchased 1.2 million shares of our stock for \$98.8 million.
- In July 2021, our Board of Directors approved an increase in our quarterly dividend to \$0.46 per share. Dividends paid were \$552.6 million and \$522.5 million in 2021 and 2020, respectively.
- During 2021, we paid \$32.0 million related to the purchase of the remaining equity interest in a previously held non-controlling interest.
- During 2021 and 2020, cash paid for purchase price holdback releases and contingent purchase price related to acquisitions was \$21.3 million and \$15.5 million, respectively.

Financial Condition

Debt Obligations

As of December 31, 2021, we had \$8.2 million of principal debt maturing within the next 12 months, which includes certain finance lease obligations. All of our tax-exempt financings are remarketed either quarterly or semiannually by remarketing agents to effectively maintain a variable yield. The holders of the bonds can put them back to the remarketing agents at the end of each interest period. If the remarketing agent is unable to remarket our bonds, the remarketing agent can put the bonds to us.

In the event of a failed remarketing, we currently have availability under our \$3.0 billion unsecured revolving credit facility to fund these bonds until they are remarketed successfully. Accordingly, we have classified these borrowings as long-term in our consolidated balance sheet as of December 31, 2021.

An extended period of economic disruption associated with the COVID-19 pandemic could further disrupt the global supply chain, negatively impact demand for our services, and disrupt financial markets. These effects could materially and adversely affect our business and financial condition, including our access to sources of liquidity. We will continue to monitor the evolving COVID-19 pandemic along with the effect on our business and access to capital markets. Refer to Part I, Item 1A - Risk Factors of this Annual Report on Form 10-K for a discussion of certain risk factors related to this pandemic.

For further discussion of the components of our overall debt, see Note 9, *Debt*, of the notes to our consolidated financial statements in Part II, Item 8 of this Annual Report on Form 10-K.

Credit Facilities

The Credit Facility

In August 2021, we entered into a \$3.0 billion unsecured revolving credit facility (the Credit Facility), which replaces the prior \$2.25 billion unsecured revolving credit facility which would have matured in June 2023 (the Replaced Credit Facility). Borrowings under the Credit Facility mature in August 2026. As permitted by the Credit Facility, we have the right to request two one-year extensions of the maturity date but none of the lenders are committed to participate in such extension. The Credit Facility also includes a feature that allows us to increase availability, at our option, by an aggregate amount of up to \$1.0 billion through increased commitments from existing lenders or the addition of new lenders.

At our option, borrowings under the Credit Facility bear interest at a Base Rate, a daily floating London Interbank Offered Rate (LIBOR), or a Eurodollar Rate, plus an applicable margin of 0.910% based on our Debt Ratings (all as defined in the Credit Facility agreement). On the earliest of (i) the date that all available tenors of U.S. dollar LIBOR have permanently or indefinitely ceased to be provided or have been announced to be no longer representative, (ii) June 30, 2023 or (iii) the effective date of an election to opt into a secured overnight financing rate (SOFR), the LIBOR rate will be replaced by a forward-looking term rate based on SOFR or a daily rate based on SOFR published on such date.

The Credit Facility is subject to facility fees based on applicable rates defined in the Credit Facility agreement and the aggregate commitment, regardless of usage. Availability under our Credit Facility and Replaced Credit Facility totaled \$2,633.8 million and \$1,671.8 million as of December 31, 2021 and 2020, respectively. The Credit Facility can be used for working capital, capital expenditures, acquisitions, letters of credit and other general corporate purposes. The Credit Facility agreement requires us to comply with financial and other covenants. We may pay dividends and repurchase common stock if we are in compliance with these covenants.

As of December 31, 2021 and 2020, we had \$24.3 million and \$186.0 million of borrowings outstanding under our Credit Facility and Replaced Credit Facility, respectively. We had \$341.9 million and \$376.5 million of letters of credit outstanding under our Credit Facility and Replaced Credit Facility as of December 31, 2021 and 2020, respectively.

Uncommitted Credit Facility

In January 2022, we entered into a \$200.0 million unsecured uncommitted revolving credit facility (the Uncommitted Credit Facility), which replaces the prior \$135.0 million uncommitted credit facility (the Replaced Uncommitted Credit Facility). The Uncommitted Credit Facility bears interest at an annual percentage rate to be agreed upon by both parties, rather than a LIBOR or Cost of Funds rate used in the Replaced Uncommitted Credit Facility (as defined in the Replaced Uncommitted Credit Facility agreement). Borrowings under the Uncommitted Credit Facility can be used for working capital, letters of credit, and other general corporate purposes. The agreement governing our Uncommitted Credit Facility requires us to comply with certain covenants. The Uncommitted Credit Facility may be terminated by either party at any time. As of December 31, 2021 and 2020, we had no borrowings outstanding under our Replaced Uncommitted Credit Facility.

Financial and Other Covenants

The Credit Facility requires us to comply with financial and other covenants. To the extent we are not in compliance with these covenants, we cannot pay dividends or repurchase common stock. Compliance with covenants also is a condition for any incremental borrowings under the Credit Facility, and failure to meet these covenants would enable the lenders to require repayment of any outstanding loans (which would adversely affect our liquidity). The Credit Facility provides that our total debt to EBITDA ratio may not exceed 3.75 to 1.00 as of the last day of any fiscal quarter. In the case of an "elevated ratio period", which may be elected by us if one or more acquisitions during a fiscal quarter involve aggregate consideration in excess of \$200.0 million (the Trigger Quarter), the total debt to EBITDA ratio may not exceed 4.25 to 1.00 during the Trigger Quarter and for the three fiscal quarters thereafter. The Credit Facility also provides that there may not be more than two elevated ratio periods during the respective term of the Credit Facility agreement. As of December 31, 2021, our total debt to

EBITDA ratio was 2.89 compared to the 3.75 maximum allowed by the covenants. As of December 31, 2021, we were in compliance with the covenants under the Credit Facility, and we expect to be in compliance throughout 2022.

EBITDA, which is a non-GAAP measure, is calculated as defined in our Credit Facility agreement. In this context, EBITDA is used solely to provide information regarding the extent to which we are in compliance with debt covenants and is not comparable to EBITDA used by other companies or used by us for other purposes.

Failure to comply with the financial and other covenants under the Credit Facility, as well as the occurrence of certain material adverse events, would constitute defaults and would allow the lenders under the Credit Facility to accelerate the maturity of all indebtedness under the Credit Facility agreement. This could have an adverse effect on the availability of financial assurances. In addition, maturity acceleration on the Credit Facility constitutes an event of default under our other debt instruments, including our senior notes, and, therefore, our senior notes would also be subject to acceleration of maturity. If such acceleration were to occur, we would not have sufficient liquidity available to repay the indebtedness. We would likely have to seek an amendment under the Credit Facility agreement for relief from the financial covenant or repay the debt with proceeds from the issuance of new debt or equity, or asset sales, if necessary. We may be unable to amend the Credit Facility agreement or raise sufficient capital to repay such obligations in the event the maturity is accelerated.

Senior Notes and Debentures

In November 2021, we issued \$700.0 million of 2.375% senior notes due 2033 (the 2.375% Notes). We used the net proceeds for general corporate purposes, including repayment of amounts outstanding under our unsecured and uncommitted credit facilities. Prior to such use, Republic may have temporarily invested the net proceeds in marketable securities and short-term investments.

During the second quarter of 2021, we paid the entire \$35.3 million principal balance of our 9.250% debentures which matured in May 2021.

Our senior notes are general senior unsecured obligations. Interest is payable semi-annually.

Derivative Instruments and Hedging Relationships

Our ability to obtain financing through the capital markets is a key component of our financial strategy. Historically, we have managed risk associated with executing this strategy, particularly as it relates to fluctuations in interest rates, by using a combination of fixed and floating rate debt. From time to time, we also have entered into interest rate swap and lock agreements to manage risk associated with interest rates, either to effectively convert specific fixed rate debt to a floating rate (fair value hedges), or to lock interest rates in anticipation of future debt issuances (cash flow hedges).

For a description of our derivative contracts and hedge accounting, see Note 9, *Debt*, to our audited consolidated financial statements included in Part II, Item 8 of this Annual Report on Form 10-K.

Tax-Exempt Financings

As of December 31, 2021, we had \$1,181.5 million of certain variable rate tax-exempt financings outstanding with maturities ranging from 2023 to 2051. As of December 31, 2020, we had \$1,104.7 million of certain variable rate tax-exempt financings outstanding with maturities ranging from 2021 to 2050. During the year ended December 31, 2021 and 2020, we issued \$205.0 million and \$60.0 million, respectively, of new tax-exempt financings.

In the fourth quarter of 2021, the Pennsylvania Economic Development Financing Authority issued, for our benefit, \$30.0 million of Solid Waste Disposal Revenue Bonds. The proceeds from the issuance, after deferred issuance costs, will be used to fund qualifying landfill-related expenditures in the Commonwealth of Pennsylvania, of which \$17.2 million has been incurred and reimbursed to us. As of December 31, 2021, we had \$139.0 million of restricted cash and marketable securities, of which \$12.4 million represented proceeds from the issuance of the tax-exempt bonds.

Finance Leases

We had finance lease liabilities of \$249.4 million and \$206.5 million as of December 31, 2021 and 2020, respectively, with maturities ranging from 2022 to 2063 and 2021 to 2063, respectively.

Financial Assurance

We must provide financial assurance to governmental agencies and a variety of other entities under applicable environmental regulations relating to our landfill operations for capping, closure and post-closure costs, and related to our performance under certain collection, landfill and transfer station contracts. We satisfy these financial assurance requirements by providing surety bonds, letters of credit, or insurance policies (Financial Assurance Instruments), or trust deposits, which are included in restricted cash and marketable securities and other assets in our consolidated balance sheets. The amount of the financial assurance requirements for capping, closure and post-closure costs is determined by applicable state environmental regulations.

The financial assurance requirements for capping, closure and post-closure costs may be associated with a portion of the landfill or the entire landfill. Generally, states require a third-party engineering specialist to determine the estimated capping, closure and post-closure costs that are used to determine the required amount of financial assurance for a landfill. The amount of financial assurance required can, and generally will, differ from the obligation determined and recorded under U.S. GAAP. The amount of the financial assurance requirements related to contract performance varies by contract. Additionally, we must provide financial assurance for our insurance program and collateral for certain performance obligations. We do not expect a material increase in financial assurance requirements during 2022, although the mix of Financial Assurance Instruments may change.

These Financial Assurance Instruments are issued in the normal course of business and are not classified as indebtedness. Because we currently have no liability for the Financial Assurance Instruments, they are not reflected in our consolidated balance sheets; however, we record capping, closure and post-closure liabilities and insurance liabilities as they are incurred.

Critical Accounting Judgments and Estimates

Our consolidated financial statements have been prepared in accordance with U.S. GAAP and necessarily include certain estimates and judgments made by management. The following is a list of accounting policies that we believe are the most critical in understanding our consolidated financial position, results of operations and cash flows and that may require management to make subjective or complex judgments about matters that are inherently uncertain. Our critical accounting estimates are those estimates that involve a significant level of uncertainty at the time the estimate was made, and changes in them have had or are reasonably likely to have a material effect on our financial condition or results of operations. Accordingly, actual results could differ materially from our estimates. We base our estimates on past experience and other assumptions that we believe are reasonable under the circumstances, and we evaluate these estimates on an ongoing basis. Such critical accounting policies, estimates and judgments are applicable to all of our operating segments.

We have noted examples of the estimates that are subject to uncertainty in the accounting for these areas below.

Landfill Accounting

Landfill operating costs are treated as period expenses and are not discussed further in this section.

Our landfill assets and liabilities fall into the following two categories, each of which requires accounting judgments and estimates:

- Landfill development costs that are capitalized as an asset.
- Landfill retirement obligations relating to our capping, closure and post-closure liabilities that result in a corresponding landfill retirement asset.

We use life-cycle accounting and the units-of-consumption method to recognize landfill development costs over the life of the site. In life-cycle accounting, all current and future capitalized costs to acquire and construct a site are calculated, and charged to expense based on the consumption of cubic yards of available airspace. Obligations associated with final capping, closure and post-closure are also capitalized, and amortized on a units-of-consumption basis as airspace is consumed. Cost and airspace estimates are developed at least annually by engineers.

Landfill Development Costs

As of December 31, 2021 and 2020, we had net landfill development costs of \$3,914.0 million and \$3,742.2 million, respectively. Changes in these estimates may be sensitive to changes in cost estimates, inflation and applicable regulations.

Site permits. To develop, construct and operate a landfill, we must obtain permits from various regulatory agencies at the local, state and federal levels. The permitting process requires an initial site study to determine whether the location is feasible for landfill operations. The initial studies are reviewed by our environmental management group and then submitted to the regulatory agencies for approval. During the development stage we capitalize certain costs that we incur after site selection but before the receipt of all required permits if we believe that it is probable that the site will be permitted.

These estimates are subject to uncertainty attributable to:

- Changes in legislative or regulatory requirements may cause changes to the landfill site permitting process. These changes could make it more difficult and costly to obtain and maintain a landfill permit.
- Studies performed could be inaccurate, which could result in the denial or revocation of a permit and changes to accounting assumptions. Conditions could exist that were not identified in the study, which may make the location not feasible for a landfill and could result in the denial of a permit. Denial or revocation of a permit could impair the recorded value of the landfill asset.

- Actions by neighboring parties, private citizen groups or others to oppose our efforts to obtain, maintain or expand permits could result in denial, revocation or suspension of a permit, which could adversely impact the economic viability of the landfill and could impair the recorded value of the landfill. As a result of opposition to our obtaining a permit, improved technical information as a project progresses, or changes in the anticipated economics associated with a project, we may decide to reduce the scope of, or abandon, a project, which could result in an asset impairment.

Technical landfill design. Upon receipt of initial regulatory approval, technical landfill designs are prepared. The technical designs, which include the detailed specifications to develop and construct all components of the landfill including the types and quantities of materials that will be required, are reviewed by our environmental management group. The technical designs are submitted to the regulatory agencies for approval. Upon approval of the technical designs, the regulatory agencies issue permits to develop and operate the landfill.

These estimates are subject to uncertainty attributable to:

- Changes in legislative or regulatory requirements may require changes in the landfill technical designs. These changes could make it more difficult and costly to meet new design standards.
- Technical design requirements, as approved, may need modifications at some future point in time.
- Technical designs could be inaccurate and could result in increased construction costs, difficulty in obtaining a permit or the use of rates to recognize the amortization of landfill development costs and asset retirement obligations that are not appropriate.

Permitted and probable landfill disposal capacity. Included in the technical designs are factors that determine the ultimate disposal capacity of the landfill. These factors include the area over which the landfill will be developed, such as the depth of excavation, the height of the landfill elevation and the angle of the side-slope construction. The disposal capacity of the landfill is calculated in cubic yards. This measurement of volume is then converted to a disposal capacity expressed in tons based on a site-specific expected density to be achieved over the remaining operating life of the landfill.

These estimates are subject to uncertainty attributable to:

- Estimates of future disposal capacity may change as a result of changes in legislative or regulatory design requirements.
- The density of waste may vary due to variations in operating conditions, including waste compaction practices, site design, climate and the nature of the waste.
- Capacity is defined in cubic yards but waste received is measured in tons. The number of tons per cubic yard varies by type of waste and our rate of compaction.

Development costs. The types of costs that are detailed in the technical design specifications generally include excavation, natural and synthetic liners, construction of leachate collection systems, installation of methane gas collection systems and monitoring probes, installation of groundwater monitoring wells, construction of leachate management facilities and other costs associated with the development of the site. We review the adequacy of our cost estimates on an annual basis by comparing estimated costs with third-party bids or contractual arrangements, reviewing the changes in year-over-year cost estimates for reasonableness, and comparing our resulting development cost per acre with prior period costs. These development costs, together with any costs incurred to acquire, design and permit the landfill, including capitalized interest, are recorded to the landfill asset on the balance sheet as incurred.

These estimates are subject to uncertainty attributable to:

- Actual future costs of construction materials and third-party labor could differ from the costs we have estimated because of the level of demand and the availability of the required materials and labor. Technical designs could be altered due to unexpected operating conditions, regulatory changes or legislative changes.

Landfill development asset amortization. To match the expense related to the landfill asset with the revenue generated by the landfill operations, we amortize the landfill development asset over its operating life on a per-ton basis as waste is accepted at the landfill. The landfill asset is fully amortized at the end of a landfill's operating life. The per-ton rate is calculated by dividing the sum of the landfill development asset net book value plus estimated future development costs (as described above) for the landfill, by the landfill's estimated remaining disposal capacity. The expected future development costs are not inflated or discounted, but rather expressed in nominal dollars. This rate is applied to each ton accepted at the landfill to arrive at amortization expense for the period.

Amortization rates may be sensitive to the original cost basis of the landfill, including acquisition costs, which in turn is determined by geographic location and market values. We secure significant landfill assets through business acquisitions and

value them at the time of acquisition based on fair value. Amortization rates are also influenced by site-specific engineering and cost factors.

These estimates are subject to uncertainty attributable to:

- Changes in our future development cost estimates or our disposal capacity will normally result in a change in our amortization rates and will impact amortization expense prospectively. An unexpected significant increase in estimated costs or reduction in disposal capacity could affect the ongoing economic viability of the landfill and result in asset impairment.

On at least an annual basis, we update the estimates of future development costs and remaining disposal capacity for each landfill. These costs and disposal capacity estimates are reviewed and approved by senior operations management annually. Changes in cost estimates and disposal capacity are reflected prospectively in the landfill amortization rates that are updated annually. See our *Results of Operations* section in this Management's Discussion and Analysis of Financial Condition and Results of Operations for discussion on changes to our landfill depletion and amortization.

Landfill Asset Retirement Obligations

We have two types of retirement obligations related to landfills: (1) capping and (2) closure and post-closure. As of December 31, 2021 and 2020, our asset retirement obligations related to capping, closure and post-closure were \$1,507.3 million and \$1,346.4 million, respectively. Changes in these estimates may be sensitive to changes in available airspace, cost estimates, inflation, our credit-adjusted, risk-free interest rate and applicable regulations.

Obligations associated with final capping activities that occur during the operating life of the landfill are recognized on a units-of-consumption basis as airspace is consumed within each discrete capping event. Obligations related to closure and post-closure activities that occur after the landfill has ceased operations are recognized on a units-of-consumption basis as airspace is consumed throughout the entire life of the landfill. Landfill retirement obligations are capitalized as the related liabilities are recognized and amortized using the units-of-consumption method over the airspace consumed within the capping event or the airspace consumed within the entire landfill, depending on the nature of the obligation. All obligations are initially measured at estimated fair value. Fair value is calculated on a present value basis using an inflation rate and our credit-adjusted, risk-free rate in effect at the time the liabilities were incurred. Future costs for final capping, closure and post-closure are developed at least annually by engineers, and are inflated to future value using estimated future payment dates and inflation rate projections.

Landfill capping. As individual areas within each landfill reach capacity, we must cap and close the areas in accordance with the landfill site permit. These requirements are detailed in each landfill's technical design, which is reviewed and approved by the regulatory agency issuing the landfill site permit.

Closure and post-closure. Closure costs are costs incurred after a landfill stops receiving waste, but prior to being certified as closed. After the entire landfill has reached capacity and is certified closed, we must continue to maintain and monitor the site for a post-closure period, which generally extends for 30 years. Costs associated with closure and post-closure requirements generally include maintenance of the site, the monitoring of methane gas collection systems and groundwater systems, and other activities that occur after the site has ceased accepting waste. Costs associated with post-closure monitoring generally include groundwater sampling, analysis and statistical reports, third-party labor associated with gas system operations and maintenance, transportation and disposal of leachate, and erosion control costs related to the final cap.

Landfill retirement obligation liabilities and assets. Estimates of the total future costs required to cap, close and monitor each landfill as specified by the landfill permit are updated annually. The estimates include inflation, the specific timing of future cash outflows, and the anticipated waste flow into the capping events. Our cost estimates are inflated to the period of performance using an estimate of inflation, which is updated annually and is based upon the ten year average consumer price index (1.7% in both 2021 and 2020).

The present value of the remaining capping costs for specific capping events and the remaining closure and post-closure costs for each landfill are recorded as incurred on a per-ton basis. These liabilities are incurred as disposal capacity is consumed at the landfill.

Capping, closure and post-closure liabilities are recorded in layers and discounted using our credit-adjusted risk-free rate in effect at the time the obligation is incurred (3.4% in both 2021 and 2020).

Retirement obligations are increased each year to reflect the passage of time by accreting the balance at the weighted average credit-adjusted risk-free rate that was used to calculate each layer of the recorded liabilities. This accretion is charged to operating expenses. Actual cash expenditures reduce the asset retirement obligation liabilities as they are made.

Corresponding retirement obligation assets are recorded for the same value as the additions to the capping, closure and post-closure liabilities. The retirement obligation assets are amortized to expense on a per-ton basis as disposal capacity is consumed. The per-ton rate is calculated by dividing the sum of each of the recorded retirement obligation asset's net book

value and expected future additions to the retirement obligation asset by the remaining disposal capacity. A per-ton rate is determined for each separate capping event based on the disposal capacity relating to that event. Closure and post-closure per-ton rates are based on the total disposal capacity of the landfill.

These estimates are subject to uncertainty attributable to:

- Changes in legislative or regulatory requirements, including changes in capping, closure activities or post-closure monitoring activities, types and quantities of materials used, or term of post-closure care, could cause changes in our cost estimates.
- Changes in the landfill retirement obligation due to changes in the anticipated waste flow, changes in airspace compaction estimates or changes in the timing of expenditures for closed landfills and fully incurred but unpaid capping events are recorded in results of operations prospectively. This could result in unanticipated increases or decreases in expense.
- Actual timing of disposal capacity utilization could differ from projected timing, causing differences in timing of when amortization and accretion expense is recognized for capping, closure and post-closure liabilities.
- Changes in inflation rates could impact our actual future costs and our total liabilities.
- Changes in our capital structure or market conditions could result in changes to the credit-adjusted risk-free rate used to discount the liabilities, which could cause changes in future recorded liabilities, assets and expense.
- Amortization rates could change in the future based on the evaluation of new facts and circumstances relating to landfill capping design, post-closure monitoring requirements, or the inflation or discount rate.

On an annual basis, we update our estimates of future capping, closure and post-closure costs and of future disposal capacity for each landfill. Revisions in estimates of our costs or timing of expenditures are recognized immediately as increases or decreases to the capping, closure and post-closure liabilities and the corresponding retirement obligation assets. Changes in the assets result in changes to the amortization rates which are applied prospectively, except for fully incurred capping events and closed landfills, where the changes are recorded immediately in results of operations since the associated disposal capacity has already been consumed. See our *Results of Operations* section in this Management's Discussion and Analysis of Financial Condition and Results of Operations for discussion on changes to our landfill depletion and amortization.

Permitted and probable disposal capacity. Disposal capacity is determined by the specifications detailed in the landfill permit. We classify this disposal capacity as permitted. We also include probable expansion disposal capacity in our remaining disposal capacity estimates, thus including additional disposal capacity being sought through means of a permit expansion. Probable expansion disposal capacity has not yet received final approval from the applicable regulatory agencies, but we have determined that certain critical criteria have been met and that the successful completion of the expansion is probable. We have developed six criteria that must be met before an expansion area is designated as probable expansion airspace. We believe that satisfying all of these criteria demonstrates a high likelihood that expansion airspace that is incorporated in our landfill costing will be permitted. However, because some of these criteria are judgmental, they may exclude expansion airspace that will eventually be permitted or include expansion airspace that will not be permitted. In either of these scenarios, our amortization, depletion and accretion expense could change significantly. Our internal criteria to classify disposal capacity as probable expansion airspace are as follows:

- We own the land associated with the expansion airspace or control it pursuant to an option agreement;
- We are committed to supporting the expansion project financially and with appropriate resources;
- There are no identified fatal flaws or impediments associated with the project, including political impediments;
- Progress is being made on the project;
- The expansion is attainable within a reasonable time frame; and
- We believe it is likely we will receive the expansion permit.

After successfully meeting these criteria, the disposal capacity that will result from the planned expansion is included in our remaining disposal capacity estimates. Additionally, for purposes of calculating landfill amortization and capping, closure and post-closure rates, we include the incremental costs to develop, construct, close and monitor the related probable expansion disposal capacity.

These estimates are subject to uncertainty attributable to:

- We may be unsuccessful in obtaining permits for probable expansion disposal capacity because of the failure to obtain the final local, state or federal permits or due to other unknown reasons. If we are unsuccessful in obtaining permits for

probable expansion disposal capacity, or the disposal capacity for which we obtain approvals is less than what was estimated, both our estimated total costs and disposal capacity will be reduced, which generally increases the rates we charge for landfill amortization and capping, closure and post-closure accruals. An unexpected decrease in disposal capacity could also cause an asset impairment.

Environmental Liabilities

We are subject to an array of laws and regulations relating to the protection of the environment, and we remediate sites in the ordinary course of our business. Under current laws and regulations, we may be responsible for environmental remediation at sites that we either own or operate, including sites that we have acquired, or sites where we have (or a company that we have acquired has) delivered waste. Our environmental remediation liabilities primarily include costs associated with remediating groundwater, surface water and soil contamination, as well as controlling and containing methane gas migration and the related legal costs. To estimate our ultimate liability at these sites, we evaluate several factors, including the nature and extent of contamination at each identified site, the required remediation methods, timing of expenditures, the apportionment of responsibility among the potentially responsible parties and the financial viability of those parties. We accrue for costs associated with environmental remediation obligations when such costs are probable and reasonably estimable in accordance with accounting for loss contingencies. We periodically review the status of all environmental matters and update our estimates of the likelihood of and future expenditures for remediation as necessary. Changes in the liabilities resulting from these reviews are recognized currently in earnings in the period in which the adjustment is known. Adjustments to estimates are reasonably possible in the near term and may result in changes to recorded amounts. With the exception of those obligations assumed in certain business combinations, environmental obligations are recorded on an undiscounted basis. Environmental obligations assumed in certain business combinations are initially estimated on a discounted basis, and accreted to full value over time through charges to interest expense. Adjustments arising from changes in amounts and timing of estimated costs and settlements may result in increases or decreases in these obligations and are calculated on a discounted basis as they were initially estimated on a discounted basis. These adjustments are charged to operating income when they are known. We perform a comprehensive review of our environmental obligations annually and also review changes in facts and circumstances associated with these obligations at least quarterly. See our *Results of Operations* section in this Management's Discussion and Analysis of Financial Condition and Results of Operations for discussion on our remediation adjustments. We have not reduced the liabilities we have recorded for recoveries from other potentially responsible parties or insurance companies. As of December 31, 2021 and 2020, we had \$454.9 million and \$462.8 million of environmental liabilities. Changes in these estimates may be sensitive to changes in cost estimates, timing of estimated costs and settlements, inflation, our credit-adjusted, risk-free interest rate and applicable regulations.

These estimates are subject to uncertainty attributable to:

- We cannot determine with precision the ultimate amounts of our environmental remediation liabilities. Our estimates of these liabilities require assumptions about uncertain future events. Thus, our estimates could change substantially as additional information becomes available regarding the nature or extent of contamination, the required remediation methods, timing of expenditures, the final apportionment of responsibility among the potentially responsible parties identified, the financial viability of those parties, and the actions of governmental agencies or private parties with interests in the matter. The actual environmental costs may exceed our current and future accruals for these costs, and any adjustments could be material.
- Actual amounts could differ from the estimated liabilities as a result of changes in estimated future litigation costs to pursue the matter to ultimate resolution.
- An unanticipated environmental liability that arises could result in a material charge to our consolidated statements of income.

Insurance Reserves and Related Costs

Our insurance policies for workers' compensation, commercial general liability, commercial auto liability and environmental liability are high deductible, or retention programs. The deductibles, or retentions, range from \$3 million to \$10 million. The employee-related health benefits are also subject to a high-deductible insurance policy. Accruals for deductibles or retentions are based on claims filed and actuarial estimates of claims development and claims incurred but not reported. As of December 31, 2021 and 2020, our insurance reserves were \$497.4 million and \$449.3 million, respectively. Changes in these estimates may be sensitive to changes in the frequency, severity and settlement amount of claims.

These estimates are subject to uncertainty attributable to:

- Incident rates, including frequency and severity, and other actuarial assumptions could change causing our current and future actuarially determined obligations to change, which would be reflected in our consolidated statements of income in the period in which such adjustment is known.

- Recorded reserves may not be adequate to cover the future payment of claims. Adjustments, if any, to estimates recorded resulting from ultimate claim payments would be reflected in the consolidated statements of income in the periods in which such adjustments are known.
- The settlement costs to discharge our obligations, including legal and health care costs, could increase or decrease causing current estimates of our insurance reserves to change.

New Accounting Standards

For a description of new accounting standards that may affect us, see Note 2, *Summary of Significant Accounting Policies*, of the notes to our consolidated financial statements in Part II, Item 8 of this Annual Report on Form 10-K.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

Our major market risk exposure of our financial instruments is changing interest rates in the United States and fluctuations in LIBOR or, following the termination of LIBOR, SOFR. We intend to manage interest rate risk through the use of a combination of fixed and floating rate debt. The carrying value of our variable rate debt approximates fair value because interest rates are variable and, accordingly, approximates current market rates for instruments with similar risk and maturities. The fair value of our debt is determined as of the balance sheet date and is subject to change. We have historically entered into multiple swap agreements designated as cash flow hedges to manage exposure to fluctuations in interest rates on our variable rate debt.

The table below provides information about certain of our market-sensitive financial instruments and constitutes a forward-looking statement.

	Expected Maturity Date						Total	Fair Value as of December 31, 2021
	2022	2023	2024	2025	2026	Thereafter		
Fixed rate debt:								
Amount outstanding (in millions)	\$ 8.2	\$ 331.0	\$ 906.3	\$ 856.7	\$ 507.1	\$ 5,855.6	\$ 8,464.9	\$9,050.2
Variable rate debt:								
Amount outstanding (in millions)	\$ —	\$ 144.2	\$ 20.6	\$ —	\$ 106.1	\$ 942.5	\$ 1,213.4	\$1,205.8

The fixed and variable rate debt amounts above exclude the remaining non-cash discounts, premiums and adjustments to fair value totaling \$123.9 million.

As of December 31, 2021, we had \$1,213.4 million of floating rate debt and \$300.0 million of floating interest rate swap contracts. If interest rates increased or decreased by 100 basis points on our variable rate debt, annualized interest expense and net cash payments for interest would increase or decrease by approximately \$15 million. This analysis does not reflect the effect that interest rates would have on other items, such as new borrowings and the impact on the economy. See Note 9, *Debt*, of the notes to our consolidated financial statements in Part II, Item 8 of this Form 10-K for further information regarding how we manage interest rate risk.

Fuel Price Risk

Fuel costs represent a significant operating expense. When economically practical, we may enter into new fuel hedges, renew contracts, or engage in other strategies to mitigate market risk. As of December 31, 2021, we had no fuel hedges in place. While we charge fuel recovery fees to a majority of our customers, we are unable to charge such fees to all customers.

At current consumption levels, we believe a twenty-cent per gallon change in the price of diesel fuel would change our fuel costs by approximately \$26 million per year. Offsetting these changes in fuel expense would be changes in our fuel recovery fee charged to our customers. At current participation rates, we believe a twenty-cent per gallon change in the price of diesel fuel would change our fuel recovery fee by approximately \$26 million per year.

Our operations also require the use of certain petrochemical-based products (such as liners at our landfills) whose costs may vary with the price of petrochemicals. An increase in the price of petrochemicals could increase the cost of those products, which would increase our operating and capital costs. We also are susceptible to increases in fuel recovery fees from our vendors.

Our fuel costs were \$383.0 million in 2021, or 3.4% of revenue, compared to \$271.7 million in 2020, or 2.7% of revenue.

Commodities Price Risk

We market recovered materials such as old corrugated containers and old newsprint from our recycling processing centers. Changes in market supply and demand for recycled commodities causes volatility in commodity prices. In prior periods, we have entered into derivative instruments such as swaps and costless collars designated as cash flow hedges to manage our exposure to changes in prices of these commodities. As of December 31, 2021, we had no recycling commodity hedges in place.

At current volumes and mix of materials, we believe a \$10 per ton change in the price of recycled commodities would change annual revenue and operating income by approximately \$22 million and \$10 million, respectively.

Revenue from recycling processing and commodity sales during the years ended December 31, 2021 and 2020 was \$420.5 million and \$297.1 million, respectively.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and the Board of Directors of Republic Services, Inc.

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Republic Services, Inc. (the Company) as of December 31, 2021 and 2020, the related consolidated statements of income, comprehensive income, stockholders' equity and cash flows for each of the three years in the period ended December 31, 2021, and the related notes (collectively referred to as the "consolidated financial statements"). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2021 and 2020, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2021, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 31, 2021, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) and our report dated February 10, 2022, expressed an unqualified opinion thereon.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matters

The critical audit matters communicated below are matters arising from the current period audit of the financial statements that were communicated or required to be communicated to the audit committee and that: (1) relate to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matters below, providing separate opinions on the critical audit matters or on the accounts or disclosures to which they relate.

Landfill Development Asset Amortization

Description of the Matter

At December 31, 2021, the net book value of the Company's landfill development assets totaled \$3,914.0 million, and the associated landfill development asset amortization expense for 2021 was \$377.5 million. Significant assumptions used in calculating the amortization expense include estimated future development costs associated with the land, permitting, cell construction and environmental structures of the landfill in relation to airspace consumed to date and total estimated available airspace. These assumptions have a significant effect on the total landfill amortization expense. As discussed in Note 2 to the consolidated financial statements, costs and airspace estimates are developed at least annually, or more often if significant facts change.

How We Addressed the Matter in Our Audit

Auditing landfill development asset amortization expense is complex due to the highly judgmental nature of the assumptions used in the calculation of the expense and required the involvement of specialists to assist us with evaluating estimated future development costs and certain assumptions to project total estimated available airspace.

We tested controls that address the risks of material misstatement relating to the measurement and valuation of landfill development asset amortization expense. For example, we tested controls over the estimation of future landfill development costs and management's review of the assumptions to project total estimated available airspace.

To test the landfill development asset amortization expense, our audit procedures included, among others, assessing methodologies and testing the significant assumptions discussed above related to the underlying cost and airspace data used by the Company. We compared the significant assumptions used by management to historical trends and, when available, to comparable size landfills accepting the same type of waste. We also tested the completeness and accuracy of the historical data utilized in the development of the amortization expense. Regarding available airspace, we evaluated the Company's estimation of the landfill disposal capacity through a comparison of airspace to historical estimates and annual aerial surveys. We involved EY engineering specialists to assist us with evaluating estimated future development costs and certain assumptions to project total estimated available airspace.

Landfill Final Capping, Closure and Post-Closure Costs

Description of the Matter

At December 31, 2021, the carrying value of the Company's landfill final capping, closure and post-closure costs totaled \$1,507.3 million. As discussed in Notes 2 and 8 to the consolidated financial statements, asset retirement obligations for final capping, closure and post-closure are measured at their estimated fair value. Management updates the assumptions used to estimate asset retirement obligations at least annually, or more often if significant facts change. These assumptions include estimated future costs associated with the final capping, closure and post-closure activities at each landfill, airspace consumed to date, estimated available airspace, projected annual tonnage volume, projected timing of capping, closure and post-closure activities and estimated inflation and discount rates. These assumptions have a significant effect on the estimated asset retirement obligation.

How We Addressed the Matter in Our Audit

Auditing the landfill asset retirement obligation is complex due to the highly judgmental nature of the assumptions used in the measurement process and required the involvement of specialists to assist us with evaluating the costs estimated for the capping, closure and post-closure activities and certain assumptions to project total estimated available airspace.

We tested controls that address the risks of material misstatement relating to the completeness, measurement and valuation of the asset retirement obligation. For example, we tested controls over management's development of the landfill asset retirement obligation models to estimate the future liability and management's review of data inputs and projections.

To test the landfill asset retirement obligation, our audit procedures included, among others, assessing methodologies used by the Company, testing the completeness of activities included in the estimate (e.g., gas monitoring and leachate management) and testing the significant assumptions discussed above, as well as the underlying costs and other estimates used by the Company in its development of these assumptions. We compared the significant assumptions used by management to historical trends and, when available, to comparable size landfills accepting the same type of waste. We also tested the completeness and accuracy of the historical data utilized in preparing the estimate. We involved EY engineering specialists to assist us with evaluating the costs estimated for the capping, closure and post-closure activities and the reasons for significant changes in assumptions from historical trends and determined whether the change from the historical trend was appropriate and identified timely. EY engineering specialists were also involved in evaluating certain assumptions to project total estimated available airspace.

We have served as the Company's auditor since 2002.

Phoenix, Arizona

February 10, 2022

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and the Board of Directors of Republic Services, Inc.

Opinion on Internal Control Over Financial Reporting

We have audited Republic Services, Inc.'s internal control over financial reporting as of December 31, 2021, based on criteria established in Internal Control -- Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). In our opinion, Republic Services, Inc. (the Company) maintained, in all material respects, effective internal control over financial reporting as of December 31, 2021, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheets of Republic Services, Inc. as of December 31, 2021 and 2020, the related consolidated statements of income, comprehensive income, stockholders' equity and cash flows for each of the three years in the period ended December 31, 2021, and the related notes and our report dated February 10, 2022, expressed an unqualified opinion thereon.

As indicated in the accompanying Report of Management on Republic Services, Inc.'s Internal Control over Financial Reporting, management's assessment of and conclusion on the effectiveness of internal control over financial reporting did not include the internal controls of Santek Waste Services, LLC and ACV Enviro Corporation, which are included in the 2021 consolidated financial statements of the Company and constituted less than 2% of revenues for the year ended December 31, 2021. Our audit of internal control over financial reporting of the Company also did not include an evaluation of the internal control over financial reporting of Santek Waste Services, LLC and ACV Enviro Corporation.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Report of Management on Republic Services, Inc.'s Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

REPUBLIC SERVICES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION

Republic Services, Inc., a Delaware corporation, and its consolidated subsidiaries (also referred to collectively as Republic, the Company, we, us, or our), is one of the largest providers of environmental services in the United States, as measured by revenue. We manage and evaluate our operations through three operating segments, Group 1, Group 2, and Environmental Solutions.

The consolidated financial statements include the accounts of Republic Services, Inc. and its wholly owned and majority owned subsidiaries in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). We account for investments in entities in which we do not have a controlling financial interest under the equity method of accounting or, for investments that do not meet the criteria to be accounted for under the equity method, we reflect these investments at their fair value when it is readily determinable. If fair value is not readily determinable, we use an alternative measurement approach. All material intercompany accounts and transactions have been eliminated in consolidation.

For comparative purposes, certain prior year amounts have been reclassified to conform to the current year presentation. All dollar amounts in tabular presentations are in millions, except per share amounts and unless otherwise noted.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Management's Estimates and Assumptions

In preparing our financial statements, we make numerous estimates and assumptions that affect the amounts reported in these financial statements and accompanying notes. We must make these estimates and assumptions because certain information we use is dependent on future events, cannot be calculated with a high degree of precision from data available or simply cannot be readily calculated based on generally accepted methodologies. In preparing our financial statements, the more critical and subjective areas that deal with the greatest amount of uncertainty relate to our accounting for our long-lived assets, including recoverability, landfill development costs, and final capping, closure and post-closure costs; our valuation allowances for accounts receivable and deferred tax assets; our liabilities for potential litigation, claims and assessments; our liabilities for environmental remediation, multiemployer pension plans, employee benefit plans, deferred taxes, uncertain tax positions, and insurance reserves; and our estimates of the fair values of assets acquired and liabilities assumed in any acquisition. Each of these items is discussed in more detail elsewhere in these Notes to Consolidated Financial Statements. Our actual results may differ significantly from our estimates.

In March 2020, the World Health Organization declared the outbreak of a new strain of coronavirus (COVID-19) a pandemic. The COVID-19 pandemic has negatively impacted the global economy, disrupted global supply chains and created significant volatility and disruption of financial markets. The full extent of the impact of the COVID-19 pandemic on our operations and financial performance will depend on future developments, including the duration, variants and spread of the pandemic, all of which are uncertain and cannot be predicted at this time.

In mid-March 2020, certain customers in our small- and large-container businesses began adjusting their service levels, which included a decrease in the frequency of pickups or a temporary pause in service. In addition, we experienced a decline in volumes disposed at certain of our landfills and transfer stations. As service levels decreased, we also experienced a decrease in certain costs of our operations which are variable in nature. This decline in service activity peaked in the first half of April 2020 and improved sequentially throughout 2021.

In April 2020, we launched our Committed to Serve initiative and committed \$20 million to support frontline employees and their families, as well as small business customers in the local communities we serve. In addition to this initiative, we have experienced an increase in certain costs of doing business as a direct result of the COVID-19 pandemic, including costs for additional safety equipment and hygiene products and increased facility and equipment cleaning. These costs are intended to assist in protecting the safety of our frontline employees as we continue to provide an essential service to our customers. In 2020 and 2021, we recognized our frontline employees for their commitment and contributions to their communities during the pandemic with two awards that were paid in January 2021 and November 2021, respectively. In addition, we incurred incremental costs associated with expanding certain aspects of our existing healthcare programs.

Cash and Cash Equivalents

We consider liquid investments with a maturity at the date of acquisition of three months or less to be cash equivalents.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

We may have net book credit balances in our primary disbursement accounts at the end of a reporting period. We classify such credit balances as accounts payable in our consolidated balance sheets as checks presented for payment to these accounts are not payable by our banks under overdraft arrangements, and, therefore, do not represent short-term borrowings. As of December 31, 2021 and 2020, there were net book credit balances of \$39.0 million and \$32.7 million, respectively, in our primary disbursement accounts that were classified as accounts payable on our consolidated balance sheets.

Concentration of Credit Risk

Financial instruments that potentially subject us to concentrations of credit risk consist of cash and cash equivalents, trade accounts receivable and derivative instruments. We place our cash and cash equivalents with high quality financial institutions. Such balances may be in excess of FDIC insured limits. To manage the related credit exposure, we continually monitor the credit worthiness of the financial institutions where we have deposits. Concentrations of credit risk with respect to trade accounts receivable are limited due to the wide variety of customers and markets in which we provide services, as well as the dispersion of our operations across many geographic areas. We provide services to small-container, large-container, municipal and residential, and environmental solutions customers in the United States. We perform ongoing credit evaluations of our customers, but generally do not require collateral to support customer receivables. We establish an allowance for doubtful accounts based on various factors including the credit risk of specific customers, age of receivables outstanding, historical trends, economic conditions and other information.

Accounts Receivable, Net

Accounts receivable represents receivables from customers for environmental services, including collection and processing of recyclable materials, collection, transfer, and disposal of solid waste, and environmental solutions. Our receivables are recorded when billed or when the related revenue is earned and represent claims against third parties that will be settled in cash. The carrying value of our receivables, net of the allowance for doubtful accounts and customer credits, represents their estimated net realizable value.

We establish an allowance for doubtful accounts based on various factors including the age of receivables outstanding, historical trends, economic conditions and other information. We also review outstanding balances on an account-specific basis based on the credit risk of the customer. We determined that all of our accounts receivable share similar risk characteristics. We monitor our credit exposure on an ongoing basis and assess whether assets in the pool continue to display similar risk characteristics. We perform ongoing credit evaluations of our customers, but generally do not require collateral to support customer receivables.

The following table reflects the activity in our allowance for doubtful accounts for the years ended December 31:

	2021	2020	2019
Balance at beginning of year	\$ 34.7	\$ 34.0	\$ 34.3
Additions charged to expense	19.9	27.8	34.0
Accounts written-off	(16.1)	(27.1)	(34.3)
Balance at end of year	<u>\$ 38.5</u>	<u>\$ 34.7</u>	<u>\$ 34.0</u>

Restricted Cash and Marketable Securities

As of December 31, 2021, we had \$139.0 million of restricted cash and marketable securities of which \$84.2 million supports our insurance programs for workers' compensation, commercial general liability, and commercial auto liability. Additionally, we obtain funds through the issuance of tax-exempt bonds for the purpose of financing qualifying expenditures at our landfills, transfer stations, collection and recycling processing centers. The funds are deposited directly into trust accounts by the bonding authorities at the time of issuance. As the use of these funds is contractually restricted, and we do not have the ability to use these funds for general operating purposes, they are classified as restricted cash and marketable securities in our consolidated balance sheets.

In the normal course of business, we may be required to provide financial assurance to governmental agencies and a variety of other entities in connection with, among other things, municipal residential collection contracts, closure or post-closure of landfills, environmental remediation, environmental permits, and business licenses and permits as a financial guarantee of our performance. At several of our landfills, we satisfy financial assurance requirements by depositing cash into restricted trust funds or escrow accounts.

Property and Equipment

We record property and equipment at cost. Expenditures for major additions and improvements to facilities are capitalized, while maintenance and repairs are charged to expense as incurred. When property is retired or otherwise disposed, the related

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

cost and accumulated depreciation are removed from the accounts and any resulting gain or loss is reflected in the consolidated statements of income.

We revise the estimated useful lives of property and equipment acquired through business acquisitions to conform with our policies. We depreciate assets over their estimated useful lives using the straight-line method. We assume no salvage value for our depreciable property and equipment. The estimated useful lives of our property and equipment are as follows:

Buildings and improvements	7 - 40 years
Vehicles	5 - 20 years
Landfill equipment	5 - 7 years
Other equipment	3 - 25 years
Furniture and fixtures	10 years

Landfill development costs also are included in property and equipment. Landfill development costs include direct costs incurred to obtain landfill permits and direct costs incurred to acquire, construct and develop sites, as well as final capping, closure and post-closure assets. These costs are amortized or depleted based on consumed airspace. All indirect landfill development costs are expensed as incurred. For additional information, see Note 8, *Landfill and Environmental Costs*.

Capitalized Interest

We capitalize interest on all landfill cell construction and other construction or development projects. Interest is capitalized on qualified assets while they undergo activities to ready them for their intended use. Capitalization of interest ceases once an asset is placed into service or if construction activity is suspended for more than a brief period of time. Our interest capitalization rate is based on our weighted average cost of indebtedness. Interest capitalized was \$5.0 million, \$6.2 million and \$7.2 million for the years ended December 31, 2021, 2020, and 2019, respectively.

Fair Value of Financial Instruments

Our financial instruments include cash and cash equivalents, restricted cash and marketable securities, interest rate hedges and other derivatives, long-term debt, contingent consideration arrangements and assets in our defined benefit pension plan. Accounting standards include disclosure requirements around fair values used for certain financial instruments and establish a fair value hierarchy. The hierarchy prioritizes valuation inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market. Each fair value measurement is reported in one of three levels:

- Level 1 – inputs are based upon unadjusted quoted prices for identical instruments traded in active markets.
- Level 2 – inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 – inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques.

See Note 12, *Employee Benefit Plans*, and Note 18, *Financial Instruments*, for fair value disclosures related to our defined benefit pension plan investments and financial instruments, respectively.

Investments Other Than Derivatives

Investments other than derivatives primarily include money market funds, common stock, mutual funds, real estate investment trusts, U.S. government and agency securities, municipal and corporate bonds, and foreign government bonds. In general, and where applicable, we use quoted prices in active markets for identical assets or liabilities to determine fair value. This pricing methodology applies to our Level 1 investments, such as money market funds, common stock and certain mutual funds. If quoted prices in active markets for identical assets or liabilities are not available to determine fair value, then we use quoted prices for similar assets and liabilities or inputs other than the quoted prices that are observable either directly or indirectly. These investments are included in Level 2 and consist primarily of corporate bonds, foreign government bonds, real estate investment trusts and certain agency securities.

Derivative Financial Instruments

We use derivative financial instruments to manage our risk associated with changing interest rates by creating offsetting market exposures. We use interest rate swap agreements designated as fair value hedges to manage risk associated with fluctuations in

REPUBLIC SERVICES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

interest rates. In prior periods, we entered into multiple agreements designated as cash flow hedges to lock interest rates in anticipation of future debt issuance.

All derivatives are measured at fair value and recognized in the balance sheet as assets or liabilities, as appropriate. For derivative instruments designated as fair value hedges, to the extent they are effective, they are included as an adjustment to long-term debt in our consolidated balance sheets. Changes in fair value of the ineffective portions are recognized currently in earnings. For derivatives designated as cash flow hedges, changes in fair value of the effective portions of derivative instruments are reported in stockholders' equity as components of other comprehensive income until the forecasted transaction occurs or is not probable of occurring. When the forecasted transaction occurs or is not probable of occurring, the realized net gain or loss is then recognized in the consolidated statements of income. Changes in fair value of the ineffective portions are recognized currently in earnings.

The fair values of our derivative instruments are determined using standard valuation models with assumptions about prices and other relevant information based on those observed in the underlying markets (Level 2 in the fair value hierarchy). The estimated fair values of derivatives used to hedge risks fluctuate over time and should be viewed in relation to the underlying hedged transactions.

Landfill and Environmental Costs

Life Cycle Accounting

We use life-cycle accounting and the units-of-consumption method to recognize certain landfill costs over the life of the site. In life cycle accounting, all current and future capitalized costs to acquire and construct a site are calculated, and charged to expense based on the consumption of cubic yards of available airspace.

Costs and airspace estimates are developed at least annually by engineers. We use these estimates to adjust the rates we use to deplete capitalized costs. Changes in these estimates primarily relate to changes in cost estimates, available airspace, inflation and applicable regulations. Changes in available airspace include, but are not limited to, changes due to the addition of airspace attributable to probable expansion areas, airspace consumed and changes in engineering estimates.

Probable Expansion Airspace

We classify landfill disposal capacity as either permitted (having received the final permit from the applicable regulatory agency) or as probable expansion airspace. Before airspace included in an expansion area is determined to be probable expansion airspace and, therefore, is included in our calculation of total available disposal capacity, all of the following criteria must be met:

- We own the land associated with the expansion airspace or control it pursuant to an option agreement;
- We are committed to supporting the expansion project financially and with appropriate resources;
- There are no identified fatal flaws or impediments associated with the project, including political impediments;
- Progress is being made on the project;
- The expansion is attainable within a reasonable time frame; and
- We believe it is likely the expansion permit will be received.

Upon meeting our expansion criteria, the rates used at each applicable landfill to expense costs to acquire, construct, cap, close and maintain a site during the post-closure period are adjusted to include both the probable expansion airspace and the additional costs to be capitalized or accrued associated with that expansion airspace.

We have identified three steps that landfills generally follow to obtain expansion permits. These steps are as follows:

- Obtaining approval from local authorities;
- Submitting a permit application to state authorities; and
- Obtaining permit approval from state authorities.

We continually monitor our progress toward obtaining permits for each of our sites with probable airspace. If we determine that a landfill expansion area no longer meets our criteria, the probable expansion airspace is removed from the landfill's total available capacity and the rates used at the landfill to deplete costs to acquire, construct, cap, close and maintain a site during the post-closure period are adjusted accordingly. In addition, any amounts capitalized for the probable expansion airspace are charged to expense in the period in which it is determined that the criteria are no longer met.

Capitalized Landfill Costs

Capitalized landfill costs include expenditures for land, permitting, cell construction and environmental structures. Capitalized permitting and cell construction costs are limited to direct costs relating to these activities, including legal, engineering and construction costs associated with excavation, natural and synthetic liners, construction of leachate collection systems, installation of methane gas collection and monitoring systems, installation of groundwater monitoring wells and other costs associated with the development of the site. Interest is capitalized on landfill construction projects while the assets are undergoing activities to ready them for their intended use. Capitalized landfill costs also include final capping, closure and post-closure assets and are depleted as airspace is consumed using the units-of-consumption method.

Costs related to acquiring land, excluding the estimated residual value of unpermitted, non-buffer land, and costs related to permitting and cell construction are depleted as airspace is consumed using the units-of-consumption method.

Capitalized landfill costs also may include an allocation of purchase price paid for landfills. For landfills purchased as part of a group of assets, the purchase price assigned to the landfill is determined based on the estimated fair value of the landfill. If the landfill meets our expansion criteria, the purchase price is further allocated between permitted airspace and expansion airspace based on the respective ratios to total available airspace. Landfill purchase price is amortized using the units-of-consumption method over the total available airspace, including probable expansion airspace, where appropriate.

Final Capping, Closure and Post-Closure Costs*Final capping*

We have future obligations for final capping, closure and post-closure costs with respect to the landfills we own or operate as set forth in applicable landfill permits. The permit requirements are based on the Subtitle C and Subtitle D regulations of the Resource Conservation and Recovery Act, as implemented and applied on a state-by-state basis. We define final capping as activities required to permanently cover a portion of a landfill that has been completely filled with waste. Final capping typically includes installing flexible membrane and geosynthetic clay liners, drainage and compact soil layers, and topsoil, and is constructed over an area of the landfill where total airspace capacity has been consumed and waste disposal operations have ceased. These final capping activities occur in phases as needed throughout the operating life of a landfill as specific areas are filled to capacity and the final elevation for that specific area is reached in accordance with the provisions of the operating permit. We consider final capping events to be discrete activities that are recognized as asset retirement obligations separately from other closure and post-closure obligations. As a result, we use a separate rate per ton for recognizing the principal amount of the liability and related asset associated with each capping event. We amortize the asset recorded pursuant to this approach as waste volume related to the capacity covered by the capping event is placed into the landfill based on the consumption of cubic yards of available airspace.

Closure and post-closure

Closure and post-closure activities occur after the entire landfill ceases to accept waste and closes. These activities involve methane gas control, leachate management and groundwater monitoring, surface water monitoring and control, and other operational and maintenance activities that occur after the site ceases to accept waste. Obligations associated with monitoring and controlling methane gas migration and emissions are set forth in applicable landfill permits and these requirements are based on the provisions of the Clean Air Act. The post-closure period generally runs for 30 years after final site closure for municipal solid waste landfills and a shorter period for construction and demolition landfills and inert landfills. We recognize asset retirement obligations and the related amortization expense for closure and post-closure (excluding obligations for final capping) using the units-of-consumption method over the total remaining capacity of the landfill, including probable expansion airspace, where appropriate.

Estimated future expenditures

Estimates of future expenditures for final capping, closure and post-closure are developed at least annually by engineers. Management reviews these estimates and our operating and accounting personnel use them to adjust the rates used to capitalize and amortize these costs. These estimates involve projections of costs that will be incurred during the remaining life of the landfill for final capping activities, after the landfill ceases operations and during the legally required post-closure monitoring period. As of December 31, 2021, we had 124 closed landfills.

Fair value measurements

In general, we engage third parties to perform most of our final capping, closure and post-closure activities. Accordingly, the fair value of these activities is based on quoted and actual prices paid for similar work. We also perform some of our final capping, closure and post-closure activities using internal resources. Where we expect internal resources to be used to fulfill an

asset retirement obligation, we add a profit margin to the estimated cost of such services to better reflect their fair value. If we perform these services internally, the added profit margin is recognized as a component of operating income in the period the obligation is settled.

Our estimates of costs to discharge asset retirement obligations for landfills are developed in today's dollars. These costs are inflated each year to reflect a normal escalation of prices up to the year they are expected to be paid. We used a 1.7% inflation rate for the years ended December 31, 2021, 2020, and 2019, which is based on the ten-year historical moving average increase of the U.S. Consumer Price Index, and is the rate used by the largest environmental services industry participants. These estimated costs are then discounted to their present values using a credit-adjusted, risk-free interest rate.

Changes in assets retirement obligations

A liability for an asset retirement obligation is recognized in the period in which it is incurred and is initially measured at fair value. The offset to the liability is capitalized as part of the carrying amount of the related long-lived asset. Changes in the liabilities due to revisions to estimated future cash flows are recognized by increasing or decreasing the liabilities with the offsets adjusting the carrying amounts of the related long-lived assets, and may also require immediate adjustments to amortization expense in the consolidated statements of income. Upward revisions in the amount of undiscounted estimated cash flows used to record a liability are discounted using the credit-adjusted, risk-free interest rate in effect at the time of the change. Downward revisions in the amount of undiscounted estimated cash flows used to record a liability are discounted using the credit-adjusted, risk-free rate that existed when the original liability was recognized.

Changes in asset retirement obligations due to the passage of time are measured by recognizing accretion expense in a manner that results in a constant effective interest rate being applied to the average carrying amount of the liability. The effective interest rate used to calculate accretion expense is our credit-adjusted, risk-free interest rate in effect at the time the liabilities were recorded.

We review our calculations with respect to landfill asset retirement obligations at least annually. If there is a significant change in the facts and circumstances related to a landfill during the year, we will review our calculations for the landfill as soon as practical after the change has occurred.

Landfill operating expenses

Costs associated with daily maintenance activities and environmental compliance during the operating life of the landfill are expensed as incurred. These costs include, among other things, leachate treatment and disposal, methane gas and groundwater monitoring and systems maintenance, interim cap maintenance, costs associated with the application of daily cover materials, and the legal and administrative costs of ongoing environmental compliance.

Environmental Liabilities

We are subject to an array of laws and regulations relating to the protection of the environment, and we remediate sites in the ordinary course of our business. Under current laws and regulations, we may be responsible for environmental remediation at sites that we either own or operate, including sites that we have acquired, or sites where we have (or a company that we have acquired has) delivered waste. Our environmental remediation liabilities primarily include costs associated with remediating groundwater, surface water and soil contamination, as well as controlling and containing methane gas migration and the related legal costs. To estimate our ultimate liability at these sites, we evaluate several factors, including the nature and extent of contamination at each identified site, the required remediation methods, timing of expenditures, the apportionment of responsibility among the potentially responsible parties and the financial viability of those parties. We accrue for costs associated with environmental remediation obligations when such costs are probable and reasonably estimable in accordance with accounting for loss contingencies. We periodically review the status of all environmental matters and update our estimates of the likelihood of and future expenditures for remediation as necessary. Changes in the liabilities resulting from these reviews are recognized currently in earnings in the period in which the adjustment is known. Adjustments to estimates are reasonably possible in the near term and may result in changes to recorded amounts. With the exception of those obligations assumed in certain business combinations, environmental obligations are recorded on an undiscounted basis. Adjustments arising from changes in amounts and timing of estimated costs and settlements may result in increases or decreases in these obligations and are calculated on a discounted basis as they were initially estimated on a discounted basis. These adjustments are charged to operating income when they are known. We perform a comprehensive review of our environmental obligations annually and also review changes in facts and circumstances associated with these obligations at least quarterly. We have not reduced the liabilities we have recorded for recoveries from other potentially responsible parties or insurance companies.

Business Combinations

We acquire businesses in the environmental services industry as part of our growth strategy. Businesses are included in the consolidated financial statements from the date of acquisition.

We recognize, separately from goodwill, the identifiable assets acquired and liabilities assumed at their estimated acquisition-date fair values. We measure and recognize goodwill as of the acquisition date as the excess of: (1) the aggregate of the fair value of consideration transferred, the fair value of any non-controlling interest in the acquiree (if any) and the acquisition date fair value of our previously held equity interest in the acquiree (if any), over (2) the fair value of assets acquired and liabilities assumed. If information about facts and circumstances existing as of the acquisition date is incomplete by the end of the reporting period in which a business combination occurs, we report provisional amounts for the items for which the accounting is incomplete. The measurement or allocation period ends once we receive the information we are seeking; however, this period will generally not exceed one year from the acquisition date. Any material adjustments recognized during the measurement period will be reflected retrospectively in the consolidated financial statements of the subsequent period. We recognize third-party transaction related costs as expense currently in the period in which they are incurred.

Goodwill and Other Intangible Assets

We evaluate goodwill for impairment annually as of October 1st, or when an indicator of impairment exists, at the reporting unit level. Our reporting units are our three field groups: Group 1, Group 2, and Environmental Solutions.

We may use both qualitative and quantitative approaches when testing goodwill for impairment. If, after assessing qualitative factors, we determine it is more likely than not that a reporting unit's goodwill is impaired, then we perform a quantitative test for that reporting unit. The quantitative impairment test for goodwill encompasses calculating a fair value of goodwill and comparing the fair value to its carrying value. If the carrying value exceeds the fair value, impairment is recognized for the difference.

As of October 1, 2021, we utilized a qualitative approach and performed an evaluation of circumstances and events impacting our reporting units to determine the likelihood of goodwill impairment. Examples of such events or circumstances include: (1) a significant adverse change in legal factors or in the business climate; (2) an adverse action or assessment by a regulator; (3) a more likely than not expectation that a reporting unit or a significant portion thereof will be sold; (4) continued or sustained losses at a reporting unit; (5) a significant decline in our market capitalization as compared to our book value; or (6) we conclude that we may not recover a significant asset group within the reporting unit. We determined it was more likely than not that the fair values of our reporting units exceeded their carrying amounts. No impairment losses were recorded for goodwill during the year ended December 31, 2021.

As of October 1, 2020, we tested our Group 1 and Group 2 reporting units quantitatively and determined that the indicated fair value of our Group 1 and Group 2 reporting units exceeded their carrying value by approximately 150% on average and, therefore, we noted no indicators of impairment at our reporting units. There was no goodwill assigned to the Environmental Solutions reporting unit in 2020.

Significant estimates used in our 2020 fair value calculation using discounted future cash flows included: (1) estimates of future revenue and expense growth by reporting unit, which we estimated to be approximately 3% annually; (2) future estimated effective tax rates, which we estimated to be 27%; (3) future estimated capital expenditures and future required investments in working capital; (4) estimated discount rates, which we estimated to range between 6% and 8%; and (5) the future terminal value of the reporting unit, which was based on its ability to exist into perpetuity. Significant estimates used in the fair value calculation utilizing market value multiples included: (a) estimated future growth potential of the reporting unit; (b) estimated multiples of revenue or earnings a willing buyer is likely to pay; and (c) the estimated control premium a willing buyer is likely to pay.

Other intangible assets include values assigned to customer relationships, non-compete agreements and trade names and are amortized generally on a straight-line basis over periods ranging from 1 to 15 years.

Asset Impairments

We continually consider whether events or changes in circumstances have occurred that may warrant revision of the estimated useful lives of our long-lived assets (other than goodwill) or whether the remaining balances of those assets should be evaluated for possible impairment. Long-lived assets include, for example, capitalized landfill costs, other property and equipment, and identifiable intangible assets.

Events or changes in circumstances that may indicate that an asset may be impaired include the following:

- A significant decrease in the market price of an asset or asset group;
- A significant adverse change in the extent or manner in which an asset or asset group is being used or in its physical condition;
- A significant adverse change in legal factors or in the business climate that could affect the value of an asset or asset group, including an adverse action or assessment by a regulator;

- An accumulation of costs significantly in excess of the amount originally expected for the acquisition or construction of a long-lived asset;
- A current period operating or cash flow loss combined with a history of operating or cash flow losses or a projection or forecast that demonstrates continuing losses associated with the use of a long-lived asset or asset group;
- A current expectation that, more likely than not, a long-lived asset or asset group will be sold or otherwise disposed of significantly before the end of its previously estimated useful life; or
- An impairment of goodwill at a reporting unit.

There are certain indicators listed above that require judgment and understanding of the environmental services industry when applied to landfill development or expansion. For example, a regulator may initially deny a landfill expansion permit application though the expansion permit is ultimately granted. In addition, management may periodically divert waste from one landfill to another to conserve remaining permitted landfill airspace. Therefore, certain events could occur in the ordinary course of business and not necessarily be considered indicators of impairment due to the unique nature of the environmental services industry.

If indicators of impairment exist, the asset or asset group is reviewed to determine whether its recoverability is impaired. We assess the recoverability of the asset or asset group by comparing its carrying value to an estimate (or estimates) of its undiscounted future cash flows over its remaining life. If the estimated undiscounted cash flows are not sufficient to recover the carrying value of the asset or asset group, we measure an impairment loss as the amount by which the carrying amount of the asset exceeds its fair value. The loss is recorded in the consolidated statements of income in the period in which such impairment is identified. Estimating future cash flows requires significant judgment, and our projections of future cash flows and remaining useful lives may vary materially from actual results.

In 2020, we recognized a \$42.6 million charge as a loss on business divestitures and impairments, net in our consolidated income statement resulting from management's decision to exit certain product offerings and geographic basins in our upstream environmental solutions business. As the carrying value of the assets associated with these operations was no longer recoverable, we impaired the entire net book value of certain assets, comprised mainly of equipment, vehicles, and containers. On at least a quarterly basis, we will continue to monitor the effect of the evolving COVID-19 pandemic on our business and review our estimates for recoverability of assets.

Insurance Reserves

Our insurance programs for workers' compensation, commercial general and auto liability, environmental and remediation liability, and employee-related health care benefits are subject to high deductible insurance policies. Accruals for insurance reserves are based on claims filed and estimates of claims incurred but not reported. We consider our past claims experience, including both frequency and settlement amount of claims, in determining these estimates. It is possible that recorded reserves may not be adequate to fund the future payment of claims. Adjustments, if any, to estimates recorded resulting from ultimate claim payments will be reflected in the consolidated statements of income in the periods in which such adjustments are known. In general, our insurance reserves are recorded on an undiscounted basis; however, the insurance liabilities we assumed in business combinations are recorded at estimated fair value, and therefore have been discounted to present value based on our estimate of the timing of the related cash flows.

Costs Associated with Exit Activities

We record costs associated with exit activities such as employee termination benefits that represent a one-time benefit when management approves and commits to a plan of termination, and communicates the termination arrangement to the employees, or over the future service period, if any. Other costs associated with exit activities may include contract termination costs, including facility and employee relocation costs.

Contingent Liabilities

We are subject to various legal proceedings, claims and regulatory matters, the outcomes of which are subject to significant uncertainty. In general, we determine whether to disclose or accrue for loss contingencies based on an assessment of whether the risk of loss is remote, reasonably possible or probable, and whether it can be reasonably estimated. We assess our potential liability relating to litigation and regulatory matters based on information available to us. Management develops its assessment based on an analysis of possible outcomes under various strategies. We accrue for loss contingencies when such amounts are probable and reasonably estimable. If a contingent liability is only reasonably possible, we disclose the potential range of the loss, if estimable. Contingent liabilities recorded in purchase accounting are recorded at their fair values. These fair values may be different from the values we would have otherwise recorded, had the contingent liability not been assumed as part of an acquisition of a business.

Accumulated Other Comprehensive Income

Accumulated other comprehensive income is a component of stockholders' equity and includes the effective portion of the net changes in fair value of our cash flow hedges, amortization of our interest rate locks, and certain adjustments to liabilities associated with our employee defined benefit pension plan liabilities, net of tax.

Revenue Recognition

We generally provide services under contracts with municipalities or individual customers. Municipal and small-container contracts are generally long-term and often have renewal options. Advance billings are recorded as deferred revenue, and revenue is recognized over the period services are provided.

We recognize revenue when control is transferred to the customer, generally at the time we provide a service. Revenue is measured as the amount of consideration we expect to receive in exchange for providing a service. We make certain payments to our customers, including payments to our municipal customers or commodity rebates to customers in our recycling business, which reduce the amount of revenue we recognize.

Income Taxes

We account for income taxes under the asset and liability method, which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements. Under this method, we record deferred income taxes to reflect the effects of temporary differences between the carrying amounts of assets and liabilities and their tax bases using enacted tax rates that we expect to be in effect when the taxes are actually paid or recovered. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in income in the period that includes the enactment date.

We record net deferred tax assets to the extent we believe these assets will more likely than not be realized. In making these determinations, we consider all available positive and negative evidence, including scheduled reversals of deferred tax liabilities, tax planning strategies, projected future taxable income and recent financial operating results. The weight given to the positive and negative evidence is commensurate with the extent such evidence can be objectively verified. If we determine that we would be able to realize a deferred income tax asset in the future in excess of its net recorded amount, we would make an adjustment to the valuation allowance, which would reduce the provision for income taxes.

We record uncertain tax positions in accordance with ASC 740. A tax benefit from an uncertain tax position may be recognized when it is more likely than not that the position will be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits. Income tax positions must meet a more-likely-than-not recognition threshold at the effective date to be recognized.

We recognize interest and penalties related to uncertain tax positions in the provision for income taxes in the accompanying consolidated statements of income. Accrued interest and penalties are included in other accrued liabilities, deferred income taxes and other long-term tax liabilities in the consolidated balance sheets.

We use the flow-through method to account for investment tax credits earned on eligible development expenditures. Under this method, the investment tax credits are recognized as a reduction to income tax expense in the year they are earned.

Defined Benefit Pension Plan

We currently have one qualified defined benefit pension plan, the BFI Retirement Plan (the Plan). The Plan covers certain current and former employees of Allied in the United States, including some employees subject to collective bargaining agreements. The Plan's benefit formula is based on a percentage of compensation as defined in the Plan document. However, the benefits of all current Plan participants are frozen.

Our pension contributions are made in accordance with funding standards established by the Employee Retirement Income Security Act of 1974 and the Internal Revenue Code, as amended by the Pension Protection Act of 2006. The Plan's assets have been invested as determined by our Employee Benefits Committee. The Employee Benefits Committee reviews and adjusts the Plan's asset allocation as deemed necessary.

The benefit obligation and associated income or expense related to the Plan are determined using annually established assumptions for discount rates, expected rates of return and mortality rates. We determine the discount rate based on a model that matches the timing and amount of expected benefit payments to maturities of high quality bonds priced as of the pension plan measurement date. When that timing does not correspond to a published high-quality bond rate, our model uses an expected yield curve to determine an appropriate current discount rate. The yields on the bonds are used to derive a discount rate for the liability. In developing our expected rate of return assumption, we evaluate long-term expected and historical actual returns on the Plan assets, giving consideration to the asset mix and the anticipated duration of our Plan obligations. The

REPUBLIC SERVICES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

average rate of compensation increase reflects our expectations of average pay increases over the period benefits are earned. Our assumptions are reviewed annually and adjusted as deemed necessary.

Equity-Based Compensation Plans

Compensation expense associated with our restricted share units is recognized ratably over the vesting period, or to the employee's retirement eligible date, if earlier. The fair value of restricted share units is based on the closing market price on the date of the grant.

Compensation expense associated with our performance shares that vest based on future performance targets is measured using the fair value of our common stock at the grant date for the stock-settled, equity classified awards, and the fair value of our common stock at the end of each reporting period for the cash-settled, liability classified awards. Compensation expense is recognized ratably over the performance period based on our estimated achievement of the established performance criteria. Compensation expense is only recognized for those awards that we expect to vest, which we estimate based on an assessment of the probability that the performance criteria will be achieved.

Income tax related cash flows resulting from equity-based payments are reported as a component of operating activities.

Share Repurchases

Share repurchases under our share repurchase authorization may be made through open market purchases or privately negotiated transactions at the current market prices. From time-to-time, we return treasury shares acquired through share repurchases to the status of authorized but unissued. Our accounting policy is to deduct the par value from common stock and to reflect any excess of cost over par value as a deduction from additional paid-in capital.

Leases

We lease property and equipment in the ordinary course of business under various lease agreements. The most significant lease obligations are for real property and equipment specific to our industry, including property operated as a landfill or transfer station and operating equipment. Our leases have varying terms. Some may include renewal or purchase options, escalation clauses, restrictions, penalties or other obligations that we consider in determining minimum lease payments. Our lease terms include options to renew the lease when it is reasonably certain that we will exercise the option.

Certain leases require payments that are variable in nature based on volume measurements, e.g. a fixed rate per ton at our landfills. In addition, certain rental payments are adjusted annually based on changes in an underlying base index such as a consumer price index. Variable lease payments are recognized in our consolidated statements of income in the period incurred. Our lease agreements do not contain any material residual value guarantees or material restrictive covenants. We generally account for lease components separately from non-lease components.

Leases are classified as either operating leases or finance leases, as appropriate. Leases with an initial term of 12 months or less are not recorded on our consolidated balance sheet.

Operating Leases

Many of our leases are operating leases. Operating lease classification generally can be attributed to either (1) relatively low fixed minimum lease payments (including, for example, real property lease payments that are not fixed and vary based on the volume of material we receive or process), or (2) minimum lease terms that are shorter than the asset's economic useful life. We expect that, in the ordinary course of business, our operating leases will be renewed, replaced by other leases, or replaced with capital expenditures. We recognize rent expense for these leases on a straight-line basis over the lease term.

We recognize a right-of-use liability and right-of-use asset for leases classified as operating leases in our consolidated balance sheet upon lease commencement. The right-of-use liability represents the present value of the remaining lease payments. An implicit rate is often not readily available for these leases. As such, we use our incremental borrowing rate at the commencement date to determine the present value of the lease payments. Our incremental borrowing rate represents the rate of interest that we would have to pay to borrow on a collateralized basis over a similar term in a similar economic environment. In addition, we recognize a corresponding right-of-use asset, which represents our right to use an underlying asset for the lease term. The right-of-use asset is adjusted for certain favorable or unfavorable leases recognized through acquisition, prepaid or accrued rent, asset impairments and lease incentives, including but not limited to cash incentives, rent abatement or leasehold improvements paid by the lessor.

Finance Leases

We capitalize assets acquired under finance leases at lease commencement and amortize them to depreciation expense over the lesser of the useful life of the asset or the lease term on either a straight-line or a units-of-consumption basis, depending on the asset leased. We record the present value of the related lease payments as a debt obligation. Our finance lease liabilities relate

primarily to real property, including certain long-term landfill operating agreements that require minimum lease payments with offsetting finance lease assets recorded as part of the landfill development costs.

Related Party Transactions

It is our policy that transactions with related parties must be on terms that, on the whole, are no less favorable than those that would be available from unaffiliated parties.

New Accounting Pronouncements

Accounting Standards Adopted

Effective January 1, 2021, we adopted the following accounting standard updates (ASUs) as issued by the Financial Accounting Standards Board (FASB):

ASU		Effective Date
ASU 2018-14	Disclosure Framework—Changes to the Disclosure Requirements for Defined Benefit Plans	January 1, 2021
ASU 2019-12	Simplifying the Accounting for Income Taxes	January 1, 2021

Changes to the Disclosure Requirements for Defined Benefit Plans

Effective January 1, 2021, we adopted ASU 2018-14, *Compensation—Retirement Benefits—Defined Benefit Plans—General (Subtopic 715-20) Disclosure Framework—Changes to the Disclosure Requirements for Defined Benefit Plans* (ASU 2018-14) on a retrospective basis. The standard removes disclosures that are no longer considered cost beneficial, clarifies the specific requirements of disclosures, and adds disclosure requirements identified as relevant. Our adoption of ASU 2018-14 did not have a material impact on our consolidated financial statements.

Simplifying the Accounting for Income Taxes

Effective January 1, 2021, we adopted ASU 2019-12, *Income Taxes (Topic 740): Simplifying the Accounting for Income Taxes* (ASU 2019-12). ASU 2019-12 attempts to simplify aspects of accounting for franchise taxes and enacted changes in tax laws or rates, and clarifies the accounting for transactions that result in a step-up in the tax basis of goodwill. Our adoption of ASU 2019-12 did not have a material impact on our consolidated financial statements.

Accounting Standards Issued but not yet Adopted as of December 31, 2021

Business Combinations

In October 2021, the FASB issued ASU 2021-08, *Business Combinations (Topic 805): Accounting for Contract Assets and Contract Liabilities from Contracts with Customers* (ASU 2021-08). ASU 2021-08 improves the accounting for acquired revenue contracts with customers in a business combination by addressing diversity in practice and inconsistency related to the recognition of an acquired contract liability and the payment terms and their effect on subsequent revenue recognized by the acquirer. ASU 2021-08 is effective for all entities that enter into a business combination within the applicable scope. The amendments in this update are effective for fiscal years beginning after December 15, 2022. We are currently assessing the effect this guidance may have on our consolidated financial statements.

Reference Rate Reform

In March 2020, the FASB issued ASU 2020-04, *Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting* (ASU 2020-04). ASU 2020-04 provides optional guidance for a limited period of time to ease the potential burden in accounting for (or recognizing the effects of) reference rate reform on financial reporting. The amendments in ASU 2020-04 provide optional expedients and exceptions for applying generally accepted accounting principles to contracts, hedging relationships, and other transactions affected by reference rate reform if certain criteria are met. ASU 2020-04 is effective for all entities upon adoption during the period from March 12, 2020 through December 31, 2022. We are currently assessing the effect this guidance may have on our consolidated financial statements.

3. BUSINESS ACQUISITIONS, INVESTMENTS AND RESTRUCTURING CHARGES

We acquired various environmental services businesses during the years ended December 31, 2021 and 2020. The purchase price paid for these business acquisitions and the allocations of the purchase price follows:

	2021	2020
Purchase price:		
Cash used in acquisitions, net of cash acquired of \$14.7 and \$0.1, respectively	\$ 1,052.9	\$ 598.9
Holdbacks	10.3	14.1
Fair value, future minimum lease payments	40.2	0.3
Total	\$ 1,103.4	\$ 613.3
Allocated as follows:		
Restricted cash	\$ 7.2	\$ 0.1
Accounts receivable	63.9	14.9
Landfill airspace	66.0	—
Property and equipment	143.5	124.3
Operating right-of-use lease assets	10.2	0.2
Assets held for sale	43.6	—
Other assets	6.6	1.1
Inventory	1.9	1.5
Accounts payable	(30.1)	(3.8)
Environmental remediation liabilities	(31.6)	(1.7)
Closure and post-closure liabilities	(31.8)	(0.8)
Operating right-of-use lease liabilities	(10.2)	(0.2)
Other liabilities	(34.2)	(13.4)
Fair value of tangible assets acquired and liabilities assumed	205.0	122.2
Excess purchase price to be allocated	\$ 898.4	\$ 491.1
Excess purchase price to be allocated as follows:		
Other intangible assets	\$ 98.2	\$ 60.7
Goodwill	801.8	430.4
Gain on bargain purchase	(1.5)	—
Total allocated	\$ 898.4	\$ 491.1

The purchase price allocations are preliminary and are based on information existing at the acquisition dates. Accordingly, the purchase price allocations are subject to change. Substantially all of the goodwill and intangible assets recorded for acquisitions in 2021 and 2020 was deductible for tax purposes.

These acquisitions are not material to the Company's results of operations, individually or in the aggregate. As a result, no pro forma financial information is provided.

In May 2021, we acquired all of the membership interests of Santek Waste Services, LLC (Santek). Santek's vertically integrated recycling and waste services operations are primarily located in the southeastern United States and complement Republic's existing core competencies and expertise in the environmental services industry. The purchase price allocation is preliminary and remains subject to revision as additional information is obtained about the facts and circumstances that existed at the valuation date. The preliminary allocation of purchase price, including the value assigned to certain tangible and intangible assets acquired as well as certain leases and environmental liabilities assumed, is based on the best estimates of management and is subject to revision based on the final valuations. We expect our valuations to be completed in 2022.

In August 2021, we acquired all of the issued and outstanding shares of ACV Enviro Corporation (ACV). ACV's environmental solutions operations are primarily located in the northeastern United States and provide us with a platform to pursue additional growth in our environmental solutions line of business. The purchase price allocation is preliminary and remains subject to revisions as additional information is obtained about the facts and circumstances that existed at the valuation date. The preliminary allocation of purchase price, including the value of certain tangible and intangible assets acquired, is based on the best estimates of management and is subject to revision based on the final valuations. We expect our valuations to be completed in 2022.

REPUBLIC SERVICES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

On February 8, 2022, we entered into a definitive agreement to acquire all outstanding shares of US Ecology, Inc. (US Ecology) in a transaction valued at approximately \$2.2 billion including debt. US Ecology is a leading provider of environmental solutions offering treatment, recycling and disposal of hazardous, non-hazardous and specialty waste. We intend to finance the transaction using existing and new sources of debt.

Investments

In 2021 and 2020, we acquired non-controlling equity interests in certain limited liability companies that qualified for investment tax credits under Section 48 of the Internal Revenue Code. In exchange for our non-controlling interests, we made capital contributions of approximately \$175 million and \$143 million, which were recorded to other long-term assets in our December 31, 2021 and 2020 consolidated balance sheets, respectively. During 2021 and 2020, we reduced the carrying value of these investments by \$178.0 million and \$118.2 million, respectively, as a result of tax credits allocated to us, cash distributions, and our share of income and loss pursuant to the terms of the limited liability company agreements. Additionally, our 2021 and 2020 tax provisions reflect a benefit of approximately \$126 million and \$100 million, respectively, due to the tax credits related to these investments. For further discussion of the income tax benefits, see Note 11, *Income Taxes*.

In 2021, we purchased the remaining equity interest in a previously held non-controlling interest for \$32.0 million.

Restructuring Charges

In 2020, we incurred costs related to the redesign of certain back-office software systems, which continued into 2021. In addition, in July 2020, we eliminated certain back-office support positions in response to a decline in the underlying demand for services resulting from the COVID-19 pandemic. During 2021 and 2020, we incurred restructuring charges of \$16.6 million and \$20.0 million, respectively. We paid \$17.2 million and \$15.5 million during 2021 and 2020, respectively, related to these restructuring efforts.

In 2022, we expect to incur additional restructuring charges of approximately \$20 million primarily related to the redesign of certain of our back-office software systems. Substantially all of these restructuring charges will be recorded in our corporate entities and other segment.

4. PROPERTY AND EQUIPMENT, NET

A summary of property and equipment, net as of December 31 follows:

	2021	2020
Land	\$ 694.9	\$ 633.4
Landfill development costs	8,539.6	7,991.7
Vehicles and equipment	8,576.9	8,119.0
Buildings and improvements	1,508.4	1,402.5
Construction-in-progress – landfill	279.3	303.8
Construction-in-progress – other	182.9	107.4
	<u>\$ 19,782.0</u>	<u>\$ 18,557.8</u>
Less: accumulated depreciation, depletion and amortization		
Landfill development costs	\$ (4,625.6)	\$ (4,249.5)
Vehicles and equipment	(5,231.6)	(4,953.4)
Buildings and improvements	(692.7)	(628.7)
	<u>(10,549.9)</u>	<u>(9,831.6)</u>
Property and equipment, net	<u>\$ 9,232.1</u>	<u>\$ 8,726.2</u>

Depreciation, amortization and depletion of property and equipment was \$1,111.7 million, \$1,015.9 million and \$985.8 million for the years ended December 31, 2021, 2020 and 2019, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

5. GOODWILL AND OTHER INTANGIBLE ASSETS, NET

Goodwill

A summary of the activity and balances in goodwill accounts by reporting segment follows:

	Balance as of December 31, 2020	Acquisitions	Divestitures	Adjustments to Acquisitions	Balance as of December 31, 2021
Group 1	\$ 6,404.9	\$ 162.6	\$ —	\$ (17.8)	\$ 6,549.7
Group 2	5,641.5	357.1	—	(4.4)	5,994.2
Corporate entities and other	—	282.1	—	—	282.1
Total	\$ 12,046.4	\$ 801.8	\$ —	\$ (22.2)	\$ 12,826.0

	Balance as of December 31, 2019	Acquisitions	Divestitures	Adjustments to Acquisitions	Balance as of December 31, 2020
Group 1	\$ 6,235.6	\$ 171.7	\$ —	\$ (2.4)	\$ 6,404.9
Group 2	5,397.8	258.7	(19.0)	4.0	5,641.5
Corporate entities and other	—	—	—	—	—
Total	\$ 11,633.4	\$ 430.4	\$ (19.0)	\$ 1.6	\$ 12,046.4

Adjustments to acquisitions during the year ended December 31, 2021 primarily related to changes in our valuation of customer relationship intangible assets and fixed assets as a result of obtaining new information regarding certain acquisitions that closed in December 2020. Adjustments to acquisitions during the year ended December 31, 2020 primarily related to working capital and fixed assets.

Goodwill by reporting segment as of December 31, 2019 reflects the transfer of all Environmental Solutions assets from Group 2 to Corporate entities and other.

Other Intangible Assets, Net

Other intangible assets, net, include values assigned to customer relationships, non-compete agreements and trade names, and are amortized over periods ranging from 1 to 15 years. A summary of the activity and balances by intangible asset type follows:

	Gross Intangible Assets			Accumulated Amortization				Other Intangible Assets, Net as of December 31, 2021	
	Balance as of December 31, 2020	Acquisitions	Adjustments and Other	Balance as of December 31, 2021	Balance as of December 31, 2020	Additions Charged to Expense	Adjustments and Other		Balance as of December 31, 2021

REPUBLIC SERVICES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Based on the amortizable intangible assets recorded in the consolidated balance sheet as of December 31, 2021, amortization expense for each of the next five years is estimated as follows:

2022	\$	40.0
2023	\$	38.6
2024	\$	36.2
2025	\$	32.9
2026	\$	29.7

6. OTHER ASSETS

Prepaid Expenses and Other Current Assets

A summary of prepaid expenses and other current assets as of December 31 follows:

	2021	2020
Income tax receivable	\$ 173.8	\$ 170.7
Prepaid expenses	85.3	77.7
Inventories	72.2	59.1
Other non-trade receivables	32.2	32.2
Reinsurance receivable	31.0	34.1
Prepaid fees for cloud-based hosting arrangements, current	12.9	11.8
Other current assets	3.0	6.7
Total	<u>\$ 410.4</u>	<u>\$ 392.3</u>

Other Assets

A summary of other assets as of December 31 follows:

	2021	2020
Operating right-of-use lease assets	\$ 255.3	\$ 218.8
Deferred compensation plan	133.5	131.8
Investments	127.6	145.4
Deferred contract costs and sales commissions	80.6	82.3
Reinsurance receivable	79.5	84.8
Prepaid fees and capitalized implementation costs for cloud-based hosting arrangements	43.4	29.5
Amounts recoverable for capping, closure and post-closure obligations	19.4	18.5
Other derivative assets	15.0	63.8
Interest rate swaps	4.7	10.0
Deferred financing costs	4.6	2.7
Other	24.0	29.8
Total	<u>\$ 787.6</u>	<u>\$ 817.4</u>

7. OTHER LIABILITIES**Other Accrued Liabilities**

A summary of other accrued liabilities as of December 31 follows:

	2021	2020
Accrued payroll and benefits	\$ 295.0	\$ 221.1
Insurance reserves, current portion	193.5	167.5
Accrued dividends	145.9	135.5
Accrued fees and taxes	143.7	132.3
Operating right-of-use lease liabilities, current portion	38.2	33.5
Ceded insurance reserves, current portion	31.0	34.1
Accrued professional fees and legal settlement reserves	8.4	7.2
Other	73.8	89.0
Total	<u>\$ 929.5</u>	<u>\$ 820.2</u>

Other Long-Term Liabilities

A summary of other long-term liabilities as of December 31 follows:

	2021	2020
Operating right-of-use lease liabilities	\$ 239.0	\$ 206.6
Deferred compensation plan liability	119.4	126.6
Ceded insurance reserves	79.5	84.8
Contingent purchase price and acquisition holdbacks	64.4	67.3
Other derivative liabilities	50.7	103.0
Withdrawal liability - multiemployer pension funds	24.5	22.3
Legal settlement reserves	3.1	20.2
Pension and other post-retirement liabilities	1.2	5.5
Other	60.6	45.5
Total	<u>\$ 642.4</u>	<u>\$ 681.8</u>

Insurance Reserves

Our liabilities for unpaid and incurred but not reported claims as of December 31, 2021 and 2020 (which include claims for workers' compensation, commercial general and auto liability, and employee-related health care benefits) were \$497.4 million and \$449.3 million, respectively, under our risk management program and are included in other accrued liabilities and insurance reserves, net of current portion, in our consolidated balance sheets. While the ultimate amount of claims incurred depends on future developments, we believe the recorded reserves are adequate to cover the future payment of claims; however, it is possible that these recorded reserves may not be adequate to cover the future payment of claims. Adjustments, if any, to estimates recorded resulting from ultimate claim payments will be reflected in our consolidated statements of income in the periods in which such adjustments are known.

REPUBLIC SERVICES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The following table summarizes the activity in our insurance reserves for the years ended December 31:

	2021	2020	2019
Balance at beginning of year	\$ 449.3	\$ 438.5	\$ 423.7
Additions charged to expense	552.4	466.1	468.5
Payments	(531.8)	(482.6)	(479.3)
Accretion expense	0.3	0.5	0.7
Premium written for third party risk assumed	36.5	36.5	35.5
Reclassified to ceded insurance reserves	(9.3)	(9.7)	(10.6)
Balance at end of year	497.4	449.3	438.5
Less: current portion	(193.5)	(167.5)	(162.0)
Long-term portion	\$ 303.9	\$ 281.8	\$ 276.5

8. LANDFILL AND ENVIRONMENTAL COSTS

As of December 31, 2021, we owned or operated 198 active landfills with total available disposal capacity estimated to be 5.0 billion in-place cubic yards. Additionally, we have post-closure responsibility for 124 closed landfills.

Accrued Landfill and Environmental Costs

A summary of our accrued landfill and environmental liabilities as of December 31 follows:

	2021	2020
Landfill final capping, closure and post-closure liabilities	\$ 1,507.3	\$ 1,346.4
Environmental remediation	454.9	462.8
Total accrued landfill and environmental costs	1,962.2	1,809.2
Less: current portion	(124.5)	(114.5)
Long-term portion	\$ 1,837.7	\$ 1,694.7

Final Capping, Closure and Post-Closure Costs

The following table summarizes the activity in our asset retirement obligation liabilities, which includes liabilities for final capping, closure and post-closure, for the years ended December 31:

	2021	2020	2019
Asset retirement obligation liabilities, beginning of year	\$ 1,346.4	\$ 1,335.6	\$ 1,292.0
Non-cash additions	47.2	42.3	44.9
Acquisitions, net of divestitures and other adjustments	32.1	(10.9)	0.2
Asset retirement obligation adjustments	58.5	(44.9)	(5.2)
Payments	(59.6)	(58.6)	(78.2)
Accretion expense	82.7	82.9	81.9
Asset retirement obligation liabilities, end of year	1,507.3	1,346.4	1,335.6
Less: Current portion	(68.4)	(57.5)	(75.8)
Long-term portion	\$ 1,438.9	\$ 1,288.9	\$ 1,259.8

We review our landfill asset retirement obligations at least annually. As a result, we increased amortization expense by \$6.9 million for December 31, 2021 and reduced amortization expense by \$12.5 million and \$10.9 million for December 31, 2020 and 2019, respectively, primarily related to changes in estimates and assumptions concerning the anticipated waste flow, cost and timing of future final capping, closure and post-closure activities.

REPUBLIC SERVICES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The expected future payments for final capping, closure and post-closure as of December 31, 2021 follows:

2022	\$	68.3
2023		68.4
2024		70.4
2025		79.7
2026		76.2
Thereafter		6,681.6
	\$	<u>7,044.6</u>

The estimated remaining final capping, closure and post-closure expenditures presented above are not inflated and not discounted and reflect the total estimated future payments for liabilities which include those incurred and recorded as of December 31, 2021 as well as liabilities yet to be incurred over the remaining life of our landfills.

Environmental Remediation Liabilities

We accrue for remediation costs when they become probable and can be reasonably estimated. There can sometimes be a range of reasonable estimates of the costs associated with remediation of a site. In these cases, we use the amount within the range that constitutes our best estimate. If no amount within the range appears to be a better estimate than any other, we use the amount that is at the low end of such range. It is reasonably possible that we will need to adjust the liabilities recorded for remediation to reflect the effects of new or additional information, to the extent such information impacts the costs, timing or duration of the required actions. If we used the reasonably possible high ends of our ranges, our aggregate potential remediation liability as of December 31, 2021 would be approximately \$342 million higher than the amounts recorded. Future changes in our estimates of the cost, timing or duration of the required actions could have a material adverse effect on our consolidated financial position, results of operations and cash flows.

The following table summarizes the activity in our environmental remediation liabilities for the years ended December 31:

	2021	2020	2019
Environmental remediation liabilities, beginning of year	\$ 462.8	\$ 500.2	\$ 540.2
Net additions charged to expense	0.5	5.1	(12.5)
Payments	(57.1)	(63.5)	(49.1)
Accretion expense (non-cash interest expense)	17.1	18.6	19.0
Acquisitions, net of divestitures and other adjustments	31.6	2.4	2.6
Environmental remediation liabilities, end of year	454.9	462.8	500.2
Less: current portion	(56.1)	(57.0)	(56.8)
Long-term portion	<u>\$ 398.8</u>	<u>\$ 405.8</u>	<u>\$ 443.4</u>

The expected undiscounted future payments for remediation costs as of December 31, 2021 follows:

2022	\$	56.1
2023		56.5
2024		60.6
2025		51.4
2026		47.8
Thereafter		334.3
	\$	<u>606.7</u>

The following is a discussion of certain of our significant remediation matters:

Bridgeton Landfill. During the year ended December 31, 2021, we paid \$18.9 million related to management and monitoring of the remediation area for our closed Bridgeton Landfill in Missouri. We continue to work with state and federal regulatory agencies on our remediation efforts. From time to time, this may require us to modify our future operating timeline and procedures, which could result in changes to our expected liability. As of December 31, 2021, the remediation liability recorded for this site is \$102.7 million, of which approximately \$16 million is expected to be paid during 2022. We believe the remaining

REPUBLIC SERVICES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

reasonably possible high end of our range would be approximately \$140 million higher than the amount recorded as of December 31, 2021.

In 2020, we recognized an insurance recovery of \$10.8 million related to our closed Bridgeton Landfill in Missouri as a reduction of remediation expenses included in our cost of operations.

West Lake Landfill Superfund Site. Our subsidiary Bridgeton Landfill, LLC is one of several currently designated Potentially Responsible Parties for the West Lake Landfill Superfund site (West Lake) in Missouri. On September 27, 2018, the U.S. Environmental Protection Agency (EPA) issued a Record of Decision Amendment for West Lake that includes a total undiscounted cost estimate of \$229 million over a four to five-year design and construction timeline. On March 11, 2019, the EPA issued special notice letters under the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA) to Bridgeton Landfill, LLC and the other currently designated Potentially Responsible Parties to initiate negotiations to implement the remedy. At this time we are neither able to predict the final design of that remedy, nor estimate how much of the future response costs of the site our subsidiary may agree or be required to pay. During any subsequent administrative proceedings or litigation, our subsidiary will vigorously contest liability for the costs of remediating radiologically-impacted materials generated on behalf of the federal government during the Manhattan Project and delivered to the site by an Atomic Energy Commission licensee and its subcontractor. Currently, we believe we are adequately reserved for our expected remediation liability. However, subsequent events related to remedy design, divisibility, or allocation may require us to modify our expected remediation liability.

REPUBLIC SERVICES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

9. DEBT

The carrying value of our credit facilities, finance leases and long-term debt as of December 31, 2021 and 2020 is listed in the following table, and is adjusted for the fair value of interest rate swaps, unamortized discounts, deferred issuance costs and the unamortized portion of adjustments to fair value recorded in purchase accounting. Original issue discounts and adjustments to fair value recorded in purchase accounting are amortized to interest expense over the term of the applicable instrument using the effective interest method.

Maturity	Interest Rate	December 31, 2021			December 31, 2020		
		Principal	Adjustments	Carrying Value	Principal	Adjustments	Carrying Value

Loss on Extinguishment of Debt and Other Related Costs

During the year ended December 31, 2020, we incurred a loss on the early extinguishment of debt and other related costs. We paid cash premiums during the year totaling \$99.1 million and incurred non-cash charges related to the proportional share of unamortized discounts and deferred issuance costs of \$2.8 million. The unamortized proportional share of certain cash flow hedges reclassified to earnings as non-cash interest expense was \$1.8 million and the proportional share of our fair value hedges that were redesignated and immediately recognized in earnings as a reduction to non-cash interest expense was \$4.7 million.

Future Maturities of Debt

Aggregate principal maturities of notes payable, finance leases and other long-term debt as of December 31, 2021 follow:

2022	\$	8.2
2023		475.2
2024		926.9
2025		856.7
2026		613.2
Thereafter		6,798.1
	\$	<u>9,678.3</u>

Credit Facilities

The Credit Facility

In August 2021, we entered into a \$3.0 billion unsecured revolving credit facility (the Credit Facility), which replaces the prior \$2.25 billion unsecured revolving credit facility which would have matured in June 2023 (the Replaced Credit Facility). Borrowings under the Credit Facility mature in August 2026. As permitted by the Credit Facility, we have the right to request two one-year extensions of the maturity date but none of the lenders are committed to participate in such extension. The Credit Facility also includes a feature that allows us to increase availability, at our option, by an aggregate amount of up to \$1.0 billion through increased commitments from existing lenders or the addition of new lenders.

At our option, borrowings under the Credit Facility bear interest at a Base Rate, a daily floating London Interbank Offered Rate (LIBOR), or a Eurodollar Rate, plus an applicable margin of 0.910% based on our Debt Ratings (all as defined in the Credit Facility agreement). On the earliest of (i) the date that all available tenors of U.S. dollar LIBOR have permanently or indefinitely ceased to be provided or have been announced to be no longer representative, (ii) June 30, 2023 or (iii) the effective date of an election to opt into a secured overnight financing rate (SOFR), the LIBOR rate will be replaced by a forward-looking term rate based on SOFR or a daily rate based on SOFR published on such date.

The Credit Facility is subject to facility fees based on applicable rates defined in the Credit Facility agreement and the aggregate commitment, regardless of usage. Availability under our Credit Facility and Replaced Credit Facility totaled \$2,633.8 million and \$1,671.8 million as of December 31, 2021 and 2020, respectively. The Credit Facility can be used for working capital, capital expenditures, acquisitions, letters of credit and other general corporate purposes. The Credit Facility agreement requires us to comply with financial and other covenants. We may pay dividends and repurchase common stock if we are in compliance with these covenants.

As of December 31, 2021 and 2020, we had \$24.3 million and \$186.0 million of borrowings outstanding under our Credit Facility and Replaced Credit Facility, respectively. We had \$341.9 million and \$376.5 million of letters of credit outstanding under our Credit Facility and Replaced Credit Facility as of December 31, 2021 and 2020, respectively.

Uncommitted Credit Facility

In January 2022, we entered into a \$200.0 million unsecured uncommitted revolving credit facility (the Uncommitted Credit Facility), which replaced the prior \$135.0 million uncommitted credit facility (the Replaced Uncommitted Credit Facility). The Uncommitted Credit Facility bears interest at an annual percentage rate to be agreed upon by both parties, rather than a LIBOR or Cost of Funds rate used in the Replaced Uncommitted Credit Facility (as defined in the Replaced Uncommitted Credit Facility agreement). Borrowings under the Uncommitted Credit Facility can be used for working capital, letters of credit, and other general corporate purposes. The agreement governing our Uncommitted Credit Facility requires us to comply with certain covenants. The Uncommitted Credit Facility may be terminated by either party at any time. As of December 31, 2021 and 2020, we had no borrowings outstanding under our Replaced Uncommitted Credit Facility.

Senior Notes and Debentures

In November 2021, we issued \$700.0 million of 2.375% senior notes due 2033 (the 2.375% Notes). We used the net proceeds for general corporate purposes, including repayment of amounts outstanding under our unsecured and uncommitted credit facilities. Prior to such use, Republic may have temporarily invested the net proceeds in marketable securities and short-term investments.

During the second quarter of 2021, we paid the entire \$35.3 million principal balance of our 9.250% debentures which matured in May 2021.

Our senior notes are general senior unsecured obligations. Interest is payable semi-annually.

Interest Rate Swap and Lock Agreements

Our ability to obtain financing through the capital markets is a key component of our financial strategy. Historically, we have managed risk associated with executing this strategy, particularly as it relates to fluctuations in interest rates, by using a combination of fixed and floating rate debt. From time to time, we also have entered into interest rate swap and lock agreements to manage risks associated with interest rates, either to effectively convert specific fixed rate debt to a floating rate (fair value hedges), or to lock interest rates in anticipation of future debt issuances (cash flow hedges).

Fair Value Hedges

During the second half of 2013, we entered into various interest rate swap agreements relative to our 4.750% fixed rate senior notes due in May 2023 (the 4.750% Notes). The goal was to reduce overall borrowing costs and rebalance our debt portfolio's ratio of fixed to floating interest rates. As of December 31, 2021, these swap agreements have a total notional value of \$300.0 million and mature in May 2023. We pay interest at floating rates based on changes in LIBOR and receive interest at a fixed rate of 4.750%. In 2013, these transactions were designated as fair value hedges because the swaps hedge against the changes in fair value of the 4.750% Notes resulting from changes in interest rates.

Contemporaneously with our \$250.0 million redemption of the 4.750% Notes in 2020, we dedesignated the proportional share of these swap agreements as fair value hedges and recognized \$4.7 million in earnings immediately as a reduction to non-cash interest expense. There was no ineffectiveness recognized in the dedesignation of these fair value hedges. Following the dedesignation, the fair value of these free standing derivatives was determined using standard valuation models with assumptions about interest rates being based on those observed in underlying markets (Level 2 in the fair value hierarchy). As of December 31, 2021 and 2020, these free standing derivatives are reflected at their fair value of \$3.9 million and \$8.3 million, respectively, and are included in other assets in our consolidated balance sheets. For the years ended December 31, 2021 and 2020, we recognized losses of \$4.4 million and \$0.1 million directly in earnings as an adjustment to non-cash interest expense attributable to the change in fair value of the free standing derivatives, respectively.

As of December 31, 2021 and 2020, the interest rate swap agreements that were designated as fair value hedges are reflected at their fair value of \$4.7 million and \$10.0 million, respectively, and are included in other assets in our consolidated balance sheets. To the extent they are effective, the remaining hedged portion of these interest rate swap agreements is included as an adjustment to long-term debt in our consolidated balance sheets.

We recognized net interest income of \$7.9 million, \$5.7 million and \$1.0 million, respectively, during 2021, 2020 and 2019 related to net swap settlements for these interest rate swap agreements, which is included as an offset to interest expense in our consolidated statements of income.

For the years ended December 31, 2021, 2020 and 2019, we recognized a gain of \$5.2 million, and losses of \$5.7 million and \$7.5 million, respectively, related to the impact of changes in the benchmark interest rate on the fair value of the hedged senior notes. For the years ended December 31, 2021, 2020 and 2019, we recognized offsetting loss of \$5.2 million, and gains of \$7.6 million and \$8.1 million, respectively, on the related interest rate swaps attributable to changes in the benchmark interest rate. The difference of these fair value changes for the years ended December 31, 2021, 2020 and 2019 was recorded directly in earnings as an adjustment to interest expense in our consolidated statements of income.

For further detail regarding the effect of our fair value hedging on interest expense, see Note 18, *Financial Instruments*, of the notes to our consolidated financial statements in Part II, Item 8 of this Annual Report on Form 10-K.

Cash Flow Hedges

We have historically entered into multiple swap agreements designated as cash flow hedges to manage exposure to fluctuations in interest rates in anticipation of planned future issuances of senior notes. Upon the expected issuance of senior notes, we terminate the interest rate locks and settle with our counterparties. These transactions were accounted for as cash flow hedges. All of our cash flow hedges settled before December 31, 2020, thus there was no related asset or liability as of December 31, 2021 or December 31, 2020.

The fair value of our interest rate locks was determined using standard valuation models with assumptions about interest rates being based on those observed in underlying markets (Level 2 in the fair value hierarchy).

There was no unrealized gain or loss recognized in other comprehensive income for the year ended December 31, 2021. The total unrealized losses recognized in other comprehensive income for interest rate locks were \$22.5 million and \$30.2 million, net of tax, for the years ended December 31, 2020, and 2019, respectively.

As of December 31, 2021 and 2020, our previously terminated interest rate locks were recorded as components of accumulated other comprehensive loss of \$25.8 million and \$30.4 million, respectively, net of tax. The effective portion of the interest rate locks is amortized as an adjustment to interest expense over the life of the issued debt using the effective interest method. Over

REPUBLIC SERVICES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

the next 12 months, we expect to amortize approximately \$4.3 million, net of tax, from accumulated other comprehensive loss to interest expense as a yield adjustment of our senior notes.

For further detail regarding the effect of our cash flow hedging on interest expense, see Note 18, *Financial Instruments*, of the notes to our consolidated financial statements in Part II, Item 8 of this Annual Report on Form 10-K.

Derivative Contracts

Contemporaneously with the issuance of our 2.300% Notes in February 2020, we amended interest rate lock agreements with a notional value of \$550.0 million, extending the mandatory maturity date from 2020 to 2030 and redesignated them as cash flow hedges (the 2020 Extended Interest Rate Locks). Contemporaneously with the issuance of our 2.500% Notes in August 2019 we amended interest rate lock agreements with a notional value of \$375.0 million, extending the mandatory maturity date from 2019 to 2024 and redesignated them as cash flow hedges (2019 Extended Interest Rate Locks and collectively with the 2020 Extended Interest Rate Locks referred to as the Extended Interest Rate Locks). There was no ineffectiveness recognized in the termination of these cash flow hedges. In addition, we entered into offsetting interest rate swaps to offset future exposures to fair value fluctuations of the Extended Interest Rate Locks (the 2019 Offsetting Interest Rate Swap and the 2020 Offsetting Interest Rate Swap, or collectively the Offsetting Interest Rate Swaps). The fair value of these free standing derivatives was determined using standard valuation models with assumptions about interest rates being based on those observed in underlying markets (Level 2 in the fair value hierarchy).

As of December 31, 2021 and 2020, the fair values of the Extended Interest Rate Locks were liabilities of \$49.9 million and \$103.0 million, respectively, which were included in other long-term liabilities in our consolidated balance sheet. As of December 31, 2021, the fair value of the 2019 Offsetting Interest Rate Swap was an asset of \$11.1 million, which was recorded in other assets in our consolidated balance sheet, and the fair value of the 2020 Offsetting Interest Rate Swap was a liability of \$0.8 million, which was included in other long-term liabilities in our consolidated balance sheet. As of December 31, 2020, the fair values of the Offsetting Interest Rate Swaps were assets of \$55.5 million, which were included in other assets in our consolidated balance sheet. For the year ended December 31, 2021, we recognized a gain of \$44.3 million on the change in fair value of the Extended Interest Rate Locks, with an offsetting loss of \$44.0 million, on the Offsetting Interest Rate Swaps. For the year ended December 31, 2020, we recognized a loss of \$55.6 million on the change in fair value of the Extended Interest Rate Locks, with an offsetting gain of \$52.9 million on the Offsetting Interest Rate Swaps. The changes in fair value were recorded directly in earnings as an adjustment to interest expense in our consolidated statements of income.

Tax-Exempt Financings

As of December 31, 2021, we had \$1,181.5 million of certain variable rate tax-exempt financings outstanding with maturities ranging from 2023 to 2051. As of December 31, 2020, we had \$1,104.7 million of certain variable rate tax-exempt financings outstanding with maturities ranging from 2021 to 2050. During the year ended December 31, 2021 and 2020, we issued \$205.0 million and \$60.0 million, respectively, of new tax-exempt financings.

In the fourth quarter of 2021, the Pennsylvania Economic Development Financing Authority issued, for our benefit, \$30.0 million of Solid Waste Disposal Revenue Bonds. The proceeds from the issuance, after deferred issuance costs, will be used to fund qualifying landfill-related expenditures in the Commonwealth of Pennsylvania, of which \$17.2 million has been incurred and reimbursed to us. As of December 31, 2021, we had \$139.0 million of restricted cash and marketable securities, of which \$12.4 million represented proceeds from the issuance of the tax-exempt bonds.

All of our tax-exempt financings are remarketed either quarterly or semi-annually by remarketing agents to effectively maintain a variable yield. The holders of the bonds can put them back to the remarketing agents at the end of each interest period. If the remarketing agent is unable to remarket our bonds, the remarketing agent can put the bonds to us. In the event of a failed remarketing, we currently have availability under our Credit Facility to fund these bonds until they are remarketed successfully. Accordingly, we have classified these borrowings as long-term in our consolidated balance sheet as of December 31, 2021 and 2020.

Finance Leases

We had finance lease liabilities of \$249.4 million and \$206.5 million as of December 31, 2021 and 2020, respectively, with maturities ranging from 2022 to 2063 and 2021 to 2063, respectively.

Interest Paid

Interest paid, excluding net swap settlements for our fair value hedges, was \$249.4 million, \$325.1 million, and \$346.8 million for the years ended December 31, 2021, 2020 and 2019, respectively.

REPUBLIC SERVICES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

10. LEASES

A summary of the lease classification on our consolidated balance sheet as of December 31, 2021 and 2020 follows:

		2021	2020
Assets			
Operating right-of-use lease assets	Other assets	\$ 255.3	\$ 218.8
Finance lease assets	Property and equipment, net	291.7	227.7
Total leased assets		<u>\$ 547.0</u>	<u>\$ 446.5</u>
Liabilities			
Current			
Operating	Other accrued liabilities	\$ 38.2	\$ 33.5
Finance	Notes payable and current maturities of long-term debt	8.2	5.8
Long-term			
Operating	Other long-term liabilities	239.0	206.6
Finance	Long-term debt, net of current maturities	241.2	200.7
Total lease liabilities		<u>\$ 526.6</u>	<u>\$ 446.6</u>

A summary of the lease cost reflected in our consolidated statements of income for the years ended December 31 follow:

		2021	2020
Operating lease cost			
Fixed lease cost	Cost of operations	\$ 44.6	\$ 44.0
Short-term lease cost	Cost of operations	25.4	23.4
Variable lease cost	Cost of operations	20.7	18.6
Finance lease cost			
Amortization of leased assets	Depreciation amortization, and depletion	10.5	7.6
Interest on lease liabilities	Interest expense	9.3	8.2
Variable lease cost	Interest expense	16.4	14.0
Total lease cost		<u>\$ 126.9</u>	<u>\$ 115.8</u>

During the years ended December 31, 2021 and 2020, we recognized changes in our operating right-of-use lease liabilities and assets, resulting from the recognition of non-cash lease expense of \$35.8 million and \$34.1 million, respectively.

As of December 31, 2021, maturities for operating and finance lease liabilities were as follows:

	Operating Leases	Finance Leases	Total
2022	\$ 45.1	\$ 18.0	\$ 63.1
2023	44.2	40.1	84.3
2024	40.8	13.8	54.6
2025	37.7	13.9	51.6
2026	33.6	14.0	47.6
Thereafter	114.0	333.8	447.8
Total lease payments	315.4	433.6	749.0
Less: interest	(38.2)	(184.2)	(222.4)
Present value of lease liabilities	<u>\$ 277.2</u>	<u>\$ 249.4</u>	<u>\$ 526.6</u>

REPUBLIC SERVICES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

A summary of the weighted-average remaining lease term and weighted-average discount rate as of December 31, 2021 and 2020 follows:

	2021	2020
Weighted-average remaining lease term (years)		
Operating leases	8.2	8.4
Finance leases	28.2	30.4
Weighted-average discount rate		
Operating leases	3.2 %	3.8 %
Finance leases	3.8 %	4.3 %

Supplemental cash flow and other non-cash information for the years ended December 31 follow:

	2021	2020
Cash paid for amounts included in the measurement of lease liabilities		
Operating cash flows from operating leases	\$ 91.4	\$ 86.9
Operating cash flows from finance leases	\$ 25.8	\$ 22.2
Financing cash flows from finance leases	\$ 7.4	\$ 8.1
Leased assets obtained in exchange for new finance lease liabilities	\$ 50.2	\$ 108.0
Leased assets obtained in exchange for new operating lease liabilities	\$ 78.5	\$ 24.8

11. INCOME TAXES

The components of the provision for income taxes for the years ended December 31 follow:

	2021	2020	2019
Current:			
Federal	\$ 234.9	\$ 71.7	\$ 46.1
State	67.3	43.6	40.5
Deferred:			
Federal	(34.1)	65.4	151.8
State	18.6	12.6	18.9
State deferred benefit - change in valuation allowance	—	(17.2)	(4.6)
Uncertain tax positions and interest, and other	(3.9)	(3.0)	(30.7)
Provision for income taxes	<u>\$ 282.8</u>	<u>\$ 173.1</u>	<u>\$ 222.0</u>

The reconciliations of the statutory federal income tax rate to our effective tax rate for the years ended December 31 follow:

	2021	2020	2019
Federal statutory rate	21.0 %	21.0 %	21.0 %
State income taxes, net of federal benefit	4.5	4.5	4.2
Change in valuation allowance	—	(1.5)	(0.4)
Non-deductible expenses	1.0	1.7	1.7
Uncertain tax position taxes and interest	0.1	0.1	(0.3)
Investment tax credits	(8.0)	(8.8)	(6.5)
Other, net	(0.6)	(1.8)	(2.6)
Effective income tax rate	<u>18.0 %</u>	<u>15.2 %</u>	<u>17.1 %</u>

During 2021, we acquired non-controlling interests in limited liability companies established to own solar energy assets that qualified for investment tax credits under Section 48 of the Internal Revenue Code. We account for these investments using the equity method of accounting and recognize our share of income or loss and other reductions in the value of our investment in loss from unconsolidated equity method investments within our consolidated statements of income. For further discussion regarding our equity method accounting, see Note 3, *Business Acquisitions, Investments and Restructuring Charges*. Our 2021 tax provision reflects a benefit of approximately \$126 million due to the tax credits related to these investments.

REPUBLIC SERVICES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Our 2020 tax provision was reduced by \$11.6 million from excess tax benefits related to stock compensation, approximately \$100 million related to the tax credits from our non-controlling interest in limited liability companies established to own solar energy assets, \$17.2 million for adjustments to our valuation allowance due to the realizability of certain state loss carryforwards, and \$8.2 million due to the realization of additional federal and state benefits as well as adjustments to deferred taxes due to the completion of our 2019 tax returns.

Our 2019 tax provision was reduced by \$12.3 million from excess tax benefits related to stock compensation, approximately \$84 million related to the tax credits from our non-controlling interests in limited liability companies established to own solar energy assets, and approximately \$13 million due to the realization of tax credits and lower state rates due to changes in estimates following the completion of our 2018 tax returns.

We made income tax payments (net of refunds) of approximately \$300 million, \$124 million and \$31 million for 2021, 2020, and 2019, respectively. Income taxes paid in 2021, 2020, and 2019 reflect benefits from tax credits from our continuing investments in solar energy. For 2020 and 2019, cash taxes paid reflect benefits from 100% bonus depreciation on qualified assets.

The components of the net deferred income tax asset and liability as of December 31 follow:

	2021	2020
Deferred tax liabilities relating to:		
Differences between book and tax basis of property and equipment	\$ (949.2)	\$ (1,010.7)
Difference between book and tax basis of intangible assets	(503.7)	(464.6)
Operating right-of-use lease assets	(66.5)	(60.9)
Basis difference due to redemption of partnership interests	(82.2)	(85.3)
Total liabilities	\$ (1,601.6)	\$ (1,621.5)
Deferred tax assets relating to:		
Environmental reserves	\$ 217.6	\$ 224.6
Accruals not currently deductible	82.4	84.5
Net operating loss carryforwards	105.1	111.8
Difference between book and tax basis of other assets	22.5	21.7
Operating right-of-use lease liabilities	66.4	61.1
Other	14.1	13.3
Total assets	508.1	517.0
Valuation allowance	(43.7)	(43.8)
Net deferred tax asset	464.4	473.2
Net deferred tax liabilities	\$ (1,137.2)	\$ (1,148.3)

Changes in the deferred tax valuation allowance for the years ended December 31 follow:

	2021	2020	2019
Valuation allowance, beginning of year	\$ 43.8	\$ 67.6	\$ 73.5
Additions charged to provision for income taxes	0.4	2.2	0.1
Deferred tax assets realized or written-off	0.1	(28.3)	(6.0)
Other, net	(0.6)	2.3	—
Valuation allowance, end of year	\$ 43.7	\$ 43.8	\$ 67.6

We have deferred tax assets related to state net operating loss carryforwards. We provide a partial valuation allowance due to uncertainty surrounding the future utilization of these carryforwards in the taxing jurisdictions where the loss carryforwards exist. When determining the need for a valuation allowance, we consider all positive and negative evidence, including recent financial results, scheduled reversals of deferred tax liabilities, projected future taxable income and tax planning strategies. The weight given to the positive and negative evidence is commensurate with the extent such evidence can be objectively verified. We adjust the valuation allowance in the period management determines it is more likely than not that deferred tax assets will or will not be realized.

Substantially all of our valuation allowance is associated with state loss carryforwards. The realization of our deferred tax asset for state loss carryforwards ultimately depends upon the existence of sufficient taxable income in the appropriate state taxing

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

jurisdictions in future periods. We continue to regularly monitor both positive and negative evidence in determining the ongoing need for a valuation allowance.

We have deferred tax assets related to state net operating loss carryforwards with an estimated tax effect of approximately \$87 million available as of December 31, 2021. These state net operating loss carryforwards expire at various times between 2022 and 2041. We believe that it is more likely than not that the benefit from some of our state net operating loss carryforwards will not be realized due to limitations on these loss carryforwards in certain states. In recognition of this risk, as of December 31, 2021, we have provided a valuation allowance of approximately \$43 million.

We are subject to income tax in the United States, as well as income tax in multiple state jurisdictions. Our compliance with income tax rules and regulations is periodically audited by tax authorities. These authorities may challenge the positions taken in our tax filings. Thus, to provide for certain potential tax exposures, we maintain liabilities for uncertain tax positions for our estimate of the final outcome of the examinations. Our federal statute of limitations is closed for all years prior to 2015. We are currently under examination by the Internal Revenue Service (IRS) for tax years 2015 through 2018. In addition, we are currently under state examination or administrative review in various jurisdictions for tax years 2012 to 2020.

The following table summarizes the activity in our gross unrecognized tax benefits for the years ended December 31:

	2021	2020	2019
Balance at beginning of year	\$ 101.1	\$ 100.7	\$ 104.9
Additions for tax positions of prior years	0.5	0.4	0.9
Reductions for tax positions of prior years	(0.1)	—	—
Reductions for tax positions resulting from lapse of statute of limitations	—	—	(0.2)
Settlements	—	—	(4.9)
Balance at end of year	<u>\$ 101.5</u>	<u>\$ 101.1</u>	<u>\$ 100.7</u>

During 2019 we resolved tax matters in various states which reduced our gross unrecognized tax benefits by \$5.1 million.

Included in our gross unrecognized tax benefits as of December 31, 2021, 2020, and 2019 are \$93.6 million, \$93.3 million and \$93.0 million, respectively, of unrecognized tax benefits (net of the federal benefit) that, if recognized, would affect our effective income tax rate in future periods. However, we are unable to estimate the resolution of these matters over the next 12 months.

We recognize interest and penalties as incurred within the provision for income taxes in our consolidated statements of income. Related to the unrecognized tax benefits previously noted, we recorded interest expense of \$0.8 million during 2021 and, in total as of December 31, 2021, have recognized a liability for penalties of \$0.3 million and interest of \$13.7 million.

During 2020, we recorded interest expense of approximately \$0.8 million and, in total as of December 31, 2020, had recognized a liability for penalties of \$0.3 million and interest of \$12.6 million. During 2019, we accrued interest of \$4.0 million and, in total as of December 31, 2019, had recognized a liability for penalties of \$0.3 million and interest of \$11.6 million.

We believe the recorded liabilities for uncertain tax positions are adequate. However, a significant assessment against us in excess of the liabilities recorded could have a material adverse effect on our consolidated financial position, results of operations and cash flows.

12. EMPLOYEE BENEFIT PLANS

Stock-Based Compensation

In October 2020, our Board of Directors amended and restated the Republic Services, Inc. Executive Incentive Plan (the 2021 Plan) to remove references to the performance-based compensation exception that was previously permitted but is no longer applicable under Section 162(m) of the Code. The purposes of the 2021 Plan are to promote the success of the Company; to provide designated Executive Officers with an opportunity to receive incentive compensation dependent upon that success; and to attract, retain and motivate such individuals. We currently have 12.3 million shares of common stock reserved for future grants under the 2021 Plan.

In February 2007, our Board of Directors approved the 2007 Stock Incentive Plan (the 2007 Plan), and in May 2007 our shareholders approved the 2007 Plan. In March 2011, our Board of Directors approved the Amended and Restated 2007 Stock Incentive Plan (the Amended and Restated 2007 SIP), and in May 2011 our shareholders approved the Amended and Restated 2007 SIP. In March 2013, our Board of Directors approved the Republic Services, Inc. Amended and Restated 2007 Stock Incentive Plan (the Republic Amended and Restated 2007 SIP), and in May 2013 our shareholders approved the Republic Amended and Restated 2007 SIP (the 2007 Plan, the Amended and Restated 2007 SIP and the Republic Amended and Restated

REPUBLIC SERVICES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

2007 SIP are collectively referred to as the Amended and Restated 2007 Stock Incentive Plan). No further awards will be made under the Amended and Restated 2007 Stock Incentive Plan.

Restricted Stock Units

The following table summarizes restricted stock unit (RSU) activity for the years ended December 31, 2021, 2020 and 2019:

	Number of RSUs (in thousands)	Weighted-Average Grant Date Fair Value per Share	Weighted-Average Remaining Contractual Term (years)	Aggregate Intrinsic Value (in millions)
Unissued as of December 31, 2018	1,592.6	\$ 51.88		
Granted	392.8	\$ 75.11		
Vested and issued	(409.8)	\$ 50.40		
Forfeited	(76.1)	\$ 65.37		
Unissued as of December 31, 2019	1,499.5	\$ 57.63		
Granted	314.9	\$ 95.75		
Vested and issued	(538.2)	\$ 50.63		
Forfeited	(64.1)	\$ 79.77		
Unissued as of December 31, 2020	1,212.1	\$ 69.47		
Granted	358.0	\$ 91.21		
Vested and issued	(434.5)	\$ 74.69		
Forfeited	(44.8)	\$ 87.43		
Unissued as of December 31, 2021	1,090.8	\$ 77.19	0.7	\$ 152.1
Vested and unissued as of December 31, 2021	385.1	\$ 55.97		

During the years ended December 31, 2021, 2020 and 2019, we awarded our non-employee directors 26,328, 29,331 and 35,376 RSUs, respectively, which vested upon issuance.

During the years ended December 31, 2021, 2020 and 2019, we awarded 312,602, 258,661 and 328,142 RSUs, respectively, to executives and employees that vest in four equal annual installments beginning on the anniversary date of the original grant or cliff vest after four years.

During the years ended December 31, 2021, 2020 and 2019, we granted an additional 19,049, 26,907 and 29,273 RSUs, respectively, as dividend equivalents.

The RSUs do not carry any voting or dividend rights, except the right to receive additional RSUs in lieu of dividends.

Compensation Expense

The fair value of RSUs is based on the closing market price on the date of the grant. The compensation expense related to RSUs is amortized ratably over the vesting period, or to the employee's retirement eligible date, if earlier.

During the years ended December 31, 2021, 2020 and 2019, compensation expense related to RSUs totaled \$32.5 million, \$26.2 million and \$24.8 million, respectively. In 2021, we recognized approximately \$6 million of compensation expense related to the accelerated vesting of RSUs previously granted to Donald W. Slager that were previously scheduled to vest in 2022 and beyond as a result of his retirement as Chief Executive Officer (CEO) of Republic Services, Inc. in June 2021. As of December 31, 2021, total unrecognized compensation expense related to outstanding RSUs was \$32.5 million, which will be recognized over a weighted average period of 2.6 years.

REPUBLIC SERVICES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Performance Shares

The following table summarizes performance stock unit (PSU) activity for the years ended December 31, 2021, 2020 and 2019:

	Number of PSUs (in thousands)	Weighted Average Grant Date Fair Value per Share
Outstanding as of December 31, 2018	999.7	\$ 55.77
Granted	356.1	\$ 71.22
Vested and issued	(407.3)	\$ 47.11
Forfeited	(29.3)	\$ 67.77
Outstanding as of December 31, 2019	919.2	\$ 65.92
Granted	247.0	\$ 98.01
Vested and issued	(285.0)	\$ 61.22
Forfeited	(27.6)	\$ 88.29
Outstanding as of December 31, 2020	853.6	\$ 76.14
Granted	313.1	\$ 91.01
Vested and issued	(287.0)	\$ 65.35
Forfeited	(22.4)	\$ 91.20
Outstanding and Exercisable as of December 31, 2021	857.3	\$ 84.79

During the years ended December 31, 2021, 2020 and 2019, we awarded 181,322, 127,278 and 166,179 PSUs to our executive officers, respectively. These awards are performance-based as the number of shares ultimately earned depends on performance against pre-determined targets for return on invested capital (ROIC), cash flow value creation (CFVC), and total shareholder return relative to the S&P 500 index (RTSR). The PSUs are payable 50% in shares of common stock and 50% in cash after the end of a three-year performance period, when our financial performance for the entire performance period is reported, typically in February of the succeeding year. At the end of the performance period, the number of PSUs awarded can range from 0% to 150% of the targeted amount, depending on the performance against the pre-determined targets.

During the years ended December 31, 2021, 2020 and 2019, we awarded 118,168, 102,994, and 172,341 PSUs to our employees other than our executive officers, respectively. The PSUs are payable 100% in shares of common stock after the end of a three-year performance period, when our financial performance for the entire performance period is reported, typically in February of the succeeding year. At the end of the performance period, the number of PSUs awarded can range from 0% to 150% of the targeted amount, depending on the performance against the pre-determined targets.

During the years ended December 31, 2021, 2020 and 2019, we granted an additional 13,586, 16,760, and 17,612 PSUs, respectively, as dividend equivalents.

The PSUs do not carry any voting or dividend rights, except the right to accumulate additional PSUs in lieu of dividends.

Compensation Expense

For the stock-settled portion of the award that vests based on future ROIC and CFVC performance, compensation expense is measured using the fair value of our common stock at the grant date. For the cash-settled portion of the award that vests based on future ROIC and CFVC performance, compensation expense is recorded based on the fair value of our common stock at the end of each reporting period. Compensation expense is recognized ratably over the performance period based on our estimated achievement of the established performance criteria. Compensation expense is only recognized for the portion of the award that we expect to vest, which we estimate based on an assessment of the probability that the performance criteria will be achieved.

For the stock-settled portion of the award that vests based on RTSR, the grant date fair value is based on a Monte Carlo valuation and compensation expense is recognized on a straight-line basis over the vesting period. For the cash-settled portion of the award that vests based on RTSR, compensation expense also incorporates the fair value of our PSUs at the end of each reporting period. Compensation expense is recognized for the RTSR portion of the award whether or not the market conditions are achieved.

During the years ended December 31, 2021, 2020 and 2019, compensation expense related to PSUs totaled \$47.1 million, \$17.2 million, and \$22.5 million, respectively. In 2021, we recognized approximately \$16 million of compensation expense related to the accelerated vesting of PSUs previously granted to Mr. Slager that were previously scheduled to vest in 2022 and beyond as a result of his retirement in June 2021. As of December 31, 2021, total unrecognized compensation expense related to outstanding PSUs was \$22.5 million, which will be recognized over a weighted average period of 1.0 years.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Defined Benefit Pension Plan

We currently have one qualified defined benefit pension plan, the BFI Retirement Plan (the Plan). The Plan covers certain employees in the United States, including some employees subject to collective bargaining agreements.

The Plan benefits are frozen. Interest credits continue to be earned by participants in the Plan, and participants whose collective bargaining agreements provide for additional benefit accruals under the Plan continue to receive those credits in accordance with the terms of their bargaining agreements. The Plan was converted from a traditional defined benefit plan to a cash balance plan in 1993.

Prior to the conversion to the cash balance design, benefits payable as a single life annuity under the Plan were based on the participant's highest five years of earnings out of the last ten years of service. Upon conversion to the cash balance plan, the existing accrued benefits were converted to a lump-sum value using the actuarial assumptions in effect at the time. Participants' cash balance accounts are increased until retirement by certain benefit and interest credits under the terms of their bargaining agreements. Participants may elect early retirement with the attainment of age 55 and completion of ten years of credited service at reduced benefits. Participants with 35 years of service may retire at age 62 without any reduction in benefits.

Our pension contributions are made in accordance with funding standards established by the Employee Retirement Income Security Act of 1974 and the Internal Revenue Code, as amended by the Pension Protection Act enacted in 2006 (the PPA). No contributions were made in 2021 or 2020.

We must separately recognize the overfunded or underfunded status of the Plan as an asset or liability. The funded status represents the difference between the projected benefit obligation (PBO) and the fair value of the Plan assets. The PBO is equal to the accumulated benefit obligation (ABO) as the Plan is frozen, and the present value of liabilities is not affected by future salary increases. We use a measurement date that coincides with our year end of December 31.

The following table presents the ABO and reconciliations of the changes in the PBO, the Plan assets and the accounting funded status of our defined benefit pension plan for the years ended December 31:

	Defined Benefit Pension Plan	
	2021	2020
Accumulated benefit obligation	\$ 215.1	\$ 219.2
Change in projected benefit obligation:		
Projected benefit obligation at beginning of year	\$ 219.2	\$ 218.0
Interest cost	4.7	6.4
Actuarial loss	6.7	11.3
Benefits paid	(15.5)	(16.5)
Projected benefit obligation at end of year	\$ 215.1	\$ 219.2
Change in plan assets:		
Fair value of plan assets at beginning of year	\$ 232.5	\$ 226.6
Actual return on plan assets	6.3	24.5
Estimated expenses	(1.5)	(2.1)
Benefits paid	(15.5)	(16.5)
Fair value of plan assets at end of year	\$ 221.8	\$ 232.5
Over funded status	\$ 6.7	\$ 13.3
Amounts recognized in the statement of financial position consist of:		
Noncurrent assets	\$ 6.7	\$ 13.3
Net amount recognized	\$ 6.7	\$ 13.3
Weighted average assumptions used to determine benefit obligations:		
Discount rate	2.77%	2.24%
Rate of compensation increase	N/A	N/A

The amounts included in accumulated other comprehensive income on the consolidated balance sheets that have not yet been recognized as components of net periodic benefit cost as of December 31, 2021 and 2020 were \$14.5 million and \$23.7 million, respectively.

REPUBLIC SERVICES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The components of the net periodic benefit cost for the years ended December 31 are summarized below:

	2021	2020	2019
Components of net periodic benefit cost:			
Interest cost	\$ 4.7	\$ 6.4	\$ 8.9
Expected return on plan assets	(6.0)	(8.0)	(9.7)
Recognized net actuarial (gain)	—	(0.1)	(0.1)
Amortization of prior service cost		0.1	0.1
Net periodic benefit (income)	\$ (1.3)	\$ (1.6)	\$ (0.8)
Weighted average assumptions used to determine net periodic benefit cost:			
Discount rate	2.77 %	2.24 %	4.21 %
Expected return on plan assets	4.10 %	3.45 %	5.20 %
Rate of compensation increase	N/A	N/A	N/A

We determine the discount rate used in the measurement of our obligations based on a model that matches the timing and amount of expected benefit payments to maturities of high quality bonds priced as of the Plan measurement date. When that timing does not correspond to a published high-quality bond rate, our model uses an expected yield curve to determine an appropriate current discount rate. The yields on the bonds are used to derive a discount rate for the liability. The term of our obligation, based on the expected retirement dates of our workforce, is approximately seven years.

In developing our expected rate of return assumption, we have evaluated the actual historical performance and long-term return projections of the Plan assets, which give consideration to the asset mix and the anticipated timing of the Plan outflows. We employ a total return investment approach whereby a mix of equity and fixed income investments are used to maximize the long-term return of Plan assets for what we consider a prudent level of risk. The intent of this strategy is to minimize Plan expenses by outperforming Plan liabilities over the long run. Risk tolerance is established through careful consideration of Plan liabilities, Plan funded status and our financial condition. The investment portfolio contains a diversified blend of equity and fixed income investments. Furthermore, equity investments are diversified across U.S. and non-U.S. stocks as well as growth, value, and small and large capitalizations. Derivatives may be used to gain market exposure in an efficient and timely manner; however, derivatives may not be used to leverage the portfolio beyond the market value of the underlying investments. Investment risk is measured and monitored on an ongoing basis through annual liability measurements, periodic asset and liability studies, and quarterly investment portfolio reviews.

The following table summarizes our target asset allocation as of December 31, 2021 and the actual asset allocation as of December 31, 2021 and 2020 for our Plan:

	December 31, 2021 Target Asset Allocation	December 31, 2021 Actual Asset Allocation	December 31, 2020 Actual Asset Allocation
Debt securities	82 %	82 %	81 %
Equity securities	18	18	19
Total	100 %	100 %	100 %

Asset allocations are reviewed and rebalanced periodically based on funded status. For 2022, the investment strategy for Plan assets is to maintain a broadly diversified portfolio designed to achieve our target of an average long-term rate of return of 4.10%. While we believe we can achieve a long-term average return of 4.10%, we cannot be certain that the portfolio will perform to our expectations. Assets are strategically allocated among debt and equity portfolios to achieve a diversification level that reduces fluctuations in investment returns. Asset allocation target ranges and strategies are reviewed periodically with the assistance of an independent external consulting firm.

REPUBLIC SERVICES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The Plan assets are measured at fair value. The following table summarizes, by level, within the fair value hierarchy, the investments of the Plan at fair value as of December 31, 2021 and 2020:

	December 31, 2021	Fair Value Measurements Using		
		Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Money market accounts	\$ 5.0	\$ 5.0	\$ —	\$ —
Mutual funds	216.8	—	216.8	—
Total assets	\$ 221.8	\$ 5.0	\$ 216.8	\$ —

	December 31, 2020	Fair Value Measurements Using		
		Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Money market accounts	\$ 4.8	\$ 4.8	\$ —	\$ —
Mutual funds	227.7	—	227.7	—
Total assets	\$ 232.5	\$ 4.8	\$ 227.7	\$ —

Estimated future benefit payments for the next ten years under the Plan follow:

2022	\$ 16.5
2023	\$ 15.7
2024	\$ 15.4
2025	\$ 14.9
2026	\$ 14.7
2027 through 2031	\$ 62.6

Collective Bargaining Agreements

As of December 31, 2021, approximately 24% of our workforce was covered by collective bargaining agreements (CBAs), and approximately 6% of our workforce was covered by CBAs that will expire during 2022.

Multiemployer Pension Plans

We participate in multiemployer pension plans that generally provide retirement benefits to participants of contributing employers. We do not administer these plans. In general, these plans are managed by a board of trustees with the unions appointing certain trustees and other contributing employers of the plan appointing certain members. We generally are not represented on the board of trustees.

Based on the information available to us, we believe that some of the multiemployer plans to which we contribute are either critical or endangered as those terms are defined in the Pension Protection Act (PPA). The PPA requires underfunded pension plans to improve their funding ratios within prescribed intervals based on the level of their underfunding. Until the plan trustees develop the funding improvement plans or rehabilitation plans as required by the PPA, we cannot determine the amount of any additional contribution or other financial obligations that we may be subject to, if any. Accordingly, we cannot presently determine the effect that the PPA may have on our consolidated financial position, results of operations or cash flows.

Furthermore, under current law regarding multiemployer benefit plans, a plan's termination, our voluntary withdrawal (which we consider from time to time), or the mass withdrawal from any under-funded multiemployer pension plan would require us to make payments to the plan for our proportionate share of the multiemployer plan's unfunded vested liabilities. During the course of operating our business, we may incur withdrawal events regarding certain of the multiemployer pension plans in which we participate. We accrue for such events when losses become probable and reasonably estimable.

In June 2020, we entered into an agreement with a certain multiemployer pension fund through which we transitioned from one plan into another plan managed by the same fund, thus creating a withdrawal event from the original plan. As a result of the

REPUBLIC SERVICES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

withdrawal event, we recognized \$31.6 million of withdrawal costs, which we paid in July 2020. There were no such withdrawal events in 2021.

Republic's participation in individually significant multiemployer pension plans for the year ended December 31, 2021 is outlined in the table below. Only with respect to multiemployer pension plans, we considered contributions in excess of \$3.5 million in any period disclosed to be individually significant. The most recent PPA zone status available in 2021 and 2020 is for the plans' year ended September 30, or December 31, 2020 and 2019, respectively. The status is based on information that Republic received from the plans and is certified by the plans' actuary. Among other factors, plans in the critical red zone are generally less than 65% funded, plans in the endangered yellow zone are less than 80% funded, and plans in the safe green zone are at least 80% funded. Plans in the critical and declining zone are classified as critical and projected to be insolvent in the current year or any of the 14 following plan years. The last column lists the expiration dates of the CBAs to which the plans are subject.

Legal Plan Name	EIN	Pension Protection Act Zone Status		Funding Improvement or Rehabilitation Plan Status Pending / Implemented	Republic Contributions to Plan			Surcharge Imposed	Expiration Dates of CBAs
		2020	2019		2021	2020	2019		
Western Conference of Teamsters Pension Plan	91-6145047	Safe	Safe	No	\$ 52.2	\$ 49.4	\$ 45.1	No	Various dates through 9/30/26
Local No. 731 I.B. of T. Pension Fund	36-6513567	Safe	Safe	No	8.7	8.8	9.3	No	Various dates through 1/31/24
Individually significant plans					60.9	58.2	54.4		
All other plans	N/A	N/A	N/A	N/A	15.5	15.0	17.7	N/A	
Total					\$ 76.4	\$ 73.2	\$ 72.1		

We are listed in the Form 5500 for Local No. 731, I.B. of T. Pension Fund as providing more than 5% of the total contributions. At the date these financial statements were issued, Forms 5500 were not available for the plan years ended in 2021.

The COVID-19 pandemic has created significant volatility and disruption of financial markets, which has negatively impacted companies across the globe. We will continue to monitor the Pension Protection Act zone status of the multiemployer pension plans in which we participate, noting that the current economic environment may impact certain contributing employers' ability to fulfill their obligations under the plans. We believe the largest risk is attributable to plans in the critical red zone. In the event other contributing employers default on their obligations under the plans, we could be required to adjust our estimates for these matters, which could have a material and adverse effect on our consolidated financial position, results of operations and cash flows.

Defined Contribution Plan

We maintain the Republic Services 401(k) Plan (the 401(k) Plan), which is a defined contribution plan covering all eligible employees. Under the 401(k) Plan, participants may direct us to defer a portion of their compensation to the 401(k) Plan, subject to Internal Revenue Code limitations. We provide for an employer matching contribution equal to 100% of the first 3.0% of eligible compensation and 50.0% of the next 2.0% of eligible compensation contributed by each employee, which is funded in cash. All contributions vest immediately.

Total expense recorded for matching 401(k) contributions in 2021, 2020 and 2019 was \$62.4 million, \$59.3 million and \$55.7 million, respectively.

Deferred Compensation Plan

We provide eligible Republic employees, officers and directors with the opportunity to voluntarily defer base salary, bonus payments, long-term incentive awards and other compensation, as applicable, on a pre-tax basis through the Republic Services, Inc. Deferred Compensation Plan (the DCP). The DCP is a nonqualified deferred compensation plan that conforms to Section 409A of the Internal Revenue Code. Eligible participants can defer up to 80% of base salary and up to 100% of bonus, long-term compensation and directors' fees. Under the DCP, some participants also are eligible for matching contributions. The matching contribution under the DCP is equal to the lesser of 2% of the participant's compensation over established 401(k) limits or 50% of the amount the participant has deferred. The DCP participants have no ownership or security interest in any of the amounts deferred or the measurement funds under the DCP. The right of each participant in the DCP is solely that of a general, unsecured creditor of Republic with respect to his or her own interest under the DCP. Deferred amounts may be subject

REPUBLIC SERVICES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

to forfeiture and are deemed invested among investment funds offered under the DCP, as directed by each participant. Payments of deferred amounts are payable following separation from service or at a date or dates elected by the participant when the deferral is elected. Payments of deferred amounts are made in either a lump sum or in annual installments over a period not exceeding 15 years.

Republic invested in corporate-owned life insurance policies to satisfy future obligations under the DCP. These corporate-owned life insurance policies are held in a Rabbi Trust and are recorded at the amount that can be realized under insurance contracts at the balance sheet date, which is the cash surrender value adjusted for other charges or other amounts due that are probable at settlement. The aggregate cash surrender value of these life insurance policies was \$133.5 million and \$131.8 million as of December 31, 2021 and 2020, respectively, and is classified in other assets in our consolidated balance sheets. The DCP liability was \$119.4 million and \$126.6 million as of December 31, 2021 and 2020, respectively, and is classified in other long-term liabilities in our consolidated balance sheets.

Employee Stock Purchase Plan

Republic employees are eligible to participate in an employee stock purchase plan. The plan allows participants to purchase our common stock for 95% of its quoted market price on the last day of each calendar quarter. For the years ended December 31, 2021, 2020 and 2019, issuances under this plan totaled 104,217 shares, 116,865 shares and 107,522 shares, respectively. As of December 31, 2021, shares reserved for issuance to employees under this plan totaled 2.6 million and Republic held employee contributions of \$2.7 million for the purchase of common stock.

13. SHARE REPURCHASES AND DIVIDENDS

Share Repurchases

Share repurchase activity during the years ended December 31, 2021 and 2020 follows (in millions except per share amounts):

	2021	2020
Number of shares repurchased	2.2	1.2
Amount paid	\$ 252.2	\$ 98.8
Weighted average cost per share	\$ 116.09	\$ 85.06

As of December 31, 2021 and 2020 there were no repurchased shares pending settlement.

In October 2017, our Board of Directors added \$2.0 billion to the existing share repurchase authorization, which continued through December 31, 2020. In October 2020, our Board of Directors approved a \$2.0 billion share repurchase authorization effective starting January 1, 2021 and extending through December 31, 2023. Share repurchases under the current program may be made through open market purchases or privately negotiated transactions in accordance with applicable federal securities laws. While the Board of Directors has approved the program, the timing of any purchases, the prices and the number of shares of common stock to be purchased will be determined by our management, at its discretion, and will depend upon market conditions and other factors. The share repurchase program may be extended, suspended or discontinued at any time. As of December 31, 2021, the remaining authorized purchase capacity under our October 2020 repurchase program was \$1.7 billion. On a quarterly basis, our Board of Directors reviews the intrinsic value of our stock and the parameters around which we repurchase our shares.

In December 2020, our board of directors changed the status of 35,789,806 treasury shares to authorized and unissued. In doing so, the number of our issued shares was reduced by the stated amount. Our accounting policy is to deduct the par value from common stock and to reflect the excess of cost over par value as a deduction from additional paid-in capital. The reduction in issued shares resulted in a change of \$2,316.0 million in treasury stock which was reclassified as \$0.3 million in common stock, and \$2,315.7 million in additional paid-in capital. There was no effect on our total stockholders' equity position as a result of the change.

Dividends

In October 2021, our Board of Directors approved a quarterly dividend of \$0.46 per share. Aggregate cash dividends declared were \$563.0 million, \$528.8 million and \$499.4 million for the years ended December 31, 2021, 2020 and 2019, respectively. As of December 31, 2021, we recorded a quarterly dividend payable of \$145.9 million to shareholders of record at the close of business on January 3, 2021.

REPUBLIC SERVICES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

14. EARNINGS PER SHARE

Basic earnings per share is computed by dividing net income attributable to Republic Services, Inc. by the weighted average number of common shares (including vested but unissued RSUs and PSUs) outstanding during the period. Diluted earnings per share is based on the combined weighted average number of common shares and common share equivalents outstanding, which include, where appropriate, the assumed exercise of employee stock options, unvested RSUs and unvested PSUs at the expected attainment levels. We use the treasury stock method in computing diluted earnings per share.

Earnings per share for the years ended December 31, 2021, 2020, and 2019 are calculated as follows (in thousands, except per share amounts):

	2021	2020	2019
Basic earnings per share:			
Net income attributable to Republic Services, Inc.	\$ 1,290,405	\$ 967,237	\$ 1,073,286
Weighted average common shares outstanding	318,811	319,282	321,058
Basic earnings per share	\$ 4.05	\$ 3.03	\$ 3.34
Diluted earnings per share:			
Net income attributable to Republic Services, Inc.	\$ 1,290,405	\$ 967,237	\$ 1,073,286
Weighted average common shares outstanding	318,811	319,282	321,058
Effect of dilutive securities:			
Options to purchase common stock	—	52	247
Unvested RSU awards	266	175	254
Unvested PSU awards	348	327	431
Weighted average common and common equivalent shares outstanding	319,425	319,836	321,990
Diluted earnings per share	\$ 4.04	\$ 3.02	\$ 3.33

During each of the years ended December 31, 2021 and 2020, there were less than 0.1 million antidilutive securities outstanding. During the year ended December 31, 2019 there were no antidilutive securities outstanding.

REPUBLIC SERVICES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

15. SEGMENT REPORTING

Our senior management evaluates, oversees and manages the financial performance of our operations through three field groups, which are our operating segments, referred to as Group 1, Group 2, and Environmental Solutions. Group 1 primarily consists of geographic areas located in the western United States, and Group 2 primarily consists of geographic areas located in the southeastern and mid-western United States, and the eastern seaboard of the United States. Our Environmental Solutions operating segment, which provides environmental solutions for daily operations of industrial, petrochemical and refining facilities, is aggregated with Corporate entities and other as it only represents approximately 2% of our consolidated revenue. Each of our operating segments provides integrated environmental services, including collection, transfer, recycling, and disposal.

Summarized financial information concerning our reportable segments for the years ended December 31, 2021, 2020 and 2019 follows:

	Gross Revenue	Intercompany Revenue	Net Revenue	Depreciation, Amortization, Depletion and Accretion	Operating Income (Loss)	Capital Expenditures	Total Assets
2021:							
Group 1	\$ 6,630.0	\$ (1,071.1)	\$ 5,558.9	\$ 548.1	\$ 1,495.7	\$ 601.9	\$ 12,199.2
Group 2	6,240.4	(906.8)	5,333.6	541.3	1,135.7	541.8	9,926.9
Corporate entities and other	451.4	(48.9)	402.5	178.8	(555.2)	172.6	2,828.9
Total	\$ 13,321.8	\$ (2,026.8)	\$ 11,295.0	\$ 1,268.2	\$ 2,076.2	\$ 1,316.3	\$ 24,955.0
2020:							
Group 1	\$ 6,059.3	\$ (1,001.8)	\$ 5,057.5	\$ 502.1	\$ 1,343.3	\$ 546.6	\$ 11,593.1
Group 2	5,626.4	(834.5)	4,791.9	488.9	966.8	465.8	9,005.3
Corporate entities and other	346.0	(41.8)	304.2	167.8	(601.0)	182.2	2,835.6
Total	\$ 12,031.7	\$ (1,878.1)	\$ 10,153.6	\$ 1,158.8	\$ 1,709.1	\$ 1,194.6	\$ 23,434.0
2019:							
Group 1	\$ 6,012.5	\$ (1,010.6)	\$ 5,001.9	\$ 493.7	\$ 1,231.7	\$ 551.3	\$ 11,389.1
Group 2	5,782.1	(838.2)	4,943.9	475.0	926.6	490.9	8,944.5
Corporate entities and other	398.4	(44.8)	353.6	153.7	(371.1)	164.9	2,350.2
Total	\$ 12,193.0	\$ (1,893.6)	\$ 10,299.4	\$ 1,122.4	\$ 1,787.2	\$ 1,207.1	\$ 22,683.8

Financial information for the years ended December 31, 2020 and 2019 reflects the transfer of our Environmental Solutions operating segment from Group 2 to Corporate entities and other, to align with how our chief operating decision maker began evaluating our operations in December 2020.

Intercompany revenue reflects transactions within and between segments that generally are made on a basis intended to reflect the market value of such services. Capital expenditures for Corporate entities and other primarily include vehicle inventory acquired but not yet assigned to operating locations and facilities. Corporate functions include legal, tax, treasury, information technology, risk management, human resources, closed landfills, other administrative functions, and environmental solutions.

REPUBLIC SERVICES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

16. REVENUE

Our operations primarily consist of providing environmental services. The following table disaggregates our revenue by service line for the years ended December 31 (in millions of dollars and as a percentage of revenue):

	2021		2020		2019	
Collection:						
Residential	\$ 2,452.8	21.7 %	\$ 2,309.0	22.7 %	\$ 2,271.9	22.1 %
Small-container	3,417.7	30.3	3,106.8	30.6	3,170.0	30.8
Large-container	2,378.4	21.1	2,148.9	21.2	2,249.6	21.8
Other	59.6	0.5	51.5	0.5	46.1	0.4
Total collection	8,308.5	73.6	7,616.2	75.0	7,737.6	75.1
Transfer	1,490.0		1,349.4		1,318.7	
Less: intercompany	(814.4)		(745.9)		(748.1)	
Transfer, net	675.6	6.0	603.5	5.9	570.6	5.5
Landfill	2,506.7		2,298.1		2,324.2	
Less: intercompany	(1,092.8)		(1,018.5)		(1,024.1)	
Landfill, net	1,413.9	12.5	1,279.6	12.6	1,300.1	12.6
Environmental solutions	202.5	1.8	127.7	1.3	191.7	1.9
Other:						
Recycling processing and commodity sales	420.5	3.7	297.1	2.9	273.3	2.7
Other non-core	274.0	2.4	229.5	2.3	226.1	2.2
Total other	694.5	6.1	526.6	5.2	499.4	4.9
Total revenue	\$ 11,295.0	100.0 %	\$ 10,153.6	100.0 %	\$ 10,299.4	100.0 %

Other non-core revenue consists primarily of revenue from National Accounts, which represents the portion of revenue generated from nationwide or regional contracts in markets outside our operating areas where the associated material handling is subcontracted to local operators. Consequently, substantially all of this revenue is offset with related subcontract costs, which are recorded in cost of operations.

The factors that impact the timing and amount of revenue recognized for each service line may vary based on the nature of the service performed. Generally, we recognize revenue at the time we perform a service. In the event that we bill for services in advance of performance, we recognize deferred revenue for the amount billed and subsequently recognize revenue at the time the service is provided. Depending upon the nature of the contract, we may also generate revenue through the collection of fuel recovery fees and environmental fees which are designed to recover our internal costs of providing services to our customers.

See Note 15, *Segment Reporting*, for additional information regarding revenue by reportable segment.

Revenue by Service Line

Collection Services

Our collection business involves the collection of material for transport to transfer stations, or directly to landfills or recycling processing centers. Our collection services business includes both recurring and temporary customer relationships. Our standard contract duration is three years, although some of our exclusive franchises are for significantly longer periods. The fees received for collection services are based primarily on the market, collection frequency, type of service, type and volume or weight of the material collected, the distance to the disposal facility and the cost of disposal.

In general, small-container and residential collection fees are billed monthly or quarterly in advance. Substantially all of the deferred revenue recognized as of December 31, 2020 was recognized as revenue during the year ended December 31, 2021 when the service was performed. Our large-container customers are typically billed on a monthly basis based on the nature of the services provided during the period.

Revenue recognized under these agreements is variable in nature based on the number of residential homes or businesses serviced during the period, the frequency of collection and the volume of material collected. In addition, certain of our contracts have annual price escalation clauses that are tied to changes in an underlying base index such as a consumer price index which are unknown at contract inception.

REPUBLIC SERVICES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Transfer Services

Revenue at our transfer stations is primarily generated by charging tipping or disposal fees. The fees received for transfer services are based primarily on the market, type and volume or weight of the material accepted, the distance to the disposal facility and the cost of disposal. In general, fees are billed and revenue is recognized at the time the service is performed. Revenue recognized under these agreements is variable in nature based on the volume and nature of the material accepted at the transfer station.

Landfill Services

Revenue at our landfills is primarily generated by charging tipping fees to third parties based on the volume disposed and the nature of the waste. In general, fees are variable in nature and revenue is recognized at the time the waste is disposed at the facility.

Environmental Solutions

Environmental solutions revenue is primarily generated from the fees we charge for the disposal of hazardous and non-hazardous solid and liquid material and in-plant services, such as transportation and logistics, including at our transfer, storage and disposal facilities (TSDF). Activity for this service line varies across markets and reflects the regulatory environment, pricing and disposal alternatives available in any given market. Revenue recognized under these agreements is variable in nature and primarily based on the volume of waste accepted or processed during the period.

Recycling Processing and Commodity Sales

Our recycling processing centers generate revenue through the processing and sale of old corrugated cardboard (OCC), old newsprint (ONP), aluminum, glass and other materials at market prices. In certain instances, we issue recycling rebates to our municipal or large-container customers, which can be based on the price we receive upon the final sale of recycled commodities, a fixed contractual rate or other measures. We also receive rebates when we dispose of recycled commodities at third-party facilities. The fees received are based primarily on the market, type and volume or weight of the materials sold. In general, fees are billed and revenue is recognized at the time title is transferred. Revenue recognized under these agreements is variable in nature based on the volume and type of materials sold. In addition, the amount of revenue recognized is based on commodity prices at the time of sale, which are unknown at contract inception.

Revenue Recognition

Our service obligations of a long-term nature, e.g., certain collection service contracts, are satisfied over time, and we recognize revenue based on the value provided to the customer during the period. The amount billed to the customer is based on variable elements such as the number of residential homes or businesses for which collection services are provided, the volume of material collected, transported and disposed, and the nature of the material accepted. We do not disclose the value of unsatisfied performance obligations for these contracts as our right to consideration corresponds directly to the value provided to the customer for services completed to date and all future variable consideration is allocated to wholly unsatisfied performance obligations.

Additionally, certain elements of our long-term customer contracts are unknown upon entering into the contract, including the amount that will be billed in accordance with annual price escalation clauses, our fuel recovery fee program and commodity prices. The amount to be billed is often tied to changes in an underlying base index such as a consumer price index or a fuel or commodity index, and revenue can be recognized once the index is established for the period.

Deferred Contract Costs

We incur certain upfront payments to acquire customer contracts which are recognized as other assets in our consolidated balance sheet, and we amortize the asset over the respective contract life. In addition, we recognize sales commissions that represent an incremental cost of the contract as other assets in our consolidated balance sheet, and we amortize the asset over the average life of the customer relationship. As of December 31, 2021 and 2020, we recognized \$80.6 million and \$82.3 million, respectively, of deferred contract costs and capitalized sales commissions. During the years ended December 31, 2021 and 2020, we amortized \$12.5 million and \$12.2 million, respectively, of capitalized sales commissions to selling, general and administrative expenses, and \$6.4 million and \$6.5 million, respectively, of other deferred contract costs as a reduction of revenue.

REPUBLIC SERVICES, INC.

The effects of derivative instruments not in Subtopic 815-20:			
Loss on free-standing derivative instruments:			
Interest rate swaps:			
Loss on change in fair value of free-standing derivative instruments	\$ (4.4)	\$ (0.1)	\$ —
Interest rate contract:			
Net loss on change in fair value of free-standing derivative instruments	\$ (0.3)	\$ (2.7)	\$ (0.5)

Fair Value Measurements

In measuring fair values of assets and liabilities, we use valuation techniques that maximize the use of observable inputs (Level 1) and minimize the use of unobservable inputs (Level 3). We also use market data or assumptions that we believe market participants would use in pricing an asset or liability, including assumptions about risk when appropriate.

The carrying value for certain of our financial instruments, including cash, accounts receivable, accounts payable and certain other accrued liabilities, approximates fair value because of their short-term nature.

REPUBLIC SERVICES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

As of December 31, 2021 and 2020, our assets and liabilities that are measured at fair value on a recurring basis include the following:

	December 31, 2021				
	Carrying Amount	Total	Fair Value		
			Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Total Debt

As of December 31, 2021 and 2020, the carrying value of our total debt was \$9.6 billion and \$8.9 billion, respectively, and the fair value of our total debt was \$10.3 billion and \$10.0 billion, respectively. The estimated fair value of our fixed rate senior notes and debentures is based on quoted market prices. The fair value of our remaining notes payable, tax-exempt financings and borrowings under our credit facilities approximates the carrying value because the interest rates are variable. The fair value estimates are based on Level 2 inputs of the fair value hierarchy as of December 31, 2021 and 2020. See Note 9, *Debt*, for further information related to our debt.

Contingent Consideration

In April 2015, we entered into a waste management contract with the County of Sonoma, California to operate the county's waste management facilities. As of December 31, 2021, the Sonoma contingent consideration represents the fair value of \$62.3 million payable to the County of Sonoma based on the achievement of future annual tonnage targets through the expected remaining capacity of the landfill. The potential undiscounted amount of all future contingent payments that we could be

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

required to make under the waste management contract is estimated to be between approximately \$77 million and \$95 million. During 2021, the activity in the contingent consideration liability included accretion, which was offset by concession payments made in the ordinary course of business. There were no changes to the estimate of fair value.

19. COMMITMENTS AND CONTINGENCIES**Legal Proceedings**

We are subject to extensive and evolving laws and regulations and have implemented safeguards to respond to regulatory requirements. In the normal course of our business, we become involved in legal proceedings. Some may result in fines, penalties or judgments against us, or settlements, which may impact earnings and cash flows for a particular period. Although we cannot predict the ultimate outcome of any legal matter with certainty, we do not believe the outcome of any of our pending legal proceedings will have a material adverse impact on our consolidated financial position, results of operations or cash flows.

As used herein, the term *legal proceedings* refers to litigation and similar claims against us and our subsidiaries, excluding: (1) ordinary course accidents, general commercial liability and workers' compensation claims, which are covered by insurance programs, subject to customary deductibles, and which, together with insured employee health care costs, are discussed in Note 7, *Other Liabilities*; and (2) environmental remediation liabilities, which are discussed in Note 8, *Landfill and Environmental Costs*.

We accrue for legal proceedings when losses become probable and reasonably estimable. We have recorded an aggregate accrual of approximately \$11 million relating to our outstanding legal proceedings as of December 31, 2021. As of the end of each applicable reporting period, we review each of our legal proceedings and, where it is probable that a liability has been incurred, we accrue for all probable and reasonably estimable losses. Where we can reasonably estimate a range of losses we may incur regarding such a matter, we record an accrual for the amount within the range that constitutes our best estimate. If we can reasonably estimate a range but no amount within the range appears to be a better estimate than any other, we use the amount that is the low end of such range. If we had used the high ends of such ranges, our aggregate potential liability would be approximately \$3 million higher than the amount recorded as of December 31, 2021.

Unconditional Purchase Commitments**Royalties**

We have entered into agreements to pay royalties to prior landowners or host communities, based on, among other things, revenue received and waste tonnage disposed at specified landfills. These royalties are generally payable quarterly and amounts incurred, but not paid, are accrued in our consolidated balance sheets. Royalties are accrued as revenue is received or tonnage is disposed of, as applicable, in the landfills.

Disposal Agreements

We have several agreements that require us to dispose of a minimum number of tons at third-party disposal facilities. Under these put-or-pay agreements, we must pay for agreed-upon minimum volumes regardless of the actual number of tons placed at the facilities.

Our unconditional purchase commitments have varying expiration dates, with some extending through the remaining life of the respective landfill. Future minimum payments under unconditional purchase commitments, consisting primarily of (1) disposal related agreements, which include fixed or minimum royalty payments, host agreements, and take-or-pay and put-or-pay agreements, and (2) other obligations including committed capital expenditures and consulting service agreements as of December 31, 2021 are as follows:

2022	\$	142.6
2023		107.3
2024		81.8
2025		58.1
2026		34.8
Thereafter		347.7
	\$	<u>772.3</u>

REPUBLIC SERVICES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Cash and Cash Equivalents and Restricted Cash and Marketable Securities

Restricted cash and restricted cash equivalents are included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statements of cash flows. Beginning-of-period and end-of-period cash, cash equivalents, restricted cash and restricted cash equivalents as presented in the statements of cash flows are reconciled as follows:

	December 31, 2021	December 31, 2020	December 31, 2019
Cash and cash equivalents	\$ 29.0	\$ 38.2	\$ 47.1
Restricted cash and marketable securities	139.0	149.1	179.4
Less: restricted marketable securities	(62.4)	(73.1)	(49.1)
Cash, cash equivalents, restricted cash and restricted cash equivalents	\$ 105.6	\$ 114.2	\$ 177.4

Our restricted cash and marketable securities include, among other things, restricted cash related to proceeds from the issuance of tax-exempt bonds that will be used to fund qualifying landfill-related expenditures in the Commonwealth of Pennsylvania, restricted cash and marketable securities pledged to regulatory agencies and governmental entities as financial guarantees of our performance under certain collection, landfill and transfer station contracts and permits, and relating to our final capping, closure and post-closure obligations at our landfills, and restricted cash and marketable securities related to our insurance obligations.

The following table summarizes our restricted cash and marketable securities as of December 31:

	2021	2020
Financing proceeds	\$ 12.4	\$
Capping, closure and post-closure obligations	42.4	31.5
Insurance	84.2	117.6
Total restricted cash and marketable securities	\$ 139.0	\$ 149.1

We must provide financial assurance to governmental agencies and a variety of other entities under applicable environmental regulations relating to our landfill operations for capping, closure and post-closure costs, and our performance under certain collection, landfill and transfer station contracts. We satisfy our financial assurance requirements by providing surety bonds, letters of credit, insurance policies or trust deposits. The amount of the financial assurance requirements for capping, closure and post-closure costs is determined by applicable state environmental regulations, which vary by state. The financial assurance requirements for capping, closure and post-closure costs can either be for costs associated with a portion of the landfill or the entire landfill. Generally, states will require a third-party engineering specialist to determine the estimated capping, closure and post-closure costs that are used to determine the required amount of financial assurance for a landfill. The amount of financial assurance required can, and generally will, differ from the obligation determined and recorded under U.S. GAAP. The amount of the financial assurance requirements related to contract performance varies by contract. Additionally, we are required to provide financial assurance for our insurance program and collateral for certain performance obligations.

We had the following financial instruments and collateral in place to secure our financial assurances as of December 31:

	2021	2020
Letters of credit	\$ 465.5	\$ 474.2
Surety bonds	\$ 3,950.2	\$ 3,580.7

We had \$341.9 million and \$376.5 million of letters of credit outstanding under our Credit Facility as of December 31, 2021 and 2020, respectively. Surety bonds subject to expiration will expire on various dates through 2029.

These financial instruments are issued in the normal course of business and are not classified as debt. Because we currently have no liability for this financial assurance, it is not reflected in our consolidated balance sheets. However, we have recorded capping, closure and post-closure obligations and insurance reserves as they are incurred.

We own a 19.9% interest in a company that, among other activities, issues financial surety bonds to secure capping, closure and post-closure obligations for companies operating in the environmental services industry. We account for this investment using an alternative measurement approach. There have been no identified events or changes in circumstances that may have a significant adverse effect on the recoverability of this investment. This investee company and the parent company of the investee had written surety bonds for us relating primarily to our landfill operations for capping, closure and post-closure, of

which \$1,435.3 million were outstanding as of December 31, 2021. Our reimbursement obligations under these bonds are secured by an indemnity agreement with the investee and a surety bond.

Off-Balance Sheet Arrangements

We have no off-balance sheet debt or similar obligations, other than short-term operating leases and financial assurances, which are not classified as debt. We have no transactions or obligations with related parties that are not disclosed, consolidated into or reflected in our reported financial position or results of operations. We have not guaranteed any third-party debt.

Guarantees

We enter into contracts in the normal course of business that include indemnification clauses. Indemnifications relating to known liabilities are recorded in the consolidated financial statements based on our best estimate of required future payments. Certain of these indemnifications relate to contingent events or occurrences, such as the imposition of additional taxes due to a change in the tax law or adverse interpretation of the tax law, and indemnifications made in divestiture agreements where we indemnify the buyer for liabilities that relate to our activities prior to the divestiture and that may become known in the future. We do not believe that these contingent obligations will have a material effect on our consolidated financial position, results of operations or cash flows.

We have entered into agreements with property owners to guarantee the value of property that is adjacent to certain of our landfills. These agreements have varying terms. We do not believe that these contingent obligations will have a material effect on our consolidated financial position, results of operations or cash flows.

Other Matters

Our business activities are conducted in the context of a developing and changing statutory and regulatory framework. Governmental regulation of the environmental services industry requires us to obtain and retain numerous governmental permits to conduct various aspects of our operations. These permits are subject to revocation, modification or denial. The costs and other capital expenditures that may be required to obtain or retain the applicable permits or comply with applicable regulations could be significant. Any revocation, modification or denial of permits could have a material adverse effect on us.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

REPORT OF MANAGEMENT ON REPUBLIC SERVICES, INC.'S INTERNAL CONTROL OVER FINANCIAL REPORTING

We, as members of management of Republic Services, Inc., are responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f). Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect transactions and dispositions of our assets; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of our assets that could have a material effect on the financial statements.

Because of its inherent limitations, our internal control systems and procedures may not prevent or detect misstatements. An internal control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. Also, projections of any evaluation of effectiveness to future periods are subject to the risks that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

We, under the supervision of and with the participation of our management, including the Chief Executive Officer, Chief Financial Officer and Chief Accounting Officer, assessed the effectiveness of our internal control over financial reporting as of December 31, 2021, based on criteria for effective internal control over financial reporting described in Internal Control — Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on

this assessment, we concluded that we maintained effective internal control over financial reporting as of December 31, 2021, based on the specified criteria.

Our internal control over financial reporting has been audited by Ernst & Young LLP, an independent registered public accounting firm, as stated in their attestation report which is included herein.

Disclosure Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e), and 15d-15(e)) as of the end of the period covered by this Annual Report. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this Annual Report.

Changes in Internal Control Over Financial Reporting

Based on an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, there has been no change in our internal control over financial reporting during the quarter ended December 31, 2021 identified in connection with that evaluation, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

In May 2021, we acquired all of the issued and outstanding equity interests of Santek Waste Services, LLC and, in August 2021, we acquired all of the issued and outstanding shares of ACV Enviro Corporation. As permitted by the SEC Staff interpretive guidance for newly acquired businesses, management's assessment of our internal control over financial reporting as of December 31, 2021 did not include an assessment of internal control over financial reporting as it relates to these acquisitions. We will continue the process of implementing internal controls over financial reporting for these acquired businesses. As of December 31, 2021, these businesses contributed less than 2% of revenue to our audited consolidated financial statements for the year ended December 31, 2021.

ITEM 9B. OTHER INFORMATION

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Information required by this item is incorporated by reference to the material appearing under the headings Proposal 1 - Election of Directors, Biographical Information Regarding Directors/Nominees, Board of Directors and Corporate Governance Matters, Delinquent Section 16(a) Reports, and Executive Officers in the Proxy Statement for the 2022 Annual Meeting of Shareholders.

ITEM 11. EXECUTIVE COMPENSATION

Information required by this item is incorporated by reference to the material appearing under the headings Executive Compensation and Director Compensation in the Proxy Statement for the 2022 Annual Meeting of Shareholders.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

Information required by this item is incorporated by reference to the material appearing under the headings Security Ownership of Five Percent Shareholders and Security Ownership of the Board of Directors and Management in the Proxy Statement for the 2022 Annual Meeting of Shareholders.

The following table sets forth certain information regarding equity compensation plans as of December 31, 2021 (number of securities in millions):

Plan Category	Number of Securities to be Issued Upon Exercise of Outstanding Options and Rights ^(b)	Weighted Average Exercise Price of Outstanding Options and Rights ^(c)	Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (excluding securities reflected in the first column) ^(d)
Equity compensation plans approved by security holders ^(a)	1.6	\$ 132.48	30.5
Equity compensation plans not approved by security holders	—	—	—
Total	1.6	\$ 132.48	30.5

- (a) Includes our 2006 Plan, Amended and Restated 2007 Stock Incentive Plan, our 2018 Employee Stock Purchase Plan (ESPP), and our 2021 Stock Incentive Plan.
- (b) Includes zero stock options as all were exercised in 2020, 1.1 million shares underlying restricted stock units, 0.5 million shares underlying performance shares, and less than 0.1 million shares underlying purchase rights that accrue under the ESPP.
- (c) Excludes restricted stock units and performance shares as these awards do not have exercise prices.
- (d) The shares remaining available for future issuances include 12.3 million shares under our 2021 Stock Incentive Plan and 2.6 million shares under our ESPP. No further awards will be granted under the Amended and Restated 2007 Stock Incentive Plan after December 31, 2020.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Information required by this item is incorporated by reference to the material appearing under the headings Board of Directors and Corporate Governance Matters and Certain Relationships and Related Party Transactions in the Proxy Statement for the 2022 Annual Meeting of Shareholders.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

Information required by this item is incorporated by reference to the material appearing under the heading Audit and Related Fees in the Proxy Statement for the 2022 Annual Meeting of Shareholders.

PART IV

ITEM 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES

(a) The following documents are filed as part of this report:

1. Financial Statements

Our consolidated financial statements are set forth under Part II, Item 8 of this Annual Report on Form 10-K.

2. Financial Statement Schedules

All schedules are omitted as the required information is not applicable or the information is presented in the consolidated financial statements and notes thereto in Part II, Item 8 of this Annual Report on Form 10-K.

3. Exhibits

The following exhibits are filed herewith or are incorporated by reference to exhibits previously filed with the SEC, as indicated in the description of each, File No. 1-14267 in the case of Republic and File No. 1-14705 and No. 0-19285 in the case of Allied, and File No. 1-06805 in the case of Browning-Ferris Industries, Inc.

<u>Exhibit Number</u>	<u>Description</u>
<u>3.1</u>	Amended and Restated Certificate of Incorporation (incorporated by reference to Exhibit 3.1 of the Company's Quarterly Report on Form 10-Q for the period ended June 30, 1998).

<u>4.13</u>	Third Supplemental Indenture, dated as of December 5, 2008, to the Restated Indenture dated as of September 1, 1991, by and among Allied Waste Industries, Inc., Allied Waste North America, Inc., Browning-Ferris Industries, L.L.C (successor to Browning-Ferris Industries, Inc.), BBCO, Inc., Republic Services, Inc., the guarantors party thereto and The Bank of New York Mellon Trust Company, N.A., as trustee (incorporated by reference to Exhibit 4.1 of the Company's Current Report on Form 8-K dated December 10, 2008).
<u>4.14</u>	Fourth Supplemental Indenture, dated as of March 11, 2015, to the Indenture, dated as of November 25, 2009, between Republic Services, Inc. and U.S. Bank National Association, as trustee, including the form of 3.20% Notes due 2025 (incorporated by reference to Exhibit 4.1 of the Company's Current Report on Form 8-K dated March 11, 2015).
<u>4.15</u>	Fifth Supplemental Indenture, dated as of July 5, 2016, to the Indenture, dated as of November 25, 2009, between Republic Services, Inc. and U.S. Bank National Association, as trustee, including the form of 2.900% Notes due 2026 (incorporated by reference to Exhibit 4.1 of the Company's Current Report on Form 8-K dated July 5, 2016).
<u>4.16</u>	Sixth Supplemental Indenture, dated as of November 16, 2017, between Republic Services, Inc. and U.S. Bank National Association, as trustee, including the form of 3.375% Notes due 2027 (incorporated by reference to Exhibit 4.1 of the Company's Current Report on Form 8-K dated November 15, 2017).
<u>4.17</u>	Form of Browning-Ferris Industries, Inc. 7.4% Debentures due 2035 (incorporated by reference to Exhibit 4 of Browning-Ferris Industries, Inc.'s Current Report on Form 8-K dated September 15, 1995).
<u>4.18</u>	Credit Agreement, dated as of June 8, 2018, by and among Republic Services, Inc., as Borrower, Bank of America, N.A., as Administrative Agent, Swing Line Lender and L/C Issuer, and the other lenders party thereto (incorporated by reference to Exhibit 4.1 of the Company's Current Report on Form 8-K dated June 11, 2018).
<u>4.19</u>	Amendment No.1, dated as of May 18, 2020, to Credit Agreement, dated as of June 8, 2018, by and among Republic Services, Inc., as Borrower, Bank of America, N.A., as Administrative Agent, Swing Line Lender and L/C Issuer, and the other lenders party thereto (incorporated by reference to Exhibit 4.1 of the Company's Current Report on Form 8-K dated May 21, 2020).
<u>4.20</u>	Amendment No. 2, dated as of July 14, 2020, to Credit Agreement, dated as of June 8, 2018, as amended, by and among Republic Services, Inc., as Borrower, Bank of America, N.A., as Administrative Agent, Swing Line Lender and L/C Issuer, and the other lenders party thereto (incorporated by reference to Exhibit 4.1 of the Company's Current Report on Form 8-K dated July 17, 2020).
<u>4.21</u>	Amendment No. 3, dated as of August 25, 2020, to Credit Agreement, dated as of June 8, 2018, as amended, by and among Republic Services, Inc., as Borrower, Bank of America, N.A., as Administrative Agent, Swing Line Lender and L/C Issuer, and the other lenders party thereto (incorporated by reference to Exhibit 4.2 of the Company's Current Report on Form 8-K dated August 27, 2020).
<u>4.22</u>	Credit Agreement, dated as of August 25, 2020, by and among Republic Services, Inc., as Borrower, Bank of America, N.A., as Administrative Agent, and the other lenders party thereto (incorporated by reference to Exhibit 4.1 of the Company's Current Report on Form 8-K dated August 27, 2020).
<u>4.23</u>	Seventh Supplemental Indenture, dated as of May 14, 2018, between Republic Services, Inc. and U.S. Bank National Association, as trustee, including the form of 3.950% Notes due 2028 (incorporated by reference to Exhibit 4.1 of the Company's Current Report on Form 8-K dated May 3, 2018).
<u>4.24</u>	Limited consent (2018 Credit Agreement), dated as of August 21, 2019, by and among Republic Services, Inc., as Borrower, Bank of America, N.A., as Administrative Agent, Swing Line Lender and an L/C Issuer, and the lenders party thereto (incorporated by reference to Exhibit 4.1 of the Company's Quarterly Report on Form 10-Q for the quarter ended September 30, 2019).
<u>4.25</u>	Description of Securities Registered Under Section 12 of the Securities Exchange Act of 1934 (incorporated by reference to Exhibit 4.23 of the Company's Annual Report on Form 10-K for the year ended December 31, 2019).

<u>Exhibit Number</u>	<u>Description</u>
<u>4.26</u>	Eighth Supplemental Indenture, dated as of August 7, 2019, between Republic Services, Inc. and U.S. Bank National Association, as trustee, including the form of 2.500% Notes due 2024 (incorporated by reference to Exhibit 4.1 of the Company's Current Report on Form 8-K dated August 1, 2019).
<u>4.27</u>	Ninth Supplemental Indenture, dated as of February 27, 2020, between Republic Services, Inc. and U.S. Bank National Association, as trustee, including the form of 2.300% Notes due 2030 and the form of 3.050% Notes due 2050 (incorporated by reference to Exhibit 4.1 of the Company's Current Report on Form 8-K dated February 21, 2020).
<u>4.28</u>	Tenth Supplemental Indenture, dated as of August 20, 2020, between Republic Services, Inc. and U.S. Bank National Association, as trustee, including the form of 1.450% Notes due 2031 (incorporated by reference to Exhibit 4.1 of the Company's Current Report on Form 8-K dated August 13, 2020).
<u>4.29</u>	Eleventh Supplemental Indenture, dated as of November 24, 2020, between Republic Services, Inc. and U.S. Bank National Association, as trustee, including the form of 0.875% Notes due 2025 and the form of 1.750% Notes due 2032 (incorporated by reference to Exhibit 4.1 of the Company's Current Report on Form 8-K dated November 12, 2020).
<u>4.30</u>	Amended and Restated Credit Agreement, dated as of August 17, 2021, by and among Republic Services, Inc., as Borrower, Bank of America, N.A., as Administrative Agent, Swing Line Lender and L/C Issuer, and the other lenders party thereto (incorporated by reference to Exhibit 4.1 of the Company's Current Report on Form 8-K dated August 23, 2021).
<u>4.31</u>	Twelfth Supplemental Indenture, dated as of November 8, 2021, between Republic Services, Inc. and U.S. Bank National Association, as trustee, including the form of 2.375% Notes due 2033 (incorporated by reference to Exhibit 4.1 of the Company's Current Report on Form 8-K dated November 4, 2021).
<u>10.1+</u>	Republic Services, Inc. Amended and Restated 2007 Stock Incentive Plan effective May 12, 2011 (incorporated by reference to Appendix A of the Company's Proxy Statement on Schedule 14A filed on April 1, 2011).
<u>10.2+</u>	Republic Services, Inc. Executive Incentive Plan, as amended and restated effective October 26, 2020 (incorporated by reference to Exhibit 10.1 to the Company's Quarterly Report on Form 10-Q for the quarter ended September 30, 2020).
<u>10.3+</u>	Form of Employee Restricted Stock Unit Agreement under the Republic Services, Inc. Amended and Restated 2007 Stock Incentive Plan (for awards on or after December 27, 2011) (incorporated by reference to Exhibit 10.1 of the Company's Current Report on Form 8-K dated December 27, 2011).
<u>10.4+</u>	Form of Non-Employee Director Restricted Stock Unit Agreement (annual vesting) under the Republic Services, Inc. Amended and Restated 2007 Stock Incentive Plan (for awards on or after December 27, 2011) (incorporated by reference to Exhibit 10.2 of the Company's Current Report on Form 8-K dated December 27, 2011).
<u>10.5+</u>	Form of Non-Employee Director Restricted Stock Unit Agreement (3 year vesting) under the Republic Services, Inc. Amended and Restated 2007 Stock Incentive Plan (for awards on or after December 27, 2011) (incorporated by reference to Exhibit 10.3 of the Company's Current Report on Form 8-K dated December 27, 2011).
<u>10.6+</u>	Republic Services, Inc. Deferred Compensation Plan, as amended and restated effective January 1, 2010 (incorporated by reference to Exhibit 4.4 of the Company's Registration Statement on Form S-8, Registration No. 333-170174, filed with the SEC on October 27, 2010).
<u>10.7+</u>	Amendment No. 1 to Republic Services, Inc. Deferred Compensation Plan, effective January 6, 2011 (incorporated by reference to Exhibit 10.17 of the Company's Annual Report on Form 10-K for the year ended December 31, 2010).
<u>10.8+</u>	Republic Services, Inc. Amended and Restated Executive Incentive Plan, effective February 4, 2014 (incorporated by reference to Appendix A of the Company's Proxy Statement on Schedule 14A filed on March 26, 2014).
<u>10.9+</u>	Employment Agreement, effective as of October 29, 2013, by and between Republic Services, Inc. and Donald W. Slager (incorporated by reference to Exhibit 10.1 of the Company's Quarterly Report on Form 10-Q for the quarter ended September 30, 2013).
<u>10.10+</u>	Amended and Restated Employment Agreement, effective December 8, 2008, by and between Jeffrey A. Hughes and Republic Services, Inc. (incorporated by reference to Exhibit 10.61 of the Company's Annual Report on Form 10-K for the year ended December 31, 2012).
<u>10.11+</u>	Republic Services, Inc. Executive Separation Policy, as amended as of March 29, 2012 (incorporated by reference to Exhibit 10.2 of the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2012).

<u>Exhibit Number</u>	<u>Description</u>
<u>10.12+</u>	Amendment No. 2 to Republic Services, Inc. Deferred Compensation Plan, effective February 7, 2012 (incorporated by reference to Exhibit 10.3 of the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2012).
<u>10.13+</u>	Republic Services, Inc. Amended and Restated 2007 Stock Incentive Plan effective May 9, 2013 (incorporated by reference to Exhibit 10.1 of the Company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2013).
<u>10.14+</u>	Amendment No. 3 to Republic Services, Inc. Deferred Compensation Plan, effective October 29, 2013 (incorporated by reference to Exhibit 10.3 of the Company's Quarterly Report on Form 10-Q for the quarter ended September 30, 2013).
<u>10.15+</u>	Clawback Policy, dated October 29, 2014 (incorporated by reference to Exhibit 10.1 of the Company's Current Report on Form 8-K dated October 30, 2014).
<u>10.16+</u>	First Amendment to the Employment Agreement, dated December 23, 2014, by and between Donald W. Slager and Republic Services, Inc. (incorporated by reference to Exhibit 10.1 of the Company's Current Report on Form 8-K dated December 24, 2014).
<u>10.17+</u>	Form of Performance Share Agreement, adopted January 7, 2015 (incorporated by reference to Exhibit 10.1 of the Company's Current Report on Form 8-K dated January 9, 2015).
<u>10.18+</u>	Form of Employee Restricted Stock Unit Agreement - Senior Executive, adopted January 7, 2015 (incorporated by reference to Exhibit 10.2 of the Company's Current Report on Form 8-K dated January 9, 2015).
<u>10.19+</u>	Amendment No. 4 to Republic Services, Inc. Deferred Compensation Plan, effective January 1, 2015 (incorporated by reference to Exhibit 10.53 of the Company's Annual Report on Form 10-K for the year ended December 31, 2014).
<u>10.20+</u>	Offer Letter, dated July 25, 2016, by and between Catharine D. Ellingsen and Republic Services, Inc. (incorporated by reference to Exhibit 10.37 of the Company's Annual Report on Form 10-K dated February 16, 2017).
<u>10.21+</u>	Non-Competition, Non-Solicitation, Confidentiality and Arbitration Agreement, effective June 13, 2016, by and between Catharine D. Ellingsen and Republic Services, Inc. (incorporated by reference to Exhibit 10.38 of the Company's Annual Report on Form 10-K dated February 16, 2017).
<u>10.22+</u>	Republic Services, Inc. 2018 Employee Stock Purchase Plan (incorporated by reference to Annex A of the Company's Proxy Statement on Schedule 14A filed on March 29, 2018).
<u>10.23+</u>	Offer Letter, dated April 29, 2019, by and between Jon Vander Ark and Republic Services, Inc. (incorporated by reference to Exhibit 10.1 of the Company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2019).
<u>10.24+</u>	Offer Letter, dated April 29, 2019, by and between Timothy Stuart and Republic Services, Inc. (incorporated by reference to Exhibit 10.3 of the Company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2019).
<u>10.25+</u>	Non-Competition, Non-Solicitation, Confidentiality and Arbitration Agreement, effective May 1, 2019, by and between Timothy Stuart and Republic Services, Inc. (incorporated by reference to Exhibit 10.4 of the Company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2019).
<u>10.26+</u>	Offer letter, dated May 29, 2020, by and between Brian DelGhiaccio and Republic Services, Inc. (incorporated by reference to Exhibit 10.1 to the Company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2020).
<u>10.27+</u>	Non-Competition, Non-Solicitation, and Confidentiality Agreement, effective June 1, 2020, by and between Brian DelGhiaccio and Republic Services, Inc. (incorporated by reference to Exhibit 10.2 to the Company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2020).
<u>10.28+</u>	Offer letter, dated March 26, 2021, by and between Jon Vander Ark and Republic Services, Inc. (incorporated by reference to Exhibit 10.1 of the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2021).
<u>10.29+</u>	Non-Competition, Non-Solicitation, Confidentiality, and Arbitration Agreement, effective June 25, 2021, by and between Jon Vander Ark and Republic Services, Inc. (incorporated by reference to Exhibit 10.2 of the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2021).
<u>10.30+</u>	Transition Agreement, effective March 26, 2021, by and between Donald W. Slager and Republic Services, Inc. (incorporated by reference to Exhibit 10.3 of the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2021).
<u>10.31+</u>	Republic Services, Inc. 2021 Stock Incentive Plan (incorporated by reference to Exhibit 10.30 of the Company's Annual Report on Form 10-K for the year ended December 31, 2020).

<u>Exhibit Number</u>	<u>Description</u>
<u>10.32+</u>	Form of Performance Share Agreement (Executive Officer) under the Republic Services, Inc. 2021 Stock Incentive Plan (incorporated by reference to Exhibit 10.31 of the Company's Annual Report on Form 10-K for the year ended December 31, 2020).
<u>10.33+</u>	Form of Performance Share Agreement (Other Executive) under the Republic Services, Inc. 2021 Stock Incentive Plan (incorporated by reference to Exhibit 10.32 of the Company's Annual Report on Form 10-K for the year ended December 31, 2020).

of our reports dated February 10, 2022, with respect to the consolidated financial statements of Republic Services, Inc. and the effectiveness of internal control over financial reporting of Republic Services, Inc., included in this Annual Report (Form 10-K) of Republic Services, Inc. for the year ended December 31, 2021.

/s/ Ernst & Young LLP

Phoenix, Arizona

February 10, 2022

**CERTIFICATION PURSUANT TO RULES 13a-14(a) AND 15d-14(a),
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Jon Vander Ark, certify that:

1. I have reviewed this 2021 Annual Report on Form 10-K of Republic Services, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Provide a detailed response to all questions checked "YES". If you need more space, photocopy the appropriate page and attach it to the questionnaire.

17) Conflict of Interest:

a) Please disclose:

(i) Any material financial relationships that your firm or any firm employee has that may create a conflict of interest or the appearance of a conflict of interest in acting as collection agent on behalf of Nassau County.

(ii) Any family relationship that any employee of your firm has with any County public servant that may create a conflict of interest or the appearance of a conflict of interest in acting as collection agent on behalf of Nassau County.

(iii) Any other matter that your firm believes may create a conflict of interest or the appearance of a conflict of interest in acting as a collection agent on behalf of Nassau County.

b) Please describe any procedures your firm has, or would adopt, to assure the County that a conflict of interest would not exist for your firm in the future.

Attachments to Business History Form

Please provide any other information which would be appropriate and helpful in determining the bidder's/proposer's capacity and reliability to perform these services.

- A. Include a resume or detailed description of the bidder's/proposer's professional qualifications, demonstrating extensive experience in your profession. Any prior similar experiences, and the results of these experiences, must be identified.

Should the bidder/proposer be other than an individual, the bid/proposal should include:

- i) Date of formation;
- ii) Name, addresses, and position of all persons having a financial interest in the company, including shareholders, members, general or limited partner;
- iii) Name, address and position of all officers and directors of the company;
- iv) State of incorporation (if applicable);
- v) The number of employees in the firm;
- vi) Annual revenue of firm;
- vii) Summary of relevant accomplishments
- viii) Copies of all state and local licenses and permits.

- B. Indicate number of years in business.

- C. Provide any other information which would be appropriate and helpful in determining the bidder's/proposer's capacity and reliability to perform these services.

- D. Provide names and addresses for no fewer than three references for whom the bidder/proposer has provided similar services or who are qualified to evaluate the bidder's/proposer's capability to perform this work.

CERTIFICATION

A MATERIALLY FALSE STATEMENT WILLFULLY OR FRAUDULENTLY MADE IN CONNECTION WITH THIS QUESTIONNAIRE MAY RESULT IN RENDERING THE SUBMITTING BUSINESS ENTITY NOT RESPONSIBLE WITH RESPECT TO THE PRESENT BID/PROPOSAL OR FUTURE BIDS/PROPOSALS, AND, IN ADDITION, MAY SUBJECT THE PERSON MAKING THE FALSE STATEMENT TO CRIMINAL CHARGES.

I, Ken Wunderlich, being duly sworn, state that I have read and understand all the items contained in the foregoing pages of this questionnaire and the following pages of attachments; that I supplied full and complete answers to each item therein to the best of my knowledge, information and belief; that I will notify the County in writing of any change in circumstances occurring after the submission of this questionnaire and before the execution of the contract; and that all information supplied by me is true to the best of my knowledge, information and belief. I understand that the County will rely on the information supplied in this questionnaire as additional inducement to enter into a contract with the submitting business entity.

Sworn to before me this 28th day of July 2020

Executive Summary

ACV Environmental Services, Inc. (ACV Enviro) is grateful to provide the enclosed proposal to the County of Nassau for hazardous materials transportation, storage, and disposal services as defined in the RFP documents.

- Date of Formation: 09 / 25 / 1984
- Name, addresses, and position of all persons having a financial interest in the company: ACV Enviro is a privately held corporation incorporated in New York.
- Name, address, and position of all officers and directors of the company: All officers are located at 1500 Rahway Ave.; Avenel, NJ 07001.
 - Andrew Shackett - CEO & President
 - Ken Wunderlich – Vice President, Treasurer, & Secretary
 - Donna Miller – Vice President
- Number of employees in the firm: ~900
- Annual revenue of firm: ~ \$200 MM
- Summary of relevant accomplishments: ACV Enviro is an industry leader in environmental, emergency response, industrial, and waste management solutions.
- Copies of all state and local licenses and permits: Permits and licenses have been provided as applicable to this scope of work.
- Indicate number of years in business: 43 Years

Trucking mishaps, waterway and beach cleanups, industrial accidents and fires, bulk liquid terminal spills – land or sea, our fleet of emergency equipment located in numerous facilities in and around New York and New Jersey will respond to any situation.

As a U.S. Coast Guard (USCG) certified Oil Spill Removal Organization (OSRO) environmental contractor, ACV Enviro has performed thousands of responses when providing around-the-clock emergency service to companies and communities. It is our ability to respond quickly to an emergency that makes our team among the best in the business. Let our team help you coordinate response efforts – matching our resources, people, and equipment – to your emergency response situation. We will provide a rapid response, minimizing exposure, and assuring safety. ACV Enviro holds all the necessary hazardous and non-hazardous permits, including transportation - so we can get the job done right without any compliance headaches for you or your organization.

We have 26 service locations and a variety of service capabilities including waste characterization, waste management, transportation, and manifesting services. Our facilities are

compliant, CERCLA approved, and permitted by the states we operate in as well as the EPA. Our strong compliance record, our ability to treat and manage a wide variety of waste types, and our ability to get the job done makes ACV Enviro a company you will call to solve your most complex environmental issues.

Our highly trained team is comprised of the best in the business:

- Health & Safety Professionals
- Waste Specialists
- OSRO Specialists
- Chemists
- Chemical Engineers
- Geologists
- Toxicologists
- Environmental Scientists

With four decades of experience, ACV Enviro is one of the premier environmental service companies in the U.S. As an equipment driven company, we have the right tools to perform any project. We utilize a wide array of industrial machinery, including liquid vacs, turbo vacs, catch basin cleaners, 10 - 40K hydroblasters, generators, compressors, and an extensive inventory of pumps. With our equipment and operational expertise, no task is impossible.

ACV Enviro crews also know what type of specialized equipment is needed when the common standard just isn't enough. We provide:

- Sound Reduction Units – For sound-sensitive projects, like those done in high density communities
- Hydroexcavation Units – For low impact, non-invasive projects such as excavating around utility lines
- Marine Equipment – For jobs requiring sorbent materials, storage containers, containment boom or skimming equipment (OSRO Rated)

1. ACV Enviro Overview

ACV Enviro is one of the leading providers of industrial, field and waste disposal solutions in the nation. ACV Enviro provides customers with a strong local presence along with the resources and capabilities of the largest companies in the industry. We partner with our customers to solve America's toughest environmental and waste problems. Our team is dependable, reliable, and accountable to our clients. ACV Enviro is strongly focused on safety and compliance; getting the job done safely is our highest priority.

We approach every project committed to providing high quality services. The broad variety of services provided in 26 locations throughout the East Coast and Midwest allow us to deliver focused solutions for your business. Integrity, mutually beneficial partnerships with our clients, team, and communities are the core values of our business.

With nearly 40 years of experience providing safe and compliant waste management services to our customers, you can trust ACV Enviro to take every precaution necessary to ensure safety and regulatory compliance. ACV Enviro has the knowledge to manage your waste compliantly and safely, and will ensure all local, state, and federal regulations are met.

Our company-owned fleet is one of the largest in the industry and includes heavy construction equipment, groundwater treatment systems, tankers, roll-offs, box vans, dump trailers, vacuum trucks, and hydroexcavation equipment. We are permitted to excavate, handle, and transport hazardous waste throughout the United States and Canada.

2. ACV Enviro Capabilities & Technical Experience

ACV Enviro has 26 service locations and a variety of service capabilities including waste characterization, waste management, transportation, and manifesting services. Our facilities are compliant, CERCLA approved and permitted by the states we operate in as well as the EPA. Our strong compliance record, our ability to treat and manage a wide variety of waste types and our ability to get the job done makes ACV Enviro a company you will call to solve your most complex environmental issues.

ACV Enviro does it all 24 / 7 / 365 with all the resources necessary for any spill response task. With expert training and professional knowledge, our team can provide a full turnkey service to our customers, from project start to close. Our crews minimize delays and disruptions while maximizing efficiency.

Our specially trained and highly equipped personnel apply the latest technologies to complete a broad spectrum of projects. Difficult conditions and hard contamination are no match for our field crews. Challenging jobs – from hazardous waste management to confined space entry cleaning operations – are easily and effectively completed, minimizing the impact on our clients' day to day operations.

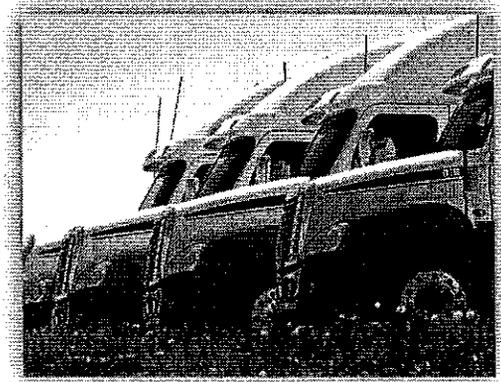

1.1. Transportation & Disposal Services

ACV Enviro provides one of the most comprehensive transportation programs in the Northeast. All our professional, vetted drivers are fully trained, insured, medically monitored, and have excellent driving records. ACV Enviro holds transportation permits in over 41 states for hazardous and non-hazardous waste and is New Jersey A901 approved. Our transportation fleet enables us to manage your waste from point of generation to final disposition, helping you minimize cost and liability.

We have the right equipment for every job – ACV Enviro maintains one of the largest and most diverse transportation fleets including:

- Vacuum Trucks (stainless and carbon steel)
- Vacuum Containers / Sludge Boxes
- Roll-Off Trucks
- Van Trailers (48' to 53' lengths)
- Dump Trailers
- 21,000-Gallon Frac Tanks
- Flat Beds / Lowboy Trailers

In compliance with all local, state, and federal regulations, ACV Enviro's fleet utilizes an extensive selection of equipment specifically designed to handle all types of waste.

ACV Enviro owns and operates RCRA Part B treatment, storage, and disposal facilities. Our facilities are permitted for a variety of hazardous and non-hazardous waste types including liquids, solids, sludges, and gas cylinders. In addition, we operate a rotary kiln soil recycling facility for the management of petroleum-contaminated soils. Our expertise enables us to assist you with identifying the most cost effective and environmentally friendly methods of recycling, treating, and / or disposing of all waste streams.

Our TSD facilities in New Jersey and Pennsylvania are located on the East Coast, providing close proximity to large remediation projects and to a wide variety of waste generators. Our close proximity will help reduce transportation costs and overall project costs. Our customers can deliver a variety of waste types from flammables to inorganic waste on one truck. Our ability to manage lab packs both cost effectively and timely is unparalleled. Let us provide the best team to accept your hazardous, non-hazardous, and a wide variety of common waste streams for processing.

From start to finish, ACV Enviro's turnkey management does it all. We have built our reputation as a leaders in the management of hazardous and non-hazardous waste types. By applying the latest, most advanced waste management technologies, ACV Enviro can provide stabilization treatment, recycling, incineration and landfilling to handle any client's disposal requests. ACV Enviro can also assist customers in arranging for and managing other specialized requirements, such as radioactive materials, explosives and NORM / TENORM. ACV Enviro has the knowledge to manage your waste compliantly and safely, and will ensure all local, state, and federal regulations are met.

1.2. Materials Handling & Storage

Customer waste is managed through our 10-day facilities network. ACV Enviro will provide waste characterization and transportation of solids and liquids from spill or accumulation sites to a County of Nassau approved TSDF for disposal. ACV Enviro will create and manage waste profiles, manifesting, and disposal approvals, as well as lab packing (where applicable).

ACV Enviro also creates Milk Runs for customers where applicable.

1.3. Lab Pack Services

Private laboratories, research and development centers, hospitals, schools, colleges, and universities all generate small containers of hazardous and toxic wastes. ACV Enviro offers cost effective, same-day transport and disposal for laboratory containers of hazardous waste. Our team segregates and packages your waste into compatible groups according to EPA and DOT regulations as specified in Code of Federal Regulations (CFR) 49 Part 173.12.

Our field chemists are fully trained and certified to complete any lab pack services your organization requires.

1.4. Emergency Response

ACV Enviro has a significant amount of resources with which to respond to spills and has been in the business of doing so for nearly 40 years. Our service centers are strategically located to ensure a rapid response to emergency calls. Our personnel all average over 10 - 15 years of experience in the hazardous waste industry. All field personnel are 40-Hour OSHA HAZWOPER trained and our foremen have extensive experience in tank cleaning, site remediation, chemical transfers, spill response, and more. We also employ chemists, along with Class A and B drivers with HazMat and Tank endorsements. Currently, we have four on-call spill teams that rotate on a weekly basis to service the needs of our clients.

Once ACV Enviro is notified of the oil spill, the ACV Enviro Project Manager (PM) and the Operations Manager (OM) will identify and discuss critical issues. The identification of these critical issues will ensure that ACV Enviro's planned approach is consistent with the directives required by the site owner and the County of Nassau for completion of the scope of work. Some of the issues that may be covered include but are not limited to:

- Confirming response time and the purpose of the task order
- Discussing and defining staff and resource requirements
- Discussing and defining data quality objectives

- Establishing communication protocols with all essential emergency and responding personnel
- Confirming administrative data

Site safety and health protocol is the key to planning any emergency field response or remediation project; therefore, our PM, OM, EHS Manager, and senior field staff will discuss the site information and identify critical issues that need resolution before mobilization and time-critical material and equipment needs, select key crew members, and review expected chemical or physical hazards that may be present. Within 15 minutes, ACV Enviro will call the County of Nassau's contact and discuss equipment and manpower needs.

The PM will draw from ACV Enviro's pool of qualified personnel or select subcontractors as appropriate from our designated list of approved vendors. ACV Enviro maintains master services contracts with many specialized environmental firms, laboratories, and equipment suppliers across the region that add to our breadth of coverage and capabilities for quick deployment and remedial action. In addition, the PM will:

- Initiate the accounting / cost tracking framework
- Notify the Health & Safety, Purchasing, and T&D Departments of the task order and make sure all contract plans are being followed
- Develop, implement, and manage a QA project plan if environmental measurements will be made
- Attend regularly scheduled program management status meetings or site-specific meetings as required

The PM or designated emergency response foreman will arrive onsite within one hour of the event, reporting to the County of Nassau's representative at the time of arrival, inspecting the scene, and deciding if additional personnel / equipment is needed. All selected members of the emergency response crew will mobilize to the nearest ACV Enviro facility to gather all the necessary equipment and supplies. The crew will then meet the onsite PM / Foreman to mitigate the roadway spill as soon as possible.

ACV Enviro will use Speedi-Dry, booms, etc., to contain the spill as much as possible, remove all impacted soil and debris, and transport all waste offsite for proper disposal. ACV Enviro would employ the services of a Licensed Site (Remediation) Professional (LSP) if necessary and restore the site once the project is completed.

Emergency Response Services include:

- USCG Certified OSRO
- Marine & Land Services
- Groundwater Recovery
- Boom Deployment
- Emergency Response Unit
- Hazard Categorization & Segregation

1.5. Intermediate Response Action

ACV Enviro is an environmental contractor dedicated to the proper handling, transporting, and disposal of oil / hazardous materials for both emergency and planned events since forming almost 40 years ago.

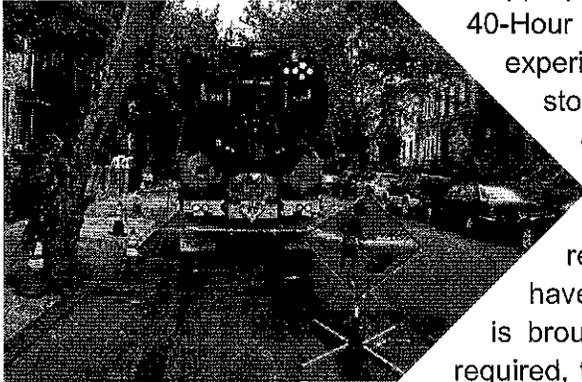

ACV Enviro has extensive experience in IRA services gained from the successful completion of tens of thousands of environmental projects in the Northeastern and mid-Atlantic United States. We have planned, executed, or provided quality oversight on more than 60,000 environmental projects over the course of the past 40 years. Over 20% of these actions have been completed just within the last five years. Of these projects, many involved actions that:

- Were of similar complexity to the type of projects defined within this solicitation
- Demanded extensive interaction and cooperation with all levels of the various environmental regulatory agencies
- Performed under the control of governmental contracts, which were held by us as the prime contractor or as the named, exclusive subcontractor for both the competitive award and subsequent work performance

ACV Enviro employs highly trained 40-Hour OSHA HAZWOPER personnel with lengthy experience dealing with emergency response and IRA projects. We have senior foremen on staff that have over 10 years of experience with ACV Enviro, managing underground / aboveground tank cleaning, hydrofluoric line cleaning, and soil remediation work. If contaminated soil needs to be moved, many of the field personnel in our offices have their hydraulics licenses. We also have extensive experience in industrial decontamination services. We also have four field chemists on staff that are experts in identifying and lab packing chemicals.

Once ACV Enviro is notified of the event, the PM would review the job tasks that the County of Nassau has requested for the specific scope of work. Then, the PM would request a site walk, as necessary, to familiarize him or herself with the conditions of the site. Depending on the scope of work and the known work hazards, the PM would meet with the EHS Manager to come up with a

site-specific safety plan. The plan will then be submitted to the County of Nassau for review, if necessary.

The appropriate crew is selected from a pool of highly trained 40-Hour OSHA HAZWOPER personnel with lengthy experience dealing with IRA projects, underground storage tank removals, site maintenance, and other environmental services. Enviro selects employees who are available at the time of award with skills that best suit the needs of the project. ACV Enviro reviews each work plan to ensure that the work tasks have been clearly identified and the correct equipment is brought to the job site. If a Health & Safety plan is required, that would be reviewed as well. All crew members

will sign the plan to acknowledge understanding and acceptance of it.

The crew will then be dispatched to the site on the agreed upon date and time. The Foreman will have a tailgate safety meeting with the crew to ensure everyone is aware of the site hazards, as well as the tasks that need to be accomplished. The foreman will then review the work plan against the actual site conditions to ensure that no changes have occurred. If no changes have occurred, work will proceed as planned. Should there be any new or unforeseen conditions / problems that necessitate a change in the work plan / SOW, ACV Enviro will contact the County of Nassau's representative in charge of the project and the ACV Enviro PM to discuss the changes and come up with a solution.

The PM would oversee the entire project and would be responsible for all aspects of field management.

1.6. Vacuum Excavation

Protect your infrastructure with ACV Enviro's vacuum excavation options. The vacuum excavation process safely breaks up the ground and simultaneously vacuums the debris into the on-board tank to expose buried utility lines, providing a non-destructive excavation with no "hits" or "strikes." Vacuum excavation services include:

- Potholing
- Daylighting
- Slot Trenching
- Perimeter Trenching
- Remote Work (up to 400 ft.)
- On-Board Heaters for Frozen Ground Excavation

- Air-Knifing

Hydrovac Vacuum Excavation

Utilizing the water from the unit's on-board reservoir, a pressurized water stream is introduced into the ground to liquefy the soil, which is vacuumed into the debris tank. The operating pressure of the water jet is variable with standard pressure output between 1,850 – 2,000 psi, with a maximum pressure of 2,300 psi, which is enough to conquer the toughest soil conditions while still providing the comfort of knowing the underground lines remain intact.

Air Vacuum Excavation

Our built-in 185 cfm air compressor gives us the versatility to break up the soil with air when using water is not an option. Using either 110 or 150 psi, we can achieve virtually the same excavations as done with water.

FLEXIBILITY

Our combination units give us the ability to dig with air or water without having to mobilize additional equipment. Our positive displacement blowers allow us the advantage of performing excavations up to 600 feet from the ACV Enviro unit, helping to reduce restoration costs on job sites.

Frozen ground is also easy to tackle by employing specialized on-board systems to heat the water, conquering the harshest winter conditions.

1.7. Other Related Services

ACV Enviro has the capability to provide the County of Nassau with many more services ranging from remediation and excavations, high-pressure cleaning, OSHA HAZWOPER Training, to waste management plans, and so much more, allowing the County of Nassau to consolidate vendors and reduce costs.

I, Jamie McIlvaine , hereby acknowledge that a materially false statement willfully or fraudulently made in connection with this form may result in rendering the submitting business entity and/or any affiliated entities non-responsible, and, in addition, may subject me to criminal charges.

2. Positions held in submitting business and starting date of each (check all applicable)

President	<u>05/01/2017</u>	Treasurer	_____
Chairman of Board	_____	Shareholder	_____
Chief Exec. Officer	_____	Secretary	_____
Chief Financial Officer	_____	Partner	_____
Vice President	_____		
(Other)	_____		

3. Do you have an equity interest in the business submitting the questionnaire?

YES NO If Yes, provide details.

4. Are there any outstanding loans, guarantees or any other form of security or lease or any other type of contribution made in whole or in part between you and the business submitting the questionnaire?

YES NO If Yes, provide details.

5. Within the past 3 years, have you been a principal owner or officer of any business or notfor-profit organization other than the one submitting the questionnaire?

YES NO If Yes, provide details.

6. Has any governmental entity awarded any contracts to a business or organization listed in Section 5 in the past 3 years while you were a principal owner or officer?
YES NO If Yes, provide details.

NOTE: An affirmative answer is required below whether the sanction arose automatically, by operation of law, or as a result of any action taken by a government agency. Provide a detailed response to all questions checked "YES". If you need more space, photocopy the appropriate page and attach it to the questionnaire.

7. In the past (5) years, have you and/or any affiliated businesses or not-for-profit organizations listed in Section 5 in which you have been a principal owner or officer:

- a. Been debarred by any government agency from entering into contracts with that agency?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

- b. Been declared in default and/or terminated for cause on any contract, and/or had any contracts cancelled for cause?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

- c. Been denied the award of a contract and/or the opportunity to bid on a contract, including, but not limited to, failure to meet pre-qualification standards?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

- d. Been suspended by any government agency from entering into any contract with it; and/or is any action pending that could formally debar or otherwise affect such business's ability to bid or propose on contract?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

8. Have any of the businesses or organizations listed in response to Question 5 filed a bankruptcy petition and/or been the subject of involuntary bankruptcy proceedings during the past 7 years, and/or for any portion of the last 7 year period, been in a state of bankruptcy as a result of bankruptcy proceedings initiated more than 7 years ago and/or is any such business now the subject of any pending bankruptcy proceedings, whenever initiated?

YES NO If 'Yes', provide details for each such instance. (Provide a detailed response to all questions check "Yes". If you need more space, photocopy the appropriate page and attached it to the questionnaire.)

9.

a. Is there any felony charge pending against you?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

b. Is there any misdemeanor charge pending against you?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

c. Is there any administrative charge pending against you?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

d. In the past 10 years, have you been convicted, after trial or by plea, of any felony, or of any other crime, an element of which relates to truthfulness or the underlying facts of which related to the conduct of business? Y
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

e. In the past 5 years, have you been convicted, after trial or by plea, of a misdemeanor?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

f. In the past 5 years, have you been found in violation of any administrative or statutory charges?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

10. In addition to the information provided in response to the previous questions, in the past 5 years, have you been the subject of a criminal investigation and/or a civil anti-trust investigation by any federal, state or local prosecuting or investigative agency and/or the subject of an investigation where such investigation was related to activities performed at, for, or on behalf of the submitting business entity and/or an affiliated business listed in response to Question 5?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

11. In addition to the information provided, in the past 5 years has any business or organization listed in response to Question 5, been the subject of a criminal investigation and/or a civil anti-trust investigation and/or any other type of investigation by any government agency, including but not limited to federal, state, and local regulatory agencies while you were a principal owner or officer?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

12. In the past 5 years, have you or this business, or any other affiliated business listed in response to Question 5 had any sanction imposed as a result of judicial or administrative proceedings with respect to any professional license held?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

13. For the past 5 tax years, have you failed to file any required tax returns or failed to pay any applicable federal, state or local taxes or other assessed charges, including but not limited to water and sewer charges?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

I, Andrew Shackett , hereby acknowledge that a materially false statement willfully or fraudulently made in connection with this form may result in rendering the submitting business entity and/or any affiliated entities non-responsible, and, in addition, may subject me to criminal charges.

I, Andrew Shackett , hereby certify that I have read and understand all the items contained in this form; that I supplied full and complete answers to each item therein to the best of my knowledge, information and belief; that I will notify the County in writing of any change in circumstances occurring after the submission of this form; and that all information supplied by me is true to the best of my knowledge, information and belief. CONSULTANT'S, CONTRACTOR'S AND VENDOR'S DISCLOSURE FORM

1. Name of the Entity: ACV Environmental Services, Inc.

Address: 201 S. First St.

City: Rahway State/Province/Territory: NJ Zip/Postal Code: 07206

Country: US

2. Entity's Vendor Identification Number: 11-2710601

3. Type of Business: Closely Held Corp (specify) _____

4. List names and addresses of all principals; that is, all individuals serving on the Board of Directors or comparable body, all partners and limited partners, all corporate officers, all parties of Joint Ventures, and all members and officers of limited liability companies (attach additional sheets if necessary):

First Name	<u>Andrew</u>
Last Name	<u>Shackett</u>
MI	_____ Suffix _____
Address	<u>1500 Rahway Ave.</u>
City	<u>Avenel</u> State/Province/Territory: <u>NJ</u> Zip/Postal Code: <u>07001</u>
Country	<u>US</u>
Position	<u>Chief Exec. Officer</u>

5. List names and addresses of all shareholders, members, or partners of the firm. If the shareholder is not an individual, list the individual shareholders/partners/members. If a Publicly held Corporation, include a copy of the 10K in lieu of completing this section. If none, explain.

ACV Enviro Holding Corporation - 201 South First St.; Elizabeth, NJ 07206

No shareholders, members, or partners have been attached to this form.

6. List all affiliated and related companies and their relationship to the firm entered on line 1. above (if none, enter "None"). Attach a separate disclosure form for each affiliated or subsidiary company that may take part in the performance of this contract. Such disclosure shall be updated to include affiliated or subsidiary companies not previously disclosed that participate in the performance of the contract.

<u>Cycle Chem, Inc. - Sister Company</u>
<u>Clean Venture, Inc. - A wholly owned subsidiary of ACVES</u>

7. List all lobbyists whose services were utilized at any stage in this matter (i.e., pre-bid, bid, post-bid, etc.). If none, enter "None." The term "lobbyist" means any and every person or organization retained, employed or designated by any client to influence - or promote a matter before - Nassau County, its agencies, boards, commissions, department heads, legislators or committees, including but not limited to the Open Space and Parks Advisory Committee and Planning Commission. Such matters include, but are not limited to, requests for proposals, development or improvement of real

property subject to County regulation, procurements. The term "lobbyist" does not include any officer, director, trustee, employee, counsel or agent of the County of Nassau, or State of New York, when discharging his or her official duties.

Are there lobbyists involved in this matter?

YES NO

(a) Name, title, business address and telephone number of lobbyist(s):

N/A

(b) Describe lobbying activity of each lobbyist. See below for a complete description of lobbying activities.

N/A

(c) List whether and where the person/organization is registered as a lobbyist (e.g., Nassau County, New York State):

N/A

8. VERIFICATION: This section must be signed by a principal of the consultant, contractor or Vendor authorized as a signatory of the firm for the purpose of executing Contracts.

The undersigned affirms and so swears that he/she has read and understood the foregoing statements and they are, to his/her knowledge, true and accurate.

IN EXECUTING THIS BID, THE BIDDER WARRANTS THAT THE PRICES SUBMITTED HEREIN ARE NOT HIGHER THAN THOSE OFFERED TO ANY GOVERNMENTAL OR COMMERCIAL CONSUMER FOR LIKE DELIVERIES. THE PRICES HEREIN SHOULD NOT INCLUDE ANY FEDERAL EXCISE TAXES OR SALES TAXES IMPOSED BY ANY STATE OR MUNICIPAL GOVERNMENT. SUCH TAXES, IF INCLUDED, MUST BE DEDUCTED BY THE BIDDER WHEN SUBMITTING BID. BIDDERS ARE REQUESTED TO ALSO READ THE TERMS AND CONDITIONS.

BID TERMS AND CONDITIONS

- Bids on equipment must be on standard new equipment, latest model, except as otherwise specifically stated in proposal or detailed specification. Where any part of nominal appurtenances of equipment is not described, it shall be understood that all equipment and appurtenances which are usually provided in the manufacturer's stock model shall be furnished.
- Bids on materials and supplies must be for new items except as otherwise specifically stated in bid or detailed specifications.
- Bidder declares that the bid is made without any connection with any other Bidder, submitting a bid for the same items, and is in all respects fair and without collusion or fraud.
- PRICES The provisions of the New York State Fair Trade Law (Fedor-Crawford Act) and the federal price discrimination law (Robinson-Patman Act) do not apply to purchases made by the County.
- SURETY In the event that an award is made hereunder, The Director of Purchase reserves the right to request successful bidders to post, within one week, security for faithful performance, with the understanding that the whole or any part thereof may be used by the County of Nassau to supply any deficiency that may arise from any default on the part of the Bidder. Such security must meet all the requirements of the County Attorney and be approved by the County Attorney.

6. **SAMPLES** Samples, when required, must be submitted strictly in accordance with instructions; otherwise bid may not be considered. If samples are requested subsequent to bid opening they shall be delivered within five (5) days of the request for bid to have consideration. Samples must be furnished free of charge and must be accompanied by descriptive memorandum invoices indicating if the Bidder desires their return; also specifying the address to which they are to be returned, provided they have not been used or made useless by tests. Award samples may be held for comparison with deliveries. Samples will be returned at the Bidders risk and expense.
7. **Award** The Director, Office of Purchasing reserves the right before making award to make investigations as to whether or not the items, qualifications or facilities offered by the Bidder meet the requirements set forth herein and are sample and sufficient to insure the proper performance in the event of award. The Bidder must be prepared, if requested by the Director, to present evidence of experience, ability and financial standing, as well as a statement as to plant, machinery and capacity of the manufacturer for the production and distribution of the material on which he is bidding. Upon request of the Director, successful bidder shall file certification from the manufacturer relative to authorization, delivery, service and guarantees. If it is found that the conditions of the bids are not complied with or that articles or equipment proposed to be furnished do not meet the requirements called for, or that the qualification, financial standing or facilities are not satisfactory, the Director may reject such bids. It is distinctly understood, however, that nothing in the foregoing shall mean or imply that it is obligatory upon the Director to make any examinations before award; and it is further understood that, if such examination is made, it in no way relieves the Bidder from fulfilling all requirements and conditions of the bid.
8. Awards will be made to the lowest responsible Bidder. Cash discounts will not be a factor in determining awards, except in tie bids. Consideration will be given to the reliability of the Bidder, the quantities of the materials, equipment or supplies to be furnished, their conformity with the specifications, the purpose for which required and the terms of delivery.
9. The Director reserves the right to reject all bids in whole or in part and to waive technical defects, irregularities and omissions if in his judgment the best interests of the County will be served.
10. Unless otherwise indicated herein, the Director reserves the right to make award by items, by classes, by group of items, or as a whole.
11. **DELIVERIES** Upon failure of the Vendor to deliver within the time specified, or within reasonable time as interpreted by the Director, or failure to make replacement of rejected articles, when so requested immediately or as directed by the Director, the Director may purchase from other sources to take the place of the items rejected or not delivered. The Director reserves the right to authorize immediate purchase from other sources against rejections on any order when necessary. On all such purchases the Vendor agrees to promptly reimburse the County for excess cost occasioned by such purchases. Should the cost be less, the Vendor shall have no claim to the difference. Such purchases will be deducted from order quantity.
12. An order may be canceled at the Vendors expense upon nonperformance. Failure of the Vendor to furnish additional surety within ten (10) days from date of requested shall be sufficient cause for the cancellation of the order.
13. When in the determination of the Director, the articles or equipment delivered fail to meet County specifications or, if in the determination of the Director, the Vendor consistently fails to deliver as ordered, the Director reserves the right to cancel the order and purchase the balance from other sources at Vendor expense.
14. Delivery must be made as ordered and in accordance with the bid. If delivery instructions do not appear on order. It will be interpreted to mean prompt delivery. The decision of the Director as to reasonable compliance with delivery terms shall be final. Burden of proof of delay in receipt of order shall rest with the Vendor.
15. The County Agencies will not schedule any deliveries for Saturdays, Sundays or Legal Holiday, except commodities required for daily consumption or where the delivery is an emergency, a replacement, or is overdue, in which event the convenience of the Agency will govern.
16. Supplies shall be securely and properly packed for shipment, according to accepted commercial practice, without extra charge for packing cases, reels, baling or sacks, the containers to remain the property of the agency unless definitely stated otherwise in the bid.
17. The Vendor shall be responsible for delivery of supplies in good condition at point of destination. The Vendor shall file all claims with carrier for breakage, imperfections and other losses, which will be deducted from invoices. The receiving Agency will note for the benefit of Vendor when packages are not received in good conditions.
18. All supplies which are customarily labeled or identified must have securely affixed thereto the original un-mutilated label or marking of the manufacturer.
19. Billings for deliveries must be rendered on County Claim forms.
20. Furniture, machines, and other equipment must be delivered, installed and set in place as directed, ready for use unless otherwise specified.
21. Deliveries are subject to reweighing at destination by the County and payment will be made on the basis of materials delivered. Normal shrinkage will be allowed in such instances where shrinkage is possible. Short weight shall be sufficient cause for cancellation of order at Vendors expense.
22. **GUARANTEES BY BIDDER** Bidder hereby guarantees: (a) To save the County, its agents and employees harmless from liability of any nature or kind for the use of any copyrighted or un-copyrighted compositions, secret process, patented or unpatented invention, article or appliance furnished or used in the performance hereof of which the Bidder is not the Patentee, assignee or licensee, and to defend any action brought against the County in the name of the County and under the direction of the County Attorney at the sole cost of the Bidder or in the sole option of the Director to pay the cost of such defense to the County. (b) His products against defective material or workmanship and to repair any damages or marring occasioned in transit.
- (c) To furnish adequate protection from damage for all work and to repair damages of any kind, for which he or his workmen are responsible, to the building or equipment, to this own work or the work of other Vendors, or in the opinion of the Director to pay for the same by deductions in payments due under this contract.
- (d) To pay for all permits, licenses and fees and give all notices and comply with all laws, ordinances, rules and regulations of the city, village or town in which the installation has to be made, and of the County of Nassau and the State of New York.
- (e) To carry proper insurance in the opinion of the Director, and approved by the County Attorney to protect the County from loss in case of accident, fire and theft.
- (f) That he will keep himself fully informed, of all municipal ordinances and regulations, state and national laws in any manner affecting the work or goods herein specified, and any extra work contracted for by him, and shall at all times observe and comply with said ordinances, laws and regulations, including all provisions of the Workmen Compensation and Labor Laws, and shall indemnify and save harmless the County of Nassau and the Nassau County Legislature from loss and liability upon any and all Claims on account of any physical injury to persons, including death, or damage to property and from all cost and expenses in suits which may be brought against the same on account of such injuries irrespective of the actual cost of the same and irrespective of whether the same shall have been due to the negligence of the Bidder or his agents.
- (g) That the items furnished shall conform to all the provisions of the bid and this warranty shall survive acceptance, or use of any material so furnished.
- (h) That all deliveries will not be inferior to the accepted bid sample.
23. **LABOR LAWS and ANTIDISCRIMINATION** Upon the vendor acceptance hereof, the vendor agrees to comply with Article IX, Section 2 C of the Constitution of the State of New York, Section 220a, 220b, 220d, 220e and 230 of the Labor Law, Section 5 and 12 of the Lien Law, Article 2 of the Uniform Commercial Code, Sections 108 and 109 as well as Article 18 of the General Municipal Law, Section 2218 of the County Government Law of Nassau County Section 224.2 of the Nassau County Administrative Code, the provisions of the anti-Discrimination Order of Nassau County, and the vendor shall keep himself fully informed of all additional municipal ordinances and regulations, State and National Laws in any manner affecting this order and the goods or services delivered or rendered or to be delivered or rendered there under, and shall at all times observe and comply with said ordinances, laws and regulations at his sole cost and expense.
24. **ASSIGNMENT.** The contractor is hereby prohibited from assigned, transferring, conveying, subletting or otherwise disposing of this contract or his right, title, or interest therein, or his power to execute such contract, to any other person or corporation without the previous consent in writing of the officer, board or agency awarding the contract.
25. The County of Nassau will not be responsible nor liable for any shipment or delivery of any materials, supplies, or equipment without it's express written instructions or valid Purchase Order.
26. No agreements, changes, modifications or alterations shall be deemed effective nor shall the same be binding upon the County unless in writing and signed by the Director, Office of Purchasing or his duly designated representative.

TITLE

Appendix EE

EQUAL EMPLOYMENT OPPORTUNITIES FOR MINORITIES AND WOMEN

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined by such title and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

(c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

(d) The Contractor shall make Best Efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, including the granting of Subcontracts.

(e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

(f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.

(g) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

(h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

(i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

(j) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

BIDDER

Vice President, Treasurer, & Secretary

TITLE

(k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.

(l) The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:

- a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.
- b. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.
- c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended or impose any new sanction, or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrators award and recommendations, shall file a determination of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation..

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefore or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

The Contractor shall include provisions (a), (b) and (c) in every Subcontract in such manner that these provisions shall be binding upon each Subcontractor as to work in connection with the County Contract.

As used in this Appendix EE the term "Best Efforts Checklist" shall mean a list signed by the Contractor, listing the procedures it has undertaken to procure Subcontractors in accordance with this Appendix EE.

As used in this Appendix EE the term "County Contract" shall mean (i) a written agreement or purchase order instrument, providing for a total expenditure in excess of twenty-five thousand dollars (\$25,000), whereby a County contracting agency is committed to expend or does expend funds in return for labor, services, supplies, equipment, materials or any combination of the foregoing, to be performed for, or rendered or furnished to the County; or (ii) a written agreement in excess of one hundred thousand dollars (\$100,000), whereby a County contracting agency is committed to expend or does expend funds for the acquisition, construction, demolition, replacement, major repair or renovation of real property and improvements thereon. However, the term "County Contract" does not

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

BIDDER SIGN HERE

BIDDER

Vice President, Treasurer, & Secretary

TITLE

include agreements or orders for the following services: banking services, insurance policies or contracts, or contracts with a County contracting agency for the sale of bonds, notes or other securities.

As used in this Appendix EE the term "County Contractor" means an individual, business enterprise, including sole proprietorship, partnership, corporation, not-for-profit corporation, or any other person or entity other than the County, whether a contractor, licensor, licensee or any other party, that is (i) a party to a County Contract, (ii) a bidder in connection with the award of a County Contract, or (iii) a proposed party to a County Contract, but shall not include any Subcontractor.

As used in this Appendix EE the term "County Contractor" shall mean a person or firm who will manage and be responsible for an entire contracted project.

As used in this Appendix EE "Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises" shall include, but is not limited to the following:

- a. Proof of having advertised for bids, where appropriate, in minority publications, trade newspapers/notices and magazines, trade and union publications, and publications of general circulation in Nassau County and surrounding areas or having verbally solicited M/WBEs whom the County Contractor reasonably believed might have the qualifications to do the work. A copy of the advertisement, if used, shall be included to demonstrate that it contained language indicating that the County Contractor welcomed bids and quotes from M/WBE Subcontractors. In addition, proof of the date(s) any such advertisements appeared must be included in the Best Effort Documentation. If verbal solicitation is used, a County Contractor's affidavit with a notary's signature and stamp shall be required as part of the documentation.
- b. Proof of having provided reasonable time for M/WBE Subcontractors to respond to bid opportunities according to industry norms and standards. A chart outlining the schedule/time frame used to obtain bids from M/WBEs is suggested to be included with the Best Effort Documentation.
- c. Proof or affidavit of follow-up of telephone calls with potential M/WBE subcontractors encouraging their participation. Telephone logs indicating such action can be included with the Best Effort Documentation.
- d. Proof or affidavit that M/WBE Subcontractors were allowed to review bid specifications, blue prints and all other bid/RFP related items at no charge to the M/WBEs, other than reasonable documentation costs incurred by the County Contractor that are passed onto the M/WBE.
- e. Proof or affidavit that sufficient time prior to making award was allowed for M/WBEs to participate effectively, to the extent practicable given the timeframe of the County Contract.
- f. Proof or affidavit that negotiations were held in Best Efforts with interested M/WBEs, and that M/WBEs were not rejected as unqualified or unacceptable without sound business reasons based on (1) a thorough investigation of M/WBE qualifications and capabilities reviewed against industry custom and standards and (2) cost of performance. The basis for rejecting any M/WBE deemed unqualified by the County Contractor shall be included in the Best Effort Documentation.
- g. If an M/WBE is rejected based on cost, the County Contractor must submit a list of all sub-bidders for each item of work solicited and their bid prices for the work.
- h. The conditions of performance expected of Subcontractors by the County Contractor must also be included with the Best Effort Documentation.
- i. County Contractors may include any other type of documentation they feel necessary to further demonstrate their Best Efforts regarding their bid documents.

As used in this Appendix EE the term "Executive Director" shall mean the Executive Director of the Nassau County Office of Minority Affairs; provided, however, that Executive Director shall include a designee of the Executive Director except in the case of final determinations issued pursuant to Section (a) through (i) of these rules.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

TITLE

As used in this Appendix EE the term "Subcontract" shall mean an agreement consisting of part or parts of the contracted work of the County Contractor.

As used in this Appendix EE, the term "Subcontractor" shall mean a person or firm who performs part or parts of the contracted work of a prime contractor providing services, including construction services, to the County pursuant to a county contract. Subcontractor shall include a person or firm that provides labor, professional or other services, materials or supplies to a prime contractor that are necessary for the prime contractor to fulfill its obligations to provide services to the County pursuant to a county contract. Subcontractor shall not include a supplier of materials to a contractor who has contracted to provide goods but no services to the County, nor a supplier of incidental materials to a contractor, such as office supplies, tools and other items of nominal cost that are utilized in the performance of a service contract.

Provisions requiring contractors to retain or submit documentation of best efforts to utilize certified subcontractors and requiring Department head approval prior to subcontracting shall not apply to inter-governmental agreements. In addition, the tracking of expenditures of County dollars by not-for-profit corporations, other municipalities, States, or the federal government is not required.

Prohibition of Gifts. In accordance with County Executive Order 2-2018, the Contractor shall not offer, give, or agree to give anything of value to any County employee, agent, consultant, construction manager, or other person or firm representing the County (a "County Representative"), including members of a County Representative's immediate family, in connection with the performance by such County Representative of duties involving transactions with the Contractor on behalf of the County, whether such duties are related to this Agreement or any other County contract or matter. As used herein, "anything of value" shall include, but not be limited to, meals, holiday gifts, holiday baskets, gift cards, tickets to golf outings, tickets to sporting events, currency of any kind, or any other gifts, gratuities, favorable opportunities or preferences. For purposes of this subsection, an immediate family member shall include a spouse, child, parent, or sibling. The Contractor shall include the provisions of this subsection in each subcontract entered into under this Agreement.

Disclosure of Conflicts of Interest. In accordance with County Executive Order 2-2018, the Contractor has disclosed as part of its response to the County's Business History Form, or other disclosure form(s), any and all instances where the Contractor employs any spouse, child, or parent of a County employee of the agency or department that contracted or procured the goods and/or services described under this Agreement. The Contractor shall have a continuing obligation, as circumstances arise, to update this disclosure throughout the term of this Agreement.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

TITLE

INDEMNIFICATION:

Contractor agrees to indemnify and hold harmless County and its agents, officers and employees, from and against any and all losses, costs, expenses (including attorneys' fees and disbursements), damages and liabilities, arising out of or in connection with any acts or omissions of Contractor, its officers, agents or employees, provided, however, that Contractor shall not be responsible for that portion, if any, of a loss that is caused by the negligence of the County; and provided, further, that Contractor shall not be liable for consequential, indirect or special damages. Contractor shall, at County's demand and at County's direction, defend at its own risk and expense any and all suits, actions or legal proceedings which may be brought against County, its agents, officers or employees in connection with a loss for which Contractor is responsible under this paragraph.

DEFINITIONS:

- The term "County" as used herein, shall be deemed as reference to the County of Nassau, State of New York.
- The term "Contractor" as used herein, shall be deemed as reference to the successful bidder, vendor, proprietor, partnership, or corporation receiving an award to perform any or all of the services specified herein in accordance with the terms of this agreement.
- The term "agency" as used herein, shall be deemed as the department, division, bureau, office, agency or other Nassau County establishment authorized to receive the service specified herein.
- The term "Director" as used herein, shall be deemed as reference to the Director of the Office of Purchasing.
- The term "Blanket Order" as used herein, shall be deemed as the multiple use pricing agreement as a result of this bid.
- The term "Purchase Order" as used herein, shall be deemed as the single use pricing agreement as a result of this bid.
- The term "complete" as written in this bid must include all equipment, delivery and installation of same in its entirety, as listed in the contract documents, and is to include all supervision, labor, materials, plant equipment, transportation, testing, (if required) incidentals, and other facilities as necessary and/or required to execute all the work as herein specified, or as incidentally required to provide a complete operating installation.

NOTE: INSERT FEDERAL IDENTIFICATION NUMBER IN SPACE PROVIDED ON PAGE 1.

M/WBE, SDVOB and DBE Participation: The County encourages the participation of certified Service-Disabled Veteran-Owned Businesses ("SDVOB"), Minority or Women-Owned Business Enterprises ("M/WBE"), and Disadvantaged Business Enterprises ("DBE") in the bidding process. A Contractor that is certified by New York State or the County as a SDVOB, M/WBE, and/or DBE should include this information in their bid. For more information regarding the County's SDVOB, M/WBE, or DBE programs, please visit the Nassau County Office of Minority Affairs website

_____ TITLE

REQUIRED VENDOR DISCLOSURE FORMS

Prior to the bid opening, the following disclosure forms (the "Disclosure Forms") must be submitted in the Nassau County Vendor Portal at

https://apex5.nassaucountyny.gov/ords/f?p=312:LOGIN_DESKTOP:3445712403627:

- a. A duly completed and verified Business History Form, together with a current certified or verified financial statement and/or other commercially reliable written evidence of the bidder's credit, financial standing and capacity to perform in accordance with the terms of the Contract.
- b. All officers, and any individuals who hold a ten percent (10%) or greater ownership interest in the bidder, shall complete and verify the Principal Questionnaire.
- c. The County of Nassau Consultant's, Contractor's and Vendor's Disclosure Form
- d. Additionally, if the bidder utilizes the services of any individual or organization for the purposes of conducting lobbying activities and is awarded the contract, the successful proposer will be required to provide a copy of the Lobbyist Registration and Disclosure Form, completed and verified by that individual/organization.

PLEASE NOTE:

- If a bidder has previously submitted the Disclosure Forms in the Nassau County Vendor Portal, the bidder must ensure that the forms on file in the Portal are current, accurate, and have been recertified within three (3) months prior to the bid opening date. The bidder must also ensure that their response to question 7, and its subparts, on the Consultant's, Contractor's, and Vendor's Disclosure Form is provided in relation to the specific solicitation under consideration.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

TITLE

REQUESTS FOR INFORMATION OR CLARIFICATION

Before bidding, bidders must examine all of the Contract documents, including the specifications, any drawings, and all instructions. If the bidder finds any inconsistency, ambiguity, omission or error in the specifications, drawings, instructions or any other Contract document, or if the bidder is in doubt as to the meaning of any term or condition of the Contract, the bidder must promptly so notify the **Office of Purchasing** in writing prior to the bid opening. The failure of the bidder to notify the **Office of Purchasing**, prior to the bid opening of any inconsistency, ambiguity, omission or error that the bidder actually found, or that should have been discovered by a reasonably prudent bidder, will preclude and negate acceptance of the bidder's claim.

If the **Office of Purchasing** receives a notification from a bidder of a differing site condition or an inconsistency, ambiguity, omission or error in the Contract documents, the **Office of Purchasing** will, as it deems necessary or desirable, issue a written interpretation or correction to the Contract documents as an amendment to the Contract documents. Any such amendment will be made available electronically to each person that received a copy of the Contract documents as reflected in the records of the **Office of Purchasing**, and any such amendment will also be available at the place where the Contract documents are available for inspection by prospective bidders.

Upon such mailing or delivery, such amendment shall become part of the Contract documents and shall be binding on all bidders, whether or not they have had actual notice of such addendum.

Please note that all bidder requests for information or clarification must be received by the Authority at least 72 hours prior to the bid opening. Any bidder requests for information or issues with the contract documents presented after that time may not be addressed by the Office of Purchasing.

Ordinance # 153-2018

Pursuant to Ordinance # 153-2018, a bidder that is awarded a contract under this bid is required to pay the County an administrative service charge in accordance with the following schedule:

<u>Value of Contract</u>	<u>Administrative Fee</u>
\$0-\$10,000	\$0
Over \$10,000-\$50,000	\$160
Over \$50,000-\$100,000	\$266
Over \$100,000	\$533

After an award, the successful bidder(s) will be notified by the Director of Shared Services, or their designee, when payment of the administrative charge is due. Please note, if you are a religious, charitable, nonprofit, or not-for-profit organization, please include this information in your bid for consideration by the Director of the Shared Services to waive the fee.

Ordinance # 72-2014

The bidder declares that they are a registered vendor with the County. All registered vendors must pay a Two Hundred Seventy-Five Dollar (\$275.00) per contract fee to register Blanket contracts on the County's procurement website, as required under Ordinance # 72-2014.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

TITLE

INTENT

SCOPE: It is the INTENT of the County of Nassau to properly describe by these specifications, terms and conditions an adequate method of providing **Hazardous Materials Transport Storage and Disposal** for the agency or agencies named herein in order that they may enjoy uninterrupted service in consideration for payment of the price bid.

PURPOSE: The purpose of this bid is to establish a price structure on which items and/or services listed herein will be made under Blanket orders.

PERIOD COVERED: Shall be for one (1) year from the effective date. The County of Nassau reserves the right to extend the Blanket Order up to an additional four (4) year(s), at up to one (1) year options. However, the termination of the Blanket Order may be further extended up to two (2) months beyond the stated termination date. The maximum period of any Blanket Order as a result of this bid with renewal options applied shall be five (5) year(s), and if the further extension is applied, five (5) years and two (2) months.

ALL EXTENSIONS ARE SUBJECT UPON THE MUTUAL CONSENT OF BOTH PARTIES.

FIRM PRICES Price shall remain firm for the first year of the Blanket Purchase Order and no upward escalation will be permitted. Thereafter, increases in labor and/or material(s) costs may be considered provided they are based on certified labor contracts, uncontrollable materials costs which can be verified in national publications or other increases auditable by the County of Nassau. The burden of proof for such increases shall be upon the Contractor and shall be formally directed to the Director of Purchasing. The decision as to whether or not such increases will be granted shall be made by the Director of Purchasing and shall be final. In the event an increase is not granted when requested, the Contractor may elect to continue at the bid prices or given written notice of termination, upon receipt of which the Blanket Purchase Order will be re-bid.

AWARD: Award, if any, will be made to the lowest responsible bidder, who in the opinion of the Director of Purchasing, meets the specifications and qualifications stated herein. The Director of Purchasing reserves the right to make an award be items, groups, or classes of items or as a whole. Awards will be made in accordance with the terms and conditions attached hereto and made part hereof.

DELIVERY: Bidders are required to state guaranteed delivery date in terms of days after receipt of order in the space provided below and on page one. Bidders are cautioned to post realistic delivery dates. Guaranteed delivery dates will be strictly enforced. Must be made within 15 days A/R/O unless stated otherwise below:

Delivery to be made 14 **Days A/R/O.**

Delivery shall be made **ONLY** upon receipt of a Purchase Order, or in the case of a Blanket Order, upon receipt of a Direct Purchase Order(s) from a using agency authorized to use the Blanket Order which will be issued to the successful bidder. Purchase Order and Direct Purchase Order shall indicate the destination address. Inside delivery is required on all deliveries. Bidders agree that all orders shall be effective and binding upon the contractor when PLACED IN THE MAIL addressed to the Contractor at the address shown on the Blanket Order/Purchase Order PRIOR TO MIDNIGHT OF THE FINAL DAY OF CONTRACT.

INSPECTION: Bidders should be aware of Inspection and Delivery requirements as stipulated.

BILLING: Shall be made on County claim forms or Certified Invoices to the individual using County Agency upon completion of deliveries made against applicable Purchase Order(s) or Direct Purchase Order(s).

NO PARTIAL PAYMENTS WILL BE PAID.

*****VENDOR CLAIM CERTIFICATION*****

IF A CLAIM VOUCHER IS NOT BEING SUBMITTED, THE FOLLOWING CERTIFICATION **MUST** APPEAR ON THE INVOICE:

BIDDER Vice President, Treasurer, & Secretary
TITLE

arisen solely from accident or abuse occurring after delivery to the Nassau County agency. Contractor agrees to replace any parts, which in the opinion of the user, shall fail from the above reasons.

IMPORTANT NOTES: If a company policy or trade practice requires a different warranty period, the bidder may so state without fear of disqualifications. However, the bidder is cautioned that the length of warranty may, in some cases, be a deciding factor in making an award.

Equipment furnished hereunder shall meet the standards set forth in the Occupational Safety and Health Act of 1970.

BIDDER SHALL STATE WARRANTY

PERIOD: N/A - We are a service provider

NOTE: All warranties take effect only upon written acceptance of equipment by using agency and shall run full term from that point.

BIDDER SHALL INDICATE COST AND TERM OF ANY EXTENDED WARRANTY OPTION, IF AVAILABLE:

N/A - We are a service provider

TAX PROVISION: Purchases made by the County of Nassau are not subject to State, Local Sales Taxes or Federal Excise Taxes. Federal Exemption #A-109538 State Exemption #EX 7213062C. The County of Nassau is not subject to any Existing "Fair Trade Agreements" and bidders should be governed accordingly.

REDUCTION IN PRICES: If an award is made, the Contractor agrees, should prices be reduced to the general trade during the requirement period, the County shall receive the benefit of such reduction immediately upon effect. It shall be incumbent upon the Contractor to notify the Purchasing Department of such price reductions.

PRICE PROTECTION: Bidders are required to state period of price protection (in terms of days) after the bid opening.

STATE PRICE PROTECTION PERIOD: 90 **DAYS AFTER BID OPENING**

EXTENSION OF PRICE: It is anticipated that additional quantities of items specified herein may be required in the ensuing year. According, the County of Nassau requests that the prices bid be protected and be available to the County of Nassau for one (1) year from the date of the award. Economic conditions may not permit the price protection for an entire year. Bidders are requested to state the period for which bid prices will be applicable to potential additional orders.
90 days.

SPECIFICATIONS: Submit complete specifications and illustrations of products offered with the bid. Acceptance of a bid and designation of a manufacturer's catalog description, brand name or number in any Purchase or Blanket Order resulting there-from shall not be construed as qualification of the specifications of this bid or relief there-from, except as specifically stated in the Purchase or Blanket Order.

PRODUCT IDENTIFICATION: If a product(s) is identified by a BRAND NAME, a substitute of equal quality, construction, finish, composition, size, workmanship and performance characteristics may be acceptable. In submitting a bid, each bidder warrants that the substitute product being offered is an equal. Bid sheets shall be so noted of the manufacturer's name and brand of the product offered as an equal. If as a result of an award, a delivery is made of a brand or product represented as an equal which is subsequently deemed to be unacceptable, the Contractor shall be required, at his expense, to pick up the

TITLE

rejected item and replace it with brand(s) listed in this bid, or an acceptable equal which will have the approval of the Director.

PROTECTION FROM CLAIM AGAINST "OR EQUAL": In the event of any claim by any unsuccessful bidder concerning or relating to the issue of "equal or better" or "or equal", the successful bidder agrees, at his own cost and expense, to defend such claims or claims and agrees to hold the County of Nassau free and harmless from any and all claims for loss or damage arising out of this transaction for any reason whatsoever.

EQUIVALENT BIDS: Bidders may offer a product of the same capability, but of different manufacture and model than that specified in this bid. The use of the name of a manufacturer, brand, make or catalog designation in specifying items described herein does not restrict or preclude bidders from offering equivalent or better product bids. Such a designation is used only to indicate the character, quality and minimum performance desired. Equal or better product bids are permissible. A bidder submitting an equal or better product shall, at his own cost and expense be responsible for submitting proof and/or a demonstration of equivalence, compatibility and performance. However, acceptance of an equivalent product shall be strictly at the discretion of the Director. Any omission of the term "or equal" in any specific bid item listing should be disregarded by the bidder. All bidders shall have an absolute right to submit "equivalent" bids notwithstanding any other provision of the bid specifications.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

BIDDER

Vice President, Treasurer, & Secretary

TITLE

ALTERNATIVE ITEM: In submitting a bid on a commodity other than as specified, bidder shall furnish complete data and identification with respect to the alternate commodity he proposes to furnish. Consideration will be given to proposals submitted on alternate commodities to the extent that such action is deemed to serve the best interests of the County. If a bidder does not indicate that the commodity he proposes to furnish is other than as specified, it will be construed to mean that the bidder proposes to furnish the exact commodity as described. Consideration of the alternate shall be at the sole discretion of the Director. **MORE THAN ONE (1) BID ON EACH ITEM WILL NOT BE CONSIDERED, UNLESS OTHERWISE SPECIFIED BY THE COUNTY.**

REPLACEMENT PARTS: The requirements specified herein represent, for the most part, replacement and/or repair components to existing and presently owned equipment, and must match and inter-member without modification with the equipment and systems indicated.

ADDITIONAL BIDS: The County reserves the right, for any un-contemplated additional requirements of extraordinary quantities of particular items to call for new bids, therefore, whenever in the opinion of the Director of the Office of Purchase it is in the best interests of the County of Nassau to do so.

NON-ASSIGNMENT: In accordance with Section 138 of the State Finance Law, the contract may not be assigned by the Contractor or its right, title or interest therein assigned, transferred, conveyed, sublet or otherwise disposed of without the previous consent, in writing, of Nassau County and any attempts to assign the contract without the County's written consent are null and void.

NON PERFORMANCE

The Contractor agrees that in the event any of the services provided for under the terms of this contract should in any way be omitted or unsatisfactorily performed by the Contractor and/or his employees, the county shall so notify the contractor verbally and follow with a written notification of the deficient services for immediate correction. In the event the Contractor does not correct the deficient services after receipt of written notification, the Nassau County Department concerned will deduct a percentage based on the work not performed or performed unsatisfactorily from the Contractor's claim for the period covered. If the Contractor continues to omit or unsatisfactorily perform the required services, the County will arrange for the work to be done by another contractor and the cost of such work shall be deducted from any monies due or that may become due to the Contractor.

DISCLAIMER

Any Blanket Purchase Order issued as a result of this bid will establish terms and conditions pursuant to which certain materials and/or services are to be supplied or performed, from time to time, for a specified period upon issuance by the County of Delivery Orders. The Blanket Purchase Order is non-exclusive and the County is not bound to purchase, and no materials are to be delivered or services performed without a Delivery Order. The County shall be under no obligation whatsoever to issue such Delivery Orders. The Blanket Purchase shall not apply in any way to items of material or service deemed by the County in its sole discretion to be extraordinary or involve any special conditions, quantities, circumstances or complexities.

EVALUATION:

The Director of the Office of Purchasing (hereinafter known as the Director) reserves the right before making award to make investigations as to whether or not the items, qualifications, services or facilities offered by the Bidder meet the requirements set forth herein and are ample and sufficient to insure the proper performance in the event of an award. The Bidder must be prepared, if requested by the Director, to present evidence of experience, ability and financial standing, as well as a statement as to plant, machinery, trained personnel and capacity for the rendition of the service on which he is bidding. Upon request of the Director of Purchasing, successful bidder shall file certification from the manufacturer relative to authorization, delivery, service and guarantees. If it is found that the conditions of the bids are not complied with or that the services or equipment proposed to be furnished do not meet the requirements called for, or that the qualifications, financial standing or facilities are not satisfactory, the Director may reject such bids. It is distinctly understood, however, that nothing in the foregoing shall mean or imply that it is obligatory upon the Director to make any examinations before award; and it is further understood that, if such examination is made, it in no way relieves the Bidder from fulfilling all requirements and conditions of the bid.

ACCESS CLAUSE: Contractor, including its satellites, offices and/or subcontractors, if any, shall maintain full and complete books and records of accounts pertaining to this agreement, in accordance with accepted accounting practices and such other records as may be reasonably prescribed by the County of Nassau. Such books and records shall at all times be available for audit and inspection by the completion of all the services described in this agreement. Contractor further agrees that if any provision of Section 952 of the Omnibus Reconciliation Act of 1980 (PL-96-499) is found by a body of competent jurisdiction to be applicable to this contract, the Contractor agrees that it will make available upon written request by the Secretary of Health and Human Services, or the Comptroller General of the General Accounting Office, or any of their duly authorized representatives, a copy of this contract and any executed amendments thereto documents which relate to the calculation of the charges stated in the contract and copies of service reports documenting services performed. Such records will be available in accordance with the above for the period of six (6) years after the furnishing of any of the services described in this contract.

TERMINATION PREROGATIVE: The Director reserves the right to cancel the Blanket Order by giving not less than thirty (30) days written notice that, on or after a date therein specified, the contract shall be deemed terminated and cancelled.

VENDOR RESPONSIBILITY CRITERIA: The Director of Purchasing reserves the right before making an award to make investigations as to whether or not the qualifications, services, facilities or items offered by the bidder meet the requirements set forth herein and are ample and sufficient to ensure the proper performance in the event of an award. The bidder must be prepared, if requested by the Director of Purchasing, to present evidence of experience, ability, financial standing, as well as a statement as to plant, machinery, trained personnel and capacity for the rendition of the service on which the vendor is bidding. Upon request of the Director, the successful bidder shall file certification from the manufacturer relative to authorization, delivery, service and guarantees. If it is found that the conditions of the bid are not complied with or that the services or equipment proposed to be furnished do not meet the requirements called for, or that the qualifications, financial standing, or facilities are not satisfactory, the Director may reject such bids. It is distinctly understood, however, that nothing in the forgoing shall mean or imply that it is obligatory upon the Director to make any examinations before an award; and it is further understood that, if such examination is made, it in no way relieves the bidder from fulfilling all requirements and conditions of the bid.

IMPORTANT NOTE: The Director reserves the right to accept or reject any and all bids, or separable portions of offers, and waive technicalities, irregularities, and omissions if the Director determines the best interests of the County of Nassau will be served. The Director, in his sole discretion, may accept or reject illegible, incomplete or vague bids and his decision shall be final. A conditional or revocable bid which clearly communicates the terms or limitations of acceptance may be considered and contract award may be made in compliance with the bidder's conditional or revocable terms in the offer. Prior to award, the Director reserves the right to seek clarifications, request bid revisions, or to request any information deemed necessary for proper evaluation of bids from all bidders deemed to be eligible for contract award. Failure to provide requested information may result in rejection of the bid.

TITLE

GENERAL INSTRUCTIONS: All bidders must adhere to the following conditions:

As per New York State Municipal Law 103, no exception can be taken to any material term and/or condition of this bid with the exception of any warranties as presented in this bid for the specific commodity or service required.

Any language in any proposal or document submitted by a bidder as part of their bid that is accepted by the County of Nassau cannot be in conflict with any material term and/or condition relevant to this bid with the exception of any warranties or the specifications of the commodity of service required by this bid. If there is any conflict between the bidder's terms and conditions and the terms and conditions of this bid, the terms and conditions of this bid shall govern.

Bidders must insert **FEDERAL IDENTIFICATION NUMBER** in the space provided on page one of this bid.

Late Formal Sealed Bids will NOT be accepted. Bidders are urged to mail bids early to assure delivery on time. Bids must be received by 11:00 A.M. on the bid opening date.

Prices **MUST** be inserted with **TYPEWRITER OR INK**. Entries with **WHITE OUT, CROSS-OUTS OR LIFT-OFF TAPE** **MUST** BE INITIALED or that entry will be disqualified.

Bidders should submit bid with unit price in the appropriate column on bid pages or forms attached hereto. In the event of a discrepancy between the unit price and the extension, the unit price shall govern. Bidders shall submit one (1) original bid document and all applicable attachments. Any order issued against this bid will refer to the bid and attachments to designate items awarded. Bidders agree that all, Direct Purchase Orders and/or Purchase Orders shall be effective and binding upon the Contractor when placed in the mail, addressed to the Contractor at the address shown on the Direct Purchase Order or the Purchase Order.

Bidders **MUST** state manufacturer's name and catalog number of each item bid.

ABSOLUTELY NO MINIMUM ORDERS shall be applied to this bid.

Purchases made by Nassau County are not subject to State or Local Sales Tax or Federal Excise Taxes.

Federal Exemption Number: A-109538 **State Exemption Number: EX 7213062C**

Inside (receiving dock) delivery is required on all orders.

The rights and obligations of the parties under this agreement shall be governed by the laws of the State of New York.

Bids are hereby solicited for the commodities and/or services specified herein which are to be delivered and/or performed at the locations indicated, and in strict accordance with all specifications, terms and conditions attached hereto and made part hereof.

Bid document must be signed by proprietor, partner or corporate officer.

The clauses contained in these bid forms set forth the wishes of the County of Nassau in regard to the purchase and/or services required. However, the Director reserves the right to waive irregularities, omissions, or other technical defects if, in its judgment, the best interest of the County of Nassau will be served accordingly.

Bidders may take exception to paragraphs of the bid under a separate cover letter to be attached to this bid, indicating the specific bid page, paragraph and the exception(s). In any event, the decision of the Director will be final.

Qualification statement **MUST BE COMPLETED** and submitted with bid. See page 4 for further details

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

TITLE

GENERAL CONDITIONS:

All repairs to be made in accordance with the Occupational Safety and Health Administration safety requirements.

Contractor will furnish all labor, materials, transportation, tools, instrumentation, parts and accessories necessary to repair and restore the equipment to optimum operating condition.

All Contractor personnel assigned to any requirement of a contract established must be fully qualified and cognizant of the required and applicable electrical codes and safety requirements, and must adhere to them.

All parts supplied must match and inter-member without modification to the designated equipment, and must be in accordance with the specifications of the manufacturer of the part to be replaced.

Except as otherwise specified, all contract requirements will be performed at the site as required.

Any requirement to remove any part of the equipment or system(s), to the Contractor's shop, must be approved by an authorized agency representative. Nassau County shall supply all utilities which are available on location insofar as compatibility requirements permit.

All requirements performed by the Contractor will be subject to inspection and approval by an authorized designated representative of Nassau County.

Employees of the Contractor, while on service call, shall carry identification badges or cards and shall be instructed to submit same to scrutiny upon request of security or supervisory personnel of Nassau County.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

TITLE

Living Wage

Section 1. Authority and Usage

- a. These Rules are promulgated pursuant to Local Law 1-2006, section 7(b) which authorizes the County Executive to promulgate rules to implement the provisions of the Nassau County Living Wage Law.
- b. Wherever the term "Law" or "Living Wage Law" is used in this document, it shall mean Local Law 1-2006, otherwise known as the Nassau County Living Wage Law. Whenever the terms "Rule" or "Rules" are used in this document, it shall mean these Rules of the County Executive regarding the Nassau County Living Wage Law.

Section 2. Clarification of Terms

- a. Awarded. "Awarded" shall mean that time at which a contractor is selected by the County, or any department of the County, to receive county financial assistance, even if that time is before execution of a county financial assistance agreement by all parties or approval of such agreement by the County Legislature.

See Living Wage Law, § 5(a) "Certification of Compliance" and § 10 "Other Provisions"

- b. County Service Contract. "County Service Contract" shall mean any contract let to a contractor by the county for the furnishing of services to or for the county and that involves an expenditure equal to or greater than twenty-five thousand dollars. A contract for the sale of goods to the County, or a contract for the sale of goods where incidental services are being provided to the County, are not considered County Service Contracts. This definition shall not include contracts awarded pursuant to the county's emergency procurement procedure as set forth in section twenty-two hundred six of the county charter, inter-governmental agreements, agreements with state or local public authorities or agreements with local development corporations incorporated pursuant to section 1411 of the not-for-profit corporations law.

- c. County Financial Assistance. "County Financial Assistance" shall mean any grant, loan, tax incentive or abatement, bond financing, subsidy or other form of assistance of more than fifty thousand dollars given by or through the authority or approval of the county to an entity having at least ten employees. County financial assistance shall not include industrial development bonds, community development block grant loans, and enterprise-zone-related incentives.

- d. Employee and Employer.

i. Under Section 1 of the Living Wage Law, an "Employee" for the purposes of a county service contract is an employee of a county contractor "pursuant to one or more service contracts and who expends any of his or her time thereon." Thus, an Employee may be:

- A. Any person hired by a County contractor specifically to work on the County Service Contract at issue
- B. Any person employed by the County Contractor who works on the specific services contemplated by the County Service Contract

ii. An Employee is not:

- A. An employee who provides services which are only incidental to the services specified in the County Service Contract.

An employee who does not provide any services contemplated under the County Service Contract in Question

iii. For the purposes of the Living Wage Law, Nassau Community College is not an employer as defined in the Law. However, service contractors, financial assistance recipients and lessees of the College are employers as defined in the law and are subject to the provisions of the Living Wage Law as they are applicable.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

BIDDER SIGN HERE

BIDDER

Vice President, Treasurer, & Secretary

TITLE

See Living Wage Law, § 1 "Employee," "Employer"

e. Enter Into. "Enter into" shall mean that time at which both parties have signed the contract in question.

See Living Wage Law, § 1 "County Service Contract" and § 10(a) "Other Provisions"

3. Amendments, Extensions and Renewals

a. Renewals and Extensions. Where an existing County Financial Assistance Agreement, County Service Contract, or County Lease is renewed or extended after the effective date of the Law, such agreement is a new County Financial Assistance Agreement, County Service Contract or County Lease, as the case may be, and is subject to the applicable provisions of the Law.

b. Determination of Applicability.

i. County Service Contracts.

A. Any renewal of a County Service Contract is subject to the Living Wage Law if the total expenditure by the County under the renewal is \$25,000 or greater.

B. If a County Service Contract is extended or otherwise amended, such extension or amendment will be subject to the provisions of the Law if such amendment increases the total expenditure under the original agreement to an amount \$25,000 or over, or if such amendment itself involves an expenditure of \$25,000 or over. In no event shall the Law apply in a situation where an amendment involves an expenditure of less than \$25,000 and the original agreement already involves an expenditure of \$25,000 or over.

ii. County Financial Assistance Agreements.

A. Any renewal of a County Financial Assistance Agreement is subject to the Living Wage Law if the total expenditure by the County under the renewal is greater than \$50,000.

B. If a Financial Assistance Agreement is extended or otherwise amended, such extension or amendment will be subject to the provisions of the Law if such amendment increases the total expenditure under the original agreement to an amount over \$50,000, or if such amendment itself involves an expenditure over \$50,000. In no event shall the Law apply in a situation where an amendment involves an expenditure of \$50,000 or less and the original agreement already involves an expenditure over \$50,000.

iii. County Leases. Any renewal, extension or modification of a County Lease is subject to the provisions of the Living Wage Law.

See Living Wage Law, §10(a) "Other Provisions"

4. Waiver of the Law

a. Application of the Provision

i. Any County Contractor may apply for a waiver of the provisions of the Law. In order to qualify as a County Contractor, the applying organization must have a County Service Contract with the County of Nassau. A County Service Contract is a contract which contemplates providing a service to the County (not goods or any service performed only to deliver goods) for which the County is paying \$25,000 or more. Both non-profit and for-profit County Contractors may apply for a waiver.

ii. At this time, the Living Wage Law does not allow a County Lessee or an entity receiving County Financial Assistance to apply for a waiver of the Law's provisions.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

BIDDER SIGN HERE

BIDDER

Vice President, Treasurer, & Secretary

TITLE

b. Request for a Waiver The following procedures have been established by the County Executive for requesting a waiver of the provisions of the Living Wage Law:

i. Request for a waiver must be made to the Nassau County Office of Compliance. Since a waiver request must be made by a County Contractor who already has a contract with the County to provide services, a request for a waiver may only be made after the contract in question is entered into with the County.

ii. A request for a waiver must be made on the approved form designated "Request for Waiver of the Provisions of the Nassau County Living Wage Law." This form is attached to these rules. Additional forms may be requested by contacting the agency with which the requesting organization has a contract.

iii. Except for those requesting organizations with County Service Contracts listed in section 4(b)(iv)(E)(3) below, those requesting organizations which plan to request a waiver once a County Service Contract has been entered into must include, in their bid or proposal for the specific County Service Contract, a budget breakdown stating the amount of the budget allocated to wages (*assuming the Living Wage Law applies*), and the amount of the budget allocated to services and other contract expenses.

A. In any budget breakdown submitted, the requesting organization must include only those employees who are included within the definition of "Employee" described above.

B. Those County contractors who have been awarded a contract through Executive Order No. 1 of 1993, a state or federal grant, General Municipal Law section 104, or any other state or federal rule or regulation must submit the above budget breakdown to the contracting agency before such contract is entered into with the County in order to be eligible for a waiver.

iv. A waiver request must contain the following information:

A. The name of the organization

B. The address of the organization

C. A brief description of the contract which the waiver pertains to.

D. The name and email address of the Chief Executive Officer of the requesting organization

E. The criteria (hereinafter, the "Criteria") for qualifying for a waiver under the provisions of the Law. Currently, a requesting organization must meet either Criteria 1, 2 or 3 below, and, if Criteria 1, 2 or 4 are cited, must meet Criterion 5 below:

1. The highest paid officer or employee of the requesting organization earns a salary which, when calculated on an hourly basis, is less than six times the lowest wage or salary paid by the requesting organization.

OR

2. Compliance with the requirements of the Living Wage Law will directly increase the requesting organization's expected total annual budget in an amount greater than ten percent of the prior fiscal year's budget.

OR

3. The requesting organization is providing any of the following services to the County and compliance with the Living Wage Law would exceed the amount, per hour or per diem (as the case may be), reimbursed to the County by any State or Federal Source:

Services under the Expanded In-Home Services for the Elderly Program (EISEP)

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

BIDDER

Vice President, Treasurer, & Secretary

TITLE

Foster care services under the New York Social Services Law.
Residential domestic violence services under the New York Social Services Law.
Residential care, educational and vocational training, physical and mental health services, and employment counseling services to residents of the Juvenile Detention Center under the New York Executive Law.

OR

4. The requesting organization is providing any of the following services to the County and compliance with the Living Wage Law would increase the County Service Contract's budget by greater than ten percent over the budget for the requesting organization's County Service Contract for the previous contracting year:

- i. Non-residential domestic violence services under the New York Social Services Law.
 - ii. Services under the Home Energy Assistance Program (HEAP)
- Preventive services for children pursuant to the New York Social Services Law
Non-Secure detention services pursuant to the New York Executive Law.

AND (if Criteria 1, 2 or 4)

5. When the requesting organization placed a bid or submitted a proposal for the county service contract at issue, it must have submitted a budget which included a breakdown of the wages paid to employees of the requesting organization who would be covered under the Living Wage Law.

F. A statement that, if a waiver is granted, the requesting organization will decrease its budgeted wage allocation to that amount the requesting organization would have paid its employees had the requirements of Living Wage Law not been applied. The amount to be paid by the County to the requesting organization will be reduced accordingly by contract amendment.

G. The notarized signature of the requesting organization's Chief Executive Officer.

v. A request must be accompanied by documentation supporting the Criteria claimed by the requesting organization.

A. If Criteria (1) is cited in the request, the requestor must include a statement, certified by the chief financial officer of the requesting organization as true and accurate, of the wages paid, on an hourly basis, of the highest and lowest paid individuals employed by the requesting organization.

B. If Criteria (2) is cited in the request, the requestor must provide a copy of the requesting organization's budget for the last fiscal year along with a copy of the organization's expected budget taking into account increases in salary as a result of compliance with the Living Wage Law. Both budgets must be certified as complete and accurate by the chief financial officer of the requesting organization.

C. If Criteria (4) is cited in the request, the requestor must provide a copy of the requesting organization's budget for the County Service Contract for the prior agreement year along with the requesting organization's budget for the County Service Contract for the current agreement year which takes into account increases in salary as a result of compliance with the Living Wage Law. Both budgets must be certified as complete and accurate by the chief financial officer of the requesting organization.

vi. The request form and all documentation must be sent to the following address:

County of Nassau Office of Compliance
Attention: Living Wage Waiver Request Office
One West Street - 4th Floor
Mineola, New York 11501

c. Waiver and Procurement

BIDDER

Vice President, Treasurer, & Secretary

TITLE

i. As a waiver may only be requested once a County Service Contract has been entered into, no waiver application may be submitted by any organization submitting a bid or proposal to the County for a County Service Contract.

ii. The fact that a waiver may be granted to an organization submitting a bid or proposal to the County for a County Service Contract will not be a consideration in evaluating such bid or proposal.

d. Review Procedures

i. Review of a request for a waiver must be made by the Office of Compliance.

ii. Approval of a request is dependent on the requestor satisfying either criteria (1), (2) or (3) in section 4(b)(iv)(E) above and, if citing criteria (1), (2) or (4), criterion (5) in section 4(b)(iv)(E) above. Applications not satisfying these criteria, or incomplete applications, will not be approved. However, complete applications that do meet these criteria shall be approved by the Office of Compliance.

iii. The Office of Compliance shall inform the requestor of his or her decision to grant or deny a request in writing within thirty days of receipt of the request. A copy of the grant or denial shall be transmitted to the County Comptroller for the purposes of monitoring compliance with the Living Wage Law.

iv. During such thirty day period, the requestor must continue to abide by the provisions of the Living Wage Law. Failure to do so may result in action by the Office of the Nassau County Comptroller to enforce the provisions of the Law.

e. Post-Award Review

i. After the County grants a waiver, if at any time during the term of the County Service Contract the requesting organization alters its budget or wages such that the organization no longer qualifies for a waiver of the Living Wage Law, the requesting organization must contact the County department with which it contracts and inform such department of such alteration.

ii. If a County department is contacted in reference to such a change, the department must either:

Amend the County Service Contract in question to restore any funding subtracted from the contract as a result of a waiver of the Living Wage Law and receive from the Contractor a completed Certificate of Compliance; or

Terminate such Contract according to its terms.

See Living Wage Law, § 9 "Waiver"

5. Inter-Governmental Agreements

a. The Living Wage Law shall not apply to those County Service Contracts which are entered into with any municipal corporation located within the County, any school district located within the County, and any special district located within the County.

b. County Financial Assistance Agreements and County Leases. The Living Wage Law shall not apply to a County Financial Assistance Agreement or a County Lease in the event that application of the law would conflict with the application of a federal, state or local law, rule, regulation or ordinance. For the purposes of this Rule, the Living Wage Law would not apply to a County Financial Assistance Agreement or County Lease where funding for the Agreement or Lease is derived from a Federal or state grant where the distribution of such grant funds to certain subrecipients is mandatory and non-discretionary.

See Living Wage Law, § 1 "County Service Contract," "Inter-governmental Agreement;" § 3 "Minimum Compensation;" §10 "Other Provisions"

6. Certification of Compliance

BIDDER

Vice President, Treasurer, & Secretary

TITLE

a. An updated certification of compliance with the provisions of the Living Wage Law shall be submitted to the County on or before the first day of each agreement year during the term of any County Service Contract.

b. For the purposes of updating a certification of compliance, a "material change" as used in the Law shall be limited to the following:

i. Any determination by the County Comptroller that the contractor has violated any provision of the Law.

ii. Any instance during the preceding year in which the contractor has been found by a court or governmental agency to have violated federal state or local laws regulating payment of wages or benefits, labor relations or occupational safety and health, or where any governmental body has initiated a judicial action, administrative proceeding or investigation of the contractor in regard to any of the above laws.

See Living Wage Law, § 5 "Certification of Compliance"

7. Nassau County Employees

a. All Nassau County Employees are covered by the provisions of the Living Wage Law, provided, however, that Nassau County Employees covered by the collective bargaining agreement between the County and the Civil Service Employees Association are not entitled to receive the benefits supplement rate as the term is defined in the Law. The provisions of the Law also extend to paid interns hired by the County.

b. The Living Wage Law does not apply to volunteer workers utilized by the County pursuant to the County's authority to use volunteer workers under § 2105 of the Nassau County Charter. As such, the Law does not cover unpaid interns utilized by the County.

See Living Wage Law, § 1 "Employee," "Employer," § 10 "Other Provisions"

Appendix L

Certificate of Compliance

In compliance with Local Law 1-2006, as amended (the "Law"), the Contractor hereby certifies the following:

The chief executive officer of the Contractor is:

Andrew Shackett (Name)
1500 Rahway Ave.; Avenel, NJ 07001 (Address)
732-375-9988 (Telephone Number)

The Contractor agrees to either (1) comply with the requirements of the Nassau County Living Wage Law or (2) as applicable, obtain a waiver of the requirements of the Law pursuant to section 9 of the Law. In the event that the contractor does not comply with the requirements of the Law or obtain a waiver of the requirements of the Law, and such contractor establishes to the satisfaction of the Department that at the time of execution of this agreement, it had a reasonable certainty that it would receive such waiver based on the Law and Rules pertaining to waivers, the County will agree to terminate the contract without imposing costs or seeking damages against the Contractor

Mr. Robert A. ...
TITLE

NY STATE LABOR LAW

If any portion of work being Bid is subject to the prevailing wage rate provisions of the Labor Law, the following shall apply:

a. "Public Works" and "Building Services" - Definitions

i. Public Works Labor Law Article 8 applies to county contracts for public improvements in which laborers, workers or mechanics are employed on a "public works" project (distinguished from public "procurement" or "service" contracts).

ii. Building Services Labor Law Article 9 applies to Contracts for building service work with the county, that: (i) involve the care or maintenance of an existing building, or (ii) involve the transportation of office furniture or equipment to or from such building, or (iii) involve the transportation and delivery of fossil fuel to such building, and (iv) the principal purpose of which is to furnish services through use of building service employees.

b. Prevailing Wage Rate Applicable to Bid Submissions A copy of the applicable prevailing wage rates to be paid or provided are annexed to the Bid Documents. Bidders must submit Bids which are based upon the prevailing hourly wages, and supplements in cash or equivalent benefits (i.e., fringe benefits and any cash or non-cash compensation which are not wages, as defined by law) that equal or exceed the applicable prevailing wage rate(s) for the location where the work is to be performed. Bidders may not submit Bids based upon hourly wage rates and supplements below the applicable prevailing wage rates as established by the New York State Department of Labor. Bids that fail to comply with this requirement will be disqualified. Information indicating that prevailing wages are not being paid on a public works project will be forwarded to the New York State Department of Labor for investigation. Willful violations of the prevailing wage provisions of the Labor Law may result in debarment from the bidding and award of public contracts.

c. Wage Rate Payments / Changes During Contract Term The wages to be paid under any resulting Contract shall not be less than the prevailing rate of wages and supplements as set forth by law. It is required that the Contractor keep informed of all changes in the Prevailing Wage Rates during the Contract term that apply to the classes of individuals supplied by the Contractor on any projects resulting from this Contract, subject to the provisions of the Labor Law. Contractor is solely liable for and must pay such required prevailing wage adjustments during the Contract term as required by law.

d. Public Posting & Certified Payroll Records In compliance with Article 8, Section 220 of the New York State Labor Law:

i. Posting The Contractor must publicly post on the work site, in a prominent and accessible place, a legible schedule of the prevailing wage rates and supplements.

ii. Payroll Records Contractors and Subcontractors must keep original payrolls or transcripts subscribed and affirmed as true under the penalties of perjury as required by law. For public works contracts over \$25,000 where the Contractor maintains no regular place of business in New York State, such records must be kept at the work site. For building services contracts, such records must be kept at the work site while work is being performed.

iii. Submission of Certified Payroll Transcripts for Public Works Contracts Only Contractors and Subcontractors on public works projects must submit monthly payroll transcripts to the project manager for a public works project.

iv. Records Retention Contractors and Subcontractors must preserve copies of such certified transcripts for a period of three years from the date of completion of work on the awarded contract.

If this contract is for Building Service Work as defined in Article 9 of the Labor Law, State law prohibits other political subdivisions and districts within the County from making purchases pursuant to this agreement.

The County Living Wage Law, Title 57, Section 3(a)(i), states: employers who provide building services shall pay their employees no less than the living wage, as required by this section, or the prevailing wage, whichever is greater. In future bidding procedures, the requirement should be "vendor must pay the prevailing wage, or the County Living Wage, whichever is greater", or similar language.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

TITLE

RECORD RETENTION: Contractor shall retain complete and accurate records and documents related to this Agreement for six (6) years following the later of termination or final payment. Such records shall at all times be available for audit and inspection by the County.

Governing Law – Consent to Jurisdiction and Venue; Governing Law. Unless otherwise specified in this Agreement or required by Law, exclusive original jurisdiction for all claims or actions with respect to this Agreement shall be in the Supreme Court in Nassau County in New York State and the parties expressly waive any objections to the same on any grounds, including venue and forum non conveniens. This Agreement is intended as a contract under, and shall be governed and construed in accordance with, the Laws of New York State, without regard to the conflict of laws provisions thereof.

PRE BID SITE VISITS: The prospective suppliers, when bidding, represents and warrants that he has visited and knows the site(s) or premise(s) upon which the work, as described in these bid specifications, is to be performed hereunder and that he has informed himself of all existing conditions affecting the work and as to the work of other coming in conjunction with his work. Failure of the bidder to thoroughly acquaint himself with the site and local conditions shall not relieve him of his responsibility, and shall not entitle him to any claim for extras. Bidders may call _____ for an appointment to visit the site.

42. 30 gallon drum \$ 45.00 /drum

43. 55 gallon drum \$ 55.00 /drum

43A DOT rate 4 ft. tube \$ 62.50 /tube

44. Pallet/Shrink Wrap \$ 4,500.00 /per pallet (48 boxes with 4 rolls in each box)

*supplies on as needed basis, intent is to use original packaging & shrink wrap to pallets

45. Repackaging fee per drum (if applicable) \$ 200.00

46. Transportation pickup (if applicable) \$ 450.00

Subcontracting no more than 10% markup

Subcontracting Markup 8 %

Vendor must have prior approval from using agency on all subcontracting work.

Rigging Cost Plus 10 %

Equipment Rental Cost Plus 0%

Self-Owned Equipment (Scaffolding, Boom Truck etc.) must have prior approval and will be billed at the most current version of the EquipmentWatch Blue Book Ownership and Operating rates when applicable. A copy of the most current EquipmentWatch page that displays the equipment that was used must be submitted with the claim.

Rigging must have prior approval from the using agency and will be reimbursed as long as a paid invoice is submitted with the claim

equipment rentals will be reimbursed as long as a paid invoice is submitted with the claim.

In all cases, all equipment rentals shall be approved by a designated County representative prior to commencement of work.

On all jobs performed by the vendor, job location shall be restored to a safe and aesthetically acceptable condition prior to departure.

Vendor must be able to work at multiple sites at any given time. Proof of adequate qualified employees may be requested prior to award.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

BIDDER

Vice President, Treasurer, & Secretary

TITLE

Bidders are hereby advised that to insure and facilitate payment, the following information must accompany the contractor's claim:

1. Time sheet signed by authorized county personnel. Time sheets shall show time of arrival and time of departure. Travel time to and from place of employment or prior jobs shall not be considered in the total work time charged to the using agency and must not be submitted.
2. Details of parts used:

Only actual system components will be billed. If parts are purchased to complete the repair, photocopies of the invoices must be furnished with the claim without revision or eradication. Exception: Contractor may block-out credit payment details on invoice. Compliance with the above is necessary in order to expedite the payment. Claims without the above will be returned to contractor without payment until a complete claim is submitted

Award if any will be made as a whole to the lowest responsible bidder, other services can be added to this contract with written quote and amendment.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

TITLE

**HAZARDOUS MATERIALS
CERTIFICATE OF REGISTRATION
FOR REGISTRATION YEAR(S) 2019-2021**

Registrant: ACV Environmental Services, Inc
ATTN: Kellie Case
1500 Rahway Ave
Avenel, NJ 07001

This certifies that the registrant is registered with the U.S. Department of Transportation as required by 49 CFR Part 107, Subpart G.

This certificate is issued under the authority of 49 U.S.C. 5108. It is unlawful to alter or falsify this document.

Reg. No: 052419600004BC Effective: July 1, 2019 Expires: June 30, 2021

HM Company ID: 13694

Record Keeping Requirements for the Registration Program

The following must be maintained at the principal place of business for a period of three years from the date of issuance of this Certificate of Registration:

- (1) A copy of the registration statement filed with PHMSA; and
- (2) This Certificate of Registration

Each person subject to the registration requirement must furnish that person's Certificate of Registration (or a copy) and all other records and information pertaining to the information contained in the registration statement to an authorized representative or special agent of the U. S. Department of Transportation upon request.

Each motor carrier (private or for-hire) and each vessel operator subject to the registration requirement must keep a copy of the current Certificate of Registration or another document bearing the registration number identified as the "U.S. DOT Hazmat Reg. No." in each truck and truck tractor or vessel (trailers and semi-trailers not included) used to transport hazardous materials subject to the registration requirement. The Certificate of Registration or document bearing the registration number must be made available, upon request, to enforcement personnel.

For information, contact the Hazardous Materials Registration Manager, PHH-52, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation, 1200 New Jersey Avenue, SE, Washington, DC 20590, telephone (202) 366-4109.

Advanced Waste and Water Technology	Farmingdale , NY	Non-Hazardous Industrial/Commercial Petroleum Contaminated Soil	

*** AUTHORIZED WASTE TYPES BY DESTINATION FACILITY LISTING (continued on next page) ***

NOTE: By acceptance of this permit, the permittee agrees that the permit is contingent upon strict compliance with the Environmental Conservation Law, all applicable regulations, and the General Conditions printed on the back of this page.

ADDRESS:

New York State Department of Environmental Conservation
Division of Materials Management - Waste Transporter Program
605 Broadway, 6th Floor

AUTHORIZED SIGNATURE

Date: 07 / 13 / 2020

WASTE TRANSPORTER PERMIT

GENERAL CONDITIONS

The permittee must:

1. Carry a copy of this waste transporter permit in each vehicle to transport waste. Failure to produce a copy of the permit upon request is a violation of the permit.
2. Display the full name of the transporter on both sides of each vehicle and display the waste transporter permit number on both sides and rear of each vehicle containing waste. The displayed name and permit number must be in characters at least three inches high and of a color that contrasts sharply with the background.
3. Transport waste only in authorized vehicles. An authorized vehicle is one that is listed on this permit.
4. Submit to the Department a modification application for additions/deletions to the authorized fleet of vehicles. The permittee must wait for a modified permit before operating the vehicles identified in the modification application.
5. Submit to the Department a modification application to add a new waste category or a new destination facility, or to change the current waste or destination facility category. The permittee must wait for a modified permit before transporting new waste types or transporting to new destination facilities.
6. Submit to the Department a modification application for change of address or company name.
7. Comply with requirements for placarding and packaging as set forth in New York State Transportation Law as well as any applicable federal rules and regulations.
8. Contain all wastes in the vehicle so there is no leaking, blowing, or other discharge of waste.
9. Use vehicles to transport only materials not intended for human or animal consumption unless the vehicle is properly cleaned.
10. Comply with requirements for manifesting hazardous waste, regulated medical waste, or low-level radioactive waste as set forth in the New York State Environmental Conservation Law and the implementing regulations. Transporters who provide a pre-printed manifest to a generator/shipper/officer of regulated waste shall ensure that all information is correct and clearly legible on all copies of the manifest.
11. Deliver waste only to transfer, storage, treatment and disposal facilities authorized to accept such waste. Permittee must demonstrate that facilities are so authorized if requested to do so.
12. Maintain liability insurance as required by New York State Environmental Conservation Law.
13. Maintain records of the amount of each waste type transported to each destination facility on a calendar-year basis. The transporter is obligated to provide a report of this information to the Department at the time of permit renewal, or to any law enforcement officer, if requested to do so.
14. Pay regulatory fees on an annual basis. Non-payment may be cause for revocation or suspension of permit.
15. This permit is not transferrable. A change of ownership will invalidate this permit.
16. This permit does not relieve the permittee from the obligation to obtain any other approvals or permits, or from complying with any other applicable federal, state, or local requirement.
17. **Renewal applications must be submitted no less than 30 days prior to the expiration date of the permit to:**

**New York State Department of Environmental Conservation
Division of Materials Management, Waste Transporter Program

US EPA ID NUMBER: NJD003812047

AUTHORIZED WASTE TYPES BY TREATMENT, STORAGE & DISPOSAL FACILITIES:

The Permittee is Authorized to Transport the Following Waste Type(s) to the Destination Facility listed :

Destination Facility	Location	Waste Type(s)	Note
RADIAC RESEARCH CORPORATION	BROOKLYN , NY	Low-Level Radioactive Waste (LLRW)	

NOTE: By acceptance of this permit, the permittee agrees that the permit is contingent upon strict compliance with the Environmental Conservation Law, all applicable regulations, and the General Conditions printed on the back of this page.

ADDRESS: New York State Department of Environmental Conservation
Division of Environmental Remediation
Bureau A, Radiological Sites Section
625 Broadway, 11th Floor

AUTHORIZED SIGNATUR

Date: 07 / 13 / 2020

WASTE TRANSPORTER PERMIT

GENERAL CONDITIONS

The permittee must:

1. Carry a copy of this waste transporter permit in each vehicle to transport waste. Failure to produce a copy of the permit upon request is a violation of the permit.
2. Display the full name of the transporter on both sides of each vehicle and display the waste transporter permit number on both sides and rear of each vehicle containing waste. The displayed name and permit number must be in characters at least three inches high and of a color that contrasts sharply with the background.
3. Transport waste only in authorized vehicles. An authorized vehicle is one that is listed on this permit.
4. Submit to the Department a modification application for additions/deletions to the authorized fleet of vehicles. The permittee must wait for a modified permit before operating the vehicles identified in the modification application.
5. Submit to the Department a modification application to add a new waste category or a new destination facility, or to change the current waste or destination facility category. The permittee must wait for a modified permit before transporting new waste types or transporting to new destination facilities.
6. Submit to the Department a modification application for change of address or company name.
7. Comply with requirements for placarding and packaging as set forth in New York State Transportation Law as well as any applicable federal rules and regulations.
8. Contain all wastes in the vehicle so there is no leaking, blowing, or other discharge of waste.
9. Use vehicles to transport only materials not intended for human or animal consumption unless the vehicle is properly cleaned.
10. Comply with requirements for manifesting hazardous waste, regulated medical waste, or low-level radioactive waste as set forth in the New York State Environmental Conservation Law and the Implementing regulations. Transporters who provide a pre-printed manifest to a generator/shipper/officer of regulated waste shall ensure that all information is correct and clearly legible on all copies of the manifest.
11. Deliver waste only to transfer, storage, treatment and disposal facilities authorized to accept such waste. Permittee must demonstrate that facilities are so authorized if requested to do so.
12. Maintain liability insurance as required by New York State Environmental Conservation Law.
13. Maintain records of the amount of each waste type transported to each destination facility on a calendar-year basis. The transporter is obligated to provide a report of this information to the Department at the time of permit renewal, or to any law enforcement officer, if requested to do so.
14. Pay regulatory fees on an annual basis. Non-payment may be cause for revocation or suspension of permit.
15. This permit is not transferrable. A change of ownership will invalidate this permit.
16. This permit does not relieve the permittee from the obligation to obtain any other approvals or permits, or from complying with any other applicable federal, state, or local requirement.
17. **Renewal applications must be submitted no less than 30 days prior to the expiration date of the permit to:**

**New York State Department of Environmental Conservation
Division of Materials Management, Waste Transporter Program
625 Broadway, 9th Floor
Albany, NY 12233-7251**

County of Nassau

To whom it may concern:

In our continuing effort to provide timely certificate delivery, Lockton Companies is transitioning to paperless delivery of Certificates of Insurance.

To ensure electronic delivery for future renewals of this certificate, we need your email address. Please contact us via one of the methods below, referencing Certificate ID **16884077**.

- Email: Chicagoedelivery@lockton.com
- Phone: 866-297-8023

If you received this certificate through an internet link where the current certificate is viewable, we have your email and no further action is needed.

In the event your mailing address has changed, will change in the future, or you no longer require this certificate, please let us know using one of the methods above.

The above inbox is for automating electronic delivery of certificates only. Please do NOT send future certificate requests to this inbox.

Thank you for your cooperation and willingness in reducing our environmental footprint.

The evaluation for this formal sealed bid was based on invoices received from the department of Public Works. There were 142 pickups for poison solid, 12 pickups for poison liquid, 20 charges for 55 gal containers 2 charges for absorbent material 17 charges for labor packing and 1 charge for transportation. Base of these pickups and charges the following chart was created.

	Radiac Research	Island Pump	Innovative	ACV Environmental	AARCO
	142 x \$585.00 = \$83,070.00	142 x \$462.00 = \$65,604.00	142 x \$550.00 = \$78,100	142 x \$375.00 = \$53,250.00	142 x \$450.00 = \$63,900.00

ADDITIONAL REMARKS

CERTIFICATE NUMBER: 2084368

THIS ADDITIONAL REMARKS FORM IS A SCHEDULE TO ACORD FORM.
 FORM NUMBER: 25 FORM TITLE: CERTIFICATE OF LIABILITY INSURANCE

The following provisions apply when required by written contract. As used below, the term certificate holder also includes any person or organization that the insured has become obligated to include as a result of an executed contract or agreement.

GENERAL LIABILITY:

Certificate holder is Additional Insured including on-going and completed operations when required by written contract.
 Coverage is primary and non-contributory when required by written contract.
 Waiver of Subrogation in favor of the certificate holder is included when required by written contract.

Medical Payment coverage is available under the General Liability policy only when required by written agreement and limited to the amount required in the agreement or the maximum sublimit found within the General Liability policy, whichever is less.

AUTO LIABILITY:

Certificate holder is Additional Insured when required by written contract.
 Coverage is primary and non-contributory when required by written contract.
 Waiver of Subrogation in favor of the certificate holder is included when required by written contract.

WORKERS COMPENSATION AND EMPLOYERS LIABILITY:

Waiver of Subrogation in favor of the certificate holder is included when required by written contract where allowed by state law.

Stop gap coverage for ND, WA and WY is covered under policy no. WLR C67824064 and stop gap coverage for OH is covered under policy no. WCU C67824143, as noted on page 1 of this certificate.

TEXAS EXCESS INDEMNITY AND EMPLOYERS LIABILITY:

Insured is a registered non-subscriber to the Texas Workers Compensation Act. Insured has filed an approved Indemnity Plan with the Texas Department of Insurance which offers an alternative in benefits to employees rather than the traditional Workers Compensation Insurance in Texas. The excess policy (#TNS C68990592) shown on this certificate provides excess Indemnity and Employers Liability coverage for the approved Indemnity Plan.

Contractual Liability is included in the General Liability and Automobile Liability coverage forms. The General Liability and Automobile Liability policies do not contain endorsements excluding Contractual Liability.

Separation of Insured (Cross Liability) coverage is provided to the Additional Insured, when required by written contract, per the Conditions of the Commercial General Liability Coverage form and the Automobile Liability Coverage form.

The Umbrella/Excess Liability policy is follow form over the General Liability, Automobile Liability and Employer's Liability policies shown on this certificate.

Insurer Affording Pollution Coverage - Tokio Marine Specialty Insurance Co. (NAIC # 23850) Policy No. PPK2290912

Material Adverse Information Identified? [Yes ___/No X] (If Yes, attach memo.)

Narrative

Purpose: To notify the Rules Committee that funding for Blanket Purchase Order BPNC21000160 for Pool Equipment Repair, Maintenance and Service for Nassau County Department of Parks, Recreation and Museums has reached a level that requires oversight by said committee.

Discussion: This Blanket Purchase Order has been in effect since August 31, 2021 and based on 2021/2022 estimated usage, will reach a spending level that requires approval (oversight) by the Rules Committee. The current estimated annual usage is Seventy-Five Thousand Dollars (\$75,000.00) and will need to be increased by One Hundred Twenty-Five Thousand (\$125,000.00) for a total annual usage of Two Hundred Thousand Dollars (\$200,000.00). The solicitation was advertised in Newsday and posted to the Nassau County Solicitation Board where eight (8) vendors viewed the bid.

Impact on Funding: The original maximum amount authorized under this Blanket Purchase Order, including all renewal options was Three Hundred Seventy-Five Thousand Dollars (\$375,000.00). This request is to increase the maximum amount authorized under this Blanket Purchase Order so that the maximum amount, including any renewal options that may be exercised by the Commissioner of Shared Services, shall be One Million Dollars (\$1,000,000.00).

Recommendation: Department of Shared Services, Office of Purchasing recommends approving oversight of funding for this Blanket Purchase Order with Eagle Control Corp. as the lowest responsible bidder meeting specifications.

A RESOLUTION AUTHORIZING THE COMMISSIONER OF SHARED SERVICES TO APPROVE ADDITIONAL FUNDING FOR A BLANKET PURCHASE ORDER BETWEEN THE COUNTY OF NASSAU, ACTING ON BEHALF OF THE NASSAU COUNTY DEPARTMENT OF PARKS, RECREATION AND MUSEUMS, AND EAGLE CONTROL CORP.

WHEREAS, the NASSAU COUNTY DEPARTMENT OF SHARED SERVICES, OFFICE OF PURCHASING has received competitive bids under sealed bid solicitation # 93165-06151-101 for Pool Equipment Repair, Maintenance and Service, as more particularly described in the bid document; and

WHEREAS, the Commissioner of Shared Services is representing to the Rules Committee that Eagle Control Corp. submitted the lowest responsible bid that meets all specifications for the product and/or services described in the said bid document, and was awarded a Blanket Purchase Order (the “BPO”); and

WHEREAS, the Commissioner is representing to the Rules Committee that the BPO with Eagle Control Corp. has reached a level of spending requiring oversight approval by the Rules Committee, as determined by the Commissioner of Shared Services.

RESOLVED, that the Rules Committee of the Nassau County Legislature authorizes the Commissioner of Shared Services to approve additional funding for the said BPO with Eagle Control Corp.

COUNTY OF NASSAU

POLITICAL CAMPAIGN CONTRIBUTION DISCLOSURE FORM

1. Has the vendor or any corporate officers of the vendor provided campaign contributions pursuant to the New York State Election Law in (a) the period beginning April 1, 2016 and ending on the date of this disclosure, or (b), beginning April 1, 2018, the period beginning two years prior to the date of this disclosure and ending on the date of this disclosure, to the campaign committees of any of the following Nassau County elected officials or to the campaign committees of any candidates for any of the following Nassau County elected offices: the County Executive, the County Clerk, the Comptroller, the District Attorney, or any County Legislator?

YES NO If yes, to what campaign committee?

2. VERIFICATION: This section must be signed by a principal of the consultant, contractor or Vendor authorized as a signatory of the firm for the purpose of executing Contracts.

The undersigned affirms and so swears that he/she has read and understood the foregoing statements and they are, to his/her knowledge, true and accurate.

The undersigned further certifies and affirms that the contribution(s) to the campaign committees identified above were made freely and without duress, threat or any promise of a governmental benefit or in exchange for any benefit or remuneration.

3. Do you have an equity interest in the business submitting the questionnaire?

YES NO If Yes, provide details.

SOLE SHAREHOLDER

4. Are there any outstanding loans, guarantees or any other form of security or lease or any other type of contribution made in whole or in part between you and the business submitting the questionnaire?

YES NO If Yes, provide details.

5. Within the past 3 years, have you been a principal owner or officer of any business or notfor-profit organization other than the one submitting the questionnaire?

YES NO If Yes, provide details.

6. Has any governmental entity awarded any contracts to a business or organization listed in Section 5 in the past 3 years while you were a principal owner or officer?
YES NO If Yes, provide details.

NOTE: An affirmative answer is required below whether the sanction arose automatically, by operation of law, or as a result of any action taken by a government agency. Provide a detailed response to all questions checked "YES". If you need more space, photocopy the appropriate page and attach it to the questionnaire.

7. In the past (5) years, have you and/or any affiliated businesses or not-for-profit organizations listed in Section 5 in which you have been a principal owner or officer:

- a. Been debarred by any government agency from entering into contracts with that agency?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

- b. Been declared in default and/or terminated for cause on any contract, and/or had any contracts cancelled for cause?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

- c. Been denied the award of a contract and/or the opportunity to bid on a contract, including, but not limited to, failure to meet pre-qualification standards?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

- d. Been suspended by any government agency from entering into any contract with it; and/or is any action pending that could formally debar or otherwise affect such business's ability to bid or propose on contract?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

8. Have any of the businesses or organizations listed in response to Question 5 filed a bankruptcy petition and/or been the subject of involuntary bankruptcy proceedings during the past 7 years, and/or for any portion of the last 7 year period, been in a state of bankruptcy as a result of bankruptcy proceedings initiated more than 7 years ago and/or is any such business now the subject of any pending bankruptcy proceedings, whenever initiated?

YES NO If 'Yes', provide details for each such instance. (Provide a detailed response to all questions check "Yes". If you need more space, photocopy the appropriate page and attached it to the questionnaire.)

9.

a. Is there any felony charge pending against you?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

b. Is there any misdemeanor charge pending against you?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

c. Is there any administrative charge pending against you?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

d. In the past 10 years, have you been convicted, after trial or by plea, of any felony, or of any other crime, an element of which relates to truthfulness or the underlying facts of which related to the conduct of business? Y

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

e. In the past 5 years, have you been convicted, after trial or by plea, of a misdemeanor?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

f. In the past 5 years, have you been found in violation of any administrative or statutory charges?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

10. In addition to the information provided in response to the previous questions, in the past 5 years, have you been the subject of a criminal investigation and/or a civil anti-trust investigation by any federal, state or local prosecuting or investigative agency and/or the subject of an investigation where such investigation was related to activities performed at, for, or on behalf of the submitting business entity and/or an affiliated business listed in response to Question 5?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

11. In addition to the information provided, in the past 5 years has any business or organization listed in response to Question 5, been the subject of a criminal investigation and/or a civil anti-trust investigation and/or any other type of investigation by any government agency, including but not limited to federal, state, and local regulatory agencies while you were a principal owner or officer?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

12. In the past 5 years, have you or this business, or any other affiliated business listed in response to Question 5 had any sanction imposed as a result of judicial or administrative proceedings with respect to any professional license held?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

13. For the past 5 tax years, have you failed to file any required tax returns or failed to pay any applicable federal, state or local taxes or other assessed charges, including but not limited to water and sewer charges?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

I, FRANK C ZAHRADKA , hereby acknowledge that a materially false statement willfully or fraudulently made in connection with this form may result in rendering the submitting business entity and/or any affiliated entities non-responsible, and, in addition, may subject me to criminal charges.

I, FRANK C ZAHRADKA , hereby certify that I have read and understand all the items contained in this form; that I supplied full and complete answers to each item therein to the best of my knowledge, information and belief; that I will notify the County in writing of any change in circumstances occurring after the submission of this form; and that all information supplied by me is true to the best of my knowledge, information and belief. I understand that the County will rely on the information supplied in this form as additional inducement to enter into a contract with the submitting business entity.

CERTIFICATION

A MATERIALLY FALSE STATEMENT WILLFULLY OR FRAUDULENTLY MADE IN CONNECTION WITH THIS QUESTIONNAIRE MAY RESULT IN RENDERING THE SUBMITTING BUSINESS ENTITY NOT RESPONSIBLE WITH RESPECT TO THE PRESENT BID OR FUTURE BIDS, AND, IN ADDITION, MAY SUBJECT THE PERSON MAKING THE FALSE STATEMENT TO CRIMINAL CHARGES.

Kimberly,

We have ben using Eagle Control for about 15 years for our SCADA work and they have gotten many bid job over the last 30 years I've been here. I never had a problem with their response or getting then over the phone. The workmanship has always ben clean safe and on time. If you have any other question feel free to contact me.

Subject: Nassau County Office of Purchasing - Vendor References

Good Morning,

We have received a bid from Eagle Control Corporation, for Nassau County, NY, and they have listed you as a reference. Please give me some insight on this vendor. Do you have any complaints? Are they easily reached and quick to respond? Do they have any outstanding issues?

Thank you

Regards,

Kimberly Stanton

COUNTY OF NASSAU

CONSULTANT'S, CONTRACTOR'S AND VENDOR'S DISCLOSURE FORM

1. Name of the Entity: EAGLE CONTROL CORPORATION

Address: 23 OLD DOCK ROAD

City: YAPHANK State/Province/Territory: NY Zip/Postal Code: 11980

Country: US

2. Entity's Vendor Identification Number: 11-3113241

3. Type of Business: Other (specify) "C" CORPORATION

4. List names and addresses of all principals; that is, all individuals serving on the Board of Directors or comparable body, all partners and limited partners, all corporate officers, all parties of Joint Ventures, and all members and officers of limited liability companies (attach additional sheets if necessary):

1 File(s) uploaded PRINCIPALS OF EAGLE CONTROL CORPORATION.docx

No principals have been attached to this form.

5. List names and addresses of all shareholders, members, or partners of the firm. If the shareholder is not an individual, list the individual shareholders/partners/members. If a Publicly held Corporation, include a copy of the 10K in lieu of completing this section. If none, explain.

1 File(s) uploaded SHAREHOLDER.docx

No shareholders, members, or partners have been attached to this form.

6. List all affiliated and related companies and their relationship to the firm entered on line 1. above (if none, enter "None"). Attach a separate disclosure form for each affiliated or subsidiary company that may take part in the performance of this contract. Such disclosure shall be updated to include affiliated or subsidiary companies not previously disclosed that participate in the performance of the contract.

NONE

7. List all lobbyists whose services were utilized at any stage in this matter (i.e., pre-bid, bid, post-bid, etc.). If none, enter "None." The term "lobbyist" means any and every person or organization retained, employed or designated by any client to influence - or promote a matter before - Nassau County, its agencies, boards, commissions, department heads, legislators or committees, including but not limited to the Open Space and Parks Advisory Committee and Planning Commission. Such matters include, but are not limited to, requests for proposals, development or improvement of real property subject to County regulation, procurements. The term "lobbyist" does not include any officer, director, trustee, employee, counsel or agent of the County of Nassau, or State of New York, when discharging his or her official duties.

Are there lobbyists involved in this matter?

YES NO

(a) Name, title, business address and telephone number of lobbyist(s):

(b) Describe lobbying activity of each lobbyist. See below for a complete description of lobbying activities.

(c) List whether and where the person/organization is registered as a lobbyist (e.g., Nassau County, New York State):

8. VERIFICATION: This section must be signed by a principal of the consultant, contractor or Vendor authorized as a signatory of the firm for the purpose of executing Contracts.

The undersigned affirms and so swears that he/she has read and understood the foregoing statements and they are, to his/her knowledge, true and accurate.

Electronically signed and certified at the date and time indicated by:
FRANK C ZAHRADKA [CHUCK@EAGLECONTROL.COM]

Dated: 04/27/2022 08:37:57 AM

Title: PRESIDENT

The term lobbying shall mean any attempt to influence: any determination made by the Nassau County Legislature, or any member thereof, with respect to the introduction, passage, defeat, or substance of any local legislation or resolution; any determination by the County Executive to support, oppose, approve or disapprove any local legislation or resolution, whether or not such legislation has been introduced in the County Legislature; any determination by an elected County official or an officer or employee of the County with respect to the procurement of goods, services or construction, including the preparation of contract specifications, including but not limited to the preparation of requests for proposals, or solicitation, award or administration of a contract or with respect to the solicitation, award or administration of a grant, loan, or agreement involving the disbursement of public monies; any determination made by the County Executive, County Legislature, or by the County of Nassau, its agencies, boards, commissions, department heads or committees, including but not limited to the Open Space and Parks Advisory Committee, the Planning Commission, with respect to the zoning, use, development or improvement of real property subject to County regulation, or any agencies, boards, commissions, department heads or committees with respect to requests for proposals, bidding, procurement or contracting for services for the County; any determination made by an elected county official or an officer or employee of the county with respect to the terms of the acquisition or disposition by the county of any interest in real property, with respect to a license or permit for the use of real property of or by the county, or with respect to a franchise, concession or revocable consent; the proposal, adoption, amendment or rejection by an agency of any rule having the force and effect of law; the decision to hold, timing or outcome of any rate making proceeding before an agency; the agenda or any determination of a board or commission; any determination regarding the calendaring or scope of any legislature oversight hearing; the issuance, repeal, modification or substance of a County Executive Order; or any determination made by an elected county official or an officer or employee of the county to support or oppose any state or federal legislation, rule or regulation, including any determination made to support or oppose that is contingent on any amendment of such legislation, rule or regulation, whether or not such legislation has been formally introduced and whether or not such rule or regulation has been formally proposed.

Order and no upward escalation will be permitted. Thereafter, increases in labor and/or materials costs may be considered, provided they are based on certified labor contracts, uncontrollable material costs which can be verified in national publications, or other increases auditable by the County. The burden of proof for such increases shall be upon the contractor and shall be formally directed to the Director. The decision as to whether or not such increases will be granted shall be made by the Director and shall be final. In the event an increase is not granted when requested, the contractor may elect to continue at the bid prices or give written notice of termination, upon receipt of which the Blanket Purchase Order will be rebid.

APPROXIMATE QUANTITIES; WHEN INDICATED, ARE MERELY ESTIMATES BASED ON EXPERIENCE AND ARE GIVEN FOR INFORMATIONAL PURPOSES ONLY. THE COUNTY WILL NOT BE COMPELLED TO ORDER THE TOTAL ESTIMATED AMOUNT OF ANY RESPECTIVE ITEM. CONTRACTS, HOWEVER, SHALL BE FOR THE QUANTITIES ACTUALLY ORDERED BY COUNTY AGENCIES DURING THE PERIOD SPECIFIED.

ADDITIONAL BIDS: THE COUNTY RESERVES THE RIGHT, FOR ANY UNCONTEMPLATED ADDITIONAL REQUIREMENTS OF EXTRAORDINARY QUANTITIES OF PARTICULAR ITEMS, TO CALL FOR NEW BIDS, WHENEVER, IN THE OPINION OF THE DIRECTOR, OFFICE OF PURCHASING, IT IS IN THE BEST INTERESTS OF THE COUNTY TO DO SO.

DELIVERY: BIDDERS ARE REQUIRED TO STATE GUARANTEED DELIVERY DATE IN TERMS OF DAYS AFTER RECEIPT OF ORDER IN THE SPACE PROVIDED. BIDDERS ARE CAUTIONED TO POST REALISTIC DELIVERY DATES. GUARANTEED DELIVERY DATES WILL BE STRICTLY ENFORCED.

STATE GUARANTEED DELIVERY DATE: _____ DAYS A/R/O

DEFAULT: IF CONTRACTOR IS DEEMED TO BE IN DEFAULT AND SAID DEFAULT CONTINUES FOR MORE THAN FIFTEEN DAYS, THEN THE COUNTY MAY PERFORM SAID WORK EITHER ITSELF OR BY ENGAGING OTHERS AND THE COST THEREFOR, WILL BE DEDUCTED FROM THE CONTRACT. IF A GREATER SUM IS EXPENDED THAN IS DUE THE CONTRACTOR, THE CONTRACTOR SHALL BE RESPONSIBLE FOR SAME, UNLESS THE BONDING COMPANY HAS PERFORMED SAID WORK IN ACCORDANCE WITH THE PERFORMANCE SECURITY PROVISIONS HEREIN.

ACCOMPLISHED BY A DELIVERY ORDER (Form ADPICS GS D/O). THE DELIVERY ORDER IS PREPARED BY USING THE ADPICS 2360 SCREEN. AFTER RECEIVING ALL THE REQUIRED ELECTRONIC APPROVALS, THE DELIVERY ORDER WILL BE PRINTED, SIGNED BY THE AGENCY HEAD, AND MAILED TO THE VENDOR.

INDEMNIFICATION

Contractor agrees to indemnify and hold harmless County, its agents, officers and employees from and against any and all losses, costs, expenses (including attorneys' fees and disbursements), damages and liabilities, arising out of or in connection with any acts or omissions of Contractor, its officers, agents or employees, provided, however, that Contractor shall not be responsible for that portion, if any, of a loss that is caused by the negligence of the County, and provided, further, that Contractor shall not be liable for consequential, indirect or special damages. Contractor shall, at County's demand and at County's direction, defend at its own risk and expense any and all suits, actions or legal proceedings which may be brought against County, its agents, officers or employees in connection with a loss for which Contractor is responsible under this paragraph.

ANY BLANKET PURCHASE ORDER ISSUED AS A RESULT OF THIS BID WILL ESTABLISH TERMS AND CONDITIONS PURSUANT TO WHICH CERTAIN MATERIALS AND/OR SERVICES ARE TO BE SUPPLIED OR PERFORMED, FROM TIME TO TIME, FOR A SPECIFIED PERIOD UPON ISSUANCE BY THE COUNTY OF DELIVERY ORDERS. THE BLANKET PURCHASE ORDER IS NON-EXCLUSIVE AND THE COUNTY IS NOT BOUND TO PURCHASE, AND NO MATERIALS ARE TO BE DELIVERED OR SERVICES PERFORMED WITHOUT A DELIVERY ORDER. THE COUNTY SHALL UNDER NO OBLIGATION WHATSOEVER TO ISSUE SUCH DELIVERY ORDERS. THE BLANKET PURCHASE ORDER SHALL NOT APPLY IN ANY WAY TO ITEMS OF MATERIAL OR SERVICE DEEMED BY THE COUNTY IN ITS SOLE DISCRETION TO BE EXTRAORDINARY OR INVOLVE ANY SPECIAL CONDITIONS, QUANTITIES, CIRCUMSTANCES OR COMPLEXITIES.

Appendix EE:

Equal Employment Opportunities For Minorities and Women

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, state & local statutory

constitutional anti-discrimination provisions. In addition, Local Law No.14-2002, entitled "Participation by, Minority Group Members & Women in Nassau County Contracts", governs all County Contracts as defined by such title & solicitations for bids or proposals for County Contracts. In accordance with Local Law No.14-2002:

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations & rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability or marital status and that such employment agency labor union or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

(c) The contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

(d) The Contractor shall make Best Efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBE's") as defined in Section 101 of Local Law No.14-2002 including the granting of Subcontracts.

(e) The contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBE's and the requirement that Subcontractors must be equal opportunity employers.

(f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.

(g) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan and additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

(h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

(i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

(j) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractors fulfillment of Best Efforts to obtain participation by Certified M/WBE's.

(k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant is considered breach of the County Contract.

(l) The Contractor shall be bound by the provisions of Section 109 of Local Law No.14-2002 providing for the enforcement of violations as follows:

(a) Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law

No.14-2002, This Appendix EE or any other contractual provisions included in furtherance of Local Law No.14-2002, the Executive Director will try to resolve the matter.

(b) If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.

(c) Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the impositions of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended, impose any new sanction, or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrators award and recommendations, shall file a determination of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested.

The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation.

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight

responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefor or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

The Contractor shall include provisions (a), (b) and (c) in every Subcontract in such a manner that these provisions shall be binding upon each Subcontractor as to work in connection with the County Contract.

As used in this Appendix EE the following term meanings shall apply:

"Best Efforts Checklist" shall mean a list signed by the Contractor, listing the procedures it has undertaken to procure Subcontractors in accordance with this Appendix EE.

"County Contract" shall mean (i) a written agreement or purchase order instrument, providing for a total expenditure in excess of twenty-five thousand dollars (\$25,000), whereby a County contracting agency is committed to expend or does expend funds in return for labor, services, supplies, equipment, materials or any combination of the foregoing, to be performed for, or rendered or furnished to the County; or (ii) a written agreement in excess of one hundred thousand dollars (\$100,000), whereby a County contracting agency is committed to expend or does expend funds for the acquisition, construction, demolition, replacement, major repair or renovation of real property and improvements thereon. However, the term "County Contract" does not include agreements or orders for the following services: banking services, insurance policies or contracts, or contracts with a County contracting agency for the sale of bonds, notes or any other securities.

"County Contractor" means an individual, business enterprise, including sole proprietorship, partnership, corporation, not-for-profit corporation, or any other person or entity other than the County, whether a contractor, licensor, licensee or any other party, that is (i) party to a County Contract, (ii) a bidder in connection with the award of a County Contract, or (iii) a proposed party to a County Contract, but shall not include any Subcontractor.

"County Contractor" shall mean a person or firm who will manage and be responsible for an entire contracted project.

"Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises" shall include, but is not limited to the following:

- a. Proof of having advertised for bids, where appropriate, in minority publications, trade newspapers/notices and magazines, trade and union publications, and publications of general circulation in Nassau County and surrounding areas or having verbally solicited M/WBES whom the County Contractor reasonably believed might have the qualifications to do the work. A copy of the advertisement, if used, shall be included to demonstrate that it contained language indicating that the County Contractor welcomed bids and quotes from M/WBE Subcontractors. In addition, proof of the date(s) any such advertisements appeared must be included in the Best Effort Documentation. If verbal solicitation is used, a County Contractor's affidavit with a notary's signature and stamp shall be required as part of the documentation.
- b. Proof of having provided reasonable time for M/WBE Subcontractors to respond to bid opportunities according to industry norms and standards. A chart outlining the schedule/time frame used to obtain bids from M/WBES is suggested to be included with the Best Effort Documentation.
- c. Proof or affidavit of follow-up of telephone calls with potential M/WBE subcontractors encouraging their participation. Telephone logs indicating such action can be included with the Best Effort Documentation.
- d. Proof or affidavit that M/WBE Subcontractors were allowed to review the bid specifications, blue prints and all other bid/RFP

related items at no charge to the M/WBES, other than reasonable documentation costs incurred by the County Contractor that are passed onto the M/WBE.

e. Proof or affidavit that sufficient time prior to making award was allowed for M/WBES to participate effectively, to the extent practicable given the time frame of the County Contract.

f. Proof or affidavit that negotiations were held in Best Efforts with interested M/WBES, and that M/WBES were not rejected as unqualified or unacceptable without sound business reasons based on (1) a thorough investigation of M/WBE qualifications and capabilities reviewed against industry custom and standards and (2) cost of performance. The basis for rejecting any M/WBE deemed unqualified by the County Contractor shall be included in the Best Effort Documentation.

g. If an M/WBE is rejected based on cost, the County Contractor must submit a list of all sub-bidders for each item of work solicited and their bid prices for the work.

h. The conditions of performance expected of Subcontractors by the County Contractor must also be included with the Best Effort Documentation.

i. County Contractors may include any other type of documentation they feel necessary to further demonstrate their Best Efforts regarding their bid documents.

"Executive Director" shall mean the Executive Director of the Nassau County Office of Minority Affairs; provided, however, that Executive Director shall include a designee of the Executive Director except in the case of final determinations issued pursuant to Section (a) through (1) of these rules.

"Subcontract" shall mean an agreement consisting of part or parts of the contracted work of the County Contractor.

"Subcontractor" shall mean a person or firm who performs part or parts of the contracted work of a prime contractor providing services, including construction services, to the County pursuant to a county contract. Subcontractor shall include a person or firm that provides labor, professional or other services, materials or supplies to a prime contractor that are necessary for the prime contractor to fulfill its obligations to provide services to the County pursuant to a county contract. Subcontractor shall not include a supplier of

materials to a contractor who has contracted to provide goods but no services to the County, nor a supplier of incidental materials to a contractor, such as office supplies, tools and other items of nominal cost that are utilized in the performance of a service contract.

Provisions requiring contractors to retain or submit documentation of best efforts to utilize certified subcontractors and requiring Department head approval prior to subcontracting shall not apply to inter-governmental agreements. In addition, the tracking of expenditures of County dollars by not-for-profit corporations, other municipalities, States, or the federal government is not required.

Contractor shall retain complete and accurate records and documents related to this Agreement for six (6) years following the later of termination or final payment. Such records shall at all times be available for audit and inspection by the County.

Governing Law - Consent to Jurisdiction and Venue; Governing Law. Unless otherwise specified in this Agreement or required by Law, exclusive original jurisdiction for all claims or actions with respect to this Agreement shall be in the Supreme Court in Nassau County in New York State and the parties expressly waive any objections to the same on any grounds, including venue and forum non conveniens. This Agreement is intended as a contract under, and shall be governed and construed in accordance with, the Laws of New York State, without regard to the conflict of laws provisions thereof.

Prohibition of Gifts

In accordance with County Executive Order 2-2018, the contractor shall not offer, give, or agree to give anything of value to any County employee, agent, consultant, construction manager, or other person or firm representing the County (a 'County Representative'), including members of a County Representative's immediate family, in connection with the performance by such County Representative of duties involving transactions with the Contractor on behalf of the County, whether such duties are related to this Agreement or any other County contract or matter. As used herein, 'anything of value' shall include, but not be limited to, meals, holiday gifts, holiday baskets, gift cards, tickets to golf outings, tickets to sporting events, currency of any kind, or any other gifts, gratuities, favorable opportunities or preferences. For the purpose of this subsection, an immediate family member shall include a spouse, child, parent, or sibling. The

contractor shall include the provisions of this subsection in each subcontract entered into under this agreement.

Disclosure of Conflicts of Interest

In accordance with County Executive Order 2-2018, the Contractor has disclosed as part of its response to the County's Business History Form, or other disclosure form(s), any and all instances where the Contractor employs any spouse, child, or parent of a County employee of the agency or department that contracted or procured the goods and/or services described under this Agreement. The Contractor shall have a continuing obligation, as circumstances arise, to update this disclosure throughout the term of this Agreement.

Ordinance 153-2018

Pursuant to Ordinance # 153-2018, A bidder that is awarded a contract under this bid is required to pay the County an administrative service charge in accordance with the following schedule:

Value of Contract	Administrative Fee
\$0 - \$10,000	\$0.00
Over \$10,000 - \$50,000	\$160.00
Over \$50,000 - \$100,000	\$266.00
Over \$100,000	\$533.00

After an award, the successful bidder(s) will be notified by the Director of Shared Services, or their designee, when payment of the administrative charge is due. Please note, if you are a religious, charitable, nonprofit, or not-for-profit organization, please include this information in your bid for consideration by the Director of Shared Services to Waive the fee.

IN EXECUTING THIS BID, THE BIDDER WARRANTS THAT THE PRICES SUBMITTED HEREIN ARE NOT HIGHER THAN THOSE OFFERED TO ANY GOVERNMENTAL OR COMMERCIAL CONSUMER FOR LIKE DELIVERIES. THE PRICES HEREIN SHOULD NOT INCLUDE ANY FEDERAL EXCISE TAXES OR SALES TAXES IMPOSED BY ANY STATE OR MUNICIPAL GOVERNMENT. SUCH TAXES, IF INCLUDED, MUST BE DEDUCTED BY THE BIDDER WHEN SUBMITTING BID. BIDDERS ARE REQUESTED TO ALSO READ THE TERMS AND CONDITIONS.

BID TERMS AND CONDITIONS

- Bids on equipment must be on standard new equipment, latest model, except as otherwise specifically stated in proposal or detailed specification. Where any part of nominal appurtenances of equipment is not described, it shall be understood that all equipment and appurtenances which are usually provided in the manufacturer's stock model shall be furnished.
- Bids on materials and supplies must be for new items except as otherwise specifically stated in bid or detailed specifications.
- Bidder declares that the bid is made without any connection with any other Bidder, submitting a bid for the same items, and is in all respects fair and without collusion or fraud.
- PRICES The provisions of the New York State Fair Trade Law (Federal-Crawford Act) and the federal price discrimination law (Robinson-Patman Act) do not apply to purchases made by the County.
- SURETY In the event that an award is made hereunder, The Director of Purchase reserves the right to request successful bidders to post, within one week, security for faithful performance, with the understanding that the whole or any part thereof may be used by the County of Nassau to supply any deficiency that may arise from any default on the part of the Bidder. Such security must meet all the requirements of the County Attorney and be approved by the County Attorney.

BRUCE 1000160
 8/30/21

6. **SAMPLES** Samples, when required, must be submitted strictly in accordance with instructions; otherwise bid may not be considered. If samples are requested subsequent to bid opening, they shall be delivered within five (5) days of the request for bid to have consideration. Samples must be furnished free of charge and must be accompanied by descriptive memorandum invoices indicating if the Bidder desires their return; also specifying the address to which they are to be returned, provided they have not been used or made useless by tests. Award samples may be held for comparison with deliveries. Samples will be returned at the Bidders risk and expense.
7. Award The Director, Office of Purchasing reserves the right before making award to make investigations as to whether or not the items, qualifications or facilities offered by the Bidder meet the requirements set forth herein and are sample and sufficient to insure the proper performance in the event of award. The Bidder must be prepared, if requested by the Director, to present evidence of experience, ability and financial standing, as well as a statement as to plant, machinery and capacity of the manufacturer for the production and distribution of the material on which he is bidding. Upon request of the Director, successful bidder shall file certification from the manufacturer relative to authorization, delivery, service and guarantees. If it is found that the conditions of the bids are not complied with or that articles or equipment proposed to be furnished do not meet the requirements called for, or that the qualification, financial standing or facilities are not satisfactory, the Director may reject such bids. It is distinctly understood, however, that nothing in the foregoing shall mean or imply that it is obligatory upon the Director to make any examinations before award; and it is further understood that, if such examination is made, it in no way relieves the Bidder from fulfilling all requirements and conditions of the bid.
8. Awards will be made to the lowest responsible Bidder. Cash discounts will not be a factor in determining awards, except in tie bids. Consideration will be given to the reliability of the Bidder, the quantities of the materials, equipment or supplies to be furnished, their conformity with the specifications, the purpose for which required and the terms of delivery.
9. The Director reserves the right to reject and all bids in whole or in part and to waive technical defects, irregularities and omissions if in his judgment the best interests of the County will be served.
10. Unless otherwise indicated herein, the Director reserves the right to make award by items, by classes, by group of items, or as a whole.
11. **DELIVERIES** Upon failure of the Vendor to deliver within the time specified, or within reasonable time as interpreted by the Director, or failure to make replacement of rejected articles, when so requested immediately or as directed by the Director, the Director may purchase from other sources to take the place of the item rejected or not delivered. The Director reserves the right to authorize immediate purchase from other sources against rejections on any order when necessary. On all such purchases the Vendor agrees to promptly reimburse the County for excess cost occasioned by such purchases. Should the cost be less, the Vendor shall have no claim to the difference. Such purchases will be deducted from order quantity.
12. An order may be canceled at the Vendors expense upon nonperformance. Failure of the Vendor to furnish additional surety within ten (10) days from date of requested shall be sufficient cause for the cancellation of the order.
13. When in the determination of the Director, the articles or equipment delivered fail to meet County specifications or, if in the determination of the Director, the Vendor consistently fails to deliver as ordered, the Director reserves the right, to cancel the order and purchase the balance from other sources at Vendor expense.
14. Delivery must be made as ordered and in accordance with the bid. If delivery instructions do not appear on order. It will be interpreted to mean prompt delivery. The decision of the Director as to reasonable compliance with delivery terms shall be final. Burden of proof of delay in receipt of order shall rest with the Vendor.
15. The County Agencies will not schedule any deliveries for Saturdays, Sundays or Legal Holiday, except commodities required for daily consumption or where the delivery is an emergency, a replacement, or is overdue, in which event the convenience of the Agency will govern.
16. Supplies shall be securely and properly packed for shipment, according to accepted commercial practice, without extra charge for packing cases, reels, bailing or sacks, the containers to remain the property of the agency unless definitely stated otherwise in the bid.
17. The Vendor shall be responsible for delivery of supplies in good condition at point of destination. The Vendor shall file all claims with carrier for breakage, imperfections and other losses, which will be deducted from invoices. The receiving Agency will note for the benefit of Vendor when packages are not received in good conditions.
18. All supplies which are customarily labeled or identified must have securely affixed thereto the original un-mutilated label or marking of the manufacturer.
19. Billings for deliveries must be rendered on County claim forms.
20. Furniture, machines, and other equipment must be delivered, installed and set in place as directed, ready for use unless otherwise specified.
21. Deliveries are subject to reweighing at destination by the County and payment will be made on the basis of materials delivered. Normal shrinkage will be allowed in such instances where shrinkage is possible. Short weight shall be sufficient cause for cancellation of order at Vendors expense.
22. **GUARANTEES BY BIDDER** Bidder hereby guarantees: (a) To save the County, its agents and employees harmless from liability of any nature or kind for the use of any copyrighted or un-copyrighted composition, secret process, patented or unpatented invention, article or appliance furnished or used in the performance hereof of which the Bidder is not the Patentee, assignee or licensee, and to defend any action brought against the County in the name of the County and under the direction of the County Attorney at the sole cost of the Bidder or in the sole option of the Director to pay the cost of such defense to the County. (b) His products against defective material or workmanship and to repair any damages or marring occasioned in transit.
 - (c) To furnish adequate protection from damage for all work and to repair damages of any kind, for which he or his workmen are responsible, to the building or equipment, to this own work or the work of other Vendors, or in the opinion of the Director to pay for the same by deductions in payments due under this contract.
 - (d) To pay for all permits, licenses and fees and give all notices and comply with all laws ordinances, rules and regulations of the city, village or town in which the installation his to be made, and of the County of Nassau and the State of New York.
 - (e) To carry proper insurance in the opinion of the Director, and approved by the County Attorney to protect the County from loss in case of accident, fire and theft.
 - (f) That he will keep himself fully informed, of all municipal ordinances and regulations, state and national laws in any manner affecting the work or goods herein specified, and any extra work contracted for by him, and shall at all times observe and comply with said ordinances, laws and regulations, including all provisions of the Workmen Compensation and Labor Laws, and shall indemnify and save harmless the County of Nassau and the Nassau County Legislature from loss and liability upon any and all Claims on account of any physical injury to persons, including death, or damage to property and from all cost and expenses in suits which may be brought against the same on account of such injuries irrespective of the actual cost of the same and irrespective of whether the same shall have been due to the negligence of the Bidder or his agents.
 - (g) That the items furnished shall conform to all the provisions of the bid and this warranty shall survive acceptance or use of any material so furnished.
 - (h) That all deliveries will not be inferior to the accepted bid sample.
23. **LABOR LAWS and ANTIDISCRIMINATION.** Upon the vendor acceptance hereof, the vendor agrees to comply with Article IX, Section 2 C of the Constitution of the State of New York, Section 220 220a, 220b, 220d, 220e and 230 of the Labor Law, Section 5 and 12 of the Lien Law, Article 2 of the Uniform Commercial Code, Sections 108 and 109 as well as Article 18 of the General Municipal Law, Section 2218 of the County Government Law of Nassau County. Section 224.2 of the Nassau County Administrative Code, the provisions of the anti-Discrimination Order of Nassau County, and the vendor shall keep himself fully informed of all additional municipal ordinances and regulations, State and National Laws in any manner affecting this order and the goods or services delivered or rendered or to be delivered or rendered there under, and shall at all times observe and comply with said ordinances, laws and regulations at his sole cost and expense.
24. **ASSIGNMENT.** The contractor is hereby prohibited from assigned, transferring, conveying, subletting or otherwise disposing of this contract or his right, title, or interest therein, or his power to execute such contract, to any other person or corporation without the previous consent in writing of the officer, board or agency awarding the contract.
25. The County of Nassau will not be responsible nor liable for any shipment or delivery of any materials, supplies, or equipment without it's express written instructions or valid Purchase Order.
26. No agreements, changes, modifications or alterations shall be deemed effective nor shall the same be binding upon the County unless in writing and signed by the Director, Office of Purchasing or his duly/ designated representative.

TITLE

Appendix EE

EQUAL EMPLOYMENT OPPORTUNITIES FOR MINORITIES AND WOMEN

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined by such title and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgrading's, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgrading's, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

(c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

(d) The Contractor shall make Best Efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, including the granting of Subcontracts.

(e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

(f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.

(g) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

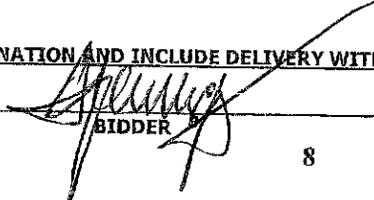

(h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

(i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

(j) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

BIDDER SIGN HERE

BIDDER

PRESIDENT

TITLE

(k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.

(l) The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:

- a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.
- b. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.
- c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended or impose any new sanction, or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrators award and recommendations, shall file a determination of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation..

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefore or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

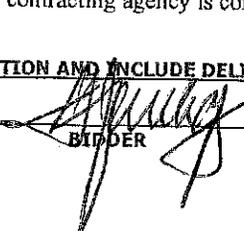

The Contractor shall include provisions (a), (b) and (c) in every Subcontract in such manner that these provisions shall be binding upon each Subcontractor as to work in connection with the County Contract.

As used in this Appendix EE the term "Best Efforts Checklist" shall mean a list signed by the Contractor, listing the procedures it has undertaken to procure Subcontractors in accordance with this Appendix EE.

As used in this Appendix EE the term "County Contract" shall mean (i) a written agreement or purchase order instrument, providing for a total expenditure in excess of twenty-five thousand dollars (\$25,000), whereby a County contracting agency is committed to expend or does expend funds in return for labor, services, supplies, equipment, materials or any combination of the foregoing, to be performed for, or rendered or furnished to the County; or (ii) a written agreement in excess of one hundred thousand dollars (\$100,000), whereby a County contracting agency is committed to expend or does expend funds for the acquisition,

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

BIDDER SIGN HERE

BIDDER

PRESIDENT
TITLE

construction, demolition, replacement, major repair or renovation of real property and improvements thereon. However, the term "County Contract" does not include agreements or orders for the following services: banking services, insurance policies or contracts, or contracts with a County contracting agency for the sale of bonds, notes or other securities.

As used in this Appendix EE the term "County Contractor" means an individual, business enterprise, including sole proprietorship, partnership, corporation, not-for-profit corporation, or any other person or entity other than the County, whether a contractor, licensor, licensee or any other party, that is (i) a party to a County Contract, (ii) a bidder in connection with the award of a County Contract, or (iii) a proposed party to a County Contract, but shall not include any Subcontractor.

As used in this Appendix EE the term "County Contractor" shall mean a person or firm who will manage and be responsible for an entire contracted project.

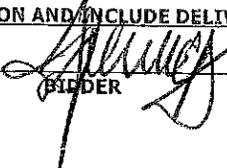

As used in this Appendix EE "Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises" shall include, but is not limited to the following:

- a. Proof of having advertised for bids, where appropriate, in minority publications, trade newspapers/notices and magazines, trade and union publications, and publications of general circulation in Nassau County and surrounding areas or having verbally solicited M/WBEs whom the County Contractor reasonably believed might have the qualifications to do the work. A copy of the advertisement, if used, shall be included to demonstrate that it contained language indicating that the County Contractor welcomed bids and quotes from M/WBE Subcontractors. In addition, proof of the date(s) any such advertisements appeared must be included in the Best Effort Documentation. If verbal solicitation is used, a County Contractor's affidavit with a notary's signature and stamp shall be required as part of the documentation.
- b. Proof of having provided reasonable time for M/WBE Subcontractors to respond to bid opportunities according to industry norms and standards. A chart outlining the schedule/time frame used to obtain bids from M/WBEs is suggested to be included with the Best Effort Documentation
- c. Proof or affidavit of follow-up of telephone calls with potential M/WBE subcontractors encouraging their participation. Telephone logs indicating such action can be included with the Best Effort Documentation
- d. Proof or affidavit that M/WBE Subcontractors were allowed to review bid specifications, blue prints and all other bid/RFP related items at no charge to the M/WBEs, other than reasonable documentation costs incurred by the County Contractor that are passed onto the M/WBE.
- e. Proof or affidavit that sufficient time prior to making award was allowed for M/WBEs to participate effectively, to the extent practicable given the timeframe of the County Contract.
- f. Proof or affidavit that negotiations were held in Best Efforts with interested M/WBEs, and that M/WBEs were not rejected as unqualified or unacceptable without sound business reasons based on (1) a thorough investigation of M/WBE qualifications and capabilities reviewed against industry custom and standards and (2) cost of performance. The basis for rejecting any M/WBE deemed unqualified by the County Contractor shall be included in the Best Effort Documentation
- g. If an M/WBE is rejected based on cost, the County Contractor must submit a list of all sub-bidders for each item of work solicited and their bid prices for the work.
- h. The conditions of performance expected of Subcontractors by the County Contractor must also be included with the Best Effort Documentation
- i. County Contractors may include any other type of documentation they feel necessary to further demonstrate their Best Efforts regarding their bid documents.

As used in this Appendix EE the term "Executive Director" shall mean the Executive Director of the Nassau County Office of Minority Affairs; provided, however, that Executive Director shall include a designee of the Executive Director except in the case of final determinations issued pursuant to Section (a) through (l) of these rules.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

PRESIDENT
TITLE

As used in this Appendix EE the term "Subcontract" shall mean an agreement consisting of part or parts of the contracted work of the County Contractor.

As used in this Appendix EE, the term "Subcontractor" shall mean a person or firm who performs part or parts of the contracted work of a prime contractor providing services, including construction services, to the County pursuant to a county contract. Subcontractor shall include a person or firm that provides labor, professional or other services, materials or supplies to a prime contractor that are necessary for the prime contractor to fulfill its obligations to provide services to the County pursuant to a county contract. Subcontractor shall not include a supplier of materials to a contractor who has contracted to provide goods but no services to the County, nor a supplier of incidental materials to a contractor, such as office supplies, tools and other items of nominal cost that are utilized in the performance of a service contract.

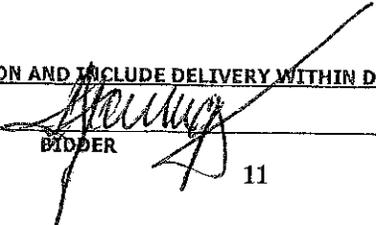

Provisions requiring contractors to retain or submit documentation of best efforts to utilize certified subcontractors and requiring Department head approval prior to subcontracting shall not apply to inter-governmental agreements. In addition, the tracking of expenditures of County dollars by not-for-profit corporations, other municipalities, States, or the federal government is not required.

Prohibition of Gifts. In accordance with County Executive Order 2-2018, the Contractor shall not offer, give, or agree to give anything of value to any County employee, agent, consultant, construction manager, or other person or firm representing the County (a "County Representative"), including members of a County Representative's immediate family, in connection with the performance by such County Representative of duties involving transactions with the Contractor on behalf of the County, whether such duties are related to this Agreement or any other County contract or matter. As used herein, "anything of value" shall include, but not be limited to, meals, holiday gifts, holiday baskets, gift cards, tickets to golf outings, tickets to sporting events, currency of any kind, or any other gifts, gratuities, favorable opportunities or preferences. For purposes of this subsection, an immediate family member shall include a spouse, child, parent, or sibling. The Contractor shall include the provisions of this subsection in each subcontract entered into under this Agreement.

Disclosure of Conflicts of Interest. In accordance with County Executive Order 2-2018, the Contractor has disclosed as part of its response to the County's Business History Form, or other disclosure form(s), any and all instances where the Contractor employs any spouse, child, or parent of a County employee of the agency or department that contracted or procured the goods and/or services described under this Agreement. The Contractor shall have a continuing obligation, as circumstances arise, to update this disclosure throughout the term of this Agreement.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

TITLE

INDEMNIFICATION:

Contractor agrees to indemnify and hold harmless County and its agents, officers and employees, from and against any and all losses, costs, expenses (including attorneys' fees and disbursements), damages and liabilities, arising out of or in connection with any acts or omissions of Contractor, its officers, agents or employees, provided, however, that Contractor shall not be responsible for that portion, if any, of a loss that is caused by the negligence of the County; and provided, further, that Contractor shall not be liable for consequential, indirect or special damages. Contractor shall, at County's demand and at County's direction, defend at its own risk and expense any and all suits, actions or legal proceedings which may be brought against County, its agents, officers or employees in connection with a loss for which Contractor is responsible under this paragraph.

DEFINITIONS:

- The term "County" as used herein, shall be deemed as reference to the County of Nassau, State of New York.
- The term "Contractor" as used herein, shall be deemed as reference to the successful bidder, vendor, proprietor, partnership, or corporation receiving an award to perform any or all of the services specified herein in accordance with the terms of this agreement.
- The term "agency" as used herein, shall be deemed as the department, division, bureau, office, agency or other Nassau County establishment authorized to receive the service specified herein.
- The term "Director" as used herein, shall be deemed as reference to the Director of the Office of Purchasing.
- The term "Blanket Order" as used herein, shall be deemed as the multiple use pricing agreement as a result of this bid.
- The term "Purchase Order" as used herein, shall be deemed as the single use pricing agreement as a result of this bid.
- The term "complete" as written in this bid must include all equipment, delivery and installation of same in its entirety, as listed in the contract documents, and is to include all supervision, labor, materials, plant equipment, transportation, testing, (if required) incidentals, and other facilities as necessary and/or required to execute all the work as herein specified, or as incidentally required to provide a complete operating installation.

NOTE: INSERT FEDERAL IDENTIFICATION NUMBER IN SPACE PROVIDED ON PAGE 1.

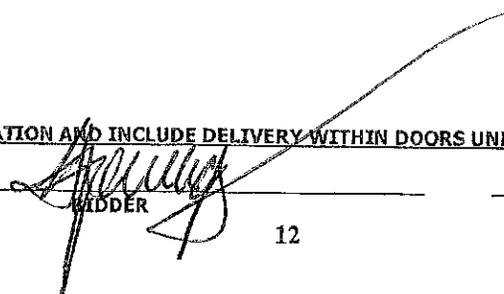

M/WBE, SDVOB and DBE Participation: The County encourages the participation of certified Service-Disabled Veteran-Owned Businesses ("SDVOB"), Minority or Women-Owned Business Enterprises ("M/WBE"), and Disadvantaged Business Enterprises ("DBE") in the bidding process. A Contractor that is certified by New York State or the County as a SDVOB, M/WBE, and/or DBE should include this information in their bid. For more information regarding the County's SDVOB, M/WBE, or DBE programs, please visit the Nassau County Office of Minority Affairs website

REQUIRED VENDOR DISCLOSURE FORMS

Prior to the bid opening, the following disclosure forms (the "Disclosure Forms") must be submitted in the Nassau County Vendor Portal at

https://apex5.nassaucountyny.gov/ords/f?p=312:LOGIN_DESKTOP:3445712403627:

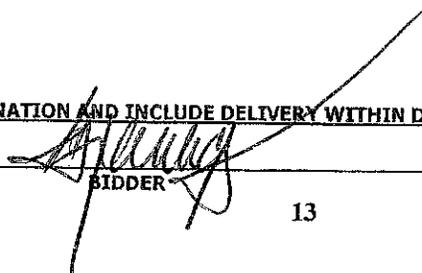

- a. A duly completed and verified Business History Form, together with a current certified or verified financial statement and/or other commercially reliable written evidence of the bidder's credit, financial standing and capacity to perform in accordance with the terms of the Contract.
- b. All officers, and any individuals who hold a ten percent (10%) or greater ownership interest in the bidder, shall complete and verify the Principal Questionnaire.
- c. The County of Nassau Consultant's, Contractor's and Vendor's Disclosure Form
- d. Additionally, if the bidder utilizes the services of any individual or organization for the purposes of conducting lobbying activities and is awarded the contract, the successful proposer will be required to provide a copy of the Lobbyist Registration and Disclosure Form, completed and verified by that individual/organization.

PLEASE NOTE:

- If a bidder has previously submitted the Disclosure Forms in the Nassau County Vendor Portal, the bidder must ensure that the forms on file in the Portal are current, accurate, and have been recertified within three (3) months prior to the bid opening date. The bidder must also ensure that their response to question 7, and its subparts, on the Consultant's, Contractor's, and Vendor's Disclosure Form is provided in relation to the specific solicitation under consideration.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

BIDDER

PRESIDENT

TITLE

REQUESTS FOR INFORMATION OR CLARIFICATION

Before bidding, bidders must examine all of the Contract documents, including the specifications, any drawings, and all instructions. If the bidder finds any inconsistency, ambiguity, omission or error in the specifications, drawings, instructions or any other Contract document, or if the bidder is in doubt as to the meaning of any term or condition of the Contract, the bidder must promptly so notify the **Office of Purchasing** in writing prior to the bid opening. The failure of the bidder to notify the **Office of Purchasing**, prior to the bid opening of any inconsistency, ambiguity, omission or error that the bidder actually found, or that should have been discovered by a reasonably prudent bidder, will preclude and negate acceptance of the bidder's claim.

If the **Office of Purchasing** receives a notification from a bidder of a differing site condition or an inconsistency, ambiguity, omission or error in the Contract documents, the **Office of Purchasing** will, as it deems necessary or desirable, issue a written interpretation or correction to the Contract documents as an amendment to the Contract documents. Any such amendment will be made available electronically to each person that received a copy of the Contract documents as reflected in the records of the **Office of Purchasing**, and any such amendment will also be available at the place where the Contract documents are available for inspection by prospective bidders.

Upon such mailing or delivery, such amendment shall become part of the Contract documents and shall be binding on all bidders, whether or not they have had actual notice of such addendum.

Please note that all bidder requests for information or clarification must be received by the Authority at least 72 hours prior to the bid opening. Any bidder requests for information or issues with the contract documents presented after that time may not be addressed by the Office of Purchasing.

Ordinance # 153-2018

Pursuant to Ordinance # 153-2018, a bidder that is awarded a contract under this bid is required to pay the County an administrative service charge in accordance with the following schedule:

<u>Value of Contract</u>	<u>Administrative Fee</u>
\$0-\$10,000	\$0
Over \$10,000-\$50,000	\$160
Over \$50,000-\$100,000	\$266
Over \$100,000	\$533

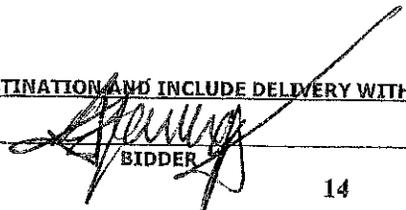

After an award, the successful bidder(s) will be notified by the Director of Shared Services, or their designee, when payment of the administrative charge is due. Please note, if you are a religious, charitable, nonprofit, or not-for-profit organization, please include this information in your bid for consideration by the Director of the Shared Services to waive the fee.

Ordinance # 72-2014

The bidder declares that they are a registered vendor with the County. All registered vendors must pay a Two Hundred Seventy-Five Dollar (\$275.00) per contract fee to register Blanket contracts on the County's procurement website, as required under Ordinance # 72-2014.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

PRESIDENT

TITLE

INTENT

SCOPE: It is the INTENT of the County of Nassau to properly describe by these specifications, terms and conditions an adequate method of providing POOL REPAIR, MAINTENANCE and SERVICE for the agency or agencies named herein in order that they may enjoy uninterrupted service in consideration for payment of the price bid.

PURPOSE: The purpose of this bid is to establish a price structure on which items and/or services will be made under Blanket Orders.

PERIOD COVERED: Shall be for one (1) year from the effective date. The County of Nassau reserves the right to extend the Blanket Order up to an additional four (4) year(s), at up to one (1) year options. However, the termination of the Blanket Order may be further extended up to two (2) months beyond the stated termination date. The maximum period of any Blanket Order as a result of this bid with renewal options applied shall be five (5) year(s), and if the further extension is applied, five (5) years and two (2) months.

ALL EXTENSIONS ARE SUBJECT UPON THE MUTUAL CONSENT OF BOTH PARTIES.

AWARD: Award, if any, will be made to the lowest responsible bidder, who in the opinion of the Director of Purchasing, meets the specifications and qualifications stated herein. The Director of Purchasing reserves the right to make an award be items, groups, or classes of items or as a whole. Awards will be made in accordance with the terms and conditions attached hereto and made part hereof.

DELIVERY: Bidders are required to state guaranteed delivery date in terms of days after receipt of order in the space provided below and on page one. Bidders are cautioned to post realistic delivery dates. Guaranteed delivery dates will be strictly enforced. Must be made within 15 days A/R/O unless stated otherwise below:

Delivery to be made 12 days Days A/R/O.

Delivery shall be made **ONLY** upon receipt of a Purchase Order, or in the case of a Blanket Order, upon receipt of a Direct Purchase Order(s) from a using agency authorized to use the Blanket Order which will be issued to the successful bidder. Purchase Order and Direct Purchase Order shall indicate the destination address. Inside delivery is required on all deliveries.

Bidders agree that all orders shall be effective and binding upon the contractor when PLACED IN THE MAIL addressed to the Contractor at the address shown on the Blanket Order/Purchase Order PRIOR TO MIDNIGHT OF THE FINAL DAY OF CONTRACT.

PARTICIPATION BY POLITICAL SUBDIVISIONS: The successful vendor agrees that all political subdivisions of New York State and all other entities authorized by law to make such purchases may participate in any award under this bid. These Entities shall accept full responsibility for any payments due the successful bidder for their purchases hereunder.

INSPECTION: Bidders should be aware of Inspection and Delivery requirements as stipulated.

RETENTION OF BID: Vendor is required to make a copy of his completed bid document and applicable attachments. Any purchase orders issued against this bid will refer to the bid and attachments to designate items awarded.

METHOD OF BIDDING: Please submit unit price in the appropriate column.

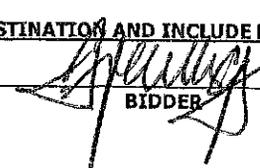

PRICE DISCREPANCY: In the event of a discrepancy between the unit price and the extension price, the unit price will govern.

PRICE PROTECTION: Bidders are required to state period of price protection (in terms of days) after the bid opening.

STATE PRICE PROTECTION PERIOD: 90 days DAYS AFTER BID OPENING

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

BIDDER

PRESIDENT
TITLE

**OFFICE OF PURCHASING
COUNTY OF NASSAU STATE OF NEW YORK**

**FORMAL SEALED BID PROPOSAL
93165-06151-101**

PAYMENT IN DETAIL: Billing shall be rendered in detail, listing parts and materials used, their prices and labor shown in hours and extended rates.

EXTENSION OF PRICE: It is anticipated that additional quantities of items specified herein may be required in the ensuing year. According, the County of Nassau requests that the prices bid be protected and be available to the County of Nassau for one (1) year from the date of the award. Economic conditions may not permit the price protection for an entire year. Bidders are requested to state the period for which bid prices will be applicable to potential additional orders.
90 days.

TAX PROVISION: Purchases made by the County of Nassau are not subject to State, Local Sales Taxes or Federal Excise Taxes. Federal Exemption #A-109538 State Exemption #EX 7213062C. The County of Nassau is not subject to any Existing "Fair Trade Agreements" and bidders should be governed accordingly.

NEW YORK STATE PRICES: Bidders must represent and warrant that if they are under contract with New York State for items specified herein, that the price quoted to the County is not higher than the price per unit quoted to New York State for like quantities.

SPECIFICATIONS: Submit complete specifications and illustrations of products offered with the bid. Acceptance of a bid and designation of a manufacturer's catalog description, brand name or number in any Purchase or Blanket Order resulting there-from shall not be construed as qualification of the specifications of this bid or relief there-from, except as specifically stated in the Purchase or Blanket Order.

PRODUCT IDENTIFICATION: If a product(s) is identified by a BRAND NAME, a substitute of equal quality, construction, finish, composition, size, workmanship and performance characteristics may be acceptable. In submitting a bid, each bidder warrants that the substitute product being offered is an equal. Bid sheets shall be so noted of the manufacturer's name and brand of the product offered as an equal. If as a result of an award, a delivery is made of a brand or product represented as an equal which is subsequently deemed to be unacceptable, the Contractor shall be required, at his expense, to pick up the rejected item and replace it with brand(s) listed in this bid, or an acceptable equal which will have the approval of the Director.

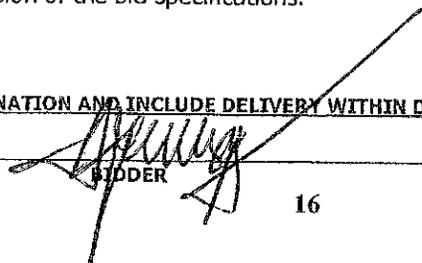

PROTECTION FROM CLAIM AGAINST "OR EQUAL": In the event of any claim by any unsuccessful bidder concerning or relating to the issue of "equal or better" or "or equal", the successful bidder agrees, at his own cost and expense, to defend such claims or claims and agrees to hold the County of Nassau free and harmless from any and all claims for loss or damage arising out of this transaction for any reason whatsoever.

ALTERNATIVE ITEM: In submitting a bid on a commodity other than as specified, bidder shall furnish complete data and identification with respect to the alternate commodity he proposes to furnish. Consideration will be given to proposals submitted on alternate commodities to the extent that such action is deemed to serve the best interests of the County. If a bidder does not indicate that the commodity he proposes to furnish is other than as specified, it will be construed to mean that the bidder proposes to furnish the exact commodity as described. Consideration of the alternate shall be at the sole discretion of the Director. MORE THAN ONE (1) BID ON EACH ITEM WILL NOT BE CONSIDERED, UNLESS OTHERWISE SPECIFIED BY THE COUNTY.

EQUIVALENT BIDS: Bidders may offer a product of the same capability, but of different manufacture and model than that specified in this bid. The use of the name of a manufacturer, brand, make or catalog designation is specifying items described herein does not restrict or preclude bidders from offering equivalent or better product bids. Such a designation is used only to indicate the character, quality and minimum performance desired. Equal or better product bids are permissible. A bidder submitting an equal or better product shall, at his own cost and expense be responsible for submitting proof and/or a demonstration of equivalence, compatibility and performance. However, acceptance of an equivalent product shall be strictly at the discretion of the Director. Any omission of the term "or equal" in any specific bid item listing should be disregarded by the bidder. All bidders shall have an absolute right to submit "equivalent" bids notwithstanding any other provision of the bid specifications.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

WARRANTY: The successful bidder warrants the equipment furnished and all associated equipment against any defects in design, workmanship and materials against failure to operate satisfactorily for one (1) year from the date of acceptance by the using department and/or agency of the equipment, other than defects or failure shown by the Contractor that have arisen solely from accident or abuse occurring after delivery to the Nassau County agency. Contractor agrees to replace any parts, which in the opinion of the user, shall fail from the above reasons.

IMPORTANT NOTES: If a company policy or trade practice requires a different warranty period, the bidder may so state without fear of disqualifications. However, the bidder is cautioned that the length of warranty may, in some cases, be a deciding factor in making an award.

Equipment furnished hereunder shall meet the standards set forth in the Occupational Safety and Health Act of 1970.

BIDDER SHALL STATE WARRANTY PERIOD: 1 yr

NOTE: All warranties take effect only upon written acceptance of equipment by using agency and shall run full term from that point.

BIDDER SHALL INDICATE COST AND TERM OF ANY EXTENDED WARRANTY OPTION, IF AVAILABLE:
N/A

COMPREHENSIVE AND GENERAL LIABILITY AND HOLD HARMLESS: The Contractor agrees to indemnify and hold harmless the County of Nassau, its agents, officers and employees against any and all claims, causes of action, costs, and liabilities, in law or in equity, of every kind and nature whatsoever, directly or proximately resulting from any act of omission or commission of Contractor, its officers, agents, or employees. Contractor shall, at Nassau County's demand, defend at its own risk and expense any and all suits, actions or legal proceedings which may be brought or instituted against Nassau County, its agents, officers, or employees on any such claim, demand or cause of action, and Contractor shall pay and satisfy any judgment or decree which may be rendered against Nassau County, its agents, officers, or employees in any such suit, action or legal proceeding.

The Contractor shall obtain from an Insurance company authorized to do business in the State of New York, and keep in force during the term of any agreement, a policy of Comprehensive and General Liability Insurance naming the Contractor as an Insured, and naming the County of Nassau as an additional insured, including, but not limited, to the torts and negligence of Contractor's personnel, with a combined single minimum limit of three million dollars (\$3,000,000.00) for bodily injury and property damage for any one occurrence at the Contractor's sole cost and expense. Evidence of insurance may be required prior to Notice of Award or issuance of a Purchase Order.

The Contractor shall comply with all provisions of the Workers' Compensation Law and shall furnish a certificate showing evidence of current coverage.

Bidder shall list below the Insurance Company(s) holding the following documents:
A) Certificate of Insurance name the County of Nassau as co-insured: ASSURED PARTNERS Northeast LLC
Or
B) Certificate of Insurance with indemnification agreement (hold harmless clause): _____

NASSAU COUNTY MUST BE NAMED AS AN ADDITIONAL INSURED

PRESDENT
TITLE

GENERAL CONDITIONS:

All repairs to be made in accordance with the Occupational Safety and Health Administration safety requirements.

Contractor will furnish all labor, materials, transportation, tools, instrumentation, parts and accessories necessary to repair and restore the equipment to optimum operating condition.

All Contractor personnel assigned to any requirement of a contract established must be fully qualified and cognizant of the required and applicable electrical codes and safety requirements and must adhere to them.

All parts supplied must match and inter-member without modification to the designated equipment and must be in accordance with the specifications of the manufacturer of the part to be replaced.

Except as otherwise specified, all contract requirements will be performed at the site as required.

Any requirement to remove any part of the equipment or system(s), to the Contractor's shop, must be approved by an authorized agency representative. Nassau County shall supply all utilities which are available on location insofar as compatibility requirements permit.

All requirements performed by the Contractor will be subject to inspection and approval by an authorized designated representative of Nassau County.

Employees of the Contractor, while on service call, shall carry identification badges or cards and shall be instructed to submit same to scrutiny upon request of security or supervisory personnel of Nassau County.

ADDITIONAL BIDS: The County reserves the right, for any un-contemplated additional requirements of extraordinary quantities of particular items to call for new bids, therefore, whenever in the opinion of the Director of the Office of Purchase it is in the best interests of the County of Nassau to do so.

PRICE LISTS AND DISCOUNTS: Bidders may attach price lists and catalogs indicating discounts available to the County for all other products not listed herein. New items may be added to the price list at the then current price at the same discount schedule during the life of the contract.

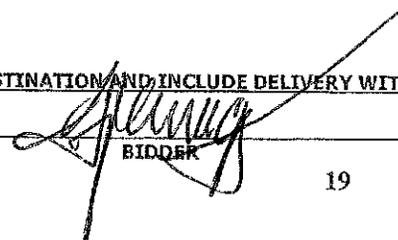

NON-ASSIGNMENT: In accordance with Section 138 of the State Finance Law, the contract may not be assigned by the Contractor or its right, title or interest therein assigned, transferred, conveyed, sublet or otherwise disposed of without the previous consent, in writing, of Nassau County and any attempts to assign the contract without the County's written consent are null and void.

NON-PERFORMANCE: The Contractor agrees that in the event any of the services provided for under the terms of this contract should in any way be omitted or unsatisfactorily performed by the Contractor and/or his employees, the county shall so notify the contractor verbally and follow with a written notification of the deficient services for immediate correction. In the event the Contractor does not correct the deficient services after receipt of written notification, the Nassau County Department concerned will deduct a percentage based on the work not performed or performed unsatisfactorily from the Contractor's claim for the period covered. If the Contractor continues to omit or unsatisfactorily perform the required services, the County will arrange for the work to be done by another contractor and the cost of such work shall be deducted from any monies due or that may become due to the Contractor.

MINIMUM ORDERS: There will be many County Agencies ordering from Blanket Orders. Therefore, **NO MINIMUMS SHALL BE APPLIED TO THIS BID.**

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

PRESIDENT

TITLE

DISCLAIMER

Any Blanket Purchase Order issued as a result of this bid will establish terms and conditions pursuant to which certain materials and/or services are to be supplied or performed, from time to time, for a specified period upon issuance by the County of Delivery Orders. The Blanket Purchase Order is non-exclusive, and the County is not bound to purchase, and no materials are to be delivered or services performed without a Delivery Order. The County shall be under no obligation whatsoever to issue such Delivery Orders. The Blanket Purchase shall not apply in any way to items of material or service deemed by the County in its sole discretion to be extraordinary or involve any special conditions, quantities, circumstances or complexities.

ACCESS CLAUSE: Contractor, including its satellites, offices and/or subcontractors, if any, shall maintain full and complete books and records of accounts pertaining to this agreement, in accordance with accepted accounting practices and such other records as may be reasonably prescribed by the County of Nassau. Such books and records shall at all times be available for audit and inspection by the completion of all the services described in this agreement. Contractor further agrees that if any provision of Section 952 of the Omnibus Reconciliation Act of 1980 (PL-96-499) is found by a body of competent jurisdiction to be applicable to this contract, the Contractor agrees that it will make available upon written request by the Secretary of Health and Human Services, or the Comptroller General of the General Accounting Office, or any of their duly authorized representatives, a copy of this contract and any executed amendments thereto documents which relate to the calculation of the charges stated in the contract and copies of service reports documenting services performed. Such records will be available in accordance with the above for the period of six (6) years after the furnishing of any of the services described in this contract.

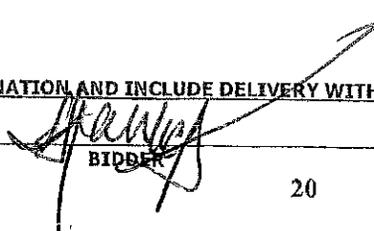

TERMINATION PREROGATIVE: The Director reserves the right to cancel the Blanket Order by giving not less than thirty (30) days written notice that, on or after a date therein specified, the contract shall be deemed terminated and cancelled.

VENDOR RESPONSIBILITY CRITERIA: The Director of Purchasing reserves the right before making an award to make investigations as to whether or not the qualifications, services, facilities or items offered by the bidder meet the requirements set forth herein and are ample and sufficient to ensure the proper performance in the event of an award. The bidder must be prepared, if requested by the Director of Purchasing, to present evidence of experience, ability, financial standing, as well as a statement as to plant, machinery, trained personnel and capacity for the rendition of the service on which the vendor is bidding. Upon request of the Director, the successful bidder shall file certification from the manufacturer relative to authorization, delivery, service and guarantees. If it is found that the conditions of the bid are not complied with or that the services or equipment proposed to be furnished do not meet the requirements called for, or that the qualifications, financial standing, or facilities are not satisfactory, the Director may reject such bids. It is distinctly understood, however, that nothing in the forgoing shall mean or imply that it is obligatory upon the Director to make any examinations before an award; and it is further understood that, if such examination is made, it in no way relieves the bidder from fulfilling all requirements and conditions of the bid.

IMPORTANT NOTE: The Director reserves the right to accept or reject any and all bids, or separable portions of offers, and waive technicalities, irregularities, and omissions if the Director determines the best interests of the County of Nassau will be served. The Director, in his sole discretion, may accept or reject illegible, incomplete or vague bids and his decision shall be final. A conditional or revocable bid which clearly communicates the terms or limitations of acceptance may be considered and contract award may be made in compliance with the bidder's conditional or revocable terms in the offer. Prior to award, the Director reserves the right to seek clarifications, request bid revisions, or to request any information deemed necessary for proper evaluation of bids from all bidders deemed to be eligible for contract award. Failure to provide requested information may result in rejection of the bid.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

TITLE

GENERAL INSTRUCTIONS: All bidders must adhere to the following conditions:

As per New York State Municipal Law 103, no exception can be taken to any material term and/or condition of this bid with the exception of any warranties as presented in this bid for the specific commodity or service required.

Any language in any proposal or document submitted by a bidder as part of their bid that is accepted by the County of Nassau cannot be in conflict with any material term and/or condition relevant to this bid with the exception of any warranties or the specifications of the commodity of service required by this bid. If there is any conflict between the bidder's terms and conditions and the terms and conditions of this bid, the terms and conditions of this bid shall govern.

Bidders must insert **FEDERAL IDENTIFICATION NUMBER** in the space provided on page one of this bid.

Late Formal Sealed Bids will NOT be accepted. Bidders are urged to mail bids early to assure delivery on time. Bids must be received by 11:00 A.M. on the bid opening date.

Prices **MUST** be inserted with **TYPEWRITER OR INK**. Entries with **WHITE OUT, CROSS-OUTS OR LIFT-OFF TAPE** **MUST BE INITIALED** or that entry will be disqualified.

Bidders should submit bid with unit price in the appropriate column on bid pages or forms attached hereto. In the event of a discrepancy between the unit price and the extension, the unit price shall govern. Bidders shall submit one (1) original bid document and all applicable attachments. Any order issued against this bid will refer to the bid and attachments to designate items awarded. Bidders agree that all, Direct Purchase Orders and/or Purchase Orders shall be effective and binding upon the Contractor when placed in the mail, addressed to the Contractor at the address shown on the Direct Purchase Order or the Purchase Order.

Bidders **MUST** state manufacturer's name and catalog number of each item bid.

ABSOLUTELY NO MINIMUM ORDERS shall be applied to this bid.

Purchases made by Nassau County are not subject to State or Local Sales Tax or Federal Excise Taxes.

Federal Exemption Number: A-109538 **State Exemption Number: EX 7213062C**

Inside (receiving dock) delivery is required on all orders.

The rights and obligations of the parties under this agreement shall be governed by the laws of the State of New York.

Bids are hereby solicited for the commodities and/or services specified herein which are to be delivered and/or performed at the locations indicated, and in strict accordance with all specifications, terms and conditions attached hereto and made part hereof.

Bid document must be signed by proprietor, partner or corporate officer.

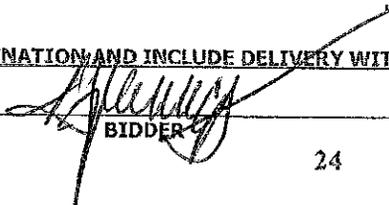

The clauses contained in these bid forms set forth the wishes of the County of Nassau in regard to the purchase and/or services required. However, the Director reserves the right to waive irregularities, omissions, or other technical defects if, in its judgment, the best interest of the County of Nassau will be served accordingly.

Bidders may take exception to paragraphs of the bid under a separate cover letter to be attached to this bid, indicating the specific bid page, paragraph and the exception(s). In any event, the decision of the Director will be final.

Qualification statement **MUST BE COMPLETED** and submitted with bid. See page 4 for further details

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

BIDDER

PRESIDENT
TITLE

NY STATE LABOR LAW

If any portion of work being Bid is subject to the prevailing wage rate provisions of the Labor Law, the following shall apply:

a. "Public Works" and "Building Services" - Definitions

i. Public Works Labor Law Article 8 applies to county contracts for public improvements in which laborers, workers or mechanics are employed on a "public works" project (distinguished from public "procurement" or "service" contracts).

ii. Building Services Labor Law Article 9 applies to Contracts for building service work with the county, that: (i) involve the care or maintenance of an existing building, or (ii) involve the transportation of office furniture or equipment to or from such building, or (iii) involve the transportation and delivery of fossil fuel to such building, and (iv) the principal purpose of which is to furnish services through use of building service employees.

b. Prevailing Wage Rate Applicable to Bid Submissions *A copy of the applicable prevailing wage rates to be paid or provided are annexed* to the Bid Documents. Bidders must submit Bids which are based upon the prevailing hourly wages, and supplements in cash or equivalent benefits (i.e., fringe benefits and any cash or non-cash compensation which are not wages, as defined by law) that equal or exceed the applicable prevailing wage rate(s) for the location where the work is to be performed. Bidders may not submit Bids based upon hourly wage rates and supplements below the applicable prevailing wage rates as established by the New York State Department of Labor. Bids that fail to comply with this requirement will be disqualified. Information indicating that prevailing wages are not being paid on a public works project will be forwarded to the New York State Department of Labor for investigation. Willful violations of the prevailing wage provisions of the Labor Law may result in debarment from the bidding and award of public contracts.

c. Wage Rate Payments / Changes During Contract Term the wages to be paid under any resulting Contract shall not be less than the prevailing rate of wages and supplements as set forth by law. It is required that the Contractor keep informed of all changes in the Prevailing Wage Rates during the Contract term that apply to the classes of individuals supplied by the Contractor on any projects resulting from this Contract, subject to the provisions of the Labor Law. Contractor is solely liable for and must pay such required prevailing wage adjustments during the Contract term as required by law.

d. Public Posting & Certified Payroll Records In compliance with Article 8, Section 220 of the New York State Labor Law:

i. Posting the Contractor must publicly post on the work site, in a prominent and accessible place, a legible schedule of the prevailing wage rates and supplements.

ii. Payroll Records Contractors and Subcontractors must keep original payrolls or transcripts subscribed and affirmed as true under the penalties of perjury as required by law. For public works contracts over \$25,000 where the Contractor maintains no regular place of business in New York State, such records must be kept at the work site. For building services contracts, such records must be kept at the work site while work is being performed.

iii. Submission of Certified Payroll Transcripts for Public Works Contracts Only Contractors and Subcontractors on public works projects must submit monthly payroll transcripts to the project manager for a public works project.

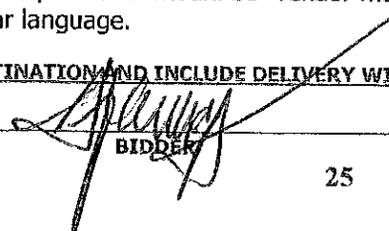

iv. Records Retention Contractors and Subcontractors must preserve copies of such certified transcripts for a period of three years from the date of completion of work on the awarded contract.

If this contract is for Building Service Work as defined in Article 9 of the Labor Law, State law prohibits other political subdivisions and districts within the County from making purchases pursuant to this agreement.

The County Living Wage Law, Title 57, Section 3(a)(i), states: employers who provide building services shall pay their employees no less than the living wage, as required by this section, or the prevailing wage, whichever is greater. In future bidding procedures, the requirement should be "vendor must pay the prevailing wage, or the County Living Wage, whichever is greater", or similar language.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

BIDDER SIGN HERE

BIDDER

PRESIDENT

TITLE

Living Wage

Section 1. Authority and Usage

- a. These Rules are promulgated pursuant to Local Law 1-2006, section 7(b) which authorizes the County Executive to promulgate rules to implement the provisions of the Nassau County Living Wage Law.
- b. Wherever the term "Law" or "Living Wage Law" is used in this document, it shall mean Local Law 1-2006, otherwise known as the Nassau County Living Wage Law. Whenever the terms "Rule" or "Rules" are used in this document, it shall mean these Rules of the County Executive regarding the Nassau County Living Wage Law.

Section 2. Clarification of Terms

- a. Awarded. "Awarded" shall mean that time at which a contractor is selected by the County, or any department of the County, to receive county financial assistance, even if that time is before execution of a county financial assistance agreement by all parties or approval of such agreement by the County Legislature.

See Living Wage Law, § 5(a) "Certification of Compliance" and § 10 "Other Provisions"

- b. County Service Contract. "County Service Contract" shall mean any contract let to a contractor by the county for the furnishing of services to or for the county and that involves an expenditure equal to or greater than twenty-five thousand dollars. A contract for the sale of goods to the County, or a contract for the sale of goods where incidental services are being provided to the County, are not considered County Service Contracts. This definition shall not include contracts awarded pursuant to the county's emergency procurement procedure as set forth in section twenty-two hundred six of the county charter, inter-governmental agreements, agreements with state or local public authorities or agreements with local development corporations incorporated pursuant to section 1411 of the not-for-profit corporations law.

- c. County Financial Assistance. "County Financial Assistance" shall mean any grant, loan, tax incentive or abatement, bond financing, subsidy or other form of assistance of more than fifty thousand dollars given by or through the authority or approval of the county to an entity having at least ten employees. County financial assistance shall not include industrial development bonds, community development block grant loans, and enterprise-zone-related incentives.

- d. Employee and Employer.

i. Under Section 1 of the Living Wage Law, an "Employee" for the purposes of a county service contract is an employee of a county contractor "pursuant to one or more service contracts and who expends any of his or her time thereon." Thus, an Employee may be:

- A. Any person hired by a County contractor specifically to work on the County Service Contract at issue
- B. Any person employed by the County Contractor who works on the specific services contemplated by the County Service Contract

ii. An Employee is not:

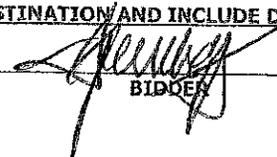

- A. An employee who provides services which are only incidental to the services specified in the County Service Contract.

An employee who does not provide any services contemplated under the County Service Contract in Question

iii. For the purposes of the Living Wage Law, Nassau Community College is not an employer as defined in the Law. However, service contractors, financial assistance recipients and lessees of the College are employers as defined in the law and are subject to the provisions of the Living Wage Law as they are applicable.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

BIDDER SIGN HERE

BIDDER

PRESIDENT

TITLE

See Living Wage Law, § 1 "Employee," "Employer"

e. Enter Into. "Enter into" shall mean that time at which both parties have signed the contract in question.

See Living Wage Law, § 1 "County Service Contract" and § 10(a) "Other Provisions"

3. Amendments, Extensions and Renewals

a. Renewals and Extensions. Where an existing County Financial Assistance Agreement, County Service Contract, or County Lease is renewed or extended after the effective date of the Law, such agreement is a new County Financial Assistance Agreement, County Service Contract or County Lease, as the case may be, and is subject to the applicable provisions of the Law.

b. Determination of Applicability.

i. County Service Contracts.

A. Any renewal of a County Service Contract is subject to the Living Wage Law if the total expenditure by the County under the renewal is \$25,000 or greater.

B. If a County Service Contract is extended or otherwise amended, such extension or amendment will be subject to the provisions of the Law if such amendment increases the total expenditure under the original agreement to an amount \$25,000 or over, or if such amendment itself involves an expenditure of \$25,000 or over. In no event shall the Law apply in a situation where an amendment involves an expenditure of less than \$25,000 and the original agreement already involves an expenditure of \$25,000 or over.

ii. County Financial Assistance Agreements.

A. Any renewal of a County Financial Assistance Agreement is subject to the Living Wage Law if the total expenditure by the County under the renewal is greater than \$50,000.

B. If a Financial Assistance Agreement is extended or otherwise amended, such extension or amendment will be subject to the provisions of the Law if such amendment increases the total expenditure under the original agreement to an amount over \$50,000, or if such amendment itself involves an expenditure over \$50,000. In no event shall the Law apply in a situation where an amendment involves an expenditure of \$50,000 or less and the original agreement already involves an expenditure over \$50,000.

iii. County Leases. Any renewal, extension or modification of a County Lease is subject to the provisions of the Living Wage Law.

See Living Wage Law, §10(a) "Other Provisions"

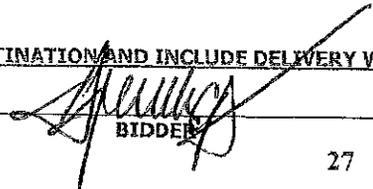

4. Waiver of the Law

a. Application of the Provision

i. Any County Contractor may apply for a waiver of the provisions of the Law. In order to qualify as a County Contractor, the applying organization must have a County Service Contract with the County of Nassau. A County Service Contract is a contract which contemplates providing a service to the County (not goods or any service performed only to deliver goods) for which the County is paying \$25,000 or more. Both non-profit and for-profit County Contractors may apply for a waiver.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

BIDDER SIGN HERE

BIDDER

PRESIDENT
TITLE

ii. At this time, the Living Wage Law does not allow a County Lessee or an entity receiving County Financial Assistance to apply for a waiver of the Law's provisions.

b. Request for a Waiver The following procedures have been established by the County Executive for requesting a waiver of the provisions of the Living Wage Law:

i. Request for a waiver must be made to the Nassau County Office of Compliance. Since a waiver request must be made by a County Contractor who already has a contract with the County to provide services, a request for a waiver may only be made after the contract in question is entered into with the County.

ii. A request for a waiver must be made on the approved form designated "Request for Waiver of the Provisions of the Nassau County Living Wage Law." This form is attached to these rules. Additional forms may be requested by contacting the agency with which the requesting organization has a contract.

iii. Except for those requesting organizations with County Service Contracts listed in section 4(b)(iv)(E)(3) below, those requesting organizations which plan to request a waiver once a County Service Contract has been entered into must include, in their bid or proposal for the specific County Service Contract, a budget breakdown stating the amount of the budget allocated to wages (*assuming the Living Wage Law applies*), and the amount of the budget allocated to services and other contract expenses.

A. In any budget breakdown submitted, the requesting organization must include only those employees who are included within the definition of "Employee" described above.

B. Those County contractors who have been awarded a contract through Executive Order No. 1 of 1993, a state or federal grant, General Municipal Law section 104, or any other state or federal rule or regulation must submit the above budget breakdown to the contracting agency before such contract is entered into with the County in order to be eligible for a waiver.

iv. A waiver request must contain the following information:

A. The name of the organization

B. The address of the organization

C. A brief description of the contract which the waiver pertains to.

D. The name and email address of the Chief Executive Officer of the requesting organization

E. The criteria (hereinafter, the "Criteria") for qualifying for a waiver under the provisions of the Law. Currently, a requesting organization must meet either Criteria 1, 2 or 3 below, and, if Criteria 1, 2 or 4 are cited, must meet Criterion 5 below:

1. The highest paid officer or employee of the requesting organization earns a salary which, when calculated on an hourly basis, is less than six times the lowest wage or salary paid by the requesting organization.

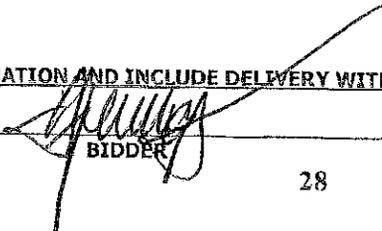

OR

2. Compliance with the requirements of the Living Wage Law will directly increase the requesting organization's expected total annual budget in an amount greater than ten percent of the prior fiscal year's budget.

OR

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

BIDDER SIGN HERE

BIDDER

PRESIDENT

TITLE

3. The requesting organization is providing any of the following services to the County and compliance with the Living Wage Law would exceed the amount, per hour or per diem (as the case may be), reimbursed to the County by any State or Federal Source:

Services under the Expanded In-Home Services for the Elderly Program (EISEP)
Foster care services under the New York Social Services Law.
Residential domestic violence services under the New York Social Services Law.
Residential care, educational and vocational training, physical and mental health services, and employment counseling services to residents of the Juvenile Detention Center under the New York Executive Law.

OR

4. The requesting organization is providing any of the following services to the County and compliance with the Living Wage Law would increase the County Service Contract's budget by greater than ten percent over the budget for the requesting organization's County Service Contract for the previous contracting year:

- i. Non-residential domestic violence services under the New York Social Services Law.
 - ii. Services under the Home Energy Assistance Program (HEAP)
- Preventive services for children pursuant to the New York Social Services Law
Non-Secure detention services pursuant to the New York Executive Law.

AND (if Criteria 1, 2 or 4)

5. When the requesting organization placed a bid or submitted a proposal for the county service contract at issue, it must have submitted a budget which included a breakdown of the wages paid to employees of the requesting organization who would be covered under the Living Wage Law.

F. A statement that, if a waiver is granted, the requesting organization will decrease its budgeted wage allocation to that amount the requesting organization would have paid its employees had the requirements of Living Wage Law not been applied. The amount to be paid by the County to the requesting organization will be reduced accordingly by contract amendment.

G. The notarized signature of the requesting organization's Chief Executive Officer.

v. A request must be accompanied by documentation supporting the Criteria claimed by the requesting organization.

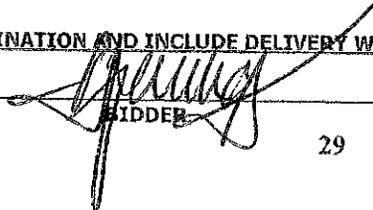

A. If Criteria (1) is cited in the request, the requestor must include a statement, certified by the chief financial officer of the requesting organization as true and accurate, of the wages paid, on an hourly basis, of the highest and lowest paid individuals employed by the requesting organization.

B. If Criteria (2) is cited in the request, the requestor must provide a copy of the requesting organization's budget for the last fiscal year along with a copy of the organization's expected budget taking into account increases in salary as a result of compliance with the Living Wage Law. Both budgets must be certified as complete and accurate by the chief financial officer of the requesting organization.

C. If Criteria (4) is cited in the request, the requestor must provide a copy of the requesting organization's budget for the County Service Contract for the prior agreement year along with the requesting organization's budget for the County Service Contract for the current agreement year which takes into account increases in salary as a result of compliance with the Living Wage Law. Both budgets must be certified as complete and accurate by the chief financial officer of the requesting organization.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

BIDDER SIGN HERE

BIDDER

PRESIDENT

TITLE

vi. The request form and all documentation must be sent to the following address:

County of Nassau Office of Compliance
Attention: Living Wage Waiver Request Office
One West Street – 4th Floor
Mineola, New York 11501

c. Waiver and Procurement

- i. As a waiver may only be requested once a County Service Contract has been entered into, no waiver application may be submitted by any organization submitting a bid or proposal to the County for a County Service Contract.
- ii. The fact that a waiver may be granted to an organization submitting a bid or proposal to the County for a County Service Contract will not be a consideration in evaluating such bid or proposal.

d. Review Procedures

- i. Review of a request for a waiver must be made by the Office of Compliance.
- ii. Approval of a request is dependent on the requestor satisfying either criteria (1), (2) or (3) in section 4(b)(iv)(E) above and, if citing criteria (1), (2) or (4), criterion (5) in section 4(b)(iv)(E) above. Applications not satisfying these criteria, or incomplete applications, will not be approved. However, complete applications that do meet these criteria shall be approved by the Office of Compliance.
- iii. The Office of Compliance shall inform the requestor of his or her decision to grant or deny a request in writing within thirty days of receipt of the request. A copy of the grant or denial shall be transmitted to the County Comptroller for the purposes of monitoring compliance with the Living Wage Law.
- iv. During such thirty-day period, the requestor must continue to abide by the provisions of the Living Wage Law. Failure to do so may result in action by the Office of the Nassau County Comptroller to enforce the provisions of the Law.

e. Post-Award Review

i. After the County grants a waiver, if at any time during the term of the County Service Contract the requesting organization alters its budget or wages such that the organization no longer qualifies for a waiver of the Living Wage Law, the requesting organization must contact the County department with which it contracts and inform such department of such alteration.

ii. If a County department is contacted in reference to such a change, the department must either:

Amend the County Service Contract in question to restore any funding subtracted from the contract as a result of a waiver of the Living Wage Law and receive from the Contractor a completed Certificate of Compliance; or

Terminate such Contract according to its terms.

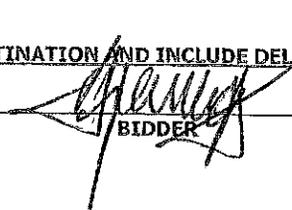

See Living Wage Law, § 9 "Waiver"

5. Inter-Governmental Agreements

a. The Living Wage Law shall not apply to those County Service Contracts which are entered into with any municipal corporation located within the County, any school district located within the County, and any special district located within the County.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

BIDDER SIGN HERE

BIDDER

PRESIDENT
TITLE

b. County Financial Assistance Agreements and County Leases. The Living Wage Law shall not apply to a County Financial Assistance Agreement or a County Lease in the event that application of the law would conflict with the application of a federal, state or local law, rule, regulation or ordinance. For the purposes of this Rule, the Living Wage Law would not apply to a County Financial Assistance Agreement or County Lease where funding for the Agreement or Lease is derived from a Federal or state grant where the distribution of such grant funds to certain subrecipients is mandatory and non-discretionary.

See Living Wage Law, § 1 "County Service Contract," "Inter-governmental Agreement;" § 3 "Minimum Compensation;" §10 "Other Provisions"

6. Certification of Compliance

a. An updated certification of compliance with the provisions of the Living Wage Law shall be submitted to the County on or before the first day of each agreement year during the term of any County Service Contract.

b. For the purposes of updating a certification of compliance, a "material change" as used in the Law shall be limited to the following:

i. Any determination by the County Comptroller that the contractor has violated any provision of the Law.

ii. Any instance during the preceding year in which the contractor has been found by a court or governmental agency to have violated federal state or local laws regulating payment of wages or benefits, labor relations or occupational safety and health, or where any governmental body has initiated a judicial action, administrative proceeding or investigation of the contractor in regard to any of the above laws.

See Living Wage Law, § 5 "Certification of Compliance"

7. Nassau County Employees

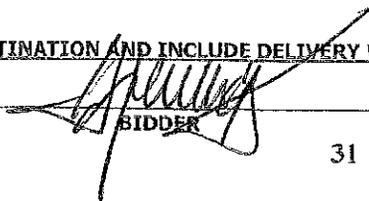

a. All Nassau County Employees are covered by the provisions of the Living Wage Law, provided, however, that Nassau County Employees covered by the collective bargaining agreement between the County and the Civil Service Employees Association are not entitled to receive the benefits supplement rate as the term is defined in the Law. The provisions of the Law also extend to paid interns hired by the County.

b. The Living Wage Law does not apply to volunteer workers utilized by the County pursuant to the County's authority to use volunteer workers under § 2105 of the Nassau County Charter. As such, the Law does not cover unpaid interns utilized by the County.

See Living Wage Law, § 1 "Employee," "Employer;" § 10 "Other Provisions"

PRESIDENT

TITLE

FIRM PRICES: Price shall remain firm for the first year of the Blanket Purchase Order and no upward escalation will be permitted. Thereafter, increases in labor and/or material(s) costs may be considered provided they are based on certified labor contracts, uncontrollable materials costs which can be verified in national publications or other increases auditable by the County of Nassau. The burden of proof for such increases shall be upon the Contractor and shall be formally directed to the Director of Purchasing. The decision as to whether or not such increases will be granted shall be made by the Director of Purchasing and shall be final. In the event an increase is not granted when requested, the Contractor may elect to continue at the bid prices or given written notice of termination, upon receipt of which the Blanket Purchase Order will be re-bid.

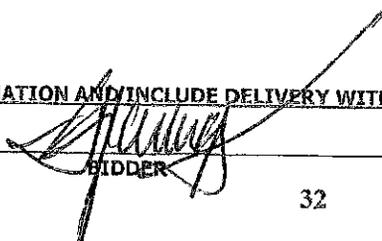

EVALUATION:

The Director of the Office of Purchasing (hereinafter known as the Director) reserves the right before making award to make investigations as to whether or not the items, qualifications, services or facilities offered by the Bidder meet the requirements set forth herein and are ample and sufficient to insure the proper performance in the event of an award. The Bidder must be prepared, if requested by the Director, to present evidence of experience, ability and financial standing, as well as a statement as to plant, machinery, trained personnel and capacity for the rendition of the service on which he is bidding. Upon request of the Director of Purchasing, successful bidder shall file certification from the manufacturer relative to authorization, delivery, service and guarantees. If it is found that the conditions of the bids are not complied with or that the services or equipment proposed to be furnished do not meet the requirements called for, or that the qualifications, financial standing or facilities are not satisfactory, the Director may reject such bids. It is distinctly understood, however, that nothing in the foregoing shall mean or imply that it is obligatory upon the Director to make any examinations before award; and it is further understood that, if such examination is made, it in no way relieves the Bidder from fulfilling all requirements and conditions of the bid.

GOVERNING LAW: Consent to Jurisdiction and Venue; Governing Law. Unless otherwise specified in this Agreement or required by Law, exclusive original jurisdiction for all claims or actions with respect to this Agreement shall be in the Supreme Court in Nassau County in New York State and the parties expressly waive any objections to the same on any grounds, including venue and forum non conveniens. This Agreement is intended as a contract under, and shall be governed and construed in accordance with, the Laws of New York State, without regard to the conflict of law's provisions thereof.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

COUNTY OF NASSAU

LOBBYIST REGISTRATION AND DISCLOSURE FORM

1. Name, address and telephone number of lobbyist(s)/lobbying organization. The term "lobbyist" means any and every person or organization retained, employed or designated by any client to influence - or promote a matter before - Nassau County, its agencies, boards, commissions, department heads, legislators or committees, including but not limited to the Open Space and Parks Advisory Committee and Planning Commission. Such matters include, but are not limited to, requests for proposals, development or improvement of real property subject to County regulation, procurements. The term "lobbyist" does not include any officer, director, trustee, employee, counsel or agent of the County of Nassau, or State of New York, when discharging his or her official duties.

NONE

2. List whether and where the person/organization is registered as a lobbyist (e.g., Nassau County, New York State):

NONE

3. Name, address and telephone number of client(s) by whom, or on whose behalf, the lobbyist is retained, employed or designated:

NONE

4. Describe lobbying activity conducted, or to be conducted, in Nassau County, and identify client(s) for each activity listed. See the last page for a complete description of lobbying activities.

NONE

5. The name of persons, organizations or governmental entities before whom the lobbyist expects to lobby:

NONE

6. If such lobbyist is retained or employed pursuant to a written agreement of retainer or employment, you must attach a copy of such document; and if agreement of retainer or employment is oral, attach a written statement of the substance thereof. If the written agreement of retainer or employment does not contain a signed authorization from the client by whom you have been authorized to lobby, separately attach such a written authorization from the client.

7. Has the lobbyist/lobbying organization or any of its corporate officers provided campaign contributions pursuant to the New York State Election Law in (a) the period beginning April 1, 2016 and ending on the date of this disclosure, or (b), beginning April 1, 2018, the period beginning two years prior to the date of this disclosure and ending on the date of this disclosure, to the campaign committees of any of the following Nassau County elected officials or to the campaign committees of any candidates for any of the following Nassau County elected offices: the County Executive, the County Clerk, the Comptroller, the District Attorney, or any County Legislator?

YES NO If yes, to what campaign committee? If none, you must so state:

I understand that copies of this form will be sent to the Nassau County Department of Information Technology ("IT") to be posted on the County's website.

I also understand that upon termination of retainer, employment or designation I must give written notice to the County Attorney within thirty (30) days of termination.

VERIFICATION: The undersigned affirms and so swears that he/she has read and understood the foregoing statements and they are, to his/her knowledge, true and accurate.

The undersigned further certifies and affirms that the contribution(s) to the campaign committees listed above were made freely and without duress, threat or any promise of a governmental benefit or in exchange for any benefit or remuneration.

Electronically signed and certified at the date and time indicated by:
PATRICIA EJKEME [PATRICIA.EJKEME@PATIFCO.COM]

Vendor: PATIFCO CORPORATION

Title: EXECUTIVE DIRECTOR

The term lobbying shall mean any attempt to influence: any determination made by the Nassau County Legislature, or any member thereof, with respect to the introduction, passage, defeat, or substance of any local legislation or resolution; any determination by the County Executive to support, oppose, approve or disapprove any local legislation or resolution, whether or not such legislation has been introduced in the County Legislature; any determination by an elected County official or an officer or employee of the County with respect to the procurement of goods, services or construction, including the preparation of contract specifications, including but not limited to the preparation of requests for proposals, or solicitation, award or administration of a contract or with respect to the solicitation, award or administration of a grant, loan, or agreement involving the disbursement of public monies; any determination made by the County Executive, County Legislature, or by the County of Nassau, its agencies, boards, commissions department heads or committees, including but not limited to the Open Space and Parks Advisory Committee, the Planning Commission with respect to the zoning, use, development or improvement of real property subject to County regulation, or any agencies, boards, commissions, department heads or committees with respect to requests for proposals, bidding, procurement or contracting for services for the County; any determination made by an elected county official or an officer or employee of the county with respect to the terms of the acquisition or disposition by the county of any interest in real property, with respect to a license or permit for the use of real property of or by the county, or with respect to a franchise, concession or revocable consent; the proposal, adoption, amendment or rejection by an agency of any rule having the force and effect of law; the decision to hold, timing or outcome of any rate making proceeding before an agency; the agenda or any determination of a board or commission; any determination regarding the calendaring or scope of any legislature oversight hearing; the issuance, repeal, modification or substance of a County Executive Order; or any determination made by an elected county official or an officer or employee of the county to support or oppose any state or federal legislation, rule or regulation, including any determination made to support or oppose that is contingent on any amendment of such legislation, rule or regulation, whether or not such legislation has been formally introduced and whether or not such rule or regulation has been formally proposed.

The term "lobbying" or "lobbying activities" does not include: Persons engaged in drafting legislation, rules, regulations or rates; persons advising clients and rendering opinions on proposed legislation, rules, regulations or rates, where such professional services are not otherwise connected with legislative or executive action on such legislation or administrative action on such rules, regulations or rates; newspapers and other periodicals and radio and television stations and owners and employees thereof, provided that their activities in connection with proposed legislation, rules, regulations or rates are limited to the publication or broadcast of news items, editorials or other comment, or paid advertisements; persons who participate as witnesses, attorneys or other representatives in public rule-making or rate-making proceedings of a County agency, with respect to all participation by such persons which is part of the public record thereof and all preparation by such persons for such participation; persons who attempt to influence a County agency in an adjudicatory proceeding, as defined by § 102 of the New York State Administrative Procedure Act.

Business History Form

The contract shall be awarded to the responsible proposer who, at the discretion of the County, taking into consideration the reliability of the proposer and the capacity of the proposer to perform the services required by the County, offers the best value to the County and who will best promote the public interest.

In addition to the submission of proposals, each proposer shall complete and submit this questionnaire. The questionnaire shall be filled out by the owner of a sole proprietorship or by an authorized representative of the firm, corporation or partnership submitting the Proposal.

NOTE: All questions require a response, even if response is "none" or "not-applicable." No blanks.

(USE ADDITIONAL SHEETS IF NECESSARY TO FULLY ANSWER THE FOLLOWING QUESTIONS).

And/or, in the past 5 years, has any owner and/or officer of an affiliated business been the subject of an investigation by any government agency, including but not limited to federal, state and local regulatory agencies, for matters pertaining to that individual's position at or relationship to an affiliated business.
YES NO If yes, provide details for each such investigation, an explanation of the circumstances and corrective action taken.

14) Has any current or former director, owner or officer or managerial employee of this business had, either before or during such person's employment, or since such employment if the charges pertained to events that allegedly occurred during the time of employment by the submitting business, and allegedly related to the conduct of that business:
a) Any felony charge pending?
YES NO If yes, provide details for each such investigation, an explanation of the circumstances and corrective action taken.

b) Any misdemeanor charge pending?
YES NO If yes, provide details for each such investigation, an explanation of the circumstances and corrective action taken.

c) In the past 10 years, you been convicted, after trial or by plea, of any felony and/or any other crime, an

element of which relates to truthfulness or the underlying facts of which related to the conduct of business?

YES NO If yes, provide details for each such investigation, an explanation of the circumstances and corrective action taken.

d) In the past 5 years, been convicted, after trial or by plea, of a misdemeanor?

YES NO If yes, provide details for each such investigation, an explanation of the circumstances and corrective action taken.

e) In the past 5 years, been found in violation of any administrative, statutory, or regulatory provisions?

YES NO If yes, provide details for each such investigation, an explanation of the circumstances and corrective action taken.

- 15) In the past (5) years, has this business or any of its owners or officers, or any other affiliated business had any sanction imposed as a result of judicial or administrative proceedings with respect to any professional license held?

YES NO If yes, provide details for each such investigation, an explanation of the circumstances and corrective action taken.

- 16) For the past (5) tax years, has this business failed to file any required tax returns or failed to pay any applicable federal, state or local taxes or other assessed charges, including but not limited to water and sewer charges?

YES NO If yes, provide details for each such year. Provide a detailed response to all questions checked 'YES'. If you need more space, photocopy the appropriate page and attach it to the questionnaire.

- 17) Conflict of Interest:

a) Please disclose any conflicts of interest as outlined below. NOTE: If no conflicts exist, please expressly state "No conflict exists."

(i) Any material financial relationships that your firm or any firm employee has that may create a conflict of interest or the appearance of a conflict of interest in acting on behalf of Nassau County.

No conflict exists.

(ii) Any family relationship that any employee of your firm has with any County public servant that may create a conflict of interest or the appearance of a conflict of interest in acting on behalf of Nassau County.

No conflict exists.

(iii) Any other matter that your firm believes may create a conflict of interest or the appearance of a conflict of interest in acting on behalf of Nassau County.

No conflict exists.

b) Please describe any procedures your firm has, or would adopt, to assure the County that a conflict of interest would not exist for your firm in the future.

1 To the extent necessary, securing reasonable document control measures lessens Organization Conflict of Interest and Personal Employee Conflict of Interest risks by limiting access to certain individuals and entities, including subsidiary or affiliated entities, which may present conflict challenges.
2 Document control measures not only include access to certain information and materials by employees, but also limit the ability to copy, reproduce, or transfer such information.
3 In addition, physical separation may be a relevant mitigation effort, when and if appropriate or necessary. And electronic partitioning and "firewalling" may be a relevant mitigation effort, should the need arise.
4 However, the very first step, is to create a comprehensive ethics program that addresses Patifco Conflict of Interest and Personal or Employee Conflict of Interest, as well as other ethical considerations.

5 HEATHERWOOD COURT
Dix Hills, New York 11746

No officers and directors from this company have been attached.

iv) State of incorporation (if applicable);

NY

v) The number of employees in the firm;

22

vi) Annual revenue of firm;

1002200

vii) Summary of relevant accomplishments

PATIFCO CORPORATION

Conflict of Interest Policy

Release 2.0
30 June 2020

This document and its contents represent the intellectual property of **Patifco Corporation** and should not be copied, shared, or distributed except for the purposes and objectives of this Conflict-of-Interest policy. ©2019 **Patifco Corporation**. All rights reserved.

Conflict of Interest Policy

PATIFCO CORPORATION

I. Purpose

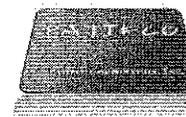

The purpose of this policy is to protect the interests of PATIFCO CORPORATION. In the regular course of business, agents and employees of PATIFCO CORPORATION may have the opportunity to advance their own personal interests with or against the interests of PATIFCO CORPORATION. Acting in such a manner is unacceptable and any party who acts outside of PATIFCO CORPORATION's best interest may be subject to disciplinary action.

II. Definitions

- a. Employee – any person who is employed by PATIFCO CORPORATION in a part or full-time capacity and in accordance with the labor laws of NEW YORK State.
- b. Agent – an owner, director, stakeholder, contractor or other third-party that is in the position to act on behalf of PATIFCO CORPORATION.
- c. Financial Interest – The interest that any individual may have in the monetary transactions of PATIFCO CORPORATION. In particular, any interest that could have a direct bearing on the financial gain/loss of said individual.

III. Procedure

- a. **Duty to disclose**
Every employee/agent of PATIFCO CORPORATION is obligated to disclose any known or potential conflicts of interest as soon as they arise. Failure to do so could result in termination of employment.
- b. **Investigating potential conflicts**
When a possible conflict of interest arises, the board of directors will collect the pertinent information and may question any concerned parties. If the board determines that a conflict exists, steps will be taken to address the conflict. If no conflict exists, the inquiry may be documented but no further action will be taken.
- c. **Addressing conflicts of interest**
When an actual conflict of interest is found, any transactions that may have been affected will be reviewed retroactively. Affected parties both within and

outside of the business, including shareholders, directors, employees, and contractors will be notified. An investigation will also be conducted by the board of directors to determine the extent of the conflict and the intentions of the parties involved.

If the conflict in question involves a member or members of the board of directors, such a member will be excused from the deliberations.

d. Disciplinary action

As all conflicts of interest will be reviewed on a case-by-case basis, a review may result in disciplinary action. The board of directors has full discretion to deem what disciplinary action is both fitting and necessary, including suspension and/or termination of employment.

IV. Acknowledgement

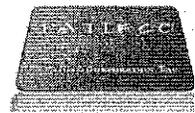

The employee/agent named below understands the procedure for conflicts of interest with PATIFCO CORPORATION, including their duty to disclose any known or potential conflicts.

Furthermore, the employee/agent agrees to abide by the procedures outlined in this policy for the duration of their professional relationship with PATIFCO CORPORATION.

Employee Name

Date

Signature

viii) Copies of all state and local licenses and permits.

1 File(s) Uploaded: patifco_cert_copy.pdf

B. Indicate number of years in business.

6

C. Provide any other information which would be appropriate and helpful in determining the Proposer's capacity and reliability to perform these services.

Currently managing multimillion-dollar programs -SUPPLY PAPER TOWELS, TISSUE AND DISPENSERS for both New York City- -

PRINCIPAL QUESTIONNAIRE FORM

All questions on these questionnaires must be answered by all officers and any individuals who hold a ten percent (10%) or greater ownership interest in the proposer. Answers typewritten or printed in ink. If you need more space to answer any question, make as many photocopies of the appropriate page(s) as necessary and attach them to the questionnaire.

COMPLETE THIS QUESTIONNAIRE CAREFULLY AND COMPLETELY. FAILURE TO SUBMIT A COMPLETE QUESTIONNAIRE MAY MEAN THAT YOUR BID OR PROPOSAL WILL BE REJECTED AS NON-RESPONSIVE AND IT WILL NOT BE CONSIDERED FOR AWARD

1. Principal Name: PATRICIA EJKEME
Date of birth: 12/02/1963
Home address: 5 HEATHERWOOD COURT
City: DIX HILLS State/Province/Territory: NY Zip/Postal Code: 11746
Country: US

Business Address: 5 HEATHERWOOD COURT
City: DIX HILLS State/Province/Territory: NY Zip/Postal Code: 11746
Country: US
Telephone: 6316977137

Other present address(es):
City: _____ State/Province/Territory: _____ Zip/Postal Code: _____
Country: _____
Telephone: _____

List of other addresses and telephone numbers attached

2. Positions held in submitting business and starting date of each (check all applicable)

President	<u>09/12/2016</u>	Treasurer	_____
Chairman of Board	_____	Shareholder	_____
Chief Exec. Officer	_____	Secretary	_____
Chief Financial Officer	_____	Partner	_____
Vice President	_____		
(Other)	_____		

3. Do you have an equity interest in the business submitting the questionnaire?

YES NO If Yes, provide details.

100%

4. Are there any outstanding loans, guarantees or any other form of security or lease or any other type of contribution made in whole or in part between you and the business submitting the questionnaire?

YES NO If Yes, provide details.

5. Within the past 3 years, have you been a principal owner or officer of any business or notfor-profit organization other than the one submitting the questionnaire?

YES NO If Yes, provide details.

6. Has any governmental entity awarded any contracts to a business or organization listed in Section 5 in the past 3 years while you were a principal owner or officer?
YES NO If Yes, provide details.

NOTE: An affirmative answer is required below whether the sanction arose automatically, by operation of law, or as a result of any action taken by a government agency. Provide a detailed response to all questions checked "YES". If you need more space, photocopy the appropriate page and attach it to the questionnaire.

7. In the past (5) years, have you and/or any affiliated businesses or not-for-profit organizations listed in Section 5 in which you have been a principal owner or officer:

- a. Been debarred by any government agency from entering into contracts with that agency?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

- b. Been declared in default and/or terminated for cause on any contract, and/or had any contracts cancelled for cause?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

- c. Been denied the award of a contract and/or the opportunity to bid on a contract, including, but not limited to, failure to meet pre-qualification standards?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

- d. Been suspended by any government agency from entering into any contract with it; and/or is any action pending that could formally debar or otherwise affect such business's ability to bid or propose on contract?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

8. Have any of the businesses or organizations listed in response to Question 5 filed a bankruptcy petition and/or been the subject of involuntary bankruptcy proceedings during the past 7 years, and/or for any portion of the last 7 year period, been in a state of bankruptcy as a result of bankruptcy proceedings initiated more than 7 years ago and/or is any such business now the subject of any pending bankruptcy proceedings, whenever initiated?

YES NO If 'Yes', provide details for each such instance. (Provide a detailed response to all questions check "Yes". If you need more space, photocopy the appropriate page and attached it to the questionnaire.)

9.

a. Is there any felony charge pending against you?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

b. Is there any misdemeanor charge pending against you?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

c. Is there any administrative charge pending against you?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

d. In the past 10 years, have you been convicted, after trial or by plea, of any felony, or of any other crime, an element of which relates to truthfulness or the underlying facts of which related to the conduct of business? Y

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

e. In the past 5 years, have you been convicted, after trial or by plea, of a misdemeanor?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

f. In the past 5 years, have you been found in violation of any administrative or statutory charges?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

10. In addition to the information provided in response to the previous questions, in the past 5 years, have you been the subject of a criminal investigation and/or a civil anti-trust investigation by any federal, state or local prosecuting or investigative agency and/or the subject of an investigation where such investigation was related to activities performed at, for, or on behalf of the submitting business entity and/or an affiliated business listed in response to Question 5?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

11. In addition to the information provided, in the past 5 years has any business or organization listed in response to Question 5, been the subject of a criminal investigation and/or a civil anti-trust investigation and/or any other type of investigation by any government agency, including but not limited to federal, state, and local regulatory agencies while you were a principal owner or officer?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

12. In the past 5 years, have you or this business, or any other affiliated business listed in response to Question 5 had any sanction imposed as a result of judicial or administrative proceedings with respect to any professional license held?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

13. For the past 5 tax years, have you failed to file any required tax returns or failed to pay any applicable federal, state or local taxes or other assessed charges, including but not limited to water and sewer charges?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

I, PATRICIA EJKEME , hereby acknowledge that a materially false statement willfully or fraudulently made in connection with this form may result in rendering the submitting business entity and/or any affiliated entities non-responsible, and, in addition, may subject me to criminal charges.

I, PATRICIA EJKEME , hereby certify that I have read and understand all the items contained in this form; that I supplied full and complete answers to each item therein to the best of my knowledge, information and belief; that I will notify the County in writing of any change in circumstances occurring after the submission of this form; and that all information supplied by me is true to the best of my knowledge, information and belief. I understand that the County will rely on the information supplied in this form as additional inducement to enter into a contract with the submitting business entity.

CERTIFICATION

A MATERIALLY FALSE STATEMENT WILLFULLY OR FRAUDULENTLY MADE IN CONNECTION WITH THIS QUESTIONNAIRE MAY RESULT IN RENDERING THE SUBMITTING BUSINESS ENTITY NOT RESPONSIBLE WITH RESPECT TO THE PRESENT BID OR FUTURE BIDS, AND, IN ADDITION, MAY SUBJECT THE PERSON MAKING THE FALSE STATEMENT TO CRIMINAL CHARGES.

IN EXECUTING THIS BID, THE BIDDER WARRANTS THAT THE PRICES SUBMITTED HEREIN ARE NOT HIGHER THAN THOSE OFFERED TO ANY GOVERNMENTAL OR COMMERCIAL CONSUMER FOR LIKE DELIVERIES. THE PRICES HEREIN SHOULD NOT INCLUDE ANY FEDERAL EXCISE TAXES OR SALES TAXES IMPOSED BY ANY STATE OR MUNICIPAL GOVERNMENT. SUCH TAXES, IF INCLUDED, MUST BE DEDUCTED BY THE BIDDER WHEN SUBMITTING BID. BIDDERS ARE REQUESTED TO ALSO READ THE TERMS AND CONDITIONS.

BID TERMS AND CONDITIONS

- Bids on equipment must be on standard new equipment, latest model, except as otherwise specifically stated in proposal or detailed specification. Where any part of nominal appurtenances of equipment is not described, it shall be understood that all equipment and appurtenances which are usually provided in the manufacturer's stock model shall be furnished.
- Bids on materials and supplies must be for new items except as otherwise specifically stated in bid or detailed specifications.
- Bidder declares that the bid is made without any connection with any other Bidder, submitting a bid for the same items, and is in all respects fair and without collusion or fraud.
- PRICES The provisions of the New York State Fair Trade Law (Fed-Crawford Act) and the federal price discrimination law (Robinson-Patman Act) do not apply to purchases made by the County.
- SURETY In the event that an award is made hereunder, The Director of Purchase reserves the right to request successful bidders to post, within one week, security for faithful performance, with the understanding that the whole or any part thereof may be used by the County of Nassau to supply any deficiency that may arise from any default on the part of the Bidder. Such security must meet all the requirements of the County Attorney and be approved by the County Attorney.

6. **SAMPLES** Samples, when required, must be submitted strictly in accordance with instructions; otherwise bid may not be considered. If samples are requested subsequent to bid opening they shall be delivered within five (5) days of the request for bid to have consideration. Samples must be furnished free of charge and must be accompanied by descriptive memorandum invoices indicating if the Bidder desires their return; also specifying the address to which they are to be returned, provided they have not been used or made useless by tests. Award samples may be held for comparison with deliveries. Samples will be returned at the Bidders risk and expense.
7. Award The Director, Office of Purchasing reserves the right before making award to make investigations as to whether or not the items, qualifications or facilities offered by the Bidder meet the requirements set forth herein and are sample and sufficient to insure the proper performance in the event of award. The Bidder must be prepared, if requested by the Director, to present evidence of experience, ability and financial standing, as well as a statement as to plant, machinery and capacity of the manufacturer for the production and distribution of the material on which he is bidding. Upon request of the Director, successful bidder shall file certification from the manufacturer relative to authorization, delivery, service and guarantees. If it is found that the conditions of the bids are not complied with or that articles or equipment proposed to be furnished do not meet the requirements called for, or that the qualification, financial standing or facilities are not satisfactory, the Director may reject such bids. It is distinctly understood, however, that nothing in the foregoing shall mean or imply that it is obligatory upon the Director to make any examinations before award; and it is further understood that, if such examination is made, it in no way relieves the Bidder from fulfilling all requirements and conditions of the bid.
8. Awards will be made to the lowest responsible Bidder. Cash discounts will not be a factor in determining awards, except in tie bids. Consideration will be given to the reliability of the Bidder, the quantities of the materials, equipment or supplies to be furnished, their conformity with the specifications, the purpose for which required and the terms of delivery.
9. The Director reserves the right to reject and all bids in whole or in part and to waive technical defects, irregularities and omissions if in his judgment the best interests of the County will be served.
10. Unless otherwise indicated herein, the Director reserves the right to make award by items, by classes, by group of items, or as a whole.
11. **DELIVERIES** Upon failure of the Vendor to deliver within the time specified, or within reasonable time as interpreted by the Director, or failure to make replacement of rejected articles, when so requested immediately or as directed by the Director, the Director may purchase from other sources to take the place of the item rejected or not delivered. The Director reserves the right to authorize immediate purchase from other sources against rejections on any order when necessary. On all such purchases the Vendor agrees to promptly reimburse the County for excess cost occasioned by such purchases. Should the cost be less, the Vendor shall have no claim to the difference. Such purchases will be deducted from order quantity.
12. An order may be canceled at the Vendors expense upon nonperformance. Failure of the Vendor to furnish additional surety within ten (10) days from date of requested shall be sufficient cause for the cancellation of the order.
13. When in the determination of the Director, the articles or equipment delivered fail to meet County specifications or, if in the determination of the Director, the Vendor consistently fails to deliver as ordered, the Director reserves the right, to cancel the order and purchase the balance from other sources at Vendor expense.
14. Delivery must be made as ordered and in accordance with the bid. If delivery instructions do not appear on order. It will be interpreted to mean prompt delivery. The decision of the Director as to reasonable compliance with delivery terms shall be final. Burden of proof of delay in receipt of order shall rest with the Vendor.
15. The County Agencies will not schedule any deliveries for Saturdays, Sundays or Legal Holiday, except commodities required for daily consumption or where the delivery is an emergency, a replacement, or is overdue, in which event the convenience of the Agency will govern.
16. Supplies shall be securely and properly packed for shipment, according to accepted commercial practice, without extra charge for packing cases, reels, bailing or sacks, the containers to remain the property of the agency unless definitely stated otherwise in the bid.
17. The Vendor shall be responsible for delivery of supplies in good condition at point of destination. The Vendor shall file all claims with carrier for breakage, imperfections and other losses, which will be deducted from invoices. The receiving Agency will note for the benefit of Vendor when packages are not received in good conditions.
18. All supplies which are customarily labeled or identified must have securely affixed thereto the original un-mutilated label or marking of the manufacturer.
19. Billings for deliveries must be rendered on County claim forms.
20. Furniture, machines, and other equipment must be delivered, installed and set in place as directed, ready for use unless otherwise specified.
21. Deliveries are subject to reweighing at destination by the County and payment will be made on the basis of materials delivered. Normal shrinkage will be allowed in such instances where shrinkage is possible. Short weight shall be sufficient cause for cancellation of order at Vendors expense.
22. **GUARANTEES BY BIDDER** Bidder hereby guarantees: (a) To save the County, its agents and employees harmless from liability of any nature or kind for the use of any copyrighted or un-copyrighted composition, secret process, patented or unpatented invention, article or appliance furnished or used in the performance hereof of which the Bidder is not the Patentee, assignee or licensee, and to defend any action brought against the County in the name of the County and under the direction of the County Attorney at the sole cost of the Bidder or in the sole option of the Director to pay the cost of such defense to the County. (b) His products against defective material or workmanship and to repair any damages or marring occasioned in transit.
- (c) To furnish adequate protection from damage for all work and to repair damages of any kind, for which he or his workmen are responsible, to the building or equipment, to this own work or the work of other Vendors, or in the opinion of the Director to pay for the same by deductions in payments due under this contract.
- (d) To pay for all permits, licenses and fees and give all notices and comply with all laws, ordinances, rules and regulations of the city, village or town in which the installation his to be made, and of the County of Nassau and the State of New York.
- (e) To carry proper insurance in the opinion of the Director, and approved by the County Attorney to protect the County from loss in case of accident, fire and theft.
- (f) That he will keep himself fully informed, of all municipal ordinances and regulations, state and national laws in any manner affecting the work or goods herein specified, and any extra work contracted for by him, and shall at all times observe and comply with said ordinances, laws and regulations, including all provisions of the Workmen Compensation and Labor Laws, and shall indemnify and save harmless the County of Nassau and the Nassau County Legislature from loss and liability upon any and all Claims on account of any physical injury to persons, including death, or damage to property and from all cost and expenses in suits which may be brought against the same on account of such injuries irrespective of the actual cost of the same and irrespective of whether the same shall have been due to the negligence of the Bidder or his agents.
- (g) That the items furnished shall conform to all the provisions of the bid and this
- (h) That all deliveries will not be inferior to the accepted bid sample.
23. **LABOR LAWS and ANTIDISCRIMINATION.** Upon the vendor acceptance hereof, the vendor agrees to comply with Article IX, Section 2 C of the Constitution of the State of New York, Section 220, 220a, 220b, 220d, 220e and 230 of the Labor Law, Section 5 and 12 of the Lien Law, Article 2 of the Uniform Commercial Code, Sections 108 and 109 as well as Article 18 of the General Municipal Law, Section 2218 of the County Government Law of Nassau County, Section 224.2 of the Nassau County Administrative Code, the provisions of the anti-Discrimination Order of Nassau County, and the vendor shall keep himself fully informed of all additional municipal ordinances and regulations, State and National Laws in any manner affecting this order and the goods or services delivered or rendered or to be delivered or rendered there under, and shall at all times observe and comply with said ordinances, laws and regulations at his sole cost and expense.
24. **ASSIGNMENT.** The contractor is hereby prohibited from assigned, transferring, conveying, subletting or otherwise disposing of this contract or his right, title, or interest therein, or his power to execute such contract, to any other person or corporation without the previous consent in writing of the officer, board or agency awarding the contract.
25. The County of Nassau will not be responsible nor liable for any shipment or delivery of any materials, supplies, or equipment without it's express written instructions or valid Purchase Order.
26. No agreements, changes, modifications or alterations shall be deemed effective nor shall the same be binding upon the County unless in writing and signed by the Director, Office of Purchasing or his duly designated representative.

EXECUTIVE DIRECTOR
TITLE

foregoing, to be performed for, or rendered or furnished to the County; or (ii) a written agreement in excess of one hundred thousand dollars (\$100,000), whereby a County contracting agency is committed to expend or does expend funds for the acquisition,

construction, demolition, replacement, major repair or renovation of real property and improvements thereon. However, the term "County Contract" does not include agreements or orders for the following services: banking services, insurance policies or contracts, or contracts with a County contracting agency for the sale of bonds, notes or other securities.

As used in this Appendix EE the term "County Contractor" means an individual, business enterprise, including sole proprietorship, partnership, corporation, not-for-profit corporation, or any other person or entity other than the County, whether a contractor, licensor, licensee or any other party, that is (i) a party to a County Contract, (ii) a bidder in connection with the award of a County Contract, or (iii) a proposed party to a County Contract, but shall not include any Subcontractor.

As used in this Appendix EE the term "County Contractor" shall mean a person or firm who will manage and be responsible for an entire contracted project.

As used in this Appendix EE "Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises" shall include, but is not limited to the following:

- a. Proof of having advertised for bids, where appropriate, in minority publications, trade newspapers/notices and magazines, trade and union publications, and publications of general circulation in Nassau County and surrounding areas or having verbally solicited M/WBEs whom the County Contractor reasonably believed might have the qualifications to do the work. A copy of the advertisement, if used, shall be included to demonstrate that it contained language indicating that the County Contractor welcomed bids and quotes from M/WBE Subcontractors. In addition, proof of the date(s) any such advertisements appeared must be included in the Best Effort Documentation. If verbal solicitation is used, a County Contractor's affidavit with a notary's signature and stamp shall be required as part of the documentation.
- b. Proof of having provided reasonable time for M/WBE Subcontractors to respond to bid opportunities according to industry norms and standards. A chart outlining the schedule/time frame used to obtain bids from M/WBEs is suggested to be included with the Best Effort Documentation
- c. Proof or affidavit of follow-up of telephone calls with potential M/WBE subcontractors encouraging their participation. Telephone logs indicating such action can be included with the Best Effort Documentation
- d. Proof or affidavit that M/WBE Subcontractors were allowed to review bid specifications, blue prints and all other bid/RFP related items at no charge to the M/WBEs, other than reasonable documentation costs incurred by the County Contractor that are passed onto the M/WBE.
- e. Proof or affidavit that sufficient time prior to making award was allowed for M/WBEs to participate effectively, to the extent practicable given the timeframe of the County Contract.
- f. Proof or affidavit that negotiations were held in Best Efforts with interested M/WBEs, and that M/WBEs were not rejected as unqualified or unacceptable without sound business reasons based on (1) a thorough investigation of M/WBE qualifications and capabilities reviewed against industry custom and standards and (2) cost of performance. The basis for rejecting any M/WBE deemed unqualified by the County Contractor shall be included in the Best Effort Documentation
- g. If an M/WBE is rejected based on cost, the County Contractor must submit a list of all sub-bidders for each item of work solicited and their bid prices for the work.
- h. The conditions of performance expected of Subcontractors by the County Contractor must also be included with the Best Effort Documentation
- i. County Contractors may include any other type of documentation they feel necessary to further demonstrate their Best Efforts regarding their bid documents.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

TITLE

INDEMNIFICATION:

Contractor agrees to indemnify and hold harmless County and its agents, officers and employees, from and against any and all losses, costs, expenses (including attorneys' fees and disbursements), damages and liabilities, arising out of or in connection with any acts or omissions of Contractor, its officers, agents or employees, provided, however, that Contractor shall not be responsible for that portion, if any, of a loss that is caused by the negligence of the County; and provided, further, that Contractor shall not be liable for consequential, indirect or special damages. Contractor shall, at County's demand and at County's direction, defend at its own risk and expense any and all suits, actions or legal proceedings which may be brought against County, its agents, officers or employees in connection with a loss for which Contractor is responsible under this paragraph.

DEFINITIONS:

- The term "County" as used herein, shall be deemed as reference to the County of Nassau, State of New York.
- The term "Contractor" as used herein, shall be deemed as reference to the successful bidder, vendor, proprietor, partnership, or corporation receiving an award to perform any or all of the services specified herein in accordance with the terms of this agreement.
- The term "agency" as used herein, shall be deemed as the department, division, bureau, office, agency or other Nassau County establishment authorized to receive the service specified herein.
- The term "Director" as used herein, shall be deemed as reference to the Director of the Office of Purchasing.
- The term "Blanket Order" as used herein, shall be deemed as the multiple use pricing agreement as a result of this bid.
- The term "Purchase Order" as used herein, shall be deemed as the single use pricing agreement as a result of this bid.
- The term "complete" as written in this bid must include all equipment, delivery and installation of same in its entirety, as listed in the contract documents, and is to include all supervision, labor, materials, plant equipment, transportation, testing, (if required) incidentals, and other facilities as necessary and/or required to execute all the work as herein specified, or as incidentally required to provide a complete operating installation.

NOTE: INSERT FEDERAL IDENTIFICATION NUMBER IN SPACE PROVIDED ON PAGE 1.

M/WBE, SDVOB and DBE Participation: The County encourages the participation of certified Service-Disabled Veteran-Owned Businesses ("SDVOB"), Minority or Women-Owned Business Enterprises ("M/WBE"), and Disadvantaged Business Enterprises ("DBE") in the bidding process. A Contractor that is certified by New York State or the County as a SDVOB, M/WBE, and/or DBE should include this information in their bid. For more information regarding the County's SDVOB, M/WBE, or DBE programs, please visit the Nassau County Office of Minority Affairs website

REQUIRED VENDOR DISCLOSURE FORMS

Prior to the bid opening, the following disclosure forms (the "Disclosure Forms") must be submitted in the Nassau County Vendor Portal at

https://apex5.nassaucountyny.gov/ords/f?p=312:LOGIN_DESKTOP:3445712403627:

- a. A duly completed and verified Business History Form, together with a current certified or verified financial statement and/or other commercially reliable written evidence of the bidder's credit, financial standing and capacity to perform in accordance with the terms of the Contract.
- b. All officers, and any individuals who hold a ten percent (10%) or greater ownership interest in the bidder, shall complete and verify the Principal Questionnaire.
- c. The County of Nassau Consultant's, Contractor's and Vendor's Disclosure Form
- d. Additionally, if the bidder utilizes the services of any individual or organization for the purposes of conducting lobbying activities and is awarded the contract, the successful proposer will be required to provide a copy of the Lobbyist Registration and Disclosure Form, completed and verified by that individual/organization.

PLEASE NOTE:

- If a bidder has previously submitted the Disclosure Forms in the Nassau County Vendor Portal, the bidder must ensure that the forms on file in the Portal are current, accurate, and have been recertified within three (3) months prior to the bid opening date. The bidder must also ensure that their response to question 7, and its subparts, on the Consultant's, Contractor's, and Vendor's Disclosure Form is provided in relation to the specific solicitation under consideration.

TITLE

REQUESTS FOR INFORMATION OR CLARIFICATION

Before bidding, bidders must examine all of the Contract documents, including the specifications, any drawings, and all instructions. If the bidder finds any inconsistency, ambiguity, omission or error in the specifications, drawings, instructions or any other Contract document, or if the bidder is in doubt as to the meaning of any term or condition of the Contract, the bidder must promptly so notify the **Office of Purchasing** in writing prior to the bid opening. The failure of the bidder to notify the **Office of Purchasing**, prior to the bid opening of any inconsistency, ambiguity, omission or error that the bidder actually found, or that should have been discovered by a reasonably prudent bidder, will preclude and negate acceptance of the bidder's claim.

If the **Office of Purchasing** receives a notification from a bidder of a differing site condition or an inconsistency, ambiguity, omission or error in the Contract documents, the **Office of Purchasing** will, as it deems necessary or desirable, issue a written interpretation or correction to the Contract documents as an amendment to the Contract documents. Any such amendment will be made available electronically to each person that received a copy of the Contract documents as reflected in the records of the **Office of Purchasing**, and any such amendment will also be available at the place where the Contract documents are available for inspection by prospective bidders.

Upon such mailing or delivery, such amendment shall become part of the Contract documents and shall be binding on all bidders, whether or not they have had actual notice of such addendum.

Please note that all bidder requests for information or clarification must be received by the Authority at least 72 hours prior to the bid opening. Any bidder requests for information or issues with the contract documents presented after that time may not be addressed by the Office of Purchasing.

Ordinance # 153-2018

Pursuant to Ordinance # 153-2018, a bidder that is awarded a contract under this bid is required to pay the County an administrative service charge in accordance with the following schedule:

<u>Value of Contract</u>	<u>Administrative Fee</u>
\$0-\$10,000	\$0
Over \$10,000-\$50,000	\$160
Over \$50,000-\$100,000	\$266
Over \$100,000	\$533

After an award, the successful bidder(s) will be notified by the Director of Shared Services, or their designee, when payment of the administrative charge is due. Please note, if you are a religious, charitable, nonprofit, or not-for-profit organization, please include this information in your bid for consideration by the Director of the Shared Services to waive the fee.

Ordinance # 72-2014

The bidder declares that they are a registered vendor with the County. All registered vendors must pay a Two Hundred Seventy-Five Dollar (\$275.00) per contract fee to register Blanket contracts on the County's procurement website, as required under Ordinance # 72-2014.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

TITLE

INTENT

SCOPE: It is the INTENT of the County of Nassau to properly describe by these specifications, terms and conditions an adequate method of providing **Paper Towels Bathroom Tissue and Dispensers** for the agency or agencies named herein in order that they may enjoy uninterrupted service in consideration for payment of the price bid.

PURPOSE: The purpose of this bid is to establish a price structure on which items and/or services listed herein will be made under Blanket orders.

PERIOD COVERED: Shall be for one (1) year from the effective date. The County of Nassau reserves the right to extend the Blanket Order up to an additional four (4) year(s), at up to one (1) year options. However, the termination of the Blanket Order may be further extended up to two (2) months beyond the stated termination date. The maximum period of any Blanket Order as a result of this bid with renewal options applied shall be five (5) year(s), and if the further extension is applied, five (5) years and two (2) months.

ALL EXTENSIONS ARE SUBJECT UPON THE MUTUAL CONSENT OF BOTH PARTIES.

FIRM PRICES Price shall remain firm for the first year of the Blanket Purchase Order and no upward escalation will be permitted. Thereafter, increases in labor and/or material(s) costs may be considered provided they are based on certified labor contracts, uncontrollable materials costs which can be verified in national publications or other increases auditable by the County of Nassau. The burden of proof for such increases shall be upon the Contractor and shall be formally directed to the Director of Purchasing. The decision as to whether or not such increases will be granted shall be made by the Director of Purchasing and shall be final. In the event an increase is not granted when requested, the Contractor may elect to continue at the bid prices or given written notice of termination, upon receipt of which the Blanket Purchase Order will be re-bid.

AWARD: Award, if any, will be made to the lowest responsible bidder, who in the opinion of the Director of Purchasing, meets the specifications and qualifications stated herein. The Director of Purchasing reserves the right to make an award be items, groups, or classes of items or as a whole. Awards will be made in accordance with the terms and conditions attached hereto and made part hereof.

DELIVERY: Bidders are required to state guaranteed delivery date in terms of days after receipt of order in the space provided below and on page one. Bidders are cautioned to post realistic delivery dates. Guaranteed delivery dates will be strictly enforced. Must be made within 15 days A/R/O unless stated otherwise below:

Delivery to be made 10 DAYS **Days A/R/O.**

Delivery shall be made **ONLY** upon receipt of a Purchase Order, or in the case of a Blanket Order, upon receipt of a Direct Purchase Order(s) from a using agency authorized to use the Blanket Order which will be issued to the successful bidder. Purchase Order and Direct Purchase Order shall indicate the destination address. Inside delivery is required on all deliveries.

Bidders agree that all orders shall be effective and binding upon the contractor when PLACED IN THE MAIL addressed to the Contractor at the address shown on the Blanket Order/Purchase Order PRIOR TO MIDNIGHT OF THE FINAL DAY OF CONTRACT.

INSPECTION: Bidders should be aware of Inspection and Delivery requirements as stipulated.

BILLING: Shall be made on County claim forms or Certified Invoices to the individual using County Agency upon completion of deliveries made against applicable Purchase Order(s) or Direct Purchase Order(s).

NO PARTIAL PAYMENTS WILL BE PAID.

PRODUCT IDENTIFICATION: If a product(s) is identified by a BRAND NAME, a substitute of equal quality, construction, finish, composition, size, workmanship and performance characteristics may be acceptable. In submitting a bid, each bidder warrants that the substitute product being offered is an equal. Bid sheets shall be so noted of the manufacturer's name and brand of the product offered as an equal. If as a result of an award, a delivery is made of a brand or product represented as an equal which is subsequently deemed to be unacceptable, the Contractor shall be

required, at his expense, to pick up the rejected item and replace it with brand(s) listed in this bid, or an acceptable equal which will have the approval of the Director.

PROTECTION FROM CLAIM AGAINST "OR EQUAL": In the event of any claim by any unsuccessful bidder concerning or relating to the issue of "equal or better" or "or equal", the successful bidder agrees, at his own cost and expense, to defend such claims or claims and agrees to hold the County of Nassau free and harmless from any and all claims for loss or damage arising out of this transaction for any reason whatsoever.

EQUIVALENT BIDS: Bidders may offer a product of the same capability, but of different manufacture and model than that specified in this bid. The use of the name of a manufacturer, brand, make or catalog designation in specifying items described herein does not restrict or preclude bidders from offering equivalent or better product bids. Such a designation is used only to indicate the character, quality and minimum performance desired. Equal or better product bids are permissible. A bidder submitting an equal or better product shall, at his own cost and expense be responsible for submitting proof and/or a demonstration of equivalence, compatibility and performance. However, acceptance of an equivalent product shall be strictly at the discretion of the Director. Any omission of the term "or equal" in any specific bid item listing should be disregarded by the bidder. All bidders shall have an absolute right to submit "equivalent" bids notwithstanding any other provision of the bid specifications.

ADDITIONAL BIDS: The County reserves the right, for any un-contemplated additional requirements of extraordinary quantities of particular items to call for new bids, therefore, whenever in the opinion of the Director of the Office of Purchase it is in the best interests of the County of Nassau to do so.

APPROXIMATE QUANTITIES: The estimated usage quantities or estimated annual dollar value, when indicated, are merely estimated quantities based on experience and are given for information purposes only. The County will not be compelled to order the total estimated amount of any item; but the quantity to be ordered will be such as may be actually required by the respective County Department s during the period specified. Additional quantities of any items or quantity specified therein may be ordered during the period of the Blanket Order at the prices indicated.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

TITLE

COMPREHENSIVE AND GENERAL LIABILITY AND HOLD HARMLESS: The Contractor agrees to indemnify and hold harmless the County of Nassau, its agents, officers and employees against any and all claims, causes of action, costs, and liabilities, in law or in equity, of every kind and nature whatsoever, directly or proximately resulting from any act of omission or commission of Contractor, its officers, agents, or employees. Contractor shall, at Nassau County's demand, defend at its own risk and expense any and all suits, actions or legal proceedings which may be brought or instituted against Nassau County, its agents, officers, or employees on any such claim, demand or cause of action, and Contractor shall pay and satisfy any judgment or decree which may be rendered against Nassau County, its agents, officers, or employees in any such suit, action or legal proceeding.

The Contractor shall obtain from an insurance company authorized to do business in the State of New York, and keep in force during the term of any agreement, a policy of Comprehensive and General Liability Insurance naming the Contractor as an insured, and naming the County of Nassau as an additional insured, including, but not limited, to the torts and negligence of Contractor's personnel, with a combined single minimum limit of three million dollars (\$3,000,000.00) for bodily injury and property damage for any one occurrence at the Contractor's sole cost and expense. Evidence of insurance may be required prior to Notice of Award or issuance of a Purchase Order.

The Contractor shall comply with all provisions of the Workers' Compensation Law and shall furnish a certificate showing evidence of current coverage.

Bidder shall list below the Insurance Company(s) holding the following documents:

A) Certificate of Insurance name the County of Nassau as co-insured: _____

Or

B) Certificate of Insurance with indemnification agreement (hold harmless clause): HISCOX INSURANCE COMPANY, INC

INSURANCE AND WORKERS COMPENSATION: The successful bidder agrees to obtain from an insurance company, authorized to do business in the State of New York, and keep in force during the term of any agreement, a policy of Comprehensive and General Liability Insurance naming the Contractor as an insured, and naming the County of Nassau as an additional insured, including but not limited to the torts and negligence of Contractor's personnel, with a combined minimum single limit of three million dollars (\$3,000,000.00) for bodily injury and property damage for any one occurrence at the Contractor's sole cost and expense. Evidence of insurance may be required prior to Notice of Award or issuance of a Purchase Order.

The Contractor shall comply with all provisions of the Workers' Compensation Law and shall furnish a certificate showing evidence of current coverage.

PRODUCT LIABILITY INSURANCE: The successful bidder agrees to obtain from an insurance company authorized to do business in the State of New York, and keep in force during the term of an agreement, a policy of Product Liability Insurance, including foreign objects, with a combined minimum single limit of one million dollars (\$1,000,000.00) for each occurrence, at the Contractor's sole cost and expense, and shall furnish a certificate showing evidence of current coverage. Evidence of insurance may be required prior to Notice of Award or issuance of a Purchase Order.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

TITLE

ALTERNATIVE ITEM: In submitting a bid on a commodity other than as specified, bidder shall furnish complete data and identification with respect to the alternate commodity he proposes to furnish. Consideration will be given to proposals submitted on alternate commodities to the extent that such action is deemed to serve the best interests of the County. If a bidder does not indicate that the commodity he proposes to furnish is other than as specified, it will be construed to mean that the bidder proposes to furnish the exact commodity as described. Consideration of the alternate shall be at the sole discretion of the Director. **MORE THAN ONE (1) BID ON EACH ITEM WILL NOT BE CONSIDERED, UNLESS OTHERWISE SPECIFIED BY THE COUNTY.**

REPLACEMENT PARTS: The requirements specified herein represent, for the most part, replacement and/or repair components to existing and presently owned equipment, and must match and inter-member without modification with the equipment and systems indicated.

ADDITIONAL BIDS: The County reserves the right, for any un-contemplated additional requirements of extraordinary quantities of particular items to call for new bids, therefore, whenever in the opinion of the Director of the Office of Purchase it is in the best interests of the County of Nassau to do so.

NON-ASSIGNMENT: In accordance with Section 138 of the State Finance Law, the contract may not be assigned by the Contractor or its right, title or interest therein assigned, transferred, conveyed, sublet or otherwise disposed of without the previous consent, in writing, of Nassau County and any attempts to assign the contract without the County's written consent are null and void.

NON PERFORMANCE

The Contractor agrees that in the event any of the services provided for under the terms of this contract should in any way be omitted or unsatisfactorily performed by the Contractor and/or his employees, the county shall so notify the contractor verbally and follow with a written notification of the deficient services for immediate correction. In the event the Contractor does not correct the deficient services after receipt of written notification, the Nassau County Department concerned will deduct a percentage based on the work not performed or performed unsatisfactorily from the Contractor's claim for the period covered. If the Contractor continues to omit or unsatisfactorily perform the required services, the County will arrange for the work to be done by another contractor and the cost of such work shall be deducted from any monies due or that may become due to the Contractor.

DISCLAIMER

Any Blanket Purchase Order issued as a result of this bid will establish terms and conditions pursuant to which certain materials and/or services are to be supplied or performed, from time to time, for a specified period upon issuance by the County of Delivery Orders. The Blanket Purchase Order is non-exclusive and the County is not bound to purchase, and no materials are to be delivered or services performed without a Delivery Order. The County shall be under no obligation whatsoever to issue such Delivery Orders. The Blanket Purchase shall not apply in any way to items of material or service deemed by the County in its sole discretion to be extraordinary or involve any special conditions, quantities, circumstances or complexities.

EVALUATION:

The Director of the Office of Purchasing (hereinafter known as the Director) reserves the right before making award to make investigations as to whether or not the items, qualifications, services or facilities offered by the Bidder meet the requirements set forth herein and are ample and sufficient to insure the proper performance in the event of an award. The Bidder must be prepared, if requested by the Director, to present evidence of experience, ability and financial standing, as well as a statement as to plant, machinery, trained personnel and capacity for the rendition of the service on which he his bidding. Upon request of the Director of Purchasing, successful bidder shall file certification from the manufacturer relative to authorization, delivery, service and guarantees. If it is found that the conditions of the bids are not complied with or that the services or equipment proposed to be furnished do not meet the requirements called for, or that the qualifications, financial standing or facilities are not satisfactory, the Director may reject such bids. It is distinctly understood, however, that nothing in the foregoing shall mean or imply that it is obligatory upon the Director to make any examinations before award; and it is further understood that, if such examination is made, it in no way relieves the Bidder from fulfilling all requirements and conditions of the bid.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

ACCESS CLAUSE: Contractor, including its satellites, offices and/or subcontractors, if any, shall maintain full and complete books and records of accounts pertaining to this agreement, in accordance with accepted accounting practices and such other records as may be reasonably prescribed by the County of Nassau. Such books and records shall at all times be available for audit and inspection by the completion of all the services described in this agreement. Contractor further agrees that if any provision of Section 952 of the Omnibus Reconciliation Act of 1980 (PL-96-499) is found by a body of competent jurisdiction to be applicable to this contract, the Contractor agrees that it will make available upon written request by the Secretary of Health and Human Services, or the Comptroller General of the General Accounting Office, or any of their duly authorized representatives, a copy of this contract and any executed amendments thereto documents which relate to the calculation of the charges stated in the contract and copies of service reports documenting services performed. Such records will be available in accordance with the above for the period of six (6) years after the furnishing of any of the services described in this contract.

TERMINATION PREROGATIVE: The Director reserves the right to cancel the Blanket Order by giving not less than thirty (30) days written notice that, on or after a date therein specified, the contract shall be deemed terminated and cancelled.

VENDOR RESPONSIBILITY CRITERIA: The Director of Purchasing reserves the right before making an award to make investigations as to whether or not the qualifications, services, facilities or items offered by the bidder meet the requirements set forth herein and are ample and sufficient to ensure the proper performance in the event of an award. The bidder must be prepared, if requested by the Director of Purchasing, to present evidence of experience, ability, financial standing, as well as a statement as to plant, machinery, trained personnel and capacity for the rendition of the service on which the vendor is bidding. Upon request of the Director, the successful bidder shall file certification from the manufacturer relative to authorization, delivery, service and guarantees. If it is found that the conditions of the bid are not complied with or that the services or equipment proposed to be furnished do not meet the requirements called for, or that the qualifications, financial standing, or facilities are not satisfactory, the Director may reject such bids. It is distinctly understood, however, that nothing in the forgoing shall mean or imply that it is obligatory upon the Director to make any examinations before an award; and it is further understood that, if such examination is made, it in no way relieves the bidder from fulfilling all requirements and conditions of the bid.

IMPORTANT NOTE: The Director reserves the right to accept or reject any and all bids, or separable portions of offers, and waive technicalities, irregularities, and omissions if the Director determines the best interests of the County of Nassau will be served. The Director, in his sole discretion, may accept or reject illegible, incomplete or vague bids and his decision shall be final. A conditional or revocable bid which clearly communicates the terms or limitations of acceptance may be considered and contract award may be made in compliance with the bidder's conditional or revocable terms in the offer. Prior to award, the Director reserves the right to seek clarifications, request bid revisions, or to request any information deemed necessary for proper evaluation of bids from all bidders deemed to be eligible for contract award. Failure to provide requested information may result in rejection of the bid.

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

EXECUTIVE DIRECTOR
TITLE

b. Request for a Waiver The following procedures have been established by the County Executive for requesting a waiver of the provisions of the Living Wage Law:

- i. Request for a waiver must be made to the Nassau County Office of Compliance. Since a waiver request must be made by a County Contractor who already has a contract with the County to provide services, a request for a waiver may only be made after the contract in question is entered into with the County.
- ii. A request for a waiver must be made on the approved form designated "Request for Waiver of the Provisions of the Nassau County Living Wage Law." This form is attached to these rules. Additional forms may be requested by contacting the agency with which the requesting organization has a contract.
- iii. Except for those requesting organizations with County Service Contracts listed in section 4(b)(iv)(E)(3) below, those requesting organizations which plan to request a waiver once a County Service Contract has been entered into must include, in their bid or proposal for the specific County Service Contract, a budget breakdown stating the amount of the budget allocated to wages (*assuming the Living Wage Law applies*), and the amount of the budget allocated to services and other contract expenses.

A. In any budget breakdown submitted, the requesting organization must include only those employees who are included within the definition of "Employee" described above.

B. Those County contractors who have been awarded a contract through Executive Order No. 1 of 1993, a state or federal grant, General Municipal Law section 104, or any other state or federal rule or regulation must submit the above budget breakdown to the contracting agency before such contract is entered into with the County in order to be eligible for a waiver.

iv. A waiver request must contain the following information:

A. The name of the organization

B. The address of the organization

C. A brief description of the contract which the waiver pertains to.

D. The name and email address of the Chief Executive Officer of the requesting organization

E. The criteria (hereinafter, the "Criteria") for qualifying for a waiver under the provisions of the Law. Currently, a requesting organization must meet either Criteria 1, 2 or 3 below, and, if Criteria 1, 2 or 4 are cited, must meet Criterion 5 below:

1. The highest paid officer or employee of the requesting organization earns a salary which, when calculated on an hourly basis, is less than six times the lowest wage or salary paid by the requesting organization.

OR

2. Compliance with the requirements of the Living Wage Law will directly increase the requesting organization's expected total annual budget in an amount greater than ten percent of the prior fiscal year's budget.

OR

3. The requesting organization is providing any of the following services to the County and compliance with the Living Wage Law would exceed the amount, per hour or per diem (as the case may be), reimbursed to the County by any State or Federal Source:

Services under the Expanded In-Home Services for the Elderly Program (EISEP)

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

TITLE

Foster care services under the New York Social Services Law.
Residential domestic violence services under the New York Social Services Law.
Residential care, educational and vocational training, physical and mental health services, and employment counseling services to residents of the Juvenile Detention Center under the New York Executive Law.

OR

4. The requesting organization is providing any of the following services to the County and compliance with the Living Wage Law would increase the County Service Contract's budget by greater than ten percent over the budget for the requesting organization's County Service Contract for the previous contracting year:

- i. Non-residential domestic violence services under the New York Social Services Law.
 - ii. Services under the Home Energy Assistance Program (HEAP)
- Preventive services for children pursuant to the New York Social Services Law
Non-Secure detention services pursuant to the New York Executive Law.

AND (if Criteria 1, 2 or 4)

5. When the requesting organization placed a bid or submitted a proposal for the county service contract at issue, it must have submitted a budget which included a breakdown of the wages paid to employees of the requesting organization who would be covered under the Living Wage Law.

F. A statement that, if a waiver is granted, the requesting organization will decrease its budgeted wage allocation to that amount the requesting organization would have paid its employees had the requirements of Living Wage Law not been applied. The amount to be paid by the County to the requesting organization will be reduced accordingly by contract amendment.

G. The notarized signature of the requesting organization's Chief Executive Officer.

v. A request must be accompanied by documentation supporting the Criteria claimed by the requesting organization.

A. If Criteria (1) is cited in the request, the requestor must include a statement, certified by the chief financial officer of the requesting organization as true and accurate, of the wages paid, on an hourly basis, of the highest and lowest paid individuals employed by the requesting organization.

B. If Criteria (2) is cited in the request, the requestor must provide a copy of the requesting organization's budget for the last fiscal year along with a copy of the organization's expected budget taking into account increases in salary as a result of compliance with the Living Wage Law. Both budgets must be certified as complete and accurate by the chief financial officer of the requesting organization.

C. If Criteria (4) is cited in the request, the requestor must provide a copy of the requesting organization's budget for the County Service Contract for the prior agreement year along with the requesting organization's budget for the County Service Contract for the current agreement year which takes into account increases in salary as a result of compliance with the Living Wage Law. Both budgets must be certified as complete and accurate by the chief financial officer of the requesting organization.

vi. The request form and all documentation must be sent to the following address:

County of Nassau Office of Compliance
Attention: Living Wage Waiver Request Office
One West Street – 4th Floor
Mineola, New York 11501

c. Waiver and Procurement

patricia Fikeme
BIDDER

EXECUTIVE DIRECTOR

TITLE

i. As a waiver may only be requested once a County Service Contract has been entered into, no waiver application may be submitted by any organization submitting a bid or proposal to the County for a County Service Contract.

ii. The fact that a waiver may be granted to an organization submitting a bid or proposal to the County for a County Service Contract will not be a consideration in evaluating such bid or proposal.

d. Review Procedures

i. Review of a request for a waiver must be made by the Office of Compliance.

ii. Approval of a request is dependent on the requestor satisfying either criteria (1), (2) or (3) in section 4(b)(iv)(E) above and, if citing criteria (1), (2) or (4), criterion (5) in section 4(b)(iv)(E) above. Applications not satisfying these criteria, or incomplete applications, will not be approved. However, complete applications that do meet these criteria shall be approved by the Office of Compliance.

iii. The Office of Compliance shall inform the requestor of his or her decision to grant or deny a request in writing within thirty days of receipt of the request. A copy of the grant or denial shall be transmitted to the County Comptroller for the purposes of monitoring compliance with the Living Wage Law.

iv. During such thirty day period, the requestor must continue to abide by the provisions of the Living Wage Law. Failure to do so may result in action by the Office of the Nassau County Comptroller to enforce the provisions of the Law.

e. Post-Award Review

i. After the County grants a waiver, if at any time during the term of the County Service Contract the requesting organization alters its budget or wages such that the organization no longer qualifies for a waiver of the Living Wage Law, the requesting organization must contact the County department with which it contracts and inform such department of such alteration.

ii. If a County department is contacted in reference to such a change, the department must either:

Amend the County Service Contract in question to restore any funding subtracted from the contract as a result of a waiver of the Living Wage Law and receive from the Contractor a completed Certificate of Compliance; or

Terminate such Contract according to its terms.

See Living Wage Law, § 9 "Waiver"

5. Inter-Governmental Agreements

a. The Living Wage Law shall not apply to those County Service Contracts which are entered into with any municipal corporation located within the County, any school district located within the County, and any special district located within the County.

b. County Financial Assistance Agreements and County Leases. The Living Wage Law shall not apply to a County Financial Assistance Agreement or a County Lease in the event that application of the law would conflict with the application of a federal, state or local law, rule, regulation or ordinance. For the purposes of this Rule, the Living Wage Law would not apply to a County Financial Assistance Agreement or County Lease where funding for the Agreement or Lease is derived from a Federal or state grant where the distribution of such grant funds to certain subrecipients is mandatory and non-discretionary.

See Living Wage Law, § 1 "County Service Contract," "Inter-governmental Agreement;" § 3 "Minimum Compensation;" §10 "Other Provisions"

6. Certification of Compliance

TITLE

a. An updated certification of compliance with the provisions of the Living Wage Law shall be submitted to the County on or before the first day of each agreement year during the term of any County Service Contract.

b. For the purposes of updating a certification of compliance, a "material change" as used in the Law shall be limited to the following:

i. Any determination by the County Comptroller that the contractor has violated any provision of the Law.

ii. Any instance during the preceding year in which the contractor has been found by a court or governmental agency to have violated federal state or local laws regulating payment of wages or benefits, labor relations or occupational safety and health, or where any governmental body has initiated a judicial action, administrative proceeding or investigation of the contractor in regard to any of the above laws.

See Living Wage Law, § 5 "Certification of Compliance"

7. Nassau County Employees

a. All Nassau County Employees are covered by the provisions of the Living Wage Law, provided, however, that Nassau County Employees covered by the collective bargaining agreement between the County and the Civil Service Employees Association are not entitled to receive the benefits supplement rate as the term is defined in the Law. The provisions of the Law also extend to paid interns hired by the County.

b. The Living Wage Law does not apply to volunteer workers utilized by the County pursuant to the County's authority to use volunteer workers under § 2105 of the Nassau County Charter. As such, the Law does not cover unpaid interns utilized by the County.

See Living Wage Law, § 1 "Employee," "Employer;" § 10 "Other Provisions"

Appendix L

Certificate of Compliance

In compliance with Local Law 1-2006, as amended (the "Law"), the Contractor hereby certifies the following:

The chief executive officer of the Contractor is:

PATRICIA EJKEME	(Name)
<hr/>	
5 HEATHERWOOD COURT, DIX HILLS, NEW YORK 11746	(Address)
<hr/>	
(631) 697-7137	(Telephone Number)
<hr/>	

The Contractor agrees to either (1) comply with the requirements of the Nassau County Living Wage Law or (2) as applicable, obtain a waiver of the requirements of the Law pursuant to section 9 of the Law. In the event that the contractor does not comply with the requirements of the Law or obtain a waiver of the requirements of the Law, and such contractor establishes to the satisfaction of the Department that at the time of execution of this agreement, it had a reasonable certainty that it would receive such waiver based on the Law and Rules pertaining to waivers, the County will agree to terminate the contract without imposing costs or seeking damages against the Contractor

GENERAL INSTRUCTIONS: All bidders must adhere to the following conditions:

As per New York State Municipal Law 103, no exception can be taken to any material term and/or condition of this bid with the exception of any warranties as presented in this bid for the specific commodity or service required.

Any language in any proposal or document submitted by a bidder as part of their bid that is accepted by the County of Nassau cannot be in conflict with any material term and/or condition relevant to this bid with the exception of any warranties or the specifications of the commodity of service required by this bid. If there is any conflict between the bidder's terms and conditions and the terms and conditions of this bid, the terms and conditions of this bid shall govern.

Bidders must insert **FEDERAL IDENTIFICATION NUMBER** in the space provided on page one of this bid.

Late Formal Sealed Bids will NOT be accepted. Bidders are urged to mail bids early to assure delivery on time. Bids must be received by 11:00 A.M. on the bid opening date.

Prices **MUST** be inserted with **TYPEWRITER OR INK**. Entries with **WHITE OUT, CROSS-OUTS OR LIFT-OFF TAPE** **MUST BE INITIALED** or that entry will be disqualified.

Bidders should submit bid with unit price in the appropriate column on bid pages or forms attached hereto. In the event of a discrepancy between the unit price and the extension, the unit price shall govern. Bidders shall submit one (1) original bid document and all applicable attachments. Any order issued against this bid will refer to the bid and attachments to designate items awarded. Bidders agree that all, Direct Purchase Orders and/or Purchase Orders shall be effective and binding upon the Contractor when placed in the mail, addressed to the Contractor at the address shown on the Direct Purchase Order or the Purchase Order.

Bidders **MUST** state manufacturer's name and catalog number of each item bid.

ABSOLUTELY NO MINIMUM ORDERS shall be applied to this bid.

Purchases made by Nassau County are not subject to State or Local Sales Tax or Federal Excise Taxes.

Federal Exemption Number: A-109538 **State Exemption Number: EX 7213062C**

Inside (receiving dock) delivery is required on all orders.

The rights and obligations of the parties under this agreement shall be governed by the laws of the State of New York.

Bids are hereby solicited for the commodities and/or services specified herein which are to be delivered and/or performed at the locations indicated, and in strict accordance with all specifications, terms and conditions attached hereto and made part hereof.

Bid document must be signed by proprietor, partner or corporate officer.

The clauses contained in these bid forms set forth the wishes of the County of Nassau in regard to the purchase and/or services required. However, the Director reserves the right to waive irregularities, omissions, or other technical defects if, in its judgment, the best interest of the County of Nassau will be served accordingly.

Bidders may take exception to paragraphs of the bid under a separate cover letter to be attached to this bid, indicating the specific bid page, paragraph and the exception(s). In any event, the decision of the Director will be final.

Qualification statement **MUST BE COMPLETED** and submitted with bid. See page 4 for further details

RECORD RETENTION: Contractor shall retain complete and accurate records and documents related to this Agreement for six (6) years following the later of termination or final payment. Such records shall at all times be available for audit and inspection by the County.

Governing Law – Consent to Jurisdiction and Venue; Governing Law. Unless otherwise specified in this Agreement or required by Law, exclusive original jurisdiction for all claims or actions with respect to this Agreement shall be in the Supreme Court in Nassau County in New York State and the parties expressly waive any objections to the same on any grounds, including venue and forum non conveniens. This Agreement is intended as a contract under, and shall be governed and construed in accordance with, the Laws of New York State, without regard to the conflict of laws provisions thereof.

Approximate yearly usage \$400,000.00

NOTE TO ALL BIDDERS:

1. **THE FOLLOWING WILL BE MAJOR FACTORS IN DETERMINING BID AWARDS:**
 - A. **DUE TO EMERGENCY PICK UPS BY COUNTY AGENCIES, ADEQUATE STOCK MUST BE KEPT ON HAND AT VENDOR'S FACILITY.**
 - B. **DELIVERY TIME.**
 - C. **INSPECTION OF BIDDERS FACILITY BY NASSAU COUNTY OFFICE OF PURCHASING TO VERIFY CAPABILITY OF HANDLING AWARDS.**
2. **THERE IS NO MINIMUM DOLLAR VALUE FOR DELIVERY ORDERS THAT MAY BE PLACED AGAINST ANY BLANKET ORDER THAT RESULTS FROM THIS BID. THE SUCCESSFUL VENDOR MUST HONOR ALL DELIVERY ORDERS RECEIVED.**

ALL BIDS MUST BE F.O.B. DESTINATION AND INCLUDE DELIVERY WITHIN DOORS UNLESS OTHERWISE SPECIFIED.

Contract Summary

Purpose: The contract was originally executed by Nassau County on November 1, 2016, in the amount of \$2,448,500.00. This amendment is necessary for the payment of services provided through the extension of the contract with an additional \$42,964.01. The purpose of this contract was to provide daily maintenance and operations of the County's signal communications and ITS infrastructure.

Method of Procurement: Was advertised in New York Newsday, NYS Contract Reporter and on the county's eProcurement site from February 17, 2016 until March 09, 2016. Following a review of bids, Welsbach Electric Corp of LI was determined to be the

lowest responsible bidder.

Procurement History: Was advertised in New York Newsday, NYS Contract Reporter and on the county's eProcurement site from February 17, 2016 until March 09, 2016. Two bids were received, a bid analysis was completed and Welsbach Electric Corp of LI was determined to be the lowest responsible bidder.

Description of General Provisions: The purpose of this contract is for the daily operations and maintenance of the County's Traffic Signal communication infrastructure for a three year period.

Impact on Funding / Price Analysis: The costs associated with this contract have been budgeted in the Public Works Operating Funds. This agreement is valued at \$2,448,500. The entire 36 month contract is 80% reimbursable with Federal Funding.

Change in Contract from Prior Procurement: To increase the dollar value of the contract by \$42,964.01 making the contract total \$2,491,464.01, using the Pubic Works Operating Funds. This increase will allow the County to pay Welsbach Electric's final claim and close out the project.

Recommendation: Approve as Submitted

RULES RESOLUTION NO. -2022

A RESOLUTION AUTHORIZING THE COUNTY EXECUTIVE TO EXECUTE A CONTRACT AMENDMENT BETWEEN THE COUNTY OF NASSAU, ACTING ON BEHALF OF THE NASSAU COUNTY DEPARTMENT OF PUBLIC WORKS AND WELSBACH ELECTRIC CORP. OF L.I.

WHEREAS, pursuant to County contract number H62000-03E, for NASSAU COUNTY TRAFFIC SIGNAL SYSTEM OPERATIONS-PHASE IV- P.I.N. 0760.81, NASSAU COUNTY, NEW YORK (“Contract”) between the County and

WELSBACH ELECTRIC CORP. OF L.I. (“Contractor”), the Contractor performed services as more particularly described in the contract documents a copy of which is on file with the Clerk of the Legislature; and

WHEREAS, the County and the Contractor desire to increase the maximum amount of the Original Contract by \$ 42,964.01, such that the total Maximum Amount the County shall pay the Contractor shall not exceed \$ 2,491,464.01, (the “Amended Maximum Amount), and now, therefore, be it

RESOLVED, that the Rules Committee of the Nassau County Legislature based upon the representations of the Department and the recommendation of the Commissioner of the Department, authorizes the County Executive to award and execute the said contract amendment with the vendor.

AMENDMENT NO. 1

This AMENDMENT Number 1, (this "Amendment"), between (i) Nassau County, a municipal corporation having its principal office at 1550 Franklin Avenue, Mineola, New York 11501 (the "County"), acting on behalf of the Department of Public Works having its principal office at 1194 Prospect Avenue, Westbury, New York 11590 and (ii) Welsbach Electric Corp. of LI., having its principal office at 300 Newtown Road, Plainview NY 11803 (the "Firm").

WITNESSETH:

WHEREAS, pursuant to County contract number H6200003E between the County and the Firm, executed on behalf of the County on November 1, 2016 (the "Original Agreement"), the Firm performed certain services for the County in connection with the daily operations and maintenance of the County's Traffic Signal communication infrastructure for the Nassau County Traffic Management Center, which services are more fully described in the Original Agreement (the services contemplated by the Original Agreement, the "Services");

WHEREAS, the term of the Original Agreement was from November 1, 2016 through October 31, 2019 (the "Original Term") and then extended three more months to January 31, 2020.

WHEREAS, the maximum amount that the County agreed to reimburse the Firm for Services under the Original Agreement, as full compensation for the Services, was Two Million Four Hundred Forty-Eight Thousand Five Hundred Dollars (\$2,448,500.00) (the "Maximum Amount").

WHEREAS, the County and the Firm desire to amend the Maximum Amount; and,

NOW, THEREFORE, in consideration of the premises and mutual covenants contained in this Amendment, the parties agree as follows:

Amended Maximum. The Maximum Amount is amended by Forty-Two Thousand Nine Hundred Sixty-Four Dollars One Cent (\$42,964.01) to an agreement maximum of Two Million Four Hundred Ninety-One Thousand Four Hundred Sixty-Four Dollars One Cent (\$2,491,464.01) ("Amended Maximum Amount).

Full Force and Effect. All other conditions of the Original Agreement not expressly amended by this Amendment shall remain in full force and effect and govern the relationship of the parties for the term of the amended Agreement.

Compliance with Law.

(a) Prohibition of Gifts. In accordance with County Executive Order 2-2018, the Contractor shall not offer, give, or agree to give anything of value to any County employee, agent, consultant, construction manager, or other person or firm representing the County (a "County Representative"), including members of a County Representative's immediate family, in connection with the performance by such County Representative of duties involving transactions with the Contractor on behalf of the County, whether such duties are related to this Agreement or any other County contract or matter. As used herein, "anything of value" shall include, but not be limited to, meals, holiday gifts, holiday baskets, gift cards, tickets to golf outings, tickets to sporting events, currency of any kind, or any other gifts, gratuities, favorable opportunities or preferences. For purposes of this subsection, an immediate family member shall include a spouse, child, parent, or sibling. The Contractor shall include the provisions of this subsection in each subcontract entered into under this Agreement.

(b) Disclosure of Conflicts of Interest. In accordance with County Executive Order 2-2018, the Contractor has disclosed as part of its response to the County's Business History Form, or other disclosure form(s), any and all instances where the Contractor employs any spouse, child, or parent of a County employee of the agency or department that contracted or procured the goods and/or services described under this Agreement. The Contractor shall have a continuing obligation, as circumstances arise, to update this disclosure throughout the term of this Agreement.

(c) Vendor Code of Ethics. By executing this Agreement, the Contractor hereby certifies and covenants that:

- (i) The Contractor has been provided a copy of the Nassau County Vendor Code of Ethics issued on June 5, 2019, as may be amended from time to time (the "Vendor Code of Ethics"), and will comply with all of its provisions;
- (ii) All of the Contractor's Participating Employees, as such term is defined in the Vendor Code of Ethics (the "Participating Employees"), have been provided a copy of the Vendor Code of Ethics prior to their participation in the underlying procurement;
- (iii) All Participating Employees have completed the acknowledgment required by the Vendor Code of Ethics;
- (iv) The Contractor will retain all of the signed Participating Employee acknowledgements for the period it is required to retain other records pertinent to performance under this Agreement;

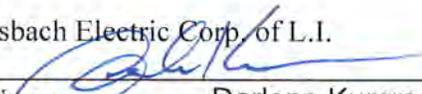

- (v) The Contractor will continue to distribute the Vendor Code of Ethics, obtain signed Participating Employee acknowledgments as new Participating Employees are added or changed during the term of this Agreement, and retain such signed acknowledgments for the period the Contractor is required to retain other records pertinent to performance under this Agreement; and

The Contractor has obtained the certifications required by the Vendor Code of Ethics from any subcontractors or other lower tier participants who have participated in procurements for work performed under this Agreement.

{Remainder of page intentionally left blank}

IN WITNESS WHEREOF, the parties have executed this Amendment as of the date first above written.

PLEASE EXECUTE IN BLUE INK

Nassau County Interim Finance Authority

Contract Approval Request Form (As of January 1, 2015)

1. Vendor: Welsbach Electric Corp. of L.I.

2. Amount requiring NIFA approval: \$42,964.01

Amount to be encumbered: \$42,964.01

Slip Type: Amendment

If new contract - \$ amount should be full amount of contract

If advisement - NIFA only needs to review if it is increasing funds above the amount previously approved by NIFA

If amendment - \$ amount should be full amount of amendment only

3. Contract Term: to No change in term - Amendment is for payment purposes only.

Has work or services on this contract commenced? No

If yes, please explain:

4. Funding Source:

General Fund (GEN)	X	Grant Fund (GRT)
Capital Improvement Fund (CAP)		Other
Federal %	0	
State %	0	
County %	100	

Is the cash available for the full amount of the contract? Yes

If not, will it require a future borrowing? No

Has the County Legislature approved the borrowing? N/A

Has NIFA approved the borrowing for this contract? N/A

5. Provide a brief description (4 to 5 sentences) of the item for which this approval is requested:

The contract was originally executed by Nassau County on November 1, 2016, in the amount of \$2,448,500.00. This amendment is necessary for the payment of services provided through the extension of the contract with an additional \$42,964.01. The purpose of this contract was to provide daily maintenance and operations of the County's signal communications and ITS infrastructure.

6. Has the item requested herein followed all proper procedures and thereby approved by the:

Nassau County Attorney as to form Yes

Nassau County Committee and/or Legislature

Date of approval(s) and citation to the resolution where approval for this item was provided:

7. Identify all contracts (with dollar amounts) with this or an affiliated party within the prior 12 months:

Mineola, New York 11501

COMPTROLLER APPROVAL FORM FOR PERSONAL, PROFESSIONAL OR HUMAN SERVICES CONTRACTS

Attach this form along with all personal, professional or human services contracts, contract renewals, extensions and amendments.

CONTRACTOR NAME: Welsbach Electric Corp of LI

CONTRACTOR ADDRESS: 300 Newtown Road, Plainview NY 11803

FEDERAL TAX ID #: 11-2354251

Instructions: Please check the appropriate box (“☑”) after one of the following roman numerals, and provide all the requested information.

I. The contract was awarded to the lowest, responsible bidder after advertisement for sealed bids. The contract was awarded after a request for sealed bids was published in _____ [newspaper] on _____ [date]. The sealed bids were publicly opened on _____ [date]. _____ [#] of sealed bids were received and opened.

II. The contractor was selected pursuant to a Request for Proposals.

The Contract was entered into after a written request for proposals was issued on _____. Potential proposers were made aware of the availability of the RFP by advertisement in _____ interested parties and by publication on the County procurement website. Proposals were due on _____. _____ proposers requested copies of the RFP. _____ proposals were received and evaluated. The evaluation committee consisted of: _____. Following a review of the proposal, it was determined that the _____ proposal be selected and awarded.

III. This is a renewal, extension or amendment of an existing contract.

The contract was originally executed by Nassau County on August 23, 2016, in the amount of \$2,448,500.00. This is an amendment to fund the project with an additional \$42,964.01.

IV. Pursuant to Executive Order No. 1 of 1993, as amended, at least three proposals were solicited and received. The attached memorandum from the department head describes the proposals received, along with the cost of each proposal.

- A.** The contract has been awarded to the proposer offering the lowest cost proposal; **OR:**
- B.** The attached memorandum contains a detailed explanation as to the reason(s) why the contract was awarded to other than the lowest-cost proposer. The attachment includes a specific delineation of the unique skills and experience, the specific reasons why a proposal is deemed superior, and/or why the proposer has been judged to be able to perform more quickly than other proposers.

V. Pursuant to Executive Order No. 1 of 1993 as amended, the attached memorandum from the department head explains why the department did not obtain at least three proposals.

- A.** There are only one or two providers of the services sought or less than three providers submitted proposals. The memorandum describes how the contractor was determined to be the sole source provider of the personal service needed or explains why only two proposals could be obtained. If two proposals were obtained, the memorandum explains that the contract was awarded to the lowest cost proposer, or why the selected proposer offered the higher quality proposal, the proposer's unique and special experience, skill, or expertise, or its availability to perform in the most immediate and timely manner.
- B.** The memorandum explains that the contractor's selection was dictated by the terms of a federal or New York State grant, by legislation or by a court order. (Copies of the relevant documents are attached).
- C.** Pursuant to General Municipal Law Section 104, the department is purchasing the services required through a New York State Office of General Services contract no. _____, and the attached memorandum explains how the purchase is within the scope of the terms of that contract.
- D.** Pursuant to General Municipal Law Section 119-o, the department is purchasing the services required through an inter-municipal agreement.

VI. This is a human services contract with a not-for-profit agency for which a competitive process has not been initiated. Attached is a memorandum that explains the reasons for entering into this contract without conducting a competitive process, and details when the department intends to initiate a competitive process for the future award of these services. For any such contract, where the vendor has previously provided services to the county, attach a copy of the most recent evaluation of the vendor's performance. If the contractor has not received a satisfactory evaluation, the department must explain why the contractor should nevertheless be permitted to contract with the county.

In certain limited circumstances, conducting a competitive process and/or completing performance evaluations may not be possible because of the nature of the human services program, or because of a compelling need to continue services through the same provider. In those circumstances, attach an explanation of why a competitive process and/or performance evaluation is inapplicable.

VII. This is a public works contract for the provision of architectural, engineering or surveying services. The attached memorandum provides details of the department's compliance with Board of Supervisors' Resolution No. 928 of 1993, including its receipt and evaluation of annual Statements of Qualifications & Performance Data, and its negotiations with the most highly qualified firms.

Instructions with respect to Sections VIII, IX and X: All Departments must check the box for VIII. Then, check the box for either IX or X, as applicable.

VIII. Participation of Minority Group Members and Women in Nassau County Contracts. The selected contractor has agreed that it has an obligation to utilize best efforts to hire MWBE sub-contractors. Proof of the contractual utilization of best efforts as outlined in Exhibit "EE" may be requested at any time, from time to time, by the Comptroller's Office prior to the approval of claim vouchers.

IX. Department MWBE responsibilities. To ensure compliance with MWBE requirements as outlined in Exhibit "EE", Department will require vendor to submit list of sub-contractor requirements prior to submission of the first claim voucher, for services under this contract being submitted to the Comptroller.

X. Vendor will not require any sub-contractors.

In addition, if this is a contract with an individual or with an entity that has only one or two employees: a review of the criteria set forth by the Internal Revenue Service, *Revenue Ruling No. 87-41, 1987-1 C.B. 296*, attached as Appendix A to the Comptroller's Memorandum, dated February 13, 2004, concerning independent contractors and employees indicates that the contractor would not be considered an employee for federal tax purposes.

Vendor: Welsbach Electric Corp. of L.I.

Title: President / C.E.O.

COUNTY OF NASSAU

LOBBYIST REGISTRATION AND DISCLOSURE FORM

1. Name, address and telephone number of lobbyist(s)/lobbying organization. The term "lobbyist" means any and every person or organization retained, employed or designated by any client to influence - or promote a matter before - Nassau County, its agencies, boards, commissions, department heads, legislators or committees, including but not limited to the Open Space and Parks Advisory Committee and Planning Commission. Such matters include, but are not limited to, requests for proposals, development or improvement of real property subject to County regulation, procurements. The term "lobbyist" does not include any officer, director, trustee, employee, counsel or agent of the County of Nassau, or State of New York, when discharging his or her official duties.

None.

2. List whether and where the person/organization is registered as a lobbyist (e.g., Nassau County, New York State):

None.

3. Name, address and telephone number of client(s) by whom, or on whose behalf, the lobbyist is retained, employed or designated:

None.

4. Describe lobbying activity conducted, or to be conducted, in Nassau County, and identify client(s) for each activity listed. See the last page for a complete description of lobbying activities.

None.

5. The name of persons, organizations or governmental entities before whom the lobbyist expects to lobby:

None.

6. If such lobbyist is retained or employed pursuant to a written agreement of retainer or employment, you must attach a copy of such document; and if agreement of retainer or employment is oral, attach a written statement of the substance thereof. If the written agreement of retainer or employment does not contain a signed authorization from the client by whom you have been authorized to lobby, separately attach such a written authorization from the client.

7. Has the lobbyist/lobbying organization or any of its corporate officers provided campaign contributions pursuant to the New York State Election Law in (a) the period beginning April 1, 2016 and ending on the date of this disclosure, or (b), beginning April 1, 2018, the period beginning two years prior to the date of this disclosure and ending on the date of this disclosure, to the campaign committees of any of the following Nassau County elected officials or to the campaign committees of any candidates for any of the following Nassau County elected offices: the County Executive, the County Clerk, the Comptroller, the District Attorney, or any County Legislator?

YES NO If yes, to what campaign committee? If none, you must so state:

I understand that copies of this form will be sent to the Nassau County Department of Information Technology ("IT") to be posted on the County's website.

I also understand that upon termination of retainer, employment or designation I must give written notice to the County Attorney within thirty (30) days of termination.

VERIFICATION: The undersigned affirms and so swears that he/she has read and understood the foregoing statements and they are, to his/her knowledge, true and accurate.

The undersigned further certifies and affirms that the contribution(s) to the campaign committees listed above were made freely and without duress, threat or any promise of a governmental benefit or in exchange for any benefit or remuneration.

Electronically signed and certified at the date and time indicated by:
Timothy P. Miller [TPMILLER@EMCOR.NET]

Dated: 03/28/2022 01:09:44 PM

Vendor: Welsbach Electric Corp. of L.I.

Title: President / C.E.O.

The term lobbying shall mean any attempt to influence: any determination made by the Nassau County Legislature, or any member thereof, with respect to the introduction, passage, defeat, or substance of any local legislation or resolution; any determination by the County Executive to support, oppose, approve or disapprove any local legislation or resolution, whether or not such legislation has been introduced in the County Legislature; any determination by an elected County official or an officer or employee of the County with respect to the procurement of goods, services or construction, including the preparation of contract specifications, including but not limited to the preparation of requests for proposals, or solicitation, award or administration of a contract or with respect to the solicitation, award or administration of a grant, loan, or agreement involving the disbursement of public monies; any determination made by the County Executive, County Legislature, or by the County of Nassau, its agencies, boards, commissions department heads or committees, including but not limited to the Open Space and Parks Advisory Committee, the Planning Commission with respect to the zoning, use, development or improvement of real property subject to County regulation, or any agencies, boards, commissions, department heads or committees with respect to requests for proposals, bidding, procurement or contracting for services for the County; any determination made by an elected county official or an officer or employee of the county with respect to the terms of the acquisition or disposition by the county of any interest in real property, with respect to a license or permit for the use of real property of or by the county, or with respect to a franchise, concession or revocable consent; the proposal, adoption, amendment or rejection by an agency of any rule having the force and effect of law; the decision to hold, timing or outcome of any rate making proceeding before an agency; the agenda or any determination of a board or commission; any determination regarding the calendaring or scope of any legislature oversight hearing; the issuance, repeal, modification or substance of a County Executive Order; or any determination made by an elected county official or an officer or employee of the county to support or oppose any state or federal legislation, rule or regulation, including any determination made to support or oppose that is contingent on any amendment of such legislation, rule or regulation, whether or not such legislation has been formally introduced and whether or not such rule or regulation has been formally proposed.

The term "lobbying" or "lobbying activities" does not include: Persons engaged in drafting legislation, rules, regulations or rates; persons advising clients and rendering opinions on proposed legislation, rules, regulations or rates, where such professional services are not otherwise connected with legislative or executive action on such legislation or administrative action on such rules, regulations or rates; newspapers and other periodicals and radio and television stations and owners and employees thereof, provided that their activities in connection with proposed legislation, rules, regulations or rates are limited to the publication or broadcast of news items, editorials or other comment, or paid advertisements; persons who participate as witnesses. attorneys or other representatives in public rule-making or rate-making proceedings of a County agency, with respect to all participation by such persons which is part of the public record thereof and all preparation by such persons for such participation; persons who attempt to influence a County agency in an adjudicatory proceeding, as defined by § 102 of the New York State Administrative Procedure Act.

6. Has any governmental entity awarded any contracts to a business or organization listed in Section 5 in the past 3 years while you were a principal owner or officer?
YES NO If Yes, provide details.

NOTE: An affirmative answer is required below whether the sanction arose automatically, by operation of law, or as a result of any action taken by a government agency. Provide a detailed response to all questions checked "YES". If you need more space, photocopy the appropriate page and attach it to the questionnaire.

7. In the past (5) years, have you and/or any affiliated businesses or not-for-profit organizations listed in Section 5 in which you have been a principal owner or officer:
- a. Been debarred by any government agency from entering into contracts with that agency?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

- b. Been declared in default and/or terminated for cause on any contract, and/or had any contracts cancelled for cause?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

- c. Been denied the award of a contract and/or the opportunity to bid on a contract, including, but not limited to, failure to meet pre-qualification standards?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

- d. Been suspended by any government agency from entering into any contract with it; and/or is any action pending that could formally debar or otherwise affect such business's ability to bid or propose on contract?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

8. Have any of the businesses or organizations listed in response to Question 5 filed a bankruptcy petition and/or been the subject of involuntary bankruptcy proceedings during the past 7 years, and/or for any portion of the last 7 year period, been in a state of bankruptcy as a result of bankruptcy proceedings initiated more than 7 years ago and/or is any such business now the subject of any pending bankruptcy proceedings, whenever initiated?

YES NO If 'Yes', provide details for each such instance. (Provide a detailed response to all questions check "Yes". If you need more space, photocopy the appropriate page and attached it to the questionnaire.)

9.

a. Is there any felony charge pending against you?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

b. Is there any misdemeanor charge pending against you?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

c. Is there any administrative charge pending against you?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

d. In the past 10 years, have you been convicted, after trial or by plea, of any felony, or of any other crime, an element of which relates to truthfulness or the underlying facts of which related to the conduct of business? Y
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

e. In the past 5 years, have you been convicted, after trial or by plea, of a misdemeanor?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

f. In the past 5 years, have you been found in violation of any administrative or statutory charges?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

10. In addition to the information provided in response to the previous questions, in the past 5 years, have you been the subject of a criminal investigation and/or a civil anti-trust investigation by any federal, state or local prosecuting or investigative agency and/or the subject of an investigation where such investigation was related to activities performed at, for, or on behalf of the submitting business entity and/or an affiliated business listed in response to Question 5?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

11. In addition to the information provided, in the past 5 years has any business or organization listed in response to Question 5, been the subject of a criminal investigation and/or a civil anti-trust investigation and/or any other type of investigation by any government agency, including but not limited to federal, state, and local regulatory agencies while you were a principal owner or officer?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

12. In the past 5 years, have you or this business, or any other affiliated business listed in response to Question 5 had any sanction imposed as a result of judicial or administrative proceedings with respect to any professional license held?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

13. For the past 5 tax years, have you failed to file any required tax returns or failed to pay any applicable federal, state or local taxes or other assessed charges, including but not limited to water and sewer charges?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

I, Darlene Kummer , hereby acknowledge that a materially false statement willfully or fraudulently made in connection with this form may result in rendering the submitting business entity and/or any affiliated entities non-responsible, and, in addition, may subject me to criminal charges.

I, Darlene Kummer , hereby certify that I have read and understand all the items contained in this form; that I supplied full and complete answers to each item therein to the best of my knowledge, information and belief; that I will notify the County in writing of any change in circumstances occurring after the submission of this form; and that all information supplied by me is true to the best of my knowledge, information and belief. I understand that the County will rely on the information supplied in this form as additional inducement to enter into a contract with the submitting business entity.

CERTIFICATION

A MATERIALLY FALSE STATEMENT WILLFULLY OR FRAUDULENTLY MADE IN CONNECTION WITH THIS QUESTIONNAIRE MAY RESULT IN RENDERING THE SUBMITTING BUSINESS ENTITY NOT RESPONSIBLE WITH RESPECT TO THE PRESENT BID OR FUTURE BIDS, AND, IN ADDITION, MAY SUBJECT THE PERSON MAKING THE FALSE STATEMENT TO CRIMINAL CHARGES.

(Other)			

Type	Description	Start Date
Other	Asst. Vice President	05/20/2015

3. Do you have an equity interest in the business submitting the questionnaire?

YES NO If Yes, provide details.

4. Are there any outstanding loans, guarantees or any other form of security or lease or any other type of contribution made in whole or in part between you and the business submitting the questionnaire?

YES NO If Yes, provide details.

5. Within the past 3 years, have you been a principal owner or officer of any business or notfor-profit organization other than the one submitting the questionnaire?

YES NO If Yes, provide details.

6. Has any governmental entity awarded any contracts to a business or organization listed in Section 5 in the past 3 years while you were a principal owner or officer?

YES NO If Yes, provide details.

NOTE: An affirmative answer is required below whether the sanction arose automatically, by operation of law, or as a result of any action taken by a government agency. Provide a detailed response to all questions checked "YES". If you need more space, photocopy the appropriate page and attach it to the questionnaire.

7. In the past (5) years, have you and/or any affiliated businesses or not-for-profit organizations listed in Section 5 in which you have been a principal owner or officer:

a. Been debarred by any government agency from entering into contracts with that agency?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

b. Been declared in default and/or terminated for cause on any contract, and/or had any contracts cancelled for cause?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

c. Been denied the award of a contract and/or the opportunity to bid on a contract, including, but not limited to, failure to meet pre-qualification standards?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

d. Been suspended by any government agency from entering into any contract with it; and/or is any action pending that could formally debar or otherwise affect such business's ability to bid or propose on contract?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

8. Have any of the businesses or organizations listed in response to Question 5 filed a bankruptcy petition and/or been the subject of involuntary bankruptcy proceedings during the past 7 years, and/or for any portion of the last 7 year period, been in a state of bankruptcy as a result of bankruptcy proceedings initiated more than 7 years ago and/or is any such business now the subject of any pending bankruptcy proceedings, whenever initiated?

YES NO If 'Yes', provide details for each such instance. (Provide a detailed response to all questions check "Yes". If you need more space, photocopy the appropriate page and attached it to the questionnaire.)

9.

a. Is there any felony charge pending against you?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

b. Is there any misdemeanor charge pending against you?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

6. Has any governmental entity awarded any contracts to a business or organization listed in Section 5 in the past 3 years while you were a principal owner or officer?
YES NO If Yes, provide details.

Welsbach Electric Corp. has been awarded numerous contracts from various public and private owners including City and State agencies.

NOTE: An affirmative answer is required below whether the sanction arose automatically, by operation of law, or as a result of any action taken by a government agency. Provide a detailed response to all questions checked "YES". If you need more space, photocopy the appropriate page and attach it to the questionnaire.

7. In the past (5) years, have you and/or any affiliated businesses or not-for-profit organizations listed in Section 5 in which you have been a principal owner or officer:

- a. Been debarred by any government agency from entering into contracts with that agency?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

- b. Been declared in default and/or terminated for cause on any contract, and/or had any contracts cancelled for cause?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

- c. Been denied the award of a contract and/or the opportunity to bid on a contract, including, but not limited to, failure to meet pre-qualification standards?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

- d. Been suspended by any government agency from entering into any contract with it; and/or is any action pending that could formally debar or otherwise affect such business's ability to bid or propose on contract?
YES NO If yes, provide an explanation of the circumstances and corrective action taken.

8. Have any of the businesses or organizations listed in response to Question 5 filed a bankruptcy petition and/or been the subject of involuntary bankruptcy proceedings during the past 7 years, and/or for any portion of the last 7 year period, been in a state of bankruptcy as a result of bankruptcy proceedings initiated more than 7 years ago and/or is any such business now the subject of any pending bankruptcy proceedings, whenever initiated?

YES NO If 'Yes', provide details for each such instance. (Provide a detailed response to all questions check "Yes". If you need more space, photocopy the appropriate page and attached it to the questionnaire.)

9.

a. Is there any felony charge pending against you?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

b. Is there any misdemeanor charge pending against you?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

c. Is there any administrative charge pending against you?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

d. In the past 10 years, have you been convicted, after trial or by plea, of any felony, or of any other crime, an element of which relates to truthfulness or the underlying facts of which related to the conduct of business? Y

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

e. In the past 5 years, have you been convicted, after trial or by plea, of a misdemeanor?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

f. In the past 5 years, have you been found in violation of any administrative or statutory charges?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

10. In addition to the information provided in response to the previous questions, in the past 5 years, have you been the subject of a criminal investigation and/or a civil anti-trust investigation by any federal, state or local prosecuting or investigative agency and/or the subject of an investigation where such investigation was related to activities performed at, for, or on behalf of the submitting business entity and/or an affiliated business listed in response to Question 5?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

11. In addition to the information provided, in the past 5 years has any business or organization listed in response to Question 5, been the subject of a criminal investigation and/or a civil anti-trust investigation and/or any other type of investigation by any government agency, including but not limited to federal, state, and local regulatory agencies while you were a principal owner or officer?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

12. In the past 5 years, have you or this business, or any other affiliated business listed in response to Question 5 had any sanction imposed as a result of judicial or administrative proceedings with respect to any professional license held?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

13. For the past 5 tax years, have you failed to file any required tax returns or failed to pay any applicable federal, state or local taxes or other assessed charges, including but not limited to water and sewer charges?

YES NO If yes, provide an explanation of the circumstances and corrective action taken.

I, Timothy P. Miller , hereby acknowledge that a materially false statement willfully or fraudulently made in connection with this form may result in rendering the submitting business entity and/or any affiliated entities non-responsible, and, in addition, may subject me to criminal charges.

I, Timothy P. Business History Form

The contract shall be awarded to the responsible proposer who, at the discretion of the County, taking into consideration the reliability of the proposer and the capacity of the proposer to perform the services required by the County, offers the best value to the County and who will best promote the public interest.

In addition to the submission of proposals, each proposer shall complete and submit this questionnaire. The questionnaire shall be filled out by the owner of a sole proprietorship or by an authorized representative of the firm, corporation or partnership submitting the Proposal.

NOTE: All questions require a response, even if response is "none" or "not-applicable." No blanks.

(USE ADDITIONAL SHEETS IF NECESSARY TO FULLY ANSWER THE FOLLOWING QUESTIONS).

Date: 03/21/2022

1) Proposer's Legal Name: Welsbach Electric Corp. of L.I.

2) Address of Place of Business: 300 Newtown Rd

City: Plainview State/Province/Territory: NY Zip/Postal Code: 11803

Country: US

3) Mailing Address (if different): _____

City: _____ State/Province/Territory: _____ Zip/Postal Code: _____

Country: _____

Phone: _____

Does the business own or rent its facilities? Rent If other, please provide details:

4) Dun and Bradstreet number: 01-272-8168

5) Federal I.D. Number: 11-2354251

6) The proposer is a: Corporation (Describe) _____

7) Does this business share office space, staff, or equipment expenses with any other business?
YES NO If yes, please provide details:

8) Does this business control one or more other businesses?
YES NO If yes, please provide details:

9) Does this business have one or more affiliates, and/or is it a subsidiary of, or controlled by, any other business?
YES NO If yes, please provide details:
Welsbach Electric Corp. of L.I. is a wholly owned subsidiary of Emcor Group, Inc. See Emcor Group 2021

1 File(s) Uploaded: EME_AR_10K_2021.pdf

- 10) Has the proposer ever had a bond or surety cancelled or forfeited, or a contract with Nassau County or any other government entity terminated?

YES NO If yes, state the name of bonding agency, (if a bond), date, amount of bond and reason for such cancellation or forfeiture: or details regarding the termination (if a contract).

- 11) Has the proposer, during the past seven years, been declared bankrupt?

YES NO If yes, state date, court jurisdiction, amount of liabilities and amount of assets

- 12) In the past five years, has this business and/or any of its owners and/or officers and/or any affiliated business, been the subject of a criminal investigation and/or a civil anti-trust investigation by any federal, state or local prosecuting or investigative agency? And/or, in the past 5 years, have any owner and/or officer of any affiliated business been the subject of a criminal investigation and/or a civil anti-trust investigation by any federal, state or local prosecuting or investigative agency, where such investigation was related to activities performed at, for, or on behalf of an affiliated business.

YES NO If yes, provide details for each such investigation, an explanation of the circumstances and corrective action taken.

- 13) In the past 5 years, has this business and/or any of its owners and/or officers and/or any affiliated business been the subject of an investigation by any government agency, including but not limited to federal, state and local regulatory agencies? And/or, in the past 5 years, has any owner and/or officer of an affiliated business been the subject of an investigation by any government agency, including but not limited to federal, state and local regulatory agencies, for matters pertaining to that individual's position at or relationship to an affiliated business.

1 File(s) Uploaded: Business History Form, Question 13 Support, 22.03.24.pdf

- 14) Has any current or former director, owner or officer or managerial employee of this business had, either before or during such person's employment, or since such employment if the charges pertained to events that allegedly occurred during the time of employment by the submitting business, and allegedly related to the conduct of that business:

a) Any felony charge pending?

YES NO If yes, provide details for each such investigation, an explanation of the circumstances and corrective action taken.

b) Any misdemeanor charge pending?

YES NO If yes, provide details for each such investigation, an explanation of the

circumstances and corrective action taken.

c) In the past 10 years, you been convicted, after trial or by plea, of any felony and/or any other crime, an element of which relates to truthfulness or the underlying facts of which related to the conduct of business?
YES NO If yes, provide details for each such investigation, an explanation of the circumstances and corrective action taken.

d) In the past 5 years, been convicted, after trial or by plea, of a misdemeanor?
YES NO If yes, provide details for each such investigation, an explanation of the circumstances and corrective action taken.

e) In the past 5 years, been found in violation of any administrative, statutory, or regulatory provisions?
YES NO If yes, provide details for each such investigation, an explanation of the circumstances and corrective action taken.

15) In the past (5) years, has this business or any of its owners or officers, or any other affiliated business had any sanction imposed as a result of judicial or administrative proceedings with respect to any professional license held?
YES NO If yes, provide details for each such investigation, an explanation of the circumstances and corrective action taken.

16) For the past (5) tax years, has this business failed to file any required tax returns or failed to pay any applicable federal, state or local taxes or other assessed charges, including but not limited to water and sewer charges?
YES NO If yes, provide details for each such year. Provide a detailed response to all questions checked 'YES'. If you need more space, photocopy the appropriate page and attach it to the questionnaire.

17 Conflict of Interest:

a) Please disclose any conflicts of interest as outlined below. NOTE: If no conflicts exist, please expressly state "No conflict exists."

(i) Any material financial relationships that your firm or any firm employee has that may create a conflict of interest or the appearance of a conflict of interest in acting on behalf of Nassau County.

No conflict exists.

(ii) Any family relationship that any employee of your firm has with any County public servant that may create a conflict of interest or the appearance of a conflict of interest in acting on behalf of Nassau County.

No conflict exists.

(iii) Any other matter that your firm believes may create a conflict of interest or the appearance of a conflict of interest in acting on behalf of Nassau County.

No conflict exists.

b) Please describe any procedures your firm has, or would adopt, to assure the County that a conflict of interest would not exist for your firm in the future.

It is Welsbach Electric Corp. of L.I.'s policy that should any actual or potential conflict of interest be suspected, management is to be notified immediately. At such time, all parties would be notified and actions pursued to resolve said conflict.

A. Include a resume or detailed description of the Proposer's professional qualifications, demonstrating extensive experience in your profession. Any prior similar experiences, and the results of these experiences, must be identified.

Have you previously uploaded the below information under in the Document Vault?

YES NO

Is the proposer an individual?

YES NO Should the proposer be other than an individual, the Proposal MUST include:

i) Date of formation;

11/14/1955

ii) Name, addresses, and position of all persons having a financial interest in the company, including shareholders, members, general or limited partner. If none, explain.

None. Emcor Group, Inc. is a publicly traded company on the Stock Exchange under symbol EME. No individual shareholder retains 10% or more of available stocks. According to the latest NASDAQ summary (available daily at NASDAQ.com), almost 95% of all available shares are retained by institutional investment firms. Leaving approximately 5% to all remaining individual shareholders. All mandated SEC filings reflecting such, and as referenced in the attached 2021 10K under Question 9, are available at any of the following websites: NASDAQ.com, SEC.gov or EmcorGroup.com.

No individuals with a financial interest in the company have been attached..

iii) Name, address and position of all officers and directors of the company. If none, explain.

[Redacted]

No officers and directors from this company have been attached.

iv) State of incorporation (if applicable);

NY

v) The number of employees in the firm;

[Redacted]

vi) Annual revenue of firm;

[Redacted]

vii) Summary of relevant accomplishments

Largest traffic and street lighting contractor on Long Island. Public safety is our priority.

viii) Copies of all state and local licenses and permits.

3 File(s) Uploaded: Hempstead Tri-Town Exp 12.31.23.pdf, North Hempstead Exp 12.31.22.pdf, Oyster Bay Exp 12.31.23.pdf

B. Indicate number of years in business.

67

C. Provide any other information which would be appropriate and helpful in determining the Proposer's capacity and reliability to perform these services.

Current Traffic Signal Maintenance contractor, current Traffic Signal Operations contractor and current Traffic Signal Requirements contractor.

D. Provide names and addresses for no fewer than three references for whom the Proposer has provided similar services or who are qualified to evaluate the Proposer's capability to perform this work.

FORM 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2021

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____
Commission file number 1-8267

EMCOR Group, Inc.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

11-2125338

(I.R.S. Employer Identification Number)

301 Merritt Seven

Norwalk, Connecticut

06851-1092

(Address of principal executive offices)

(Zip Code)

Registrant's telephone number, including area code: (203) 849-7800

Securities registered pursuant to Section 12(b) of the Act:

Title of each class

Trading Symbol

Name of each exchange on which registered

Common Stock

EME

New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes
No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Securities Exchange Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (Section 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer Accelerated Filer Non-accelerated Filer Smaller Reporting Company Emerging Growth Company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report.

Indicate by check mark whether the registrant is a shell company (as defined by Rule 12b-2 of the Exchange Act). Yes No

The aggregate market value of the common stock held by non-affiliates of the registrant was approximately \$4,566,000,000 as of the last business day of the registrant's most recently completed second fiscal quarter, based upon the closing sale price on the New York Stock Exchange reported for such date. Shares of common stock held by each executive officer and director and by each person who owns 5% or more of the outstanding common stock (based solely on filings of such 5% holders) have been excluded from such calculation as such persons may be deemed to be affiliates. This determination of affiliate status is not necessarily a conclusive determination for other purposes.

Number of shares of the registrant's common stock outstanding as of the close of business on February 18, 2022: 52,666,149 shares.

DOCUMENTS INCORPORATED BY REFERENCE

Part III. Portions of the definitive proxy statement for the 2022 Annual Meeting of Stockholders, which document will be filed with the Securities and Exchange Commission pursuant to Regulation 14A not later than 120 days after the end of the fiscal year to which this Form 10-K relates, are incorporated by reference into Items 10 through 14 of Part III of this Form 10-K.

FORWARD-LOOKING STATEMENTS

This report contains forward-looking statements. You can identify these statements by the fact that they do not relate strictly to historical or current facts. They generally contain words such as “anticipate,” “estimate,” “expect,” “project,” “intend,” “plan,” “believe,” “may,” “can,” “could,” “might,” variations of such wording and other words or phrases of similar meaning. Forward-looking statements in this report include discussions of our future operating or financial performance and other forward-looking commentary regarding aspects of our business, including market share growth, gross profit, remaining performance obligations, project mix, projects with varying profit margins, selling, general and administrative expenses, and trends in our business, and other characterizations of future events or circumstances, such as the effects of the COVID-19 pandemic. Each forward-looking statement included in this report is subject to risks and uncertainties, including those identified below in the “Risk Factors” section, the “Management’s Discussion and Analysis of Financial Condition and Results of Operations” section, and other sections of this report. Such risks and uncertainties could cause actual results to differ materially from those that might be anticipated from, or projected or implied by, our forward-looking statements. The forward-looking statements contained in this report speak only as of the filing date of this report. We undertake no obligation to update any forward-looking statements. However, any further disclosures made on related subjects in our subsequent reports filed with the Securities and Exchange Commission (the “SEC”) should be consulted. We caution investors not to place undue reliance on forward-looking statements, due to their inherent uncertainty.

PART I

ITEM 1. BUSINESS

References to the “Company,” “EMCOR,” “we,” “us,” “our” and similar words refer to EMCOR Group, Inc. and its consolidated subsidiaries unless the context indicates otherwise.

Overview

We are one of the largest specialty contractors in the United States and a leading provider of electrical and mechanical construction and facilities services, building services, and industrial services. In 2021, we had revenues of approximately \$9.9 billion. Our services are provided to a broad range of commercial, industrial, utility, and institutional customers through approximately 90 operating subsidiaries, which specialize principally in providing construction services relating to electrical and mechanical systems in all types of facilities and in providing various services relating to the operation, maintenance, and management of those facilities. Such operating subsidiaries are organized into the following reportable segments:

- United States electrical construction and facilities services
- United States mechanical construction and facilities services
- United States building services
- United States industrial services
- United Kingdom building services

Our operating subsidiaries offer comprehensive and diverse solutions on a broad scale and have a solid base of customers, including many long-standing relationships. We provide construction services and building services directly to corporations, municipalities and federal and state governmental entities, owners/developers, and tenants of buildings. We also provide our construction services indirectly by acting as a subcontractor to general contractors, systems suppliers, construction managers, developers, property managers, and other subcontractors. Our industrial services are generally provided directly to refineries and petrochemical plants.

Our revenues are derived from many different customers in numerous industries, which have operations in several different geographical areas. Of our 2021 revenues, approximately 95% were generated in the United States and approximately 5% were generated in foreign countries, substantially all in the United Kingdom. In 2021, approximately 60% of our revenues were derived from our construction operations, approximately 30% of our revenues were derived from our building services operations and approximately 10% of our revenues were derived from our industrial services operations. For additional information regarding our revenues, see Note 3 - Revenue from Contracts with Customers of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data.

We believe that our range of service offerings, technical capability, and strong project execution, along with our safety culture and financial resources, differentiate us from our competition and position us to benefit from future capital spending by our customers. Our strategies of expanding our portfolio of service offerings for existing and potential customers and increasing or enhancing our presence in core end markets, along with our commitment to industry-leading best practices and technological and training capabilities, place us in the position to capitalize on opportunities and trends in the industries we serve and expand our operations to select new markets.

Increasingly, our services are focused on delivering sustainable energy solutions, enhancements in energy efficiency, reductions in waste and emissions, and improvements in the safety and comfort of our customers’ facilities.

The broad scope of our operations is more particularly described below. For detailed segment financial information refer to Note 18 - Segment Information of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data.

Our executive offices are located at 301 Merritt Seven, Norwalk, Connecticut 06851-1092, and our telephone number at those offices is (203) 849-7800.

Operations

United States electrical and mechanical construction and facilities services operations:

Our electrical and mechanical construction services primarily involve the design, integration, installation, start-up, operation and maintenance, and provision of services relating to:

- Systems for electrical power transmission, distribution, and generation, including power cables, conduits, distribution panels, transformers, generators, uninterruptible power supply systems, and related switch gear and controls;
- Sustainable energy solutions such as solar, photovoltaic, and wind, as well as the installation of electric vehicle charging stations;
- Premises electrical and lighting systems, including fixtures and controls;
- Process instrumentation in the refining, chemical processing, and food processing industries;
- Low-voltage systems, such as fire alarm, security, and process control systems;
- Voice and data communications, including fiber optic and low voltage cabling, distributed antenna systems, audiovisual systems, and wireless access points;
- Roadway and transit lighting and signaling and fiber optic lines;
- Heating, ventilation, air conditioning, and refrigeration, including both traditional mechanical systems as well as geothermal solutions;
- Clean-room process ventilation systems;
- Fire protection and suppression systems;
- Plumbing, process and high-purity piping systems;
- Controls and filtration systems;
- Water and wastewater treatment systems;
- Central plant heating and cooling systems;
- Crane and rigging services;
- Millwright services; and
- Steel fabrication, erection, and welding services.

The electrical and mechanical construction services industry has experienced growth due principally to the increased content, complexity, and sophistication of electrical and mechanical systems resulting, in part, from growth in digital processing, cloud computing, and data storage. In addition, facilities of all types require extensive electrical distribution systems, sophisticated power supplies, networks of low-voltage and fiber-optic communications cabling, and various mechanical, plumbing, and fire protection and suppression systems. Moreover, the need for substantial environmental controls within a building, due to the heightened need to maintain extensive computer systems at optimal temperatures, and the demand for increased energy efficiency, have continued to expand opportunities for our electrical and mechanical services businesses. The demand for these services is typically driven by non-residential construction and renovation activity.

Our electrical and mechanical construction services generally fall into one of three categories: (a) large installation projects, with contracts often in the multi-million dollar range, that involve: (i) the construction of manufacturing facilities, data centers, warehousing and distribution facilities, and commercial buildings, (ii) institutional and public works projects, or (iii) the fit-out of large blocks of space within commercial buildings, (b) large and medium sized capital and maintenance projects for commercial, manufacturing, pharmaceutical, healthcare, oil and gas, industrial, and petrochemical clients and (c) smaller installation projects, of a short duration, typically involving fit-out, renovation, and retrofit work. We also install and maintain lighting for streets, highways, bridges and tunnels, traffic signals, computerized traffic control systems, and signal and communication systems for mass transit systems in several metropolitan areas. In addition, we manufacture and install sheet metal air handling systems for both our own mechanical construction operations and for unrelated mechanical contractors. We also maintain welding and pipe fabrication shops in support of some of our mechanical operations.

Our United States electrical and mechanical construction operations accounted for about 60% of our 2021 total revenues. Of such revenues, approximately 34% were generated by our electrical construction operations and approximately 66% were generated by our mechanical construction operations.

We provide electrical and mechanical construction services for both large and small installation and renovation projects. Our largest projects have included those: (a) for commercial purposes (such as office buildings, data centers, convention centers, sports stadiums, and shopping malls); (b) for manufacturing and industrial purposes (such as pharmaceutical plants, steel, pulp and paper mills, food processing, automotive and semiconductor manufacturing facilities, power generation (including sustainable energy solutions such as solar and wind), oil and gas refineries, and chemical processing plants); (c) for transportation purposes (such as highways, bridges, airports, and transit systems); (d) for institutional purposes (such as educational and correctional facilities and research laboratories); (e) for healthcare purposes; (f) for water and wastewater purposes; and (g) for hospitality purposes (such as resorts, hotels, and gaming facilities). Our largest projects, which typically range in size from \$10 million up to and occasionally exceeding \$200 million, represented approximately 38% of our electrical and mechanical construction services revenues in 2021. Depending on the size and complexity of these projects, they may span multiple years and typically require significant technical and management skills and the financial strength to obtain performance bonds, which are often a condition to bidding for and winning these projects.

Our projects of less than \$10 million accounted for approximately 62% of our electrical and mechanical construction services revenues in 2021. These projects are typically completed in less than one year. They usually involve electrical and mechanical construction services when an end-user or owner undertakes construction or modification of a facility to accommodate a specific use, upgrade or replace aging systems, or increase energy efficiency. These projects frequently require electrical and mechanical systems to meet special needs such as critical systems power supply, fire protection systems, special environmental controls and high-purity air systems, sophisticated electrical and mechanical systems for data centers, new production lines in manufacturing plants, and office arrangements in existing office buildings. They are not usually dependent upon the new construction market. Demand for these projects and types of services is often prompted by the expiration of leases, changes in technology, the demand for more energy efficient systems, or changes in the customer's plant or office layout in the normal course of a customer's business.

United States and United Kingdom building services operations:

Our building services, which are provided to a wide range of facilities, including commercial, utility, institutional, and governmental facilities, include:

- Mobile mechanical maintenance and services for mechanical, electrical, plumbing, fire safety, and building automation systems;
- Small modification and retrofit projects;
- Program development, management, and maintenance for energy systems, including LEED Certified solutions to assist our customers in reducing energy consumption;
- Technical consulting and diagnostic services;
- Services aimed at improving indoor air quality;
- Installation and support for building systems;
- Commercial and government site-based operations and maintenance;
- Facility management, maintenance, and services;
- Floor care and janitorial services, including enhanced cleaning and sanitization services;
- Landscaping, lot sweeping, and snow removal;
- Other building services, including reception, security, and catering services;
- Vendor management and call center services;
- Military base operations support services;
- Infrastructure and building projects for federal, state, and local governmental agencies; and
- Outage services to utilities and industrial plants.

While not all of the above services are performed in both countries, we provide building services throughout the United States and United Kingdom. Our building services operations have built upon our traditional electrical and mechanical construction operations and our client relationships to expand the scope of services being offered and to develop packages of services for customers on a local, regional, and national basis.

Our building services operations, which generated approximately 30% of our 2021 total revenues, provide services to owners, operators, tenants, and managers of all types of facilities both on a contractual basis for a specified period of time and on an individual task order basis. Of our building services revenues for 2021, approximately 83% were generated in the United States and approximately 17% were generated in the United Kingdom.

Demand for our building services is often driven by customers' decisions to focus on their core competencies, customers' programs to reduce costs, the increasing technical complexity of their facilities, including their mechanical, electrical, building automation, voice and data, and other systems, and the need for increased reliability, energy efficiency, and air filtration and sanitization. These trends have led to outsourcing and privatization programs whereby customers in both the private and public sectors seek to contract out those activities that support, but are not directly associated with, the customer's core business. Clients of our building services business include federal and state governments, institutional organizations, utilities, independent power producers, healthcare providers, and major corporations engaged in information technology, telecommunications, pharmaceuticals, financial services, and manufacturing, as well as large retailers and other businesses with geographically dispersed locations.

We provide building services at a number of prominent buildings, including those that house the Secret Service, the Federal Deposit Insurance Corporation, the Government Accountability Office, and the Department of Health and Human Services, as well as other government facilities, including the NASA Jet Propulsion Laboratory. We also provide building services, as a prime contractor or a subcontractor, to U.S. military bases, including the Defense Intelligence Agency located on Joint Base Anacostia-Bolling, and are involved in a joint venture providing building services to NASA's Armstrong Flight Research Center. The agreements pursuant to which this division provides services to the federal government are frequently for a base period and a number of option years exercisable at the sole discretion of the government, are often subject to renegotiation by the government in terms of scope of services, and are subject to termination by the government prior to the expiration of the applicable term.

United States industrial services operations:

Our industrial services are primarily provided to customers within the oil, gas, and petrochemical industries and consist of:

- Refinery turnaround planning and engineering services;
- Specialty welding services;
- Overhaul and maintenance of critical process units in refineries and petrochemical plants;
- Specialty technical services for refineries and petrochemical plants;
- Instrumentation and electrical services for energy infrastructure;
- On-site repairs, maintenance, and service of heat exchangers, towers, vessels, and piping;
- Design, manufacturing, repair, and hydro blast cleaning of shell and tube heat exchangers and related equipment; and
- Renewable energy services, including large scale solar projects, energy storage, and waste to biogas solutions.

Our industrial services business, which generated approximately 10% of our 2021 total revenues, is a recognized leader in the refinery turnaround market and has a presence in the petrochemical market. Demand for these services is highly dependent on the strength of the oil and gas and related industrial markets. Our industrial services operations perform turnaround and maintenance services for critical units of refineries and petrochemical plants to upgrade, repair, and maintain them. Such services include: (a) engineering and planning in advance of complex refinery turnarounds; (b) overhaul and maintenance of critical process units (including hydrofluoric alkylation units, fluid catalytic cracking units, coking units, heaters, heat exchangers, and related mechanical equipment) during refinery and petrochemical plant shut downs; (c) replacement and new construction capital projects for refineries and petrochemical plants; (d) instrumentation and electrical services for energy infrastructure; and (e) other related specialty services such as: (i) welding (including pipe welding) and fabrication; (ii) heater, boiler, and reformer repairs and replacements; converter repair and revamps; and vessel, exchanger and tower services; (iii) tower and column repairs in refineries and petrochemical plants; (iv) installation and repair of refractory materials for critical units in process plants to protect equipment from corrosion, erosion, and extreme temperatures; and (v) acid-proofing services to protect critical components at refineries from chemical exposure. These businesses also design and manufacture highly engineered shell and tube heat exchangers and provide maintenance, repair, and cleaning services for heat exchangers both in the field and at our own shops, including tube and shell repairs, bundle repairs, and extraction services.

In addition to these traditional industrial services, we are working to leverage our expertise in industrial services to construct and maintain carbon capture technologies and renewable energy projects.

Competition

Across our operations, we compete with national, regional, and local companies, many of which are small, owner-operated entities that carry on their businesses in a limited geographic area, as well as with certain foreign companies.

The electrical and mechanical construction services industry is highly fragmented and our competition includes thousands of small companies across the United States. In addition, there are a number of larger public companies focused on providing either electrical and/or mechanical construction services, such as APi Group Corporation, Comfort Systems USA, Inc., Dycom Industries, Inc., IES Holdings, Inc., MasTec, Inc., MYR Group, Inc., and Tutor Perini Corporation. A majority of our revenues are derived from projects requiring competitive bids; however, an invitation to bid is often conditioned upon prior experience, technical capability, and financial strength. Competitive factors in the electrical and mechanical construction services business include: (a) the availability of qualified and/or licensed personnel; (b) reputation for integrity and quality; (c) safety record; (d) cost structure and the ability to control project costs; (e) relationships with customers; (f) price; (g) geographic diversity; (h) experience in specialized markets; (i) the ability to obtain surety bonding; and (j) adequate working capital or access to bank credit. We believe our financial position, operating results, access to bank credit and surety bonding, technical expertise, and safety record, among other factors, give us an advantage over many of our competitors. However, relatively few barriers exist to prevent entry into the electrical and mechanical construction services industry.

While the building services industry is also highly fragmented, with most competitors operating in a specific geographic region, a number of large corporations such as Amentum Services, Inc., IAP Worldwide Services, Inc., Fluor Corporation, J&J Worldwide Services, Cushman & Wakefield plc, CBRE Group, Inc., Jones Lang LaSalle Incorporated, Sodexo, Inc., Aramark, and ABM Industries Incorporated are engaged in this field, as are large original equipment manufacturers such as Carrier Global Corporation and Trane Technologies plc. In addition, we compete with several regional firms serving all or portions of the markets we target, such as BrightView Holdings, Inc., Kellermeier Bergensons Services, LLC, SMS Assist, LLC, and Ferandino & Son, Inc. Our principal competitors in the United Kingdom include CBRE Group, Inc., Bouygues UK Ltd., ISS UK Ltd., and Mitie Group plc. The key competitive factors in the building services industry include: (a) availability of qualified personnel and managers; (b) service quality and technical expertise; (c) cost structure and the ability to control project costs; (d) price; and (e) geographic diversity. Due to our size, our technical capability and management experience, and our geographic presence, we believe our building services operations are in a strong competitive position. However, there are relatively few barriers to entry into the building services industry.

The market for providing industrial services includes large national providers, as well as numerous regional companies. In the manufacture of heat exchangers, we compete with both U.S. and foreign manufacturers. Competitors within this industry include JVIC Catalyst Services, Universal Plant Services, Inc., Turner Industries Group, LLC, Team, Inc., Cust-O-Fab, Inc., Dunn Heat Exchangers, Inc., and Wyatt Field Service Company, LLC, among others. The key competitive factors in the industrial services market consist of: (a) availability of skilled workforce; (b) technical expertise; (c) service, quality, and ability to respond quickly; (d) price; and (e) safety record. Due to our technical capabilities, skilled workforce, and safety record, we believe that we are in a strong competitive position in the industrial services markets that we serve. Because of the complex tasks associated with turnaround projects, and the precision and cost investment required in manufacturing heat exchangers, we believe that the barriers to entry in this business are significant.

Human Capital

At December 31, 2021, we employed approximately 34,000 people, approximately 30,000 of whom were located within the United States and approximately 4,000 of whom were located in the United Kingdom.

Based on the most recent information available from our latest filing with the U.S. Equal Employment Opportunity Commission, the gender demographic of our U.S. employees was 90% male and 10% female. Additionally, based on such information, our U.S. employees had the following race and ethnicity demographics:

Employee Demographic	% of Total
White	70 %
Hispanic / Latinx	17 %
Black / African American	8 %
Asian	2 %
Multiracial, Native American, Native Hawaiian, and Pacific Islander	3 %

Approximately 60% of our employees are represented by various unions pursuant to nearly 450 collective bargaining agreements between our individual subsidiaries or trade associations and local unions, as well as two collective bargaining agreements that are national or regional in scope. We believe that our relations with our labor unions are generally positive.

Our ability to execute complex projects for our customers, and to perform all of our services with the excellence that makes us an industry leader, depends on our success in attracting and retaining skilled labor in a competitive market. We therefore strive to be and remain an employer of choice for the most talented employees in each of the industries and markets in which we operate. This begins with offering competitive employee compensation and benefits packages, specifically designed to meet the unique needs of each individual in our organization, which include:

- *Health and Welfare Plans:* All full-time employees who do not participate in union plans are offered a range of choices among medical, dental and vision plans, life, accident, dependent and disability insurance, and pre-tax health spending accounts that include employer contributions.
- *Retirement Savings:* We help provide our employees with financial security by offering a 401(k) Savings Plan and an Employee Stock Purchase Plan, both of which include company matching contributions.
- *Degree Assistance:* Eligible employees may apply for reimbursement for job-related courses or courses taken as part of a curriculum for a business or job-related degree at an accredited institution.
- *Employee Assistance Program:* Through our Employee Assistance Program, we offer our employees, and their dependents or household members, access to services and counseling on a variety of personal, professional, legal, and financial matters, at no cost.

Key to our attraction and retention of employees is our commitment to our EMCOR Values and our focus on employee safety and diversity, equity, and inclusion. Our Board of Directors and senior leadership engage in oversight and management, respectively, of our significant human capital initiatives. Our Board of Directors is regularly briefed and provides input on key human capital initiatives and metrics.

Commitment to Core Values

We are committed to our EMCOR Values of Mission First: *Integrity, Discipline, and Transparency* and People Always: *Mutual Respect and Trust, Commitment to Safety, and Teamwork*. We constantly strive to ensure these values are reflected in how we do business every day, from our corporate culture and “tone at the top,” established by our Board of Directors and management team, to the critical work performed by all of our people at every level throughout our organization. We reinforce our EMCOR Values through many ongoing initiatives. Our EMCOR Values are embodied in our policies and procedures, including our Code of Business Ethics and Conduct. We also regularly provide training on these values, both at time of hire and on an ongoing, periodic basis. In addition, to develop and reinforce our values company-wide, and empower our leaders to perform at the highest levels, senior leaders are invited to our Leadership for Results course at Babson College and our Leading with Character program at the Thayer Leadership Development Group at West Point.

Workplace Safety

We believe that our focus on employee safety and well-being is reflected in our results. In a year in which our employees worked a total of approximately 76 million hours, the second highest in our history, the Company’s Total Recordable Incident Rate in 2021 was approximately 1.06, which was more than 60% lower than the most recently available industry average of 2.70. This represents our thirteenth consecutive year with a Total Recordable Incident Rate which was less than half the industry average. Our position as an industry leader in safety begins with a strong culture of care and vigilance embodied in our EMCOR Values and is supported by a comprehensive suite of training, resources, and analytics. These include: (a) our signature Be There for Life! Zero Injuries Program and Be Vigilant! Campaign, (b) incident and injury prevention planning, including in-person and online training tools, adoption of new technology, and best practice guides available through our company intranet, (c) enterprise level reporting and analysis of leading and lagging indicators, (d) a 24-hour incident reporting hotline, and (e) a company-wide program to share and champion best safety practices across our range of businesses.

Diversity, Equity, and Inclusion

We believe that a diverse workforce is important to the long-term success of our business. We actively seek to increase the diversity of our workforce and to practice our commitment to diversity and inclusion in hiring, development, and training. This extends to our senior leadership and Board of Directors, where we require that any slate of candidates for a named executive officer or other corporate officer position, and new management-supported director nominees, include individuals from underrepresented demographics. We have also designed and implemented policies and practices to promote a workplace free from discrimination, including our Affirmative Action and Equal Opportunity Policy, the implementation, effectiveness, and reporting requirements of which are overseen by our designated Affirmative Action Officer.

We strive to help all our employees realize their full potential with an equal opportunity to succeed. We work to unlock the full potential of all employees at every level through: (a) the EMCOR Manager Certificate Program, which promotes supervisory management skills, (b) our Degree Assistance Program, which provides tuition reimbursement for continuing education, and (c) the resources available to all employees on our online learning platform, the EMCOR Learning Center, which includes thousands of on-demand training courses on a wide range of topics.

In furtherance of our EMCOR Values, all EMCOR employees are required to complete diversity & inclusion training, and our current and future leaders undergo implicit association and unconscious bias training.

Available Information

We file annual, quarterly and current reports, proxy statements and other information with the SEC. These filings are available to the public over the internet at the SEC's website at <http://www.sec.gov>.

Our Internet address is www.emcorgroup.com. We make available, free of charge, through www.emcorgroup.com our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports, as soon as reasonably practicable after we electronically file such material with, or furnish it to, the SEC. References to our website addressed in this report are provided as a convenience and do not constitute, and should not be viewed as, an incorporation by reference of the information contained on, or available through, the website. Therefore, such information should not be considered part of this report.

Our Board of Directors has an audit committee, a compensation and personnel committee, and a nominating and corporate governance committee. Each of these committees has a formal charter. We also have Corporate Governance Guidelines, which include guidelines regarding related party transactions, a Code of Ethics for our Chief Executive Officer and Senior Financial Officers, and a Code of Ethics and Business Conduct for Directors, Officers, and Employees. Copies of these charters, guidelines and codes, and any waivers or amendments to such codes which are applicable to our executive officers, senior financial officers, or directors, can be obtained free of charge on our website, www.emcorgroup.com.

You may request a copy of the foregoing filings (excluding exhibits), charters, guidelines and codes, and any waivers or amendments to such codes which are applicable to our executive officers, senior financial officers, or directors, at no cost by writing to us at EMCOR Group, Inc., 301 Merritt Seven, Norwalk, CT 06851-1092, Attention: Corporate Secretary, or by telephoning us at (203) 849-7800.

ITEM 1A. RISK FACTORS

Our business is subject to a variety of risks, including the risks described below as well as adverse business and market conditions and risks associated with our operations. The risks and uncertainties described below are not the only ones facing us. Additional risks and uncertainties not known to us or not described below, which we have not determined to be material, may also impair our business operations. You should carefully consider the risks described below, together with all other information in this report, including information contained in the “Business,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” and “Quantitative and Qualitative Disclosures about Market Risk” sections. If any of the following risks actually occur, our business, financial position, results of operations, and/or cash flows could be adversely affected, and we may not be able to achieve our goals. Such events may cause actual results to differ materially from expected and historical results, and the trading price of our common stock could decline.

Economic and Strategic Risk Factors

Economic downturns have historically led to reductions in demand for our services. Negative conditions in the credit markets, including rising interest rates, may adversely impact our ability to operate our business. The level of demand from our clients for our services has been, in the past, adversely impacted by slowdowns in the industries we service, as well as in the economy in general. When the general level of economic activity has been reduced from historical levels, certain of our ultimate customers have delayed or canceled projects or capital spending, especially with respect to more profitable private sector work, and such slowdowns adversely affect our ability to grow, reducing our revenues and profitability. A number of economic factors, including financing conditions, the prices of commodities, and energy prices, have, in the past, adversely affected the industries we serve and our ultimate customers’ ability or willingness to fund expenditures. General concerns about the fundamental soundness of domestic and foreign economies may also cause ultimate customers to defer projects even if they have credit available to them. A prolonged stagnation or weakening in financial and macroeconomic conditions, including as a result of the COVID-19 pandemic, could therefore have a significant adverse effect on our revenues and profitability.

Many of our clients depend on the availability of credit to help finance their capital and maintenance projects. At times, tightened availability of credit or increased interest rates have negatively impacted the ability of existing and prospective ultimate customers to fund projects we might otherwise perform, particularly those in the more profitable private sector. As a result, our ultimate customers may defer such projects for an unknown, and perhaps lengthy, period. Any such deferrals would inhibit our growth and would adversely affect our results of operations.

In a weak economic environment, particularly in a period of restrictive credit markets, we may experience greater difficulties in collecting payments from, and negotiating change orders and/or claims with, our clients due to, among other reasons, a diminution in our ultimate customers’ access to the credit markets or potential bankruptcies. If clients delay in paying or fail to pay a significant amount of our outstanding receivables, or we fail to successfully negotiate a significant portion of our change orders and/or claims with clients, it could have an adverse effect on our liquidity, results of operations, and financial position.

Our business has traditionally lagged recoveries in the general economy and, therefore, after an economic downturn we may not recover as quickly as the economy at large.

Certain of our businesses, including those within our United States industrial services segment, are exposed to risks associated with the oil and gas industry. These risks, which are not subject to our control, include volatility in the price and production of crude oil, the development of and consumer demand for alternative energy sources, including as a result of a change in consumer preference, or in an effort to reduce greenhouse gas emissions or combat climate change, and legislative and regulatory actions. Specifically, lower prices and production volumes, or perceived risk thereof, typically results in the curtailment or deferral of spending by our customers. In addition, macroeconomic conditions, influenced by a variety of events and circumstances, can also affect customer demand for our services within these businesses. For example, during 2020, the escalation of geopolitical tensions between the Organization of Petroleum Exporting Countries (OPEC) and Russia contributed to a significant drop in the price of crude oil, impacting customers in the energy sector and the demand for certain of our services. Continued unfavorable conditions within these markets, including the impact of sustained lower demand for refined products as a result of the COVID-19 pandemic, could further negatively impact our financial position, results of operations, and cash flows.

Our business is vulnerable to the cyclical nature of the markets in which our clients operate and is dependent upon the timing and funding of new awards. We provide construction and maintenance services to ultimate customers operating in a number of markets which have been, and we expect will continue to be, cyclical and subject to significant fluctuations due to a variety of factors beyond our control, including economic conditions and changes in client spending.

Regardless of economic or market conditions, investment decisions by our ultimate customers may vary by location or as a result of other factors like the availability of labor, relative construction costs, or competitive conditions in their industries. Because we are dependent on the timing and funding of new awards, we are therefore vulnerable to changes in our clients' markets and investment decisions.

Our business may be adversely affected by significant reductions in government spending or delays or disruptions in the government appropriations process. Some of our businesses derive a significant portion of their revenues from federal, state, and local governmental agencies. As a result, reduced or delayed spending by the federal government and/or state and local governments may have a material and adverse impact on our business, financial condition, results of operations, and cash flows. Significant reductions in spending aimed at reducing federal, state, or local budget deficits, the absence of a bipartisan agreement on the federal government's budget, renewed focus on budget deficits following recent increases in government spending in response to the COVID-19 pandemic, personnel reductions, the closure of government facilities and offices, or other changes in budget priorities could result in the deferral, delay, disruption, or cancellation of projects or contracts that we might otherwise have sought to perform. These potential events could impact the level of demand for our services and our ability to execute, complete, and receive compensation for our current contracts, or bid for and enter into new contracts with governmental agencies.

An increase in the prices or availability of certain materials used in our businesses, including as a result of inflation, and protectionist trade measures could adversely affect our businesses. We are exposed to market risk of increases in certain commodity prices of materials, such as copper and steel, which are used as components of supplies or materials utilized in our operations. We are also exposed to increases in energy prices, particularly as they relate to gasoline prices for our fleet of approximately 12,000 vehicles. While we believe we can increase our prices to adjust for some price increases in commodities, there can be no assurance that price increases of commodities, if they were to occur, would be recoverable. Additionally, our fixed price contracts generally do not allow us to adjust our prices and, as a result, increases in material or fuel costs could reduce our profitability with respect to projects in progress. For example, during 2021, certain of our operations experienced declines in gross profit and gross profit margin as a result of supply chain disruptions, including long lead times for certain materials and equipment, as well as an escalation in material and fuel prices, and such supply chain disruptions and price escalations have continued into 2022. Fluctuations in energy prices as well as in commodity prices of materials, whether resulting from fluctuations in market supply or demand, or geopolitical conditions, including an increase in trade protection measures such as tariffs and the disruption, modification, or cancellation of multilateral trade agreements, may adversely affect our customers and as a result cause them to curtail the use of our services.

Business and Operational Risk Factors

The loss of one or a few customers could have an adverse effect on us. Although we have long-standing relationships with many of our significant customers, our customers may unilaterally reduce, fail to renew, or terminate their contracts with us at any time. A loss of business from a significant customer, or a number of significant customers, could have a material adverse effect on our business, financial position, and results of operations.

Our industry is highly competitive. Our industry is served by numerous small, owner-operated private companies, a few public companies, and several large regional companies. In addition, relatively few barriers exist to prevent entry into most of the industries in which we operate. As a result, any organization that has adequate financial resources, and access to technical expertise, may become a competitor. Competition in our industry depends on numerous factors, including price. Certain of our competitors have lower overhead cost structures and, therefore, are able to provide their services at lower rates than we are currently able to provide. Our project and service work is frequently awarded through a competitive bidding process, which is standard in our industry. We are constantly competing for contracts based on pricing, schedule, and technical expertise. Competition can place downward pressure on our contract prices and profit margins, which may make it difficult to win the project or force us to accept contractual terms and conditions that are less favorable to us, thereby increasing the risk that, among other things, we may not realize profit margins at the same rates we have seen in the past or may become responsible for costs or other liabilities we have not incurred in the past.

In addition, some of our competitors have greater resources than we do. We cannot be certain that our competitors will not develop the expertise, experience, and resources necessary to provide services that are superior in quality, and lower in price, to ours. Similarly, we cannot be certain that we will be able to maintain or enhance our competitive position within our industries, or maintain a customer base at current levels. We may also face competition from the in-house service organizations of existing or prospective customers, particularly with respect to building services. Many of our customers employ personnel who perform some of the same types of building services that we do. We cannot be certain that our existing or prospective customers will continue to outsource building services in the future. If we are unable to compete effectively, we may experience a loss of market share, reduced profitability, or both, which if significant, could have a material adverse effect on our business, financial condition, and results of operations. Refer also to "Business - Competition" in Item 1 of this Form 10-K.

We are a decentralized company, which presents certain risks. While we believe decentralization has enhanced our growth and enabled us to remain responsive to opportunities and to our customers' needs, it necessarily places significant control and decision-making powers in the hands of local management. This presents various risks, including the risk that we may be slower or less able to identify or react to external market conditions or problems affecting a key business than we would in a more centralized environment.

Our business may be affected by weather conditions. Adverse weather conditions, particularly during the winter season, could impact our construction services operations as those conditions affect our ability to perform efficient work outdoors in certain regions of the United States, adversely affecting the revenues and profitability of those operations. However, the absence of snow in certain regions of the United States during the winter could also cause us to experience reduced revenues and profitability in our United States building services segment, as a portion of their revenues is generated from snow removal contracts. In addition, cooler than normal temperatures during the summer months could reduce the need for our services, particularly in our businesses that install or service air conditioning units, and result in reduced revenues and profitability during the period that such unseasonal weather conditions persist.

Our business may be affected by the work environment. We perform our work under a variety of conditions, including but not limited to, difficult terrain, difficult site conditions, and busy urban centers where delivery of materials and availability of labor may be impacted, clean-room environments where strict procedures must be followed, and sites which contain harsh or hazardous conditions, especially at chemical plants, refineries and other process facilities. Performing work under these conditions can increase the cost of such work or negatively affect efficiency and, therefore, our profitability.

Our dependence upon fixed price contracts could adversely affect our business. We currently generate, and expect to continue to generate, a significant portion of our revenues from fixed price contracts. We must estimate the total costs of a particular project to bid for fixed price contracts. Cost and scheduling estimates are based on a number of assumptions, including those about future economic conditions, commodity and other materials pricing, cost and availability of labor, equipment, and materials, and supply chain efficiency, among other factors. The actual cost of labor and materials, however, may vary from the costs we originally estimated. These variations, along with other risks, inherent in the execution of projects subject to fixed price contracts, may cause actual gross profits from projects to differ from those we originally estimated and could result in reduced profitability or losses on projects. Depending upon the size of a particular project, variations from the estimated contract costs can have a significant impact on our operating results for any fiscal quarter or year.

We could incur additional costs to cover certain guarantees or other contractual requirements. In some instances, we guarantee completion of a project by a specific date or price, cost savings, achievement of certain performance standards, or performance of our services at a certain standard of quality. For other arrangements, including those within our government services operations, the terms of our contracts may include provisions which require us to achieve certain minority participation or small or disadvantaged business "set-aside" goals. Such requirements have become more frequent in recent years and we expect them to be increasingly prevalent, and more strictly enforced in the near future, especially under the current administration in Washington, D.C. If we subsequently fail to meet such guarantees, or comply with such provisions, we may be held responsible for costs resulting from such failures, including payment of penalties or liquidated or other damages. To the extent that any of these events occur, the total costs of a project could exceed the original estimated costs, and we would experience reduced profits or, in some cases, a loss.

Many of our contracts, especially our building and industrial services contracts, may be canceled or delayed on short notice, and we may be unsuccessful in replacing such contracts if they are canceled or as they are completed or expire. We could experience a decrease in revenues, net income, and liquidity if any of the following occur:

- customers cancel a significant number of contracts or delay services or projects;
- we fail to win a significant number of our existing contracts upon re-bid;
- we complete a significant number of non-recurring projects and cannot replace them with similar projects; or
- we fail to reduce operating and overhead expenses consistent with any decrease in our revenues.

Uncertainty surrounding the timing of contract awards, or project cancellations or delays, can also present difficulties in matching our workforce size with contract needs. In some cases, in anticipation of contract awards, we maintain and bear the cost of a ready workforce size that is larger than necessary under our existing contract portfolio. When a contract is canceled or delayed, or an anticipated contract award is not received, it may result in lower profitability as a result of labor underutilization, or additional costs resulting from reductions in staff, which could have a material adverse effect on our business, financial condition, and results of operations.

We may be unsuccessful in generating internal growth. Our ability to generate internal growth will be affected by, among other factors, our ability to:

- expand the range of services offered to customers to address their evolving needs;
- attract new customers; and
- retain and/or increase the number of projects performed for existing customers.

In addition, existing and potential customers may reduce the number or size of projects available to us because of general economic conditions or due to their inability to obtain capital or pay for services we provide. Many of the factors affecting our ability to generate internal growth are beyond our control, and we cannot be certain that our strategies will be successful or that we will be able to generate cash flow sufficient to fund our operations and to support internal growth. If we are not successful, we may not be able to achieve internal growth, expand operations, or grow our business.

Fluctuating foreign currency exchange rates impact our financial results. We have operations in the United Kingdom, which in 2021 accounted for approximately 5% of our revenues. Our reported financial position and results of operations are exposed to the effects (both positive and negative) that fluctuating exchange rates have on the process of translating the financial statements of our United Kingdom operations, which are denominated in local currencies, into the U.S. dollar. The factors that impact exchange rate fluctuation, including macroeconomic and geopolitical conditions, are outside the control of the Company.

As part of our risk management strategy, we are effectively self-insured against certain potential liabilities. Although we maintain insurance policies with respect to a broad range of risks, including automobile liability, general liability, workers' compensation, and employee-related healthcare, these policies do not cover all possible claims and certain of the policies are subject to large deductibles and retentions. In addition, we maintain a wholly-owned captive insurance subsidiary to manage certain of our insurance liabilities. Accordingly, we are effectively self-insured for a substantial number of actual and potential claims. Further, if any of our insurance carriers defaulted on its obligations to provide insurance coverage by reason of its insolvency or for other reasons, our exposure to claims would increase and our profits would be adversely affected. Our estimates for unpaid claims and expenses are based on known facts, historical trends, and industry averages, utilizing the assistance of an independent third-party actuary. The determination of such estimated liabilities and their appropriateness are reviewed and updated at least quarterly. However, these liabilities are difficult to assess and estimate due to many relevant factors, the effects of which are often unknown, including the severity of an injury or damage, the determination of liability in proportion to other parties, the timeliness of reported claims, the effectiveness of our risk management and safety programs, and the terms and conditions of our insurance policies. Our accruals are based upon known facts, historical trends and our reasonable estimate of future expenses, and we believe such accruals are adequate. However, unknown or changing trends, risks, or circumstances, such as increases in claims, a weakening economy, increases in medical costs, changes in case law or legislation, or changes in the nature of the work we perform, could render our current estimates and accruals inadequate. In such case, adjustments may be required to increase our insurance liabilities in the period that the experience becomes known.

External market conditions, including catastrophic losses resulting from an increase in severe weather events and the prolonged pandemic, among other factors, have resulted in an insurance market that is characterized by higher premiums, diminished capacity, and more conservative underwriting. If these market conditions persist, insurance carriers may be unwilling, in the future, to provide our current levels of coverage without a significant increase in insurance premiums, self-insured retention limits, or collateral requirements to cover our obligations to them. Increased collateral requirements may be in the form of additional letters of credit, surety bonds, and/or cash, and an increase in collateral requirements could significantly reduce our liquidity. If insurance premiums or self-insured retention limits increase, and/or if insurance claims are higher than our estimates, our profitability could be adversely affected.

Failure to provide our services in accordance with professional standards or contractual requirements could expose us to significant monetary damages. Our services often involve professional judgments regarding the planning, design, development, construction, or operations and management of complex facilities. Although we have adopted a range of insurance, risk management, and risk avoidance programs designed to reduce potential liabilities, a catastrophic event at one of our project sites or a completed project, resulting from the services we have performed, could result in significant professional or product liability and warranty or other claims against us, as well as reputational harm. These liabilities could exceed our insurance limits or impact our ability to obtain insurance in the future. Further, even where insurance coverage applies, such policies have limits and deductibles or retentions, which could result in our assumption of exposure for certain amounts with respect to any claim filed against us. In addition, customers or subcontractors who have agreed to indemnify us against any such liabilities or losses might refuse or be unable to uphold their obligations to us. An uninsured claim, either in part or in whole, as well as any claim covered by insurance but subject to a policy limit, high deductible and/or retention, could have a material adverse effect on our business, financial condition, and results of operations.

Our business strategy relies, in part, on acquisitions to sustain our growth, and these transactions present certain risk and uncertainties. As part of our growth strategy, we acquire companies that expand, complement, and/or diversify our businesses. However, there is no guarantee that we will be successful in identifying targets that meet our requirements for acquisition. We may also face increased competition from other potential acquirers who may have greater financial resources available to them or who may be in a position to offer more favorable terms to the target company. This competition may limit our ability to pursue acquisition opportunities. Additionally, circumstances beyond our control, such as the COVID-19 pandemic, has and may continue to hinder our ability to pursue and complete acquisitions. Further, realization of the anticipated benefits of an acquisition, and avoiding or mitigating the potential risks associated with an acquisition, will depend, among other things, upon our ability to: (a) effectively conduct due diligence to identify potential problems at companies we propose to acquire, (b) recognize incompatibilities or other obstacles to the successful integration of the acquired business with our other operations, and (c) gain greater efficiencies and scale that will translate into reduced costs or anticipated synergies in a timely manner. However, there can be no assurance that an acquisition we may make in the future will provide the benefits anticipated when entering into the transaction. Acquisitions we have completed, and future acquisitions we may make, could expose us to operational challenges and risks, including the diversion of management's attention from our existing businesses, the failure to retain key personnel or customers of the acquired business, and the assumption of unknown liabilities of the acquired business for which there are inadequate reserves. Our ability to sustain our growth and maintain our competitive position may be affected by our ability to identify and acquire desirable businesses and successfully integrate any acquired business.

In addition, while we work to rapidly implement or maintain internal controls and financial reporting standards and procedures in the businesses we acquire, including integrating such acquired businesses into our consolidated financial reporting systems and controls, we cannot be certain that such implementation and integration will be quickly and effectively completed. Our internal control processes and procedures with respect to such businesses may need to be adjusted or enhanced in order to ensure that such businesses are in compliance with the regulations we are subject to as well as our internal policies and standards. Such changes could result in significant additional costs to us and could require the diversion of management's attention from our existing businesses or other strategic initiatives.

Amounts included in our remaining performance obligations may not result in actual revenues or translate into profits. Many contracts are subject to cancellation or suspension on short notice at the discretion of the client, and the contracts in our remaining performance obligations are subject to changes in the scope of services to be provided as well as adjustments to the costs relating to the contract. The risk of contracts included in our remaining performance obligations being delayed or canceled generally increases during economic slowdowns or in response to significant fluctuations in commodity prices. Accordingly, there is no assurance that revenue from remaining performance obligations will actually be realized. If our remaining performance obligations fail to materialize, we could experience a decline in profitability, which could result in a deterioration of our financial position and liquidity.

We recognize revenue for the majority of our construction projects based on estimates; therefore, variations of actual results from our assumptions may reduce our profitability. As discussed in further detail in the "Critical Accounting Policies and Estimates" section included in Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations, revenue is recognized as performance obligations are satisfied and earnings or losses recognized on individual contracts are based on estimates of contract price, costs, and profitability. Changes in estimates of transaction prices as well as estimated costs are recognized on a cumulative catch-up basis in the period in which the revisions to the estimates are made. Consequently, changes in estimates, or variations of actual results from previous projections, on an unusually large project, or on a number of average size projects, could be material and could have an adverse impact on our financial condition, results of operations, and cash flows.

We are increasingly dependent on sophisticated information technology systems; our business and results of operations are subject to adverse impacts due to disruption, failure, and cybersecurity breaches of these systems. We and our customers and third-party providers rely on information technology systems, hardware, and software to run critical accounting, project management, and financial information systems. We rely upon security measures, products, and services to attempt to secure our information technology systems and the confidential, proprietary, and sensitive information they contain. However, our information technology systems and those of our customers and third-party providers are subject to cyber-attacks, hacking, other intrusions, failure, and damage, which result in operational disruption and could result in information misappropriation, such as theft of intellectual property or inappropriate disclosure of customer data or confidential or personal information. On February 15, 2020, for example, we became aware of an infiltration and encryption of portions of our information technology network. This attack temporarily disrupted our use of the impacted systems. While we maintain insurance coverage for these types of incidents, such policies may not completely provide coverage for, or completely offset, the costs associated with such incidents. We are continuously developing and enhancing our controls, processes, and practices designed to protect our systems, computers, software, data, and networks from attack, damage, or unauthorized access. This continued development and enhancement requires us to expend additional resources. However, we may not anticipate or combat all types of potential disruptions or breaches. If any of these events were to occur, we could be required to expend additional capital and other

resources, including costs to deploy additional personnel and protection technologies, train employees, and engage third-party experts and consultants. Additionally, as many of our employees use our information technology systems to collaborate with colleagues in different geographic locations and periodically access our systems remotely, we may be subject to heightened security risks, including the risks of cyber-attacks.

The proper functioning of our information technology systems could also be impacted by other causes and circumstances beyond our control, including malware embedded in third party applications, the decision by software vendors to discontinue further development, integration, or long-term software maintenance support for our information systems, or hardware interruption, damage or disruption as a result of power outages, natural disasters, or computer network failures. Key business processes are subject to interruption to the extent that our information technology systems, or those of our customers or third-party providers, are disabled for a long period of time. Such operational disruptions and/or misappropriation or inappropriate disclosure of information could result in lost or reduced revenues, negative publicity, loss of customers or contracts, or business delays that could have a material adverse effect on our business, financial position, and results of operations.

In addition, new or evolving laws and regulations governing data privacy and the unauthorized disclosure of confidential information, including the European Union General Data Protection Regulation ("GDPR"), the California Consumer Privacy Act, and other emerging U.S. state privacy laws pose increasingly complex compliance challenges and could potentially elevate our compliance costs. Any failure to comply with these laws and regulations could result in significant penalties and legal liability, and increased costs in this area could have a negative impact on our financial condition, results of operations, and cash flow.

Financial Risk Factors

A material portion of our business depends on our ability to provide surety bonds. We may be unable to compete for or work on certain projects if we are not able to obtain the necessary surety bonds. Our construction contracts frequently require that we obtain from surety companies, and provide to our customers, payment and performance bonds as a condition to the award of such contracts. Such surety bonds secure our payment and performance obligations. Under standard terms in the surety market, surety companies issue bonds on a project-by-project basis and can decline to issue bonds at any time or require the posting of collateral as a condition to issuing any bonds. Current or future market conditions, as well as changes in our sureties' assessment of our or their own operating and financial risk, could cause our surety companies to decline to issue, or substantially reduce the amount of, bonds for our work or to increase our bonding costs. These actions can be taken on short notice. If our surety companies were to limit or eliminate our access to bonding, our alternatives would include seeking bonding capacity from other surety companies, increasing business with clients that do not require bonds, or posting other forms of collateral for project performance, such as letters of credit, parent company guarantees, or cash. We may be unable to secure these alternatives in a timely manner, on acceptable terms, or at all. Accordingly, if we were to experience an interruption or reduction in the availability of bonding, we may be unable to compete for or work on certain projects. Increases in the costs of surety bonds could also adversely impact our profitability.

Our results of operations could be adversely affected as a result of goodwill and identifiable intangible asset impairments. When we acquire a business, we record an asset called "goodwill" equal to the excess of the consideration transferred over the fair value of the net tangible and identifiable intangible assets acquired. Goodwill and indefinite-lived intangible assets are not amortized but instead evaluated for impairment annually, or more frequently if events or circumstances indicate that the carrying amount of the asset may be impaired. Impairment may result from a deterioration in macroeconomic conditions, declining financial performance, deterioration in the operational environment, or changes in the manner in which acquired assets are used. While no impairment was recognized during 2021, we recorded \$232.8 million of impairment charges during 2020 as a result of certain of these conditions. Significant judgment is required in determining whether goodwill and indefinite-lived intangible assets are impaired and assumptions utilized for purposes of our impairment testing may change in future periods. There can be no assurance that our estimates and assumptions will prove to be accurate predictions of the future. Significant adverse changes to external market conditions or our internal forecasts, if any, could result in future impairment charges. It is not possible at this time to determine if any future impairment charge will result or, if it does, whether such a charge would be material to our results of operations. For further discussion of our impairment testing, see Note 8 - Goodwill, Identifiable Intangible Assets, and Other Long-Lived Assets included in Item 8. Financial Statements and Supplementary Data.

Failure to maintain effective internal controls over financial reporting could adversely impact our ability to timely and accurately report financial results and comply with our reporting obligations, which could materially affect our business. Regardless of how internal financial reporting control systems are designed, implemented, and enforced, they cannot ensure with absolute certainty that our policy objectives will be met in every instance. Because of the inherent limitations of all such systems, our internal controls over financial reporting may not always prevent or detect misstatements. Failure to maintain effective internal control over financial reporting could adversely affect our ability to accurately and timely report financial results, to prevent or detect fraud, or to comply with the requirements of the SEC or the Sarbanes-Oxley Act of 2002, which could necessitate a restatement of our financial statements, and/or result in an investigation, or the imposition of sanctions, by

regulators. Such failure could additionally expose us to litigation and/or reputational harm, impair our ability to obtain financing, or increase the cost of any financing we obtain. All of these impacts could adversely affect the price of our common stock and our business overall.

Legal and Regulatory Risk Factors

We are subject to many laws and regulations in the jurisdictions in which we operate; changes to such laws and regulations may result in additional costs and impact our operations. We are committed to upholding the highest standards of corporate governance and legal and ethical compliance. We are subject to many laws and regulations, including various laws and regulations that apply specifically to U.S. public companies. These include the rules and regulations of the New York Stock Exchange, the Sarbanes-Oxley Act of 2002, and the Dodd-Frank Wall Street Reform and Consumer Protection Act, as well as the various regulations, standards, and guidance put forth by the SEC and other governmental agencies to implement and enforce those laws. New laws, rules, and regulations, or changes to existing laws or their interpretations, could create added legal and compliance costs and uncertainty for us. In addition, our United Kingdom operations are subject to laws and regulations that are in some cases different from those of the United States, including labor laws such as the U.K. Modern Slavery Act and laws and regulations governing information collected from employees, customers and others, specifically the GDPR. These laws and regulations could increase the cost and complexity of doing business in the U.K. and negatively impact our financial position and results of operations. Our efforts to comply with evolving laws, regulations, and reporting standards may increase our general and administrative expenses, divert management time and attention, or limit our operational flexibility, all of which could have a material adverse effect on our business, financial position, and results of operations. Many of our non-public competitors and competitors operating solely in the U.S. are not subject to these laws and regulations and the related costs and expenses of compliance.

Our failure to comply with environmental laws could result in significant liabilities. Our operations are subject to various laws, including environmental laws and regulations, among which many deal with the handling and disposal of asbestos and other hazardous or universal waste products, polychlorinated biphenyls (PCBs), per- and polyfluoroalkyl substances (PFAS) and fuel storage. A violation of such laws and regulations, or a release of such substances, has and may in the future, expose us to various claims, including claims by third parties, as well as remediation costs and fines. We own and lease many facilities. Some of these facilities contain hazardous materials, such as lead and asbestos, and fuel storage tanks, which may be above or below ground. If these tanks were to leak, we could be responsible for the cost of remediation as well as potential fines. As a part of our business, we also install fuel storage tanks and are sometimes required to deal with hazardous materials, all of which may expose us to environmental liability.

In addition, new laws and regulations, stricter enforcement of existing laws and regulations, the discovery of previously unknown contamination or leaks, exposure to or the release of materials subsequently identified as hazardous by a governmental authority, the imposition of new clean-up requirements, or the exposure of our employees or other contractors to hazardous materials, could require us to incur significant costs or become the basis for new or increased liabilities that could harm our financial position and results of operations, although certain of these costs might be covered by insurance. In some instances, we have obtained indemnification or covenants from third parties (including predecessors or lessors) for such clean-up and other obligations and liabilities, and we believe such indemnities and covenants are adequate to cover such obligations and liabilities. However, such third-party indemnities or covenants may not cover all of such costs or third-party indemnitors may default on their obligations. In addition, unanticipated obligations or liabilities, or future obligations and liabilities, may have a material adverse effect on our business operations. Further, we cannot be certain that we will be able to identify, or be indemnified for, all potential environmental liabilities relating to any acquired business.

Adverse resolution of litigation and other legal and regulatory proceedings may harm our operating results or financial position. From time to time, we are a party to lawsuits and other legal proceedings, most of which occur in the normal course of our business. These actions and proceedings may involve actual or threatened claims by customers, employees, or other third parties for, among other things, compensation or indemnification for alleged personal injury, workers' compensation, employment discrimination, breach of contract, property damage, or other general commercial disputes. In addition, we have been, and may in the future be, subject to class action claims alleging violations of the Fair Labor Standards Act and state wage and hour laws. Litigation and other legal proceedings can be expensive, lengthy, and disruptive to normal business operations, and their outcome is inherently uncertain and difficult to accurately predict or quantify. In addition, plaintiffs in many types of actions may seek punitive damages, civil penalties, consequential damages or other losses, or injunctive or declaratory relief. An unfavorable resolution of a particular legal proceeding or claim, whether through a settlement, mediation, court judgment, or otherwise, could have a material adverse effect on our business, operating results, financial position, and cash flows, and in some cases, on our reputation or our ability to obtain projects from customers, including governmental entities. See Item 3. Legal Proceedings and Note 15 - Commitments and Contingencies of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data, for more information regarding any significant legal proceedings in which we are involved.

We may incur liabilities or suffer negative financial impacts relating to occupational, health, and safety matters. Our operations are subject to extensive laws and regulations relating to the maintenance of safe conditions in the workplace. While we have invested, and will continue to invest, substantial resources in our robust occupational, health, and safety programs, many of our businesses involve a high degree of operational risk, and there can be no assurance that we will avoid significant exposure. These hazards can cause personal injury and loss of life, severe damage to or destruction of property and equipment, and other consequential damages, and could lead to suspension of operations, large damage claims, an increase in employee turnover, and, in extreme cases, criminal liability. Any of the foregoing could result in financial losses or reputational harm, which could have a material adverse impact on our business, financial condition, and results of operations.

Our customers seek to minimize safety risks on their sites and they frequently review the safety records of contractors during the bidding process. Accordingly, if our safety record were to substantially deteriorate over time, we might become ineligible to bid on certain work and our customers could cancel our contracts and/or not award us future business.

Our failure to comply with anti-bribery statutes such as the Foreign Corrupt Practices Act and the U.K. Bribery Act of 2010 could result in fines, criminal penalties, and other sanctions that could have an adverse effect on our business. The U.S. Foreign Corrupt Practices Act (the “FCPA”), the U.K. Bribery Act of 2010 (the “Bribery Act”), and similar anti-bribery laws in other jurisdictions generally prohibit companies and their intermediaries from making improper payments to foreign officials for the purpose of obtaining or retaining business or securing an improper advantage. From time to time, we conduct a limited amount of business in a few countries that have experienced corruption to some degree. Our policies require that all of our employees, subcontractors, vendors, and agents worldwide must comply with applicable anti-bribery laws. However, there is no assurance that our policies and procedures to ensure compliance with the FCPA, the Bribery Act, and similar anti-bribery laws, will eliminate the possibility of liability under such laws for actions taken by our employees, agents, and intermediaries. If we were found to be liable for violations under the FCPA, the Bribery Act, or similar anti-bribery laws, either due to our own acts or omissions or due to the acts or omissions of others, we could incur substantial legal expenses and suffer civil and criminal penalties or other sanctions, which could have a material adverse effect on our business, financial condition, and results of operations, as well as our reputation. In addition, whether or not such expenses, penalties, or sanctions are actually incurred, the actual or alleged violation of the FCPA, the Bribery Act, or any similar anti-bribery laws could have a negative impact on our reputation.

Opportunities within the government sector could lead to increased governmental rules and regulations applicable to us. As a government contractor, we are subject to a number of procurement rules and other regulations, any deemed violation of which could lead to fines or penalties or a loss of business. Government agencies routinely audit and investigate government contractors. Government agencies may review a contractor’s performance under its contracts, cost structure, and compliance with applicable laws, regulations, and standards. If government agencies determine through these audits or reviews that costs are improperly allocated to specific contracts, they will not reimburse the contractor for those costs or may require the contractor to refund previously reimbursed costs. If government agencies determine that we are engaged in improper activity, we may be subject to civil and criminal penalties and debarment or suspension from doing business with the government. Government contracts are also subject to renegotiation of terms by the government, termination by the government prior to the expiration of the term, and non-renewal by the government.

Human Capital and Labor Risk Factors

The departure of key personnel could disrupt our business. We depend on the continued efforts of our senior management. The loss of key personnel, including a temporary loss as a result of illness, or the inability to hire and retain qualified executives, could negatively impact our ability to manage our business.

We may be unable to attract and retain skilled employees. Our ability to grow and maintain productivity and profitability will be limited by our ability to employ, train, and retain skilled personnel necessary to meet our requirements. We are dependent upon a workforce of approximately 34,000 employees, including our project managers and field supervisors who are responsible for managing our projects, and there can be no assurance that any individual will continue in his or her capacity for any particular period of time. The loss of such qualified employees could have an adverse effect on our business. We cannot be certain that we will be able to maintain an adequate skilled labor force necessary to operate efficiently and to support our business strategy or that labor expenses will not increase as a result of a shortage in the supply of these skilled personnel. The availability and costs to adequately train and maintain a skilled labor force could be impacted by factors we cannot control, including changes in the unemployment rate, prevailing wage rates, benefit costs, the COVID-19 pandemic, and competition for labor from our competitors in the markets we serve. Labor shortages or increased labor costs could impair our ability to provide services to our customers, maintain our business, or grow our revenues.

Our unionized workforce could adversely affect our operations; our participation in many multiemployer pension plans could result in substantial liabilities being incurred. As of December 31, 2021, approximately 60% of our employees were covered by collective bargaining agreements. Although the majority of these agreements prohibit strikes and work stoppages, we cannot be certain that strikes or work stoppages will not occur in the future. However, only two of our collective bargaining agreements are national or regional in scope, and not all of our collective bargaining agreements expire at the same time. Strikes or work stoppages likely would adversely impact our relationships with our customers and could have a material adverse effect on our financial position, results of operations, and cash flows. We contribute to approximately 200 multiemployer pension plans. Under the Employee Retirement Income Security Act, we may become liable for our proportionate share of a multiemployer pension plan's underfunding if we cease to contribute to that pension plan or significantly reduce the employees in respect of which we make contributions to that pension plan. Our potential liability for unfunded liabilities could be material. See Note 14 - Retirement Plans of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data for additional information regarding multiemployer pension plans.

Risk Factors Related to the Ownership of our Common Stock

Certain provisions of our corporate governance documents could make an acquisition of us, or a substantial interest in us, more difficult. The following provisions of our certificate of incorporation and by-laws, as currently in effect, as well as Delaware law, could discourage potential proposals to acquire us, delay or prevent a change in control of us, or limit the price that investors may be willing to pay in the future for shares of our common stock:

- our certificate of incorporation permits our board of directors to issue “blank check” preferred stock and to adopt amendments to our by-laws;
- our by-laws contain restrictions regarding the right of our stockholders to nominate directors and to submit proposals to be considered at stockholder meetings;
- our certificate of incorporation and by-laws limit the right of our stockholders to call a special meeting of stockholders and to act by written consent; and
- we are subject to provisions of Delaware law, which prohibit us from engaging in any of a broad range of business transactions with an “interested stockholder” for a period of three years following the date such stockholder becomes classified as an interested stockholder.

Climate Change Related Risk Factors

Climate change and related environmental issues could have a material adverse impact on our business, financial condition, and results of operations. Climate change related events, such as increased frequency and severity of storms, floods, wildfires, droughts, hurricanes, freezing conditions, and other natural disasters, may have an adverse impact on our business, financial condition, and results of operation. While we have invested in programs to mitigate the risk that these events disrupt our ability to serve our customers, these events pose inherent risks regardless of where or how we conduct our business. For example, severe weather or a catastrophic natural disaster could negatively impact our and our customers' offices, facilities, or job sites. Access to clean water and reliable energy where we conduct our business is also critical to our operations. Accordingly, severe weather events or natural disasters have the potential to disrupt our and our customers' businesses and may cause us to experience work stoppages, project delays or cancellations, financial losses, and additional costs to resume operations, in addition to potential adverse impacts on the health and safety of our workforce and their ability to work or travel. Further, climate change poses direct physical risks to infrastructure across the industry sectors we serve, both as a result of chronic environmental changes, such as rising sea levels and temperatures, as well as acute events, such as hurricanes, droughts, and wildfires. These impacts and the costs to address them could result in fewer resources for strategic investment by our customers, which could result in a decrease in demand for certain of our services. Any of these events could have a material adverse impact on our business, financial condition, and results of operations.

We may be affected by market or regulatory responses to climate change. Growing public concern about climate change has resulted in the increased focus of local, state, regional, national, and international regulatory bodies on greenhouse gas (“GHG”) emissions and climate change issues. Legislation to regulate GHG emissions has periodically been introduced in the U.S. Congress, and there has been a wide-ranging policy debate, both in the United States and internationally, regarding the impact of these gases and possible means for their regulation. The Biden Administration has made climate change and the limitation of GHG emissions one of its primary objectives, including a renewed commitment to the Paris Agreement and a Nationally Determined Contribution under such agreement that aims to reduce U.S. emissions by 50-52%, compared to a 2005 baseline, by 2030. Several states and geographic regions in the United States have also adopted legislation and regulations to reduce emissions of GHGs. Additional legislation or regulation by these states and regions, the federal government, and/or any international agreements to which the United States may become a party, that control or limit GHG emissions, or otherwise seek to address climate change, could result in increased compliance costs for us and our clients or have other impacts on our

clients, including those who are involved in the exploration, production, or refining of fossil fuels, or who emit greenhouse gases through the combustion of fossil fuels, or through the mining, manufacture, utilization, or production of materials or goods. Such policy changes could increase the costs of projects for our clients or, in some cases, prevent a project from going forward, thereby potentially reducing the need for certain of our services, which could in turn have a material adverse effect on our business, financial condition, and results of operations. However, policy changes and climate legislation could also increase the overall demand for our services as our clients and partners work to comply with these policies, such as by decarbonizing their industries, transitioning from fossil fuels to renewable energy sources, reducing their energy consumption, and developing integrated and sustainable solutions, all of which could have a positive impact on our business. We cannot predict with certainty what the effect of such regulation may be on us or our customers.

We may be unable to achieve our current or future climate commitments and targets, or we may incur substantial costs in meeting such targets. To help mitigate the impacts of GHG emissions on climate change, EMCOR has established initial carbon-based fuel consumption and GHG emission reduction targets. However, achievement of such targets, or similar targets that may be established in the future, is subject to risks and uncertainties, many of which are outside of our control. These risks and uncertainties include, but are not limited to: (a) our ability to execute our operational strategies and achieve our goals within the currently projected costs and the expected timeframes; (b) the availability and cost of alternative fuels, electrical charging infrastructure, off-site renewable energy, and other materials and components; (c) unforeseen design, operational, and technological difficulties; (d) the outcome of research efforts and future technology developments, including the availability of alternate or more fuel efficient vehicles for our fleet, including hybrid or electric vehicles; (e) regulations and requirements that restrict or prohibit our ability to impose requirements on third party contractors; (f) an acquisition of or merger with another company that has not adopted similar targets and goals or whose progress towards reaching its goals is not as advanced as ours; and (g) the pace of recovery from the COVID-19 pandemic, which could result in fluctuations in our fuel consumption and GHG emissions in a given period. In addition, we could be required to expend amounts in future periods as we continue to work towards achieving our targets, which may have a material effect on our business, financial condition, results of operations, or liquidity.

General Risk Factors

Public health emergencies, epidemics, or pandemics, including the COVID-19 pandemic, impact our business. The impact of the global spread of COVID-19, and the responses of governments, businesses, and individuals to combat it, have caused significant volatility, uncertainty, and economic disruption, which has and may continue to adversely impact our operations and those of our customers. Government authorities in the United States and United Kingdom have at various times recommended or imposed certain social distancing, quarantine, and isolation measures to varying degrees, with many such measures impacting large portions of the population. These measures have included limitations on travel and mandatory cessation of certain business activities, some of which have been relaxed or adjusted and others of which remain in effect. Both the outbreak and the containment and mitigation measures resulted in serious adverse impacts on the economy, some of which are ongoing, and both the severity and duration of those impacts and the extent and pace of economic recovery continue to remain uncertain.

Our workforce and ongoing operations have been, are, and may continue to be impacted by the COVID-19 pandemic. For example, we have experienced disruptions that have impacted our ability to perform our work. Such impacts include, but are not limited to, access restrictions and temporary job site shutdowns, reduced labor efficiency resulting from adherence to physical distancing, quarantine, and isolation requirements due to illness or exposure to an infected person, and other enhanced safety protocols mandated at the majority of our worksite locations, and the deferral of maintenance and service projects by our customers. The extent to which the COVID-19 pandemic will continue to impact our business and results of operations remains highly uncertain and will be affected by a number of factors. These include the duration and extent of the pandemic; the potential for additional variants of the virus that are more virulent, contagious, or against which current vaccines are less effective; the duration and extent of containment and mitigation measures that continue to be imposed or recommended; the widespread adoption and long-term efficacy of vaccines and the availability and efficacy of other treatments; the cost and/or disruption of testing that may be required of our employees either by customer requirements or government mandates; the continued impact of the pandemic on economic activity, including on planning and funding for construction projects and our customers' demand for our services; supply chain disruptions or commodity price volatility that could impact our and our vendors' ability to source the supplies and materials needed to operate our business; our ability to effectively operate, including as a result of travel restrictions and mandatory business and facility closures; the ability of our customers to pay us for services rendered; any further closures of our and our customers' offices and facilities; and any additional project delays or shutdowns. Customers may also continue to delay decision-making, delay planned work, or seek to terminate existing agreements. Any of these events could have a material adverse effect on our business, financial condition, results of operations, and/or stock price.

While the emergency temporary standard requiring employers with 100 or more employees to ensure their workforce is fully vaccinated or to require unvaccinated workers to produce a negative test result on at least a weekly basis (the “ETS”) has been withdrawn by the Occupational Safety and Health Administration (“OSHA”), and Executive Order 14042 mandating vaccination for all federal contractors and subcontractors is currently stayed by the courts, it is unclear whether OSHA or another federal agency will mandate vaccination and/or testing. Costs related to any mandatory testing, including both the costs of tests and the costs to compensate employees for the time to undergo such testing, will likely represent a substantial expense to the Company, which could have a material adverse effect on our business, financial condition, and/or results of operations to the extent that a significant portion of our workforce does not choose to become vaccinated.

On January 10, 2022, the Biden Administration announced that it would require insurance companies and group health plans to cover the cost of at-home COVID-19 tests. As we are self-insured for employee-related healthcare claims, this new requirement could result in an additional expense for the Company. It is not possible at this time to determine the impact of this new requirement or whether it could have a material adverse effect on our financial condition and/or results of operations.

Additionally, as many of our employees periodically access our systems remotely, in part as a result of the COVID-19 pandemic and the potential business or facility closures or reduced or staggered in-person attendance, we may be subject to heightened security risks, including the risks of cyber-attacks. Further, if any of our key personnel are unable to perform their duties for a period of time, including as a result of illness, our results of operations could be adversely affected.

Our business, financial condition, results of operations, and/or stock price could also be adversely affected in the future by the effects of another epidemic or pandemic, or otherwise by the spread of contagious diseases other than COVID-19. Such effects could be similar to those of the COVID-19 pandemic or could impact our business in different ways, including supply-chain disruptions, restrictions on our ability to provide services in the regions affected, adverse impacts on our workforce, and impacts to the U.S. or global economy or financial markets generally.

Terrorist attacks and other catastrophic events could disrupt our operations and services. Acts of terrorism and other catastrophic events, and the actions taken by the United States and/or other governments or actors in response to such events, may result in property damage, supply disruption, or economic dislocations throughout the country. Although it is not possible to predict such events or their consequences, these events could increase the volatility of our financial results due to decreased demand and unforeseen costs, with partial or no corresponding compensation from clients.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

We own a limited number of facilities; however, the majority of our operations are conducted at leased properties, which are located throughout the United States and United Kingdom. These properties consist of offices, warehouses, fabrication shops, and maintenance and cleaning facilities. We do not consider any one of these locations to be material to our operations. We believe that our facilities are well maintained, in good operating condition, and suitable for the purposes for which they are used.

See Note 16 - Leases of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data for additional information regarding our leases. We utilize substantially all of our leased or owned facilities and believe there will be no difficulty either in negotiating the renewal of such leases as they expire or in finding alternative space, if necessary.

ITEM 3. LEGAL PROCEEDINGS

We are involved in several legal proceedings in which damages and claims have been asserted against us. We believe that we have a number of valid defenses to such proceedings and claims and intend to vigorously defend ourselves. We do not believe that any such matters will have a material adverse effect on our financial position, results of operations, or liquidity. We record a loss contingency if the potential loss from a proceeding or claim is considered probable and the amount can be reasonably estimated or a range of loss can be determined. We provide disclosure when it is reasonably possible that a loss will be incurred in excess of any recorded provision. Significant judgment is required in these determinations. As additional information becomes available, we reassess prior determinations and may change our estimates. Additional claims may be asserted against us in the future. Litigation is subject to many uncertainties, and the outcome of litigation is not predictable with assurance. It is possible that a litigation matter for which liabilities have not been recorded could be decided unfavorably to us, and that any such unfavorable decision could have a material adverse effect on our financial position, results of operations, or liquidity.

ITEM 4. MINE SAFETY DISCLOSURES

Information concerning mine safety violations or other regulatory matters required by Section 1503(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 104 of Regulation S-K (17 CFR 229.104) is included in Exhibit 95.1 to this Form 10-K.

EXECUTIVE OFFICERS OF THE REGISTRANT

Anthony J. Guzzi, Age 57; President since October 2004, Chief Executive Officer since January 2011 and Chairman of the Board since June 2018. From October 2004 to January 2011, Mr. Guzzi served as Chief Operating Officer of the Company. From August 2001 until he joined the Company, Mr. Guzzi was President of the North American Distribution and Aftermarket Division of Carrier Corporation (“Carrier”). Carrier is a manufacturer and distributor of commercial and residential HVAC and refrigeration systems and equipment and a provider of aftermarket services and components of its own products and those of other manufacturers in both the HVAC and refrigeration industries.

Mark A. Pompa, Age 57; Executive Vice President and Chief Financial Officer of the Company since April 2006 and Treasurer of the Company from October 2019 to June 2020. From June 2003 to April 2006, Mr. Pompa was Senior Vice President-Chief Accounting Officer of the Company, and from June 2003 to January 2007, Mr. Pompa also served as Treasurer of the Company. From September 1994 to June 2003, Mr. Pompa was Vice President and Controller of the Company.

R. Kevin Matz, Age 63; Executive Vice President-Shared Services of the Company since December 2007 and Senior Vice President-Shared Services from June 2003 to December 2007. From April 1996 to June 2003, Mr. Matz served as Vice President and Treasurer of the Company and Staff Vice President-Financial Services of the Company from March 1993 to April 1996.

Maxine L. Mauricio, Age 50; General Counsel and Secretary of the Company since January 2016 and Executive Vice President since February 2021. Ms. Mauricio was a Senior Vice President of the Company from January 2016 to February 2021. From January 2012 to December 2015, Ms. Mauricio was Vice President and Deputy General Counsel of the Company, and from May 2002 to December 2011, she served as Assistant General Counsel of the Company. Prior to joining the Company, Ms. Mauricio was an associate at Ropes & Gray LLP.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Market Information. Our common stock trades on the New York Stock Exchange under the symbol "EME."

Holder. As of February 18, 2022, there were approximately 480 stockholders of record.

Dividends. We have paid quarterly dividends since October 25, 2011. We expect that such quarterly dividends will be paid for the foreseeable future. Prior to October 25, 2011, no cash dividends had been paid on the Company's common stock. We currently pay a regular quarterly dividend of \$0.13 per share. Our 2020 Credit Agreement places limitations on the payment of dividends on our common stock. However, we do not believe that the terms of such agreement currently materially limit our ability to pay a quarterly dividend of \$0.13 per share for the foreseeable future. See Note 9 - Debt of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data for further information regarding our 2020 Credit Agreement.

Purchase of Equity Securities by the Issuer and Affiliated Purchasers

The following table summarizes repurchases of our common stock made by us during the quarter ended December 31, 2021:

Period	Total Number of Shares Purchased ⁽¹⁾⁽²⁾	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares That May Yet be Purchased Under the Plan or Programs
October 1, 2021 to October 31, 2021	13,800	\$114.95	13,800	\$361,120,633
November 1, 2021 to November 30, 2021	47,466	\$120.06	47,466	\$355,421,942
December 1, 2021 to December 31, 2021	41,607	\$120.49	41,607	\$350,408,840
Total	<u>102,873</u>	\$119.55	<u>102,873</u>	

(1) In September 2011, our Board of Directors (the "Board") authorized a share repurchase program allowing us to begin repurchasing shares of our outstanding common stock. Subsequently, the Board has from time to time increased the amount of our common stock that we may repurchase under such program. Since the inception of the repurchase program, the Board has authorized us to repurchase up to \$1.45 billion of our outstanding common stock. As of December 31, 2021, there remained authorization for us to repurchase approximately \$350.4 million of our shares. No shares have been repurchased by us since the program was announced other than pursuant to such program. Refer to Note 12 - Common Stock of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data for further information regarding our share repurchase program.

(2) Excludes 1,518 shares surrendered to the Company by participants in our share-based compensation plans to satisfy minimum tax withholdings for common stock issued under such plans.

ITEM 6. [RESERVED]

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Business Description

We are one of the largest specialty contractors in the United States and a leading provider of electrical and mechanical construction and facilities services, building services, and industrial services. Our services are provided to a broad range of commercial, industrial, utility, and institutional customers through approximately 90 operating subsidiaries. Such operating subsidiaries are organized into the following reportable segments:

- United States electrical construction and facilities services;
- United States mechanical construction and facilities services;
- United States building services;
- United States industrial services; and
- United Kingdom building services.

For a more complete description of our operations, refer to Item 1. Business.

Our reportable segments reflect certain reclassifications of prior year amounts from our United States electrical construction and facilities services segment to our United States industrial services and our United States building services segments due to changes in our internal reporting structure aimed at realigning our service offerings. Consequently, we have included and updated the year-over-year discussion and analysis of results of operations for 2020 compared to 2019 to reflect these changes.

COVID-19 and Market Update

As a result of the COVID-19 pandemic, we experienced significant disruptions throughout calendar year 2020, which impacted our ability to execute on our remaining performance obligations in many of the markets in which we operate. The economic and operational impact of the pandemic, which were most acute during the second quarter of 2020, negatively affected our results of operations during such period and continued to impact portions of our business in 2021. However, our strong balance sheet and operational flexibility have allowed us to manage through the ongoing impacts of the pandemic while protecting our cash flow and liquidity.

Although the majority of our businesses have largely recovered from the financial impacts of the COVID-19 pandemic experienced in 2020, as evidenced by our consolidated performance and the growth in our remaining performance obligations, our United States industrial services segment continues to be negatively impacted by the lingering effects of the pandemic. The prolonged impacts of lower demand and the overall lagging recovery of the oil and gas market have resulted in customers of this segment canceling or deferring regularly scheduled maintenance projects, reducing capital spending, implementing various cost cutting measures, and closing certain of their facilities. Such customer actions continue to impact the demand for our service offerings within this segment.

We continue to monitor the short- and long-term impacts of the pandemic. While our employees and customers have adapted to a new work environment and there continues to be scientific, societal, and economic progress to address the effects of COVID-19, including the widespread availability of effective vaccines in the markets we serve, there remains significant uncertainty about the future impacts of the pandemic, or any resulting market disruption or volatility, including the potential effects on our operations. We continue to be cautiously optimistic about the markets in which we operate and the customers we serve; however, should there be a slowdown in economic activity due to surges in the number of cases, or an increase in variants of the virus that are more virulent, contagious, or against which current vaccines are less effective, it is possible that projects could be delayed or canceled or that we could experience access restrictions to our customers' facilities, preventing us from performing maintenance and service projects. The extent to which our business and results of operations are impacted in future periods will also depend upon a number of other factors. These include the duration and extent of the pandemic; limitations on the ability of our employees to perform their work due to illness caused by the pandemic or local, state, or federal orders requiring employees to quarantine; the cost and/or disruption of testing that may be required of our employees either by customer requirements or government mandates; the extent, duration, and effective execution of government stabilization and recovery efforts; the widespread adoption and long-term efficacy of vaccines and the availability and efficacy of other treatments; our customers' demand for our services; our ability to continue to safely and effectively operate in this environment; and the ability of our customers to pay us for services rendered.

While the emergency temporary standard requiring employers with 100 or more employees to ensure their workforce is fully vaccinated or to require unvaccinated workers to produce a negative test result on at least a weekly basis (the “ETS”) has been withdrawn by the Occupational Safety and Health Administration (“OSHA”), and Executive Order 14042 mandating vaccination for all federal contractors and subcontractors is currently stayed by the courts, it is unclear whether OSHA or another federal agency will mandate vaccination and/or testing. Costs related to any mandatory testing, including both the costs of tests and the costs to compensate employees for the time to undergo such testing, will likely represent a substantial expense to the Company, which could have a material adverse effect on our business, financial condition, and/or results of operations to the extent that a significant portion of our workforce does not choose to become vaccinated.

On January 10, 2022, the Biden Administration announced that it would require insurance companies and group health plans to cover the cost of at-home COVID-19 tests. As we are self-insured for employee-related healthcare claims, this new requirement could result in an additional expense for the Company. It is not possible at this time to determine the impact of this new requirement or whether it could have a material adverse effect on our financial condition and/or results of operations.

Supply chain disruptions, material shortages, or escalating commodity prices have and may continue to negatively impact our business. For example, we have experienced lead times significantly in excess of normal levels and have seen the effects of inflation through increases in commodity and material prices. Despite these challenges, to date, we have been able to manage our business through enhanced labor planning and project scheduling, increased pricing to the extent contractually permitted, and by leveraging our relationships with our suppliers and customers, resulting in only modest disruptions to our project and service work within the majority of our reportable segments. However, the impact of the COVID-19 pandemic on our vendors and the pricing and availability of materials or supplies utilized in our operations continues to evolve and may have an adverse impact on our operations in future periods. While we believe our remaining performance obligations are firm, customers may also slow decision-making, delay planned work, or seek to terminate existing agreements. Any of these events could have a material adverse effect on our business, financial condition, and/or results of operations.

2021 versus 2020

Overview

The following table presents selected financial data for the fiscal years ended December 31, 2021 and 2020 (in thousands, except percentages and per share data):

	2021	2020
Revenues	\$9,903,580	\$8,797,061
Revenues increase (decrease) from prior year	12.6 %	(4.1)%
Gross profit	\$1,501,737	\$1,395,382
Gross profit as a percentage of revenues	15.2 %	15.9 %
Impairment loss on goodwill, identifiable intangible assets, and other long-lived assets	\$ —	\$ 232,750
Operating income	\$ 530,800	\$ 256,834
Operating income as a percentage of revenues	5.4 %	2.9 %
Net income attributable to EMCOR Group, Inc.	\$ 383,532	\$ 132,943
Diluted earnings per common share	\$ 7.06	\$ 2.40

Revenues of \$9.90 billion for the year ended December 31, 2021 set a new annual record for the Company and represent an increase of 12.6% from revenues of \$8.80 billion for the year ended December 31, 2020. As described in further detail below, we experienced revenue growth within all of our reportable segments.

Operating income for 2021 was \$530.8 million, or 5.4% of revenues, compared to operating income of \$256.8 million, or 2.9% of revenues, in 2020. Our operating results for the year ended December 31, 2020 included \$232.8 million of non-cash impairment charges, which negatively impacted the Company’s operating margin for 2020 by approximately 270 basis points. Excluding the impact of such impairment charges on our 2020 results, operating income increased by \$41.2 million for the year ended December 31, 2021, as a result of increased operating income contribution from all of our reportable segments, except for our United States industrial services segment, which continues to be impacted by the effect of adverse market conditions on the demand for its service offerings, as described in further detail below.

Net income of \$383.5 million, or \$7.06 per diluted share, for the year ended December 31, 2021, compares favorably to net income of \$132.9 million, or \$2.40 per diluted share, for the year ended December 31, 2020. While such increases were largely attributable to the growth in operating income referenced above, net income and diluted earnings per common share for the year ended December 31, 2021 also benefited from a more normalized income tax rate, as our tax rate in the prior year was negatively impacted by the non-cash impairment charges recorded in 2020, the majority of which were non-deductible for tax purposes. Our diluted earnings per share for 2021 additionally benefited from a reduced weighted average share count given the impact of common stock repurchases made by us throughout 2020 and 2021.

Impact of Acquisitions

In order to provide a more meaningful period-over-period discussion of our operating results, we may discuss amounts generated or incurred (revenues, gross profit, selling, general and administrative expenses and operating income) from companies acquired. The amounts discussed reflect the acquired companies' operating results in the current reported period only for the time period these entities were not owned by EMCOR in the comparable prior reported period.

We acquired eight companies in 2021 for total consideration of \$131.2 million. Such acquisitions include: (a) two companies, the results of operations of which were de minimis, included within our United States mechanical construction and facilities services segment, consisting of: (i) a company that provides mechanical services within the Southern region of the United States and (ii) a company that provides fire protection services in the Midwestern region of the United States, (b) two companies that provide electrical construction services for a broad array of customers in the Midwestern region of the United States, the results of operations of which have been included in our United States electrical construction and facilities services segment, and (c) four companies included within our United States building services segment, consisting of: (i) a company that provides mobile mechanical services across North Texas and (ii) three companies, the results of operations of which were de minimis, that bolster our presence in geographies where we have existing operations and provide either mobile mechanical services or building automation and controls solutions.

We acquired three companies in 2020 for total consideration of \$50.3 million. Such acquisitions include: (a) a company that provides building automation and controls solutions within the Northeastern region of the United States, (b) a full service provider of mechanical services within the Washington, D.C. metro area, and (c) a company, the results of operations of which were de minimis, that provides mobile mechanical services in the Southern region of the United States. The results of operations for all three companies have been included within our United States building services segment.

Companies acquired in 2021 and 2020 generated incremental revenues of \$196.3 million and incremental operating income of \$4.0 million, inclusive of \$11.5 million of amortization expense associated with identifiable intangible assets, for the year ended December 31, 2021.

Discussion and Analysis of Results of Operations

Revenues

The following table presents our revenues for each of our operating segments and the approximate percentages that each segment's revenues were of total revenues for the years ended December 31, 2021 and 2020 (in thousands, except for percentages):

	<u>2021</u>	<u>% of Total</u>	<u>2020</u>	<u>% of Total</u>
Revenues from unrelated entities:				
United States electrical construction and facilities services	\$ 2,015,466	20 %	\$ 1,806,092	20 %
United States mechanical construction and facilities services	3,922,864	40 %	3,485,495	40 %
United States building services	2,468,892	25 %	2,134,016	24 %
United States industrial services	986,407	10 %	940,895	11 %
Total United States operations	<u>9,393,629</u>	<u>95 %</u>	<u>8,366,498</u>	<u>95 %</u>
United Kingdom building services	509,951	5 %	430,563	5 %
Total operations	<u>\$ 9,903,580</u>	<u>100 %</u>	<u>\$ 8,797,061</u>	<u>100 %</u>

As described in more detail below, revenues for the year ended December 31, 2021 increased to \$9.90 billion compared to \$8.80 billion for the year ended December 31, 2020. The increase in revenues for the year ended December 31, 2021 was attributable to revenue growth within all of our reportable segments. Companies acquired in 2021 and 2020 generated incremental revenues of \$196.3 million in 2021.

Revenues of our United States electrical construction and facilities services segment were \$2,015.5 million for the year ended December 31, 2021 compared to revenues of \$1,806.1 million for the year ended December 31, 2020. Excluding the impact of acquisitions, the increase in revenues of this segment for the year ended December 31, 2021 was primarily attributable to: (a) a resumption of project activity within certain major metropolitan areas, where work was previously postponed due to access restrictions caused by the various containment and mitigation measures mandated in the prior year by certain of our customers and/or governmental authorities in response to the COVID-19 pandemic, leading to: (i) an increase in commercial market sector revenues and (ii) greater short-duration project volumes in the current year, (b) an increase in public works projects in the Western region of the United States, resulting in greater revenue contribution from the institutional market sector, (c) revenue growth within the healthcare market sector, due to greater construction project activity in the Northeastern region of the United

States, and (d) an increase in telecommunication project activity within the commercial market sector. The results of this segment for the year ended December 31, 2021 included \$93.1 million of incremental revenues generated by companies acquired in 2021. The revenue increases referenced above were partially offset by a reduction in revenues within the manufacturing and transportation market sectors due to the completion or substantial completion of certain projects in the Northeastern and Western regions of the United States.

Our United States mechanical construction and facilities services segment revenues for the year ended December 31, 2021 were \$3,922.9 million, a \$437.4 million increase compared to revenues of \$3,485.5 million for the year ended December 31, 2020. The increase in this segment's revenues for the year ended December 31, 2021 was attributable to revenue growth within the majority of the market sectors in which we operate, including: (a) the commercial market sector, driven by: (i) the continued build-out of our customers' e-commerce supply chains, which has resulted in increased demand for our fire protection services within their warehousing and distribution facilities, (ii) continued growth in digital processing, cloud computing, and data storage, which has resulted in an increase in telecommunication construction project opportunities, and (iii) increased demand for our mechanical construction services by customers within the biotech, life-sciences, and pharmaceutical industries, as well as certain customers engaged in the production and development of electric vehicles and/or lithium batteries, (b) the healthcare market sector, due to increased mechanical system retrofits and installations as our healthcare customers seek to upgrade their existing facilities or build new facilities, (c) the manufacturing market sector, inclusive of certain large food processing projects, which began to accelerate during the second half of 2021, and (d) the water and wastewater market sector, given increased project activity within the Southern region of the United States. These increases were partially offset by the completion or substantial completion of certain projects within the institutional market sector, which resulted in a reduction of revenues within such sector during 2021.

Revenues of our United States building services segment were \$2,468.9 million and \$2,134.0 million for the years ended December 31, 2021 and 2020, respectively. Excluding incremental acquisition revenues within this segment's mobile mechanical services division of \$103.2 million, this segment's revenue growth for the year ended December 31, 2021 was primarily attributable to: (a) greater project, service repair and maintenance, and building automation and controls activities within our mobile mechanical services operations, as well as an increase in project volume within our commercial site-based services operations, in both cases, partially as a result of a resumption in demand for certain of our service offerings when compared to the prior year, which was negatively impacted by the COVID-19 pandemic given the temporary closure of certain customer facilities, (b) a net increase in facilities maintenance contract revenues, partially as a result of new contract awards, (c) increased customer demand, stemming in part from the COVID-19 pandemic, for certain services aimed at either: (i) improving the indoor air quality or (ii) enhancing the cleaning protocols within their facilities, and (d) an increase in snow removal activity year-over-year within our commercial site-based services division.

Revenues of our United States industrial services segment for the year ended December 31, 2021 were \$986.4 million, a \$45.5 million increase compared to revenues of \$940.9 million for the year ended December 31, 2020. The increase in this segment's revenues for the year ended December 31, 2021 was attributable to greater revenues from both our field services and shop services operations during the second half of 2021, when compared to the same prior year period. While this segment's revenues throughout the majority of both 2021 and 2020 were negatively impacted by the adverse market conditions within the oil and gas and related industrial markets, the impact on the demand for its service offerings was most severe during the second half of 2020, resulting in a favorable comparison in the current year. Although the demand for oil and other refined products has not returned to pre-pandemic levels, the oil and gas industry continues to recover and we remain cautiously optimistic that the demand for our traditional industrial services will continue to improve in future periods. Revenues of this segment for the year ended December 31, 2021 additionally benefited from the completion of a 200-megawatt solar project by certain subsidiaries of this segment during 2021.

Our United Kingdom building services segment revenues were \$510.0 million in 2021 compared to \$430.6 million in 2020. The increase in this segment's revenues for the year ended December 31, 2021 was primarily a result of growth in project activities with existing customers, primarily within the commercial and water and wastewater market sectors, partially as a result of a resumption in demand as customers began to release projects which were previously deferred due to the uncertainty created by the COVID-19 pandemic. Similar to our United States building services segment, this segment additionally experienced increased revenues resulting from greater demand for services aimed at enhancing the cleaning protocols within its customers' facilities in response to COVID-19. This segment's revenues for the year ended December 31, 2021 were positively impacted by \$34.6 million related to the effect of favorable exchange rates for the British pound versus the United States dollar.

Cost of sales and gross profit

The following table presents cost of sales, gross profit (revenues less cost of sales), and gross profit margin (gross profit as a percentage of revenues) for the years ended December 31, 2021 and 2020 (in thousands, except for percentages):

	<u>2021</u>	<u>2020</u>
Cost of sales	\$8,401,843	\$7,401,679
Gross profit	\$1,501,737	\$1,395,382
Gross profit margin	15.2 %	15.9 %

Our gross profit for the year ended December 31, 2021 was \$1,501.7 million, a \$106.4 million increase compared to gross profit of \$1,395.4 million for the year ended December 31, 2020. The increase in gross profit for the year ended December 31, 2021 was predominately a result of increased gross profit contribution from our United States construction segments and our United States building services segment given greater revenue volume during 2021. In addition, we experienced an increase in gross profit within our United Kingdom building services segment due, in part, to both increased revenue and gross profit margin expansion when compared to 2020.

Our gross profit margin was 15.2% and 15.9% for 2021 and 2020, respectively. The decrease in gross profit margin for the year ended December 31, 2021 was predominantly attributable to a reduction in gross profit margin within all of our reportable segments, except for our United Kingdom building services segment. Refer to the operating income section below for further discussion regarding the operating performance of each of our reportable segments.

Selling, general and administrative expenses

The following table presents selling, general and administrative expenses and SG&A margin (selling, general and administrative expenses as a percentage of revenues) for the years ended December 31, 2021 and 2020 (in thousands, except for percentages):

	<u>2021</u>	<u>2020</u>
Selling, general and administrative expenses	\$ 970,937	\$ 903,584
SG&A margin	9.8 %	10.3 %

Our selling, general and administrative expenses for the year ended December 31, 2021 were \$970.9 million compared to selling, general and administrative expenses of \$903.6 million for the year ended December 31, 2020. For the year ended December 31, 2021, selling, general and administrative expenses included \$19.2 million of incremental expenses directly related to companies acquired in 2021 and 2020, including amortization expense attributable to identifiable intangible assets of \$4.3 million. Excluding incremental expenses from businesses acquired, our selling, general and administrative expenses increased by \$48.2 million for the year ended December 31, 2021. Such organic increase in selling, general and administrative expenses was primarily attributable to an increase in: (a) employee benefit costs, driven by greater medical claim activity related in part to the COVID-19 pandemic, (b) incentive compensation expense, predominantly within our United States construction segments and our United States building services segment given greater operating income when compared to the prior year, (c) salaries, as a result of: (i) an increase in headcount to support our organic revenue growth in the current year and (ii) the favorable impact in the prior year of certain short-term cost cutting measures enacted in response to the COVID-19 pandemic, including temporary furloughs and salary reductions, (d) computer hardware and software costs as a result of various information technology and cybersecurity initiatives currently in process, and (e) the provision for credit losses, within our United States industrial services segment, which included \$5.8 million of expense associated with two customer bankruptcies during 2021.

Selling, general and administrative expenses as a percentage of revenues were 9.8% and 10.3% for 2021 and 2020, respectively. The decrease in SG&A margin for the year ended December 31, 2021 was a result of an increase in revenues without a commensurate increase in overhead costs, as we were able to leverage our existing overhead cost structure.

Impairment loss on goodwill, identifiable intangible assets, and other long-lived assets

During the second quarter of 2020, we identified certain indicators of impairment resulting from the COVID-19 pandemic and its impact on the oil and gas and related industrial markets. These adverse conditions resulted in lower forecasted revenue and operating margin expectations for those of our businesses that are highly dependent on the strength of such markets, resulting in the recognition, during 2020, of impairment charges totaling \$232.8 million within our United States industrial services segment.

Despite the weaker results of our United States industrial services segment for the year ended December 31, 2021, when compared to historical periods, we did not identify any indicators of impairment in the current year, as the operating performance of this segment remained materially consistent with our near term expectations and forecasts. Further, we performed our annual impairment assessment as of October 1, 2021 and determined that the fair value of the industrial reporting unit remained in excess of its carrying value. However, a further deterioration in this segment's operating performance, significant adverse changes to external market conditions or the assumptions utilized in our impairment tests, such as the weighted average cost of capital and our internal forecasts, if any, could result in the identification of future impairment indicators and potentially future goodwill impairment charges. It is not possible at this time to determine if any future impairment charge will result or, if it does, whether such charge would be material to our results of operations.

Operating income (loss)

The following table presents by segment our operating income (loss) and each segment's operating margin (operating income (loss) as a percentage of such segment's revenues) for the years ended December 31, 2021 and 2020 (in thousands, except for percentages):

	2021	% of Segment Revenues	2020	% of Segment Revenues
Operating income (loss):				
United States electrical construction and facilities services	\$ 168,363	8.4 %	\$ 161,810	9.0 %
United States mechanical construction and facilities services	319,112	8.1 %	292,536	8.4 %
United States building services	119,024	4.8 %	114,159	5.3 %
United States industrial services	(1,666)	(0.2)%	1,175	0.1 %
Total United States operations	604,833	6.4 %	569,680	6.8 %
United Kingdom building services	27,998	5.5 %	20,660	4.8 %
Corporate administration	(102,031)	—	(98,542)	—
Restructuring expenses	—	—	(2,214)	—
Impairment loss on goodwill, identifiable intangible assets, and other long-lived assets	—	—	(232,750)	—
Total operations	530,800	5.4 %	256,834	2.9 %
Other items:				
Net periodic pension (cost) income	3,625		2,980	
Interest expense	(6,071)		(9,009)	
Interest income	949		1,521	
Income before income taxes	<u>\$ 529,303</u>		<u>\$ 252,326</u>	

As described in more detail below, operating income was \$530.8 million, or 5.4% of revenues, for the year ended December 31, 2021, compared to operating income of \$256.8 million, or 2.9% of revenues, for the year ended December 31, 2020. Our operating results for 2020 included \$232.8 million of non-cash impairment charges, which negatively impacted the Company's operating margin in 2020 by approximately 270 basis points. Excluding the impact of such impairment charges on our 2020 results, operating income increased by \$41.2 million for the year ended December 31, 2021, as a result of increased operating income contribution from all of our reportable segments, except for our United States industrial services segment, which continues to be impacted by the effect of adverse market conditions on the demand for its service offerings. Companies acquired in 2021 and 2020, generated incremental operating income of \$4.0 million, inclusive of \$11.5 million of amortization expense associated with identifiable intangible assets, for the year ended December 31, 2021.

Operating income of our United States electrical construction and facilities services segment for the year ended December 31, 2021 was \$168.4 million compared to operating income of \$161.8 million for the year ended December 31, 2020. Companies acquired in 2021 contributed incremental operating income of \$3.7 million, inclusive of \$4.9 million of amortization expense associated with identifiable intangible assets. Excluding such acquisition contribution, operating income of this segment increased a modest \$2.9 million for the year ended December 31, 2021. Gross profit gains from construction projects within the institutional and healthcare market sectors, primarily as a result of the revenue growth within these market sectors, as referenced above, were largely offset by gross profit declines within the transportation and manufacturing market sector, given the completion or close-out of certain projects in the prior year. Operating margins within this segment for the years ended December 31, 2021 and 2020 were 8.4% and 9.0%, respectively. The decrease in operating margin year-over-year was a result of a decline in this segment's gross profit margin during 2021, predominantly within: (a) the commercial market sector,

partially due to a change in the composition of project work performed period-over-period, and (b) the transportation market sector as the results for the prior year benefited from the successful close-out of several large construction projects within the Northeastern region of the United States.

Our United States mechanical construction and facilities services segment's operating income for the year ended December 31, 2021 was \$319.1 million, a \$26.6 million increase compared to operating income of \$292.5 million for the year ended December 31, 2020. The increase in operating income for 2021 was a result of an increase in gross profit from construction projects within the majority of the market sectors in which we operate, driven by increased revenue volume year-over-year. Operating margins within this segment for the years ended December 31, 2021 and 2020 were 8.1% and 8.4%, respectively. The 30 basis point reduction in this segment's operating margin in 2021 was primarily a result of a decrease in gross profit margin within the manufacturing market sector as: (a) the results for the prior year benefited from the favorable close-out of several projects and (b) the results for the current year include increased revenues from certain large food processing projects, for which we are acting as the construction manager and therefore carry lower than average gross profit margins. This decrease in gross profit margin was partially offset by a reduction in the ratio of selling, general and administrative expenses to revenues given an increase in segment revenues without a commensurate increase in overhead costs.

Operating income of our United States building services segment for the year ended December 31, 2021 was \$119.0 million, or 4.8% of revenues, compared to operating income of \$114.2 million, or 5.3% of revenues, for the year ended December 31, 2020. The increase in this segment's operating income for 2021 was primarily due to the resumption in demand for certain of our service offerings when compared to the prior year, which led to increased gross profit from project, service repair and maintenance, and building automation and controls activities within our mobile mechanical services operations, and project volumes within our commercial site-based services operations. In addition, gross profit for the year ended December 31, 2021 benefited from greater snow removal activity for our customers with whom we are contracted on a per snow event basis. Companies acquired in 2021 and 2020, which are included within this segment's mobile mechanical services division, generated incremental operating income of approximately \$0.7 million, inclusive of \$6.2 million of amortization expense associated with identifiable intangible assets, during 2021. The 50 basis point reduction in operating margin for the year ended December 31, 2021 was attributable to a decrease in gross profit margin, partially offset by a reduction in the ratio of selling, general and administrative expenses to revenues as this segment was able to effectively leverage its overhead cost structure during this period of revenue growth. The decline in gross profit margin resulted from a less favorable mix of work within this segment's mobile mechanical services division, including a greater number of fixed price capital projects, which traditionally have lower gross profit margins than the other service and repair offerings of this segment. Gross profit margin of this segment in 2021 was also negatively impacted by: (a) supply chain disruptions, including longer lead times for certain materials and equipment, which resulted in a greater amount of unabsorbed labor costs in instances where projects were delayed pending the receipt of materials, and (b) an escalation in fuel prices for its fleet of over 4,000 service vans, a portion of which we were unable to pass along to our customers.

Our United States industrial services segment reported an operating loss of \$1.7 million for the year ended December 31, 2021 compared to operating income of \$1.2 million for the year ended December 31, 2020. Operating margin of this segment was (0.2)% and 0.1% for 2021 and 2020, respectively. Despite the increase in annual revenues compared to full year 2020, this segment's operating results continue to be negatively impacted by the adverse macroeconomic conditions within the oil and gas industry. For example, pricing pressure from the customers of this segment has resulted in a lower margin portfolio of work, and therefore a decrease in gross profit when compared to the prior year, within both our field services and shop services operations. In addition to the effect of lower gross profit, operating income of this segment was negatively impacted by an increase in the provision for credit losses, which included approximately \$5.8 million of expense associated with two customer bankruptcies during 2021, which resulted in a 60 basis point reduction to this segment's operating margin.

Our United Kingdom building services segment operating income for the year ended December 31, 2021 was \$28.0 million, or 5.5% of revenues, which compares favorably to operating income of \$20.7 million, or 4.8% of revenues, for the year ended December 31, 2020. The increase in this segment's operating income and operating margin for 2021 was primarily a result of an increase in gross profit and gross profit margin from projects within the commercial market sector, partially offset by an increase in selling, general and administrative expenses to support the segment's revenue growth. In addition, this segment's operating income and operating margin for the year ended December 31, 2021 benefited from successful contract close-outs during 2021. This segment's operating income was positively impacted by \$2.1 million during 2021 related to the effect of favorable exchange rates for the British pound versus the United States dollar.

Our corporate administration expenses were \$102.0 million for 2021 compared to \$98.5 million in 2020. The increase in corporate administration expenses for the year ended December 31, 2021 was primarily due to: (a) an increase in employment costs, such as: (i) long-term incentive compensation expense given higher projected future operating results, as our expectations during 2020 were negatively impacted by the uncertainty created by the COVID-19 pandemic, and (ii) salaries, inclusive of certain non-recurring severance expenses associated with the continued realignment of our back office functions, and (b) a net increase in computer hardware, software, and consulting costs, as a result of various information technology and cybersecurity initiatives currently in process.

Other items

Interest expense was \$6.1 million and \$9.0 million for 2021 and 2020, respectively, and interest income was \$0.9 million and \$1.5 million for 2021 and 2020, respectively. The decrease in both interest expense and interest income for 2021 resulted from lower interest rates when compared to 2020. In addition, the decrease in interest expense was partially attributable to reduced average outstanding borrowings year-over-year.

Our income tax provision for the year ended December 31, 2021 was \$145.6 million, based on an income tax rate of 27.5%, compared to an income tax provision and an income tax rate of \$119.4 million and 47.3%, respectively, for the year ended December 31, 2020. Our income tax rate, and resulting income tax provision, for the year ended December 31, 2020 were impacted by the tax effect of the \$232.8 million of non-cash goodwill, identifiable intangible asset, and other long-lived asset impairment charges recorded during 2020, the majority of which was non-deductible for tax purposes.

Remaining Unsatisfied Performance Obligations

The following table presents the transaction price allocated to remaining unsatisfied performance obligations (“remaining performance obligations”) for each of our reportable segments and their respective percentage of total remaining performance obligations (in thousands, except for percentages):

	<u>December 31, 2021</u>	<u>% of Total</u>	<u>December 31, 2020</u>	<u>% of Total</u>
Remaining performance obligations:				
United States electrical construction and facilities services	\$ 1,210,568	22 %	\$ 1,055,089	23 %
United States mechanical construction and facilities services	3,320,359	59 %	2,673,293	58 %
United States building services	838,324	15 %	618,353	13 %
United States industrial services	111,838	2 %	117,212	3 %
Total United States operations	<u>5,481,089</u>	98 %	<u>4,463,947</u>	97 %
United Kingdom building services	118,208	2 %	130,673	3 %
Total operations	<u>\$ 5,599,297</u>	100 %	<u>\$ 4,594,620</u>	100 %

Remaining performance obligations increase with awards of new contracts and decrease as we perform work and recognize revenue on existing contracts. We include a project within our remaining performance obligations at such time as the project is awarded and agreement on contract terms has been reached. Our remaining performance obligations include amounts related to contracts for which a fixed price contract value is not assigned when a reasonable estimate of the total transaction price can be made.

Remaining performance obligations include unrecognized revenues to be realized from uncompleted construction contracts. Although many of our construction contracts are subject to cancellation at the election of our customers, in accordance with industry practice, we do not limit the amount of unrecognized revenue included within remaining performance obligations for these contracts as the risk of cancellation is very low due to the inherent substantial economic penalty that our customers would incur upon cancellation or termination. We believe our reported remaining performance obligations for our construction contracts are firm and contract cancellations have not had a material adverse effect on us.

Remaining performance obligations also include unrecognized revenues expected to be realized over the remaining term of service contracts. However, to the extent a service contract includes a cancellation clause which allows for the termination of such contract by either party without a substantive penalty, the remaining contract term, and therefore, the amount of unrecognized revenues included within remaining performance obligations, is limited to the notice period required for the termination.

Our remaining performance obligations are comprised of: (a) original contract amounts, (b) change orders for which we have received written confirmations from our customers, (c) pending change orders for which we expect to receive confirmations in the ordinary course of business, (d) claim amounts that we have made against customers for which we have determined we have a legal basis under existing contractual arrangements and as to which the variable consideration constraint does not apply, and (e) other forms of variable consideration to the extent that such variable consideration has been included within the transaction price of our contracts. Such claim and other variable consideration amounts were immaterial for all periods presented.

Our remaining performance obligations at December 31, 2021 were \$5.60 billion compared to \$4.59 billion at December 31, 2020. The increase in remaining performance obligations year-over-year was primarily attributable to an increase in remaining performance obligations within our United States construction segments, driven by the award of various construction projects within the majority of the market sectors in which we operate, most notably: (a) the commercial market sector, inclusive of certain semiconductor projects, (b) the manufacturing market sector, inclusive of several food processing projects, and (c) the healthcare, institutional, and water and wastewater market sectors. In addition, we experienced an increase in remaining performance obligations within our United States building services segment given increased project opportunities within its mobile mechanical services division and the award of several facilities maintenance contracts within its commercial site-based services division. Remaining performance obligations increased by \$162.8 million as a result of acquisitions during 2021.

2020 versus 2019

Overview

The following table presents selected financial data for the fiscal years ended December 31, 2020 and 2019 (in thousands, except percentages and per share data):

	2020	2019
Revenues	\$8,797,061	\$9,174,611
Revenues (decrease) increase from prior year	(4.1)%	12.8 %
Gross profit	\$1,395,382	\$1,355,868
Gross profit as a percentage of revenues	15.9 %	14.8 %
Impairment loss on goodwill, identifiable intangible assets, and other long-lived assets	\$ 232,750	\$ —
Operating income	\$ 256,834	\$ 460,892
Operating income as a percentage of revenues	2.9 %	5.0 %
Net income attributable to EMCOR Group, Inc.	\$ 132,943	\$ 325,140
Diluted earnings per common share	\$ 2.40	\$ 5.75

Revenues of \$8.80 billion for the year ended December 31, 2020 decreased by 4.1% from revenues of \$9.17 billion for the year ended December 31, 2019. As discussed in further detail below, such decrease in revenues was largely attributable to revenue declines within our United States industrial services segment, as a result of a decrease in demand for our service offerings within the oil and gas and related industrial markets given the negative macroeconomic conditions impacting these markets. In addition, we experienced a decrease in revenues within our United States electrical construction and facilities services segment, due to: (a) the effects of the COVID-19 pandemic on our operations during 2020, which resulted in: (i) a decrease in the number of short duration projects and (ii) project delays or access restrictions resulting from the various containment and mitigation measures mandated by certain of our customers and/or governmental authorities, and (b) a reduction in commercial market sector activities given the completion or substantial completion of several projects. These revenue declines were partially offset by revenue growth within our United States mechanical construction and facilities services segment and our United States building services segment, inclusive of the impact of businesses acquired, as discussed below, as well as an increase in revenues of our United Kingdom building services segment.

Operating income for 2020 was \$256.8 million, or 2.9% of revenues, compared to operating income of \$460.9 million, or 5.0% of revenues, in 2019. Our operating results for the year ended December 31, 2020 included \$232.8 million of non-cash impairment charges within our United States industrial services segment, which negatively impacted the Company's operating margin for 2020 by approximately 270 basis points. Excluding the impact of such impairments, operating income and operating margin for the twelve months ended December 31, 2020 increased by \$28.7 million and 60 basis points, respectively, primarily as a result of favorable execution within our United States construction segments, as described in further detail below.

Net income of \$132.9 million, or \$2.40 per diluted share, for the year ended December 31, 2020, compares unfavorably to net income of \$325.1 million, or \$5.75 per diluted share, for the year ended December 31, 2019. The decline in both net income and diluted earnings per common share are a result of the aforementioned impairment charges and the related tax effects as the majority of such charges were non-deductible for tax purposes.

Impact of Acquisitions

We acquired three companies in 2020 for total consideration of \$50.3 million. Such acquisitions include: (a) a company that provides building automation and controls solutions within the Northeastern region of the United States, (b) a full service provider of mechanical services within the Washington, D.C. metro area, and (c) a company, the results of operations of which were de minimis, that provides mobile mechanical services in the Southern region of the United States. The results of operations for all three companies have been included within our United States building services segment.

On November 1, 2019, we completed the acquisition of Batchelor & Kimball, Inc. (“BKI”), a leading full service provider of mechanical construction and maintenance services, for total consideration of \$220.3 million. This acquisition strengthens our position and broadens our capabilities in the Southern and Southeastern regions of the United States, and the results of its operations have been included within our United States mechanical construction and facilities services segment. In addition to BKI, during 2019, we completed six other acquisitions for total consideration of \$85.4 million. Such acquisitions include: (a) a company that provides electrical contracting services in central Iowa, the results of operations of which have been included within our United States electrical construction and facilities services segment, (b) a company that provides mechanical contracting services in south-central and eastern Texas, the results of operations of which have been included within our United States mechanical construction and facilities services segment, and (c) four companies included within our United States building services segment, consisting of: (i) a company that provides mobile mechanical services in the Southern region of the United States and (ii) three companies, the results of operations of which were de minimis, which bolster our presence in geographies where we have existing operations and provide either mobile mechanical services or building automation and controls solutions.

Companies acquired in 2020 and 2019 generated incremental revenues of \$269.6 million and incremental operating income of \$15.4 million, inclusive of \$16.0 million of amortization expense associated with identifiable intangible assets, for the year ended December 31, 2020.

Discussion and Analysis of Results of Operations

Revenues

The following table presents our revenues for each of our operating segments and the approximate percentages that each segment’s revenues were of total revenues for the years ended December 31, 2020 and 2019 (in thousands, except for percentages):

	<u>2020</u>	<u>% of Total</u>	<u>2019</u>	<u>% of Total</u>
Revenues from unrelated entities:				
United States electrical construction and facilities services	\$ 1,806,092	20 %	\$ 1,961,798	21 %
United States mechanical construction and facilities services	3,485,495	40 %	3,340,337	36 %
United States building services	2,134,016	24 %	2,121,661	23 %
United States industrial services	940,895	11 %	1,327,556	15 %
Total United States operations	<u>8,366,498</u>	95 %	<u>8,751,352</u>	95 %
United Kingdom building services	430,563	5 %	423,259	5 %
Total operations	<u>\$ 8,797,061</u>	100 %	<u>\$ 9,174,611</u>	100 %

As described in more detail below, revenues for the year ended December 31, 2020 decreased to \$8.80 billion compared to \$9.17 billion for the year ended December 31, 2019. Revenue declines within our United States industrial services segment, as a result of a decrease in demand for our service offerings within the oil and gas and related industrial markets, and our United States electrical construction and facilities services segment, as described in further detail below, were partially offset by revenue growth within our United States mechanical construction and facilities services segment, our United States building services segment, and our United Kingdom building services segment. Companies acquired in 2020 and 2019, which are reported in our United States electrical construction and facilities services segment, our United States mechanical construction and facilities services segment and our United States building services segment, generated incremental revenues of \$269.6 million in 2020.

Revenues of our United States electrical construction and facilities services segment were \$1,806.1 million for the year ended December 31, 2020 compared to revenues of \$1,961.8 million for the year ended December 31, 2019. The decrease in revenues was attributable to: (a) the effects of the COVID-19 pandemic on our operations during 2020, which resulted in: (i) a decrease in the number of short duration projects and (ii) project delays or access restrictions resulting from the various containment and mitigation measures mandated by certain of our customers and/or governmental authorities, and (b) a decline in revenues from

construction projects within the commercial market sector, as a result of the completion or substantial completion of several projects. The results for the year ended December 31, 2020 included \$25.4 million of incremental revenues generated by a company acquired in 2019.

Our United States mechanical construction and facilities services segment revenues for the year ended December 31, 2020 were \$3,485.5 million, a \$145.2 million increase compared to revenues of \$3,340.3 million for the year ended December 31, 2019. The results for the year ended December 31, 2020 included \$188.8 million of incremental revenues generated by companies acquired in 2019. Excluding the impact of acquisitions, revenues of this segment decreased by \$43.7 million, primarily as a result of a decline in revenues from: (a) the manufacturing market sector, inclusive of certain large food processing construction projects, and (b) several telecommunications and technology projects. Similar to our United States electrical construction and facilities services segment, revenues of this segment were also negatively impacted by the effects of the COVID-19 pandemic during 2020, which resulted in project delays and temporary job site shutdowns, as well as a decrease in the number of short duration projects. These revenue reductions were partially offset by increased revenues from the majority of the remaining market sectors in which we operate, most notably the institutional, transportation, and commercial market sectors.

Revenues of our United States building services segment were \$2,134.0 million and \$2,121.7 million for the years ended December 31, 2020 and 2019, respectively. Excluding acquisition revenues of \$55.4 million, this segment's revenues decreased by approximately \$43.0 million during the year ended December 31, 2020. Such reduction in revenues was primarily attributable to: (a) decreased project and controls activities within our mobile mechanical services operations, largely as a result of the impact of the COVID-19 pandemic during 2020, which resulted in fewer project opportunities given the temporary closure of certain customer facilities, (b) decreased large project activity within our energy services operations, primarily as a result of the completion of certain projects which were active in 2019, and (c) the loss of certain contracts not renewed pursuant to rebid within our government services business. These revenue declines were partially offset by increased customer demand for certain services aimed at improving the indoor air quality within their facilities as well as an increase in revenues within our commercial site-based services operations, as a result of new contract awards and scope expansion on certain contracts with existing customers.

Revenues of our United States industrial services segment for the year ended December 31, 2020 were \$940.9 million, a \$386.7 million decrease compared to revenues of \$1,327.6 million for the year ended December 31, 2019. Revenues of this segment for the year ended December 31, 2020 were negatively impacted by adverse market conditions including unprecedented volatility in the price of crude oil, largely as a result of a decline in demand caused by the COVID-19 pandemic. Such macroeconomic conditions led to a decrease in demand for our services, which resulted in: (a) a decrease in maintenance and capital project activity within our field services operations and (b) a reduction in new build heat exchanger sales and a decrease in maintenance, repair, and hydro blast cleaning services within our shop services operations. In addition, revenues for the year ended December 31, 2020 were negatively impacted by project stoppages resulting from hurricanes, including certain named storms, within the Gulf Coast region.

Our United Kingdom building services segment revenues were \$430.6 million in 2020 compared to \$423.3 million in 2019. The year-over-year increase in revenues within this segment was primarily attributable to: (a) an increase in revenues from new maintenance contract awards within the commercial market sector, and (b) increased project activity with existing customers, primarily within the water and wastewater market sector, despite reduced opportunities for project work brought upon by the temporary closure of certain customer facilities and the temporary suspension of capital spending as a result of the COVID-19 pandemic in the first half of 2020. This segment's revenues during 2020 were positively impacted by \$2.3 million related to the effect of favorable exchange rates for the British pound versus the United States dollar.

Cost of sales and gross profit

The following table presents cost of sales, gross profit, and gross profit margin for the years ended December 31, 2020 and 2019 (in thousands, except for percentages):

	2020	2019
Cost of sales	\$7,401,679	\$7,818,743
Gross profit	\$1,395,382	\$1,355,868
Gross profit margin	15.9 %	14.8 %

Our gross profit for the year ended December 31, 2020 was \$1,395.4 million, a \$39.5 million increase compared to gross profit of \$1,355.9 million for the year ended December 31, 2019. Our gross profit margin was 15.9% and 14.8% for 2020 and 2019, respectively. The increase in gross profit and gross profit margin for the year ended December 31, 2020 was predominantly a result of improved operating performance within both of our United States construction segments, as described in further detail below, despite the challenges brought on by the COVID-19 pandemic.

Selling, general and administrative expenses

The following table presents selling, general and administrative expenses and SG&A margin, for the years ended December 31, 2020 and 2019 (in thousands, except for percentages):

	2020	2019
Selling, general and administrative expenses	\$ 903,584	\$ 893,453
SG&A margin	10.3 %	9.7 %

Our selling, general and administrative expenses for the year ended December 31, 2020 were \$903.6 million compared to selling, general and administrative expenses of \$893.5 million for the year ended December 31, 2019. For the year ended December 31, 2020, selling, general and administrative expenses included \$29.6 million of incremental expenses directly related to companies acquired in 2020 and 2019, including amortization expense attributable to identifiable intangible assets of \$9.5 million. Excluding incremental expenses from businesses acquired, our selling, general and administrative expenses for 2020 decreased by \$19.4 million, primarily as a result of certain cost reductions resulting from, or actions taken in response to, the COVID-19 pandemic, including: (a) a reduction in certain discretionary spending, such as travel and entertainment costs, (b) a decrease in salary expense due to: (i) a reduction in headcount, resulting from lower revenues than in the same 2019 period, and (ii) certain short-term cost cutting measures, including temporary furloughs and salary reductions, and (c) a decrease in employee benefit costs, partially due to a decline in medical claims. These cost reductions were partially offset by an increase in incentive compensation expense, predominantly within our United States mechanical construction and facilities services segment, due to improved operating performance by several of our subsidiaries when compared to 2019.

Selling, general and administrative expenses as a percentage of revenues were 10.3% and 9.7% for 2020 and 2019, respectively. The increase in SG&A margin for the year ended December 31, 2020 was primarily due to a reduction in revenues without a commensurate decrease in certain of our overhead costs, including: (a) certain fixed costs within our United States industrial services segment, despite the significant revenue decline within such segment, and (b) the above referenced increase in incentive compensation expense.

Impairment loss on goodwill, identifiable intangible assets, and other long-lived assets

During the second quarter of 2020, we identified certain indicators of impairment resulting from the uncertainties caused by the COVID-19 pandemic and the significant volatility in the price of crude oil. These uncertainties resulted in lower forecasted revenue and operating margin expectations for those of our businesses that are highly dependent on the strength of the oil and gas and related industrial markets, resulting in the recognition, during 2020, of impairment charges totaling \$232.8 million within our United States industrial services segment.

Operating income (loss)

The following table presents by segment our operating income (loss) and each segment's operating margin for the years ended December 31, 2020 and 2019 (in thousands, except for percentages):

	2020	% of Segment Revenues	2019	% of Segment Revenues
Operating income (loss):				
United States electrical construction and facilities services	\$ 161,810	9.0 %	\$ 147,817	7.5 %
United States mechanical construction and facilities services	292,536	8.4 %	225,040	6.7 %
United States building services	114,159	5.3 %	115,432	5.4 %
United States industrial services	1,175	0.1 %	57,529	4.3 %
Total United States operations	<u>569,680</u>	6.8 %	<u>545,818</u>	6.2 %
United Kingdom building services	20,660	4.8 %	18,323	4.3 %
Corporate administration	(98,542)	—	(101,726)	—
Restructuring expenses	(2,214)	—	(1,523)	—
Impairment loss on goodwill, identifiable intangible assets, and other long-lived assets	<u>(232,750)</u>	—	<u>—</u>	—
Total operations	<u>256,834</u>	2.9 %	<u>460,892</u>	5.0 %
Other items:				
Net periodic pension (cost) income	2,980		1,553	
Interest expense	(9,009)		(13,821)	
Interest income	1,521		2,265	
Income before income taxes	<u>\$ 252,326</u>		<u>\$ 450,889</u>	

As described in more detail below, operating income was \$256.8 million, or 2.9% of revenues, for the year ended December 31, 2020, compared to operating income of \$460.9 million, or 5.0% of revenues, for the year ended December 31, 2019. Our operating results for 2020 included \$232.8 million of non-cash impairment charges, which negatively impacted the Company's operating margin in 2020 by approximately 270 basis points. Excluding the impact of such impairment charges on our 2020 results, operating income and operating margin for the year ended December 31, 2020 increased by \$28.7 million and 60 basis points, primarily as a result of favorable execution within our United States construction segments. Companies acquired in 2020 and 2019, which are reported in our United States electrical construction and facilities services segment, our United States mechanical construction and facilities services segment, and our United States building services segment, generated incremental operating income of \$15.4 million, inclusive of \$16.0 million of amortization expense associated with identifiable intangible assets, for the year ended December 31, 2020.

Operating income of our United States electrical construction and facilities services segment for the year ended December 31, 2020 was \$161.8 million, or 9.0% of revenues, compared to operating income of \$147.8 million, or 7.5% of revenues, for the year ended December 31, 2019. A company acquired in 2019 contributed incremental operating income of \$1.6 million, inclusive of \$0.1 million of amortization expense associated with identifiable intangible assets, during 2020. The year-over-year increase in operating income and operating margin was largely attributable to an increase in gross profit and gross profit margin given favorable project execution and a more profitable mix of work within this segment during 2020. Improved profitability was experienced within: (a) the commercial market sector, inclusive of several telecommunication construction projects, despite the decrease in revenues within such market sector, (b) the manufacturing market sector, and (c) the transportation market sector, due to the successful completion or close-out of certain projects. These gross profit gains were partially offset by a reduction in gross profit from short duration project activities, given the effects of the COVID-19 pandemic, which led to fewer short duration project opportunities. Operating income of this segment for the year ended December 31, 2020 additionally benefited from a reduction in selling, general and administrative expenses, including a curtailment in certain discretionary spending, such as travel and entertainment costs, and a decrease in employee benefit costs, resulting from a decline in medical claims.

Our United States mechanical construction and facilities services segment's operating income for the year ended December 31, 2020 was \$292.5 million, a \$67.5 million increase compared to operating income of \$225.0 million for the year ended December 31, 2019. Companies acquired in 2019 contributed incremental operating income of \$9.3 million, inclusive of \$12.7 million of amortization expense associated with identifiable intangible assets for the year ended December 31, 2020. Excluding the impact of businesses acquired, annual operating income of this segment increased by approximately \$58.2 million. Despite the disruption caused by the COVID-19 pandemic during 2020, our United States mechanical construction and facilities services segment experienced an increase in gross profit from construction projects within the majority of the market sectors in which we operate. Operating margins within this segment for the years ended December 31, 2020 and 2019 were 8.4% and 6.7%, respectively. The year-over-year increase in operating margin for this segment was attributable to an increase in gross profit margin, primarily within: (a) the manufacturing market sector, driven by certain large food processing construction projects, and (b) the commercial market sector, inclusive of a number of technology and semiconductor projects, which reached substantial completion during the year. The increases in gross profit and gross profit margin were partially offset by an increase in selling, general and administrative expenses, as well as the ratio of selling, general and administrative expenses to revenues, largely as a result of an increase in incentive compensation expense due to the improved year-over-year operating performance and an increase in amortization expense associated with identifiable intangible assets resulting from companies acquired in 2019.

Operating income of our United States building services segment was \$114.2 million in 2020, compared to \$115.4 million in 2019. Operating margin of this segment was 5.3% and 5.4% for 2020 and 2019, respectively. Companies acquired in 2020, which are included within this segment's mobile mechanical services division, contributed incremental operating income of \$4.5 million, inclusive of \$3.2 million of amortization expense associated with identifiable intangible assets. The decrease in segment operating income for the year ended December 31, 2020 was primarily due to a decrease in gross profit resulting from: (a) a reduction in large project activity within our energy services operations, and (b) when excluding the impact of acquired businesses, reduced project and controls activities within our mobile mechanical services operations, largely as a result of the temporary closure of certain customer facilities impacted by the COVID-19 pandemic. These gross profit reductions were partially offset by increased gross profit from service repair and maintenance activities within our mobile mechanical services operations, partially as a result of increased customer demand for certain services aimed at improving the indoor air quality within their facilities. Operating income of this segment additionally benefited from an overall decrease in selling, general and administrative expenses due to certain cost reduction measures enacted during 2020.

Our United States industrial services segment's operating income for the year ended December 31, 2020 was \$1.2 million, or 0.1% of revenues, compared to \$57.5 million, or 4.3% of revenues, for the year ended December 31, 2019. As previously referenced, this segment's results for the year ended December 31, 2020 were severely impacted by adverse macroeconomic factors impacting the oil and gas industry. As a result of such conditions, this segment experienced a reduction in gross profit from both our field services and shop services operations due to: (a) a decrease in demand for our service offerings, (b) the deferral, curtailment, or cancellation of previously scheduled projects with certain customers, and (c) an unfavorable mix of work, which included a greater number of projects with lower than typical gross profit margins. The aforementioned decrease in gross profit was partially offset by a reduction in selling, general and administrative expenses during the year, including: (a) incentive compensation and salaries, (b) employee benefit costs, and (c) certain discretionary spending, such as travel and entertainment costs. The decrease in operating margin for the year ended December 31, 2020 was attributable to a decrease in gross profit margin resulting from the above noted factors, as well as an increase in the ratio of selling, general and administrative expenses to revenues due to a decrease in revenue without a commensurate decrease in certain of this segment's fixed overhead costs.

Our United Kingdom building services segment's operating income for the year ended December 31, 2020 was \$20.7 million, or 4.8% of revenues, which compares favorably to operating income of \$18.3 million, or 4.3% of revenues, for the year ended December 31, 2019. The increase in annual operating income of this segment was primarily a result of incremental gross profit from new maintenance contract awards. Exchange rate movements for the British pound versus the United States dollar did not have a significant impact on this segment's operating income for the twelve months ended December 31, 2020. The year-over-year increase in this segment's operating margin was attributable to an increase in gross profit margin, primarily as a result of a more favorable mix of work, and a decrease in the ratio of selling, general and administrative expenses to revenues.

Our corporate administration expenses were \$98.5 million for 2020 compared to \$101.7 million in 2019. The decrease in corporate administration expenses for the year ended December 31, 2020 was primarily due to: (a) a decrease in long-term incentive compensation expense, (b) a decrease in salary expense as a result of: (i) certain short-term cost cutting measures, including temporary furloughs and salary reductions, and (ii) permanent headcount reductions resulting from the realignment of certain of our back office functions, (c) curtailment in certain discretionary spending, such as travel and entertainment costs, and (d) a reduction in professional fees.

Other items

Interest expense was \$9.0 million and \$13.8 million for 2020 and 2019, respectively. Interest income was \$1.5 million and \$2.3 million for 2020 and 2019, respectively. The decrease in both interest expense and interest income for 2020 resulted from lower interest rates. The decrease in interest expense was partially offset by the impact of higher average outstanding borrowings during 2020.

Our income tax provision for the year ended December 31, 2020 was \$119.4 million based on an income tax rate of 47.3%, compared to an income tax provision and an income tax rate of \$125.7 million and 27.9%, respectively, for the year ended December 31, 2019. Our income tax rate and income tax provision for 2020 were impacted by the tax-effect of the \$232.8 million of non-cash goodwill, identifiable intangible asset, and other long-lived asset impairment charges recorded during 2020, the majority of which was non-deductible for tax purposes.

Liquidity and Capital Resources

The following section discusses our principal liquidity and capital resources, as well as our primary liquidity requirements and sources and uses of cash.

We are focused on the efficient conversion of operating income into cash to provide for the Company's material cash requirements, including working capital needs, investment in our growth strategies through business acquisitions and capital expenditures, satisfaction of contractual commitments, including principal and interest payments on our outstanding indebtedness, and shareholder return through dividend payments and share repurchases. We strive to maintain a balanced approach to capital allocation in order to achieve growth, deliver value, and minimize risk.

Management monitors financial markets and overall economic conditions for factors that may affect our liquidity and capital resources and adjusts our capital allocation strategy as necessary. For example, the uncertainty brought on by the COVID-19 pandemic in 2020 resulted in the temporary suspension of acquisition and share repurchase activity, during portions of such year, while we focused on maintaining operational flexibility. Negative macroeconomic trends could have an adverse effect on future liquidity if we experience delays in the payment of outstanding receivables beyond normal payment terms, an increase in credit losses, or significant increases in the price of commodities or the materials and equipment utilized for our project and service work. In addition, during economic downturns, there have typically been fewer small discretionary projects from the private sector and our competitors have aggressively bid larger long-term infrastructure and public sector contracts. Our liquidity is also impacted by: (a) the type and length of construction contracts in place, as performance of long duration contracts typically requires greater amounts of working capital, (b) the level of turnaround activities within our United States industrial services segment, as such projects are billed in arrears pursuant to contractual terms that are standard within the industry, and (c) the billing terms of our maintenance contracts, including those within our United States and United Kingdom building services segments. While we strive to negotiate favorable billing terms, which allow us to invoice in advance of costs incurred on certain of our contracts, there can be no assurance that such terms will be agreed to by our customers.

As of December 31, 2021, we had cash and cash equivalents, excluding restricted cash, of \$821.3 million, which are maintained in highly liquid investments with original maturity dates of three months or less. Both our short-term and long-term liquidity requirements are expected to be met through our cash and cash equivalent balances, cash generated from our operations, and, if necessary, the borrowing capacity under our revolving credit facility. Our credit agreement provides for a \$1.30 billion revolving credit facility, for which there is \$1.23 billion of available capacity as of December 31, 2021. Refer to Note 9 - Debt of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data for further information regarding our credit agreement. Based upon our current credit rating and financial position, we can also reasonably expect to be able to secure long-term debt financing if required to achieve our strategic objectives; however, no assurances can be made that such debt financing will be available on favorable terms. We believe that we have sufficient financial resources available to meet our short-term and foreseeable long-term liquidity requirements.

Cash Flows

The following table presents our net cash provided by (used in) operating activities, investing activities, and financing activities (in thousands):

	2021	2020
Net cash provided by operating activities	\$ 318,817	\$ 806,366
Net cash used in investing activities	\$ (153,076)	\$ (94,863)
Net cash used in financing activities	\$ (245,456)	\$ (171,907)
(Decrease) increase in cash, cash equivalents, and restricted cash	\$ (80,994)	\$ 543,642

For the year ended December 31, 2021, our cash balance, including cash equivalents and restricted cash, decreased by approximately \$81.0 million from \$903.6 million as of December 31, 2020 to \$822.6 million as of December 31, 2021. Changes in our cash position from December 31, 2020 to December 31, 2021 are described in further detail below. For a discussion of the changes in our cash position from December 31, 2019 to December 31, 2020, refer to the Liquidity and Capital Resources section included in Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations of our Form 10-K for the year ended December 31, 2020.

Operating Activities – Operating cash flows generally represent our net income as adjusted for certain non-cash items and changes in assets and liabilities. For 2021, net cash provided by operating activities was approximately \$318.8 million compared to approximately \$806.4 million of net cash provided by operating activities in 2020.

The \$487.5 million decrease in operating cash flows during 2021, when compared to 2020, was primarily attributable to strong organic revenue growth in the current year, which resulted in an increase in working capital balances, most notably accounts receivable and contract assets. In addition, operating cash flow in 2020 benefited from the deferral of approximately

\$117.5 million of certain non-income based taxes resulting from various government measures enacted in response to the COVID-19 pandemic, of which approximately \$66 million was repaid in 2021.

Investing Activities – Investing cash flows consist primarily of payments for the acquisition of businesses, capital expenditures, and proceeds from the sale or disposal of property, plant, and equipment. For 2021, we utilized approximately \$153.1 million of cash for investing activities compared to \$94.9 million in 2020. The increase in investing cash flows year-over-year was primarily driven by a \$67.9 million increase in payments for acquisitions, partially offset by a \$11.8 million reduction in capital expenditures.

Financing Activities – Financing cash flows consist primarily of the issuance and repayment of short-term and long-term debt, repurchases of common stock, payment of dividends to stockholders, and the issuance of common stock through certain employee equity plans. Net cash used in financing activities for 2021 was \$245.5 million compared to \$171.9 million in 2020.

The increase in cash used in financing activities in 2021, when compared to 2020, was primarily due to an \$83.0 million increase in funds used for the repurchase of our common stock. During the year ended December 31, 2021, cash payments related to share repurchases were \$195.5 million compared to \$112.6 million for the year ended December 31, 2020. The timing of repurchases is at management's discretion subject to securities laws and other legal requirements and will depend upon several factors, including market and business conditions, future liquidity, share price, and share availability, among others. The repurchase program has been and will be funded from our operations. For additional detail regarding our share repurchase program, refer to Note 12 - Common Stock of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data.

Throughout 2021, we paid a quarterly dividend of \$0.13 per share compared to a quarterly dividend of \$0.08 per share during 2020. For the years ended December 31, 2021 and 2020, cash payments related to dividends were \$28.2 million and \$17.7 million, respectively. Our credit agreement places limitations on the payment of dividends on our common stock. However, we do not believe that the terms of such agreement currently materially limit our ability to pay a quarterly dividend of \$0.13 per share for the foreseeable future.

Material Cash Requirements from Contractual and Other Obligations

As of December 31, 2021, our short-term and long-term material cash requirements for known contractual and other obligations were as follows:

Outstanding Debt and Interest Payments – As of December 31, 2021, the amount outstanding under our term loan was \$256.7 million. Based on our outstanding balance, we are required to make annual principal payments of \$13.9 million on December 31 of each year until maturity. Any remaining unpaid principal is due on March 2, 2025, when the credit agreement governing our term loan expires. We have no direct borrowings outstanding under our revolving credit facility. In addition to annual principal payments, we are required to make quarterly interest payments on our outstanding indebtedness. Future interest payments will be determined based on prevailing interest rates during that time. Refer to Note 9 - Debt of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data for further detail of our debt obligations, including our term loan and revolving credit facility.

Operating and Finance Leases – In the normal course of business, we lease real estate, vehicles, and equipment under various arrangements which are classified as either operating or finance leases. Future payments for such leases, excluding leases with initial terms of one year or less, were \$317.8 million at December 31, 2021, with \$69.0 million payable within the next 12 months. Refer to Note 16 - Leases of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data for further detail surrounding our lease obligations and the timing of expected future payments.

Open Purchase Obligations – As of December 31, 2021, we had \$1.73 billion of open purchase obligations, of which payments totaling approximately \$1.50 billion are expected to become due within the next 12 months. These obligations represent open purchase orders to suppliers and subcontractors related to our construction and services contracts. These purchase orders are not reflected in the Consolidated Balance Sheets and are not expected to impact future liquidity as amounts should be recovered through customer billings.

Insurance Obligations – As described in further detail in Note 2 - Summary of Significant Accounting Policies of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data, we have loss payment deductibles and/or self-insured retentions for certain insurance matters. As of December 31, 2021, our insurance liabilities, net of estimated recoveries, were \$178.6 million. Of this net amount, approximately \$35.2 million is estimated to be payable within the next 12 months. Due to many uncertainties inherent in resolving these matters, it is not practical to estimate these payments beyond such period.

Retirement Plan Obligations – As of December 31, 2021, expected future payments relating to our defined benefit post retirement plans were approximately \$4.6 million per year. We provide funding to our post retirement plans based on at least the minimum funding required by applicable regulations. In determining the minimum funding required, we utilize current actuarial assumptions and exchange rates to forecast amounts that may be payable. In our judgment, minimum funding estimates cannot be reliably estimated beyond a five-year time horizon. Refer to Note 14 - Retirement Plans of the notes to consolidated financial statements in Item 8. Financial Statements and Supplementary Data for further information about our post retirement plans.

Deferred Payroll Taxes – The Coronavirus Aid, Relief, and Economic Security Act (the “CARES Act”) allowed U.S. companies to defer the employer’s portion of social security taxes between March 27, 2020 and December 31, 2020. Our first installment of these deferred social security taxes, totaling approximately \$51 million, was paid in the fourth quarter of 2021 and our second installment of approximately \$51 million is expected to be paid in the fourth quarter of 2022.

Contingent Consideration Liabilities – We have incurred liabilities related to contingent consideration arrangements associated with certain acquisitions, payable in the event discrete performance objectives are achieved by the acquired businesses during designated post-acquisition periods. The aggregate amount of these liabilities can change due to additional business acquisitions, settlement of outstanding liabilities, changes in the fair value of amounts owed based on performance during such post-acquisition periods, and accretion in present value. As of December 31, 2021, the present value of expected future payments relating to these contingent consideration arrangements was \$11.8 million. Of this amount, \$5.6 million is estimated as being payable during 2022, with the remainder due substantially during 2023.

In addition, material cash requirements for other potential obligations, for which we cannot reasonably estimate future payments, include the following:

Legal Proceedings – We are involved in several legal proceedings in which damages and claims have been asserted against us. While litigation is subject to many uncertainties and the outcome of litigation is not predictable with assurance, we do not believe that any such matters will have a material adverse effect on our financial position, results of operations, or liquidity. Refer to Note 15 - Commitments and Contingencies of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data for more information regarding legal proceedings.

Multiemployer Benefit Plans – In addition to our Company sponsored benefit plans, we participate in certain multiemployer pension and other post retirement plans. The cost of these plans is equal to the annual required contributions determined in accordance with the provisions of negotiated collective bargaining agreements. During 2021, 2020, and 2019, contributions made to these plans were \$396.5 million, \$360.2 million, and \$369.0 million, respectively; however, our future contributions to the multiemployer plans are dependent upon a number of factors. Amounts of future contributions that we would be contractually obligated to make pursuant to these plans cannot be reasonably estimated. Refer to Note 14 - Retirement Plans of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data for more information regarding these multiemployer benefit plans.

Off-Balance Sheet Arrangements and Other Commercial Commitments

The terms of our construction contracts frequently require that we obtain from surety companies, and provide to our customers, surety bonds as a condition to the award of such contracts. These surety bonds are issued in return for premiums, which vary depending on the size and type of the bond, and secure our payment and performance obligations under such contracts. We have agreed to indemnify the surety companies for amounts, if any, paid by them in respect of surety bonds issued on our behalf. As of December 31, 2021, based on the percentage-of-completion of our projects covered by surety bonds, our aggregate estimated exposure, assuming defaults on all our then existing contractual obligations, was approximately \$1.5 billion, which represents approximately 26% of our total remaining performance obligations.

Surety bonds expire at various times ranging from final completion of a project to a period extending beyond contract completion in certain circumstances. Such amounts can also fluctuate from period to period based upon the mix and level of our bonded operating activity. For example, public sector contracts require surety bonds more frequently than private sector contracts and, accordingly, our bonding requirements typically increase as the amount of our public sector work increases. Our estimated maximum exposure as it relates to the value of the surety bonds outstanding is lowered on each bonded project as the cost to complete is reduced, and each commitment under a surety bond generally extinguishes concurrently with the expiration of its related contractual obligation.

Surety bonds are sometimes provided to secure obligations for wages and benefits payable to or for certain of our employees, at the request of labor unions representing such employees. In addition, surety bonds or letters of credit may be issued as collateral for certain insurance obligations. As of December 31, 2021, we satisfied approximately \$48.1 million and \$71.2 million of the collateral requirements of our insurance programs by utilizing surety bonds and letters of credit, respectively. All such letters of credit were issued under our revolving credit facility, therefore reducing the available capacity under such facility.

We are not aware of any losses in connection with surety bonds that have been posted on our behalf, and we do not expect to incur significant losses in the foreseeable future.

From time to time, we discuss with our current and other surety bond providers the amounts of surety bonds that may be available to us based on our financial strength and the absence of any default by us on any surety bond issued on our behalf and believe those amounts are currently adequate for our needs. However, if we experience changes in our bonding relationships or if there are adverse changes in the surety industry, we may: (a) seek to satisfy certain customer requests for surety bonds by posting other forms of collateral in lieu of surety bonds, such as letters of credit, parent company guarantees, or cash, in order to convince customers to forego the requirement for surety bonds, (b) increase our activities in our businesses that rarely require surety bonds, and/or (c) refrain from bidding for certain projects that require surety bonds.

There can be no assurance that we would be able to effectuate alternatives to providing surety bonds to our customers or to obtain, on favorable terms, sufficient additional work that does not require surety bonds. Accordingly, a reduction in the availability of surety bonds could have a material adverse effect on our financial position, results of operations, and/or cash flows.

In the ordinary course of business, we, at times, guarantee obligations of our subsidiaries under certain contracts. Generally, we are liable under such an arrangement only if our subsidiary fails to perform its obligations under the contract. Historically, we have not incurred any substantial liabilities as a consequence of these guarantees.

We do not have any other material financial guarantees or off-balance sheet arrangements other than those disclosed herein.

Other Items

To help mitigate the impacts of greenhouse gas emissions on climate change, EMCOR has established initial carbon-based fuel consumption and greenhouse gas emission reduction targets, and will continue to refine such targets as necessary. Although to date we have not incurred any material costs or capital expenditures associated with achieving our targets, we could be required to expend amounts in future periods as we continue to work towards our goals. During 2021, EMCOR purchased carbon credits totaling nearly 25,000 metric tonnes, for approximately \$0.3 million. It is not possible, at this time, to estimate the impact that future costs and/or capital expenditures may have on our business, financial condition, results of operations, or liquidity.

New Accounting Pronouncements

We review new accounting standards to determine the expected impact, if any, that the adoption of such standards will have on our financial position and/or results of operations. See Note 2 - Summary of Significant Accounting Policies of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data for further information regarding new accounting standards, including the anticipated dates of adoption and the effects on our consolidated financial position, results of operations, or liquidity.

Critical Accounting Policies and Estimates

The preparation of our consolidated financial statements is based on the application of significant accounting policies, which require management to make estimates and assumptions. Our significant accounting policies are described further in Note 2 - Summary of Significant Accounting Policies of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data. We base our estimates on historical experience, known or expected trends, third-party valuations, and various other assumptions that we believe to be reasonable under the circumstances. As future events and their effects cannot be determined with precision, actual results could differ significantly from these estimates. There have been no significant changes to our critical accounting policies or methods for the year ended December 31, 2021. We believe the following critical accounting policies govern the more significant judgments and estimates used in the preparation of our financial statements.

Revenue Recognition from Contracts with Customers

For our construction contracts, revenue is generally recognized over time as our performance creates or enhances an asset that the customer controls as it is created or enhanced. Our fixed price construction projects generally use a cost-to-cost input method to measure our progress towards complete satisfaction of the performance obligation as we believe it best depicts the transfer of control to the customer which occurs as we incur costs on our contracts. Under the cost-to-cost measure of progress, the extent of progress towards completion is measured based on the ratio of costs incurred to date to the total estimated costs at completion of the performance obligation. For our unit price construction contracts, progress towards complete satisfaction is measured through an output method, such as the number of units produced or delivered, when our performance does not produce significant amounts of work in process or finished goods prior to complete satisfaction of such performance obligations.

For our services contracts, revenue is also generally recognized over time as the customer simultaneously receives and consumes the benefits of our performance as we perform the service. For our fixed price service contracts with specified service periods, revenue is generally recognized on a straight-line basis over such service period when our inputs are expended evenly, and the customer receives and consumes the benefits of our performance throughout the contract term.

The timing of revenue recognition for the manufacturing of new build heat exchangers within our United States industrial services segment depends on the payment terms of the contract, as our performance does not create an asset with an alternative use to us. For those contracts for which we have a right to payment for performance completed to date at all times throughout our performance, inclusive of a cancellation, we recognize revenue over time. For these performance obligations, we use a cost-to-cost input method to measure our progress towards complete satisfaction of the performance obligation as we believe it best depicts the transfer of control to the customer which occurs as we incur costs on our contracts. However, for those contracts for which we do not have a right, at all times, to payment for performance completed to date, we recognize revenue at the point in time when control is transferred to the customer. For bill-and-hold arrangements, revenue is recognized when the customer obtains control of the heat exchanger, which may be prior to shipping if certain recognition criteria are met.

For certain of our revenue streams, such as call-out repair and service work, outage services, refinery turnarounds, and specialty welding services that are performed under time and materials contracts, our progress towards complete satisfaction of such performance obligations is measured using an output method as the customer receives and consumes the benefits of our performance completed to date.

The nature of our contracts gives rise to several types of variable consideration, including pending change orders and claims; contract bonuses and incentive fees; and liquidated damages and penalties. We recognize revenue for such variable consideration when it is probable, in our judgment, that a significant future reversal in the amount of cumulative revenue recognized under the contract will not occur when the uncertainty associated with the variable consideration is subsequently resolved. The Company estimates the amount of variable consideration to be included in the transaction price utilizing one of two prescribed methods, depending on which method better predicts the amount of consideration to which the entity will be entitled.

Due to uncertainties inherent in the estimation process, as well as the significant judgment involved in determining variable consideration, it is possible that estimates of costs to complete a performance obligation, and/or our estimates of transaction prices, will be revised in the near-term. For those performance obligations for which revenue is recognized using a cost-to-cost input method, changes in total estimated costs, and related progress towards complete satisfaction of the performance obligation, or changes in the estimate of transaction prices, are recognized on a cumulative catch-up basis in the period in which the revisions to the estimates are made.

During each of the years ended December 31, 2021, 2020, and 2019, there were no changes in total estimated costs that had a significant impact on our operating results. Additionally, there were no significant amounts of revenue recognized during the years ended December 31, 2021 or 2019 related to performance obligations satisfied in prior periods. During the year ended December 31, 2020, we recognized revenue of \$6.1 million associated with the final settlement of contract value for two projects within our United States electrical construction and facilities services segment that were completed or substantially completed in prior periods. For each of the years ended December 31, 2021, 2020, and 2019, there were no significant reversals of revenue recognized associated with the revision of transaction prices.

Due to the significant judgments utilized in the estimation process described above, if subsequent actual results and/or updated assumptions, estimates, or projections related to our underlying project positions were to change from those utilized at December 31, 2021, it could result in a material impact to our results of operations. For example, a 50 basis point increase or decrease in the estimated gross profit margin on our uncompleted construction projects, in the aggregate, as a result of a revision in estimated costs to complete a performance obligation or a revision in estimated transaction price, would have resulted in an increase or decrease to operating income of approximately \$60 million for the year ended December 31, 2021.

See Note 3 - Revenue from Contracts with Customers of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data for further disclosure regarding revenue recognition.

Accounts Receivable and Allowance for Credit Losses

Accounts receivable are recognized in the period we deliver goods or provide services to our customers or when our right to consideration is unconditional. The Company maintains an allowance for credit losses to reduce outstanding receivables to their net realizable value. A considerable amount of judgment is required when determining expected credit losses. Estimates of such losses are recorded when we believe a customer, or group of customers, may not be able to meet their financial obligations due to deterioration in financial condition or credit rating. Factors relevant to our assessment include our prior collection history with our customers, the related aging of past due balances, projections of credit losses based on historical trends in credit quality indicators or past events, and forecasts of future economic conditions. In addition to monitoring delinquent accounts, management reviews the credit quality of its receivables by, among other things, obtaining credit ratings of significant customers, assessing economic and market conditions, and evaluating material changes to a customer's business, cash flows, and financial condition.

At December 31, 2021 and 2020, our accounts receivable of \$2,204.5 million and \$1,922.1 million, respectively, were recorded net of allowances for credit losses of \$23.5 million and \$18.0 million, respectively. The increase in our allowance for credit losses was predominantly attributable to our evaluation of specific outstanding receivables within our United States industrial services segment. Allowances for credit losses are based on the best facts available and are reassessed and adjusted on a regular basis as additional information is received. The provision for credit losses during 2021, 2020, and 2019 amounted to approximately \$8.0 million, \$3.3 million, and \$2.6 million, respectively.

Should anticipated collections fail to materialize, or if future economic conditions compare unfavorably to our forecasts, we could experience an increase in our allowances for credit losses. For example, if economic conditions were to significantly deteriorate, such as to those experienced during the last global financial crisis, the portion of our allowance for credit losses, which is estimated based on our historical credit loss experience, could increase by up to approximately \$13.0 million.

Insurance Liabilities

We have loss payment deductibles for certain workers' compensation, automobile liability, general liability, and property claims, have self-insured retentions for certain other casualty claims, and are self-insured for employee-related healthcare claims. In addition, we maintain a wholly-owned captive insurance subsidiary to manage certain of our insurance liabilities. Losses are recorded based upon estimates of our liability for claims incurred and for claims incurred but not reported. The liabilities are derived from known facts, historical trends, and industry averages, utilizing the assistance of an independent third-party actuary to determine the best estimate for the majority of these obligations. We believe the liabilities recognized on the Consolidated Balance Sheets for these obligations are adequate. However, such obligations are difficult to assess and estimate due to numerous factors, including severity of injury, determination of liability in proportion to other parties, timely reporting of occurrences, and effectiveness of safety and risk management programs. Therefore, if our actual experience differs from the assumptions and estimates used for recording the liabilities, adjustments may be required and will be recorded in the period that the experience becomes known. Our estimated net insurance liabilities for workers' compensation, automobile liability, general liability, and property claims increased by \$6.3 million for the year ended December 31, 2021 compared to the year ended December 31, 2020, partially as a result of greater potential exposures, including the impact of acquired companies. If our estimated insurance liabilities for workers' compensation, automobile liability, general liability, and property claims were to increase by 10%, it would have resulted in \$17.9 million of additional expense for the year ended December 31, 2021.

Income Taxes

As of December 31, 2021 and 2020, we had net deferred income tax liabilities of \$51.0 million and \$29.4 million, respectively, primarily resulting from differences between the carrying value and income tax bases of certain identifiable intangible assets, goodwill, and depreciable fixed assets. Included within these net deferred income tax liabilities are \$212.3 million and \$217.1 million of deferred income tax assets as of December 31, 2021 and 2020, respectively. The total valuation allowance on deferred income tax assets was approximately \$2.5 million and \$3.9 million as of December 31, 2021 and 2020, respectively. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Based on our taxable income, which has generally exceeded the amount of our net deferred income tax asset balance, as well as current projections of future taxable income, we have determined that it is more likely than not that our net deferred income tax assets will be realized. However, revisions to our forecasts or declining macroeconomic conditions could result in changes to our assessment of the realization of these deferred income tax assets. Refer to Note 11 - Income Taxes of the notes to consolidated financial statements in Item 8. Financial Statements and Supplementary Data for further detail regarding our deferred income taxes.

Goodwill, Identifiable Intangible Assets, and Other Long-Lived Assets

Goodwill

As of December 31, 2021 and 2020, we had goodwill of \$890.3 million and \$851.8 million, respectively, arising out of the acquisition of businesses. Goodwill is not amortized but instead allocated to its respective reporting unit and evaluated for impairment annually, or more frequently if events or circumstances indicate that the carrying amount of goodwill may be impaired. We have determined that our reporting units are consistent with the reportable segments identified in Note 18 - Segment Information of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data. As of December 31, 2021, approximately 17.9% of our goodwill related to our United States electrical construction and facilities services segment, approximately 34.2% related to our United States mechanical construction and facilities services segment, approximately 35.1% related to our United States building services segment, and approximately 12.8% related to our United States industrial services segment.

We performed our annual impairment assessment of all reporting units as of October 1, 2021 and determined there was no impairment of goodwill. Based on these impairment assessments, the fair values of our United States electrical construction and facilities services segment, our United States mechanical construction and facilities services segment, our United States building services segment, and our United States industrial services segment exceeded their carrying values by approximately \$1,516.1 million, \$2,772.7 million, \$784.2 million, and \$40.6 million, respectively.

In completing our annual impairment assessment, we determined the fair value of each of our reporting units using an income approach whereby fair value was calculated utilizing discounted estimated future cash flows, assuming a risk-adjusted industry weighted average cost of capital. The weighted average cost of capital used in our annual impairment testing was 10.4% for our United States construction segments and our United States building services segment, and 11.3% for our United States industrial services segment. These weighted average cost of capital estimates were developed with the assistance of an independent third-party valuation specialist and reflect the overall level of inherent risk within the respective reporting unit and the rate of return a market participant would expect to earn.

Our cash flow projections were derived from our most recent internal forecasts of anticipated revenue growth rates and operating margins, with cash flows beyond the discrete forecast period estimated using a terminal value calculation which incorporated historical and forecasted trends, an estimate of long-term growth rates, and assumptions about the future demand for our services. The perpetual growth rate used for our annual testing was 2.0% for all of our reporting units.

Due to the inherent uncertainties involved in making estimates, our assumptions may change in future periods. Estimates and assumptions made for purposes of our goodwill impairment testing may prove to be inaccurate predictions of the future, and other factors used in assessing fair value, such as the weighted average cost of capital, are outside the control of management. Unfavorable changes in certain of these key assumptions may affect future testing results. For example, keeping all other assumptions constant, a 50 basis point increase in the weighted average cost of capital would cause the estimated fair values of our United States electrical construction and facilities services segment, our United States mechanical construction and facilities services segment, our United States building services segment, and our United States industrial services segment to decrease by approximately \$103.6 million, \$185.5 million, \$74.5 million, and \$25.9 million, respectively. In addition, keeping all other assumptions constant, a 50 basis point reduction in the perpetual growth rate would cause the estimated fair values of our United States electrical construction and facilities services segment, our United States mechanical construction and facilities services segment, our United States building services segment, and our United States industrial services segment to decrease by approximately \$52.4 million, \$95.9 million, \$35.8 million, and \$9.5 million, respectively. Given the amounts by which the fair value exceeds the carrying value for each of our reporting units, the decreases in estimated fair values described above would not have significantly impacted the results of our impairment tests. Further, for each of our reporting units, other than our United States industrial services segment, a 10% decline in the estimated fair value of such reporting unit, due to other changes in our assumptions, including forecasted future cash flows, would not have significantly impacted the results of our impairment tests. In the case of our United States industrial services segment, however, such a 10% decrease would cause the estimated fair value of this reporting unit to approximate its carrying value.

Identifiable Intangible Assets and Other Long-Lived Assets

As of December 31, 2021 and 2020, net identifiable intangible assets (primarily consisting of our customer relationships, subsidiary trade names, developed technology/vendor network, and contract backlog) arising out of the acquisition of businesses were \$589.4 million and \$582.9 million, respectively. The determination of related estimated useful lives for identifiable intangible assets and whether those assets are impaired involves significant judgments based upon short- and long-term projections of future performance. These forecasts reflect assumptions regarding anticipated macroeconomic conditions as well as our ability to successfully integrate acquired businesses.

Absent earlier indicators of impairment, we test for impairment of subsidiary trade names that are not subject to amortization on an annual basis (October 1). In addition, we review for impairment of identifiable intangible assets that are being amortized as well as other long-lived assets whenever facts and circumstances indicate that their carrying values may not be fully recoverable.

As of October 1, 2021, we performed our annual impairment testing of all subsidiary trade names that are not subject to amortization and determined that there was no impairment of these assets. In performing this impairment assessment, we considered the sensitivity of the reported amounts to the methods, assumptions, and estimates underlying our testing. For example, we performed sensitivity analyses and concluded that, individually, none of the following changes in estimates or assumptions would have significantly impacted the results of our testing or resulted in an impairment of our subsidiary trade names: (a) a 50 basis point increase in the discount rate utilized in our testing, (b) a 50 basis point decline in the perpetual growth rate utilized in our testing, or (c) a 10% decrease in the estimated fair value of each trade name.

With respect to identifiable intangible assets that are being amortized as well as other long-lived assets, we did not identify any circumstances indicating that their carrying values may not be fully recoverable and, therefore, no impairment testing was required for these assets during the year ended December 31, 2021.

Other Considerations

As referenced above, impairment testing is based upon assumptions and estimates determined by management from a review of our operating results and business plans as well as forecasts of anticipated growth rates and margins, among other considerations. In addition, estimates of weighted average costs of capital are developed with the assistance of an independent third-party valuation specialist. These assumptions and estimates may change in future periods, especially in consideration of the uncertainty created by the COVID-19 pandemic and its potential impact on the broader economy and our results of operations in future periods, particularly with respect to our United States industrial services segment. Significant adverse changes to external market conditions or our internal forecasts, if any, could result in future impairment charges. It is not possible at this time to determine if any future impairment charge will result or, if it does, whether such a charge would be material to our results of operations.

Refer to Note 8 - Goodwill, Identifiable Intangible Assets, and Other Long-Lived Assets of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data for further information about our goodwill and identifiable intangible assets as well as our impairment testing, including the \$232.8 million of impairment charges recorded during the year ended December 31, 2020. For the year ended December 31, 2019, no impairment of our goodwill or identifiable intangible assets was recognized.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We have not used any derivative financial instruments during the years ended December 31, 2021 and 2020, including trading or speculating on changes in interest rates or commodity prices of materials used in our business.

We are exposed to market risk for changes in interest rates for borrowings under the 2020 Credit Agreement, which provides for a revolving credit facility and a term loan. Borrowings under the 2020 Credit Agreement bear interest at variable rates. For further information on our outstanding debt and borrowing rates, refer to Note 9 - Debt of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data. As of December 31, 2021, there were no direct borrowings outstanding under the 2020 Revolving Credit Facility; however, the balance of the 2020 Term Loan was \$256.7 million. Based on the \$256.7 million borrowings outstanding under the 2020 Credit Agreement, if overall interest rates were to increase by 100 basis points, interest expense, net of income taxes, would increase by approximately \$1.9 million in the next twelve months. Conversely, if overall interest rates were to decrease by 100 basis points, interest expense, net of income taxes, would decrease by approximately \$1.9 million in the next twelve months. The 2020 Credit Agreement expires on March 2, 2025.

At the end of 2021, one-week and two-month LIBOR were discontinued. It is expected that the remaining maturities of LIBOR will continue to be published through June 2023. We believe our exposure to market risk associated with the discontinuation of LIBOR is limited as: (a) our 2020 Credit Agreement contains provisions which allow for the use of alternate benchmark rates, (b) we have not historically utilized the maturities that were discontinued in 2021 for any transaction, including borrowings under our 2020 Credit Agreement, and (c) we are not exposed to any other material contracts that reference LIBOR.

We are exposed to construction market risk and its potential related impact on accounts receivable or contract assets on uncompleted contracts. The amounts recorded may be at risk if our customers' ability to pay these obligations is negatively impacted by economic conditions. We continually monitor the creditworthiness of our customers and maintain on-going discussions with customers regarding contract status with respect to change orders and billing terms. Therefore, we believe we take appropriate action to manage market and other risks, but there is no assurance that we will be able to reasonably identify all risks with respect to the collectability of these assets. See also the previous discussion of Accounts Receivable and Allowance for Credit Losses under the heading "Critical Accounting Policies and Estimates" in Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Amounts invested in our foreign operations are translated into U.S. dollars at the exchange rates in effect at year end. The resulting translation adjustments are recorded as accumulated other comprehensive (loss) income, a component of equity, in the Consolidated Balance Sheets. We believe our exposure to the effects that fluctuating foreign currencies may have on our consolidated results of operations is limited because our foreign operations primarily invoice customers and collect obligations in their respective local currencies. Additionally, expenses associated with these transactions are generally contracted and paid for in their same local currencies.

In addition, we are exposed to market risk of fluctuations in certain commodity prices of materials, such as copper and steel, which are used as components of supplies or materials utilized in our construction, building services, and industrial services operations. We are also exposed to increases in energy prices, particularly as they relate to gasoline prices for our fleet of approximately 12,000 vehicles. While we believe we can increase our contract prices to adjust for some price increases in commodities, there can be no assurance that such price increases, if they were to occur, would be recoverable. Additionally, our fixed price contracts generally do not allow us to adjust our prices and, as a result, increases in material costs could reduce our profitability with respect to projects in progress. Refer to Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations for further discussion regarding the impact of fluctuations in commodity and material prices on our results of operations for the year ended December 31, 2021.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - NATURE OF OPERATIONS

References to the “Company,” “EMCOR,” “we,” “us,” “our” and similar words refer to EMCOR Group, Inc. and its consolidated subsidiaries unless the context indicates otherwise.

We are one of the largest specialty contractors in the United States and a leading provider of electrical and mechanical construction and facilities services, building services, and industrial services. Our services are provided to a broad range of commercial, industrial, utility, and institutional customers through approximately 90 operating subsidiaries, which specialize principally in providing construction services relating to electrical and mechanical systems in all types of facilities and in providing various services relating to the operation, maintenance, and management of those facilities.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its majority-owned subsidiaries and joint ventures. Significant intercompany accounts and transactions have been eliminated. All investments over which we exercise significant influence, but do not control (a 20% to 50% ownership interest), are accounted for using the equity method of accounting. For joint ventures that have been accounted for using the consolidation method of accounting, noncontrolling interests represent the allocation of earnings to our joint venture partners who either have a minority-ownership interest in the joint venture or are not at risk for the majority of losses of the joint venture.

The results of operations of companies acquired have been included in the results of operations from the date of the respective acquisition.

Principles of Preparation

The preparation of the consolidated financial statements, in conformity with accounting principles generally accepted in the United States, requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could materially differ from those estimates.

Our reportable segments and related disclosures reflect certain reclassifications of prior year amounts from our United States electrical construction and facilities services segment to our United States industrial services and our United States building services segments due to changes in our internal reporting structure aimed at realigning our service offerings.

Revenue Recognition

Revenue is recognized when promised goods or services are transferred to customers in an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. Refer to Note 3 - Revenue from Contracts with Customers of the notes to consolidated financial statements for additional information.

Cash and Cash Equivalents

For purposes of the consolidated financial statements, we consider all highly liquid instruments with original maturities of three months or less to be cash equivalents. We maintain a centralized cash management system whereby our excess cash balances are invested in high quality short-term money market instruments, which are considered cash equivalents. We have cash balances in certain of our domestic bank accounts that exceed federally insured limits.

Accounts Receivable and Allowance for Credit Losses

Accounts receivable are recognized in the period we deliver goods and services to our customers or when our right to consideration is unconditional. The Company maintains an allowance for credit losses to reduce outstanding receivables to their net realizable value. A considerable amount of judgment is required when determining expected credit losses. Estimates of such losses are recorded when we believe a customer, or group of customers, may not be able to meet their financial obligations due to deterioration in financial condition or credit rating. Factors relevant to our assessment include our prior collection history with our customers, the related aging of past due balances, projections of credit losses based on historical trends in credit quality indicators or past events, and forecasts of future economic conditions. In addition to monitoring delinquent accounts, management reviews the credit quality of its receivables by, among other things, obtaining credit ratings of significant customers, assessing economic and market conditions, and evaluating material changes to a customer’s business, cash flows, and financial condition.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

At December 31, 2021 and 2020, our accounts receivable of \$2,204.5 million and \$1,922.1 million, respectively, were recorded net of allowances for credit losses of \$23.5 million and \$18.0 million, respectively. The increase in our allowance for credit losses was predominantly attributable to our evaluation of specific outstanding receivables within our United States industrial services segment. Allowances for credit losses are based on the best facts available and are reassessed and adjusted on a regular basis as additional information is received. Should anticipated collections fail to materialize, or if future economic conditions compare unfavorably to our forecasts, we could experience an increase in our credit losses. The provision for credit losses during 2021, 2020, and 2019 amounted to approximately \$8.0 million, \$3.3 million, and \$2.6 million, respectively.

The change in the allowance for credit losses for the year ended December 31, 2021 was as follows (in thousands):

Balance at December 31, 2020	\$ 18,031
Provision for credit losses	8,041
Amounts written off against the allowance, net of recoveries	<u>(2,538)</u>
Balance at December 31, 2021	<u>\$ 23,534</u>

Inventories

Inventories are stated at the lower of cost or net realizable value. Cost is determined principally using the average cost method.

Leases

At the inception of a contract, we determine whether the arrangement is or contains a lease. Leases are classified as either operating or finance, based on our evaluation of certain criteria. With the exception of short-term leases (leases with an initial term of 12 months or less), we record right-of-use assets and corresponding lease liabilities on the Consolidated Balance Sheets for all leases with contractual fixed payments. Lease liabilities are measured at the present value of remaining lease payments, while right-of-use assets are initially set equal to the lease liability, as adjusted for any payments made prior to lease commencement, lease incentives, and any initial direct costs incurred by us. For operating leases, rent expense is recognized on a straight-line basis over the term of the lease, and right-of-use assets are subsequently re-measured to reflect the effect of uneven lease payments. For finance leases, right-of-use assets are amortized on a straight-line basis over the lease term. Expenses for finance leases include the amortization of right-of-use assets, which is recorded as depreciation and amortization expense, and interest expense, which reflects interest accrued on the lease liability.

Short-term leases are not recorded on the Consolidated Balance Sheets but are expensed on a straight-line basis over the lease term. The majority of the Company's short-term leases relate to equipment used on construction projects. Such equipment leases are considered short-term in nature unless it is reasonably certain that the equipment will be leased for a period greater than 12 months.

Refer to Note 16 - Leases of the notes to consolidated financial statements for additional information.

Property, Plant and Equipment

Property, plant and equipment is stated at cost. Depreciation, including amortization of assets under finance leases, is recorded principally using the straight-line method over estimated useful lives of 3 to 10 years for machinery and equipment, 3 to 7 years for vehicles, furniture and fixtures and computer hardware/software, and 25 years for buildings. Leasehold improvements are amortized over the shorter of the remaining lease term or the expected useful life of the improvement.

The carrying values of property, plant and equipment are reviewed for impairment whenever facts and circumstances indicate that the carrying amount may not be fully recoverable. In performing this review for recoverability, property, plant and equipment is assessed for possible impairment by comparing their carrying values to their undiscounted net pre-tax cash flows expected to result from the use of the asset. Impaired assets are written down to their fair values, generally determined based on their estimated future discounted cash flows.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Goodwill, Identifiable Intangible Assets, and Other Long-Lived Assets

Goodwill and indefinite-lived intangible assets, such as trade names, are evaluated at least annually for impairment (each October 1, absent any earlier identified impairment indicators) and are written down if impaired. Identifiable intangible assets with finite lives are amortized over their useful lives and are reviewed for impairment whenever facts and circumstances indicate that their carrying values may not be fully recoverable. See Note 8 - Goodwill, Identifiable Intangible Assets, and Other Long-Lived Assets of the notes to consolidated financial statements for additional information.

Insurance Liabilities

We have loss payment deductibles for certain workers' compensation, automobile liability, general liability, and property claims, have self-insured retentions for certain other casualty claims, and are self-insured for employee-related healthcare claims. In addition, we maintain a wholly-owned captive insurance subsidiary to manage certain of our insurance liabilities. Losses are recorded based upon estimates of our liability for claims incurred and for claims incurred but not reported. The liabilities are derived from known facts, historical trends, and industry averages, utilizing the assistance of an independent third-party actuary to determine the best estimate for the majority of these obligations. As of December 31, 2021 and 2020, the estimated current portion of such undiscounted insurance liabilities, included in "Other accrued expenses and liabilities" in the accompanying Consolidated Balance Sheets, were \$61.5 million and \$48.2 million, respectively. The estimated non-current portion of such undiscounted insurance liabilities included in "Other long-term obligations" as of December 31, 2021 and 2020 were \$242.4 million and \$192.8 million, respectively. The current portion of anticipated insurance recoveries of \$26.4 million and \$14.4 million as of December 31, 2021 and 2020, respectively, were included in "Prepaid expenses and other" and the non-current portion of anticipated insurance recoveries of \$99.0 million and \$54.3 million as of December 31, 2021 and 2020, respectively, were included in "Other assets" in the accompanying Consolidated Balance Sheets. These balances increased from December 31, 2020 as a result of revised estimates for claims on which we expect substantial coverage by insurance.

Foreign Operations

The financial statements and transactions of our foreign subsidiaries are maintained in their functional currency and translated into U.S. dollars when preparing our consolidated financial statements. Statements of operations, comprehensive income, and cash flows are translated using weighted average monthly exchange rates, while balance sheets are translated at month-end exchange rates. Translation adjustments are recorded as "Accumulated other comprehensive loss," a separate component of "Equity."

Income Taxes

The Company follows the liability method of accounting for income taxes. Under this method, deferred income tax assets and liabilities are recognized for the expected future tax consequences of temporary differences between the financial statement and income tax bases of assets and liabilities as well as for net operating loss and tax credit carryforwards. Deferred income taxes are valued using enacted tax rates expected to be in effect when income taxes are paid or recovered, with the effect of a change in tax laws or rates recognized in the statement of operations in the periods in which such change is enacted. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the period in which those temporary differences become deductible. Deferred income taxes are recorded net of a valuation allowance when it is more likely than not that all or a portion of a deferred tax asset will not be realized. In making such determination, we consider all available evidence, including projections of future taxable income, tax-planning strategies, and recent results of operations.

Tax benefits associated with uncertain tax positions are recognized only if it is more likely than not that the tax position would be sustained on its technical merits. For positions not meeting the "more likely than not" test, no tax benefit is recognized. To the extent interest and penalties may be assessed related to unrecognized tax benefits, we record accruals for such amounts as a component of the income tax provision. We had no unrecognized income tax benefits as of December 31, 2021 and 2020.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Valuation of Share-Based Compensation Plans

Our share-based compensation plans and programs are administered by our Board of Directors or its Compensation and Personnel Committee. See Note 13 - Share-Based Compensation Plans of the notes to consolidated financial statements for additional information regarding these share-based compensation plans and programs.

We recognize all share-based payments issued to acquire goods or services in the statement of operations based on the fair value of such payments. Compensation expense related to share-based awards is generally recognized on a straight-line basis over the requisite service period, which is generally the vesting period. The benefits of tax deductions in excess of recognized compensation expense are recognized in the Consolidated Statements of Operations when the underlying awards vest or are settled.

New Accounting Pronouncements

On January 1, 2021, we adopted the accounting pronouncement issued by the Financial Accounting Standards Board (“FASB”) that simplifies the accounting for income taxes by eliminating certain exceptions to the guidance in Accounting Standards Codification (“ASC”) 740 related to intraperiod tax allocations and the methodology for calculating income taxes in an interim period. The guidance also simplifies aspects of the accounting for franchise taxes as well as enacted changes in tax laws or rates and clarifies the accounting for transactions that result in a step-up in the tax basis of goodwill. The adoption of this accounting pronouncement did not have a material impact on our financial position and/or results of operations.

The Company is currently evaluating the impact of an accounting standards update issued by the FASB, which provides temporary optional expedients and exceptions to existing U.S. GAAP. This guidance is aimed at easing the financial reporting burdens related to reference rate reform, including the expected market transition from LIBOR, or other interbank offered rates, to alternative reference rates. Such accounting pronouncement allows entities to account for and present certain contract modifications, which occur before December 31, 2022 and result from the transition to an alternative reference rate, as an event that does not require remeasurement at the modification date or reassessment of a previous accounting determination. While we are still evaluating the impact of this pronouncement, we do not anticipate that it will have a material impact on our financial position and/or results of operations, as we are not exposed to any contracts that reference LIBOR, other than our credit agreement dated as of March 2, 2020, which contains provisions that allow for the amendment of such agreement to use alternative reference rates in the event of the discontinuation of LIBOR.

In October 2021, an accounting pronouncement was issued by the FASB, which changes how an entity accounts for revenue contracts it acquires in a business combination. The pronouncement requires entities to apply the revenue recognition guidance within ASC 606 to recognize and measure contract assets and liabilities from contracts with customers in a business combination, creating an exception to the fair value recognition and measurement principle typically utilized when valuing acquired assets. The guidance is aimed at improving comparability by addressing when an acquirer should recognize a contract asset or contract liability, as well as how such assets and liabilities should be measured, and will generally result in companies recognizing contract assets and contract liabilities at amounts consistent with those recorded by the target entity prior to acquisition. This guidance is effective for public business entities for fiscal years beginning after December 15, 2022, with early adoption permitted. We are currently evaluating the potential impact of this accounting pronouncement; however, we do not believe that its adoption will have a material impact on our financial position and/or results of operations.

NOTE 3 - REVENUE FROM CONTRACTS WITH CUSTOMERS

The Company recognizes revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which we expect to be entitled in exchange for those goods or services by applying the following five step model:

(1) Identify the contract with a customer

A contract with a customer exists when: (a) the parties have approved the contract and are committed to perform their respective obligations, (b) the rights of the parties can be identified, (c) payment terms can be identified, (d) the arrangement has commercial substance, and (e) collectability of consideration is probable. Judgment is required when determining if the contractual criteria are met, specifically in the earlier stages of a project when a formally executed contract may not yet exist. In these situations, the Company evaluates all relevant facts and circumstances, including the existence of other forms of documentation or historical experience with our customers that may indicate a contractual agreement is in place and revenue should be recognized. In determining if the collectability of consideration is probable, the Company considers the customer’s ability and intention to pay such consideration through an evaluation of several factors, including an assessment of the creditworthiness of the customer and our prior collection history with such customer.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 3 - REVENUE FROM CONTRACTS WITH CUSTOMERS (Continued)

(2) Identify the performance obligations in the contract

At contract inception, the Company assesses the goods or services promised in a contract and identifies, as a separate performance obligation, each distinct promise to transfer goods or services to the customer. The identified performance obligations represent the “unit of account” for purposes of determining revenue recognition. In order to properly identify separate performance obligations, the Company applies judgment in determining whether each good or service provided is: (a) capable of being distinct, whereby the customer can benefit from the good or service either on its own or together with other resources that are readily available to the customer, and (b) distinct within the context of the contract, whereby the transfer of the good or service to the customer is separately identifiable from other promises in the contract.

In addition, when assessing performance obligations within a contract, the Company considers the warranty provisions included within such contract. To the extent the warranty terms provide the customer with an additional service, other than assurance that the promised good or service complies with agreed upon specifications, such warranty is accounted for as a separate performance obligation. In determining whether a warranty provides an additional service, the Company considers each warranty provision in comparison to warranty terms which are standard in the industry.

Our contracts are often modified through change orders to account for changes in the scope and price of the goods or services we are providing. Although the Company evaluates each change order to determine whether such modification creates a separate performance obligation, the majority of our change orders are for goods or services that are not distinct within the context of our original contract and, therefore, are not treated as separate performance obligations.

(3) Determine the transaction price

The transaction price represents the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to our customers. The consideration promised within a contract may include fixed amounts, variable amounts, or both. To the extent the performance obligation includes variable consideration, including contract bonuses and penalties that can either increase or decrease the transaction price, the Company estimates the amount of variable consideration to be included in the transaction price utilizing one of two prescribed methods, depending on which method better predicts the amount of consideration to which the entity will be entitled. Such methods include: (a) the expected value method, whereby the amount of variable consideration to be recognized represents the sum of probability-weighted amounts in a range of possible consideration amounts, and (b) the most likely amount method, whereby the amount of variable consideration to be recognized represents the single most likely amount in a range of possible consideration amounts. When applying these methods, the Company considers all information that is reasonably available, including historical, current, and estimates of future performance. The expected value method is typically utilized in situations where a contract contains a large number of possible outcomes while the most likely amount method is typically utilized in situations where a contract has only two possible outcomes.

Variable consideration is included in the transaction price only to the extent it is probable, in the Company’s judgment, that a significant future reversal in the amount of cumulative revenue recognized under the contract will not occur when the uncertainty associated with the variable consideration is subsequently resolved. This threshold is referred to as the variable consideration constraint. In assessing whether to apply the variable consideration constraint, the Company considers if factors exist that could increase the likelihood or the magnitude of a potential reversal of revenue, including, but not limited to, whether: (a) the amount of consideration is highly susceptible to factors outside of the Company’s influence, such as the actions of third parties, (b) the uncertainty surrounding the amount of consideration is not expected to be resolved for a long period of time, (c) the Company’s experience with similar types of contracts is limited or that experience has limited predictive value, (d) the Company has a practice of either offering a broad range of price concessions or changing the payment terms and conditions of similar contracts in similar circumstances, and (e) the contract has a large number and broad range of possible consideration amounts.

Pending change orders represent one of the most common forms of variable consideration included within contract value and typically represent contract modifications for which a change in scope has been authorized or acknowledged by our customer but the final adjustment to contract price is yet to be negotiated. In estimating the transaction price for pending change orders, the Company considers all relevant facts, including documented correspondence with the customer regarding acknowledgment of and/or agreement with the modification, as well as historical experience with the customer or similar contractual circumstances. Based upon this assessment, the Company estimates the transaction price, including whether the variable consideration constraint should be applied.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 3 - REVENUE FROM CONTRACTS WITH CUSTOMERS (Continued)

Contract claims are another form of variable consideration which is common within our industry. Claim amounts represent revenue that has been recognized for contract modifications that are not submitted or are in dispute as to both scope and price. In estimating the transaction price for claims, the Company considers all relevant facts available. However, given the uncertainty surrounding claims, including the potential long-term nature of dispute resolution and the broad range of possible consideration amounts, there is an increased likelihood that any additional contract revenue associated with contract claims is constrained. The resolution of claims involves negotiations and, in certain cases, litigation. In the event litigation costs are incurred by us in connection with claims, such litigation costs are expensed as incurred, although we may seek to recover these costs.

For some transactions, the receipt of consideration does not match the timing of the transfer of goods or services to the customer. For such contracts, the Company evaluates whether this timing difference represents a financing arrangement within the contract. Although rare, if a contract is determined to contain a significant financing component, the Company adjusts the promised amount of consideration for the effects of the time value of money when determining the transaction price of such contract. Although our customers may retain a portion of the contract price until completion of the project and final contract settlement, these retainage amounts are not considered a significant financing component as the intent of the withheld amounts is to provide the customer with assurance that we will complete our obligations under the contract rather than to provide financing to the customer. In addition, although we may be entitled to advanced payments from our customers on certain contracts, these advanced payments generally do not represent a significant financing component as the payments are used to meet working capital demands that can be higher in the early stages of a contract, as well as to protect us from our customer failing to meet its obligations under the contract.

Changes in the estimates of transaction prices are recognized on a cumulative catch-up basis in the period in which the revisions to the estimates are made. Such changes in estimates can result in the recognition of revenue in a current period for performance obligations which were satisfied or partially satisfied in prior periods. Such changes in estimates may also result in the reversal of previously recognized revenue if the ultimate outcome differs from the Company's previous estimate. There were no significant amounts of revenue recognized during the years ended December 31, 2021 or 2019 related to performance obligations satisfied in prior periods. During the year ended December 31, 2020, we recognized revenue of \$6.1 million associated with the final settlement of the contract value for two projects within our United States electrical construction and facilities services segment that were completed or substantially completed in prior periods. For each of the years ended December 31, 2021, 2020, and 2019, there were no significant reversals of revenue recognized associated with the revision of transaction prices.

(4) Allocate the transaction price to performance obligations in the contract

For contracts that contain multiple performance obligations, the Company allocates the transaction price to each performance obligation based on a relative standalone selling price. The Company determines the standalone selling price based on the price at which the performance obligation would have been sold separately in similar circumstances to similar customers. If the standalone selling price is not observable, the Company estimates the standalone selling price taking into account all available information such as market conditions and internal pricing guidelines. In certain circumstances, the standalone selling price is determined using an expected profit margin on anticipated costs related to the performance obligation.

(5) Recognize revenue as performance obligations are satisfied

The Company recognizes revenue at the time the related performance obligation is satisfied by transferring a promised good or service to its customers. A good or service is considered to be transferred when the customer obtains control. The Company can transfer control of a good or service and satisfy its performance obligations either over time or at a point in time. The Company transfers control of a good or service over time and, therefore, satisfies a performance obligation and recognizes revenue over time if one of the following three criteria are met: (a) the customer simultaneously receives and consumes the benefits provided by the Company's performance as we perform, (b) the Company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced, or (c) the Company's performance does not create an asset with an alternative use to us, and we have an enforceable right to payment for performance completed to date.

For our performance obligations satisfied over time, we recognize revenue by measuring the progress toward complete satisfaction of that performance obligation. The selection of the method to measure progress towards completion can be either an input method or an output method and requires judgment based on the nature of the goods or services to be provided.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 3 - REVENUE FROM CONTRACTS WITH CUSTOMERS (Continued)

For our construction contracts, revenue is generally recognized over time as our performance creates or enhances an asset that the customer controls as it is created or enhanced. Our fixed price construction projects generally use a cost-to-cost input method to measure our progress towards complete satisfaction of the performance obligation as we believe it best depicts the transfer of control to the customer which occurs as we incur costs on our contracts. Under the cost-to-cost measure of progress, the extent of progress towards completion is measured based on the ratio of costs incurred to date to the total estimated costs at completion of the performance obligation. For our unit price construction contracts, progress towards complete satisfaction is measured through an output method, such as the number of units produced or delivered, when our performance does not produce significant amounts of work in process or finished goods prior to complete satisfaction of such performance obligations.

For our services contracts, revenue is also generally recognized over time as the customer simultaneously receives and consumes the benefits of our performance as we perform the service. For our fixed price service contracts with specified service periods, revenue is generally recognized on a straight-line basis over such service period when our inputs are expended evenly, and the customer receives and consumes the benefits of our performance throughout the contract term.

The timing of revenue recognition for the manufacturing of new build heat exchangers within our United States industrial services segment depends on the payment terms of the contract, as our performance does not create an asset with an alternative use to us. For those contracts for which we have a right to payment for performance completed to date at all times throughout our performance, inclusive of a cancellation, we recognize revenue over time. For these performance obligations, we use a cost-to-cost input method to measure our progress towards complete satisfaction of the performance obligation as we believe it best depicts the transfer of control to the customer which occurs as we incur costs on our contracts. However, for those contracts for which we do not have a right, at all times, to payment for performance completed to date, we recognize revenue at the point in time when control is transferred to the customer. For bill-and-hold arrangements, revenue is recognized when the customer obtains control of the heat exchanger, which may be prior to shipping if certain recognition criteria are met.

For certain of our revenue streams, such as call-out repair and service work, outage services, refinery turnarounds, and specialty welding services that are performed under time and materials contracts, our progress towards complete satisfaction of such performance obligations is measured using an output method as the customer receives and consumes the benefits of our performance completed to date.

Due to uncertainties inherent in the estimation process, it is possible that estimates of costs to complete a performance obligation will be revised in the near-term. For those performance obligations for which revenue is recognized using a cost-to-cost input method, changes in total estimated costs, and related progress towards complete satisfaction of the performance obligation, are recognized on a cumulative catch-up basis in the period in which the revisions to the estimates are made. When the current estimate of total costs for a performance obligation indicate a loss, a provision for the entire estimated loss on the unsatisfied performance obligation is made in the period in which the loss becomes evident. During each of the years ended December 31, 2021, 2020, and 2019, there were no changes in total estimated costs that had a significant impact on our operating results. In addition, there were no significant losses recognized during each of the years ended December 31, 2021, 2020, and 2019.

Disaggregation of Revenues

Our revenues are principally derived from contracts to provide construction services relating to electrical and mechanical systems, as well as to provide a number of building services and industrial services to our customers. Our contracts are with many different customers in numerous industries. Refer to Note 18 - Segment Information of the notes to consolidated financial statements for additional information on how we disaggregate our revenues by reportable segment, as well as a more complete description of our business.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Project work	248,062	49 %	209,190	49 %	210,383	50 %
Total segment revenues	<u>\$ 509,951</u>		<u>\$ 430,563</u>		<u>\$ 423,259</u>	
Total operations	<u>\$9,903,580</u>		<u>\$8,797,061</u>		<u>\$9,174,611</u>	

Contract Assets and Contract Liabilities

The timing of revenue recognition may differ from the timing of invoicing to customers. Contract assets include unbilled amounts from our construction projects when revenues recognized under the cost-to-cost measure of progress exceed the amounts invoiced to our customers, as the amounts are not yet billable under the terms of our contracts. Such amounts are recoverable from our customers based upon various measures of performance, including achievement of certain milestones, completion of specified units, or completion of a contract. In addition, many of our time and materials arrangements, as well as our contracts to perform turnaround services within the United States industrial services segment, are billed in arrears pursuant to contract terms that are standard within the industry, resulting in contract assets and/or unbilled receivables being recorded as revenue is recognized in advance of billings. Also included in contract assets are amounts we seek or will seek to collect from customers or others for errors or changes in contract specifications or design, contract change orders or modifications in dispute or unapproved as to scope and/or price, or other customer-related causes of unanticipated additional contract costs (claims and unapproved change orders). Our contract assets do not include capitalized costs to obtain and fulfill a contract. Contract assets are generally classified as current within the Consolidated Balance Sheets.

As of December 31, 2021 and 2020, contract assets included unbilled revenues for unapproved change orders of approximately \$24.1 million and \$15.3 million, respectively. Contract assets as of December 31, 2021 additionally included \$2.5 million associated with claims. There were no claim amounts included within accounts receivable as of December 31, 2021 or within contract assets or accounts receivable as of December 31, 2020. There were contractually billed amounts and retention related to contracts with unapproved change orders and claims of approximately \$130.7 million and \$87.9 million as of December 31, 2021 and 2020, respectively. For contracts in claim status, contractually billed amounts will generally not be paid by the customer to us until final resolution of the related claims.

Contract liabilities from our construction contracts arise when amounts invoiced to our customers exceed revenues recognized under the cost-to-cost measure of progress. Contract liabilities additionally include advanced payments from our customers on certain contracts. Contract liabilities decrease as we recognize revenue from the satisfaction of the related performance obligation and are recorded as either current or long-term, depending upon when we expect to recognize such revenue. The long-term portion of contract liabilities is included in "Other long-term obligations" in the Consolidated Balance Sheets.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 3 - REVENUE FROM CONTRACTS WITH CUSTOMERS (Continued)

Net contract liabilities in the accompanying Consolidated Balance Sheets consisted of the following amounts as of December 31, 2021 and 2020 (in thousands):

	December 31, 2021	December 31, 2020
Contract assets, current	\$ 230,143	\$ 171,956
Contract assets, non-current	—	—
Contract liabilities, current	(788,134)	(722,252)
Contract liabilities, non-current	(2,505)	(2,283)
Net contract liabilities	<u>\$ (560,496)</u>	<u>\$ (552,579)</u>

Included within net contract liabilities were \$500.3 million and \$496.8 million of net contract liabilities on uncompleted construction projects as of December 31, 2021 and 2020, respectively, as follows (in thousands):

	December 31, 2021	December 31, 2020
Costs incurred on uncompleted construction contracts	\$ 11,034,038	\$ 10,727,358
Estimated earnings, thereon	1,731,479	1,640,250
	12,765,517	12,367,608
Less: billings to date	13,265,865	12,864,404
	<u>\$ (500,348)</u>	<u>\$ (496,796)</u>

Contract assets and contract liabilities increased by approximately \$8.1 million and \$23.2 million, respectively, as a result of acquisitions made by us in 2021. Excluding the impact of acquisitions, net contract liabilities decreased by approximately \$7.2 million for the year ended December 31, 2021, primarily as a result of the timing of invoicing to customers on our uncompleted construction projects, which, based on the various stages of completion, included a greater percentage of contracts that were recorded in contract asset positions. There was no significant impairment of contract assets recognized during the periods presented.

Contract Retentions

As of December 31, 2021 and 2020, accounts receivable included \$375.3 million and \$323.9 million, respectively, of retainage billed under terms of our contracts. These retainage amounts represent amounts which have been contractually invoiced to customers where payments have been partially withheld pending the achievement of certain milestones, satisfaction of other contractual conditions, or completion of the project. We estimate that approximately 90% of the retainage outstanding as of December 31, 2021 will be collected during 2022.

As of December 31, 2021 and 2020, accounts payable included \$71.1 million and \$59.8 million, respectively, of retainage withheld under terms of our subcontracts. These retainage amounts represent amounts invoiced to the Company by our subcontractors where payments have been partially withheld pending the achievement of certain milestones, satisfaction of other contractual conditions, or upon completion of the project. We estimate that approximately 90% of the retainage outstanding as of December 31, 2021 will be paid during 2022.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 3 - REVENUE FROM CONTRACTS WITH CUSTOMERS (Continued)

Transaction Price Allocated to Remaining Unsatisfied Performance Obligations

The following table presents the transaction price allocated to remaining unsatisfied performance obligations (“remaining performance obligations”) for each of our reportable segments and their respective percentages of total remaining performance obligations (in thousands, except for percentages):

	<u>December 31,</u> <u>2021</u>	<u>% of</u> <u>Total</u>
Remaining performance obligations:		
United States electrical construction and facilities services	\$ 1,210,568	22 %
United States mechanical construction and facilities services	3,320,359	59 %
United States building services	838,324	15 %
United States industrial services	111,838	2 %
Total United States operations	<u>5,481,089</u>	<u>98 %</u>
United Kingdom building services	118,208	2 %
Total operations	<u>\$ 5,599,297</u>	<u>100 %</u>

Our remaining performance obligations at December 31, 2021 were \$5.60 billion. Remaining performance obligations increase with awards of new contracts and decrease as we perform work and recognize revenue on existing contracts. We include a project within our remaining performance obligations at such time the project is awarded and agreement on contract terms has been reached. Our remaining performance obligations include amounts related to contracts for which a fixed price contract value is not assigned when a reasonable estimate of the total transaction price can be made.

Remaining performance obligations include unrecognized revenues to be realized from uncompleted construction contracts. Although many of our construction contracts are subject to cancellation at the election of our customers, in accordance with industry practice, we do not limit the amount of unrecognized revenue included within remaining performance obligations for these contracts as the risk of cancellation is very low due to the inherent substantial economic penalty that our customers would incur upon cancellation or termination. We believe our reported remaining performance obligations for our construction contracts are firm and contract cancellations have not had a material adverse effect on us.

Remaining performance obligations also include unrecognized revenues expected to be realized over the remaining term of service contracts. However, to the extent a service contract includes a cancellation clause which allows for the termination of such contract by either party without a substantive penalty, the remaining contract term, and therefore, the amount of unrecognized revenues included within remaining performance obligations, is limited to the notice period required for the termination.

Our remaining performance obligations are comprised of: (a) original contract amounts, (b) change orders for which we have received written confirmations from our customers, (c) pending change orders for which we expect to receive confirmations in the ordinary course of business, (d) claim amounts that we have made against customers for which we have determined we have a legal basis under existing contractual arrangements and as to which the variable consideration constraint does not apply, and (e) other forms of variable consideration to the extent that such variable consideration has been included within the transaction price of our contracts. Such claim and other variable consideration amounts were immaterial for all periods presented.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 3 - REVENUE FROM CONTRACTS WITH CUSTOMERS (Continued)

Refer to the table below for additional information regarding our remaining performance obligations, including an estimate of when we expect to recognize such remaining performance obligations as revenue (in thousands):

	<u>Within one year</u>	<u>Greater than one year</u>
Remaining performance obligations:		
United States electrical construction and facilities services	\$ 1,073,432	\$ 137,136
United States mechanical construction and facilities services	2,640,609	679,750
United States building services	751,602	86,722
United States industrial services	111,838	—
Total United States operations	<u>4,577,481</u>	<u>903,608</u>
United Kingdom building services	92,371	25,837
Total operations	<u>\$ 4,669,852</u>	<u>\$ 929,445</u>

NOTE 4 - ACQUISITIONS OF BUSINESSES

Acquisitions are accounted for utilizing the acquisition method of accounting and the prices paid for them are allocated to their respective assets and liabilities based upon the estimated fair value of such assets and liabilities at the dates of their respective acquisition by us.

During 2021, we acquired eight companies for total consideration of \$131.2 million. Such acquisitions include: (a) two companies, the results of operations of which have been included within our United States mechanical construction and facilities services segment, consisting of: (i) a company that provides mechanical services within the Southern region of the United States and (ii) a company that provides fire protection services in the Midwestern region of the United States, (b) two companies that provide electrical construction services for a broad array of customers in the Midwestern region of the United States, the results of operations of which have been included in our United States electrical construction and facilities services segment, and (c) four companies, the results of operations of which have been included within our United States building services segment, consisting of: (i) a company that provides mobile mechanical services across North Texas and (ii) three companies that bolster our presence in geographies where we have existing operations and provide either mobile mechanical services or building automation and controls solutions. In connection with these acquisitions, we acquired working capital of \$22.9 million and other net liabilities of \$0.6 million, including certain deferred tax liabilities, and have preliminarily ascribed \$38.3 million to goodwill and \$70.6 million to identifiable intangible assets.

During 2020, we acquired three companies for total consideration of \$50.3 million. Such acquisitions include: (a) a company that provides building automation and controls solutions within the Northeastern region of the United States, (b) a full service provider of mechanical services in the Washington, D.C. metro area, and (c) a company that provides mobile mechanical services in the Southern region of the United States. The results of operations for all three companies have been included within our United States building services segment. In connection with these acquisitions, we acquired working capital of \$3.0 million and other net liabilities of \$3.9 million and have ascribed \$13.1 million to goodwill and \$38.1 million to identifiable intangible assets.

On November 1, 2019, we completed the acquisition of Batchelor & Kimball, Inc. (“BKI”), a leading full service provider of mechanical construction and maintenance services. This acquisition strengthens our position and broadens our capabilities in the Southern and Southeastern regions of the United States, and the results of its operations have been included within our United States mechanical construction and facilities services segment. Under the terms of the transaction, we acquired 100% of BKI’s outstanding capital stock for total consideration of approximately \$220.3 million. In connection with the acquisition of BKI, we acquired working capital of \$29.8 million and other net assets of \$4.9 million and have ascribed \$43.9 million to goodwill and \$141.7 million to identifiable intangible assets. Goodwill is calculated as the excess of the consideration transferred over the fair value of the net assets acquired and represents the future economic benefits expected from this strategic acquisition. The weighted average amortization period for the identifiable intangible assets, which consist of a trade name, customer relationships, and contract backlog, is approximately 10.5 years.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 4 - ACQUISITIONS OF BUSINESSES (Continued)

In addition to BKI, during 2019, we completed six other acquisitions for total consideration of \$85.4 million. Such acquisitions include: (a) a company that provides electrical contracting services in central Iowa, the results of operations of which have been included within our United States electrical construction and facilities services segment, (b) a company that provides mechanical contracting services in south-central and eastern Texas, the results of operations of which have been included within our United States mechanical construction and facilities services segment, and (c) four companies within our United States building services segment which bolster our presence in geographies where we have existing operations and provide either mobile mechanical services or building automation and controls solutions. In connection with these acquisitions, we acquired working capital of \$25.3 million and other net assets of \$1.3 million and have ascribed \$29.2 million to goodwill and \$29.6 million to identifiable intangible assets.

We expect that the majority of the goodwill acquired in connection with these acquisitions will be deductible for tax purposes. The purchase price allocations for two of the businesses acquired in 2021 are preliminary and subject to change during their respective measurement periods. As we finalize such purchase price allocations, adjustments may be recorded relating to finalization of intangible asset valuations, tax matters, or other items. Although not expected to be significant, such adjustments may result in changes in the valuation of assets and liabilities acquired. The purchase price allocations for the other businesses acquired in 2021 and the businesses acquired in 2020 and 2019 have been finalized during their respective measurement periods with an insignificant impact.

NOTE 5 - EARNINGS PER SHARE

The following tables summarize our calculation of Basic and Diluted Earnings per Common Share (“EPS”) for the years ended December 31, 2021, 2020, and 2019 (in thousands, except share and per share data):

	2021	2020	2019
Numerator:			
Net income attributable to EMCOR Group, Inc. common stockholders	\$ 383,532	\$ 132,943	\$ 325,140
Denominator:			
Weighted average shares outstanding used to compute basic earnings per common share	54,068,982	55,196,173	56,208,280
Effect of dilutive securities—Share-based awards	278,552	225,098	311,001
Shares used to compute diluted earnings per common share	54,347,534	55,421,271	56,519,281
Basic earnings per common share	\$ 7.09	\$ 2.41	\$ 5.78
Diluted earnings per common share	\$ 7.06	\$ 2.40	\$ 5.75

The number of outstanding share-based awards excluded from the computation of diluted EPS for the years ended December 31, 2021, 2020, and 2019 because they would be anti-dilutive were 9,250, 24,450, and 4,800, respectively.

NOTE 6 - INVENTORIES

Inventories in the accompanying Consolidated Balance Sheets consisted of the following amounts as of December 31, 2021 and 2020 (in thousands):

	December 31, 2021	December 31, 2020
Raw materials and construction materials	\$ 46,186	\$ 42,240
Work in process	7,912	11,098
Inventories	<u>\$ 54,098</u>	<u>\$ 53,338</u>

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 7 - PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment in the accompanying Consolidated Balance Sheets consisted of the following amounts as of December 31, 2021 and 2020 (in thousands):

	December 31, 2021	December 31, 2020
Machinery and equipment	\$ 188,022	\$ 176,031
Vehicles	65,946	61,624
Furniture and fixtures	23,698	23,724
Computer hardware/software	108,830	111,846
Land, buildings and leasehold improvements	127,736	124,309
Construction in progress	6,125	7,754
Finance lease right-of-use assets ⁽¹⁾	7,666	9,638
	<u>528,023</u>	<u>514,926</u>
Accumulated depreciation and amortization	<u>(375,957)</u>	<u>(356,499)</u>
	<u>\$ 152,066</u>	<u>\$ 158,427</u>

⁽¹⁾ Finance lease right-of-use assets are recorded net of accumulated amortization.

Depreciation and amortization expense related to property, plant and equipment, including finance leases, was \$48.3 million, \$46.7 million, and \$43.9 million for the years ended December 31, 2021, 2020, and 2019, respectively.

NOTE 8 - GOODWILL, IDENTIFIABLE INTANGIBLE ASSETS, AND OTHER LONG-LIVED ASSETS

Goodwill

In connection with our acquisition of businesses, we have recorded goodwill, which represents the excess of the consideration transferred over the fair value of the net tangible and identifiable intangible assets acquired. Our goodwill balance at December 31, 2021 and 2020 was \$890.3 million and \$851.8 million, respectively, with goodwill attributable to companies acquired in 2021 and 2020 valued at \$38.3 million and \$13.1 million, respectively. Goodwill is not amortized but instead allocated to its respective reporting unit and evaluated for impairment annually, or more frequently if events or circumstances indicate that the carrying amount of goodwill may be impaired. We have determined that our reporting units are consistent with the reportable segments identified in Note 18 - Segment Information of the notes to consolidated financial statements. As of December 31, 2021, approximately 17.9% of our goodwill related to our United States electrical construction and facilities services segment, approximately 34.2% of our goodwill related to our United States mechanical construction and facilities services segment, approximately 35.1% of our goodwill related to our United States building services segment and approximately 12.8% of our goodwill related to our United States industrial services segment.

Absent any earlier identified impairment indicators, we perform our annual goodwill impairment assessment on October 1 each fiscal year. Qualitative indicators that may trigger the need for interim quantitative impairment testing include, among others, deterioration in macroeconomic conditions, declining financial performance, deterioration in the operational environment, or an expectation of selling or disposing of a portion of a reporting unit. Additionally, an interim impairment test may be triggered by a significant change in business climate, a loss of a significant customer, increased competition, or a sustained decrease in share price. In assessing whether our goodwill is impaired, we compare the fair value of the reporting unit to its carrying amount, including goodwill. If the fair value exceeds the carrying amount, no impairment is recognized. However, if the carrying amount of the reporting unit exceeds the fair value, the goodwill of the reporting unit is impaired and an impairment loss in the amount of the excess is recognized and charged to operations.

We performed our 2021 annual impairment assessment of all reporting units as of October 1, 2021, and determined there was no impairment of goodwill. In completing our annual impairment assessment, we determined the fair value of each of our reporting units using an income approach whereby fair value was calculated utilizing discounted estimated future cash flows, assuming a risk-adjusted industry weighted average cost of capital. The weighted average cost of capital used in our annual impairment testing was 10.4% for our United States construction segments and our United States building services segment, and 11.3% for our United States industrial services segment. These weighted average cost of capital estimates were developed with the assistance of an independent third-party valuation specialist and reflect the overall level of inherent risk within the respective reporting unit and the rate of return a market participant would expect to earn. Our cash flow projections were derived from our most recent internal forecasts of anticipated revenue growth rates and operating margins, with cash flows beyond the discrete forecast period estimated using a terminal value calculation which incorporated historical and forecasted trends, an estimate of long-term growth rates, and assumptions about the future demand for our services. The perpetual growth rate used for our annual testing was 2.0% for all of our reporting units.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 8 - GOODWILL, IDENTIFIABLE INTANGIBLE ASSETS, AND OTHER LONG-LIVED ASSETS (Continued)

During the second quarter of 2020, we concluded that the carrying amount of our United States industrial services segment exceeded its fair value, resulting in the recognition of a non-cash goodwill impairment charge of \$225.5 million which was included within our results of operations for the year ended December 31, 2020. An interim impairment assessment was considered necessary as a result of the significant impact the COVID-19 pandemic and concurrent decline in demand for oil and other refined products had on our near term revenue and operating margin expectations for such segment. The valuation methodology utilized in this prior year interim impairment test was consistent with the approach described above. We did not identify indicators of impairment related to any other reporting unit that would have required an interim impairment assessment during 2020 and there was no other impairment of goodwill recognized for the years ended December 31, 2020 or 2019.

Due to the inherent uncertainties involved in making estimates, our assumptions may change in future periods. Estimates and assumptions made for purposes of our goodwill impairment testing may prove to be inaccurate predictions of the future, and other factors used in assessing fair value, such as the weighted average cost of capital, are outside the control of management. Unfavorable changes in certain of these key assumptions may affect future testing results. For example, keeping all other assumptions constant, a 50 basis point increase in the weighted average cost of capital would cause the estimated fair values of our United States electrical construction and facilities services segment, our United States mechanical construction and facilities services segment, our United States building services segment, and our United States industrial services segment to decrease by approximately \$103.6 million, \$185.5 million, \$74.5 million, and \$25.9 million, respectively. In addition, keeping all other assumptions constant, a 50 basis point reduction in the perpetual growth rate would cause the estimated fair values of our United States electrical construction and facilities services segment, our United States mechanical construction and facilities services segment, our United States building services segment, and our United States industrial services segment to decrease by approximately \$52.4 million, \$95.9 million, \$35.8 million, and \$9.5 million, respectively. Given the amounts by which the fair value exceeds the carrying value for each of our reporting units, the decreases in estimated fair values described above would not have significantly impacted the results of our 2021 impairment tests. Further, for each of our reporting units, other than our United States industrial services segment, a 10% decline in the estimated fair value of such reporting unit, due to other changes in our assumptions, including forecasted future cash flows, would not have significantly impacted the results of our 2021 impairment tests. In the case of our United States industrial services segment, however, such a decrease would cause the estimated fair value of this reporting unit to approximate its carrying value.

The changes in the carrying amount of goodwill by reportable segment during the years ended December 31, 2021 and 2020 were as follows (in thousands):

	United States electrical construction and facilities services segment	United States mechanical construction and facilities services segment	United States building services segment	United States industrial services segment	Total
Balance at December 31, 2019	\$ 142,545	\$ 299,220	\$ 289,158	\$ 332,988	\$ 1,063,911
Acquisitions and purchase price adjustments	—	398	12,974	—	13,372
Impairment	—	—	—	(225,500)	(225,500)
Balance at December 31, 2020	142,545	299,618	302,132	107,488	851,783
Acquisitions and purchase price adjustments	24,467	4,269	9,749	—	38,485
Intersegment transfers	(7,500)	—	900	6,600	—
Balance at December 31, 2021	<u>\$ 159,512</u>	<u>\$ 303,887</u>	<u>\$ 312,781</u>	<u>\$ 114,088</u>	<u>\$ 890,268</u>

The aggregate goodwill balance as of December 31, 2019 included \$268.1 million of accumulated impairment charges, which were comprised of \$139.5 million within the United States building services segment and \$128.6 million within the United States industrial services segment.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 8 - GOODWILL, IDENTIFIABLE INTANGIBLE ASSETS, AND OTHER LONG-LIVED ASSETS (Continued)

Identifiable Intangible Assets and Other Long-Lived Assets

Our identifiable intangible assets, arising out of the acquisition of businesses, include customer relationships, certain subsidiary trade names, developed technology/vendor network, and contract backlog, all of which are subject to amortization. In addition, our identifiable intangible assets include certain other subsidiary trade names, which are indefinite-lived and therefore not subject to amortization.

Absent earlier indicators of impairment, we test for impairment of subsidiary trade names that are not subject to amortization on an annual basis (October 1). In performing this test, we calculate the fair value of each trade name using the “relief from royalty payments” methodology. This approach involves two steps: (a) estimating reasonable royalty rates for each trade name and (b) applying these royalty rates to a net revenue stream and discounting the resulting cash flows to determine fair value. This fair value is then compared with the carrying value of each trade name. If the carrying amount of the trade name is greater than the implied fair value of the trade name, an impairment in the amount of the excess is recognized and charged to operations. In addition, we review for impairment of identifiable intangible assets that are being amortized as well as other long-lived assets whenever facts and circumstances indicate that their carrying values may not be fully recoverable. This test compares their carrying values to the undiscounted pre-tax cash flows expected to result from the use of the assets. If the assets are impaired, the assets are written down to their fair values, generally determined based on their discounted estimated future cash flows.

For the years ended December 31, 2021 and 2019, no impairment of our indefinite-lived intangible assets, finite-lived intangible assets, or other long-lived assets was recognized.

Given the negative market conditions disclosed above, we evaluated certain of our identifiable intangible assets and other long-lived assets for impairment during the second quarter of 2020. Such assets included those associated with the businesses in our United States industrial services segment. As a result of these assessments, we recorded non-cash impairment charges of \$7.3 million, which were included within our results of operations for the year ended December 31, 2020.

Identifiable intangible assets as of December 31, 2021 and 2020 consisted of the following (in thousands):

	December 31, 2021			
	Gross Carrying Amount	Accumulated Amortization	Accumulated Impairment Charge	Total
Customer relationships	\$ 717,666	\$ (374,764)	\$ (4,834)	\$ 338,068
Trade names (unamortized)	274,721	—	(58,933)	215,788
Developed technology/Vendor network	95,661	(69,688)	—	25,973
Trade names (amortized)	32,366	(24,180)	—	8,186
Contract backlog	77,995	(76,645)	—	1,350
Total	<u>\$ 1,198,409</u>	<u>\$ (545,277)</u>	<u>\$ (63,767)</u>	<u>\$ 589,365</u>

	December 31, 2020			
	Gross Carrying Amount	Accumulated Amortization	Accumulated Impairment Charge	Total
Customer relationships	\$ 670,155	\$ (324,426)	\$ (4,834)	\$ 340,895
Trade names (unamortized)	258,471	—	(58,933)	199,538
Developed technology/Vendor network	95,661	(64,994)	—	30,667
Trade names (amortized)	31,516	(23,002)	—	8,514
Contract backlog	72,045	(68,766)	—	3,279
Total	<u>\$ 1,127,848</u>	<u>\$ (481,188)</u>	<u>\$ (63,767)</u>	<u>\$ 582,893</u>

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 8 - GOODWILL, IDENTIFIABLE INTANGIBLE ASSETS, AND OTHER LONG-LIVED ASSETS (Continued)

Identifiable intangible assets attributable to businesses acquired in 2021 and 2020 have been valued at \$70.6 million and \$38.1 million, respectively, and consist of customer relationships, trade names, and contract backlog. See Note 4 - Acquisitions of Businesses of the notes to consolidated financial statements for additional information with respect to acquisitions.

Identifiable intangible assets are amortized in a manner that best approximates the pattern in which the economic benefits of such assets are consumed, which is generally on a straight-line basis. The weighted average amortization periods for the unamortized balances remaining are, in the aggregate, approximately 7.50 years, which are comprised of the following: 7.50 years for customer relationships, 8.50 years for trade names, 5.75 years for developed technology/vendor network, and 0.25 years for contract backlog.

Amortization expense related to identifiable intangible assets with finite lives was \$64.1 million, \$60.0 million, and \$48.1 million for the years ended December 31, 2021, 2020, and 2019, respectively. The following table presents the estimated future amortization expense of identifiable intangible assets in the following years (in thousands):

2022	\$ 57,321
2023	54,891
2024	54,240
2025	53,158
2026	47,382
Thereafter	106,585
	<u>\$ 373,577</u>

Other Considerations

As referenced above, impairment testing is based upon assumptions and estimates determined by management from a review of our operating results and business plans as well as forecasts of anticipated growth rates and margins, among other considerations. In addition, estimates of weighted average costs of capital are developed with the assistance of an independent third-party valuation specialist. These assumptions and estimates may change in future periods, especially in consideration of the uncertainty created by the COVID-19 pandemic and its potential impact on the broader economy and our results of operations in future periods, particularly with respect to our United States industrial services segment. Significant adverse changes to external market conditions or our internal forecasts, if any, could result in future impairment charges. It is not possible at this time to determine if any future impairment charge will result or, if it does, whether such a charge would be material to our results of operations.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 9 - DEBT

Debt in the accompanying Consolidated Balance Sheets consisted of the following amounts as of December 31, 2021 and 2020 (in thousands):

	December 31, 2021	December 31, 2020
Term loan, interest payable at varying amounts through 2025	\$ 256,688	\$ 270,563
Unamortized debt issuance costs	(3,040)	(4,000)
Finance lease liabilities	8,037	9,966
Total debt	261,685	276,529
Less: current maturities	16,235	16,910
Total long-term debt	<u>\$ 245,450</u>	<u>\$ 259,619</u>

Credit Agreement

Until March 2, 2020, we had a credit agreement dated as of August 3, 2016, which provided for a \$900.0 million revolving credit facility (the “2016 Revolving Credit Facility”) and a \$400.0 million term loan (the “2016 Term Loan”) (collectively referred to as the “2016 Credit Agreement”). On March 2, 2020, we amended and restated the 2016 Credit Agreement to provide for a \$1.3 billion revolving credit facility (the “2020 Revolving Credit Facility”) and a \$300.0 million term loan (the “2020 Term Loan”) (collectively referred to as the “2020 Credit Agreement”) expiring March 2, 2025. We may increase the 2020 Revolving Credit Facility to \$1.9 billion if additional lenders are identified and/or existing lenders are willing to increase their current commitments. We may allocate up to \$400.0 million of available capacity under the 2020 Revolving Credit Facility to letters of credit for our account or for the account of any of our subsidiaries.

At the Company’s election, borrowings under the 2020 Credit Agreement bear interest at either: (1) a base rate plus a margin of 0.00% to 0.75%, based on certain financial tests, or (2) United States dollar LIBOR (0.10% at December 31, 2021) plus 1.00% to 1.75%, based on certain financial tests. The base rate is determined by the greater of: (a) the prime commercial lending rate announced by Bank of Montreal from time to time (3.25% at December 31, 2021), (b) the federal funds effective rate, plus ½ of 1.00%, (c) the daily one month LIBOR rate, plus 1.00%, or (d) 0.00%. In the event of the discontinuation of LIBOR, our 2020 Credit Agreement contains provisions which allow for the use of alternate benchmark rates. The interest rate in effect at December 31, 2021 was 1.10%. A commitment fee is payable on the average daily unused amount of the 2020 Revolving Credit Facility, which ranges from 0.10% to 0.25%, based on certain financial tests. The fee was 0.10% of the unused amount as of December 31, 2021. Fees for letters of credit issued under the 2020 Revolving Credit Facility range from 0.75% to 1.75% of the respective face amounts of outstanding letters of credit, depending on the nature of the letter of credit, and are computed based on certain financial tests.

As of December 31, 2021 and 2020, the balance of the 2020 Term Loan was \$256.7 million and \$270.6 million, respectively. As of December 31, 2021 and 2020, there were no direct borrowings outstanding under the 2020 Revolving Credit Facility; however, we had \$71.3 million of letters of credit outstanding, which reduce the available capacity under such facility. We capitalized an additional \$3.1 million of debt issuance costs associated with the 2020 Credit Agreement. Debt issuance costs are amortized over the life of the agreement as part of interest expense.

Obligations under the 2020 Credit Agreement are guaranteed by most of our direct and indirect subsidiaries and are secured by substantially all of our assets. The 2020 Credit Agreement contains various covenants providing for, among other things, the maintenance of certain financial ratios and certain limitations on the payment of dividends, common stock repurchases, investments, acquisitions, indebtedness, and capital expenditures. We were in compliance with all such covenants as of December 31, 2021 and 2020.

We are required to make annual principal payments on the 2020 Term Loan. Any voluntary prepayments are applied against the outstanding balance of the loan and reduce our future scheduled payments on a ratable basis. Based on our outstanding balance, principal payments of \$13.9 million are due on December 31 of each year until maturity, with any remaining unpaid principal and interest due on March 2, 2025.

Finance Lease Liabilities

See Note 16 - Leases of the notes to consolidated financial statements for additional information.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 10 - FAIR VALUE MEASUREMENTS

For disclosure purposes, we utilize a fair value hierarchy to categorize qualifying assets and liabilities into three broad levels based on the priority of the inputs used to determine their fair values. The hierarchy, which gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities and the lowest priority to unobservable inputs, is comprised of the following three levels:

Level 1 – Unadjusted quoted prices in active markets for identical assets and liabilities.

Level 2 – Observable inputs, other than Level 1 inputs, that are directly or indirectly observable for the asset or liability, including quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 – Unobservable inputs that reflect the reporting entity’s own assumptions.

Recurring Fair Value Measurements

The following tables summarize the assets and liabilities carried at fair value measured on a recurring basis as of December 31, 2021 and 2020 (in thousands):

Asset Category	Assets at Fair Value as of December 31, 2021			
	Level 1	Level 2	Level 3	Total
Cash and cash equivalents ⁽¹⁾	\$ 821,345	\$ —	\$ —	\$ 821,345
Restricted cash ⁽²⁾	1,223	—	—	1,223
Deferred compensation plan assets ⁽³⁾	42,344	—	—	42,344
Total	<u>\$ 864,912</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 864,912</u>

Asset Category	Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Cash and cash equivalents ⁽¹⁾	\$ 902,867	\$ —	\$ —	\$ 902,867
Restricted cash ⁽²⁾	695	—	—	695
Deferred compensation plan assets ⁽³⁾	36,491	—	—	36,491
Total	<u>\$ 940,053</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 940,053</u>

(1) Cash and cash equivalents consist of deposit accounts and money market funds with original maturity dates of three months or less, which are Level 1 assets. At December 31, 2021 and 2020, we had \$336.0 million and \$482.2 million, respectively, in money market funds.

(2) Restricted cash is classified as “Prepaid expenses and other” in the Consolidated Balance Sheets. Restricted cash primarily represents cash held in account for use on customer contracts.

(3) Deferred compensation plan assets are classified as “Other assets” in the Consolidated Balance Sheets.

Nonrecurring Fair Value Measurements

We have recorded goodwill and identifiable intangible assets in connection with our business acquisitions. Such assets are measured at fair value at the time of acquisition based on valuation techniques that appropriately represent the methods which would be used by other market participants in determining fair value. In addition, goodwill and intangible assets are tested for impairment using similar valuation methodologies to determine the fair value of such assets. Periodically, we engage an independent third-party valuation specialist to assist with the valuation process, including the selection of appropriate methodologies and the development of market-based assumptions. The inputs used for these nonrecurring fair value measurements represent Level 3 inputs.

Fair Value of Financial Instruments

We believe that the carrying values of our financial instruments, which include accounts receivable and other financing commitments, approximate their fair values due primarily to their short-term maturities and low risk of counterparty default. The carrying value of our debt associated with the 2020 Credit Agreement approximates its fair value due to the variable rate on such debt.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 11 - INCOME TAXES

For the years ended December 31, 2021, 2020, and 2019, our income tax provision was calculated based on income before income taxes as follows (in thousands):

	<u>2021</u>	<u>2020</u>	<u>2019</u>
United States	\$ 497,421	\$ 228,181	\$ 430,253
Foreign	31,882	24,145	20,636
	<u>\$ 529,303</u>	<u>\$ 252,326</u>	<u>\$ 450,889</u>

Foreign income for each of the years ended December 31, 2021, 2020, and 2019 was predominately earned in the United Kingdom.

The income tax provision for the years ended December 31, 2021, 2020, and 2019 consisted of the following (in thousands):

	<u>2021</u>	<u>2020</u>	<u>2019</u>
Current provision:			
Federal	\$ 95,782	\$ 115,633	\$ 89,264
State and local	35,883	36,182	31,099
Foreign	4,420	3,922	3,685
	<u>136,085</u>	<u>155,737</u>	<u>124,048</u>
Deferred provision (benefit)	9,517	(36,354)	1,701
	<u>\$ 145,602</u>	<u>\$ 119,383</u>	<u>\$ 125,749</u>

For the year ended December 31, 2021, our income tax provision was \$145.6 million compared to \$119.4 million for the year ended December 31, 2020 and \$125.7 million for the year ended December 31, 2019. The increase in the income tax provision for 2021, when compared to 2020, was primarily driven by increased income before income taxes and the effect of certain increases in the deferred state tax provision. The decrease in the income tax provision for 2020, when compared to 2019, was primarily driven by reduced state income taxes, inclusive of a deferred state benefit, resulting from a change in the mix of earnings.

The income tax rates on income before income taxes for the years ended December 31, 2021, 2020, and 2019, were 27.5%, 47.3%, and 27.9%, respectively. The decrease in the 2021 income tax rate, when compared to 2020, and the increase in the 2020 income tax rate, when compared to 2019, was predominantly due to the tax effect, in 2020, of the impairment charges recorded during such year, the majority of which were non-deductible for tax purposes. Refer to Note 8 - Goodwill, Identifiable Intangible Assets, and Other Long-Lived Assets of the notes to consolidated financial statements for further discussion regarding such impairment charges.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 11 - INCOME TAXES (Continued)

Items accounting for the differences between income taxes computed at the federal statutory rate and the income tax provision for the years ended December 31, 2021, 2020, and 2019 were as follows (in thousands):

	2021	2020	2019
Federal income taxes at the statutory rate	\$ 111,118	\$ 52,989	\$ 94,687
State and local income taxes, net of federal tax benefits	31,257	19,290	24,904
Permanent differences	5,316	5,860	7,149
Non-deductible impairment charges	—	40,165	—
Foreign income taxes (including UK statutory rate changes)	(2,241)	(140)	(170)
Other	152	1,219	(821)
	<u>\$ 145,602</u>	<u>\$ 119,383</u>	<u>\$ 125,749</u>

The minimum tax on global intangible low-taxed income for certain earnings of our foreign subsidiaries was approximately \$0.1 million for each of the years ended December 31, 2021, 2020, and 2019. The Company recognizes such tax as an expense in the period incurred.

As of December 31, 2021, we had undistributed foreign earnings from certain foreign subsidiaries of approximately \$117.1 million. Based on our evaluation, and given that a significant portion of such earnings were subject to tax in prior periods, or are indefinitely reinvested, we have concluded that any taxes associated with the repatriation of such foreign earnings would be immaterial. As of December 31, 2021, the amount of cash held by these foreign subsidiaries was approximately \$113.5 million which, if repatriated, should not result in any material federal or state income taxes.

We file a consolidated federal income tax return including all of our U.S. subsidiaries with the Internal Revenue Service. We additionally file income tax returns with various state, local, and foreign tax agencies. Our income tax returns are subject to audit by various taxing authorities and are currently under examination for the years 2017 through 2019.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (the “CARES Act”) was signed into law. The CARES Act provides for various tax relief and tax incentive measures, which did not have a material impact on our results of operations. Certain provisions of the CARES Act, however, did favorably impact our liquidity throughout 2020 as they allowed for the deferral of the employer’s portion of current year Social Security tax payments. Our first installment of these deferred Social Security taxes, totaling approximately \$51 million, was repaid in the fourth quarter of 2021, and our second installment of approximately \$51 million is expected to be paid in the fourth quarter of 2022.

On December 27, 2020, the Consolidated Appropriations Act, 2021, was signed into law. This act provides for tax relief, as well as an omnibus appropriations package that extends various expiring tax provisions and allows for a 100% tax deduction for the cost of business meals in 2021 and 2022. The Consolidated Appropriations Act did not have a material impact on our income tax provision for the year ended December 31, 2021 and is not expected to have a material impact on our income tax provision for the year ending December 31, 2022.

On March 11, 2021, the American Rescue Plan Act was signed into law. Such act includes certain tax provisions that could have an impact on the Company in future periods, including expanded limits on compensation deductions under Section 162(m) of the Internal Revenue Code for tax years beginning after December 31, 2026. We are currently evaluating the impact that this act may have on our financial position and/or results of operations; however, we anticipate that the expanded provisions of Section 162(m) will result in an increase in our income tax rate for years beginning after December 31, 2026.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 11 - INCOME TAXES (Continued)

Deferred income tax assets and liabilities are recognized for the expected future tax consequences of temporary differences between the financial statement and income tax bases of assets and liabilities. The deferred income tax assets and deferred income tax liabilities recorded as of December 31, 2021 and 2020 were as follows (in thousands):

	December 31, 2021	December 31, 2020
Deferred income tax assets:		
Excess of amounts expensed for financial statement purposes over amounts deducted for income tax purposes:		
Insurance liabilities	\$ 50,316	\$ 47,602
Pension liability	—	6,789
Operating lease liabilities	76,451	68,652
Deferred compensation	40,080	36,790
Accrued federal payroll taxes ⁽¹⁾	14,235	27,428
Other (including liabilities and reserves)	31,252	29,816
Total deferred income tax assets	212,334	217,077
Valuation allowance for deferred tax assets	(2,465)	(3,856)
Net deferred income tax assets	209,869	213,221
Deferred income tax liabilities:		
Costs capitalized for financial statement purposes and deducted for income tax purposes:		
Goodwill and identifiable intangible assets	(154,382)	(146,821)
Operating lease right-of-use assets	(71,759)	(64,434)
Depreciation of property, plant and equipment	(25,341)	(23,958)
Pension asset	(1,847)	—
Other	(7,491)	(7,444)
Total deferred income tax liabilities	(260,820)	(242,657)
Net deferred income tax liabilities	\$ (50,951)	\$ (29,436)

(1) Represents employer Social Security tax payments deferred under the CARES Act.

At December 31, 2021, our net deferred income tax liabilities of \$51.0 million were included in “Other long-term obligations” in the accompanying Consolidated Balance Sheet. At December 31, 2020, the components of our net deferred income tax liabilities in the accompanying Consolidated Balance Sheet were included in “Other assets” in the amount of \$7.4 million and “Other long-term obligations” in the amount of \$36.8 million.

Valuation allowances are established when necessary to reduce deferred income tax assets when it is more likely than not that a tax benefit will not be realized. As of December 31, 2021 and 2020, the total valuation allowance on deferred income tax assets, related to state and local net operating losses and foreign income tax credit carryovers, was approximately \$2.5 million and \$3.9 million, respectively. The reduction in our valuation allowances at December 31, 2021 was a result of our assessment of recent financial performance and updated projections of future earnings for certain of our subsidiaries, which indicated that we would likely be able to utilize all, or a portion of, certain net operating loss carryforwards, for which we had previously established valuation allowances.

Realization of our deferred income tax assets is dependent on our generating sufficient taxable income in the jurisdictions in which such deferred tax assets will reverse. Although realization is not assured, based on current projections of future taxable income, we believe it is more likely than not that the deferred income tax assets, net of the valuation allowance discussed above, will be realized. However, revisions to our forecasts or declining macroeconomic conditions could result in changes to our assessment of the realization of these deferred income tax assets.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 12 - COMMON STOCK

As of December 31, 2021 and 2020, there were 53,299,738 and 54,755,900 shares of our common stock outstanding, respectively.

We have paid quarterly dividends since October 25, 2011. We currently pay a regular quarterly dividend of \$0.13 per share.

In September 2011, our Board of Directors (the “Board”) authorized a share repurchase program allowing us to begin repurchasing shares of our outstanding common stock. Subsequently, the Board has from time to time increased the amount of our common stock that we may repurchase under such program. Since the inception of the repurchase program, the Board has authorized us to repurchase up to \$1.45 billion of our outstanding common stock. During the year ended December 31, 2021, we repurchased approximately 1.6 million shares of our common stock for approximately \$195.5 million. Since the inception of the repurchase program through December 31, 2021, we have repurchased approximately 19.2 million shares of our common stock for approximately \$1.10 billion. As of December 31, 2021, there remained authorization for us to repurchase approximately \$350.4 million of our shares. The repurchase program has no expiration date, does not obligate the Company to acquire any particular amount of common stock, and may be suspended, recommenced, or discontinued at any time or from time to time without prior notice. We may repurchase our shares from time to time to the extent permitted by securities laws and other legal requirements, including provisions in our 2020 Credit Agreement placing limitations on such repurchases. The repurchase program has been and will be funded from our operations.

NOTE 13 - SHARE-BASED COMPENSATION PLANS

We have an incentive plan under which stock awards, stock units, and other share-based compensation may be granted to officers, non-employee directors, and key employees of the Company. During 2020, we amended and restated our incentive plan, eliminating the ability to grant new stock options, until such time, if any, as the plan is subsequently amended to provide for the ability to make such grants. Under the terms of this plan, 3,250,000 shares were authorized, and 895,682 shares remain available for grant or issuance as of December 31, 2021. Any issuances under this plan are valued at the fair market value of our common stock on the grant date. Forfeitures are recognized as they occur.

The following table summarizes activity regarding stock options and restricted stock units since December 31, 2018:

Stock Options			Restricted Stock Units		
	Shares	Weighted Average Price		Shares	Weighted Average Price
Balance, December 31, 2018	40,000	\$ 24.48	Balance, December 31, 2018	476,586	\$ 63.52
Granted	—	—	Granted	169,766	\$ 64.34
Expired	—	—	Forfeited	(2,545)	\$ 71.88
Exercised	(20,000)	\$ 24.48	Vested	(226,229)	\$ 51.64
Balance, December 31, 2019	20,000	\$ 24.48	Balance, December 31, 2019	417,578	\$ 70.24
Granted	—	—	Granted	137,771	\$ 81.56
Expired	—	—	Forfeited	(984)	\$ 79.17
Exercised	(20,000)	\$ 24.48	Vested	(156,447)	\$ 72.72
Balance, December 31, 2020	—	—	Balance, December 31, 2020	397,918	\$ 73.16
Granted	—	—	Granted	129,859	\$ 96.32
Expired	—	—	Forfeited	(2,242)	\$ 78.86
Exercised	—	—	Vested	(121,067)	\$ 77.86
Balance, December 31, 2021	—	—	Balance, December 31, 2021	404,468	\$ 79.16

We recognized approximately \$11.1 million, \$11.2 million, and \$11.4 million of compensation expense for stock units awarded to non-employee directors and employees pursuant to incentive plans for the years ended December 31, 2021, 2020, and 2019, respectively. We have approximately \$9.3 million of compensation expense, net of income taxes, which will be recognized over the remaining vesting periods of up to 3 years. In addition, an aggregate of 67,942 restricted stock units granted to current or former non-employee directors vested as of December 31, 2021, but, at the election of such directors, issuance has been deferred for up to 5 years.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 13 - SHARE-BASED COMPENSATION PLANS (Continued)

The income tax benefit derived in 2021, 2020, and 2019 as a result of share-based compensation was approximately \$2.6 million, \$1.9 million, and \$2.6 million, respectively, of which approximately \$0.8 million, \$0.2 million, and \$1.0 million, respectively, represented excess tax benefits.

The total intrinsic value (the amounts by which the stock price exceeded the exercise price on the date of exercise) of options that were exercised during both 2020 and 2019 was approximately \$1.2 million. There were no options outstanding at December 31, 2021 and 2020, however, the aggregate intrinsic value of options outstanding and exercisable as of December 31, 2019 was approximately \$1.2 million.

We have an employee stock purchase plan. Under the terms of this plan, the maximum number of shares of our common stock that may be purchased is 3,000,000 shares. Generally, our corporate employees and non-union employees of our United States subsidiaries are eligible to participate in this plan. Employees covered by collective bargaining agreements generally are not eligible to participate in this plan.

NOTE 14 - RETIREMENT PLANS

Defined Benefit Plans

The funded status of our defined benefit plans, which represents the difference between the fair value of plan assets and the projected benefit obligations, is recognized in the Consolidated Balance Sheets with a corresponding adjustment to accumulated other comprehensive income (loss). Gains and losses for the differences between actuarial assumptions and actual results are recognized through accumulated other comprehensive income (loss). These amounts will be subsequently recognized as net periodic pension cost (income) within the Consolidated Statement of Operations, as described further below.

Our United Kingdom subsidiary has a defined benefit pension plan covering all eligible employees (the “UK Plan”); however, no individual joining the company after October 31, 2001 may participate in the UK Plan. On May 31, 2010, we curtailed the future accrual of benefits for active employees under such plan.

The change in benefit obligations and assets of the UK Plan for the years ended December 31, 2021 and 2020 consisted of the following components (in thousands):

	2021	2020
Change in pension benefit obligation		
Benefit obligation at beginning of year	\$ 383,142	\$ 322,766
Interest cost	5,326	6,401
Actuarial (gain) loss	(22,071)	50,863
Benefits paid	(13,939)	(10,029)
Foreign currency exchange rate changes	(3,311)	13,141
Benefit obligation at end of year	<u>349,147</u>	<u>383,142</u>
Change in pension plan assets		
Fair value of plan assets at beginning of year	347,411	307,001
Actual return on plan assets	21,809	34,380
Employer contributions	4,956	4,665
Benefits paid	(13,939)	(10,029)
Foreign currency exchange rate changes	(3,705)	11,394
Fair value of plan assets at end of year	<u>356,532</u>	<u>347,411</u>
Funded (unfunded) status at end of year	<u>\$ 7,385</u>	<u>\$ (35,731)</u>

The overfunded status of the UK Plan of \$7.4 million at December 31, 2021 and the underfunded status of the UK Plan of \$35.7 million at December 31, 2020 are included in “Other Assets” and “Other long-term obligations,” respectively, in the accompanying Consolidated Balance Sheets. No plan assets are expected to be returned to us during the year ending December 31, 2022.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 14 - RETIREMENT PLANS (Continued)

The weighted average assumptions used to determine benefit obligations as of December 31, 2021 and 2020 were as follows:

	<u>2021</u>	<u>2020</u>
Discount rate	1.8 %	1.4 %

The below table shows certain information for the UK Plan, as of December 31, 2020, when the accumulated benefit obligation was in excess of plan assets (in thousands):

	<u>December 31, 2020</u>
Projected benefit obligation	\$ 383,142
Accumulated benefit obligation	\$ 383,142
Fair value of plan assets	\$ 347,411

The components of net periodic pension cost (income) of the UK Plan for the years ended December 31, 2021, 2020, and 2019 were as follows (in thousands):

	<u>2021</u>	<u>2020</u>	<u>2019</u>
Interest cost	\$ 5,326	\$ 6,401	\$ 7,961
Expected return on plan assets	(12,726)	(12,023)	(12,165)
Amortization of unrecognized loss	3,642	2,389	2,342
Net periodic pension cost (income)	<u>\$ (3,758)</u>	<u>\$ (3,233)</u>	<u>\$ (1,862)</u>

The weighted average assumptions used to determine net periodic pension cost for the years ended December 31, 2021, 2020, and 2019 were as follows:

	<u>2021</u>	<u>2020</u>	<u>2019</u>
Discount rate	1.4 %	2.1 %	2.9 %
Annual rate of return on plan assets	3.9 %	4.3 %	4.9 %

The annual rate of return on plan assets has been determined by modeling possible returns using the actuary's portfolio return calculator and the fair value of plan assets. This approach models the long term expected returns of the various asset classes held in the portfolio and takes into account the additional benefits of holding a diversified portfolio. For measurement purposes of the liability, the annual rates of inflation of covered pension benefits assumed for 2021 and 2020 were 2.9% and 2.5%, respectively.

Amounts not yet reflected in net periodic pension cost and included in accumulated other comprehensive loss were as follows (in thousands):

	<u>December 31, 2021</u>	<u>December 31, 2020</u>
Unrecognized actuarial losses	<u>\$ 89,572</u>	<u>\$ 125,020</u>

Actuarial gains and losses are amortized using a corridor approach whereby cumulative gains and losses in excess of the greater of 10% of the pension benefit obligation or the fair value of plan assets are amortized over the average life expectancy of plan participants. The amortization period for 2021 was 24 years.

The reclassification adjustment, net of income taxes, for the UK Plan from accumulated other comprehensive loss into net periodic pension cost was approximately \$2.9 million for the year ended December 31, 2021, and approximately \$1.9 million for the years ended December 31, 2020 and 2019. The estimated unrecognized loss for the UK Plan that will be amortized from accumulated other comprehensive loss into net periodic pension cost over the next year is approximately \$1.8 million, net of income taxes.

NOTE 14 - RETIREMENT PLANS (Continued)

UK Plan Assets

The investment policies and strategies for the assets of the UK Plan are established by its trustees (who are independent of the Company) to achieve a reasonable balance between risk, likely return, and administration expense, as well as to maintain funds at a level to meet minimum funding requirements. In order to ensure that an appropriate investment strategy is in place, an analysis of the UK Plan's assets and liabilities is completed periodically. Target allocation percentages vary over time depending on the perceived risk and return potential of various asset classes and market conditions. The weighted average asset allocations and weighted average target allocations at December 31, 2021 and 2020 were as follows:

<u>Asset Category</u>	<u>Target Asset Allocation 2021</u>	<u>Actual December 31, 2021</u>	<u>Target Asset Allocation 2020</u>	<u>Actual December 31, 2020</u>
Debt	75.0 %	76.0 %	65.0 %	63.0 %
Equity	— %	— %	15.0 %	12.7 %
Cash and cash equivalents	15.0 %	16.5 %	10.0 %	17.1 %
Real estate	10.0 %	7.5 %	10.0 %	7.2 %
Total	100.0 %	100.0 %	100.0 %	100.0 %

Plan assets of our UK Plan are invested through third-party fund managers in various investments with underlying holdings which, as of December 31, 2021 and 2020, consisted of: (a) cash and cash equivalents, primarily held as collateral for other financial instruments, (b) debt securities, which include United Kingdom government debt and United States, United Kingdom, European, and emerging market corporate debt, and (c) real estate assets, which represent trusts which invest directly or indirectly in various properties throughout the United Kingdom. In addition, investment holdings as of December 31, 2020 contained equity securities, which included marketable equity and equity like instruments across developed global equity markets.

The following tables set forth the fair value of assets of the UK Plan as of December 31, 2021 and 2020 (in thousands):

<u>Asset Category</u>	<u>Assets at Fair Value as of December 31, 2021</u>			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Corporate debt funds	\$ —	\$ 67,226	\$ —	\$ 67,226
Government bond funds	—	91,899	—	91,899
Cash and cash equivalents	58,772	—	—	58,772
Total plan assets in fair value hierarchy	<u>\$ 58,772</u>	<u>\$ 159,125</u>	<u>\$ —</u>	<u>217,897</u>
Plan assets measured using NAV as a practical expedient: ⁽¹⁾				
Debt funds				111,971
Real estate funds				26,664
Total plan assets at fair value				<u>\$ 356,532</u>

<u>Asset Category</u>	<u>Assets at Fair Value as of December 31, 2020</u>			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Corporate debt funds	\$ —	\$ 65,486	\$ —	\$ 65,486
Government bond funds	—	57,133	—	57,133
Equity funds	—	44,132	—	44,132
Cash and cash equivalents	59,246	—	—	59,246
Total plan assets in fair value hierarchy	<u>\$ 59,246</u>	<u>\$ 166,751</u>	<u>\$ —</u>	<u>225,997</u>
Plan assets measured using NAV as a practical expedient: ⁽¹⁾				
Debt funds				96,196
Real estate funds				25,218
Total plan assets at fair value				<u>\$ 347,411</u>

(1) Certain investments measured using net asset value ("NAV") as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy to the total fair value of plan assets.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 14 - RETIREMENT PLANS (Continued)

Assets of the UK Plan are allocated within the fair value hierarchy discussed in Note 10 - Fair Value Measurements, based on the nature of the investment. Level 1 assets represent cash and cash equivalents. Level 2 assets consist of corporate debt funds, government bond funds, and equity funds whose underlying investments are valued using observable marketplace inputs. The fair value of the Level 2 assets are generally determined under a market approach using valuation models that incorporate observable inputs such as interest rates, bond yields, and quoted prices.

Investments valued using NAV as a practical expedient are excluded from the fair value hierarchy. These investments include: (a) funds which invest predominantly in senior secured debt instruments, targeting diversity across regions and sectors, as well as funds which invest in diversified credit vehicles that seek higher returns than traditional fixed income, primarily through investments in U.S. corporate debt, global credit, and structured debt, and (b) funds which aim to provide long-term income through investment in UK property assets. These investments are redeemable at NAV on a monthly or quarterly basis and have redemption notice periods of up to 90 days. In addition, certain of these investments are subject to a lockup period of up to 24 months.

The methods described above may produce fair values that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Company believes the valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Cash Flows:

Contributions

Our United Kingdom subsidiary expects to contribute approximately \$4.5 million to the UK Plan in 2022.

Estimated Future Benefit Payments

The following estimated benefit payments are expected to be paid in the following years (in thousands):

	Pension Benefit Payments
2022	\$ 11,266
2023	\$ 11,171
2024	\$ 11,525
2025	\$ 12,099
2026	\$ 12,545
Succeeding five years	\$ 69,416

We also sponsor three domestic retirement plans in which participation by new individuals is frozen. The benefit obligation associated with these plans as of December 31, 2021 and 2020 was approximately \$8.5 million and \$9.2 million, respectively. The estimated fair value of the plan assets as of December 31, 2021 and 2020 was approximately \$6.3 million and \$6.0 million, respectively. The plan assets are considered Level 1 assets within the fair value hierarchy and are predominantly invested in cash, equities, and equity and bond funds. The liability balances as of December 31, 2021 and 2020 are classified as “Other long-term obligations” in the accompanying Consolidated Balance Sheets. The measurement date for these plans is December 31 of each year. The major assumptions used in the actuarial valuations to determine benefit obligations as of December 31, 2021 and 2020 included discount rates of 2.40% to 2.50% for 2021 and 2.00% to 2.25% for 2020. Also, included was an expected rate of return of 7.00% for both 2021 and 2020. The net periodic pension cost associated with the domestic plans was approximately \$0.1 million for the year ended December 31, 2021 and \$0.3 million for each of the years ended December 31, 2020 and 2019. The reclassification adjustment, net of income taxes, from accumulated other comprehensive loss into net periodic pension cost was approximately \$0.3 million for each of the years ended December 31, 2021 and 2020, and approximately \$0.2 million for the year ended December 31, 2019. The estimated loss for these plans that will be amortized from accumulated other comprehensive loss into net periodic pension cost over the next year is approximately \$0.1 million, net of income taxes. The future estimated benefit payments expected to be paid from the plans for the next ten years is approximately \$0.6 million per year.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 14 - RETIREMENT PLANS (Continued)

Defined Contribution Plans

We have defined contribution retirement and savings plans that cover eligible employees in the United States. Contributions to these plans are based on a percentage of the employee's base compensation. The expenses recognized for employer contributions to these plans were approximately \$33.0 million for the year ended December 31, 2021 and approximately \$32.4 million for each of the years ended December 31, 2020 and 2019. At our discretion and subject to applicable plan documents, we may make additional supplemental matching contributions to one of our defined contribution retirement and savings plans. The expenses recognized related to additional supplemental matching contributions for the years ended December 31, 2021, 2020, and 2019 were approximately \$7.7 million, \$9.1 million, and \$6.8 million, respectively.

Our United Kingdom subsidiary also has defined contribution retirement plans. The expense recognized related to employer matching contributions for the years ended December 31, 2021, 2020, and 2019 was approximately \$8.3 million, \$7.4 million, and \$6.1 million, respectively.

Multiemployer Plans

We participate in approximately 200 multiemployer pension plans ("MEPPs") that provide retirement benefits to certain union employees in accordance with various collective bargaining agreements ("CBAs"). As one of many participating employers in an MEPP, we are potentially liable with the other participating employers for any plan underfunding, either through an increase in our required contributions or, in the case of our withdrawal from the plan, a payment based upon our proportionate share of the plan's unfunded benefits, in each case, as described below. Our contributions to a particular MEPP are established by the applicable CBAs; however, our required contributions may increase based on the funded status of an MEPP and legal requirements of the Pension Protection Act of 2006 (the "PPA"), which requires substantially underfunded MEPPs to implement a funding improvement plan ("FIP") or a rehabilitation plan ("RP") to improve their funded status. Factors that could impact the funded status of an MEPP include, without limitation, investment performance, changes in the participant demographics, decline in the number of contributing employers, changes in actuarial assumptions, and the utilization of extended amortization provisions.

An FIP or RP requires a particular MEPP to adopt measures to correct its underfunding status. These measures may include, but are not limited to: (a) an increase in our contribution rate as a signatory to the applicable CBA, (b) a reallocation of the contributions already being made by participating employers for various benefits to individuals participating in the MEPP, and/or (c) a reduction in the benefits to be paid to future and/or current retirees. In addition, the PPA requires that a 5% surcharge be levied on employer contributions for the first year commencing after the date the employer receives notice that the MEPP is in critical status and a 10% surcharge on each succeeding year until a CBA is in place with terms and conditions consistent with the RP.

We could also be obligated to make payments to MEPPs if we either cease to have an obligation to contribute to the MEPP or significantly reduce our contributions to the MEPP because we reduce our number of employees who are covered by the relevant MEPP for various reasons, including, but not limited to, layoffs or closure of a subsidiary assuming the MEPP has unfunded vested benefits. The amount of such payments (known as a complete or partial withdrawal liability) would equal our proportionate share of the MEPPs' unfunded vested benefits. We believe that certain of the MEPPs in which we participate may have unfunded vested benefits. Due to uncertainty regarding future factors that could trigger withdrawal liability, as well as the absence of specific information regarding the MEPP's current financial situation, we are unable to determine: (a) the amount and timing of a future withdrawal liability, if any, and (b) whether our participation in these MEPPs could have a material adverse impact on our financial position, results of operations, or liquidity. We did not record any withdrawal liability for the years ended December 31, 2021, 2020, and 2019.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 14 - RETIREMENT PLANS (Continued)

The following table lists all MEPPs to which our contributions exceeded \$2.0 million in 2021. This table also lists all MEPPs to which we contributed in 2021 in excess of \$0.5 million for MEPPs in the critical status, “red zone,” and \$1.0 million for MEPPs in the endangered status, “orange or yellow zones,” as defined by the PPA (in thousands):

Pension Fund	EIN/ Pension Plan Number	PPA Zone Status ⁽¹⁾		FIP/RP Status	Contributions			Contributions greater than 5% of total plan contributions ⁽²⁾	Expiration date or range of expiration dates of CBA(s)

Other Multiemployer Pension Plans					55,315	54,587	55,070		Various
Total Contributions					<u>\$228,072</u>	<u>\$204,082</u>	<u>\$215,478</u>		

- (1) The zone status represents the most recent available information for the respective MEPP, which may be 2020 or earlier for the 2021 year and 2019 or earlier for the 2020 year. In general, plans with a “green” zone status have a funding ratio of at least 80%, plans with an “orange” or “yellow” zone status have a funding ratio of between 65% and less than 80%, and plans with a “red” zone status are less than 65% funded.
- (2) This information was obtained from the respective plan’s Form 5500 (“Forms”) for the most current available filing. These dates may not correspond with our fiscal year contributions. The percentages of contributions are based upon disclosures contained in the plans’ Forms. Those Forms, among other things, disclose the names of individual participating employers whose annual contributions account for more than 5% of the aggregate annual amount contributed by all participating employers for a plan year. Accordingly, if the annual contribution of two or more of our subsidiaries each accounted for less than 5% of such contributions, but in the aggregate accounted for in excess of 5% of such contributions, that greater percentage is not available and accordingly is not disclosed.

The nature and diversity of our operations may result in volatility in the amount of our contributions to a particular MEPP for any given period. That is because, in any given market, a change in the mix, volume of, or size of our projects could result in a change in our direct labor force and a corresponding change in our contributions to the MEPP(s) dictated by the applicable CBA. Additionally, the amount of contributions to a particular MEPP could also be affected by the terms of the CBA, which could require at a particular time, an increase in the contribution rate and/or surcharges. Acquisitions made by us since 2019 have resulted in incremental contributions to various MEPPs of approximately \$3.8 million.

Additionally, we contribute to certain multiemployer plans that provide post retirement benefits such as health and welfare benefits and/or defined contribution/annuity plans, among others. Our contributions to these plans were approximately \$168.4 million, \$156.1 million, and \$153.5 million for the years ended December 31, 2021, 2020, and 2019, respectively. Acquisitions made by us since 2019 have resulted in incremental contributions to such other post retirement benefit plans of approximately \$2.9 million. The amount of contributions to these plans is also subject, for the most part, to the factors discussed above in conjunction with the MEPPs.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 15 - COMMITMENTS AND CONTINGENCIES

Severance Agreements

We have agreements with our executive officers and certain other key management personnel providing for severance benefits for such employees upon termination of their employment under certain circumstances.

Guarantees

In the ordinary course of business, we, at times, guarantee obligations of our subsidiaries under certain contracts. Generally, we are liable under such an arrangement only if our subsidiary fails to perform its obligations under the contract. Historically, we have not incurred any substantial liabilities as a consequence of these guarantees.

Surety Bonds

The terms of our construction contracts frequently require that we obtain from surety companies, and provide to our customers, surety bonds as a condition to the award of such contracts. These surety bonds are issued in return for premiums, which vary depending on the size and type of the bond, and secure our payment and performance obligations under such contracts. We have agreed to indemnify the surety companies for amounts, if any, paid by them in respect of surety bonds issued on our behalf. As of December 31, 2021, based on the percentage-of-completion of our projects covered by surety bonds, our aggregate estimated exposure, assuming defaults on all our then existing contractual obligations, was approximately \$1.5 billion, which represents approximately 26% of our total remaining performance obligations.

Surety bonds are sometimes provided to secure obligations for wages and benefits payable to or for certain of our employees, at the request of labor unions representing such employees. In addition, surety bonds may be issued as collateral for certain insurance obligations. As of December 31, 2021, we satisfied approximately \$48.1 million of the collateral requirements of our insurance programs by utilizing surety bonds.

We are not aware of any losses in connection with surety bonds that have been posted on our behalf, and we do not expect to incur significant losses in the foreseeable future.

Hazardous Materials

We are subject to regulation with respect to the handling of certain materials used in construction, which are classified as hazardous or toxic by federal, state, and local agencies. Our practice is to avoid participation in projects principally involving the remediation or removal of such materials. However, when remediation is required as part of our contract performance, we believe we comply with all applicable regulations governing the discharge of hazardous materials into the environment or otherwise relating to the protection of the environment.

Collective Bargaining Agreements

At December 31, 2021, we employed approximately 34,000 people, approximately 60% of whom are represented by various unions pursuant to nearly 450 collective bargaining agreements between our individual subsidiaries or trade associations and local unions, as well as two collective bargaining agreements that are national or regional in scope. We believe that our relations with our labor unions are generally positive.

Government Contracts

As a government contractor, we are subject to U.S. government audits and investigations relating to our operations, which such audits may result in fines, penalties and compensatory and treble damages, and possible suspension or debarment from doing business with the government. Based on currently available information, we believe the outcome of ongoing government disputes and investigations will not have a material impact on our financial position, results of operations, or liquidity.

Legal Proceedings

We are involved in several legal proceedings in which damages and claims have been asserted against us. We believe that we have a number of valid defenses to such proceedings and claims and intend to vigorously defend ourselves. We do not believe that any such matters will have a material adverse effect on our financial position, results of operations, or liquidity. We record a loss contingency if the potential loss from a proceeding or claim is considered probable and the amount can be reasonably estimated or a range of loss can be determined. We provide disclosure when it is reasonably possible that a loss will be incurred in excess of any recorded provision. Significant judgment is required in these determinations. As additional information becomes available, we reassess prior determinations and may change our estimates. Additional claims may be asserted against us in the future. Litigation is subject to many uncertainties, and the outcome of litigation is not predictable with assurance. It is possible that a litigation matter for which liabilities have not been recorded could be decided unfavorably to us, and that any such unfavorable decision could have a material adverse effect on our financial position, results of operations, or liquidity.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 16 - LEASES

We lease real estate, vehicles, and equipment under various arrangements which are classified as either operating or finance leases. A lease exists when a contract or part of a contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. In determining whether a lease exists, we consider whether a contract provides us with both: (a) the right to obtain substantially all of the economic benefits from the use of the identified asset and (b) the right to direct the use of the identified asset.

Many of our leases include base rental periods coupled with options to renew or terminate the lease, generally at our discretion. Certain leases additionally include options to purchase the leased asset. In evaluating the lease term, we consider whether we are reasonably certain to exercise such options. To the extent a significant economic incentive exists to exercise an option, that option is included within the lease term. However, based on the nature of our lease arrangements, options generally do not provide us with a significant economic incentive and are therefore excluded from the lease term for the majority of our arrangements.

Our leases typically include a combination of fixed and variable payments. Fixed payments are generally included when measuring the right-of-use asset and lease liability. Variable payments, which primarily represent payments based on usage of the underlying asset, are generally excluded from such measurement and expensed as incurred. In addition, certain of our lease arrangements may contain a lease coupled with an arrangement to provide other services, such as maintenance, or may require us to make other payments on behalf of the lessor related to the leased asset, such as payments for taxes or insurance. We account for these non-lease components together with the associated lease component for each of our asset classes.

The measurement of right-of-use assets and lease liabilities requires us to estimate appropriate discount rates. To the extent the rate implicit in the lease is readily determinable, such rate is utilized. However, based on information available at lease commencement for the majority of our leases, the rate implicit in the lease is not known. In these instances, we utilize an incremental borrowing rate, which represents the rate of interest that we would pay to borrow on a collateralized basis, over a similar term, an amount equal to the lease payments.

Our lease arrangements generally do not contain significant restrictions or covenants; however, certain of our vehicle and equipment leases include residual value guarantees, whereby we provide a guarantee to the lessor that the value of the underlying asset will be at least a specified amount at the end of the lease. Amounts probable of being owed under these guarantees are included within the measurement of the right-of-use asset and lease liability.

Lease Position

The following table presents our lease-related assets and liabilities as of December 31, 2021 and 2020 (in thousands):

Classification on the Consolidated Balance Sheet		December 31, 2021	December 31, 2020
Assets			
Operating lease assets	Operating lease right-of-use assets	\$ 260,778	\$ 242,155
Finance lease assets	Property, plant and equipment, net	7,666	9,638
Total lease assets		<u>\$ 268,444</u>	<u>\$ 251,793</u>
Liabilities			
Current			
Operating	Operating lease liabilities, current	\$ 57,814	\$ 53,632
Finance	Current maturities of long-term debt and finance lease liabilities	3,320	3,995
Noncurrent			
Operating	Operating lease liabilities, long-term	220,836	205,362
Finance	Long-term debt and finance lease liabilities	4,717	5,971
Total lease liabilities		<u>\$ 286,687</u>	<u>\$ 268,960</u>

NOTE 16 - LEASES (Continued)

Lease Costs

The following table presents information related to our lease expense for the years ended December 31, 2021, 2020, and 2019 (in thousands):

	2021	2020	2019
Finance lease expense:			
Amortization expense	\$ 4,255	\$ 4,562	\$ 4,575
Interest expense	255	355	427
Operating lease expense	70,928	69,208	66,650
Short-term lease expense ⁽¹⁾	150,500	139,706	149,528
Variable lease expense	5,421	5,441	4,924
Total lease expense	\$ 231,359	\$ 219,272	\$ 226,104

(1) Short-term lease expense includes both leases and rentals with initial terms of one year or less and predominantly represents equipment used on construction projects.

Sublease rental income was approximately \$0.2 million for the year ended December 31, 2021, and \$0.5 million for each of the years ended December 31, 2020 and 2019.

Lease Term and Discount Rate

The following table presents certain information related to the lease terms and discount rates for our leases as of December 31, 2021 and 2020:

	December 31, 2021	December 31, 2020
Weighted-average remaining lease term:		
Operating leases	6.4 years	6.6 years
Finance leases	2.9 years	3.1 years
Weighted-average discount rate:		
Operating leases	3.20 %	3.59 %
Finance leases	2.61 %	3.24 %

Other Information

The following table presents supplemental cash flow information related to our leases for the years ended December 31, 2021, 2020, and 2019 (in thousands):

	2021	2020	2019
Cash paid for amounts included in the measurement of lease liabilities:			
Operating cash flows used for operating leases	\$ 69,797	\$ 65,016	\$ 65,757
Operating cash flows used for finance leases	\$ 255	\$ 355	\$ 427
Financing cash flows used for finance leases	\$ 4,189	\$ 4,470	\$ 4,571
Right-of-use assets obtained in exchange for new operating lease liabilities	\$ 80,661	\$ 55,895	\$ 84,089
Right-of-use assets obtained in exchange for new finance lease liabilities	\$ 2,301	\$ 4,558	\$ 5,311

NOTE 16 - LEASES (Continued)

Maturity of Lease Liabilities

The following table reconciles our future minimum lease payments on an undiscounted cash flow basis to our lease liabilities reported in the Consolidated Balance Sheet as of December 31, 2021 (in thousands):

	Operating Leases	Finance Leases
2022	\$ 65,528	\$ 3,469
2023	56,229	2,238
2024	45,037	1,742
2025	36,077	705
2026	29,044	140
Thereafter	77,556	10
Total minimum lease payments	309,471	8,304
Less: Amount of lease payments representing interest	(30,821)	(267)
Present value of future minimum lease payments	<u>\$ 278,650</u>	<u>\$ 8,037</u>
Current portion of lease liabilities	\$ 57,814	\$ 3,320
Noncurrent portion of lease liabilities	220,836	4,717
Present value of future minimum lease payments	<u>\$ 278,650</u>	<u>\$ 8,037</u>

NOTE 17 - ADDITIONAL CASH FLOW INFORMATION

The following table presents information about cash paid for interest and income taxes for the years ended December 31, 2021, 2020, and 2019 (in thousands):

	2021	2020	2019
Cash paid during the year for:			
Interest	\$ 5,259	\$ 8,289	\$ 12,683
Income taxes	\$ 130,811	\$ 145,386	\$ 126,169

NOTE 18 - SEGMENT INFORMATION

We are one of the largest specialty contractors in the United States and a leading provider of electrical and mechanical construction and facilities services, building services, and industrial services. Our services are provided to a broad range of commercial, industrial, utility, and institutional customers through approximately 90 operating subsidiaries. Such operating subsidiaries are organized into the following reportable segments:

- United States electrical construction and facilities services;
- United States mechanical construction and facilities services;
- United States building services;
- United States industrial services; and
- United Kingdom building services.

For a more complete description of our operations, refer to Item 1. Business.

Our reportable segments reflect certain reclassifications of prior year amounts from our United States electrical construction and facilities services segment to our United States industrial services and our United States building services segments due to changes in our internal reporting structure aimed at realigning our service offerings.

Report of Independent Registered Public Accounting Firm

To the Stockholders and Board of Directors of EMCOR Group, Inc. and subsidiaries:

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of EMCOR Group, Inc. and subsidiaries (the Company) as of December 31, 2021 and 2020, the related consolidated statements of operations, comprehensive income, equity and cash flows for each of the three years in the period ended December 31, 2021, and the related notes and financial statement schedule listed in the Index at Item 15(a)(2) (collectively referred to as the “consolidated financial statements”). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2021 and 2020, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2021, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company’s internal control over financial reporting as of December 31, 2021, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) and our report dated February 24, 2022 expressed an unqualified opinion thereon.

Basis for Opinion

These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matters

The critical audit matters communicated below are matters arising from the current period audit of the financial statements that were communicated or required to be communicated to the audit committee and that: (1) relate to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matters below, providing separate opinions on the critical audit matters or on the accounts or disclosures to which they relate.

Revenue Recognition from Construction Contracts

Description of the Matter

As described in Note 3 to the consolidated financial statements, the Company generally recognizes revenue from construction contracts over time using a cost-to-cost input method in which the extent of progress is measured based on the ratio of costs incurred to date to the total estimated costs at completion. In addition, the revenue recognition process requires the Company to determine the transaction price that represents the amount of consideration to which the Company expects to be entitled. A significant portion of the Company's revenues for the year ended December 31, 2021 were derived from construction contracts.

The determination of revenue recognized from construction contracts commonly requires the Company to estimate variable consideration that arises from pending change orders, contract claims, contract bonuses, and penalties, as well as to prepare estimates of the costs to complete contracts. Factors inherent in the estimation processes include, among others, historical experience with customers, the potential long-term nature of dispute resolutions, actions of third parties as well as the Company's experience with similar types of contracts. Due to uncertainties attributed to such factors, auditing revenue recognized from construction contracts involved especially challenging, subjective, and complex judgments.

How We Addressed the Matter in Our Audit

We obtained an understanding, evaluated the design, and tested the operating effectiveness of the Company's controls related to revenue recognition from construction contracts. For example, we tested controls over the Company's determination and review of estimates of variable consideration, costs to complete, and the completeness and accuracy of data utilized in conjunction with such estimation processes.

To test the amount of revenue recognized from construction contracts in the current period, we selected a sample of contracts and performed procedures to test the project revenue and cost forecasts. For example, we obtained and inspected the related contract agreements, amendments, and change orders to test the existence of customer arrangements and understand the scope and pricing of the related projects; performed inquiries of management and project personnel regarding facts and circumstances relevant to the accounting for such contracts; tested key components of the estimated costs to complete, including materials, labor, and subcontractors costs; agreed actual costs incurred to supporting documentation; and recalculated revenues recognized based on the project's percentage of completion and management's estimate of transaction price. In addition, we performed certain retrospective review procedures to assess management's historical ability to accurately estimate the transaction price and costs to complete contracts as well as to identify any significant or unusual changes in project revenue and cost forecasts during the period.

Valuation of Goodwill and Indefinite-Lived Intangible Assets

Description of the Matter

At December 31, 2021, the Company's goodwill and indefinite-lived trade name intangible assets were approximately \$890.3 million and \$215.8 million, respectively. As discussed in Note 8 to the consolidated financial statements, goodwill and trade names with indefinite lives are tested for impairment at least annually.

Auditing management's annual impairment tests was especially complex and subjective due to the significant estimation required in determining the fair value of the reporting units for goodwill and the fair value of trade name intangible assets. In particular, the fair value estimates for goodwill were sensitive to significant assumptions inherent in the Company's discounted estimated future cash flows such as the weighted average cost of capital, revenue growth rates, and operating margins. The fair value estimates for trade name intangible assets were sensitive to significant assumptions inherent in the Company's discounted estimated future cash flows such as the royalty rate, discount rate, and revenue growth rates. The fair value estimates for goodwill and trade name intangible assets are affected by expectations about future market or economic conditions, including the effects of the COVID-19 pandemic and other macroeconomic events relevant to certain markets in which the Company operates.

How We Addressed the Matter in Our Audit

We obtained an understanding, evaluated the design, and tested the operating effectiveness of controls over the Company's impairment review processes for goodwill and trade name intangible assets. For example, we tested management's review controls over the valuation models and significant assumptions described above, including those developed by the Company's third-party valuation specialists.

To test the estimated fair value of the Company's reporting units and trade name intangible assets, with the support of a valuation specialist, we performed audit procedures that included, among others, assessing methodologies and testing the significant assumptions and completeness and accuracy of the underlying data used by the Company in its analyses. For example, we compared the significant assumptions used by management to the historical financial results of the Company's reporting units and to current industry and economic trends. We assessed the historical accuracy of management's estimates by comparing past projections to actual performance and performed sensitivity analyses of significant assumptions to evaluate the changes in fair value that would result from changes in the assumptions. In addition, we reviewed the reconciliation of the aggregate fair value of the Company's reporting units to the market capitalization of the Company.

/s/ Ernst & Young LLP

We have served as the Company's auditor since 2002.

Stamford, Connecticut
February 24, 2022

Report of Independent Registered Public Accounting Firm

To the Stockholders and Board of Directors of EMCOR Group, Inc. and subsidiaries:

Opinion on Internal Control Over Financial Reporting

We have audited EMCOR Group, Inc. and subsidiaries' internal control over financial reporting as of December 31, 2021, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). In our opinion, EMCOR Group, Inc. and subsidiaries (the Company) maintained, in all material respects, effective internal control over financial reporting as of December 31, 2021, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the 2021 consolidated financial statements of the Company and our report dated February 24, 2022 expressed an unqualified opinion thereon.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

/s/ Ernst & Young LLP

Stamford, Connecticut

February 24, 2022

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

Not applicable.

ITEM 9A. CONTROLS AND PROCEDURES

Based on an evaluation of our disclosure controls and procedures (as required by Rules 13a-15(b) of the Securities Exchange Act of 1934), our Chairman, President and Chief Executive Officer, Anthony J. Guzzi, and our Executive Vice President and Chief Financial Officer, Mark A. Pompa, have concluded that our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934) are effective as of the end of the period covered by this report.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934). Our internal control over financial reporting is a process designed with the participation of our principal executive officer and principal financial officer or persons performing similar functions to provide reasonable assurance regarding the reliability of financial reporting and the preparation of our financial statements for external reporting purposes in accordance with U.S. generally accepted accounting principles.

Our internal control over financial reporting includes policies and procedures that: (a) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect our transactions and dispositions of assets, (b) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with U.S. generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and Board of Directors, and (c) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of our assets that could have a material effect on our financial statements.

Because of its inherent limitations, our disclosure controls and procedures may not prevent or detect misstatements. A control system, no matter how well conceived and operated, can only provide reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

As of December 31, 2021, our management conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework established in *Internal Control-Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, management has determined that EMCOR's internal control over financial reporting was effective as of December 31, 2021.

The effectiveness of our internal control over financial reporting as of December 31, 2021 has been audited by Ernst & Young LLP, an independent registered public accounting firm, as stated in its report appearing in Item 8 of this Form 10-K, which such report expressed an unqualified opinion on the effectiveness of our internal control over financial reporting as of December 31, 2021.

Changes in Internal Control over Financial Reporting

In addition, our management with the participation of our principal executive officer and principal financial officer or persons performing similar functions has determined that no change in our internal control over financial reporting (as that term is defined in Rules 13(a)-15(f) and 15(d)-15(f) of the Securities Exchange Act of 1934) occurred during the fourth quarter of our fiscal year ended December 31, 2021 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

Not applicable.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The information required by this Item 10 with respect to directors is incorporated herein by reference to the section of our definitive Proxy Statement for the 2022 Annual Meeting of Stockholders entitled “Election of Directors,” which Proxy Statement is to be filed with the Securities and Exchange Commission pursuant to Regulation 14A not later than 120 days after the end of the fiscal year to which this Form 10-K relates (the “Proxy Statement”). The information, if any, required by this Item 10 concerning compliance with Section 16(a) of the Securities Exchange Act of 1934 is incorporated herein by reference to the section of the Proxy Statement entitled “Delinquent Section 16(a) Reports.” The information required by this Item 10 concerning the Audit Committee of our Board of Directors and Audit Committee financial experts is incorporated by reference to the section of the Proxy Statement entitled “Meetings and Committees of the Board of Directors” and “Corporate Governance.” The information required by this Item 10 regarding stockholder recommendations for director candidates is incorporated by reference to the section of the Proxy Statement entitled “Recommendations for Director Candidates.” Information regarding our executive officers is contained in Part I of this Form 10-K following Item 4 under the heading “Executive Officers of the Registrant.” We have adopted a Code of Ethics that applies to our Chief Executive Officer and our Senior Financial Officers, which is listed on the Exhibit Index.

ITEM 11. EXECUTIVE COMPENSATION

The information required by this Item 11 is incorporated herein by reference to the sections of the Proxy Statement entitled “Compensation Discussion and Analysis,” “Executive Compensation and Related Information,” “Potential Post Employment Payments,” “Director Compensation,” “Compensation Committee Interlocks and Insider Participation” and “Compensation Committee Report.”

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The information required by this Item 12 (other than the information required by Section 201(d) of Regulation S-K, which is set forth below) is incorporated herein by reference to the sections of the Proxy Statement entitled “Security Ownership of Certain Beneficial Owners” and “Security Ownership of Management.”

Securities Authorized for Issuance Under Equity Compensation Plans. The following table summarizes, as of December 31, 2021, certain information regarding equity compensation plans that were approved by stockholders and equity compensation plans that were not approved by stockholders.

Plan Category	Equity Compensation Plan Information		
	A	B	C
	Number of Securities to be Issued upon Exercise of Outstanding Options, Warrants and Rights	Weighted Average Exercise Price of Outstanding Options, Warrants and Rights	Number of Securities Remaining Available for Future Issuance under Equity Compensation Plans (Excluding Securities Reflected in Column A)
Equity Compensation Plans Approved by Security Holders	472,410	\$ —	895,682 ⁽¹⁾
Equity Compensation Plans Not Approved by Security Holders	—	—	—
Total	472,410	\$ —	895,682⁽¹⁾

(1) Represents shares of our common stock available for future issuance under our 2010 Incentive Plan, which may be issued pursuant to the award of restricted stock, unrestricted stock and/or awards that are valued in whole or in part by reference to, or are otherwise based on the fair market value of, our common stock.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE

The information required by this Item 13 is incorporated herein by reference to the sections of the Proxy Statement entitled “Compensation Committee Interlocks and Insider Participation” and “Corporate Governance.”

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

The information required by this Item 14 is incorporated herein by reference to the section of the Proxy Statement entitled “Ratification of Appointment of Independent Auditors.”

PART IV

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

(a)(1) The following consolidated financial statements of EMCOR Group, Inc. and Subsidiaries are filed as part of this report under Part II, Item 8. Financial Statements and Supplementary Data:

Financial Statements:

Consolidated Balance Sheets - December 31, 2021 and 2020

Consolidated Statements of Operations - Years Ended December 31, 2021, 2020, and 2019

Consolidated Statements Comprehensive Income - Years Ended December 31, 2021, 2020, and 2019

Consolidated Statements of Cash Flows - Years Ended December 31, 2021, 2020, and 2019

Consolidated Statements of Equity - Years Ended December 31, 2021, 2020, and 2019

Notes to Consolidated Financial Statements

Reports of Independent Registered Public Accounting Firm (PCAOB ID: 42)

(a)(2) The following financial statement schedule is included in this Form 10-K: Schedule II - Valuation and Qualifying Accounts

All other schedules are omitted because they are not required, are inapplicable, or the information is otherwise shown in the consolidated financial statements or notes thereto.

(a)(3) The exhibits filed in response to Item 601 of Regulation S-K are listed in the Exhibit Index.

(b) Exhibit Index

EXHIBIT INDEX

Exhibit No.	Description	Incorporated By Reference to or Filed Herewith, as Indicated Below
3(a-1)	Restated Certificate of Incorporation of EMCOR filed December 15, 1994	Exhibit 3(a-5) to EMCOR's Registration Statement on Form 10 as originally filed March 17, 1995 ("Form 10")
3(a-2)	Amendment dated November 28, 1995 to the Restated Certificate of Incorporation of EMCOR	Exhibit 3(a-2) to EMCOR's Annual Report on Form 10-K for the year ended December 31, 1995 ("1995 Form 10-K")
3(a-3)	Amendment dated February 12, 1998 to the Restated Certificate of Incorporation of EMCOR	Exhibit 3(a-3) to EMCOR's Annual Report on Form 10-K for the year ended December 31, 1997 ("1997 Form 10-K")
3(a-4)	Amendment dated January 27, 2006 to the Restated Certificate of Incorporation of EMCOR	Exhibit 3(a-4) to EMCOR's Annual Report on Form 10-K for the year ended December 31, 2005 ("2005 Form 10-K")
3(a-5)	Amendment dated September 18, 2007 to the Restated Certificate of Incorporation of EMCOR	Exhibit A to EMCOR's Proxy Statement dated August 17, 2007 for Special Meeting of Stockholders held September 18, 2007
3(b)	Amended and Restated By-Laws and Amendments thereto	Exhibit 3(b) to EMCOR's Annual Report on Form 10-K for the year ended December 31, 2016 ("2016 Form 10-K")

CERTIFICATION

I, Anthony J. Guzzi, certify that:

1. I have reviewed this annual report on Form 10-K of EMCOR Group, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)), and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

OSHA Citation & Notification Penalty No. 1430177 was resolved upon the filing on Oct. 2, 2020 of a Joint Settlement with OSHA under Docket No. 20-0511. Violation was amended to other than serious violation of 29 C.F.R 1923 200(g)(1). A fine of \$13,494.00 was issued and paid.

Very truly yours,

Peter A. Ronzetti
Executive VP | COO
Welsbach Electric Corp.

the settlement agreement was posted at a location prescribed by Commission Rule 7(g) on the following date: 10/1/2020.

The settlement agreement shall remain posted for fourteen (14) days.

CERTIFICATION OF SERVICE

The parties certify that the executed settlement agreement was served on the authorized employee representative of the affected employees³ in a manner prescribed in Commission Rule 7(c) on the following date: 10/1/2020. Commission Rules 7(f); 100(b)(1)(ii); 100(c).

CERTIFICATION REGARDING PARTY WHO HAS ELECTED PARTY STATUS

The parties certify that any party who has elected party status, under Commission Rule 20, has been afforded an opportunity to provide input on all matters pertaining to the settlement before the settlement agreement was finalized. Commission Rule 100(b)(1)(iii).

CERTIFICATION WHETHER SETTLEMENT INCLUDES PLEADING WITHDRAWAL, AND WHETHER THE WITHDRAWAL IS WITH PREJUDICE

In the following chart, the parties certify the status of any citations, notifications, notices, or petitions, withdrawn in the settlement agreement, and certify whether the withdrawal was with or without prejudice. Each citation item and notification of proposed penalty withdrawn is included, on a separate row, in the chart. Commission Rule 100(b)(1)(iv).

List of Pleadings Withdrawn	Withdrawal — With or Without Prejudice
------------------------------------	---

² In cases where *all* affected employees are represented by an authorized employee representative an alternative certification shall be included in the Joint Notification of Full Settlement, rather than the posting certification stated above. The alternative certification shall comply with Commission Rules 7(f); 100(b)(1)(ii); 100(c) and shall include the date of service.

³ If *all* affected employees are not represented by an authorized employee representative, an additional certification of posting shall be included in the Joint Notification of Full Settlement. Commission Rules 7(g); 100(b)(1)(ii); 100(c). The settlement agreement shall remain posted for fourteen (14) days. The parties certify that the settlement agreement was posted at a location prescribed by Commission Rule 7(g) on the following date: 10/1/2020.

ACKNOWLEDGEMENT THAT THE PARTIES HAVE NOT PROVIDED THE SETTLEMENT AGREEMENT WITH THIS JOINT NOTIFICATION.

The parties confirm that they have not incorporated the settlement agreement in, or append it to, this joint Notification of Settlement. See Commission Rule 100(b)(2).

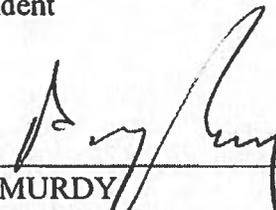

DRAFT ORDER TERMINATING PROCEEDING.

The parties confirm that they have filed, for execution by the Judge, a draft Order Terminating Proceeding, acknowledging that the parties have resolved contested citation items and agreed to terminate the proceeding before the Commission, pursuant to Commission Rules 100(b)(3); 100(c).

List names and addresses of all principals; that is, all individuals serving on the Board of Directors or comparable body, all partners and limited partners, all corporate officers, all parties of Joint Ventures, and all members and officers of limited liability companies (attach additional sheets if necessary):

1 File(s) uploaded WEC LI Officer Affidavit, 2022.pdf

No principals have been attached to this form.

5. List names and addresses of all shareholders, members, or partners of the firm. If the shareholder is not an individual, list the individual shareholders/partners/members. If a Publicly held Corporation, include a copy of the 10K in lieu of completing this section.

If none, explain.

See Emcor Group, Inc. 2021 Annual Report (10k) for Executive Officers (Page 20) and Board of Directors (Page 98) of Emcor Group, Inc.

1 File(s) uploaded EME_AR_10K_2021.pdf

No shareholders, members, or partners have been attached to this form.

6. List all affiliated and related companies and their relationship to the firm entered on line 1. above (if none, enter "None"). Attach a separate disclosure form for each affiliated or subsidiary company that may take part in the performance of this contract. Such disclosure shall be updated to include affiliated or subsidiary companies not previously disclosed that participate in the performance of the contract.

See Emcor Group, Inc. 2021 Annual Report (Attached under Question 5) page 100 for significant subsidiaries. Welsbach Electric Corp. of L.I. is part of EMCOR Construction Services and is the only Emcor subsidiary that will be taking part in the performance of any Nassau County contracts.

7. List all lobbyists whose services were utilized at any stage in this matter (i.e., pre-bid, bid, post-bid, etc.). If none, enter "None." The term "lobbyist" means any and every person or organization retained, employed or designated by any client to influence - or promote a matter before - Nassau County, its agencies, boards, commissions, department heads, legislators or committees, including but not limited to the Open Space and Parks Advisory Committee and Planning Commission. Such matters include, but are not limited to, requests for proposals, development or improvement of real property subject to County regulation, procurements. The term "lobbyist" does not include any officer, director, trustee, employee, counsel or agent of the County of Nassau, or State of New York, when discharging his or her official duties.

Are there lobbyists involved in this matter?

YES NO

(a) Name, title, business address and telephone number of lobbyist(s):

None.

(b) Describe lobbying activity of each lobbyist. See below for a complete description of lobbying activities.

None.

(c) List whether and where the person/organization is registered as a lobbyist (e.g., Nassau County, New York State):

None.

8. VERIFICATION: This section must be signed by a principal of the consultant, contractor or Vendor authorized as a signatory of the firm for the purpose of executing Contracts.

The undersigned affirms and so swears that he/she has read and understood the foregoing statements and they are, to his/her knowledge, true and accurate.

Electronically signed and certified at the date and time indicated by:
Timothy P. Miller [TPMILLER@EMCOR.NET]

Dated: 03/28/2022 01:22:38 PM

Title: President / C.E.O.

The term lobbying shall mean any attempt to influence: any determination made by the Nassau County Legislature, or any member thereof, with respect to the introduction, passage, defeat, or substance of any local legislation or resolution; any determination by the County Executive to support, oppose, approve or disapprove any local legislation or resolution, whether or not such legislation has been introduced in the County Legislature; any determination by an elected County official or an officer or employee of the County with respect to the procurement of goods, services or construction, including the preparation of contract specifications, including by not limited to the preparation of requests for proposals, or solicitation, award or administration of a contract or with respect to the solicitation, award or administration of a grant, loan, or agreement involving the disbursement of public monies; any determination made by the County Executive, County Legislature, or by the County of Nassau, its agencies, boards, commissions, department heads or committees, including but not limited to the Open Space and Parks Advisory Committee, the Planning Commission, with respect to the zoning, use, development or improvement of real property subject to County regulation, or any agencies, boards, commissions, department heads or committees with respect to requests for proposals, bidding, procurement or contracting for services for the County; any determination made by an elected county official or an officer or employee of the county with respect to the terms of the acquisition or disposition by the county of any interest in real property, with respect to a license or permit for the use of real property of or by the county, or with respect to a franchise, concession or revocable consent; the proposal, adoption, amendment or rejection by an agency of any rule having the force and effect of law; the decision to hold, timing or outcome of any rate making proceeding before an agency; the agenda or any determination of a board or commission; any determination regarding the calendaring or scope of any legislature oversight hearing; the issuance, repeal, modification or substance of a County Executive Order; or any determination made by an elected county official or an officer or employee of the county to support or oppose any state or federal legislation, rule or regulation, including any determination made to support or oppose that is contingent on any amendment of such legislation, rule or regulation, whether or not such legislation has been formally introduced and whether or not such rule or regulation has been formally proposed.

Welsbach

Electric of Long Island

An EMCOR Company

Welsbach Electric Corp. of L.I.

300 Newtown Road

Plainview, NY 11803

516.454.0023 • Fax: 516.454.0202

**CERTIFICATE OF
SECRETARY
OF
WELSBACH ELECTRIC CORP. OF L.I.**

The undersigned, Michele Valenti, certifies that she is the duly elected, qualified and acting Secretary of Welsbach Electric Corp. of L. I., a corporation duly organized and existing under the laws of the State of New York, and that as such Secretary, she is the keeper of the corporate records and seal of said Corporation.

The undersigned further certifies:

1. Attached hereto as Exhibit A is a true, correct and complete copy of a resolution adopted upon written consent of the sole director of this Corporation dated as January 15, 2022; and said resolution does not contravene any provision of the certificate of incorporation or by-laws of said Corporation, and has not been rescinded or modified in any respect but still remains in full force and effect.

IN WITNESS WHEREOF, I have hereunto set my hand this 15th day of January, 2022.

Michele Valenti, Secretary

EXHIBIT A

RESOLVED, that the following persons be, and hereby are, elected to hold the office of the Corporation set forth opposite his/her name until such time as his/her successor is elected and shall have qualified:

Timothy P. Miller	President and Chief Executive Officer
Peter A. Ronzetti	Executive Vice President and Chief Operating Officer
Michele Valenti	Vice President of Finance, Controller, Secretary and Treasurer
Daniel Piquette	Vice President of Industrial/Commercial and Asst. Secretary
Darlene Kummer	Vice President of Transportation

Norwalk, Connecticut

06851-1092

(Address of principal executive offices)

(Zip Code)

Registrant's telephone number, including area code: (203) 849-7800

Securities registered pursuant to Section 12(b) of the Act:

Title of each class

Trading Symbol

Name of each exchange on which registered

Common Stock

EME

New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes
No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Securities Exchange Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (Section 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer Accelerated Filer Non-accelerated Filer Smaller Reporting Company Emerging Growth Company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report.

Indicate by check mark whether the registrant is a shell company (as defined by Rule 12b-2 of the Exchange Act). Yes No

The aggregate market value of the common stock held by non-affiliates of the registrant was approximately \$4,566,000,000 as of the last business day of the registrant's most recently completed second fiscal quarter, based upon the closing sale price on the New York Stock Exchange reported for such date. Shares of common stock held by each executive officer and director and by each person who owns 5% or more of the outstanding common stock (based solely on filings of such 5% holders) have been excluded from such calculation as such persons may be deemed to be affiliates. This determination of affiliate status is not necessarily a conclusive determination for other purposes.

Number of shares of the registrant's common stock outstanding as of the close of business on February 18, 2022: 52,666,149 shares.

DOCUMENTS INCORPORATED BY REFERENCE

Part III. Portions of the definitive proxy statement for the 2022 Annual Meeting of Stockholders, which document will be filed with the Securities and Exchange Commission pursuant to Regulation 14A not later than 120 days after the end of the fiscal year to which this Form 10-K relates, are incorporated by reference into Items 10 through 14 of Part III of this Form 10-K.

FORWARD-LOOKING STATEMENTS

This report contains forward-looking statements. You can identify these statements by the fact that they do not relate strictly to historical or current facts. They generally contain words such as “anticipate,” “estimate,” “expect,” “project,” “intend,” “plan,” “believe,” “may,” “can,” “could,” “might,” variations of such wording and other words or phrases of similar meaning. Forward-looking statements in this report include discussions of our future operating or financial performance and other forward-looking commentary regarding aspects of our business, including market share growth, gross profit, remaining performance obligations, project mix, projects with varying profit margins, selling, general and administrative expenses, and trends in our business, and other characterizations of future events or circumstances, such as the effects of the COVID-19 pandemic. Each forward-looking statement included in this report is subject to risks and uncertainties, including those identified below in the “Risk Factors” section, the “Management’s Discussion and Analysis of Financial Condition and Results of Operations” section, and other sections of this report. Such risks and uncertainties could cause actual results to differ materially from those that might be anticipated from, or projected or implied by, our forward-looking statements. The forward-looking statements contained in this report speak only as of the filing date of this report. We undertake no obligation to update any forward-looking statements. However, any further disclosures made on related subjects in our subsequent reports filed with the Securities and Exchange Commission (the “SEC”) should be consulted. We caution investors not to place undue reliance on forward-looking statements, due to their inherent uncertainty.

PART I

ITEM 1. BUSINESS

References to the “Company,” “EMCOR,” “we,” “us,” “our” and similar words refer to EMCOR Group, Inc. and its consolidated subsidiaries unless the context indicates otherwise.

Overview

We are one of the largest specialty contractors in the United States and a leading provider of electrical and mechanical construction and facilities services, building services, and industrial services. In 2021, we had revenues of approximately \$9.9 billion. Our services are provided to a broad range of commercial, industrial, utility, and institutional customers through approximately 90 operating subsidiaries, which specialize principally in providing construction services relating to electrical and mechanical systems in all types of facilities and in providing various services relating to the operation, maintenance, and management of those facilities. Such operating subsidiaries are organized into the following reportable segments:

- United States electrical construction and facilities services
- United States mechanical construction and facilities services
- United States building services
- United States industrial services
- United Kingdom building services

Our operating subsidiaries offer comprehensive and diverse solutions on a broad scale and have a solid base of customers, including many long-standing relationships. We provide construction services and building services directly to corporations, municipalities and federal and state governmental entities, owners/developers, and tenants of buildings. We also provide our construction services indirectly by acting as a subcontractor to general contractors, systems suppliers, construction managers, developers, property managers, and other subcontractors. Our industrial services are generally provided directly to refineries and petrochemical plants.

Our revenues are derived from many different customers in numerous industries, which have operations in several different geographical areas. Of our 2021 revenues, approximately 95% were generated in the United States and approximately 5% were generated in foreign countries, substantially all in the United Kingdom. In 2021, approximately 60% of our revenues were derived from our construction operations, approximately 30% of our revenues were derived from our building services operations and approximately 10% of our revenues were derived from our industrial services operations. For additional information regarding our revenues, see Note 3 - Revenue from Contracts with Customers of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data.

We believe that our range of service offerings, technical capability, and strong project execution, along with our safety culture and financial resources, differentiate us from our competition and position us to benefit from future capital spending by our customers. Our strategies of expanding our portfolio of service offerings for existing and potential customers and increasing or enhancing our presence in core end markets, along with our commitment to industry-leading best practices and technological and training capabilities, place us in the position to capitalize on opportunities and trends in the industries we serve and expand our operations to select new markets.

Increasingly, our services are focused on delivering sustainable energy solutions, enhancements in energy efficiency, reductions in waste and emissions, and improvements in the safety and comfort of our customers’ facilities.

The broad scope of our operations is more particularly described below. For detailed segment financial information refer to Note 18 - Segment Information of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data.

Our executive offices are located at 301 Merritt Seven, Norwalk, Connecticut 06851-1092, and our telephone number at those offices is (203) 849-7800.

Operations

United States electrical and mechanical construction and facilities services operations:

Our electrical and mechanical construction services primarily involve the design, integration, installation, start-up, operation and maintenance, and provision of services relating to:

- Systems for electrical power transmission, distribution, and generation, including power cables, conduits, distribution panels, transformers, generators, uninterruptible power supply systems, and related switch gear and controls;
- Sustainable energy solutions such as solar, photovoltaic, and wind, as well as the installation of electric vehicle charging stations;
- Premises electrical and lighting systems, including fixtures and controls;
- Process instrumentation in the refining, chemical processing, and food processing industries;
- Low-voltage systems, such as fire alarm, security, and process control systems;
- Voice and data communications, including fiber optic and low voltage cabling, distributed antenna systems, audiovisual systems, and wireless access points;
- Roadway and transit lighting and signaling and fiber optic lines;
- Heating, ventilation, air conditioning, and refrigeration, including both traditional mechanical systems as well as geothermal solutions;
- Clean-room process ventilation systems;
- Fire protection and suppression systems;
- Plumbing, process and high-purity piping systems;
- Controls and filtration systems;
- Water and wastewater treatment systems;
- Central plant heating and cooling systems;
- Crane and rigging services;
- Millwright services; and
- Steel fabrication, erection, and welding services.

The electrical and mechanical construction services industry has experienced growth due principally to the increased content, complexity, and sophistication of electrical and mechanical systems resulting, in part, from growth in digital processing, cloud computing, and data storage. In addition, facilities of all types require extensive electrical distribution systems, sophisticated power supplies, networks of low-voltage and fiber-optic communications cabling, and various mechanical, plumbing, and fire protection and suppression systems. Moreover, the need for substantial environmental controls within a building, due to the heightened need to maintain extensive computer systems at optimal temperatures, and the demand for increased energy efficiency, have continued to expand opportunities for our electrical and mechanical services businesses. The demand for these services is typically driven by non-residential construction and renovation activity.

Our electrical and mechanical construction services generally fall into one of three categories: (a) large installation projects, with contracts often in the multi-million dollar range, that involve: (i) the construction of manufacturing facilities, data centers, warehousing and distribution facilities, and commercial buildings, (ii) institutional and public works projects, or (iii) the fit-out of large blocks of space within commercial buildings, (b) large and medium sized capital and maintenance projects for commercial, manufacturing, pharmaceutical, healthcare, oil and gas, industrial, and petrochemical clients and (c) smaller installation projects, of a short duration, typically involving fit-out, renovation, and retrofit work. We also install and maintain lighting for streets, highways, bridges and tunnels, traffic signals, computerized traffic control systems, and signal and communication systems for mass transit systems in several metropolitan areas. In addition, we manufacture and install sheet metal air handling systems for both our own mechanical construction operations and for unrelated mechanical contractors. We also maintain welding and pipe fabrication shops in support of some of our mechanical operations.

Our United States electrical and mechanical construction operations accounted for about 60% of our 2021 total revenues. Of such revenues, approximately 34% were generated by our electrical construction operations and approximately 66% were generated by our mechanical construction operations.

We provide electrical and mechanical construction services for both large and small installation and renovation projects. Our largest projects have included those: (a) for commercial purposes (such as office buildings, data centers, convention centers, sports stadiums, and shopping malls); (b) for manufacturing and industrial purposes (such as pharmaceutical plants, steel, pulp and paper mills, food processing, automotive and semiconductor manufacturing facilities, power generation (including sustainable energy solutions such as solar and wind), oil and gas refineries, and chemical processing plants); (c) for transportation purposes (such as highways, bridges, airports, and transit systems); (d) for institutional purposes (such as educational and correctional facilities and research laboratories); (e) for healthcare purposes; (f) for water and wastewater purposes; and (g) for hospitality purposes (such as resorts, hotels, and gaming facilities). Our largest projects, which typically range in size from \$10 million up to and occasionally exceeding \$200 million, represented approximately 38% of our electrical and mechanical construction services revenues in 2021. Depending on the size and complexity of these projects, they may span multiple years and typically require significant technical and management skills and the financial strength to obtain performance bonds, which are often a condition to bidding for and winning these projects.

Our projects of less than \$10 million accounted for approximately 62% of our electrical and mechanical construction services revenues in 2021. These projects are typically completed in less than one year. They usually involve electrical and mechanical construction services when an end-user or owner undertakes construction or modification of a facility to accommodate a specific use, upgrade or replace aging systems, or increase energy efficiency. These projects frequently require electrical and mechanical systems to meet special needs such as critical systems power supply, fire protection systems, special environmental controls and high-purity air systems, sophisticated electrical and mechanical systems for data centers, new production lines in manufacturing plants, and office arrangements in existing office buildings. They are not usually dependent upon the new construction market. Demand for these projects and types of services is often prompted by the expiration of leases, changes in technology, the demand for more energy efficient systems, or changes in the customer's plant or office layout in the normal course of a customer's business.

United States and United Kingdom building services operations:

Our building services, which are provided to a wide range of facilities, including commercial, utility, institutional, and governmental facilities, include:

- Mobile mechanical maintenance and services for mechanical, electrical, plumbing, fire safety, and building automation systems;
- Small modification and retrofit projects;
- Program development, management, and maintenance for energy systems, including LEED Certified solutions to assist our customers in reducing energy consumption;
- Technical consulting and diagnostic services;
- Services aimed at improving indoor air quality;
- Installation and support for building systems;
- Commercial and government site-based operations and maintenance;
- Facility management, maintenance, and services;
- Floor care and janitorial services, including enhanced cleaning and sanitization services;
- Landscaping, lot sweeping, and snow removal;
- Other building services, including reception, security, and catering services;
- Vendor management and call center services;
- Military base operations support services;
- Infrastructure and building projects for federal, state, and local governmental agencies; and
- Outage services to utilities and industrial plants.

While not all of the above services are performed in both countries, we provide building services throughout the United States and United Kingdom. Our building services operations have built upon our traditional electrical and mechanical construction operations and our client relationships to expand the scope of services being offered and to develop packages of services for customers on a local, regional, and national basis.

Our building services operations, which generated approximately 30% of our 2021 total revenues, provide services to owners, operators, tenants, and managers of all types of facilities both on a contractual basis for a specified period of time and on an individual task order basis. Of our building services revenues for 2021, approximately 83% were generated in the United States and approximately 17% were generated in the United Kingdom.

Demand for our building services is often driven by customers' decisions to focus on their core competencies, customers' programs to reduce costs, the increasing technical complexity of their facilities, including their mechanical, electrical, building automation, voice and data, and other systems, and the need for increased reliability, energy efficiency, and air filtration and sanitization. These trends have led to outsourcing and privatization programs whereby customers in both the private and public sectors seek to contract out those activities that support, but are not directly associated with, the customer's core business. Clients of our building services business include federal and state governments, institutional organizations, utilities, independent power producers, healthcare providers, and major corporations engaged in information technology, telecommunications, pharmaceuticals, financial services, and manufacturing, as well as large retailers and other businesses with geographically dispersed locations.

We provide building services at a number of prominent buildings, including those that house the Secret Service, the Federal Deposit Insurance Corporation, the Government Accountability Office, and the Department of Health and Human Services, as well as other government facilities, including the NASA Jet Propulsion Laboratory. We also provide building services, as a prime contractor or a subcontractor, to U.S. military bases, including the Defense Intelligence Agency located on Joint Base Anacostia-Bolling, and are involved in a joint venture providing building services to NASA's Armstrong Flight Research Center. The agreements pursuant to which this division provides services to the federal government are frequently for a base period and a number of option years exercisable at the sole discretion of the government, are often subject to renegotiation by the government in terms of scope of services, and are subject to termination by the government prior to the expiration of the applicable term.

United States industrial services operations:

Our industrial services are primarily provided to customers within the oil, gas, and petrochemical industries and consist of:

- Refinery turnaround planning and engineering services;
- Specialty welding services;
- Overhaul and maintenance of critical process units in refineries and petrochemical plants;
- Specialty technical services for refineries and petrochemical plants;
- Instrumentation and electrical services for energy infrastructure;
- On-site repairs, maintenance, and service of heat exchangers, towers, vessels, and piping;
- Design, manufacturing, repair, and hydro blast cleaning of shell and tube heat exchangers and related equipment; and
- Renewable energy services, including large scale solar projects, energy storage, and waste to biogas solutions.

Our industrial services business, which generated approximately 10% of our 2021 total revenues, is a recognized leader in the refinery turnaround market and has a presence in the petrochemical market. Demand for these services is highly dependent on the strength of the oil and gas and related industrial markets. Our industrial services operations perform turnaround and maintenance services for critical units of refineries and petrochemical plants to upgrade, repair, and maintain them. Such services include: (a) engineering and planning in advance of complex refinery turnarounds; (b) overhaul and maintenance of critical process units (including hydrofluoric alkylation units, fluid catalytic cracking units, coking units, heaters, heat exchangers, and related mechanical equipment) during refinery and petrochemical plant shut downs; (c) replacement and new construction capital projects for refineries and petrochemical plants; (d) instrumentation and electrical services for energy infrastructure; and (e) other related specialty services such as: (i) welding (including pipe welding) and fabrication; (ii) heater, boiler, and reformer repairs and replacements; converter repair and revamps; and vessel, exchanger and tower services; (iii) tower and column repairs in refineries and petrochemical plants; (iv) installation and repair of refractory materials for critical units in process plants to protect equipment from corrosion, erosion, and extreme temperatures; and (v) acid-proofing services to protect critical components at refineries from chemical exposure. These businesses also design and manufacture highly engineered shell and tube heat exchangers and provide maintenance, repair, and cleaning services for heat exchangers both in the field and at our own shops, including tube and shell repairs, bundle repairs, and extraction services.

In addition to these traditional industrial services, we are working to leverage our expertise in industrial services to construct and maintain carbon capture technologies and renewable energy projects.

Competition

Across our operations, we compete with national, regional, and local companies, many of which are small, owner-operated entities that carry on their businesses in a limited geographic area, as well as with certain foreign companies.

The electrical and mechanical construction services industry is highly fragmented and our competition includes thousands of small companies across the United States. In addition, there are a number of larger public companies focused on providing either electrical and/or mechanical construction services, such as APi Group Corporation, Comfort Systems USA, Inc., Dycom Industries, Inc., IES Holdings, Inc., MasTec, Inc., MYR Group, Inc., and Tutor Perini Corporation. A majority of our revenues are derived from projects requiring competitive bids; however, an invitation to bid is often conditioned upon prior experience, technical capability, and financial strength. Competitive factors in the electrical and mechanical construction services business include: (a) the availability of qualified and/or licensed personnel; (b) reputation for integrity and quality; (c) safety record; (d) cost structure and the ability to control project costs; (e) relationships with customers; (f) price; (g) geographic diversity; (h) experience in specialized markets; (i) the ability to obtain surety bonding; and (j) adequate working capital or access to bank credit. We believe our financial position, operating results, access to bank credit and surety bonding, technical expertise, and safety record, among other factors, give us an advantage over many of our competitors. However, relatively few barriers exist to prevent entry into the electrical and mechanical construction services industry.

While the building services industry is also highly fragmented, with most competitors operating in a specific geographic region, a number of large corporations such as Amentum Services, Inc., IAP Worldwide Services, Inc., Fluor Corporation, J&J Worldwide Services, Cushman & Wakefield plc, CBRE Group, Inc., Jones Lang LaSalle Incorporated, Sodexo, Inc., Aramark, and ABM Industries Incorporated are engaged in this field, as are large original equipment manufacturers such as Carrier Global Corporation and Trane Technologies plc. In addition, we compete with several regional firms serving all or portions of the markets we target, such as BrightView Holdings, Inc., Kellermeier Bergensons Services, LLC, SMS Assist, LLC, and Ferandino & Son, Inc. Our principal competitors in the United Kingdom include CBRE Group, Inc., Bouygues UK Ltd., ISS UK Ltd., and Mitie Group plc. The key competitive factors in the building services industry include: (a) availability of qualified personnel and managers; (b) service quality and technical expertise; (c) cost structure and the ability to control project costs; (d) price; and (e) geographic diversity. Due to our size, our technical capability and management experience, and our geographic presence, we believe our building services operations are in a strong competitive position. However, there are relatively few barriers to entry into the building services industry.

The market for providing industrial services includes large national providers, as well as numerous regional companies. In the manufacture of heat exchangers, we compete with both U.S. and foreign manufacturers. Competitors within this industry include JVIC Catalyst Services, Universal Plant Services, Inc., Turner Industries Group, LLC, Team, Inc., Cust-O-Fab, Inc., Dunn Heat Exchangers, Inc., and Wyatt Field Service Company, LLC, among others. The key competitive factors in the industrial services market consist of: (a) availability of skilled workforce; (b) technical expertise; (c) service, quality, and ability to respond quickly; (d) price; and (e) safety record. Due to our technical capabilities, skilled workforce, and safety record, we believe that we are in a strong competitive position in the industrial services markets that we serve. Because of the complex tasks associated with turnaround projects, and the precision and cost investment required in manufacturing heat exchangers, we believe that the barriers to entry in this business are significant.

Human Capital

At December 31, 2021, we employed approximately 34,000 people, approximately 30,000 of whom were located within the United States and approximately 4,000 of whom were located in the United Kingdom.

Based on the most recent information available from our latest filing with the U.S. Equal Employment Opportunity Commission, the gender demographic of our U.S. employees was 90% male and 10% female. Additionally, based on such information, our U.S. employees had the following race and ethnicity demographics:

Employee Demographic	% of Total
White	70 %
Hispanic / Latinx	17 %
Black / African American	8 %
Asian	2 %
Multiracial, Native American, Native Hawaiian, and Pacific Islander	3 %

Approximately 60% of our employees are represented by various unions pursuant to nearly 450 collective bargaining agreements between our individual subsidiaries or trade associations and local unions, as well as two collective bargaining agreements that are national or regional in scope. We believe that our relations with our labor unions are generally positive.

Our ability to execute complex projects for our customers, and to perform all of our services with the excellence that makes us an industry leader, depends on our success in attracting and retaining skilled labor in a competitive market. We therefore strive to be and remain an employer of choice for the most talented employees in each of the industries and markets in which we operate. This begins with offering competitive employee compensation and benefits packages, specifically designed to meet the unique needs of each individual in our organization, which include:

- *Health and Welfare Plans:* All full-time employees who do not participate in union plans are offered a range of choices among medical, dental and vision plans, life, accident, dependent and disability insurance, and pre-tax health spending accounts that include employer contributions.
- *Retirement Savings:* We help provide our employees with financial security by offering a 401(k) Savings Plan and an Employee Stock Purchase Plan, both of which include company matching contributions.
- *Degree Assistance:* Eligible employees may apply for reimbursement for job-related courses or courses taken as part of a curriculum for a business or job-related degree at an accredited institution.
- *Employee Assistance Program:* Through our Employee Assistance Program, we offer our employees, and their dependents or household members, access to services and counseling on a variety of personal, professional, legal, and financial matters, at no cost.

Key to our attraction and retention of employees is our commitment to our EMCOR Values and our focus on employee safety and diversity, equity, and inclusion. Our Board of Directors and senior leadership engage in oversight and management, respectively, of our significant human capital initiatives. Our Board of Directors is regularly briefed and provides input on key human capital initiatives and metrics.

Commitment to Core Values

We are committed to our EMCOR Values of Mission First: *Integrity, Discipline, and Transparency* and People Always: *Mutual Respect and Trust, Commitment to Safety, and Teamwork*. We constantly strive to ensure these values are reflected in how we do business every day, from our corporate culture and “tone at the top,” established by our Board of Directors and management team, to the critical work performed by all of our people at every level throughout our organization. We reinforce our EMCOR Values through many ongoing initiatives. Our EMCOR Values are embodied in our policies and procedures, including our Code of Business Ethics and Conduct. We also regularly provide training on these values, both at time of hire and on an ongoing, periodic basis. In addition, to develop and reinforce our values company-wide, and empower our leaders to perform at the highest levels, senior leaders are invited to our Leadership for Results course at Babson College and our Leading with Character program at the Thayer Leadership Development Group at West Point.

Workplace Safety

We believe that our focus on employee safety and well-being is reflected in our results. In a year in which our employees worked a total of approximately 76 million hours, the second highest in our history, the Company’s Total Recordable Incident Rate in 2021 was approximately 1.06, which was more than 60% lower than the most recently available industry average of 2.70. This represents our thirteenth consecutive year with a Total Recordable Incident Rate which was less than half the industry average. Our position as an industry leader in safety begins with a strong culture of care and vigilance embodied in our EMCOR Values and is supported by a comprehensive suite of training, resources, and analytics. These include: (a) our signature Be There for Life! Zero Injuries Program and Be Vigilant! Campaign, (b) incident and injury prevention planning, including in-person and online training tools, adoption of new technology, and best practice guides available through our company intranet, (c) enterprise level reporting and analysis of leading and lagging indicators, (d) a 24-hour incident reporting hotline, and (e) a company-wide program to share and champion best safety practices across our range of businesses.

Diversity, Equity, and Inclusion

We believe that a diverse workforce is important to the long-term success of our business. We actively seek to increase the diversity of our workforce and to practice our commitment to diversity and inclusion in hiring, development, and training. This extends to our senior leadership and Board of Directors, where we require that any slate of candidates for a named executive officer or other corporate officer position, and new management-supported director nominees, include individuals from underrepresented demographics. We have also designed and implemented policies and practices to promote a workplace free from discrimination, including our Affirmative Action and Equal Opportunity Policy, the implementation, effectiveness, and reporting requirements of which are overseen by our designated Affirmative Action Officer.

We strive to help all our employees realize their full potential with an equal opportunity to succeed. We work to unlock the full potential of all employees at every level through: (a) the EMCOR Manager Certificate Program, which promotes supervisory management skills, (b) our Degree Assistance Program, which provides tuition reimbursement for continuing education, and (c) the resources available to all employees on our online learning platform, the EMCOR Learning Center, which includes thousands of on-demand training courses on a wide range of topics.

In furtherance of our EMCOR Values, all EMCOR employees are required to complete diversity & inclusion training, and our current and future leaders undergo implicit association and unconscious bias training.

Available Information

We file annual, quarterly and current reports, proxy statements and other information with the SEC. These filings are available to the public over the internet at the SEC's website at <http://www.sec.gov>.

Our Internet address is www.emcorgroup.com. We make available, free of charge, through www.emcorgroup.com our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports, as soon as reasonably practicable after we electronically file such material with, or furnish it to, the SEC. References to our website addressed in this report are provided as a convenience and do not constitute, and should not be viewed as, an incorporation by reference of the information contained on, or available through, the website. Therefore, such information should not be considered part of this report.

Our Board of Directors has an audit committee, a compensation and personnel committee, and a nominating and corporate governance committee. Each of these committees has a formal charter. We also have Corporate Governance Guidelines, which include guidelines regarding related party transactions, a Code of Ethics for our Chief Executive Officer and Senior Financial Officers, and a Code of Ethics and Business Conduct for Directors, Officers, and Employees. Copies of these charters, guidelines and codes, and any waivers or amendments to such codes which are applicable to our executive officers, senior financial officers, or directors, can be obtained free of charge on our website, www.emcorgroup.com.

You may request a copy of the foregoing filings (excluding exhibits), charters, guidelines and codes, and any waivers or amendments to such codes which are applicable to our executive officers, senior financial officers, or directors, at no cost by writing to us at EMCOR Group, Inc., 301 Merritt Seven, Norwalk, CT 06851-1092, Attention: Corporate Secretary, or by telephoning us at (203) 849-7800.

ITEM 1A. RISK FACTORS

Our business is subject to a variety of risks, including the risks described below as well as adverse business and market conditions and risks associated with our operations. The risks and uncertainties described below are not the only ones facing us. Additional risks and uncertainties not known to us or not described below, which we have not determined to be material, may also impair our business operations. You should carefully consider the risks described below, together with all other information in this report, including information contained in the “Business,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” and “Quantitative and Qualitative Disclosures about Market Risk” sections. If any of the following risks actually occur, our business, financial position, results of operations, and/or cash flows could be adversely affected, and we may not be able to achieve our goals. Such events may cause actual results to differ materially from expected and historical results, and the trading price of our common stock could decline.

Economic and Strategic Risk Factors

Economic downturns have historically led to reductions in demand for our services. Negative conditions in the credit markets, including rising interest rates, may adversely impact our ability to operate our business. The level of demand from our clients for our services has been, in the past, adversely impacted by slowdowns in the industries we service, as well as in the economy in general. When the general level of economic activity has been reduced from historical levels, certain of our ultimate customers have delayed or canceled projects or capital spending, especially with respect to more profitable private sector work, and such slowdowns adversely affect our ability to grow, reducing our revenues and profitability. A number of economic factors, including financing conditions, the prices of commodities, and energy prices, have, in the past, adversely affected the industries we serve and our ultimate customers’ ability or willingness to fund expenditures. General concerns about the fundamental soundness of domestic and foreign economies may also cause ultimate customers to defer projects even if they have credit available to them. A prolonged stagnation or weakening in financial and macroeconomic conditions, including as a result of the COVID-19 pandemic, could therefore have a significant adverse effect on our revenues and profitability.

Many of our clients depend on the availability of credit to help finance their capital and maintenance projects. At times, tightened availability of credit or increased interest rates have negatively impacted the ability of existing and prospective ultimate customers to fund projects we might otherwise perform, particularly those in the more profitable private sector. As a result, our ultimate customers may defer such projects for an unknown, and perhaps lengthy, period. Any such deferrals would inhibit our growth and would adversely affect our results of operations.

In a weak economic environment, particularly in a period of restrictive credit markets, we may experience greater difficulties in collecting payments from, and negotiating change orders and/or claims with, our clients due to, among other reasons, a diminution in our ultimate customers’ access to the credit markets or potential bankruptcies. If clients delay in paying or fail to pay a significant amount of our outstanding receivables, or we fail to successfully negotiate a significant portion of our change orders and/or claims with clients, it could have an adverse effect on our liquidity, results of operations, and financial position.

Our business has traditionally lagged recoveries in the general economy and, therefore, after an economic downturn we may not recover as quickly as the economy at large.

Certain of our businesses, including those within our United States industrial services segment, are exposed to risks associated with the oil and gas industry. These risks, which are not subject to our control, include volatility in the price and production of crude oil, the development of and consumer demand for alternative energy sources, including as a result of a change in consumer preference, or in an effort to reduce greenhouse gas emissions or combat climate change, and legislative and regulatory actions. Specifically, lower prices and production volumes, or perceived risk thereof, typically results in the curtailment or deferral of spending by our customers. In addition, macroeconomic conditions, influenced by a variety of events and circumstances, can also affect customer demand for our services within these businesses. For example, during 2020, the escalation of geopolitical tensions between the Organization of Petroleum Exporting Countries (OPEC) and Russia contributed to a significant drop in the price of crude oil, impacting customers in the energy sector and the demand for certain of our services. Continued unfavorable conditions within these markets, including the impact of sustained lower demand for refined products as a result of the COVID-19 pandemic, could further negatively impact our financial position, results of operations, and cash flows.

Our business is vulnerable to the cyclical nature of the markets in which our clients operate and is dependent upon the timing and funding of new awards. We provide construction and maintenance services to ultimate customers operating in a number of markets which have been, and we expect will continue to be, cyclical and subject to significant fluctuations due to a variety of factors beyond our control, including economic conditions and changes in client spending.

Regardless of economic or market conditions, investment decisions by our ultimate customers may vary by location or as a result of other factors like the availability of labor, relative construction costs, or competitive conditions in their industries. Because we are dependent on the timing and funding of new awards, we are therefore vulnerable to changes in our clients' markets and investment decisions.

Our business may be adversely affected by significant reductions in government spending or delays or disruptions in the government appropriations process. Some of our businesses derive a significant portion of their revenues from federal, state, and local governmental agencies. As a result, reduced or delayed spending by the federal government and/or state and local governments may have a material and adverse impact on our business, financial condition, results of operations, and cash flows. Significant reductions in spending aimed at reducing federal, state, or local budget deficits, the absence of a bipartisan agreement on the federal government's budget, renewed focus on budget deficits following recent increases in government spending in response to the COVID-19 pandemic, personnel reductions, the closure of government facilities and offices, or other changes in budget priorities could result in the deferral, delay, disruption, or cancellation of projects or contracts that we might otherwise have sought to perform. These potential events could impact the level of demand for our services and our ability to execute, complete, and receive compensation for our current contracts, or bid for and enter into new contracts with governmental agencies.

An increase in the prices or availability of certain materials used in our businesses, including as a result of inflation, and protectionist trade measures could adversely affect our businesses. We are exposed to market risk of increases in certain commodity prices of materials, such as copper and steel, which are used as components of supplies or materials utilized in our operations. We are also exposed to increases in energy prices, particularly as they relate to gasoline prices for our fleet of approximately 12,000 vehicles. While we believe we can increase our prices to adjust for some price increases in commodities, there can be no assurance that price increases of commodities, if they were to occur, would be recoverable. Additionally, our fixed price contracts generally do not allow us to adjust our prices and, as a result, increases in material or fuel costs could reduce our profitability with respect to projects in progress. For example, during 2021, certain of our operations experienced declines in gross profit and gross profit margin as a result of supply chain disruptions, including long lead times for certain materials and equipment, as well as an escalation in material and fuel prices, and such supply chain disruptions and price escalations have continued into 2022. Fluctuations in energy prices as well as in commodity prices of materials, whether resulting from fluctuations in market supply or demand, or geopolitical conditions, including an increase in trade protection measures such as tariffs and the disruption, modification, or cancellation of multilateral trade agreements, may adversely affect our customers and as a result cause them to curtail the use of our services.

Business and Operational Risk Factors

The loss of one or a few customers could have an adverse effect on us. Although we have long-standing relationships with many of our significant customers, our customers may unilaterally reduce, fail to renew, or terminate their contracts with us at any time. A loss of business from a significant customer, or a number of significant customers, could have a material adverse effect on our business, financial position, and results of operations.

Our industry is highly competitive. Our industry is served by numerous small, owner-operated private companies, a few public companies, and several large regional companies. In addition, relatively few barriers exist to prevent entry into most of the industries in which we operate. As a result, any organization that has adequate financial resources, and access to technical expertise, may become a competitor. Competition in our industry depends on numerous factors, including price. Certain of our competitors have lower overhead cost structures and, therefore, are able to provide their services at lower rates than we are currently able to provide. Our project and service work is frequently awarded through a competitive bidding process, which is standard in our industry. We are constantly competing for contracts based on pricing, schedule, and technical expertise. Competition can place downward pressure on our contract prices and profit margins, which may make it difficult to win the project or force us to accept contractual terms and conditions that are less favorable to us, thereby increasing the risk that, among other things, we may not realize profit margins at the same rates we have seen in the past or may become responsible for costs or other liabilities we have not incurred in the past.

In addition, some of our competitors have greater resources than we do. We cannot be certain that our competitors will not develop the expertise, experience, and resources necessary to provide services that are superior in quality, and lower in price, to ours. Similarly, we cannot be certain that we will be able to maintain or enhance our competitive position within our industries, or maintain a customer base at current levels. We may also face competition from the in-house service organizations of existing or prospective customers, particularly with respect to building services. Many of our customers employ personnel who perform some of the same types of building services that we do. We cannot be certain that our existing or prospective customers will continue to outsource building services in the future. If we are unable to compete effectively, we may experience a loss of market share, reduced profitability, or both, which if significant, could have a material adverse effect on our business, financial condition, and results of operations. Refer also to "Business - Competition" in Item 1 of this Form 10-K.

We are a decentralized company, which presents certain risks. While we believe decentralization has enhanced our growth and enabled us to remain responsive to opportunities and to our customers' needs, it necessarily places significant control and decision-making powers in the hands of local management. This presents various risks, including the risk that we may be slower or less able to identify or react to external market conditions or problems affecting a key business than we would in a more centralized environment.

Our business may be affected by weather conditions. Adverse weather conditions, particularly during the winter season, could impact our construction services operations as those conditions affect our ability to perform efficient work outdoors in certain regions of the United States, adversely affecting the revenues and profitability of those operations. However, the absence of snow in certain regions of the United States during the winter could also cause us to experience reduced revenues and profitability in our United States building services segment, as a portion of their revenues is generated from snow removal contracts. In addition, cooler than normal temperatures during the summer months could reduce the need for our services, particularly in our businesses that install or service air conditioning units, and result in reduced revenues and profitability during the period that such unseasonal weather conditions persist.

Our business may be affected by the work environment. We perform our work under a variety of conditions, including but not limited to, difficult terrain, difficult site conditions, and busy urban centers where delivery of materials and availability of labor may be impacted, clean-room environments where strict procedures must be followed, and sites which contain harsh or hazardous conditions, especially at chemical plants, refineries and other process facilities. Performing work under these conditions can increase the cost of such work or negatively affect efficiency and, therefore, our profitability.

Our dependence upon fixed price contracts could adversely affect our business. We currently generate, and expect to continue to generate, a significant portion of our revenues from fixed price contracts. We must estimate the total costs of a particular project to bid for fixed price contracts. Cost and scheduling estimates are based on a number of assumptions, including those about future economic conditions, commodity and other materials pricing, cost and availability of labor, equipment, and materials, and supply chain efficiency, among other factors. The actual cost of labor and materials, however, may vary from the costs we originally estimated. These variations, along with other risks, inherent in the execution of projects subject to fixed price contracts, may cause actual gross profits from projects to differ from those we originally estimated and could result in reduced profitability or losses on projects. Depending upon the size of a particular project, variations from the estimated contract costs can have a significant impact on our operating results for any fiscal quarter or year.

We could incur additional costs to cover certain guarantees or other contractual requirements. In some instances, we guarantee completion of a project by a specific date or price, cost savings, achievement of certain performance standards, or performance of our services at a certain standard of quality. For other arrangements, including those within our government services operations, the terms of our contracts may include provisions which require us to achieve certain minority participation or small or disadvantaged business "set-aside" goals. Such requirements have become more frequent in recent years and we expect them to be increasingly prevalent, and more strictly enforced in the near future, especially under the current administration in Washington, D.C. If we subsequently fail to meet such guarantees, or comply with such provisions, we may be held responsible for costs resulting from such failures, including payment of penalties or liquidated or other damages. To the extent that any of these events occur, the total costs of a project could exceed the original estimated costs, and we would experience reduced profits or, in some cases, a loss.

Many of our contracts, especially our building and industrial services contracts, may be canceled or delayed on short notice, and we may be unsuccessful in replacing such contracts if they are canceled or as they are completed or expire. We could experience a decrease in revenues, net income, and liquidity if any of the following occur:

- customers cancel a significant number of contracts or delay services or projects;
- we fail to win a significant number of our existing contracts upon re-bid;
- we complete a significant number of non-recurring projects and cannot replace them with similar projects; or
- we fail to reduce operating and overhead expenses consistent with any decrease in our revenues.

Uncertainty surrounding the timing of contract awards, or project cancellations or delays, can also present difficulties in matching our workforce size with contract needs. In some cases, in anticipation of contract awards, we maintain and bear the cost of a ready workforce size that is larger than necessary under our existing contract portfolio. When a contract is canceled or delayed, or an anticipated contract award is not received, it may result in lower profitability as a result of labor underutilization, or additional costs resulting from reductions in staff, which could have a material adverse effect on our business, financial condition, and results of operations.

We may be unsuccessful in generating internal growth. Our ability to generate internal growth will be affected by, among other factors, our ability to:

- expand the range of services offered to customers to address their evolving needs;
- attract new customers; and
- retain and/or increase the number of projects performed for existing customers.

In addition, existing and potential customers may reduce the number or size of projects available to us because of general economic conditions or due to their inability to obtain capital or pay for services we provide. Many of the factors affecting our ability to generate internal growth are beyond our control, and we cannot be certain that our strategies will be successful or that we will be able to generate cash flow sufficient to fund our operations and to support internal growth. If we are not successful, we may not be able to achieve internal growth, expand operations, or grow our business.

Fluctuating foreign currency exchange rates impact our financial results. We have operations in the United Kingdom, which in 2021 accounted for approximately 5% of our revenues. Our reported financial position and results of operations are exposed to the effects (both positive and negative) that fluctuating exchange rates have on the process of translating the financial statements of our United Kingdom operations, which are denominated in local currencies, into the U.S. dollar. The factors that impact exchange rate fluctuation, including macroeconomic and geopolitical conditions, are outside the control of the Company.

As part of our risk management strategy, we are effectively self-insured against certain potential liabilities. Although we maintain insurance policies with respect to a broad range of risks, including automobile liability, general liability, workers' compensation, and employee-related healthcare, these policies do not cover all possible claims and certain of the policies are subject to large deductibles and retentions. In addition, we maintain a wholly-owned captive insurance subsidiary to manage certain of our insurance liabilities. Accordingly, we are effectively self-insured for a substantial number of actual and potential claims. Further, if any of our insurance carriers defaulted on its obligations to provide insurance coverage by reason of its insolvency or for other reasons, our exposure to claims would increase and our profits would be adversely affected. Our estimates for unpaid claims and expenses are based on known facts, historical trends, and industry averages, utilizing the assistance of an independent third-party actuary. The determination of such estimated liabilities and their appropriateness are reviewed and updated at least quarterly. However, these liabilities are difficult to assess and estimate due to many relevant factors, the effects of which are often unknown, including the severity of an injury or damage, the determination of liability in proportion to other parties, the timeliness of reported claims, the effectiveness of our risk management and safety programs, and the terms and conditions of our insurance policies. Our accruals are based upon known facts, historical trends and our reasonable estimate of future expenses, and we believe such accruals are adequate. However, unknown or changing trends, risks, or circumstances, such as increases in claims, a weakening economy, increases in medical costs, changes in case law or legislation, or changes in the nature of the work we perform, could render our current estimates and accruals inadequate. In such case, adjustments may be required to increase our insurance liabilities in the period that the experience becomes known.

External market conditions, including catastrophic losses resulting from an increase in severe weather events and the prolonged pandemic, among other factors, have resulted in an insurance market that is characterized by higher premiums, diminished capacity, and more conservative underwriting. If these market conditions persist, insurance carriers may be unwilling, in the future, to provide our current levels of coverage without a significant increase in insurance premiums, self-insured retention limits, or collateral requirements to cover our obligations to them. Increased collateral requirements may be in the form of additional letters of credit, surety bonds, and/or cash, and an increase in collateral requirements could significantly reduce our liquidity. If insurance premiums or self-insured retention limits increase, and/or if insurance claims are higher than our estimates, our profitability could be adversely affected.

Failure to provide our services in accordance with professional standards or contractual requirements could expose us to significant monetary damages. Our services often involve professional judgments regarding the planning, design, development, construction, or operations and management of complex facilities. Although we have adopted a range of insurance, risk management, and risk avoidance programs designed to reduce potential liabilities, a catastrophic event at one of our project sites or a completed project, resulting from the services we have performed, could result in significant professional or product liability and warranty or other claims against us, as well as reputational harm. These liabilities could exceed our insurance limits or impact our ability to obtain insurance in the future. Further, even where insurance coverage applies, such policies have limits and deductibles or retentions, which could result in our assumption of exposure for certain amounts with respect to any claim filed against us. In addition, customers or subcontractors who have agreed to indemnify us against any such liabilities or losses might refuse or be unable to uphold their obligations to us. An uninsured claim, either in part or in whole, as well as any claim covered by insurance but subject to a policy limit, high deductible and/or retention, could have a material adverse effect on our business, financial condition, and results of operations.

Our business strategy relies, in part, on acquisitions to sustain our growth, and these transactions present certain risk and uncertainties. As part of our growth strategy, we acquire companies that expand, complement, and/or diversify our businesses. However, there is no guarantee that we will be successful in identifying targets that meet our requirements for acquisition. We may also face increased competition from other potential acquirers who may have greater financial resources available to them or who may be in a position to offer more favorable terms to the target company. This competition may limit our ability to pursue acquisition opportunities. Additionally, circumstances beyond our control, such as the COVID-19 pandemic, has and may continue to hinder our ability to pursue and complete acquisitions. Further, realization of the anticipated benefits of an acquisition, and avoiding or mitigating the potential risks associated with an acquisition, will depend, among other things, upon our ability to: (a) effectively conduct due diligence to identify potential problems at companies we propose to acquire, (b) recognize incompatibilities or other obstacles to the successful integration of the acquired business with our other operations, and (c) gain greater efficiencies and scale that will translate into reduced costs or anticipated synergies in a timely manner. However, there can be no assurance that an acquisition we may make in the future will provide the benefits anticipated when entering into the transaction. Acquisitions we have completed, and future acquisitions we may make, could expose us to operational challenges and risks, including the diversion of management's attention from our existing businesses, the failure to retain key personnel or customers of the acquired business, and the assumption of unknown liabilities of the acquired business for which there are inadequate reserves. Our ability to sustain our growth and maintain our competitive position may be affected by our ability to identify and acquire desirable businesses and successfully integrate any acquired business.

In addition, while we work to rapidly implement or maintain internal controls and financial reporting standards and procedures in the businesses we acquire, including integrating such acquired businesses into our consolidated financial reporting systems and controls, we cannot be certain that such implementation and integration will be quickly and effectively completed. Our internal control processes and procedures with respect to such businesses may need to be adjusted or enhanced in order to ensure that such businesses are in compliance with the regulations we are subject to as well as our internal policies and standards. Such changes could result in significant additional costs to us and could require the diversion of management's attention from our existing businesses or other strategic initiatives.

Amounts included in our remaining performance obligations may not result in actual revenues or translate into profits. Many contracts are subject to cancellation or suspension on short notice at the discretion of the client, and the contracts in our remaining performance obligations are subject to changes in the scope of services to be provided as well as adjustments to the costs relating to the contract. The risk of contracts included in our remaining performance obligations being delayed or canceled generally increases during economic slowdowns or in response to significant fluctuations in commodity prices. Accordingly, there is no assurance that revenue from remaining performance obligations will actually be realized. If our remaining performance obligations fail to materialize, we could experience a decline in profitability, which could result in a deterioration of our financial position and liquidity.

We recognize revenue for the majority of our construction projects based on estimates; therefore, variations of actual results from our assumptions may reduce our profitability. As discussed in further detail in the "Critical Accounting Policies and Estimates" section included in Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations, revenue is recognized as performance obligations are satisfied and earnings or losses recognized on individual contracts are based on estimates of contract price, costs, and profitability. Changes in estimates of transaction prices as well as estimated costs are recognized on a cumulative catch-up basis in the period in which the revisions to the estimates are made. Consequently, changes in estimates, or variations of actual results from previous projections, on an unusually large project, or on a number of average size projects, could be material and could have an adverse impact on our financial condition, results of operations, and cash flows.

We are increasingly dependent on sophisticated information technology systems; our business and results of operations are subject to adverse impacts due to disruption, failure, and cybersecurity breaches of these systems. We and our customers and third-party providers rely on information technology systems, hardware, and software to run critical accounting, project management, and financial information systems. We rely upon security measures, products, and services to attempt to secure our information technology systems and the confidential, proprietary, and sensitive information they contain. However, our information technology systems and those of our customers and third-party providers are subject to cyber-attacks, hacking, other intrusions, failure, and damage, which result in operational disruption and could result in information misappropriation, such as theft of intellectual property or inappropriate disclosure of customer data or confidential or personal information. On February 15, 2020, for example, we became aware of an infiltration and encryption of portions of our information technology network. This attack temporarily disrupted our use of the impacted systems. While we maintain insurance coverage for these types of incidents, such policies may not completely provide coverage for, or completely offset, the costs associated with such incidents. We are continuously developing and enhancing our controls, processes, and practices designed to protect our systems, computers, software, data, and networks from attack, damage, or unauthorized access. This continued development and enhancement requires us to expend additional resources. However, we may not anticipate or combat all types of potential disruptions or breaches. If any of these events were to occur, we could be required to expend additional capital and other

resources, including costs to deploy additional personnel and protection technologies, train employees, and engage third-party experts and consultants. Additionally, as many of our employees use our information technology systems to collaborate with colleagues in different geographic locations and periodically access our systems remotely, we may be subject to heightened security risks, including the risks of cyber-attacks.

The proper functioning of our information technology systems could also be impacted by other causes and circumstances beyond our control, including malware embedded in third party applications, the decision by software vendors to discontinue further development, integration, or long-term software maintenance support for our information systems, or hardware interruption, damage or disruption as a result of power outages, natural disasters, or computer network failures. Key business processes are subject to interruption to the extent that our information technology systems, or those of our customers or third-party providers, are disabled for a long period of time. Such operational disruptions and/or misappropriation or inappropriate disclosure of information could result in lost or reduced revenues, negative publicity, loss of customers or contracts, or business delays that could have a material adverse effect on our business, financial position, and results of operations.

In addition, new or evolving laws and regulations governing data privacy and the unauthorized disclosure of confidential information, including the European Union General Data Protection Regulation ("GDPR"), the California Consumer Privacy Act, and other emerging U.S. state privacy laws pose increasingly complex compliance challenges and could potentially elevate our compliance costs. Any failure to comply with these laws and regulations could result in significant penalties and legal liability, and increased costs in this area could have a negative impact on our financial condition, results of operations, and cash flow.

Financial Risk Factors

A material portion of our business depends on our ability to provide surety bonds. We may be unable to compete for or work on certain projects if we are not able to obtain the necessary surety bonds. Our construction contracts frequently require that we obtain from surety companies, and provide to our customers, payment and performance bonds as a condition to the award of such contracts. Such surety bonds secure our payment and performance obligations. Under standard terms in the surety market, surety companies issue bonds on a project-by-project basis and can decline to issue bonds at any time or require the posting of collateral as a condition to issuing any bonds. Current or future market conditions, as well as changes in our sureties' assessment of our or their own operating and financial risk, could cause our surety companies to decline to issue, or substantially reduce the amount of, bonds for our work or to increase our bonding costs. These actions can be taken on short notice. If our surety companies were to limit or eliminate our access to bonding, our alternatives would include seeking bonding capacity from other surety companies, increasing business with clients that do not require bonds, or posting other forms of collateral for project performance, such as letters of credit, parent company guarantees, or cash. We may be unable to secure these alternatives in a timely manner, on acceptable terms, or at all. Accordingly, if we were to experience an interruption or reduction in the availability of bonding, we may be unable to compete for or work on certain projects. Increases in the costs of surety bonds could also adversely impact our profitability.

Our results of operations could be adversely affected as a result of goodwill and identifiable intangible asset impairments. When we acquire a business, we record an asset called "goodwill" equal to the excess of the consideration transferred over the fair value of the net tangible and identifiable intangible assets acquired. Goodwill and indefinite-lived intangible assets are not amortized but instead evaluated for impairment annually, or more frequently if events or circumstances indicate that the carrying amount of the asset may be impaired. Impairment may result from a deterioration in macroeconomic conditions, declining financial performance, deterioration in the operational environment, or changes in the manner in which acquired assets are used. While no impairment was recognized during 2021, we recorded \$232.8 million of impairment charges during 2020 as a result of certain of these conditions. Significant judgment is required in determining whether goodwill and indefinite-lived intangible assets are impaired and assumptions utilized for purposes of our impairment testing may change in future periods. There can be no assurance that our estimates and assumptions will prove to be accurate predictions of the future. Significant adverse changes to external market conditions or our internal forecasts, if any, could result in future impairment charges. It is not possible at this time to determine if any future impairment charge will result or, if it does, whether such a charge would be material to our results of operations. For further discussion of our impairment testing, see Note 8 - Goodwill, Identifiable Intangible Assets, and Other Long-Lived Assets included in Item 8. Financial Statements and Supplementary Data.

Failure to maintain effective internal controls over financial reporting could adversely impact our ability to timely and accurately report financial results and comply with our reporting obligations, which could materially affect our business. Regardless of how internal financial reporting control systems are designed, implemented, and enforced, they cannot ensure with absolute certainty that our policy objectives will be met in every instance. Because of the inherent limitations of all such systems, our internal controls over financial reporting may not always prevent or detect misstatements. Failure to maintain effective internal control over financial reporting could adversely affect our ability to accurately and timely report financial results, to prevent or detect fraud, or to comply with the requirements of the SEC or the Sarbanes-Oxley Act of 2002, which could necessitate a restatement of our financial statements, and/or result in an investigation, or the imposition of sanctions, by

regulators. Such failure could additionally expose us to litigation and/or reputational harm, impair our ability to obtain financing, or increase the cost of any financing we obtain. All of these impacts could adversely affect the price of our common stock and our business overall.

Legal and Regulatory Risk Factors

We are subject to many laws and regulations in the jurisdictions in which we operate; changes to such laws and regulations may result in additional costs and impact our operations. We are committed to upholding the highest standards of corporate governance and legal and ethical compliance. We are subject to many laws and regulations, including various laws and regulations that apply specifically to U.S. public companies. These include the rules and regulations of the New York Stock Exchange, the Sarbanes-Oxley Act of 2002, and the Dodd-Frank Wall Street Reform and Consumer Protection Act, as well as the various regulations, standards, and guidance put forth by the SEC and other governmental agencies to implement and enforce those laws. New laws, rules, and regulations, or changes to existing laws or their interpretations, could create added legal and compliance costs and uncertainty for us. In addition, our United Kingdom operations are subject to laws and regulations that are in some cases different from those of the United States, including labor laws such as the U.K. Modern Slavery Act and laws and regulations governing information collected from employees, customers and others, specifically the GDPR. These laws and regulations could increase the cost and complexity of doing business in the U.K. and negatively impact our financial position and results of operations. Our efforts to comply with evolving laws, regulations, and reporting standards may increase our general and administrative expenses, divert management time and attention, or limit our operational flexibility, all of which could have a material adverse effect on our business, financial position, and results of operations. Many of our non-public competitors and competitors operating solely in the U.S. are not subject to these laws and regulations and the related costs and expenses of compliance.

Our failure to comply with environmental laws could result in significant liabilities. Our operations are subject to various laws, including environmental laws and regulations, among which many deal with the handling and disposal of asbestos and other hazardous or universal waste products, polychlorinated biphenyls (PCBs), per- and polyfluoroalkyl substances (PFAS) and fuel storage. A violation of such laws and regulations, or a release of such substances, has and may in the future, expose us to various claims, including claims by third parties, as well as remediation costs and fines. We own and lease many facilities. Some of these facilities contain hazardous materials, such as lead and asbestos, and fuel storage tanks, which may be above or below ground. If these tanks were to leak, we could be responsible for the cost of remediation as well as potential fines. As a part of our business, we also install fuel storage tanks and are sometimes required to deal with hazardous materials, all of which may expose us to environmental liability.

In addition, new laws and regulations, stricter enforcement of existing laws and regulations, the discovery of previously unknown contamination or leaks, exposure to or the release of materials subsequently identified as hazardous by a governmental authority, the imposition of new clean-up requirements, or the exposure of our employees or other contractors to hazardous materials, could require us to incur significant costs or become the basis for new or increased liabilities that could harm our financial position and results of operations, although certain of these costs might be covered by insurance. In some instances, we have obtained indemnification or covenants from third parties (including predecessors or lessors) for such clean-up and other obligations and liabilities, and we believe such indemnities and covenants are adequate to cover such obligations and liabilities. However, such third-party indemnities or covenants may not cover all of such costs or third-party indemnitors may default on their obligations. In addition, unanticipated obligations or liabilities, or future obligations and liabilities, may have a material adverse effect on our business operations. Further, we cannot be certain that we will be able to identify, or be indemnified for, all potential environmental liabilities relating to any acquired business.

Adverse resolution of litigation and other legal and regulatory proceedings may harm our operating results or financial position. From time to time, we are a party to lawsuits and other legal proceedings, most of which occur in the normal course of our business. These actions and proceedings may involve actual or threatened claims by customers, employees, or other third parties for, among other things, compensation or indemnification for alleged personal injury, workers' compensation, employment discrimination, breach of contract, property damage, or other general commercial disputes. In addition, we have been, and may in the future be, subject to class action claims alleging violations of the Fair Labor Standards Act and state wage and hour laws. Litigation and other legal proceedings can be expensive, lengthy, and disruptive to normal business operations, and their outcome is inherently uncertain and difficult to accurately predict or quantify. In addition, plaintiffs in many types of actions may seek punitive damages, civil penalties, consequential damages or other losses, or injunctive or declaratory relief. An unfavorable resolution of a particular legal proceeding or claim, whether through a settlement, mediation, court judgment, or otherwise, could have a material adverse effect on our business, operating results, financial position, and cash flows, and in some cases, on our reputation or our ability to obtain projects from customers, including governmental entities. See Item 3. Legal Proceedings and Note 15 - Commitments and Contingencies of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data, for more information regarding any significant legal proceedings in which we are involved.

We may incur liabilities or suffer negative financial impacts relating to occupational, health, and safety matters. Our operations are subject to extensive laws and regulations relating to the maintenance of safe conditions in the workplace. While we have invested, and will continue to invest, substantial resources in our robust occupational, health, and safety programs, many of our businesses involve a high degree of operational risk, and there can be no assurance that we will avoid significant exposure. These hazards can cause personal injury and loss of life, severe damage to or destruction of property and equipment, and other consequential damages, and could lead to suspension of operations, large damage claims, an increase in employee turnover, and, in extreme cases, criminal liability. Any of the foregoing could result in financial losses or reputational harm, which could have a material adverse impact on our business, financial condition, and results of operations.

Our customers seek to minimize safety risks on their sites and they frequently review the safety records of contractors during the bidding process. Accordingly, if our safety record were to substantially deteriorate over time, we might become ineligible to bid on certain work and our customers could cancel our contracts and/or not award us future business.

Our failure to comply with anti-bribery statutes such as the Foreign Corrupt Practices Act and the U.K. Bribery Act of 2010 could result in fines, criminal penalties, and other sanctions that could have an adverse effect on our business. The U.S. Foreign Corrupt Practices Act (the “FCPA”), the U.K. Bribery Act of 2010 (the “Bribery Act”), and similar anti-bribery laws in other jurisdictions generally prohibit companies and their intermediaries from making improper payments to foreign officials for the purpose of obtaining or retaining business or securing an improper advantage. From time to time, we conduct a limited amount of business in a few countries that have experienced corruption to some degree. Our policies require that all of our employees, subcontractors, vendors, and agents worldwide must comply with applicable anti-bribery laws. However, there is no assurance that our policies and procedures to ensure compliance with the FCPA, the Bribery Act, and similar anti-bribery laws, will eliminate the possibility of liability under such laws for actions taken by our employees, agents, and intermediaries. If we were found to be liable for violations under the FCPA, the Bribery Act, or similar anti-bribery laws, either due to our own acts or omissions or due to the acts or omissions of others, we could incur substantial legal expenses and suffer civil and criminal penalties or other sanctions, which could have a material adverse effect on our business, financial condition, and results of operations, as well as our reputation. In addition, whether or not such expenses, penalties, or sanctions are actually incurred, the actual or alleged violation of the FCPA, the Bribery Act, or any similar anti-bribery laws could have a negative impact on our reputation.

Opportunities within the government sector could lead to increased governmental rules and regulations applicable to us. As a government contractor, we are subject to a number of procurement rules and other regulations, any deemed violation of which could lead to fines or penalties or a loss of business. Government agencies routinely audit and investigate government contractors. Government agencies may review a contractor’s performance under its contracts, cost structure, and compliance with applicable laws, regulations, and standards. If government agencies determine through these audits or reviews that costs are improperly allocated to specific contracts, they will not reimburse the contractor for those costs or may require the contractor to refund previously reimbursed costs. If government agencies determine that we are engaged in improper activity, we may be subject to civil and criminal penalties and debarment or suspension from doing business with the government. Government contracts are also subject to renegotiation of terms by the government, termination by the government prior to the expiration of the term, and non-renewal by the government.

Human Capital and Labor Risk Factors

The departure of key personnel could disrupt our business. We depend on the continued efforts of our senior management. The loss of key personnel, including a temporary loss as a result of illness, or the inability to hire and retain qualified executives, could negatively impact our ability to manage our business.

We may be unable to attract and retain skilled employees. Our ability to grow and maintain productivity and profitability will be limited by our ability to employ, train, and retain skilled personnel necessary to meet our requirements. We are dependent upon a workforce of approximately 34,000 employees, including our project managers and field supervisors who are responsible for managing our projects, and there can be no assurance that any individual will continue in his or her capacity for any particular period of time. The loss of such qualified employees could have an adverse effect on our business. We cannot be certain that we will be able to maintain an adequate skilled labor force necessary to operate efficiently and to support our business strategy or that labor expenses will not increase as a result of a shortage in the supply of these skilled personnel. The availability and costs to adequately train and maintain a skilled labor force could be impacted by factors we cannot control, including changes in the unemployment rate, prevailing wage rates, benefit costs, the COVID-19 pandemic, and competition for labor from our competitors in the markets we serve. Labor shortages or increased labor costs could impair our ability to provide services to our customers, maintain our business, or grow our revenues.

Our unionized workforce could adversely affect our operations; our participation in many multiemployer pension plans could result in substantial liabilities being incurred. As of December 31, 2021, approximately 60% of our employees were covered by collective bargaining agreements. Although the majority of these agreements prohibit strikes and work stoppages, we cannot be certain that strikes or work stoppages will not occur in the future. However, only two of our collective bargaining agreements are national or regional in scope, and not all of our collective bargaining agreements expire at the same time. Strikes or work stoppages likely would adversely impact our relationships with our customers and could have a material adverse effect on our financial position, results of operations, and cash flows. We contribute to approximately 200 multiemployer pension plans. Under the Employee Retirement Income Security Act, we may become liable for our proportionate share of a multiemployer pension plan's underfunding if we cease to contribute to that pension plan or significantly reduce the employees in respect of which we make contributions to that pension plan. Our potential liability for unfunded liabilities could be material. See Note 14 - Retirement Plans of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data for additional information regarding multiemployer pension plans.

Risk Factors Related to the Ownership of our Common Stock

Certain provisions of our corporate governance documents could make an acquisition of us, or a substantial interest in us, more difficult. The following provisions of our certificate of incorporation and by-laws, as currently in effect, as well as Delaware law, could discourage potential proposals to acquire us, delay or prevent a change in control of us, or limit the price that investors may be willing to pay in the future for shares of our common stock:

- our certificate of incorporation permits our board of directors to issue “blank check” preferred stock and to adopt amendments to our by-laws;
- our by-laws contain restrictions regarding the right of our stockholders to nominate directors and to submit proposals to be considered at stockholder meetings;
- our certificate of incorporation and by-laws limit the right of our stockholders to call a special meeting of stockholders and to act by written consent; and
- we are subject to provisions of Delaware law, which prohibit us from engaging in any of a broad range of business transactions with an “interested stockholder” for a period of three years following the date such stockholder becomes classified as an interested stockholder.

Climate Change Related Risk Factors

Climate change and related environmental issues could have a material adverse impact on our business, financial condition, and results of operations. Climate change related events, such as increased frequency and severity of storms, floods, wildfires, droughts, hurricanes, freezing conditions, and other natural disasters, may have an adverse impact on our business, financial condition, and results of operation. While we have invested in programs to mitigate the risk that these events disrupt our ability to serve our customers, these events pose inherent risks regardless of where or how we conduct our business. For example, severe weather or a catastrophic natural disaster could negatively impact our and our customers' offices, facilities, or job sites. Access to clean water and reliable energy where we conduct our business is also critical to our operations. Accordingly, severe weather events or natural disasters have the potential to disrupt our and our customers' businesses and may cause us to experience work stoppages, project delays or cancellations, financial losses, and additional costs to resume operations, in addition to potential adverse impacts on the health and safety of our workforce and their ability to work or travel. Further, climate change poses direct physical risks to infrastructure across the industry sectors we serve, both as a result of chronic environmental changes, such as rising sea levels and temperatures, as well as acute events, such as hurricanes, droughts, and wildfires. These impacts and the costs to address them could result in fewer resources for strategic investment by our customers, which could result in a decrease in demand for certain of our services. Any of these events could have a material adverse impact on our business, financial condition, and results of operations.

We may be affected by market or regulatory responses to climate change. Growing public concern about climate change has resulted in the increased focus of local, state, regional, national, and international regulatory bodies on greenhouse gas (“GHG”) emissions and climate change issues. Legislation to regulate GHG emissions has periodically been introduced in the U.S. Congress, and there has been a wide-ranging policy debate, both in the United States and internationally, regarding the impact of these gases and possible means for their regulation. The Biden Administration has made climate change and the limitation of GHG emissions one of its primary objectives, including a renewed commitment to the Paris Agreement and a Nationally Determined Contribution under such agreement that aims to reduce U.S. emissions by 50-52%, compared to a 2005 baseline, by 2030. Several states and geographic regions in the United States have also adopted legislation and regulations to reduce emissions of GHGs. Additional legislation or regulation by these states and regions, the federal government, and/or any international agreements to which the United States may become a party, that control or limit GHG emissions, or otherwise seek to address climate change, could result in increased compliance costs for us and our clients or have other impacts on our

clients, including those who are involved in the exploration, production, or refining of fossil fuels, or who emit greenhouse gases through the combustion of fossil fuels, or through the mining, manufacture, utilization, or production of materials or goods. Such policy changes could increase the costs of projects for our clients or, in some cases, prevent a project from going forward, thereby potentially reducing the need for certain of our services, which could in turn have a material adverse effect on our business, financial condition, and results of operations. However, policy changes and climate legislation could also increase the overall demand for our services as our clients and partners work to comply with these policies, such as by decarbonizing their industries, transitioning from fossil fuels to renewable energy sources, reducing their energy consumption, and developing integrated and sustainable solutions, all of which could have a positive impact on our business. We cannot predict with certainty what the effect of such regulation may be on us or our customers.

We may be unable to achieve our current or future climate commitments and targets, or we may incur substantial costs in meeting such targets. To help mitigate the impacts of GHG emissions on climate change, EMCOR has established initial carbon-based fuel consumption and GHG emission reduction targets. However, achievement of such targets, or similar targets that may be established in the future, is subject to risks and uncertainties, many of which are outside of our control. These risks and uncertainties include, but are not limited to: (a) our ability to execute our operational strategies and achieve our goals within the currently projected costs and the expected timeframes; (b) the availability and cost of alternative fuels, electrical charging infrastructure, off-site renewable energy, and other materials and components; (c) unforeseen design, operational, and technological difficulties; (d) the outcome of research efforts and future technology developments, including the availability of alternate or more fuel efficient vehicles for our fleet, including hybrid or electric vehicles; (e) regulations and requirements that restrict or prohibit our ability to impose requirements on third party contractors; (f) an acquisition of or merger with another company that has not adopted similar targets and goals or whose progress towards reaching its goals is not as advanced as ours; and (g) the pace of recovery from the COVID-19 pandemic, which could result in fluctuations in our fuel consumption and GHG emissions in a given period. In addition, we could be required to expend amounts in future periods as we continue to work towards achieving our targets, which may have a material effect on our business, financial condition, results of operations, or liquidity.

General Risk Factors

Public health emergencies, epidemics, or pandemics, including the COVID-19 pandemic, impact our business. The impact of the global spread of COVID-19, and the responses of governments, businesses, and individuals to combat it, have caused significant volatility, uncertainty, and economic disruption, which has and may continue to adversely impact our operations and those of our customers. Government authorities in the United States and United Kingdom have at various times recommended or imposed certain social distancing, quarantine, and isolation measures to varying degrees, with many such measures impacting large portions of the population. These measures have included limitations on travel and mandatory cessation of certain business activities, some of which have been relaxed or adjusted and others of which remain in effect. Both the outbreak and the containment and mitigation measures resulted in serious adverse impacts on the economy, some of which are ongoing, and both the severity and duration of those impacts and the extent and pace of economic recovery continue to remain uncertain.

Our workforce and ongoing operations have been, are, and may continue to be impacted by the COVID-19 pandemic. For example, we have experienced disruptions that have impacted our ability to perform our work. Such impacts include, but are not limited to, access restrictions and temporary job site shutdowns, reduced labor efficiency resulting from adherence to physical distancing, quarantine, and isolation requirements due to illness or exposure to an infected person, and other enhanced safety protocols mandated at the majority of our worksite locations, and the deferral of maintenance and service projects by our customers. The extent to which the COVID-19 pandemic will continue to impact our business and results of operations remains highly uncertain and will be affected by a number of factors. These include the duration and extent of the pandemic; the potential for additional variants of the virus that are more virulent, contagious, or against which current vaccines are less effective; the duration and extent of containment and mitigation measures that continue to be imposed or recommended; the widespread adoption and long-term efficacy of vaccines and the availability and efficacy of other treatments; the cost and/or disruption of testing that may be required of our employees either by customer requirements or government mandates; the continued impact of the pandemic on economic activity, including on planning and funding for construction projects and our customers' demand for our services; supply chain disruptions or commodity price volatility that could impact our and our vendors' ability to source the supplies and materials needed to operate our business; our ability to effectively operate, including as a result of travel restrictions and mandatory business and facility closures; the ability of our customers to pay us for services rendered; any further closures of our and our customers' offices and facilities; and any additional project delays or shutdowns. Customers may also continue to delay decision-making, delay planned work, or seek to terminate existing agreements. Any of these events could have a material adverse effect on our business, financial condition, results of operations, and/or stock price.

While the emergency temporary standard requiring employers with 100 or more employees to ensure their workforce is fully vaccinated or to require unvaccinated workers to produce a negative test result on at least a weekly basis (the “ETS”) has been withdrawn by the Occupational Safety and Health Administration (“OSHA”), and Executive Order 14042 mandating vaccination for all federal contractors and subcontractors is currently stayed by the courts, it is unclear whether OSHA or another federal agency will mandate vaccination and/or testing. Costs related to any mandatory testing, including both the costs of tests and the costs to compensate employees for the time to undergo such testing, will likely represent a substantial expense to the Company, which could have a material adverse effect on our business, financial condition, and/or results of operations to the extent that a significant portion of our workforce does not choose to become vaccinated.

On January 10, 2022, the Biden Administration announced that it would require insurance companies and group health plans to cover the cost of at-home COVID-19 tests. As we are self-insured for employee-related healthcare claims, this new requirement could result in an additional expense for the Company. It is not possible at this time to determine the impact of this new requirement or whether it could have a material adverse effect on our financial condition and/or results of operations.

Additionally, as many of our employees periodically access our systems remotely, in part as a result of the COVID-19 pandemic and the potential business or facility closures or reduced or staggered in-person attendance, we may be subject to heightened security risks, including the risks of cyber-attacks. Further, if any of our key personnel are unable to perform their duties for a period of time, including as a result of illness, our results of operations could be adversely affected.

Our business, financial condition, results of operations, and/or stock price could also be adversely affected in the future by the effects of another epidemic or pandemic, or otherwise by the spread of contagious diseases other than COVID-19. Such effects could be similar to those of the COVID-19 pandemic or could impact our business in different ways, including supply-chain disruptions, restrictions on our ability to provide services in the regions affected, adverse impacts on our workforce, and impacts to the U.S. or global economy or financial markets generally.

Terrorist attacks and other catastrophic events could disrupt our operations and services. Acts of terrorism and other catastrophic events, and the actions taken by the United States and/or other governments or actors in response to such events, may result in property damage, supply disruption, or economic dislocations throughout the country. Although it is not possible to predict such events or their consequences, these events could increase the volatility of our financial results due to decreased demand and unforeseen costs, with partial or no corresponding compensation from clients.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

We own a limited number of facilities; however, the majority of our operations are conducted at leased properties, which are located throughout the United States and United Kingdom. These properties consist of offices, warehouses, fabrication shops, and maintenance and cleaning facilities. We do not consider any one of these locations to be material to our operations. We believe that our facilities are well maintained, in good operating condition, and suitable for the purposes for which they are used.

See Note 16 - Leases of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data for additional information regarding our leases. We utilize substantially all of our leased or owned facilities and believe there will be no difficulty either in negotiating the renewal of such leases as they expire or in finding alternative space, if necessary.

ITEM 3. LEGAL PROCEEDINGS

We are involved in several legal proceedings in which damages and claims have been asserted against us. We believe that we have a number of valid defenses to such proceedings and claims and intend to vigorously defend ourselves. We do not believe that any such matters will have a material adverse effect on our financial position, results of operations, or liquidity. We record a loss contingency if the potential loss from a proceeding or claim is considered probable and the amount can be reasonably estimated or a range of loss can be determined. We provide disclosure when it is reasonably possible that a loss will be incurred in excess of any recorded provision. Significant judgment is required in these determinations. As additional information becomes available, we reassess prior determinations and may change our estimates. Additional claims may be asserted against us in the future. Litigation is subject to many uncertainties, and the outcome of litigation is not predictable with assurance. It is possible that a litigation matter for which liabilities have not been recorded could be decided unfavorably to us, and that any such unfavorable decision could have a material adverse effect on our financial position, results of operations, or liquidity.

ITEM 4. MINE SAFETY DISCLOSURES

Information concerning mine safety violations or other regulatory matters required by Section 1503(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 104 of Regulation S-K (17 CFR 229.104) is included in Exhibit 95.1 to this Form 10-K.

EXECUTIVE OFFICERS OF THE REGISTRANT

Anthony J. Guzzi, Age 57; President since October 2004, Chief Executive Officer since January 2011 and Chairman of the Board since June 2018. From October 2004 to January 2011, Mr. Guzzi served as Chief Operating Officer of the Company. From August 2001 until he joined the Company, Mr. Guzzi was President of the North American Distribution and Aftermarket Division of Carrier Corporation (“Carrier”). Carrier is a manufacturer and distributor of commercial and residential HVAC and refrigeration systems and equipment and a provider of aftermarket services and components of its own products and those of other manufacturers in both the HVAC and refrigeration industries.

Mark A. Pompa, Age 57; Executive Vice President and Chief Financial Officer of the Company since April 2006 and Treasurer of the Company from October 2019 to June 2020. From June 2003 to April 2006, Mr. Pompa was Senior Vice President-Chief Accounting Officer of the Company, and from June 2003 to January 2007, Mr. Pompa also served as Treasurer of the Company. From September 1994 to June 2003, Mr. Pompa was Vice President and Controller of the Company.

R. Kevin Matz, Age 63; Executive Vice President-Shared Services of the Company since December 2007 and Senior Vice President-Shared Services from June 2003 to December 2007. From April 1996 to June 2003, Mr. Matz served as Vice President and Treasurer of the Company and Staff Vice President-Financial Services of the Company from March 1993 to April 1996.

Maxine L. Mauricio, Age 50; General Counsel and Secretary of the Company since January 2016 and Executive Vice President since February 2021. Ms. Mauricio was a Senior Vice President of the Company from January 2016 to February 2021. From January 2012 to December 2015, Ms. Mauricio was Vice President and Deputy General Counsel of the Company, and from May 2002 to December 2011, she served as Assistant General Counsel of the Company. Prior to joining the Company, Ms. Mauricio was an associate at Ropes & Gray LLP.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Market Information. Our common stock trades on the New York Stock Exchange under the symbol "EME."

Holdings. As of February 18, 2022, there were approximately 480 stockholders of record.

Dividends. We have paid quarterly dividends since October 25, 2011. We expect that such quarterly dividends will be paid for the foreseeable future. Prior to October 25, 2011, no cash dividends had been paid on the Company's common stock. We currently pay a regular quarterly dividend of \$0.13 per share. Our 2020 Credit Agreement places limitations on the payment of dividends on our common stock. However, we do not believe that the terms of such agreement currently materially limit our ability to pay a quarterly dividend of \$0.13 per share for the foreseeable future. See Note 9 - Debt of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data for further information regarding our 2020 Credit Agreement.

Purchase of Equity Securities by the Issuer and Affiliated Purchasers

The following table summarizes repurchases of our common stock made by us during the quarter ended December 31, 2021:

Period	Total Number of Shares Purchased ⁽¹⁾⁽²⁾	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares That May Yet be Purchased Under the Plan or Programs
October 1, 2021 to October 31, 2021	13,800	\$114.95	13,800	\$361,120,633
November 1, 2021 to November 30, 2021	47,466	\$120.06	47,466	\$355,421,942
December 1, 2021 to December 31, 2021	41,607	\$120.49	41,607	\$350,408,840
Total	<u>102,873</u>	\$119.55	<u>102,873</u>	

(1) In September 2011, our Board of Directors (the "Board") authorized a share repurchase program allowing us to begin repurchasing shares of our outstanding common stock. Subsequently, the Board has from time to time increased the amount of our common stock that we may repurchase under such program. Since the inception of the repurchase program, the Board has authorized us to repurchase up to \$1.45 billion of our outstanding common stock. As of December 31, 2021, there remained authorization for us to repurchase approximately \$350.4 million of our shares. No shares have been repurchased by us since the program was announced other than pursuant to such program. Refer to Note 12 - Common Stock of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data for further information regarding our share repurchase program.

(2) Excludes 1,518 shares surrendered to the Company by participants in our share-based compensation plans to satisfy minimum tax withholdings for common stock issued under such plans.

ITEM 6. [RESERVED]

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Business Description

We are one of the largest specialty contractors in the United States and a leading provider of electrical and mechanical construction and facilities services, building services, and industrial services. Our services are provided to a broad range of commercial, industrial, utility, and institutional customers through approximately 90 operating subsidiaries. Such operating subsidiaries are organized into the following reportable segments:

- United States electrical construction and facilities services;
- United States mechanical construction and facilities services;
- United States building services;
- United States industrial services; and
- United Kingdom building services.

For a more complete description of our operations, refer to Item 1. Business.

Our reportable segments reflect certain reclassifications of prior year amounts from our United States electrical construction and facilities services segment to our United States industrial services and our United States building services segments due to changes in our internal reporting structure aimed at realigning our service offerings. Consequently, we have included and updated the year-over-year discussion and analysis of results of operations for 2020 compared to 2019 to reflect these changes.

COVID-19 and Market Update

As a result of the COVID-19 pandemic, we experienced significant disruptions throughout calendar year 2020, which impacted our ability to execute on our remaining performance obligations in many of the markets in which we operate. The economic and operational impact of the pandemic, which were most acute during the second quarter of 2020, negatively affected our results of operations during such period and continued to impact portions of our business in 2021. However, our strong balance sheet and operational flexibility have allowed us to manage through the ongoing impacts of the pandemic while protecting our cash flow and liquidity.

Although the majority of our businesses have largely recovered from the financial impacts of the COVID-19 pandemic experienced in 2020, as evidenced by our consolidated performance and the growth in our remaining performance obligations, our United States industrial services segment continues to be negatively impacted by the lingering effects of the pandemic. The prolonged impacts of lower demand and the overall lagging recovery of the oil and gas market have resulted in customers of this segment canceling or deferring regularly scheduled maintenance projects, reducing capital spending, implementing various cost cutting measures, and closing certain of their facilities. Such customer actions continue to impact the demand for our service offerings within this segment.

We continue to monitor the short- and long-term impacts of the pandemic. While our employees and customers have adapted to a new work environment and there continues to be scientific, societal, and economic progress to address the effects of COVID-19, including the widespread availability of effective vaccines in the markets we serve, there remains significant uncertainty about the future impacts of the pandemic, or any resulting market disruption or volatility, including the potential effects on our operations. We continue to be cautiously optimistic about the markets in which we operate and the customers we serve; however, should there be a slowdown in economic activity due to surges in the number of cases, or an increase in variants of the virus that are more virulent, contagious, or against which current vaccines are less effective, it is possible that projects could be delayed or canceled or that we could experience access restrictions to our customers' facilities, preventing us from performing maintenance and service projects. The extent to which our business and results of operations are impacted in future periods will also depend upon a number of other factors. These include the duration and extent of the pandemic; limitations on the ability of our employees to perform their work due to illness caused by the pandemic or local, state, or federal orders requiring employees to quarantine; the cost and/or disruption of testing that may be required of our employees either by customer requirements or government mandates; the extent, duration, and effective execution of government stabilization and recovery efforts; the widespread adoption and long-term efficacy of vaccines and the availability and efficacy of other treatments; our customers' demand for our services; our ability to continue to safely and effectively operate in this environment; and the ability of our customers to pay us for services rendered.

While the emergency temporary standard requiring employers with 100 or more employees to ensure their workforce is fully vaccinated or to require unvaccinated workers to produce a negative test result on at least a weekly basis (the “ETS”) has been withdrawn by the Occupational Safety and Health Administration (“OSHA”), and Executive Order 14042 mandating vaccination for all federal contractors and subcontractors is currently stayed by the courts, it is unclear whether OSHA or another federal agency will mandate vaccination and/or testing. Costs related to any mandatory testing, including both the costs of tests and the costs to compensate employees for the time to undergo such testing, will likely represent a substantial expense to the Company, which could have a material adverse effect on our business, financial condition, and/or results of operations to the extent that a significant portion of our workforce does not choose to become vaccinated.

On January 10, 2022, the Biden Administration announced that it would require insurance companies and group health plans to cover the cost of at-home COVID-19 tests. As we are self-insured for employee-related healthcare claims, this new requirement could result in an additional expense for the Company. It is not possible at this time to determine the impact of this new requirement or whether it could have a material adverse effect on our financial condition and/or results of operations.

Supply chain disruptions, material shortages, or escalating commodity prices have and may continue to negatively impact our business. For example, we have experienced lead times significantly in excess of normal levels and have seen the effects of inflation through increases in commodity and material prices. Despite these challenges, to date, we have been able to manage our business through enhanced labor planning and project scheduling, increased pricing to the extent contractually permitted, and by leveraging our relationships with our suppliers and customers, resulting in only modest disruptions to our project and service work within the majority of our reportable segments. However, the impact of the COVID-19 pandemic on our vendors and the pricing and availability of materials or supplies utilized in our operations continues to evolve and may have an adverse impact on our operations in future periods. While we believe our remaining performance obligations are firm, customers may also slow decision-making, delay planned work, or seek to terminate existing agreements. Any of these events could have a material adverse effect on our business, financial condition, and/or results of operations.

2021 versus 2020

Overview

The following table presents selected financial data for the fiscal years ended December 31, 2021 and 2020 (in thousands, except percentages and per share data):

	2021	2020
Revenues	\$9,903,580	\$8,797,061
Revenues increase (decrease) from prior year	12.6 %	(4.1)%
Gross profit	\$1,501,737	\$1,395,382
Gross profit as a percentage of revenues	15.2 %	15.9 %
Impairment loss on goodwill, identifiable intangible assets, and other long-lived assets	\$ —	\$ 232,750
Operating income	\$ 530,800	\$ 256,834
Operating income as a percentage of revenues	5.4 %	2.9 %
Net income attributable to EMCOR Group, Inc.	\$ 383,532	\$ 132,943
Diluted earnings per common share	\$ 7.06	\$ 2.40

Revenues of \$9.90 billion for the year ended December 31, 2021 set a new annual record for the Company and represent an increase of 12.6% from revenues of \$8.80 billion for the year ended December 31, 2020. As described in further detail below, we experienced revenue growth within all of our reportable segments.

Operating income for 2021 was \$530.8 million, or 5.4% of revenues, compared to operating income of \$256.8 million, or 2.9% of revenues, in 2020. Our operating results for the year ended December 31, 2020 included \$232.8 million of non-cash impairment charges, which negatively impacted the Company’s operating margin for 2020 by approximately 270 basis points. Excluding the impact of such impairment charges on our 2020 results, operating income increased by \$41.2 million for the year ended December 31, 2021, as a result of increased operating income contribution from all of our reportable segments, except for our United States industrial services segment, which continues to be impacted by the effect of adverse market conditions on the demand for its service offerings, as described in further detail below.

Net income of \$383.5 million, or \$7.06 per diluted share, for the year ended December 31, 2021, compares favorably to net income of \$132.9 million, or \$2.40 per diluted share, for the year ended December 31, 2020. While such increases were largely attributable to the growth in operating income referenced above, net income and diluted earnings per common share for the year ended December 31, 2021 also benefited from a more normalized income tax rate, as our tax rate in the prior year was negatively impacted by the non-cash impairment charges recorded in 2020, the majority of which were non-deductible for tax purposes. Our diluted earnings per share for 2021 additionally benefited from a reduced weighted average share count given the impact of common stock repurchases made by us throughout 2020 and 2021.

Impact of Acquisitions

In order to provide a more meaningful period-over-period discussion of our operating results, we may discuss amounts generated or incurred (revenues, gross profit, selling, general and administrative expenses and operating income) from companies acquired. The amounts discussed reflect the acquired companies' operating results in the current reported period only for the time period these entities were not owned by EMCOR in the comparable prior reported period.

We acquired eight companies in 2021 for total consideration of \$131.2 million. Such acquisitions include: (a) two companies, the results of operations of which were de minimis, included within our United States mechanical construction and facilities services segment, consisting of: (i) a company that provides mechanical services within the Southern region of the United States and (ii) a company that provides fire protection services in the Midwestern region of the United States, (b) two companies that provide electrical construction services for a broad array of customers in the Midwestern region of the United States, the results of operations of which have been included in our United States electrical construction and facilities services segment, and (c) four companies included within our United States building services segment, consisting of: (i) a company that provides mobile mechanical services across North Texas and (ii) three companies, the results of operations of which were de minimis, that bolster our presence in geographies where we have existing operations and provide either mobile mechanical services or building automation and controls solutions.

We acquired three companies in 2020 for total consideration of \$50.3 million. Such acquisitions include: (a) a company that provides building automation and controls solutions within the Northeastern region of the United States, (b) a full service provider of mechanical services within the Washington, D.C. metro area, and (c) a company, the results of operations of which were de minimis, that provides mobile mechanical services in the Southern region of the United States. The results of operations for all three companies have been included within our United States building services segment.

Companies acquired in 2021 and 2020 generated incremental revenues of \$196.3 million and incremental operating income of \$4.0 million, inclusive of \$11.5 million of amortization expense associated with identifiable intangible assets, for the year ended December 31, 2021.

Discussion and Analysis of Results of Operations

Revenues

The following table presents our revenues for each of our operating segments and the approximate percentages that each segment's revenues were of total revenues for the years ended December 31, 2021 and 2020 (in thousands, except for percentages):

	<u>2021</u>	<u>% of Total</u>	<u>2020</u>	<u>% of Total</u>
Revenues from unrelated entities:				
United States electrical construction and facilities services	\$ 2,015,466	20 %	\$ 1,806,092	20 %
United States mechanical construction and facilities services	3,922,864	40 %	3,485,495	40 %
United States building services	2,468,892	25 %	2,134,016	24 %
United States industrial services	986,407	10 %	940,895	11 %
Total United States operations	<u>9,393,629</u>	95 %	<u>8,366,498</u>	95 %
United Kingdom building services	509,951	5 %	430,563	5 %
Total operations	<u>\$ 9,903,580</u>	100 %	<u>\$ 8,797,061</u>	100 %

As described in more detail below, revenues for the year ended December 31, 2021 increased to \$9.90 billion compared to \$8.80 billion for the year ended December 31, 2020. The increase in revenues for the year ended December 31, 2021 was attributable to revenue growth within all of our reportable segments. Companies acquired in 2021 and 2020 generated incremental revenues of \$196.3 million in 2021.

Revenues of our United States electrical construction and facilities services segment were \$2,015.5 million for the year ended December 31, 2021 compared to revenues of \$1,806.1 million for the year ended December 31, 2020. Excluding the impact of acquisitions, the increase in revenues of this segment for the year ended December 31, 2021 was primarily attributable to: (a) a resumption of project activity within certain major metropolitan areas, where work was previously postponed due to access restrictions caused by the various containment and mitigation measures mandated in the prior year by certain of our customers and/or governmental authorities in response to the COVID-19 pandemic, leading to: (i) an increase in commercial market sector revenues and (ii) greater short-duration project volumes in the current year, (b) an increase in public works projects in the Western region of the United States, resulting in greater revenue contribution from the institutional market sector, (c) revenue growth within the healthcare market sector, due to greater construction project activity in the Northeastern region of the United

States, and (d) an increase in telecommunication project activity within the commercial market sector. The results of this segment for the year ended December 31, 2021 included \$93.1 million of incremental revenues generated by companies acquired in 2021. The revenue increases referenced above were partially offset by a reduction in revenues within the manufacturing and transportation market sectors due to the completion or substantial completion of certain projects in the Northeastern and Western regions of the United States.

Our United States mechanical construction and facilities services segment revenues for the year ended December 31, 2021 were \$3,922.9 million, a \$437.4 million increase compared to revenues of \$3,485.5 million for the year ended December 31, 2020. The increase in this segment's revenues for the year ended December 31, 2021 was attributable to revenue growth within the majority of the market sectors in which we operate, including: (a) the commercial market sector, driven by: (i) the continued build-out of our customers' e-commerce supply chains, which has resulted in increased demand for our fire protection services within their warehousing and distribution facilities, (ii) continued growth in digital processing, cloud computing, and data storage, which has resulted in an increase in telecommunication construction project opportunities, and (iii) increased demand for our mechanical construction services by customers within the biotech, life-sciences, and pharmaceutical industries, as well as certain customers engaged in the production and development of electric vehicles and/or lithium batteries, (b) the healthcare market sector, due to increased mechanical system retrofits and installations as our healthcare customers seek to upgrade their existing facilities or build new facilities, (c) the manufacturing market sector, inclusive of certain large food processing projects, which began to accelerate during the second half of 2021, and (d) the water and wastewater market sector, given increased project activity within the Southern region of the United States. These increases were partially offset by the completion or substantial completion of certain projects within the institutional market sector, which resulted in a reduction of revenues within such sector during 2021.

Revenues of our United States building services segment were \$2,468.9 million and \$2,134.0 million for the years ended December 31, 2021 and 2020, respectively. Excluding incremental acquisition revenues within this segment's mobile mechanical services division of \$103.2 million, this segment's revenue growth for the year ended December 31, 2021 was primarily attributable to: (a) greater project, service repair and maintenance, and building automation and controls activities within our mobile mechanical services operations, as well as an increase in project volume within our commercial site-based services operations, in both cases, partially as a result of a resumption in demand for certain of our service offerings when compared to the prior year, which was negatively impacted by the COVID-19 pandemic given the temporary closure of certain customer facilities, (b) a net increase in facilities maintenance contract revenues, partially as a result of new contract awards, (c) increased customer demand, stemming in part from the COVID-19 pandemic, for certain services aimed at either: (i) improving the indoor air quality or (ii) enhancing the cleaning protocols within their facilities, and (d) an increase in snow removal activity year-over-year within our commercial site-based services division.

Revenues of our United States industrial services segment for the year ended December 31, 2021 were \$986.4 million, a \$45.5 million increase compared to revenues of \$940.9 million for the year ended December 31, 2020. The increase in this segment's revenues for the year ended December 31, 2021 was attributable to greater revenues from both our field services and shop services operations during the second half of 2021, when compared to the same prior year period. While this segment's revenues throughout the majority of both 2021 and 2020 were negatively impacted by the adverse market conditions within the oil and gas and related industrial markets, the impact on the demand for its service offerings was most severe during the second half of 2020, resulting in a favorable comparison in the current year. Although the demand for oil and other refined products has not returned to pre-pandemic levels, the oil and gas industry continues to recover and we remain cautiously optimistic that the demand for our traditional industrial services will continue to improve in future periods. Revenues of this segment for the year ended December 31, 2021 additionally benefited from the completion of a 200-megawatt solar project by certain subsidiaries of this segment during 2021.

Our United Kingdom building services segment revenues were \$510.0 million in 2021 compared to \$430.6 million in 2020. The increase in this segment's revenues for the year ended December 31, 2021 was primarily a result of growth in project activities with existing customers, primarily within the commercial and water and wastewater market sectors, partially as a result of a resumption in demand as customers began to release projects which were previously deferred due to the uncertainty created by the COVID-19 pandemic. Similar to our United States building services segment, this segment additionally experienced increased revenues resulting from greater demand for services aimed at enhancing the cleaning protocols within its customers' facilities in response to COVID-19. This segment's revenues for the year ended December 31, 2021 were positively impacted by \$34.6 million related to the effect of favorable exchange rates for the British pound versus the United States dollar.

Cost of sales and gross profit

The following table presents cost of sales, gross profit (revenues less cost of sales), and gross profit margin (gross profit as a percentage of revenues) for the years ended December 31, 2021 and 2020 (in thousands, except for percentages):

	<u>2021</u>	<u>2020</u>
Cost of sales	\$8,401,843	\$7,401,679
Gross profit	\$1,501,737	\$1,395,382
Gross profit margin	15.2 %	15.9 %

Our gross profit for the year ended December 31, 2021 was \$1,501.7 million, a \$106.4 million increase compared to gross profit of \$1,395.4 million for the year ended December 31, 2020. The increase in gross profit for the year ended December 31, 2021 was predominately a result of increased gross profit contribution from our United States construction segments and our United States building services segment given greater revenue volume during 2021. In addition, we experienced an increase in gross profit within our United Kingdom building services segment due, in part, to both increased revenue and gross profit margin expansion when compared to 2020.

Our gross profit margin was 15.2% and 15.9% for 2021 and 2020, respectively. The decrease in gross profit margin for the year ended December 31, 2021 was predominantly attributable to a reduction in gross profit margin within all of our reportable segments, except for our United Kingdom building services segment. Refer to the operating income section below for further discussion regarding the operating performance of each of our reportable segments.

Selling, general and administrative expenses

The following table presents selling, general and administrative expenses and SG&A margin (selling, general and administrative expenses as a percentage of revenues) for the years ended December 31, 2021 and 2020 (in thousands, except for percentages):

	<u>2021</u>	<u>2020</u>
Selling, general and administrative expenses	\$ 970,937	\$ 903,584
SG&A margin	9.8 %	10.3 %

Our selling, general and administrative expenses for the year ended December 31, 2021 were \$970.9 million compared to selling, general and administrative expenses of \$903.6 million for the year ended December 31, 2020. For the year ended December 31, 2021, selling, general and administrative expenses included \$19.2 million of incremental expenses directly related to companies acquired in 2021 and 2020, including amortization expense attributable to identifiable intangible assets of \$4.3 million. Excluding incremental expenses from businesses acquired, our selling, general and administrative expenses increased by \$48.2 million for the year ended December 31, 2021. Such organic increase in selling, general and administrative expenses was primarily attributable to an increase in: (a) employee benefit costs, driven by greater medical claim activity related in part to the COVID-19 pandemic, (b) incentive compensation expense, predominantly within our United States construction segments and our United States building services segment given greater operating income when compared to the prior year, (c) salaries, as a result of: (i) an increase in headcount to support our organic revenue growth in the current year and (ii) the favorable impact in the prior year of certain short-term cost cutting measures enacted in response to the COVID-19 pandemic, including temporary furloughs and salary reductions, (d) computer hardware and software costs as a result of various information technology and cybersecurity initiatives currently in process, and (e) the provision for credit losses, within our United States industrial services segment, which included \$5.8 million of expense associated with two customer bankruptcies during 2021.

Selling, general and administrative expenses as a percentage of revenues were 9.8% and 10.3% for 2021 and 2020, respectively. The decrease in SG&A margin for the year ended December 31, 2021 was a result of an increase in revenues without a commensurate increase in overhead costs, as we were able to leverage our existing overhead cost structure.

Impairment loss on goodwill, identifiable intangible assets, and other long-lived assets

During the second quarter of 2020, we identified certain indicators of impairment resulting from the COVID-19 pandemic and its impact on the oil and gas and related industrial markets. These adverse conditions resulted in lower forecasted revenue and operating margin expectations for those of our businesses that are highly dependent on the strength of such markets, resulting in the recognition, during 2020, of impairment charges totaling \$232.8 million within our United States industrial services segment.

Despite the weaker results of our United States industrial services segment for the year ended December 31, 2021, when compared to historical periods, we did not identify any indicators of impairment in the current year, as the operating performance of this segment remained materially consistent with our near term expectations and forecasts. Further, we performed our annual impairment assessment as of October 1, 2021 and determined that the fair value of the industrial reporting unit remained in excess of its carrying value. However, a further deterioration in this segment's operating performance, significant adverse changes to external market conditions or the assumptions utilized in our impairment tests, such as the weighted average cost of capital and our internal forecasts, if any, could result in the identification of future impairment indicators and potentially future goodwill impairment charges. It is not possible at this time to determine if any future impairment charge will result or, if it does, whether such charge would be material to our results of operations.

Operating income (loss)

The following table presents by segment our operating income (loss) and each segment's operating margin (operating income (loss) as a percentage of such segment's revenues) for the years ended December 31, 2021 and 2020 (in thousands, except for percentages):

	<u>2021</u>	<u>% of Segment Revenues</u>	<u>2020</u>	<u>% of Segment Revenues</u>
Operating income (loss):				
United States electrical construction and facilities services	\$ 168,363	8.4 %	\$ 161,810	9.0 %
United States mechanical construction and facilities services	319,112	8.1 %	292,536	8.4 %
United States building services	119,024	4.8 %	114,159	5.3 %
United States industrial services	(1,666)	(0.2)%	1,175	0.1 %
Total United States operations	604,833	6.4 %	569,680	6.8 %
United Kingdom building services	27,998	5.5 %	20,660	4.8 %
Corporate administration	(102,031)	—	(98,542)	—
Restructuring expenses	—	—	(2,214)	—
Impairment loss on goodwill, identifiable intangible assets, and other long-lived assets	—	—	(232,750)	—
Total operations	530,800	5.4 %	256,834	2.9 %
Other items:				
Net periodic pension (cost) income	3,625		2,980	
Interest expense	(6,071)		(9,009)	
Interest income	949		1,521	
Income before income taxes	<u>\$ 529,303</u>		<u>\$ 252,326</u>	

As described in more detail below, operating income was \$530.8 million, or 5.4% of revenues, for the year ended December 31, 2021, compared to operating income of \$256.8 million, or 2.9% of revenues, for the year ended December 31, 2020. Our operating results for 2020 included \$232.8 million of non-cash impairment charges, which negatively impacted the Company's operating margin in 2020 by approximately 270 basis points. Excluding the impact of such impairment charges on our 2020 results, operating income increased by \$41.2 million for the year ended December 31, 2021, as a result of increased operating income contribution from all of our reportable segments, except for our United States industrial services segment, which continues to be impacted by the effect of adverse market conditions on the demand for its service offerings. Companies acquired in 2021 and 2020, generated incremental operating income of \$4.0 million, inclusive of \$11.5 million of amortization expense associated with identifiable intangible assets, for the year ended December 31, 2021.

Operating income of our United States electrical construction and facilities services segment for the year ended December 31, 2021 was \$168.4 million compared to operating income of \$161.8 million for the year ended December 31, 2020. Companies acquired in 2021 contributed incremental operating income of \$3.7 million, inclusive of \$4.9 million of amortization expense associated with identifiable intangible assets. Excluding such acquisition contribution, operating income of this segment increased a modest \$2.9 million for the year ended December 31, 2021. Gross profit gains from construction projects within the institutional and healthcare market sectors, primarily as a result of the revenue growth within these market sectors, as referenced above, were largely offset by gross profit declines within the transportation and manufacturing market sector, given the completion or close-out of certain projects in the prior year. Operating margins within this segment for the years ended December 31, 2021 and 2020 were 8.4% and 9.0%, respectively. The decrease in operating margin year-over-year was a result of a decline in this segment's gross profit margin during 2021, predominantly within: (a) the commercial market sector,

partially due to a change in the composition of project work performed period-over-period, and (b) the transportation market sector as the results for the prior year benefited from the successful close-out of several large construction projects within the Northeastern region of the United States.

Our United States mechanical construction and facilities services segment's operating income for the year ended December 31, 2021 was \$319.1 million, a \$26.6 million increase compared to operating income of \$292.5 million for the year ended December 31, 2020. The increase in operating income for 2021 was a result of an increase in gross profit from construction projects within the majority of the market sectors in which we operate, driven by increased revenue volume year-over-year. Operating margins within this segment for the years ended December 31, 2021 and 2020 were 8.1% and 8.4%, respectively. The 30 basis point reduction in this segment's operating margin in 2021 was primarily a result of a decrease in gross profit margin within the manufacturing market sector as: (a) the results for the prior year benefited from the favorable close-out of several projects and (b) the results for the current year include increased revenues from certain large food processing projects, for which we are acting as the construction manager and therefore carry lower than average gross profit margins. This decrease in gross profit margin was partially offset by a reduction in the ratio of selling, general and administrative expenses to revenues given an increase in segment revenues without a commensurate increase in overhead costs.

Operating income of our United States building services segment for the year ended December 31, 2021 was \$119.0 million, or 4.8% of revenues, compared to operating income of \$114.2 million, or 5.3% of revenues, for the year ended December 31, 2020. The increase in this segment's operating income for 2021 was primarily due to the resumption in demand for certain of our service offerings when compared to the prior year, which led to increased gross profit from project, service repair and maintenance, and building automation and controls activities within our mobile mechanical services operations, and project volumes within our commercial site-based services operations. In addition, gross profit for the year ended December 31, 2021 benefited from greater snow removal activity for our customers with whom we are contracted on a per snow event basis. Companies acquired in 2021 and 2020, which are included within this segment's mobile mechanical services division, generated incremental operating income of approximately \$0.7 million, inclusive of \$6.2 million of amortization expense associated with identifiable intangible assets, during 2021. The 50 basis point reduction in operating margin for the year ended December 31, 2021 was attributable to a decrease in gross profit margin, partially offset by a reduction in the ratio of selling, general and administrative expenses to revenues as this segment was able to effectively leverage its overhead cost structure during this period of revenue growth. The decline in gross profit margin resulted from a less favorable mix of work within this segment's mobile mechanical services division, including a greater number of fixed price capital projects, which traditionally have lower gross profit margins than the other service and repair offerings of this segment. Gross profit margin of this segment in 2021 was also negatively impacted by: (a) supply chain disruptions, including longer lead times for certain materials and equipment, which resulted in a greater amount of unabsorbed labor costs in instances where projects were delayed pending the receipt of materials, and (b) an escalation in fuel prices for its fleet of over 4,000 service vans, a portion of which we were unable to pass along to our customers.

Our United States industrial services segment reported an operating loss of \$1.7 million for the year ended December 31, 2021 compared to operating income of \$1.2 million for the year ended December 31, 2020. Operating margin of this segment was (0.2)% and 0.1% for 2021 and 2020, respectively. Despite the increase in annual revenues compared to full year 2020, this segment's operating results continue to be negatively impacted by the adverse macroeconomic conditions within the oil and gas industry. For example, pricing pressure from the customers of this segment has resulted in a lower margin portfolio of work, and therefore a decrease in gross profit when compared to the prior year, within both our field services and shop services operations. In addition to the effect of lower gross profit, operating income of this segment was negatively impacted by an increase in the provision for credit losses, which included approximately \$5.8 million of expense associated with two customer bankruptcies during 2021, which resulted in a 60 basis point reduction to this segment's operating margin.

Our United Kingdom building services segment operating income for the year ended December 31, 2021 was \$28.0 million, or 5.5% of revenues, which compares favorably to operating income of \$20.7 million, or 4.8% of revenues, for the year ended December 31, 2020. The increase in this segment's operating income and operating margin for 2021 was primarily a result of an increase in gross profit and gross profit margin from projects within the commercial market sector, partially offset by an increase in selling, general and administrative expenses to support the segment's revenue growth. In addition, this segment's operating income and operating margin for the year ended December 31, 2021 benefited from successful contract close-outs during 2021. This segment's operating income was positively impacted by \$2.1 million during 2021 related to the effect of favorable exchange rates for the British pound versus the United States dollar.

Our corporate administration expenses were \$102.0 million for 2021 compared to \$98.5 million in 2020. The increase in corporate administration expenses for the year ended December 31, 2021 was primarily due to: (a) an increase in employment costs, such as: (i) long-term incentive compensation expense given higher projected future operating results, as our expectations during 2020 were negatively impacted by the uncertainty created by the COVID-19 pandemic, and (ii) salaries, inclusive of certain non-recurring severance expenses associated with the continued realignment of our back office functions, and (b) a net increase in computer hardware, software, and consulting costs, as a result of various information technology and cybersecurity initiatives currently in process.

Other items

Interest expense was \$6.1 million and \$9.0 million for 2021 and 2020, respectively, and interest income was \$0.9 million and \$1.5 million for 2021 and 2020, respectively. The decrease in both interest expense and interest income for 2021 resulted from lower interest rates when compared to 2020. In addition, the decrease in interest expense was partially attributable to reduced average outstanding borrowings year-over-year.

Our income tax provision for the year ended December 31, 2021 was \$145.6 million, based on an income tax rate of 27.5%, compared to an income tax provision and an income tax rate of \$119.4 million and 47.3%, respectively, for the year ended December 31, 2020. Our income tax rate, and resulting income tax provision, for the year ended December 31, 2020 were impacted by the tax effect of the \$232.8 million of non-cash goodwill, identifiable intangible asset, and other long-lived asset impairment charges recorded during 2020, the majority of which was non-deductible for tax purposes.

Remaining Unsatisfied Performance Obligations

The following table presents the transaction price allocated to remaining unsatisfied performance obligations (“remaining performance obligations”) for each of our reportable segments and their respective percentage of total remaining performance obligations (in thousands, except for percentages):

	<u>December 31, 2021</u>	<u>% of Total</u>	<u>December 31, 2020</u>	<u>% of Total</u>
Remaining performance obligations:				
United States electrical construction and facilities services	\$ 1,210,568	22 %	\$ 1,055,089	23 %
United States mechanical construction and facilities services	3,320,359	59 %	2,673,293	58 %
United States building services	838,324	15 %	618,353	13 %
United States industrial services	111,838	2 %	117,212	3 %
Total United States operations	<u>5,481,089</u>	98 %	<u>4,463,947</u>	97 %
United Kingdom building services	118,208	2 %	130,673	3 %
Total operations	<u>\$ 5,599,297</u>	100 %	<u>\$ 4,594,620</u>	100 %

Remaining performance obligations increase with awards of new contracts and decrease as we perform work and recognize revenue on existing contracts. We include a project within our remaining performance obligations at such time as the project is awarded and agreement on contract terms has been reached. Our remaining performance obligations include amounts related to contracts for which a fixed price contract value is not assigned when a reasonable estimate of the total transaction price can be made.

Remaining performance obligations include unrecognized revenues to be realized from uncompleted construction contracts. Although many of our construction contracts are subject to cancellation at the election of our customers, in accordance with industry practice, we do not limit the amount of unrecognized revenue included within remaining performance obligations for these contracts as the risk of cancellation is very low due to the inherent substantial economic penalty that our customers would incur upon cancellation or termination. We believe our reported remaining performance obligations for our construction contracts are firm and contract cancellations have not had a material adverse effect on us.

Remaining performance obligations also include unrecognized revenues expected to be realized over the remaining term of service contracts. However, to the extent a service contract includes a cancellation clause which allows for the termination of such contract by either party without a substantive penalty, the remaining contract term, and therefore, the amount of unrecognized revenues included within remaining performance obligations, is limited to the notice period required for the termination.

Our remaining performance obligations are comprised of: (a) original contract amounts, (b) change orders for which we have received written confirmations from our customers, (c) pending change orders for which we expect to receive confirmations in the ordinary course of business, (d) claim amounts that we have made against customers for which we have determined we have a legal basis under existing contractual arrangements and as to which the variable consideration constraint does not apply, and (e) other forms of variable consideration to the extent that such variable consideration has been included within the transaction price of our contracts. Such claim and other variable consideration amounts were immaterial for all periods presented.

Our remaining performance obligations at December 31, 2021 were \$5.60 billion compared to \$4.59 billion at December 31, 2020. The increase in remaining performance obligations year-over-year was primarily attributable to an increase in remaining performance obligations within our United States construction segments, driven by the award of various construction projects within the majority of the market sectors in which we operate, most notably: (a) the commercial market sector, inclusive of certain semiconductor projects, (b) the manufacturing market sector, inclusive of several food processing projects, and (c) the healthcare, institutional, and water and wastewater market sectors. In addition, we experienced an increase in remaining performance obligations within our United States building services segment given increased project opportunities within its mobile mechanical services division and the award of several facilities maintenance contracts within its commercial site-based services division. Remaining performance obligations increased by \$162.8 million as a result of acquisitions during 2021.

2020 versus 2019

Overview

The following table presents selected financial data for the fiscal years ended December 31, 2020 and 2019 (in thousands, except percentages and per share data):

	2020	2019
Revenues	\$8,797,061	\$9,174,611
Revenues (decrease) increase from prior year	(4.1)%	12.8 %
Gross profit	\$1,395,382	\$1,355,868
Gross profit as a percentage of revenues	15.9 %	14.8 %
Impairment loss on goodwill, identifiable intangible assets, and other long-lived assets	\$ 232,750	\$ —
Operating income	\$ 256,834	\$ 460,892
Operating income as a percentage of revenues	2.9 %	5.0 %
Net income attributable to EMCOR Group, Inc.	\$ 132,943	\$ 325,140
Diluted earnings per common share	\$ 2.40	\$ 5.75

Revenues of \$8.80 billion for the year ended December 31, 2020 decreased by 4.1% from revenues of \$9.17 billion for the year ended December 31, 2019. As discussed in further detail below, such decrease in revenues was largely attributable to revenue declines within our United States industrial services segment, as a result of a decrease in demand for our service offerings within the oil and gas and related industrial markets given the negative macroeconomic conditions impacting these markets. In addition, we experienced a decrease in revenues within our United States electrical construction and facilities services segment, due to: (a) the effects of the COVID-19 pandemic on our operations during 2020, which resulted in: (i) a decrease in the number of short duration projects and (ii) project delays or access restrictions resulting from the various containment and mitigation measures mandated by certain of our customers and/or governmental authorities, and (b) a reduction in commercial market sector activities given the completion or substantial completion of several projects. These revenue declines were partially offset by revenue growth within our United States mechanical construction and facilities services segment and our United States building services segment, inclusive of the impact of businesses acquired, as discussed below, as well as an increase in revenues of our United Kingdom building services segment.

Operating income for 2020 was \$256.8 million, or 2.9% of revenues, compared to operating income of \$460.9 million, or 5.0% of revenues, in 2019. Our operating results for the year ended December 31, 2020 included \$232.8 million of non-cash impairment charges within our United States industrial services segment, which negatively impacted the Company's operating margin for 2020 by approximately 270 basis points. Excluding the impact of such impairments, operating income and operating margin for the twelve months ended December 31, 2020 increased by \$28.7 million and 60 basis points, respectively, primarily as a result of favorable execution within our United States construction segments, as described in further detail below.

Net income of \$132.9 million, or \$2.40 per diluted share, for the year ended December 31, 2020, compares unfavorably to net income of \$325.1 million, or \$5.75 per diluted share, for the year ended December 31, 2019. The decline in both net income and diluted earnings per common share are a result of the aforementioned impairment charges and the related tax effects as the majority of such charges were non-deductible for tax purposes.

Impact of Acquisitions

We acquired three companies in 2020 for total consideration of \$50.3 million. Such acquisitions include: (a) a company that provides building automation and controls solutions within the Northeastern region of the United States, (b) a full service provider of mechanical services within the Washington, D.C. metro area, and (c) a company, the results of operations of which were de minimis, that provides mobile mechanical services in the Southern region of the United States. The results of operations for all three companies have been included within our United States building services segment.

On November 1, 2019, we completed the acquisition of Batchelor & Kimball, Inc. (“BKI”), a leading full service provider of mechanical construction and maintenance services, for total consideration of \$220.3 million. This acquisition strengthens our position and broadens our capabilities in the Southern and Southeastern regions of the United States, and the results of its operations have been included within our United States mechanical construction and facilities services segment. In addition to BKI, during 2019, we completed six other acquisitions for total consideration of \$85.4 million. Such acquisitions include: (a) a company that provides electrical contracting services in central Iowa, the results of operations of which have been included within our United States electrical construction and facilities services segment, (b) a company that provides mechanical contracting services in south-central and eastern Texas, the results of operations of which have been included within our United States mechanical construction and facilities services segment, and (c) four companies included within our United States building services segment, consisting of: (i) a company that provides mobile mechanical services in the Southern region of the United States and (ii) three companies, the results of operations of which were de minimis, which bolster our presence in geographies where we have existing operations and provide either mobile mechanical services or building automation and controls solutions.

Companies acquired in 2020 and 2019 generated incremental revenues of \$269.6 million and incremental operating income of \$15.4 million, inclusive of \$16.0 million of amortization expense associated with identifiable intangible assets, for the year ended December 31, 2020.

Discussion and Analysis of Results of Operations

Revenues

The following table presents our revenues for each of our operating segments and the approximate percentages that each segment’s revenues were of total revenues for the years ended December 31, 2020 and 2019 (in thousands, except for percentages):

	<u>2020</u>	<u>% of Total</u>	<u>2019</u>	<u>% of Total</u>
Revenues from unrelated entities:				
United States electrical construction and facilities services	\$ 1,806,092	20 %	\$ 1,961,798	21 %
United States mechanical construction and facilities services	3,485,495	40 %	3,340,337	36 %
United States building services	2,134,016	24 %	2,121,661	23 %
United States industrial services	940,895	11 %	1,327,556	15 %
Total United States operations	<u>8,366,498</u>	95 %	<u>8,751,352</u>	95 %
United Kingdom building services	430,563	5 %	423,259	5 %
Total operations	<u>\$ 8,797,061</u>	100 %	<u>\$ 9,174,611</u>	100 %

As described in more detail below, revenues for the year ended December 31, 2020 decreased to \$8.80 billion compared to \$9.17 billion for the year ended December 31, 2019. Revenue declines within our United States industrial services segment, as a result of a decrease in demand for our service offerings within the oil and gas and related industrial markets, and our United States electrical construction and facilities services segment, as described in further detail below, were partially offset by revenue growth within our United States mechanical construction and facilities services segment, our United States building services segment, and our United Kingdom building services segment. Companies acquired in 2020 and 2019, which are reported in our United States electrical construction and facilities services segment, our United States mechanical construction and facilities services segment and our United States building services segment, generated incremental revenues of \$269.6 million in 2020.

Revenues of our United States electrical construction and facilities services segment were \$1,806.1 million for the year ended December 31, 2020 compared to revenues of \$1,961.8 million for the year ended December 31, 2019. The decrease in revenues was attributable to: (a) the effects of the COVID-19 pandemic on our operations during 2020, which resulted in: (i) a decrease in the number of short duration projects and (ii) project delays or access restrictions resulting from the various containment and mitigation measures mandated by certain of our customers and/or governmental authorities, and (b) a decline in revenues from

construction projects within the commercial market sector, as a result of the completion or substantial completion of several projects. The results for the year ended December 31, 2020 included \$25.4 million of incremental revenues generated by a company acquired in 2019.

Our United States mechanical construction and facilities services segment revenues for the year ended December 31, 2020 were \$3,485.5 million, a \$145.2 million increase compared to revenues of \$3,340.3 million for the year ended December 31, 2019. The results for the year ended December 31, 2020 included \$188.8 million of incremental revenues generated by companies acquired in 2019. Excluding the impact of acquisitions, revenues of this segment decreased by \$43.7 million, primarily as a result of a decline in revenues from: (a) the manufacturing market sector, inclusive of certain large food processing construction projects, and (b) several telecommunications and technology projects. Similar to our United States electrical construction and facilities services segment, revenues of this segment were also negatively impacted by the effects of the COVID-19 pandemic during 2020, which resulted in project delays and temporary job site shutdowns, as well as a decrease in the number of short duration projects. These revenue reductions were partially offset by increased revenues from the majority of the remaining market sectors in which we operate, most notably the institutional, transportation, and commercial market sectors.

Revenues of our United States building services segment were \$2,134.0 million and \$2,121.7 million for the years ended December 31, 2020 and 2019, respectively. Excluding acquisition revenues of \$55.4 million, this segment's revenues decreased by approximately \$43.0 million during the year ended December 31, 2020. Such reduction in revenues was primarily attributable to: (a) decreased project and controls activities within our mobile mechanical services operations, largely as a result of the impact of the COVID-19 pandemic during 2020, which resulted in fewer project opportunities given the temporary closure of certain customer facilities, (b) decreased large project activity within our energy services operations, primarily as a result of the completion of certain projects which were active in 2019, and (c) the loss of certain contracts not renewed pursuant to rebid within our government services business. These revenue declines were partially offset by increased customer demand for certain services aimed at improving the indoor air quality within their facilities as well as an increase in revenues within our commercial site-based services operations, as a result of new contract awards and scope expansion on certain contracts with existing customers.

Revenues of our United States industrial services segment for the year ended December 31, 2020 were \$940.9 million, a \$386.7 million decrease compared to revenues of \$1,327.6 million for the year ended December 31, 2019. Revenues of this segment for the year ended December 31, 2020 were negatively impacted by adverse market conditions including unprecedented volatility in the price of crude oil, largely as a result of a decline in demand caused by the COVID-19 pandemic. Such macroeconomic conditions led to a decrease in demand for our services, which resulted in: (a) a decrease in maintenance and capital project activity within our field services operations and (b) a reduction in new build heat exchanger sales and a decrease in maintenance, repair, and hydro blast cleaning services within our shop services operations. In addition, revenues for the year ended December 31, 2020 were negatively impacted by project stoppages resulting from hurricanes, including certain named storms, within the Gulf Coast region.

Our United Kingdom building services segment revenues were \$430.6 million in 2020 compared to \$423.3 million in 2019. The year-over-year increase in revenues within this segment was primarily attributable to: (a) an increase in revenues from new maintenance contract awards within the commercial market sector, and (b) increased project activity with existing customers, primarily within the water and wastewater market sector, despite reduced opportunities for project work brought upon by the temporary closure of certain customer facilities and the temporary suspension of capital spending as a result of the COVID-19 pandemic in the first half of 2020. This segment's revenues during 2020 were positively impacted by \$2.3 million related to the effect of favorable exchange rates for the British pound versus the United States dollar.

Cost of sales and gross profit

The following table presents cost of sales, gross profit, and gross profit margin for the years ended December 31, 2020 and 2019 (in thousands, except for percentages):

	2020	2019
Cost of sales	\$7,401,679	\$7,818,743
Gross profit	\$1,395,382	\$1,355,868
Gross profit margin	15.9 %	14.8 %

Our gross profit for the year ended December 31, 2020 was \$1,395.4 million, a \$39.5 million increase compared to gross profit of \$1,355.9 million for the year ended December 31, 2019. Our gross profit margin was 15.9% and 14.8% for 2020 and 2019, respectively. The increase in gross profit and gross profit margin for the year ended December 31, 2020 was predominantly a result of improved operating performance within both of our United States construction segments, as described in further detail below, despite the challenges brought on by the COVID-19 pandemic.

Selling, general and administrative expenses

The following table presents selling, general and administrative expenses and SG&A margin, for the years ended December 31, 2020 and 2019 (in thousands, except for percentages):

	2020	2019
Selling, general and administrative expenses	\$ 903,584	\$ 893,453
SG&A margin	10.3 %	9.7 %

Our selling, general and administrative expenses for the year ended December 31, 2020 were \$903.6 million compared to selling, general and administrative expenses of \$893.5 million for the year ended December 31, 2019. For the year ended December 31, 2020, selling, general and administrative expenses included \$29.6 million of incremental expenses directly related to companies acquired in 2020 and 2019, including amortization expense attributable to identifiable intangible assets of \$9.5 million. Excluding incremental expenses from businesses acquired, our selling, general and administrative expenses for 2020 decreased by \$19.4 million, primarily as a result of certain cost reductions resulting from, or actions taken in response to, the COVID-19 pandemic, including: (a) a reduction in certain discretionary spending, such as travel and entertainment costs, (b) a decrease in salary expense due to: (i) a reduction in headcount, resulting from lower revenues than in the same 2019 period, and (ii) certain short-term cost cutting measures, including temporary furloughs and salary reductions, and (c) a decrease in employee benefit costs, partially due to a decline in medical claims. These cost reductions were partially offset by an increase in incentive compensation expense, predominantly within our United States mechanical construction and facilities services segment, due to improved operating performance by several of our subsidiaries when compared to 2019.

Selling, general and administrative expenses as a percentage of revenues were 10.3% and 9.7% for 2020 and 2019, respectively. The increase in SG&A margin for the year ended December 31, 2020 was primarily due to a reduction in revenues without a commensurate decrease in certain of our overhead costs, including: (a) certain fixed costs within our United States industrial services segment, despite the significant revenue decline within such segment, and (b) the above referenced increase in incentive compensation expense.

Impairment loss on goodwill, identifiable intangible assets, and other long-lived assets

During the second quarter of 2020, we identified certain indicators of impairment resulting from the uncertainties caused by the COVID-19 pandemic and the significant volatility in the price of crude oil. These uncertainties resulted in lower forecasted revenue and operating margin expectations for those of our businesses that are highly dependent on the strength of the oil and gas and related industrial markets, resulting in the recognition, during 2020, of impairment charges totaling \$232.8 million within our United States industrial services segment.

Operating income (loss)

The following table presents by segment our operating income (loss) and each segment's operating margin for the years ended December 31, 2020 and 2019 (in thousands, except for percentages):

	2020	% of Segment Revenues	2019	% of Segment Revenues
Operating income (loss):				
United States electrical construction and facilities services	\$ 161,810	9.0 %	\$ 147,817	7.5 %
United States mechanical construction and facilities services	292,536	8.4 %	225,040	6.7 %
United States building services	114,159	5.3 %	115,432	5.4 %
United States industrial services	1,175	0.1 %	57,529	4.3 %
Total United States operations	<u>569,680</u>	6.8 %	<u>545,818</u>	6.2 %
United Kingdom building services	20,660	4.8 %	18,323	4.3 %
Corporate administration	(98,542)	—	(101,726)	—
Restructuring expenses	(2,214)	—	(1,523)	—
Impairment loss on goodwill, identifiable intangible assets, and other long-lived assets	<u>(232,750)</u>	—	<u>—</u>	—
Total operations	<u>256,834</u>	2.9 %	<u>460,892</u>	5.0 %
Other items:				
Net periodic pension (cost) income	2,980		1,553	
Interest expense	(9,009)		(13,821)	
Interest income	1,521		2,265	
Income before income taxes	<u>\$ 252,326</u>		<u>\$ 450,889</u>	

As described in more detail below, operating income was \$256.8 million, or 2.9% of revenues, for the year ended December 31, 2020, compared to operating income of \$460.9 million, or 5.0% of revenues, for the year ended December 31, 2019. Our operating results for 2020 included \$232.8 million of non-cash impairment charges, which negatively impacted the Company's operating margin in 2020 by approximately 270 basis points. Excluding the impact of such impairment charges on our 2020 results, operating income and operating margin for the year ended December 31, 2020 increased by \$28.7 million and 60 basis points, primarily as a result of favorable execution within our United States construction segments. Companies acquired in 2020 and 2019, which are reported in our United States electrical construction and facilities services segment, our United States mechanical construction and facilities services segment, and our United States building services segment, generated incremental operating income of \$15.4 million, inclusive of \$16.0 million of amortization expense associated with identifiable intangible assets, for the year ended December 31, 2020.

Operating income of our United States electrical construction and facilities services segment for the year ended December 31, 2020 was \$161.8 million, or 9.0% of revenues, compared to operating income of \$147.8 million, or 7.5% of revenues, for the year ended December 31, 2019. A company acquired in 2019 contributed incremental operating income of \$1.6 million, inclusive of \$0.1 million of amortization expense associated with identifiable intangible assets, during 2020. The year-over-year increase in operating income and operating margin was largely attributable to an increase in gross profit and gross profit margin given favorable project execution and a more profitable mix of work within this segment during 2020. Improved profitability was experienced within: (a) the commercial market sector, inclusive of several telecommunication construction projects, despite the decrease in revenues within such market sector, (b) the manufacturing market sector, and (c) the transportation market sector, due to the successful completion or close-out of certain projects. These gross profit gains were partially offset by a reduction in gross profit from short duration project activities, given the effects of the COVID-19 pandemic, which led to fewer short duration project opportunities. Operating income of this segment for the year ended December 31, 2020 additionally benefited from a reduction in selling, general and administrative expenses, including a curtailment in certain discretionary spending, such as travel and entertainment costs, and a decrease in employee benefit costs, resulting from a decline in medical claims.

Our United States mechanical construction and facilities services segment's operating income for the year ended December 31, 2020 was \$292.5 million, a \$67.5 million increase compared to operating income of \$225.0 million for the year ended December 31, 2019. Companies acquired in 2019 contributed incremental operating income of \$9.3 million, inclusive of \$12.7 million of amortization expense associated with identifiable intangible assets for the year ended December 31, 2020. Excluding the impact of businesses acquired, annual operating income of this segment increased by approximately \$58.2 million. Despite the disruption caused by the COVID-19 pandemic during 2020, our United States mechanical construction and facilities services segment experienced an increase in gross profit from construction projects within the majority of the market sectors in which we operate. Operating margins within this segment for the years ended December 31, 2020 and 2019 were 8.4% and 6.7%, respectively. The year-over-year increase in operating margin for this segment was attributable to an increase in gross profit margin, primarily within: (a) the manufacturing market sector, driven by certain large food processing construction projects, and (b) the commercial market sector, inclusive of a number of technology and semiconductor projects, which reached substantial completion during the year. The increases in gross profit and gross profit margin were partially offset by an increase in selling, general and administrative expenses, as well as the ratio of selling, general and administrative expenses to revenues, largely as a result of an increase in incentive compensation expense due to the improved year-over-year operating performance and an increase in amortization expense associated with identifiable intangible assets resulting from companies acquired in 2019.

Operating income of our United States building services segment was \$114.2 million in 2020, compared to \$115.4 million in 2019. Operating margin of this segment was 5.3% and 5.4% for 2020 and 2019, respectively. Companies acquired in 2020, which are included within this segment's mobile mechanical services division, contributed incremental operating income of \$4.5 million, inclusive of \$3.2 million of amortization expense associated with identifiable intangible assets. The decrease in segment operating income for the year ended December 31, 2020 was primarily due to a decrease in gross profit resulting from: (a) a reduction in large project activity within our energy services operations, and (b) when excluding the impact of acquired businesses, reduced project and controls activities within our mobile mechanical services operations, largely as a result of the temporary closure of certain customer facilities impacted by the COVID-19 pandemic. These gross profit reductions were partially offset by increased gross profit from service repair and maintenance activities within our mobile mechanical services operations, partially as a result of increased customer demand for certain services aimed at improving the indoor air quality within their facilities. Operating income of this segment additionally benefited from an overall decrease in selling, general and administrative expenses due to certain cost reduction measures enacted during 2020.

Our United States industrial services segment's operating income for the year ended December 31, 2020 was \$1.2 million, or 0.1% of revenues, compared to \$57.5 million, or 4.3% of revenues, for the year ended December 31, 2019. As previously referenced, this segment's results for the year ended December 31, 2020 were severely impacted by adverse macroeconomic factors impacting the oil and gas industry. As a result of such conditions, this segment experienced a reduction in gross profit from both our field services and shop services operations due to: (a) a decrease in demand for our service offerings, (b) the deferral, curtailment, or cancellation of previously scheduled projects with certain customers, and (c) an unfavorable mix of work, which included a greater number of projects with lower than typical gross profit margins. The aforementioned decrease in gross profit was partially offset by a reduction in selling, general and administrative expenses during the year, including: (a) incentive compensation and salaries, (b) employee benefit costs, and (c) certain discretionary spending, such as travel and entertainment costs. The decrease in operating margin for the year ended December 31, 2020 was attributable to a decrease in gross profit margin resulting from the above noted factors, as well as an increase in the ratio of selling, general and administrative expenses to revenues due to a decrease in revenue without a commensurate decrease in certain of this segment's fixed overhead costs.

Our United Kingdom building services segment's operating income for the year ended December 31, 2020 was \$20.7 million, or 4.8% of revenues, which compares favorably to operating income of \$18.3 million, or 4.3% of revenues, for the year ended December 31, 2019. The increase in annual operating income of this segment was primarily a result of incremental gross profit from new maintenance contract awards. Exchange rate movements for the British pound versus the United States dollar did not have a significant impact on this segment's operating income for the twelve months ended December 31, 2020. The year-over-year increase in this segment's operating margin was attributable to an increase in gross profit margin, primarily as a result of a more favorable mix of work, and a decrease in the ratio of selling, general and administrative expenses to revenues.

Our corporate administration expenses were \$98.5 million for 2020 compared to \$101.7 million in 2019. The decrease in corporate administration expenses for the year ended December 31, 2020 was primarily due to: (a) a decrease in long-term incentive compensation expense, (b) a decrease in salary expense as a result of: (i) certain short-term cost cutting measures, including temporary furloughs and salary reductions, and (ii) permanent headcount reductions resulting from the realignment of certain of our back office functions, (c) curtailment in certain discretionary spending, such as travel and entertainment costs, and (d) a reduction in professional fees.

Other items

Interest expense was \$9.0 million and \$13.8 million for 2020 and 2019, respectively. Interest income was \$1.5 million and \$2.3 million for 2020 and 2019, respectively. The decrease in both interest expense and interest income for 2020 resulted from lower interest rates. The decrease in interest expense was partially offset by the impact of higher average outstanding borrowings during 2020.

Our income tax provision for the year ended December 31, 2020 was \$119.4 million based on an income tax rate of 47.3%, compared to an income tax provision and an income tax rate of \$125.7 million and 27.9%, respectively, for the year ended December 31, 2019. Our income tax rate and income tax provision for 2020 were impacted by the tax-effect of the \$232.8 million of non-cash goodwill, identifiable intangible asset, and other long-lived asset impairment charges recorded during 2020, the majority of which was non-deductible for tax purposes.

Liquidity and Capital Resources

The following section discusses our principal liquidity and capital resources, as well as our primary liquidity requirements and sources and uses of cash.

We are focused on the efficient conversion of operating income into cash to provide for the Company's material cash requirements, including working capital needs, investment in our growth strategies through business acquisitions and capital expenditures, satisfaction of contractual commitments, including principal and interest payments on our outstanding indebtedness, and shareholder return through dividend payments and share repurchases. We strive to maintain a balanced approach to capital allocation in order to achieve growth, deliver value, and minimize risk.

Management monitors financial markets and overall economic conditions for factors that may affect our liquidity and capital resources and adjusts our capital allocation strategy as necessary. For example, the uncertainty brought on by the COVID-19 pandemic in 2020 resulted in the temporary suspension of acquisition and share repurchase activity, during portions of such year, while we focused on maintaining operational flexibility. Negative macroeconomic trends could have an adverse effect on future liquidity if we experience delays in the payment of outstanding receivables beyond normal payment terms, an increase in credit losses, or significant increases in the price of commodities or the materials and equipment utilized for our project and service work. In addition, during economic downturns, there have typically been fewer small discretionary projects from the private sector and our competitors have aggressively bid larger long-term infrastructure and public sector contracts. Our liquidity is also impacted by: (a) the type and length of construction contracts in place, as performance of long duration contracts typically requires greater amounts of working capital, (b) the level of turnaround activities within our United States industrial services segment, as such projects are billed in arrears pursuant to contractual terms that are standard within the industry, and (c) the billing terms of our maintenance contracts, including those within our United States and United Kingdom building services segments. While we strive to negotiate favorable billing terms, which allow us to invoice in advance of costs incurred on certain of our contracts, there can be no assurance that such terms will be agreed to by our customers.

As of December 31, 2021, we had cash and cash equivalents, excluding restricted cash, of \$821.3 million, which are maintained in highly liquid investments with original maturity dates of three months or less. Both our short-term and long-term liquidity requirements are expected to be met through our cash and cash equivalent balances, cash generated from our operations, and, if necessary, the borrowing capacity under our revolving credit facility. Our credit agreement provides for a \$1.30 billion revolving credit facility, for which there is \$1.23 billion of available capacity as of December 31, 2021. Refer to Note 9 - Debt of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data for further information regarding our credit agreement. Based upon our current credit rating and financial position, we can also reasonably expect to be able to secure long-term debt financing if required to achieve our strategic objectives; however, no assurances can be made that such debt financing will be available on favorable terms. We believe that we have sufficient financial resources available to meet our short-term and foreseeable long-term liquidity requirements.

Cash Flows

The following table presents our net cash provided by (used in) operating activities, investing activities, and financing activities (in thousands):

	2021	2020
Net cash provided by operating activities	\$ 318,817	\$ 806,366
Net cash used in investing activities	\$ (153,076)	\$ (94,863)
Net cash used in financing activities	\$ (245,456)	\$ (171,907)
(Decrease) increase in cash, cash equivalents, and restricted cash	\$ (80,994)	\$ 543,642

For the year ended December 31, 2021, our cash balance, including cash equivalents and restricted cash, decreased by approximately \$81.0 million from \$903.6 million as of December 31, 2020 to \$822.6 million as of December 31, 2021. Changes in our cash position from December 31, 2020 to December 31, 2021 are described in further detail below. For a discussion of the changes in our cash position from December 31, 2019 to December 31, 2020, refer to the Liquidity and Capital Resources section included in Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations of our Form 10-K for the year ended December 31, 2020.

Operating Activities – Operating cash flows generally represent our net income as adjusted for certain non-cash items and changes in assets and liabilities. For 2021, net cash provided by operating activities was approximately \$318.8 million compared to approximately \$806.4 million of net cash provided by operating activities in 2020.

The \$487.5 million decrease in operating cash flows during 2021, when compared to 2020, was primarily attributable to strong organic revenue growth in the current year, which resulted in an increase in working capital balances, most notably accounts receivable and contract assets. In addition, operating cash flow in 2020 benefited from the deferral of approximately

\$117.5 million of certain non-income based taxes resulting from various government measures enacted in response to the COVID-19 pandemic, of which approximately \$66 million was repaid in 2021.

Investing Activities – Investing cash flows consist primarily of payments for the acquisition of businesses, capital expenditures, and proceeds from the sale or disposal of property, plant, and equipment. For 2021, we utilized approximately \$153.1 million of cash for investing activities compared to \$94.9 million in 2020. The increase in investing cash flows year-over-year was primarily driven by a \$67.9 million increase in payments for acquisitions, partially offset by a \$11.8 million reduction in capital expenditures.

Financing Activities – Financing cash flows consist primarily of the issuance and repayment of short-term and long-term debt, repurchases of common stock, payment of dividends to stockholders, and the issuance of common stock through certain employee equity plans. Net cash used in financing activities for 2021 was \$245.5 million compared to \$171.9 million in 2020.

The increase in cash used in financing activities in 2021, when compared to 2020, was primarily due to an \$83.0 million increase in funds used for the repurchase of our common stock. During the year ended December 31, 2021, cash payments related to share repurchases were \$195.5 million compared to \$112.6 million for the year ended December 31, 2020. The timing of repurchases is at management's discretion subject to securities laws and other legal requirements and will depend upon several factors, including market and business conditions, future liquidity, share price, and share availability, among others. The repurchase program has been and will be funded from our operations. For additional detail regarding our share repurchase program, refer to Note 12 - Common Stock of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data.

Throughout 2021, we paid a quarterly dividend of \$0.13 per share compared to a quarterly dividend of \$0.08 per share during 2020. For the years ended December 31, 2021 and 2020, cash payments related to dividends were \$28.2 million and \$17.7 million, respectively. Our credit agreement places limitations on the payment of dividends on our common stock. However, we do not believe that the terms of such agreement currently materially limit our ability to pay a quarterly dividend of \$0.13 per share for the foreseeable future.

Material Cash Requirements from Contractual and Other Obligations

As of December 31, 2021, our short-term and long-term material cash requirements for known contractual and other obligations were as follows:

Outstanding Debt and Interest Payments – As of December 31, 2021, the amount outstanding under our term loan was \$256.7 million. Based on our outstanding balance, we are required to make annual principal payments of \$13.9 million on December 31 of each year until maturity. Any remaining unpaid principal is due on March 2, 2025, when the credit agreement governing our term loan expires. We have no direct borrowings outstanding under our revolving credit facility. In addition to annual principal payments, we are required to make quarterly interest payments on our outstanding indebtedness. Future interest payments will be determined based on prevailing interest rates during that time. Refer to Note 9 - Debt of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data for further detail of our debt obligations, including our term loan and revolving credit facility.

Operating and Finance Leases – In the normal course of business, we lease real estate, vehicles, and equipment under various arrangements which are classified as either operating or finance leases. Future payments for such leases, excluding leases with initial terms of one year or less, were \$317.8 million at December 31, 2021, with \$69.0 million payable within the next 12 months. Refer to Note 16 - Leases of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data for further detail surrounding our lease obligations and the timing of expected future payments.

Open Purchase Obligations – As of December 31, 2021, we had \$1.73 billion of open purchase obligations, of which payments totaling approximately \$1.50 billion are expected to become due within the next 12 months. These obligations represent open purchase orders to suppliers and subcontractors related to our construction and services contracts. These purchase orders are not reflected in the Consolidated Balance Sheets and are not expected to impact future liquidity as amounts should be recovered through customer billings.

Insurance Obligations – As described in further detail in Note 2 - Summary of Significant Accounting Policies of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data, we have loss payment deductibles and/or self-insured retentions for certain insurance matters. As of December 31, 2021, our insurance liabilities, net of estimated recoveries, were \$178.6 million. Of this net amount, approximately \$35.2 million is estimated to be payable within the next 12 months. Due to many uncertainties inherent in resolving these matters, it is not practical to estimate these payments beyond such period.

Retirement Plan Obligations – As of December 31, 2021, expected future payments relating to our defined benefit post retirement plans were approximately \$4.6 million per year. We provide funding to our post retirement plans based on at least the minimum funding required by applicable regulations. In determining the minimum funding required, we utilize current actuarial assumptions and exchange rates to forecast amounts that may be payable. In our judgment, minimum funding estimates cannot be reliably estimated beyond a five-year time horizon. Refer to Note 14 - Retirement Plans of the notes to consolidated financial statements in Item 8. Financial Statements and Supplementary Data for further information about our post retirement plans.

Deferred Payroll Taxes – The Coronavirus Aid, Relief, and Economic Security Act (the “CARES Act”) allowed U.S. companies to defer the employer’s portion of social security taxes between March 27, 2020 and December 31, 2020. Our first installment of these deferred social security taxes, totaling approximately \$51 million, was paid in the fourth quarter of 2021 and our second installment of approximately \$51 million is expected to be paid in the fourth quarter of 2022.

Contingent Consideration Liabilities – We have incurred liabilities related to contingent consideration arrangements associated with certain acquisitions, payable in the event discrete performance objectives are achieved by the acquired businesses during designated post-acquisition periods. The aggregate amount of these liabilities can change due to additional business acquisitions, settlement of outstanding liabilities, changes in the fair value of amounts owed based on performance during such post-acquisition periods, and accretion in present value. As of December 31, 2021, the present value of expected future payments relating to these contingent consideration arrangements was \$11.8 million. Of this amount, \$5.6 million is estimated as being payable during 2022, with the remainder due substantially during 2023.

In addition, material cash requirements for other potential obligations, for which we cannot reasonably estimate future payments, include the following:

Legal Proceedings – We are involved in several legal proceedings in which damages and claims have been asserted against us. While litigation is subject to many uncertainties and the outcome of litigation is not predictable with assurance, we do not believe that any such matters will have a material adverse effect on our financial position, results of operations, or liquidity. Refer to Note 15 - Commitments and Contingencies of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data for more information regarding legal proceedings.

Multiemployer Benefit Plans – In addition to our Company sponsored benefit plans, we participate in certain multiemployer pension and other post retirement plans. The cost of these plans is equal to the annual required contributions determined in accordance with the provisions of negotiated collective bargaining agreements. During 2021, 2020, and 2019, contributions made to these plans were \$396.5 million, \$360.2 million, and \$369.0 million, respectively; however, our future contributions to the multiemployer plans are dependent upon a number of factors. Amounts of future contributions that we would be contractually obligated to make pursuant to these plans cannot be reasonably estimated. Refer to Note 14 - Retirement Plans of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data for more information regarding these multiemployer benefit plans.

Off-Balance Sheet Arrangements and Other Commercial Commitments

The terms of our construction contracts frequently require that we obtain from surety companies, and provide to our customers, surety bonds as a condition to the award of such contracts. These surety bonds are issued in return for premiums, which vary depending on the size and type of the bond, and secure our payment and performance obligations under such contracts. We have agreed to indemnify the surety companies for amounts, if any, paid by them in respect of surety bonds issued on our behalf. As of December 31, 2021, based on the percentage-of-completion of our projects covered by surety bonds, our aggregate estimated exposure, assuming defaults on all our then existing contractual obligations, was approximately \$1.5 billion, which represents approximately 26% of our total remaining performance obligations.

Surety bonds expire at various times ranging from final completion of a project to a period extending beyond contract completion in certain circumstances. Such amounts can also fluctuate from period to period based upon the mix and level of our bonded operating activity. For example, public sector contracts require surety bonds more frequently than private sector contracts and, accordingly, our bonding requirements typically increase as the amount of our public sector work increases. Our estimated maximum exposure as it relates to the value of the surety bonds outstanding is lowered on each bonded project as the cost to complete is reduced, and each commitment under a surety bond generally extinguishes concurrently with the expiration of its related contractual obligation.

Surety bonds are sometimes provided to secure obligations for wages and benefits payable to or for certain of our employees, at the request of labor unions representing such employees. In addition, surety bonds or letters of credit may be issued as collateral for certain insurance obligations. As of December 31, 2021, we satisfied approximately \$48.1 million and \$71.2 million of the collateral requirements of our insurance programs by utilizing surety bonds and letters of credit, respectively. All such letters of credit were issued under our revolving credit facility, therefore reducing the available capacity under such facility.

We are not aware of any losses in connection with surety bonds that have been posted on our behalf, and we do not expect to incur significant losses in the foreseeable future.

From time to time, we discuss with our current and other surety bond providers the amounts of surety bonds that may be available to us based on our financial strength and the absence of any default by us on any surety bond issued on our behalf and believe those amounts are currently adequate for our needs. However, if we experience changes in our bonding relationships or if there are adverse changes in the surety industry, we may: (a) seek to satisfy certain customer requests for surety bonds by posting other forms of collateral in lieu of surety bonds, such as letters of credit, parent company guarantees, or cash, in order to convince customers to forego the requirement for surety bonds, (b) increase our activities in our businesses that rarely require surety bonds, and/or (c) refrain from bidding for certain projects that require surety bonds.

There can be no assurance that we would be able to effectuate alternatives to providing surety bonds to our customers or to obtain, on favorable terms, sufficient additional work that does not require surety bonds. Accordingly, a reduction in the availability of surety bonds could have a material adverse effect on our financial position, results of operations, and/or cash flows.

In the ordinary course of business, we, at times, guarantee obligations of our subsidiaries under certain contracts. Generally, we are liable under such an arrangement only if our subsidiary fails to perform its obligations under the contract. Historically, we have not incurred any substantial liabilities as a consequence of these guarantees.

We do not have any other material financial guarantees or off-balance sheet arrangements other than those disclosed herein.

Other Items

To help mitigate the impacts of greenhouse gas emissions on climate change, EMCOR has established initial carbon-based fuel consumption and greenhouse gas emission reduction targets, and will continue to refine such targets as necessary. Although to date we have not incurred any material costs or capital expenditures associated with achieving our targets, we could be required to expend amounts in future periods as we continue to work towards our goals. During 2021, EMCOR purchased carbon credits totaling nearly 25,000 metric tonnes, for approximately \$0.3 million. It is not possible, at this time, to estimate the impact that future costs and/or capital expenditures may have on our business, financial condition, results of operations, or liquidity.

New Accounting Pronouncements

We review new accounting standards to determine the expected impact, if any, that the adoption of such standards will have on our financial position and/or results of operations. See Note 2 - Summary of Significant Accounting Policies of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data for further information regarding new accounting standards, including the anticipated dates of adoption and the effects on our consolidated financial position, results of operations, or liquidity.

Critical Accounting Policies and Estimates

The preparation of our consolidated financial statements is based on the application of significant accounting policies, which require management to make estimates and assumptions. Our significant accounting policies are described further in Note 2 - Summary of Significant Accounting Policies of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data. We base our estimates on historical experience, known or expected trends, third-party valuations, and various other assumptions that we believe to be reasonable under the circumstances. As future events and their effects cannot be determined with precision, actual results could differ significantly from these estimates. There have been no significant changes to our critical accounting policies or methods for the year ended December 31, 2021. We believe the following critical accounting policies govern the more significant judgments and estimates used in the preparation of our financial statements.

Revenue Recognition from Contracts with Customers

For our construction contracts, revenue is generally recognized over time as our performance creates or enhances an asset that the customer controls as it is created or enhanced. Our fixed price construction projects generally use a cost-to-cost input method to measure our progress towards complete satisfaction of the performance obligation as we believe it best depicts the transfer of control to the customer which occurs as we incur costs on our contracts. Under the cost-to-cost measure of progress, the extent of progress towards completion is measured based on the ratio of costs incurred to date to the total estimated costs at completion of the performance obligation. For our unit price construction contracts, progress towards complete satisfaction is measured through an output method, such as the number of units produced or delivered, when our performance does not produce significant amounts of work in process or finished goods prior to complete satisfaction of such performance obligations.

For our services contracts, revenue is also generally recognized over time as the customer simultaneously receives and consumes the benefits of our performance as we perform the service. For our fixed price service contracts with specified service periods, revenue is generally recognized on a straight-line basis over such service period when our inputs are expended evenly, and the customer receives and consumes the benefits of our performance throughout the contract term.

The timing of revenue recognition for the manufacturing of new build heat exchangers within our United States industrial services segment depends on the payment terms of the contract, as our performance does not create an asset with an alternative use to us. For those contracts for which we have a right to payment for performance completed to date at all times throughout our performance, inclusive of a cancellation, we recognize revenue over time. For these performance obligations, we use a cost-to-cost input method to measure our progress towards complete satisfaction of the performance obligation as we believe it best depicts the transfer of control to the customer which occurs as we incur costs on our contracts. However, for those contracts for which we do not have a right, at all times, to payment for performance completed to date, we recognize revenue at the point in time when control is transferred to the customer. For bill-and-hold arrangements, revenue is recognized when the customer obtains control of the heat exchanger, which may be prior to shipping if certain recognition criteria are met.

For certain of our revenue streams, such as call-out repair and service work, outage services, refinery turnarounds, and specialty welding services that are performed under time and materials contracts, our progress towards complete satisfaction of such performance obligations is measured using an output method as the customer receives and consumes the benefits of our performance completed to date.

The nature of our contracts gives rise to several types of variable consideration, including pending change orders and claims; contract bonuses and incentive fees; and liquidated damages and penalties. We recognize revenue for such variable consideration when it is probable, in our judgment, that a significant future reversal in the amount of cumulative revenue recognized under the contract will not occur when the uncertainty associated with the variable consideration is subsequently resolved. The Company estimates the amount of variable consideration to be included in the transaction price utilizing one of two prescribed methods, depending on which method better predicts the amount of consideration to which the entity will be entitled.

Due to uncertainties inherent in the estimation process, as well as the significant judgment involved in determining variable consideration, it is possible that estimates of costs to complete a performance obligation, and/or our estimates of transaction prices, will be revised in the near-term. For those performance obligations for which revenue is recognized using a cost-to-cost input method, changes in total estimated costs, and related progress towards complete satisfaction of the performance obligation, or changes in the estimate of transaction prices, are recognized on a cumulative catch-up basis in the period in which the revisions to the estimates are made.

During each of the years ended December 31, 2021, 2020, and 2019, there were no changes in total estimated costs that had a significant impact on our operating results. Additionally, there were no significant amounts of revenue recognized during the years ended December 31, 2021 or 2019 related to performance obligations satisfied in prior periods. During the year ended December 31, 2020, we recognized revenue of \$6.1 million associated with the final settlement of contract value for two projects within our United States electrical construction and facilities services segment that were completed or substantially completed in prior periods. For each of the years ended December 31, 2021, 2020, and 2019, there were no significant reversals of revenue recognized associated with the revision of transaction prices.

Due to the significant judgments utilized in the estimation process described above, if subsequent actual results and/or updated assumptions, estimates, or projections related to our underlying project positions were to change from those utilized at December 31, 2021, it could result in a material impact to our results of operations. For example, a 50 basis point increase or decrease in the estimated gross profit margin on our uncompleted construction projects, in the aggregate, as a result of a revision in estimated costs to complete a performance obligation or a revision in estimated transaction price, would have resulted in an increase or decrease to operating income of approximately \$60 million for the year ended December 31, 2021.

See Note 3 - Revenue from Contracts with Customers of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data for further disclosure regarding revenue recognition.

Accounts Receivable and Allowance for Credit Losses

Accounts receivable are recognized in the period we deliver goods or provide services to our customers or when our right to consideration is unconditional. The Company maintains an allowance for credit losses to reduce outstanding receivables to their net realizable value. A considerable amount of judgment is required when determining expected credit losses. Estimates of such losses are recorded when we believe a customer, or group of customers, may not be able to meet their financial obligations due to deterioration in financial condition or credit rating. Factors relevant to our assessment include our prior collection history with our customers, the related aging of past due balances, projections of credit losses based on historical trends in credit quality indicators or past events, and forecasts of future economic conditions. In addition to monitoring delinquent accounts, management reviews the credit quality of its receivables by, among other things, obtaining credit ratings of significant customers, assessing economic and market conditions, and evaluating material changes to a customer's business, cash flows, and financial condition.

At December 31, 2021 and 2020, our accounts receivable of \$2,204.5 million and \$1,922.1 million, respectively, were recorded net of allowances for credit losses of \$23.5 million and \$18.0 million, respectively. The increase in our allowance for credit losses was predominantly attributable to our evaluation of specific outstanding receivables within our United States industrial services segment. Allowances for credit losses are based on the best facts available and are reassessed and adjusted on a regular basis as additional information is received. The provision for credit losses during 2021, 2020, and 2019 amounted to approximately \$8.0 million, \$3.3 million, and \$2.6 million, respectively.

Should anticipated collections fail to materialize, or if future economic conditions compare unfavorably to our forecasts, we could experience an increase in our allowances for credit losses. For example, if economic conditions were to significantly deteriorate, such as to those experienced during the last global financial crisis, the portion of our allowance for credit losses, which is estimated based on our historical credit loss experience, could increase by up to approximately \$13.0 million.

Insurance Liabilities

We have loss payment deductibles for certain workers' compensation, automobile liability, general liability, and property claims, have self-insured retentions for certain other casualty claims, and are self-insured for employee-related healthcare claims. In addition, we maintain a wholly-owned captive insurance subsidiary to manage certain of our insurance liabilities. Losses are recorded based upon estimates of our liability for claims incurred and for claims incurred but not reported. The liabilities are derived from known facts, historical trends, and industry averages, utilizing the assistance of an independent third-party actuary to determine the best estimate for the majority of these obligations. We believe the liabilities recognized on the Consolidated Balance Sheets for these obligations are adequate. However, such obligations are difficult to assess and estimate due to numerous factors, including severity of injury, determination of liability in proportion to other parties, timely reporting of occurrences, and effectiveness of safety and risk management programs. Therefore, if our actual experience differs from the assumptions and estimates used for recording the liabilities, adjustments may be required and will be recorded in the period that the experience becomes known. Our estimated net insurance liabilities for workers' compensation, automobile liability, general liability, and property claims increased by \$6.3 million for the year ended December 31, 2021 compared to the year ended December 31, 2020, partially as a result of greater potential exposures, including the impact of acquired companies. If our estimated insurance liabilities for workers' compensation, automobile liability, general liability, and property claims were to increase by 10%, it would have resulted in \$17.9 million of additional expense for the year ended December 31, 2021.

Income Taxes

As of December 31, 2021 and 2020, we had net deferred income tax liabilities of \$51.0 million and \$29.4 million, respectively, primarily resulting from differences between the carrying value and income tax bases of certain identifiable intangible assets, goodwill, and depreciable fixed assets. Included within these net deferred income tax liabilities are \$212.3 million and \$217.1 million of deferred income tax assets as of December 31, 2021 and 2020, respectively. The total valuation allowance on deferred income tax assets was approximately \$2.5 million and \$3.9 million as of December 31, 2021 and 2020, respectively. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Based on our taxable income, which has generally exceeded the amount of our net deferred income tax asset balance, as well as current projections of future taxable income, we have determined that it is more likely than not that our net deferred income tax assets will be realized. However, revisions to our forecasts or declining macroeconomic conditions could result in changes to our assessment of the realization of these deferred income tax assets. Refer to Note 11 - Income Taxes of the notes to consolidated financial statements in Item 8. Financial Statements and Supplementary Data for further detail regarding our deferred income taxes.

Goodwill, Identifiable Intangible Assets, and Other Long-Lived Assets

Goodwill

As of December 31, 2021 and 2020, we had goodwill of \$890.3 million and \$851.8 million, respectively, arising out of the acquisition of businesses. Goodwill is not amortized but instead allocated to its respective reporting unit and evaluated for impairment annually, or more frequently if events or circumstances indicate that the carrying amount of goodwill may be impaired. We have determined that our reporting units are consistent with the reportable segments identified in Note 18 - Segment Information of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data. As of December 31, 2021, approximately 17.9% of our goodwill related to our United States electrical construction and facilities services segment, approximately 34.2% related to our United States mechanical construction and facilities services segment, approximately 35.1% related to our United States building services segment, and approximately 12.8% related to our United States industrial services segment.

We performed our annual impairment assessment of all reporting units as of October 1, 2021 and determined there was no impairment of goodwill. Based on these impairment assessments, the fair values of our United States electrical construction and facilities services segment, our United States mechanical construction and facilities services segment, our United States building services segment, and our United States industrial services segment exceeded their carrying values by approximately \$1,516.1 million, \$2,772.7 million, \$784.2 million, and \$40.6 million, respectively.

In completing our annual impairment assessment, we determined the fair value of each of our reporting units using an income approach whereby fair value was calculated utilizing discounted estimated future cash flows, assuming a risk-adjusted industry weighted average cost of capital. The weighted average cost of capital used in our annual impairment testing was 10.4% for our United States construction segments and our United States building services segment, and 11.3% for our United States industrial services segment. These weighted average cost of capital estimates were developed with the assistance of an independent third-party valuation specialist and reflect the overall level of inherent risk within the respective reporting unit and the rate of return a market participant would expect to earn.

Our cash flow projections were derived from our most recent internal forecasts of anticipated revenue growth rates and operating margins, with cash flows beyond the discrete forecast period estimated using a terminal value calculation which incorporated historical and forecasted trends, an estimate of long-term growth rates, and assumptions about the future demand for our services. The perpetual growth rate used for our annual testing was 2.0% for all of our reporting units.

Due to the inherent uncertainties involved in making estimates, our assumptions may change in future periods. Estimates and assumptions made for purposes of our goodwill impairment testing may prove to be inaccurate predictions of the future, and other factors used in assessing fair value, such as the weighted average cost of capital, are outside the control of management. Unfavorable changes in certain of these key assumptions may affect future testing results. For example, keeping all other assumptions constant, a 50 basis point increase in the weighted average cost of capital would cause the estimated fair values of our United States electrical construction and facilities services segment, our United States mechanical construction and facilities services segment, our United States building services segment, and our United States industrial services segment to decrease by approximately \$103.6 million, \$185.5 million, \$74.5 million, and \$25.9 million, respectively. In addition, keeping all other assumptions constant, a 50 basis point reduction in the perpetual growth rate would cause the estimated fair values of our United States electrical construction and facilities services segment, our United States mechanical construction and facilities services segment, our United States building services segment, and our United States industrial services segment to decrease by approximately \$52.4 million, \$95.9 million, \$35.8 million, and \$9.5 million, respectively. Given the amounts by which the fair value exceeds the carrying value for each of our reporting units, the decreases in estimated fair values described above would not have significantly impacted the results of our impairment tests. Further, for each of our reporting units, other than our United States industrial services segment, a 10% decline in the estimated fair value of such reporting unit, due to other changes in our assumptions, including forecasted future cash flows, would not have significantly impacted the results of our impairment tests. In the case of our United States industrial services segment, however, such a 10% decrease would cause the estimated fair value of this reporting unit to approximate its carrying value.

Identifiable Intangible Assets and Other Long-Lived Assets

As of December 31, 2021 and 2020, net identifiable intangible assets (primarily consisting of our customer relationships, subsidiary trade names, developed technology/vendor network, and contract backlog) arising out of the acquisition of businesses were \$589.4 million and \$582.9 million, respectively. The determination of related estimated useful lives for identifiable intangible assets and whether those assets are impaired involves significant judgments based upon short- and long-term projections of future performance. These forecasts reflect assumptions regarding anticipated macroeconomic conditions as well as our ability to successfully integrate acquired businesses.

Absent earlier indicators of impairment, we test for impairment of subsidiary trade names that are not subject to amortization on an annual basis (October 1). In addition, we review for impairment of identifiable intangible assets that are being amortized as well as other long-lived assets whenever facts and circumstances indicate that their carrying values may not be fully recoverable.

As of October 1, 2021, we performed our annual impairment testing of all subsidiary trade names that are not subject to amortization and determined that there was no impairment of these assets. In performing this impairment assessment, we considered the sensitivity of the reported amounts to the methods, assumptions, and estimates underlying our testing. For example, we performed sensitivity analyses and concluded that, individually, none of the following changes in estimates or assumptions would have significantly impacted the results of our testing or resulted in an impairment of our subsidiary trade names: (a) a 50 basis point increase in the discount rate utilized in our testing, (b) a 50 basis point decline in the perpetual growth rate utilized in our testing, or (c) a 10% decrease in the estimated fair value of each trade name.

With respect to identifiable intangible assets that are being amortized as well as other long-lived assets, we did not identify any circumstances indicating that their carrying values may not be fully recoverable and, therefore, no impairment testing was required for these assets during the year ended December 31, 2021.

Other Considerations

As referenced above, impairment testing is based upon assumptions and estimates determined by management from a review of our operating results and business plans as well as forecasts of anticipated growth rates and margins, among other considerations. In addition, estimates of weighted average costs of capital are developed with the assistance of an independent third-party valuation specialist. These assumptions and estimates may change in future periods, especially in consideration of the uncertainty created by the COVID-19 pandemic and its potential impact on the broader economy and our results of operations in future periods, particularly with respect to our United States industrial services segment. Significant adverse changes to external market conditions or our internal forecasts, if any, could result in future impairment charges. It is not possible at this time to determine if any future impairment charge will result or, if it does, whether such a charge would be material to our results of operations.

Refer to Note 8 - Goodwill, Identifiable Intangible Assets, and Other Long-Lived Assets of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data for further information about our goodwill and identifiable intangible assets as well as our impairment testing, including the \$232.8 million of impairment charges recorded during the year ended December 31, 2020. For the year ended December 31, 2019, no impairment of our goodwill or identifiable intangible assets was recognized.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We have not used any derivative financial instruments during the years ended December 31, 2021 and 2020, including trading or speculating on changes in interest rates or commodity prices of materials used in our business.

We are exposed to market risk for changes in interest rates for borrowings under the 2020 Credit Agreement, which provides for a revolving credit facility and a term loan. Borrowings under the 2020 Credit Agreement bear interest at variable rates. For further information on our outstanding debt and borrowing rates, refer to Note 9 - Debt of the notes to consolidated financial statements included in Item 8. Financial Statements and Supplementary Data. As of December 31, 2021, there were no direct borrowings outstanding under the 2020 Revolving Credit Facility; however, the balance of the 2020 Term Loan was \$256.7 million. Based on the \$256.7 million borrowings outstanding under the 2020 Credit Agreement, if overall interest rates were to increase by 100 basis points, interest expense, net of income taxes, would increase by approximately \$1.9 million in the next twelve months. Conversely, if overall interest rates were to decrease by 100 basis points, interest expense, net of income taxes, would decrease by approximately \$1.9 million in the next twelve months. The 2020 Credit Agreement expires on March 2, 2025.

At the end of 2021, one-week and two-month LIBOR were discontinued. It is expected that the remaining maturities of LIBOR will continue to be published through June 2023. We believe our exposure to market risk associated with the discontinuation of LIBOR is limited as: (a) our 2020 Credit Agreement contains provisions which allow for the use of alternate benchmark rates, (b) we have not historically utilized the maturities that were discontinued in 2021 for any transaction, including borrowings under our 2020 Credit Agreement, and (c) we are not exposed to any other material contracts that reference LIBOR.

We are exposed to construction market risk and its potential related impact on accounts receivable or contract assets on uncompleted contracts. The amounts recorded may be at risk if our customers' ability to pay these obligations is negatively impacted by economic conditions. We continually monitor the creditworthiness of our customers and maintain on-going discussions with customers regarding contract status with respect to change orders and billing terms. Therefore, we believe we take appropriate action to manage market and other risks, but there is no assurance that we will be able to reasonably identify all risks with respect to the collectability of these assets. See also the previous discussion of Accounts Receivable and Allowance for Credit Losses under the heading "Critical Accounting Policies and Estimates" in Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Amounts invested in our foreign operations are translated into U.S. dollars at the exchange rates in effect at year end. The resulting translation adjustments are recorded as accumulated other comprehensive (loss) income, a component of equity, in the Consolidated Balance Sheets. We believe our exposure to the effects that fluctuating foreign currencies may have on our consolidated results of operations is limited because our foreign operations primarily invoice customers and collect obligations in their respective local currencies. Additionally, expenses associated with these transactions are generally contracted and paid for in their same local currencies.

In addition, we are exposed to market risk of fluctuations in certain commodity prices of materials, such as copper and steel, which are used as components of supplies or materials utilized in our construction, building services, and industrial services operations. We are also exposed to increases in energy prices, particularly as they relate to gasoline prices for our fleet of approximately 12,000 vehicles. While we believe we can increase our contract prices to adjust for some price increases in commodities, there can be no assurance that such price increases, if they were to occur, would be recoverable. Additionally, our fixed price contracts generally do not allow us to adjust our prices and, as a result, increases in material costs could reduce our profitability with respect to projects in progress. Refer to Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations for further discussion regarding the impact of fluctuations in commodity and material prices on our results of operations for the year ended December 31, 2021.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - NATURE OF OPERATIONS

References to the “Company,” “EMCOR,” “we,” “us,” “our” and similar words refer to EMCOR Group, Inc. and its consolidated subsidiaries unless the context indicates otherwise.

We are one of the largest specialty contractors in the United States and a leading provider of electrical and mechanical construction and facilities services, building services, and industrial services. Our services are provided to a broad range of commercial, industrial, utility, and institutional customers through approximately 90 operating subsidiaries, which specialize principally in providing construction services relating to electrical and mechanical systems in all types of facilities and in providing various services relating to the operation, maintenance, and management of those facilities.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its majority-owned subsidiaries and joint ventures. Significant intercompany accounts and transactions have been eliminated. All investments over which we exercise significant influence, but do not control (a 20% to 50% ownership interest), are accounted for using the equity method of accounting. For joint ventures that have been accounted for using the consolidation method of accounting, noncontrolling interests represent the allocation of earnings to our joint venture partners who either have a minority-ownership interest in the joint venture or are not at risk for the majority of losses of the joint venture.

The results of operations of companies acquired have been included in the results of operations from the date of the respective acquisition.

Principles of Preparation

The preparation of the consolidated financial statements, in conformity with accounting principles generally accepted in the United States, requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could materially differ from those estimates.

Our reportable segments and related disclosures reflect certain reclassifications of prior year amounts from our United States electrical construction and facilities services segment to our United States industrial services and our United States building services segments due to changes in our internal reporting structure aimed at realigning our service offerings.

Revenue Recognition

Revenue is recognized when promised goods or services are transferred to customers in an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. Refer to Note 3 - Revenue from Contracts with Customers of the notes to consolidated financial statements for additional information.

Cash and Cash Equivalents

For purposes of the consolidated financial statements, we consider all highly liquid instruments with original maturities of three months or less to be cash equivalents. We maintain a centralized cash management system whereby our excess cash balances are invested in high quality short-term money market instruments, which are considered cash equivalents. We have cash balances in certain of our domestic bank accounts that exceed federally insured limits.

Accounts Receivable and Allowance for Credit Losses

Accounts receivable are recognized in the period we deliver goods and services to our customers or when our right to consideration is unconditional. The Company maintains an allowance for credit losses to reduce outstanding receivables to their net realizable value. A considerable amount of judgment is required when determining expected credit losses. Estimates of such losses are recorded when we believe a customer, or group of customers, may not be able to meet their financial obligations due to deterioration in financial condition or credit rating. Factors relevant to our assessment include our prior collection history with our customers, the related aging of past due balances, projections of credit losses based on historical trends in credit quality indicators or past events, and forecasts of future economic conditions. In addition to monitoring delinquent accounts, management reviews the credit quality of its receivables by, among other things, obtaining credit ratings of significant customers, assessing economic and market conditions, and evaluating material changes to a customer’s business, cash flows, and financial condition.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

At December 31, 2021 and 2020, our accounts receivable of \$2,204.5 million and \$1,922.1 million, respectively, were recorded net of allowances for credit losses of \$23.5 million and \$18.0 million, respectively. The increase in our allowance for credit losses was predominantly attributable to our evaluation of specific outstanding receivables within our United States industrial services segment. Allowances for credit losses are based on the best facts available and are reassessed and adjusted on a regular basis as additional information is received. Should anticipated collections fail to materialize, or if future economic conditions compare unfavorably to our forecasts, we could experience an increase in our credit losses. The provision for credit losses during 2021, 2020, and 2019 amounted to approximately \$8.0 million, \$3.3 million, and \$2.6 million, respectively.

The change in the allowance for credit losses for the year ended December 31, 2021 was as follows (in thousands):

Balance at December 31, 2020	\$ 18,031
Provision for credit losses	8,041
Amounts written off against the allowance, net of recoveries	<u>(2,538)</u>
Balance at December 31, 2021	<u>\$ 23,534</u>

Inventories

Inventories are stated at the lower of cost or net realizable value. Cost is determined principally using the average cost method.

Leases

At the inception of a contract, we determine whether the arrangement is or contains a lease. Leases are classified as either operating or finance, based on our evaluation of certain criteria. With the exception of short-term leases (leases with an initial term of 12 months or less), we record right-of-use assets and corresponding lease liabilities on the Consolidated Balance Sheets for all leases with contractual fixed payments. Lease liabilities are measured at the present value of remaining lease payments, while right-of-use assets are initially set equal to the lease liability, as adjusted for any payments made prior to lease commencement, lease incentives, and any initial direct costs incurred by us. For operating leases, rent expense is recognized on a straight-line basis over the term of the lease, and right-of-use assets are subsequently re-measured to reflect the effect of uneven lease payments. For finance leases, right-of-use assets are amortized on a straight-line basis over the lease term. Expenses for finance leases include the amortization of right-of-use assets, which is recorded as depreciation and amortization expense, and interest expense, which reflects interest accrued on the lease liability.

Short-term leases are not recorded on the Consolidated Balance Sheets but are expensed on a straight-line basis over the lease term. The majority of the Company's short-term leases relate to equipment used on construction projects. Such equipment leases are considered short-term in nature unless it is reasonably certain that the equipment will be leased for a period greater than 12 months.

Refer to Note 16 - Leases of the notes to consolidated financial statements for additional information.

Property, Plant and Equipment

Property, plant and equipment is stated at cost. Depreciation, including amortization of assets under finance leases, is recorded principally using the straight-line method over estimated useful lives of 3 to 10 years for machinery and equipment, 3 to 7 years for vehicles, furniture and fixtures and computer hardware/software, and 25 years for buildings. Leasehold improvements are amortized over the shorter of the remaining lease term or the expected useful life of the improvement.

The carrying values of property, plant and equipment are reviewed for impairment whenever facts and circumstances indicate that the carrying amount may not be fully recoverable. In performing this review for recoverability, property, plant and equipment is assessed for possible impairment by comparing their carrying values to their undiscounted net pre-tax cash flows expected to result from the use of the asset. Impaired assets are written down to their fair values, generally determined based on their estimated future discounted cash flows.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Goodwill, Identifiable Intangible Assets, and Other Long-Lived Assets

Goodwill and indefinite-lived intangible assets, such as trade names, are evaluated at least annually for impairment (each October 1, absent any earlier identified impairment indicators) and are written down if impaired. Identifiable intangible assets with finite lives are amortized over their useful lives and are reviewed for impairment whenever facts and circumstances indicate that their carrying values may not be fully recoverable. See Note 8 - Goodwill, Identifiable Intangible Assets, and Other Long-Lived Assets of the notes to consolidated financial statements for additional information.

Insurance Liabilities

We have loss payment deductibles for certain workers' compensation, automobile liability, general liability, and property claims, have self-insured retentions for certain other casualty claims, and are self-insured for employee-related healthcare claims. In addition, we maintain a wholly-owned captive insurance subsidiary to manage certain of our insurance liabilities. Losses are recorded based upon estimates of our liability for claims incurred and for claims incurred but not reported. The liabilities are derived from known facts, historical trends, and industry averages, utilizing the assistance of an independent third-party actuary to determine the best estimate for the majority of these obligations. As of December 31, 2021 and 2020, the estimated current portion of such undiscounted insurance liabilities, included in "Other accrued expenses and liabilities" in the accompanying Consolidated Balance Sheets, were \$61.5 million and \$48.2 million, respectively. The estimated non-current portion of such undiscounted insurance liabilities included in "Other long-term obligations" as of December 31, 2021 and 2020 were \$242.4 million and \$192.8 million, respectively. The current portion of anticipated insurance recoveries of \$26.4 million and \$14.4 million as of December 31, 2021 and 2020, respectively, were included in "Prepaid expenses and other" and the non-current portion of anticipated insurance recoveries of \$99.0 million and \$54.3 million as of December 31, 2021 and 2020, respectively, were included in "Other assets" in the accompanying Consolidated Balance Sheets. These balances increased from December 31, 2020 as a result of revised estimates for claims on which we expect substantial coverage by insurance.

Foreign Operations

The financial statements and transactions of our foreign subsidiaries are maintained in their functional currency and translated into U.S. dollars when preparing our consolidated financial statements. Statements of operations, comprehensive income, and cash flows are translated using weighted average monthly exchange rates, while balance sheets are translated at month-end exchange rates. Translation adjustments are recorded as "Accumulated other comprehensive loss," a separate component of "Equity."

Income Taxes

The Company follows the liability method of accounting for income taxes. Under this method, deferred income tax assets and liabilities are recognized for the expected future tax consequences of temporary differences between the financial statement and income tax bases of assets and liabilities as well as for net operating loss and tax credit carryforwards. Deferred income taxes are valued using enacted tax rates expected to be in effect when income taxes are paid or recovered, with the effect of a change in tax laws or rates recognized in the statement of operations in the periods in which such change is enacted. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the period in which those temporary differences become deductible. Deferred income taxes are recorded net of a valuation allowance when it is more likely than not that all or a portion of a deferred tax asset will not be realized. In making such determination, we consider all available evidence, including projections of future taxable income, tax-planning strategies, and recent results of operations.

Tax benefits associated with uncertain tax positions are recognized only if it is more likely than not that the tax position would be sustained on its technical merits. For positions not meeting the "more likely than not" test, no tax benefit is recognized. To the extent interest and penalties may be assessed related to unrecognized tax benefits, we record accruals for such amounts as a component of the income tax provision. We had no unrecognized income tax benefits as of December 31, 2021 and 2020.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Valuation of Share-Based Compensation Plans

Our share-based compensation plans and programs are administered by our Board of Directors or its Compensation and Personnel Committee. See Note 13 - Share-Based Compensation Plans of the notes to consolidated financial statements for additional information regarding these share-based compensation plans and programs.

We recognize all share-based payments issued to acquire goods or services in the statement of operations based on the fair value of such payments. Compensation expense related to share-based awards is generally recognized on a straight-line basis over the requisite service period, which is generally the vesting period. The benefits of tax deductions in excess of recognized compensation expense are recognized in the Consolidated Statements of Operations when the underlying awards vest or are settled.

New Accounting Pronouncements

On January 1, 2021, we adopted the accounting pronouncement issued by the Financial Accounting Standards Board (“FASB”) that simplifies the accounting for income taxes by eliminating certain exceptions to the guidance in Accounting Standards Codification (“ASC”) 740 related to intraperiod tax allocations and the methodology for calculating income taxes in an interim period. The guidance also simplifies aspects of the accounting for franchise taxes as well as enacted changes in tax laws or rates and clarifies the accounting for transactions that result in a step-up in the tax basis of goodwill. The adoption of this accounting pronouncement did not have a material impact on our financial position and/or results of operations.

The Company is currently evaluating the impact of an accounting standards update issued by the FASB, which provides temporary optional expedients and exceptions to existing U.S. GAAP. This guidance is aimed at easing the financial reporting burdens related to reference rate reform, including the expected market transition from LIBOR, or other interbank offered rates, to alternative reference rates. Such accounting pronouncement allows entities to account for and present certain contract modifications, which occur before December 31, 2022 and result from the transition to an alternative reference rate, as an event that does not require remeasurement at the modification date or reassessment of a previous accounting determination. While we are still evaluating the impact of this pronouncement, we do not anticipate that it will have a material impact on our financial position and/or results of operations, as we are not exposed to any contracts that reference LIBOR, other than our credit agreement dated as of March 2, 2020, which contains provisions that allow for the amendment of such agreement to use alternative reference rates in the event of the discontinuation of LIBOR.

In October 2021, an accounting pronouncement was issued by the FASB, which changes how an entity accounts for revenue contracts it acquires in a business combination. The pronouncement requires entities to apply the revenue recognition guidance within ASC 606 to recognize and measure contract assets and liabilities from contracts with customers in a business combination, creating an exception to the fair value recognition and measurement principle typically utilized when valuing acquired assets. The guidance is aimed at improving comparability by addressing when an acquirer should recognize a contract asset or contract liability, as well as how such assets and liabilities should be measured, and will generally result in companies recognizing contract assets and contract liabilities at amounts consistent with those recorded by the target entity prior to acquisition. This guidance is effective for public business entities for fiscal years beginning after December 15, 2022, with early adoption permitted. We are currently evaluating the potential impact of this accounting pronouncement; however, we do not believe that its adoption will have a material impact on our financial position and/or results of operations.

NOTE 3 - REVENUE FROM CONTRACTS WITH CUSTOMERS

The Company recognizes revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which we expect to be entitled in exchange for those goods or services by applying the following five step model:

(1) Identify the contract with a customer

A contract with a customer exists when: (a) the parties have approved the contract and are committed to perform their respective obligations, (b) the rights of the parties can be identified, (c) payment terms can be identified, (d) the arrangement has commercial substance, and (e) collectability of consideration is probable. Judgment is required when determining if the contractual criteria are met, specifically in the earlier stages of a project when a formally executed contract may not yet exist. In these situations, the Company evaluates all relevant facts and circumstances, including the existence of other forms of documentation or historical experience with our customers that may indicate a contractual agreement is in place and revenue should be recognized. In determining if the collectability of consideration is probable, the Company considers the customer’s ability and intention to pay such consideration through an evaluation of several factors, including an assessment of the creditworthiness of the customer and our prior collection history with such customer.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 3 - REVENUE FROM CONTRACTS WITH CUSTOMERS (Continued)

(2) Identify the performance obligations in the contract

At contract inception, the Company assesses the goods or services promised in a contract and identifies, as a separate performance obligation, each distinct promise to transfer goods or services to the customer. The identified performance obligations represent the “unit of account” for purposes of determining revenue recognition. In order to properly identify separate performance obligations, the Company applies judgment in determining whether each good or service provided is: (a) capable of being distinct, whereby the customer can benefit from the good or service either on its own or together with other resources that are readily available to the customer, and (b) distinct within the context of the contract, whereby the transfer of the good or service to the customer is separately identifiable from other promises in the contract.

In addition, when assessing performance obligations within a contract, the Company considers the warranty provisions included within such contract. To the extent the warranty terms provide the customer with an additional service, other than assurance that the promised good or service complies with agreed upon specifications, such warranty is accounted for as a separate performance obligation. In determining whether a warranty provides an additional service, the Company considers each warranty provision in comparison to warranty terms which are standard in the industry.

Our contracts are often modified through change orders to account for changes in the scope and price of the goods or services we are providing. Although the Company evaluates each change order to determine whether such modification creates a separate performance obligation, the majority of our change orders are for goods or services that are not distinct within the context of our original contract and, therefore, are not treated as separate performance obligations.

(3) Determine the transaction price

The transaction price represents the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to our customers. The consideration promised within a contract may include fixed amounts, variable amounts, or both. To the extent the performance obligation includes variable consideration, including contract bonuses and penalties that can either increase or decrease the transaction price, the Company estimates the amount of variable consideration to be included in the transaction price utilizing one of two prescribed methods, depending on which method better predicts the amount of consideration to which the entity will be entitled. Such methods include: (a) the expected value method, whereby the amount of variable consideration to be recognized represents the sum of probability-weighted amounts in a range of possible consideration amounts, and (b) the most likely amount method, whereby the amount of variable consideration to be recognized represents the single most likely amount in a range of possible consideration amounts. When applying these methods, the Company considers all information that is reasonably available, including historical, current, and estimates of future performance. The expected value method is typically utilized in situations where a contract contains a large number of possible outcomes while the most likely amount method is typically utilized in situations where a contract has only two possible outcomes.

Variable consideration is included in the transaction price only to the extent it is probable, in the Company’s judgment, that a significant future reversal in the amount of cumulative revenue recognized under the contract will not occur when the uncertainty associated with the variable consideration is subsequently resolved. This threshold is referred to as the variable consideration constraint. In assessing whether to apply the variable consideration constraint, the Company considers if factors exist that could increase the likelihood or the magnitude of a potential reversal of revenue, including, but not limited to, whether: (a) the amount of consideration is highly susceptible to factors outside of the Company’s influence, such as the actions of third parties, (b) the uncertainty surrounding the amount of consideration is not expected to be resolved for a long period of time, (c) the Company’s experience with similar types of contracts is limited or that experience has limited predictive value, (d) the Company has a practice of either offering a broad range of price concessions or changing the payment terms and conditions of similar contracts in similar circumstances, and (e) the contract has a large number and broad range of possible consideration amounts.

Pending change orders represent one of the most common forms of variable consideration included within contract value and typically represent contract modifications for which a change in scope has been authorized or acknowledged by our customer but the final adjustment to contract price is yet to be negotiated. In estimating the transaction price for pending change orders, the Company considers all relevant facts, including documented correspondence with the customer regarding acknowledgment of and/or agreement with the modification, as well as historical experience with the customer or similar contractual circumstances. Based upon this assessment, the Company estimates the transaction price, including whether the variable consideration constraint should be applied.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 3 - REVENUE FROM CONTRACTS WITH CUSTOMERS (Continued)

Contract claims are another form of variable consideration which is common within our industry. Claim amounts represent revenue that has been recognized for contract modifications that are not submitted or are in dispute as to both scope and price. In estimating the transaction price for claims, the Company considers all relevant facts available. However, given the uncertainty surrounding claims, including the potential long-term nature of dispute resolution and the broad range of possible consideration amounts, there is an increased likelihood that any additional contract revenue associated with contract claims is constrained. The resolution of claims involves negotiations and, in certain cases, litigation. In the event litigation costs are incurred by us in connection with claims, such litigation costs are expensed as incurred, although we may seek to recover these costs.

For some transactions, the receipt of consideration does not match the timing of the transfer of goods or services to the customer. For such contracts, the Company evaluates whether this timing difference represents a financing arrangement within the contract. Although rare, if a contract is determined to contain a significant financing component, the Company adjusts the promised amount of consideration for the effects of the time value of money when determining the transaction price of such contract. Although our customers may retain a portion of the contract price until completion of the project and final contract settlement, these retainage amounts are not considered a significant financing component as the intent of the withheld amounts is to provide the customer with assurance that we will complete our obligations under the contract rather than to provide financing to the customer. In addition, although we may be entitled to advanced payments from our customers on certain contracts, these advanced payments generally do not represent a significant financing component as the payments are used to meet working capital demands that can be higher in the early stages of a contract, as well as to protect us from our customer failing to meet its obligations under the contract.

Changes in the estimates of transaction prices are recognized on a cumulative catch-up basis in the period in which the revisions to the estimates are made. Such changes in estimates can result in the recognition of revenue in a current period for performance obligations which were satisfied or partially satisfied in prior periods. Such changes in estimates may also result in the reversal of previously recognized revenue if the ultimate outcome differs from the Company's previous estimate. There were no significant amounts of revenue recognized during the years ended December 31, 2021 or 2019 related to performance obligations satisfied in prior periods. During the year ended December 31, 2020, we recognized revenue of \$6.1 million associated with the final settlement of the contract value for two projects within our United States electrical construction and facilities services segment that were completed or substantially completed in prior periods. For each of the years ended December 31, 2021, 2020, and 2019, there were no significant reversals of revenue recognized associated with the revision of transaction prices.

(4) Allocate the transaction price to performance obligations in the contract

For contracts that contain multiple performance obligations, the Company allocates the transaction price to each performance obligation based on a relative standalone selling price. The Company determines the standalone selling price based on the price at which the performance obligation would have been sold separately in similar circumstances to similar customers. If the standalone selling price is not observable, the Company estimates the standalone selling price taking into account all available information such as market conditions and internal pricing guidelines. In certain circumstances, the standalone selling price is determined using an expected profit margin on anticipated costs related to the performance obligation.

(5) Recognize revenue as performance obligations are satisfied

The Company recognizes revenue at the time the related performance obligation is satisfied by transferring a promised good or service to its customers. A good or service is considered to be transferred when the customer obtains control. The Company can transfer control of a good or service and satisfy its performance obligations either over time or at a point in time. The Company transfers control of a good or service over time and, therefore, satisfies a performance obligation and recognizes revenue over time if one of the following three criteria are met: (a) the customer simultaneously receives and consumes the benefits provided by the Company's performance as we perform, (b) the Company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced, or (c) the Company's performance does not create an asset with an alternative use to us, and we have an enforceable right to payment for performance completed to date.

For our performance obligations satisfied over time, we recognize revenue by measuring the progress toward complete satisfaction of that performance obligation. The selection of the method to measure progress towards completion can be either an input method or an output method and requires judgment based on the nature of the goods or services to be provided.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 3 - REVENUE FROM CONTRACTS WITH CUSTOMERS (Continued)

For our construction contracts, revenue is generally recognized over time as our performance creates or enhances an asset that the customer controls as it is created or enhanced. Our fixed price construction projects generally use a cost-to-cost input method to measure our progress towards complete satisfaction of the performance obligation as we believe it best depicts the transfer of control to the customer which occurs as we incur costs on our contracts. Under the cost-to-cost measure of progress, the extent of progress towards completion is measured based on the ratio of costs incurred to date to the total estimated costs at completion of the performance obligation. For our unit price construction contracts, progress towards complete satisfaction is measured through an output method, such as the number of units produced or delivered, when our performance does not produce significant amounts of work in process or finished goods prior to complete satisfaction of such performance obligations.

For our services contracts, revenue is also generally recognized over time as the customer simultaneously receives and consumes the benefits of our performance as we perform the service. For our fixed price service contracts with specified service periods, revenue is generally recognized on a straight-line basis over such service period when our inputs are expended evenly, and the customer receives and consumes the benefits of our performance throughout the contract term.

The timing of revenue recognition for the manufacturing of new build heat exchangers within our United States industrial services segment depends on the payment terms of the contract, as our performance does not create an asset with an alternative use to us. For those contracts for which we have a right to payment for performance completed to date at all times throughout our performance, inclusive of a cancellation, we recognize revenue over time. For these performance obligations, we use a cost-to-cost input method to measure our progress towards complete satisfaction of the performance obligation as we believe it best depicts the transfer of control to the customer which occurs as we incur costs on our contracts. However, for those contracts for which we do not have a right, at all times, to payment for performance completed to date, we recognize revenue at the point in time when control is transferred to the customer. For bill-and-hold arrangements, revenue is recognized when the customer obtains control of the heat exchanger, which may be prior to shipping if certain recognition criteria are met.

For certain of our revenue streams, such as call-out repair and service work, outage services, refinery turnarounds, and specialty welding services that are performed under time and materials contracts, our progress towards complete satisfaction of such performance obligations is measured using an output method as the customer receives and consumes the benefits of our performance completed to date.

Due to uncertainties inherent in the estimation process, it is possible that estimates of costs to complete a performance obligation will be revised in the near-term. For those performance obligations for which revenue is recognized using a cost-to-cost input method, changes in total estimated costs, and related progress towards complete satisfaction of the performance obligation, are recognized on a cumulative catch-up basis in the period in which the revisions to the estimates are made. When the current estimate of total costs for a performance obligation indicate a loss, a provision for the entire estimated loss on the unsatisfied performance obligation is made in the period in which the loss becomes evident. During each of the years ended December 31, 2021, 2020, and 2019, there were no changes in total estimated costs that had a significant impact on our operating results. In addition, there were no significant losses recognized during each of the years ended December 31, 2021, 2020, and 2019.

Disaggregation of Revenues

Our revenues are principally derived from contracts to provide construction services relating to electrical and mechanical systems, as well as to provide a number of building services and industrial services to our customers. Our contracts are with many different customers in numerous industries. Refer to Note 18 - Segment Information of the notes to consolidated financial statements for additional information on how we disaggregate our revenues by reportable segment, as well as a more complete description of our business.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Contract Assets and Contract Liabilities

The timing of revenue recognition may differ from the timing of invoicing to customers. Contract assets include unbilled amounts from our construction projects when revenues recognized under the cost-to-cost measure of progress exceed the amounts invoiced to our customers, as the amounts are not yet billable under the terms of our contracts. Such amounts are recoverable from our customers based upon various measures of performance, including achievement of certain milestones, completion of specified units, or completion of a contract. In addition, many of our time and materials arrangements, as well as our contracts to perform turnaround services within the United States industrial services segment, are billed in arrears pursuant to contract terms that are standard within the industry, resulting in contract assets and/or unbilled receivables being recorded as revenue is recognized in advance of billings. Also included in contract assets are amounts we seek or will seek to collect from customers or others for errors or changes in contract specifications or design, contract change orders or modifications in dispute or unapproved as to scope and/or price, or other customer-related causes of unanticipated additional contract costs (claims and unapproved change orders). Our contract assets do not include capitalized costs to obtain and fulfill a contract. Contract assets are generally classified as current within the Consolidated Balance Sheets.

As of December 31, 2021 and 2020, contract assets included unbilled revenues for unapproved change orders of approximately \$24.1 million and \$15.3 million, respectively. Contract assets as of December 31, 2021 additionally included \$2.5 million associated with claims. There were no claim amounts included within accounts receivable as of December 31, 2021 or within contract assets or accounts receivable as of December 31, 2020. There were contractually billed amounts and retention related to contracts with unapproved change orders and claims of approximately \$130.7 million and \$87.9 million as of December 31, 2021 and 2020, respectively. For contracts in claim status, contractually billed amounts will generally not be paid by the customer to us until final resolution of the related claims.

Contract liabilities from our construction contracts arise when amounts invoiced to our customers exceed revenues recognized under the cost-to-cost measure of progress. Contract liabilities additionally include advanced payments from our customers on certain contracts. Contract liabilities decrease as we recognize revenue from the satisfaction of the related performance obligation and are recorded as either current or long-term, depending upon when we expect to recognize such revenue. The long-term portion of contract liabilities is included in "Other long-term obligations" in the Consolidated Balance Sheets.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 3 - REVENUE FROM CONTRACTS WITH CUSTOMERS (Continued)

Net contract liabilities in the accompanying Consolidated Balance Sheets consisted of the following amounts as of December 31, 2021 and 2020 (in thousands):

	December 31, 2021	December 31, 2020
Contract assets, current	\$ 230,143	\$ 171,956
Contract assets, non-current	—	—
Contract liabilities, current	(788,134)	(722,252)
Contract liabilities, non-current	(2,505)	(2,283)
Net contract liabilities	<u>\$ (560,496)</u>	<u>\$ (552,579)</u>

Included within net contract liabilities were \$500.3 million and \$496.8 million of net contract liabilities on uncompleted construction projects as of December 31, 2021 and 2020, respectively, as follows (in thousands):

	December 31, 2021	December 31, 2020
Costs incurred on uncompleted construction contracts	\$ 11,034,038	\$ 10,727,358
Estimated earnings, thereon	1,731,479	1,640,250
	12,765,517	12,367,608
Less: billings to date	13,265,865	12,864,404
	<u>\$ (500,348)</u>	<u>\$ (496,796)</u>

Contract assets and contract liabilities increased by approximately \$8.1 million and \$23.2 million, respectively, as a result of acquisitions made by us in 2021. Excluding the impact of acquisitions, net contract liabilities decreased by approximately \$7.2 million for the year ended December 31, 2021, primarily as a result of the timing of invoicing to customers on our uncompleted construction projects, which, based on the various stages of completion, included a greater percentage of contracts that were recorded in contract asset positions. There was no significant impairment of contract assets recognized during the periods presented.

Contract Retentions

As of December 31, 2021 and 2020, accounts receivable included \$375.3 million and \$323.9 million, respectively, of retainage billed under terms of our contracts. These retainage amounts represent amounts which have been contractually invoiced to customers where payments have been partially withheld pending the achievement of certain milestones, satisfaction of other contractual conditions, or completion of the project. We estimate that approximately 90% of the retainage outstanding as of December 31, 2021 will be collected during 2022.

As of December 31, 2021 and 2020, accounts payable included \$71.1 million and \$59.8 million, respectively, of retainage withheld under terms of our subcontracts. These retainage amounts represent amounts invoiced to the Company by our subcontractors where payments have been partially withheld pending the achievement of certain milestones, satisfaction of other contractual conditions, or upon completion of the project. We estimate that approximately 90% of the retainage outstanding as of December 31, 2021 will be paid during 2022.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 3 - REVENUE FROM CONTRACTS WITH CUSTOMERS (Continued)

Transaction Price Allocated to Remaining Unsatisfied Performance Obligations

The following table presents the transaction price allocated to remaining unsatisfied performance obligations (“remaining performance obligations”) for each of our reportable segments and their respective percentages of total remaining performance obligations (in thousands, except for percentages):

	<u>December 31,</u> <u>2021</u>	<u>% of</u> <u>Total</u>
Remaining performance obligations:		
United States electrical construction and facilities services	\$ 1,210,568	22 %
United States mechanical construction and facilities services	3,320,359	59 %
United States building services	838,324	15 %
United States industrial services	111,838	2 %
Total United States operations	<u>5,481,089</u>	<u>98 %</u>
United Kingdom building services	118,208	2 %
Total operations	<u>\$ 5,599,297</u>	<u>100 %</u>

Our remaining performance obligations at December 31, 2021 were \$5.60 billion. Remaining performance obligations increase with awards of new contracts and decrease as we perform work and recognize revenue on existing contracts. We include a project within our remaining performance obligations at such time the project is awarded and agreement on contract terms has been reached. Our remaining performance obligations include amounts related to contracts for which a fixed price contract value is not assigned when a reasonable estimate of the total transaction price can be made.

Remaining performance obligations include unrecognized revenues to be realized from uncompleted construction contracts. Although many of our construction contracts are subject to cancellation at the election of our customers, in accordance with industry practice, we do not limit the amount of unrecognized revenue included within remaining performance obligations for these contracts as the risk of cancellation is very low due to the inherent substantial economic penalty that our customers would incur upon cancellation or termination. We believe our reported remaining performance obligations for our construction contracts are firm and contract cancellations have not had a material adverse effect on us.

Remaining performance obligations also include unrecognized revenues expected to be realized over the remaining term of service contracts. However, to the extent a service contract includes a cancellation clause which allows for the termination of such contract by either party without a substantive penalty, the remaining contract term, and therefore, the amount of unrecognized revenues included within remaining performance obligations, is limited to the notice period required for the termination.

Our remaining performance obligations are comprised of: (a) original contract amounts, (b) change orders for which we have received written confirmations from our customers, (c) pending change orders for which we expect to receive confirmations in the ordinary course of business, (d) claim amounts that we have made against customers for which we have determined we have a legal basis under existing contractual arrangements and as to which the variable consideration constraint does not apply, and (e) other forms of variable consideration to the extent that such variable consideration has been included within the transaction price of our contracts. Such claim and other variable consideration amounts were immaterial for all periods presented.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 3 - REVENUE FROM CONTRACTS WITH CUSTOMERS (Continued)

Refer to the table below for additional information regarding our remaining performance obligations, including an estimate of when we expect to recognize such remaining performance obligations as revenue (in thousands):

	<u>Within one year</u>	<u>Greater than one year</u>
Remaining performance obligations:		
United States electrical construction and facilities services	\$ 1,073,432	\$ 137,136
United States mechanical construction and facilities services	2,640,609	679,750
United States building services	751,602	86,722
United States industrial services	111,838	—
Total United States operations	<u>4,577,481</u>	<u>903,608</u>
United Kingdom building services	92,371	25,837
Total operations	<u>\$ 4,669,852</u>	<u>\$ 929,445</u>

NOTE 4 - ACQUISITIONS OF BUSINESSES

Acquisitions are accounted for utilizing the acquisition method of accounting and the prices paid for them are allocated to their respective assets and liabilities based upon the estimated fair value of such assets and liabilities at the dates of their respective acquisition by us.

During 2021, we acquired eight companies for total consideration of \$131.2 million. Such acquisitions include: (a) two companies, the results of operations of which have been included within our United States mechanical construction and facilities services segment, consisting of: (i) a company that provides mechanical services within the Southern region of the United States and (ii) a company that provides fire protection services in the Midwestern region of the United States, (b) two companies that provide electrical construction services for a broad array of customers in the Midwestern region of the United States, the results of operations of which have been included in our United States electrical construction and facilities services segment, and (c) four companies, the results of operations of which have been included within our United States building services segment, consisting of: (i) a company that provides mobile mechanical services across North Texas and (ii) three companies that bolster our presence in geographies where we have existing operations and provide either mobile mechanical services or building automation and controls solutions. In connection with these acquisitions, we acquired working capital of \$22.9 million and other net liabilities of \$0.6 million, including certain deferred tax liabilities, and have preliminarily ascribed \$38.3 million to goodwill and \$70.6 million to identifiable intangible assets.

During 2020, we acquired three companies for total consideration of \$50.3 million. Such acquisitions include: (a) a company that provides building automation and controls solutions within the Northeastern region of the United States, (b) a full service provider of mechanical services in the Washington, D.C. metro area, and (c) a company that provides mobile mechanical services in the Southern region of the United States. The results of operations for all three companies have been included within our United States building services segment. In connection with these acquisitions, we acquired working capital of \$3.0 million and other net liabilities of \$3.9 million and have ascribed \$13.1 million to goodwill and \$38.1 million to identifiable intangible assets.

On November 1, 2019, we completed the acquisition of Batchelor & Kimball, Inc. (“BKI”), a leading full service provider of mechanical construction and maintenance services. This acquisition strengthens our position and broadens our capabilities in the Southern and Southeastern regions of the United States, and the results of its operations have been included within our United States mechanical construction and facilities services segment. Under the terms of the transaction, we acquired 100% of BKI’s outstanding capital stock for total consideration of approximately \$220.3 million. In connection with the acquisition of BKI, we acquired working capital of \$29.8 million and other net assets of \$4.9 million and have ascribed \$43.9 million to goodwill and \$141.7 million to identifiable intangible assets. Goodwill is calculated as the excess of the consideration transferred over the fair value of the net assets acquired and represents the future economic benefits expected from this strategic acquisition. The weighted average amortization period for the identifiable intangible assets, which consist of a trade name, customer relationships, and contract backlog, is approximately 10.5 years.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 4 - ACQUISITIONS OF BUSINESSES (Continued)

In addition to BKI, during 2019, we completed six other acquisitions for total consideration of \$85.4 million. Such acquisitions include: (a) a company that provides electrical contracting services in central Iowa, the results of operations of which have been included within our United States electrical construction and facilities services segment, (b) a company that provides mechanical contracting services in south-central and eastern Texas, the results of operations of which have been included within our United States mechanical construction and facilities services segment, and (c) four companies within our United States building services segment which bolster our presence in geographies where we have existing operations and provide either mobile mechanical services or building automation and controls solutions. In connection with these acquisitions, we acquired working capital of \$25.3 million and other net assets of \$1.3 million and have ascribed \$29.2 million to goodwill and \$29.6 million to identifiable intangible assets.

We expect that the majority of the goodwill acquired in connection with these acquisitions will be deductible for tax purposes. The purchase price allocations for two of the businesses acquired in 2021 are preliminary and subject to change during their respective measurement periods. As we finalize such purchase price allocations, adjustments may be recorded relating to finalization of intangible asset valuations, tax matters, or other items. Although not expected to be significant, such adjustments may result in changes in the valuation of assets and liabilities acquired. The purchase price allocations for the other businesses acquired in 2021 and the businesses acquired in 2020 and 2019 have been finalized during their respective measurement periods with an insignificant impact.

NOTE 5 - EARNINGS PER SHARE

The following tables summarize our calculation of Basic and Diluted Earnings per Common Share (“EPS”) for the years ended December 31, 2021, 2020, and 2019 (in thousands, except share and per share data):

	<u>2021</u>	<u>2020</u>	<u>2019</u>
Numerator:			
Net income attributable to EMCOR Group, Inc. common stockholders	\$ 383,532	\$ 132,943	\$ 325,140
Denominator:			
Weighted average shares outstanding used to compute basic earnings per common share	54,068,982	55,196,173	56,208,280
Effect of dilutive securities—Share-based awards	278,552	225,098	311,001
Shares used to compute diluted earnings per common share	54,347,534	55,421,271	56,519,281
Basic earnings per common share	\$ 7.09	\$ 2.41	\$ 5.78
Diluted earnings per common share	\$ 7.06	\$ 2.40	\$ 5.75

The number of outstanding share-based awards excluded from the computation of diluted EPS for the years ended December 31, 2021, 2020, and 2019 because they would be anti-dilutive were 9,250, 24,450, and 4,800, respectively.

NOTE 6 - INVENTORIES

Inventories in the accompanying Consolidated Balance Sheets consisted of the following amounts as of December 31, 2021 and 2020 (in thousands):

	<u>December 31, 2021</u>	<u>December 31, 2020</u>
Raw materials and construction materials	\$ 46,186	\$ 42,240
Work in process	7,912	11,098
Inventories	<u>\$ 54,098</u>	<u>\$ 53,338</u>

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 7 - PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment in the accompanying Consolidated Balance Sheets consisted of the following amounts as of December 31, 2021 and 2020 (in thousands):

	December 31, 2021	December 31, 2020
Machinery and equipment	\$ 188,022	\$ 176,031
Vehicles	65,946	61,624
Furniture and fixtures	23,698	23,724
Computer hardware/software	108,830	111,846
Land, buildings and leasehold improvements	127,736	124,309
Construction in progress	6,125	7,754
Finance lease right-of-use assets ⁽¹⁾	7,666	9,638
	<u>528,023</u>	<u>514,926</u>
Accumulated depreciation and amortization	<u>(375,957)</u>	<u>(356,499)</u>
	<u>\$ 152,066</u>	<u>\$ 158,427</u>

⁽¹⁾ Finance lease right-of-use assets are recorded net of accumulated amortization.

Depreciation and amortization expense related to property, plant and equipment, including finance leases, was \$48.3 million, \$46.7 million, and \$43.9 million for the years ended December 31, 2021, 2020, and 2019, respectively.

NOTE 8 - GOODWILL, IDENTIFIABLE INTANGIBLE ASSETS, AND OTHER LONG-LIVED ASSETS

Goodwill

In connection with our acquisition of businesses, we have recorded goodwill, which represents the excess of the consideration transferred over the fair value of the net tangible and identifiable intangible assets acquired. Our goodwill balance at December 31, 2021 and 2020 was \$890.3 million and \$851.8 million, respectively, with goodwill attributable to companies acquired in 2021 and 2020 valued at \$38.3 million and \$13.1 million, respectively. Goodwill is not amortized but instead allocated to its respective reporting unit and evaluated for impairment annually, or more frequently if events or circumstances indicate that the carrying amount of goodwill may be impaired. We have determined that our reporting units are consistent with the reportable segments identified in Note 18 - Segment Information of the notes to consolidated financial statements. As of December 31, 2021, approximately 17.9% of our goodwill related to our United States electrical construction and facilities services segment, approximately 34.2% of our goodwill related to our United States mechanical construction and facilities services segment, approximately 35.1% of our goodwill related to our United States building services segment and approximately 12.8% of our goodwill related to our United States industrial services segment.

Absent any earlier identified impairment indicators, we perform our annual goodwill impairment assessment on October 1 each fiscal year. Qualitative indicators that may trigger the need for interim quantitative impairment testing include, among others, deterioration in macroeconomic conditions, declining financial performance, deterioration in the operational environment, or an expectation of selling or disposing of a portion of a reporting unit. Additionally, an interim impairment test may be triggered by a significant change in business climate, a loss of a significant customer, increased competition, or a sustained decrease in share price. In assessing whether our goodwill is impaired, we compare the fair value of the reporting unit to its carrying amount, including goodwill. If the fair value exceeds the carrying amount, no impairment is recognized. However, if the carrying amount of the reporting unit exceeds the fair value, the goodwill of the reporting unit is impaired and an impairment loss in the amount of the excess is recognized and charged to operations.

We performed our 2021 annual impairment assessment of all reporting units as of October 1, 2021, and determined there was no impairment of goodwill. In completing our annual impairment assessment, we determined the fair value of each of our reporting units using an income approach whereby fair value was calculated utilizing discounted estimated future cash flows, assuming a risk-adjusted industry weighted average cost of capital. The weighted average cost of capital used in our annual impairment testing was 10.4% for our United States construction segments and our United States building services segment, and 11.3% for our United States industrial services segment. These weighted average cost of capital estimates were developed with the assistance of an independent third-party valuation specialist and reflect the overall level of inherent risk within the respective reporting unit and the rate of return a market participant would expect to earn. Our cash flow projections were derived from our most recent internal forecasts of anticipated revenue growth rates and operating margins, with cash flows beyond the discrete forecast period estimated using a terminal value calculation which incorporated historical and forecasted trends, an estimate of long-term growth rates, and assumptions about the future demand for our services. The perpetual growth rate used for our annual testing was 2.0% for all of our reporting units.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 8 - GOODWILL, IDENTIFIABLE INTANGIBLE ASSETS, AND OTHER LONG-LIVED ASSETS (Continued)

During the second quarter of 2020, we concluded that the carrying amount of our United States industrial services segment exceeded its fair value, resulting in the recognition of a non-cash goodwill impairment charge of \$225.5 million which was included within our results of operations for the year ended December 31, 2020. An interim impairment assessment was considered necessary as a result of the significant impact the COVID-19 pandemic and concurrent decline in demand for oil and other refined products had on our near term revenue and operating margin expectations for such segment. The valuation methodology utilized in this prior year interim impairment test was consistent with the approach described above. We did not identify indicators of impairment related to any other reporting unit that would have required an interim impairment assessment during 2020 and there was no other impairment of goodwill recognized for the years ended December 31, 2020 or 2019.

Due to the inherent uncertainties involved in making estimates, our assumptions may change in future periods. Estimates and assumptions made for purposes of our goodwill impairment testing may prove to be inaccurate predictions of the future, and other factors used in assessing fair value, such as the weighted average cost of capital, are outside the control of management. Unfavorable changes in certain of these key assumptions may affect future testing results. For example, keeping all other assumptions constant, a 50 basis point increase in the weighted average cost of capital would cause the estimated fair values of our United States electrical construction and facilities services segment, our United States mechanical construction and facilities services segment, our United States building services segment, and our United States industrial services segment to decrease by approximately \$103.6 million, \$185.5 million, \$74.5 million, and \$25.9 million, respectively. In addition, keeping all other assumptions constant, a 50 basis point reduction in the perpetual growth rate would cause the estimated fair values of our United States electrical construction and facilities services segment, our United States mechanical construction and facilities services segment, our United States building services segment, and our United States industrial services segment to decrease by approximately \$52.4 million, \$95.9 million, \$35.8 million, and \$9.5 million, respectively. Given the amounts by which the fair value exceeds the carrying value for each of our reporting units, the decreases in estimated fair values described above would not have significantly impacted the results of our 2021 impairment tests. Further, for each of our reporting units, other than our United States industrial services segment, a 10% decline in the estimated fair value of such reporting unit, due to other changes in our assumptions, including forecasted future cash flows, would not have significantly impacted the results of our 2021 impairment tests. In the case of our United States industrial services segment, however, such a decrease would cause the estimated fair value of this reporting unit to approximate its carrying value.

The changes in the carrying amount of goodwill by reportable segment during the years ended December 31, 2021 and 2020 were as follows (in thousands):

	United States electrical construction and facilities services segment	United States mechanical construction and facilities services segment	United States building services segment	United States industrial services segment	Total
Balance at December 31, 2019	\$ 142,545	\$ 299,220	\$ 289,158	\$ 332,988	\$ 1,063,911
Acquisitions and purchase price adjustments	—	398	12,974	—	13,372
Impairment	—	—	—	(225,500)	(225,500)
Balance at December 31, 2020	142,545	299,618	302,132	107,488	851,783
Acquisitions and purchase price adjustments	24,467	4,269	9,749	—	38,485
Intersegment transfers	(7,500)	—	900	6,600	—
Balance at December 31, 2021	<u>\$ 159,512</u>	<u>\$ 303,887</u>	<u>\$ 312,781</u>	<u>\$ 114,088</u>	<u>\$ 890,268</u>

The aggregate goodwill balance as of December 31, 2019 included \$268.1 million of accumulated impairment charges, which were comprised of \$139.5 million within the United States building services segment and \$128.6 million within the United States industrial services segment.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 8 - GOODWILL, IDENTIFIABLE INTANGIBLE ASSETS, AND OTHER LONG-LIVED ASSETS (Continued)

Identifiable Intangible Assets and Other Long-Lived Assets

Our identifiable intangible assets, arising out of the acquisition of businesses, include customer relationships, certain subsidiary trade names, developed technology/vendor network, and contract backlog, all of which are subject to amortization. In addition, our identifiable intangible assets include certain other subsidiary trade names, which are indefinite-lived and therefore not subject to amortization.

Absent earlier indicators of impairment, we test for impairment of subsidiary trade names that are not subject to amortization on an annual basis (October 1). In performing this test, we calculate the fair value of each trade name using the “relief from royalty payments” methodology. This approach involves two steps: (a) estimating reasonable royalty rates for each trade name and (b) applying these royalty rates to a net revenue stream and discounting the resulting cash flows to determine fair value. This fair value is then compared with the carrying value of each trade name. If the carrying amount of the trade name is greater than the implied fair value of the trade name, an impairment in the amount of the excess is recognized and charged to operations. In addition, we review for impairment of identifiable intangible assets that are being amortized as well as other long-lived assets whenever facts and circumstances indicate that their carrying values may not be fully recoverable. This test compares their carrying values to the undiscounted pre-tax cash flows expected to result from the use of the assets. If the assets are impaired, the assets are written down to their fair values, generally determined based on their discounted estimated future cash flows.

For the years ended December 31, 2021 and 2019, no impairment of our indefinite-lived intangible assets, finite-lived intangible assets, or other long-lived assets was recognized.

Given the negative market conditions disclosed above, we evaluated certain of our identifiable intangible assets and other long-lived assets for impairment during the second quarter of 2020. Such assets included those associated with the businesses in our United States industrial services segment. As a result of these assessments, we recorded non-cash impairment charges of \$7.3 million, which were included within our results of operations for the year ended December 31, 2020.

Identifiable intangible assets as of December 31, 2021 and 2020 consisted of the following (in thousands):

	December 31, 2021			
	Gross Carrying Amount	Accumulated Amortization	Accumulated Impairment Charge	Total
Customer relationships	\$ 717,666	\$ (374,764)	\$ (4,834)	\$ 338,068
Trade names (unamortized)	274,721	—	(58,933)	215,788
Developed technology/Vendor network	95,661	(69,688)	—	25,973
Trade names (amortized)	32,366	(24,180)	—	8,186
Contract backlog	77,995	(76,645)	—	1,350
Total	<u>\$ 1,198,409</u>	<u>\$ (545,277)</u>	<u>\$ (63,767)</u>	<u>\$ 589,365</u>

	December 31, 2020			
	Gross Carrying Amount	Accumulated Amortization	Accumulated Impairment Charge	Total
Customer relationships	\$ 670,155	\$ (324,426)	\$ (4,834)	\$ 340,895
Trade names (unamortized)	258,471	—	(58,933)	199,538
Developed technology/Vendor network	95,661	(64,994)	—	30,667
Trade names (amortized)	31,516	(23,002)	—	8,514
Contract backlog	72,045	(68,766)	—	3,279
Total	<u>\$ 1,127,848</u>	<u>\$ (481,188)</u>	<u>\$ (63,767)</u>	<u>\$ 582,893</u>

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 8 - GOODWILL, IDENTIFIABLE INTANGIBLE ASSETS, AND OTHER LONG-LIVED ASSETS (Continued)

Identifiable intangible assets attributable to businesses acquired in 2021 and 2020 have been valued at \$70.6 million and \$38.1 million, respectively, and consist of customer relationships, trade names, and contract backlog. See Note 4 - Acquisitions of Businesses of the notes to consolidated financial statements for additional information with respect to acquisitions.

Identifiable intangible assets are amortized in a manner that best approximates the pattern in which the economic benefits of such assets are consumed, which is generally on a straight-line basis. The weighted average amortization periods for the unamortized balances remaining are, in the aggregate, approximately 7.50 years, which are comprised of the following: 7.50 years for customer relationships, 8.50 years for trade names, 5.75 years for developed technology/vendor network, and 0.25 years for contract backlog.

Amortization expense related to identifiable intangible assets with finite lives was \$64.1 million, \$60.0 million, and \$48.1 million for the years ended December 31, 2021, 2020, and 2019, respectively. The following table presents the estimated future amortization expense of identifiable intangible assets in the following years (in thousands):

2022	\$ 57,321
2023	54,891
2024	54,240
2025	53,158
2026	47,382
Thereafter	106,585
	<u>\$ 373,577</u>

Other Considerations

As referenced above, impairment testing is based upon assumptions and estimates determined by management from a review of our operating results and business plans as well as forecasts of anticipated growth rates and margins, among other considerations. In addition, estimates of weighted average costs of capital are developed with the assistance of an independent third-party valuation specialist. These assumptions and estimates may change in future periods, especially in consideration of the uncertainty created by the COVID-19 pandemic and its potential impact on the broader economy and our results of operations in future periods, particularly with respect to our United States industrial services segment. Significant adverse changes to external market conditions or our internal forecasts, if any, could result in future impairment charges. It is not possible at this time to determine if any future impairment charge will result or, if it does, whether such a charge would be material to our results of operations.

EMCOR Group, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 9 - DEBT

Debt in the accompanying Consolidated Balance Sheets consisted of the following amounts as of December 31, 2021 and 2020 (in thousands):

	December 31, 2021	December 31, 2020
Term loan, interest payable at varying amounts through 2025	\$ 256,688	\$ 270,563
Unamortized debt issuance costs	(3,040)	(4,000)
Finance lease liabilities	8,037	9,966
Total debt	261,685	276,529
Less: current maturities	16,235	16,910
Total long-term debt	<u>\$ 245,450</u>	<u>\$ 259,619</u>

Credit Agreement

Until March 2, 2020, we had a credit agreement dated as of August 3, 2016, which provided for a \$900.0 million revolving credit facility (the “2016 Revolving Credit Facility”) and a \$400.0 million term loan (the “2016 Term Loan”) (collectively referred to as the “2016 Credit Agreement”). On March 2, 2020, we amended and restated the 2016 Credit Agreement to provide for a \$1.3 billion revolving credit facility (the “2020 Revolving Credit Facility”) and a \$300.0 million term loan (the “2020 Term Loan”) (collectively referred to as the “2020 Credit Agreement”) expiring March 2, 2025. We may increase the 2020 Revolving Credit Facility to \$1.9 billion if additional lenders are identified and/or existing lenders are willing to increase their current commitments. We may allocate up to \$400.0 million of available capacity under the 2020 Revolving Credit Facility to letters of credit for our account or for the account of any of our subsidiaries.

At the Company’s election, borrowings under the 2020 Credit Agreement bear interest at either: (1) a base rate plus a margin of 0.00% to 0.75%, based on certain financial tests, or (2) United States dollar LIBOR (0.10% at December 31, 2021) plus 1.00% to 1.75%, based on certain financial tests. The base rate is determined by the greater of: (a) the prime commercial lending rate announced by Bank of Montreal from time to time (3.25% at December 31, 2021), (b) the federal funds effective rate, plus ½ of 1.00%, (c) the daily one month LIBOR rate, plus 1.00%, or (d) 0.00%. In the event of the discontinuation of LIBOR, our 2020 Credit Agreement contains provisions which allow for the use of alternate benchmark rates. The interest rate in effect at December 31, 2021 was 1.10%. A commitment fee is payable on the average daily unused amount of the 2020 Revolving Credit Facility, which ranges from 0.10% to 0.25%, based on certain financial tests. The fee was 0.10% of the unused amount as of December 31, 2021. Fees for letters of credit issued under the 2020 Revolving Credit Facility range from 0.75% to 1.75% of the respective face amounts of outstanding letters of credit, depending on the nature of the letter of credit, and are computed based on certain financial tests.

As of December 31, 2021 and 2020, the balance of the 2020 Term Loan was \$256.7 million and \$270.6 million, respectively. As of December 31, 2021 and 2020, there were no direct borrowings outstanding under the 2020 Revolving Credit Facility; however, we had \$71.3 million of letters of credit outstanding, which reduce the available capacity under such facility. We capitalized an additional \$3.1 million of debt issuance costs associated with the 2020 Credit Agreement. Debt issuance costs are amortized over the life of the agreement as part of interest expense.

Obligations under the 2020 Credit Agreement are guaranteed by most of our direct and indirect subsidiaries and are secured by substantially all of our assets. The 2020 Credit Agreement contains various covenants providing for, among other things, the maintenance of certain financial ratios and certain limitations on the payment of dividends, common stock repurchases, investments, acquisitions, indebtedness, and capital expenditures. We were in compliance with all such covenants as of December 31, 2021 and 2020.

We are required to make annual principal payments on the 2020 Term Loan. Any voluntary prepayments are applied against the outstanding balance of the loan and reduce our future scheduled payments on a ratable basis. Based on our outstanding balance, principal payments of \$13.9 million are due on December 31 of each year until maturity, with any remaining unpaid principal and interest due on March 2, 2025.

NOTE 10 - FAIR VALUE MEASUREMENTS

For disclosure purposes, we utilize a fair value hierarchy to categorize qualifying assets and liabilities into three broad levels based on the priority of the inputs used to determine their fair values. The hierarchy, which gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities and the lowest priority to unobservable inputs, is comprised of the following three levels:

Level 1 – Unadjusted quoted prices in active markets for identical assets and liabilities.

Level 2 – Observable inputs, other than Level 1 inputs, that are directly or indirectly observable for the asset or liability, including quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 – Unobservable inputs that reflect the reporting entity’s own assumptions.

Recurring Fair Value Measurements

The following tables summarize the assets and liabilities carried at fair value measured on a recurring basis as of December 31, 2021 and 2020 (in thousands):

Asset Category	Assets at Fair Value as of December 31, 2021			
	Level 1	Level 2	Level 3	Total
Cash and cash equivalents ⁽¹⁾	\$ 821,345	\$ —	\$ —	\$ 821,345
Restricted cash ⁽²⁾	1,223	—	—	1,223
Deferred compensation plan assets ⁽³⁾	42,344	—	—	42,344
Total	<u>\$ 864,912</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 864,912</u>

Asset Category	Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Cash and cash equivalents ⁽¹⁾	\$ 902,867	\$ —	\$ —	\$ 902,867
Restricted cash ⁽²⁾	695	—	—	695
Deferred compensation plan assets ⁽³⁾	36,491	—	—	36,491
Total	<u>\$ 940,053</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 940,053</u>
