## **EXECUTIVE SUMMARY**

#### **OVERVIEW**

The Office of Management and Budget (OMB) is pleased to issue the Fiscal 2010 Third Quarter Financial Report. The projected results for Fiscal Year ending December 31, 2010 reflect a surplus of \$0.4 million. Third Quarter projections assume the bonding of property tax certiorari refunds in excess of the \$50 million included as an operating expense in the 2010 Adopted Budget.

To offset or mitigate an inherited deficit, the Mangano Administration has implemented the following initiatives:

- An early retirement incentive and opting into the New York State incentives to reduce labor costs. On June 7, 2010, a retirement incentive was passed by the County Legislature and signed by the County Executive. As of September 30, 2010, 422 Nassau County employees had signed up for the two incentives and total salary line savings of \$43.8 million are projected;
- Charged the Towns and Cities for their share of the tuition for the Fashion Institute of Technology;
- Reduced Contractual Services and General Expenses via a County-wide cost containment effort;
- Reduced debt service costs by taking advantage of the low interest rate environment to issue at more favorable rates than budgeted; and
- Created a Nassau/Suffolk Purchasing Consortium to generate cost savings through high volume purchasing of County required goods and services.

Additional initiatives currently being undertaken by the Mangano Administration for purposes of further reducing the projected budget deficit include, but are not limited to the following:

- Created a Shared Services Department to eliminate redundant functions within the departments by consolidating services;
- Negotiating with the collective bargaining units to obtain concessions on previously agreed to contractual increases and incentives to reduce labor costs;
- > Continued review and scrutinization of expenses and contracts on an ongoing basis; and
- Exploration of the use of private/public partnerships to reduce Nassau County's expenses for delivered services.

The Administration will continue to develop initiatives that will focus on real-time cost savings and greater operational efficiencies while continuing to provide the highest quality of service to its constituents.

#### **EXPENDITURE RESULTS**

#### Salaries

The 2010 projected salaries for the five major funds is \$813.6 million which includes \$671 million for base wages and \$63.8 million for overtime of which \$39.4 million is for Police and \$18.4 million is for the Correctional Center. The balance of the projected salaries is for other salary items such as longevity, differential pay, and holiday pay.

<u>Base Wages</u>: As of September 30, 2010, the County had 8,199 full-time and 85 contract employees which represents 609 fewer positions than in the 2010 Adopted Budget of 8,893 (8,810 full-time employees and 83 contract employees). The reduction in salary expenditures is primarily attributable to vacancies in staffing.

<u>Overtime:</u> The Police Department's 2010 Adopted Budget provides \$32 million in overtime funding. Through September 2010, the department incurred \$24.8 million in overtime expense. Through September 2010, the total number of both civilian and sworn overtime hours is 338,205 including overtime hours reimbursed by other County departments. Management is working with the Police Department to control overtime.

The Correctional Center's Fiscal 2010 Adopted Budget provides for \$15.4 million in overtime expense for correctional officers. As of September 30, 2010, the Correctional Center overtime expense is \$14.3 million. The number of overtime hours incurred in the Correctional Center through September 2010 was 258,680.

#### Employee Benefits

The 2010 Adopted Budget for employee benefits of \$413.0 million includes a wide variety of expenses highlighted by pensions, employee and retiree health insurance, and Workers' Compensation.

The budget for pensions and health insurance represents the largest portion of employee benefits at \$309 million. Pension and health insurance expenditures are projected to be \$315.5 million which will be an increase of \$6.5 million over the 2010 Adopted Budget. The projected health insurance rates between the current projection and the 2010 Adopted Budget for active employees has decreased by 1 percent while rates for retirees have increased by 7 percent.

The Workers' Compensation expense portion of employee benefits is projected to be \$24.3 million for 2010. This is a 11 percent increase from 2009 and is primarily related to new guidelines established by the New York State Workers' Compensation Board, which reduced the amount of time in which Workers' Compensation awards must be granted and continued increases in indemnity rates of 20 percent as of July 1, 2010. Risk Management is actively working with a Third Party Administrator to accelerate the use of Lump Sum settlements to help decrease the level of outstanding liability. During the third quarter, the County has been successful in reaching an agreement on 15 additional individual claims for a savings of \$3 million, with additional claims still under review.

#### **Other Than Personnel Services**

Several contingency measures have been implemented to address the projected shortfall. These measures include restrictions on all other-than-personnel-services (OTPS) spending. This effort is managed jointly by the Office of Management and Budget (OMB) and the Purchasing Department. OMB and Purchasing will scrutinize and limit new departmental expense requests with the goal of generating a projected \$9.1 million positive variance for 2010.

#### Utility Costs

Utility costs include expenditures for electricity, natural gas, telephone, water, fuel oil and thermal energy. The Long Island Power Authority (LIPA) is the main supplier of electricity and National Grid is the primary provider of natural gas. The County has a contractual relationship with the Trigen Nassau Energy Corporation to supply the County with thermal energy through the mediums of high temperature hot water, chilled water and steam. The County is projecting utilities expense of \$36.2 million, which is \$2.3 million lower than the 2010 Adopted Budget. This budget pickup resulted from lower actual costs than projected under LIPA's balanced billing program, plus lower water and telephone expenses.

#### Direct Assistance

Direct Assistance includes Recipient Grants, Purchased Services, and Emergency Vendor Payments. Recipient Grants are payments made to a client for services such as Temporary Assistance for Needy Families (TANF), Safety Net, Foster Care, and the Food Stamp Program. Purchased Services include Day Care, Preventive and Protective Services, and Homemaker Services. Emergency Vendor Payments include those for Special Education Assistance, Persons In Need of Supervision (PINS), Department of Social Services (DSS) Juvenile Detention Center custody, court placements, and handicapped services.

The 2010 Adopted Budget for Direct Assistance programs (which does not include Medicaid expenses) is \$170.2 million, compared to the projection of \$189.1 million. The \$18.9 million projected deficit results from significantly higher TANF and Safety Net caseloads, increased emergency shelter payments for citizens, and higher rates and volume of cases for the Day Care service program.

#### Pre-School Special Education/Early Intervention Program

#### Early Intervention Program

Early Intervention (EI) is an entitlement program that provides specialized services to children under age three with developmental delays and disabilities. Services include evaluations to determine eligibility, as well as a comprehensive array of services to eligible children, including service coordination, speech/language therapy, physical therapy, occupational therapy, special education, family counseling, and transportation.

#### Preschool Special Education Program

This program pays for educational and supportive services to special needs children ages three to five. The program offers center-based evaluations, educational services, itinerant services, and transportation. Eligibility and level of services is determined by the local school district through the Committees on Preschool Special Education (CPSE). The program also oversees a County-wide transportation system

for both the Early Intervention Program (ages one to three) and Preschool Program (ages three to five). The Preschool Special Education program also provides financial support for Summer School programs for 5 to 21 year-olds.

The projection for the Preschool Special Education/Early Intervention Program of \$167.9 million results in a surplus of \$5.7 million against the 2010 Adopted Budget of \$173.6 million. The favorable variance is attributable to a less than anticipated growth rate in the number of Early Intervention children served. State Aid for Pre-School Special Education and Early Intervention are reimbursed at 59.5 percent and 49 percent, respectively.

#### **Revenue Results**

#### Sales Tax

The most closely monitored revenue source in the County's budget is sales tax because it accounts for approximately 33 percent of all County receipts and is susceptible to dramatic annual fluctuations as a result of economic conditions that are beyond the County's control. The sales tax rate in Nassau County is 8 5/8 percent (four percent is retained by the State, 3/8 percent is earmarked for the MTA, and 4<sup>1</sup>/<sub>4</sub> percent is forwarded to the County, of which <sup>1</sup>/<sub>4</sub> percent is distributed to the local towns and cities). Effective June 1, 2010, the Residential Energy tax of 2.5 percent, which was included in the 2010 Adopted Budget for sales tax, was eliminated.

Excluding receipts from the Residential Energy Tax which was repealed effective June 1, 2010, the County is projecting sales tax of approximately \$981.1 million which would result in a growth of approximately \$51.8 million or approximately 5.6 percent over 2009's receipts of \$929.3 million. This projected amount results in an excess of approximately \$17.4 million or 1.8 percent when compared with the 2010 Adopted Budget amount of \$963.3 million. While revenue from the residential energy tax is projected to be \$19.6 million, the impact of the repeal of this tax for 2010 is an approximate \$19.8 million shortfall from the 2010 Adopted Budget amount of \$39.4 million.

#### State and Federal Aid

The Fiscal 2010 Adopted Budget includes \$231.4 million in State Aid. This Third Quarter Report reflects a deficit of \$16.8 million. The projected deficit is primarily due to the failure of the New York State Legislature to implement a County increase in cigarette sales tax which would have resulted in an additional \$16 million in revenue. Approximately \$3 million is due to lower spending in Preschool expenses. These items were partially offset by higher reimbursements for Home Relief and other reimbursable expenses in the Department of Social Services (DSS).

The Fiscal 2010 Adopted Budget includes \$177.5 million in Federal Aid. This report reflects a projected surplus of \$5.5 million. This surplus is primarily due to an increase in TANF, Safety Net, and Day Care caseload reimbursements in the DSS.

#### Department Revenues

Department revenues are generated from fee-based services provided by various County departments. In 2010, the projected impact is a deficit of \$5.9 million when comparing the current projection of \$95.1 million with the 2010 Adopted Budget amount of \$101.0 million. The deficit is primarily resulting from lower attendance in the County Parks as well as lower Medicaid and other insurance reimbursements to the Department of Health.

| oense | OBJECT AND NAME                             | 2010 Adopted<br>Budget | 3rd. Qtr. 2010<br>Projection | Fav / (Unfav) | Explanations  |

ECONOMIC ACTIVITY REPORT

#### Fiscal 2010 Third Quarter Economic Activity Report

The US economy, which emerged from the recession in June 2009<sup>1</sup>, has seen slightly positive growth in the second and third quarters of 2010. Even with the pickup in the economy, it will likely be a more tepid recovery for the remainder of the year as several factors will continue to weigh on the pace of gains realized in prior years.

#### National Economy

- For the U.S., the economy will likely not see the gains experienced prior to the recession of 2007 due to slower gains for spending by consumers. The more modest rise for spending by consumers most likely will be the result of high unemployment which may hover at or below 10% during the year. Currently, the national unemployment rate stands at 9.6% as of September 2010.<sup>2</sup> This may be slow to fall even with a gain for the economy with many employers generally unwilling to bring in new employees until they are confident that the gains for the economy will last. Also, with prices for housing having fallen sharply from their peaks of a few years ago, and the availability for credit still somewhat limited, consumer spending will continue to be restrained.<sup>3</sup>
- Spending for investments may increase slightly into the year, mainly in the housing area. Despite the drop in home sales, once the government-funded home buyer tax credit expired at the end of April, recent reports indicate that housing is stabilizing. This is likely the result, of low interest rates and low home prices. The pace of the recovery will be very weak as high unemployment and a glut of homes remain.<sup>4</sup>
- Outlays by the federal government will also be restricted as large deficits will continue to grow. State and local governments will also see spending tempered due to restricted revenue streams.<sup>5</sup>
- $\circ$  Foreign trade may provide an area for gains with the demand for exports rising with foreign economies generally emerging from their downturns somewhat later than that for the U.S.<sup>6</sup>
- Employment gains for the U.S. remained tepid into the third quarter, and essentially flat since the end of the second quarter. Government employment fell by 121,000, mostly due to the departure of 114,000 temporary workers hired for the 2010 Census. Nominal growth in private service-providing industries like professional and business services, education and health services, and leisure and hospitality helped to offset government losses. The government sector will most likely see slower gains with the federal government impacted by the budget deficit and state and local governments struggling to balance their budgets each year. This leveling out of the demand

<sup>&</sup>lt;sup>6</sup> Nassau County Office of Management and Budget 2010 Projection

for labor will cause unemployment to remain at or slightly below the 10 percent level even with modest gains in national GDP seen at the start of 2010.<sup>7</sup>

• The slowdown in economic growth will imply a more modest pace for aggregate demand that would be generally anticipated to hold price gains under control. However, part of the slowdown may be offset by a rise in the general price level due to all the money that the Federal Reserve has pushed into the economy since the recession started in an effort to offset the spending decrease particularly by consumers.

#### **Regional Economy**

- For Nassau County and the region, the impact of the national recession continued to weigh on the local economy in the third quarter. Nonfarm payroll employment, increased by 5.5% in July 2010 compared to a year ago. Employment related to trade, transportation and utilities showed the greatest gains in employment versus that of a year ago. Employment in government and finance-related occupations dropped by 3.1% and 1.3%, respectively. As mentioned previously, the drop in Census workers to 82,000 in August contributed to the fall-off in government-related employment.
- In the third quarter, non-farm payroll employment increased by 0.5% over 2009. Trade, transportation and utilities-related occupations led the way for this increase. Though an encouraging sign, non-farm payroll employment has fallen off considerably since the start of the national recession in 2007. Nonfarm payroll employment though, inched slightly from April 2009 to April 2010, up 0.7% for both Nassau and Suffolk Counties.
- The unemployment rate for both Nassau and Suffolk Counties stood at 7.0 % in August, slightly lower than 7.2% from a year ago. While the Long Island economy may be less impacted than the national economy, gains are yet to be seen across all industry sectors.<sup>8</sup> The major reason for the more modest falloff in the County employment is the fact that employment is less cyclical versus that of the U.S. with the greater mix of service sector employment and less for the construction and the manufacturing areas. Employment for Nassau County has been impacted since it houses occupations in the financial, information, manufacturing, professional and business services sectors. Unemployment for the region is below that of the U.S. and is anticipated to stay that way for the fourth quarter of 2010.<sup>9</sup>

Despite the downturn in the financial sector, the stock market has responded by remaining at a quarterly high of above 10,600. The Dow has come off of a low of 9,800 points in June, despite slow homes sales and a national unemployment rate hovering around 10%. The NASDAQ has fallen to 2,300 from its second quarter high of 2,500 indicating that technology stocks, along the technology sector have yet to see significant gains as was experienced at the beginning of the decade.

• In the third quarter, a weak economy coupled with a high foreclosure rate brought the number of homes in Nassau County that were sold to 600 units. This is in sharp contrast to the end of the first quarter, which experienced over a thousand units sold in the County. The median price of a home at the close of the third quarter in Nassau County was \$450,000, the highest since the start

of the first quarter of 2008. Nevertheless, the housing sector is undergoing a period of high supply and weakened demand. Once again, factors such as high unemployment rates, and a tightening of credit contribute to the weak housing market locally. The previous quarter realized higher home sales due to the government-funded home buyer's tax credit.<sup>10</sup>

• Despite the recent slowdown in the economy, an increase in consumer spending will have a positive impact for County sales tax revenues. Collections rose considerably during the first three quarters of the year and revenues are anticipated to increase for the remainder of the year.<sup>11</sup> These collections will impact future revenues greatly as gains in the future may be more modest as the County moves to a longer term growth trend rate.

#### Sales Tax Receipts for 3rd Quarter of 2010

Table 1 summarizes the actual third quarter monthly sales tax receipts from fiscal years 2001 through 2010. For the 3<sup>rd</sup> quarter of 2010, the total sales tax receipts was approximately \$245.0 million, a 2.0% increase compared to the third quarter of 2009. The percent change in receipts in the third quarter of 2010 versus the third quarter of 2009 indicates a positive sign that despite the economic slowdown, consumes are willing to spend. The average amount of sales tax receipts in the third quarter over the past ten years is approximately \$235 million.

| Series 2004 A    | 4.6100%     | 8/1/2012      | \$25,675,000.00  | (\$2,027,470.57)  |
|                  |             |               |                  |                   |
|                  |             |               | Total            | (\$38,717,878.91) |

#### **KPI REPORT 10:** Tax Certiorari Report

The County's Assessment Review Commission (ARC) has compiled the final statistics with respect to the 2011/12 Administrative Appeals filed. The results are as follows:

Administrative Appeals filed:

| Residential    | 99,640        |
|----------------|---------------|
| Commercial     | <u>19,140</u> |
| Total Appealed | 118,780       |

We would note that the residential appeals filed for 2011/12 declined by 10% as compared to the prior three year average.

Thus far for the 2011/12 Tax Year, we have made adjustments to the following major properties:

Retail

Sunrise Mall Plaza 200 Bloomingdale's (Roosevelt Field)

Office

990 Stewart Avenue

Residential

Kensington Gate Owners' Corp.
